

Expulsion of Hungarians Continues Today

LOWE IS INDICTED BY GRAND JURY

Lowe, charged with murder in connection with the fatal shooting of W. S. Garrison, 26, on the morning of Nov. 17, was indicted by the 91st grand jury...

Safe Christmas Urged By Fire Commissioner

By RAYMOND S. MAUK Fire Insurance Commissioner. All indications point to the realization that this Christmas will be one of renewed hope and good cheer...

That evergreen trees decorated with highly inflammable materials are a fire hazard...

That the cotton beard of a Santa Claus frequently catches fire with serious results...

That the old Yuletide custom of placing a lighted candle in the window near curtains has cast a cloud of gloom...

That small children should not be permitted to handle fireworks...

That wrappings from packages should not be allowed to accumulate...

That toy electric trains, motor cars and other appliances should be attached to light sockets without fuses and connections are in strict order...

That pennies or wire should not be used in replacing blown-out electric fuses. The fuse is the safety valve on your wiring system...

That the fire loss in Texas will be the largest since 1919.

That reminds me...

Humorous angles on a cold day, tend to massage the bite away so here goes a few that we picked up from "The Texas Outlook": "You have 10 potatoes and have to divide them between three persons. How is it done?" "Mash them."

Here's a skip from the cares of toil and labor... just to pass the time away... contributed by Mrs. Agnes Harwood Doyle...

Which reminds us that we have never seen anyone more interested, more enthusiastic and more charitable than the women of the Eastland Civic League...

Saturday morning at 10 o'clock Jimmy Burke, genial and 100 per cent co-operator with everything worth while and incidentally one of the best theatre managers in this section...

Good news is always welcome and the statement that the banks of the country need no more laws forced upon them is good news.

brace up the country with good sound legitimate banking rather than frustrating laws. Those present laws and protection to the depositor is sufficient, and after all the depositor has in the past been the goat. Not so any more with the insured banking law in effect. It should be permanent. And remember that your own Eastland National bank is an insured deposit bank as well as a member of the Federal Reserve system. Give it all the co-operation possible and those of our homefolks who haven't yet brought their money home, get it and put it in the Eastland National bank, and remember it costs less to get your exchanges and cashiers checks for out of town business from your home bank than any other medium of exchange.

There always comes into the life of any business or any individual a time when something unusual and not expected upsets the regular routine of things. Peace officers however can always expect the worst, as they deal mostly with criminals and those who would violate the laws against decent society. Among those however who has enjoyed a wonderful administration and with less than the usual necessity of using drastic measures to perfect an arrest is Virge Foster. Sheriff Foster is entering his third term as sheriff of Eastland county. There is no sheriff in the state who is more fearless nor that is more respected than Virge Foster. His manner of regarding the peace of his community has been more or less persuasive and effective even in dealing with the most hardened criminals with whom he came in contact. In making a raid on a still Thursday morning a man was killed by a bullet which was allegedly fired by Sheriff Foster. The aftermath version of the affair was such that would completely exonerate any inference that Sheriff Foster had any such intention that his gun should be the cause of anyone's death. The gun was not even aimed at the man when fired from accounts of those who witnessed the affair. It can be termed purely an accident. Sheriff Foster is merciful at heart, remarkable as a peace officer, and just in his treatment of his fellow man whether criminal or otherwise. The occasion was just one of where the fates stepped in and caused the circumstances as they are. Sheriff Foster deserves the respect of the community he serves. He is a peace officer worth while and he can be trusted to carry out the principles of law and order with a determination to see that it is done, and no law violator can place the blame of the consequences upon anything but their own shoulders no matter what happens. Such men as Virge Foster are valuable to the community, state and nation. More of his kind are necessary and we're for him.

BATTLED BACK FOR LIFE

OLEAN, N. Y.—Jack Leahy had to fight for his life with a five-point buck deer in the woods near this city when the animal, instead of fleeing, attacked the man. Leahy was severely bruised and it was feared he suffered several broken ribs. He finally drove the deer off by pounding on its head with a club.

For a Safe Holiday Season

The Holiday Season is designed to bring joy and happiness—but it likewise brings with it a vast amount of preventable misery, because of the accident toll. The gravity of the problem is magnified by the fact that a large percentage of holiday accidents involve children. Hundreds of them are killed and thousands are needlessly injured every December.

Here are a few rules, issued by the National Safety Council, to help pass a safe and happy Christmas season:

Don't permit children to play in the street—the old practice of hitching sleds to automobiles is especially hazardous.

Be extremely cautious in the matter of ice-skating—the ice must be at least four inches thick before it can be trusted to sustain a large group.

Winter brings special automobile hazards, such as ice and snow, poor visibility and soft highway shoulders. Remember them—and drive accordingly.

Don't use candles on your Christmas tree—don't put it near a stove—don't use inflammable trimmings—don't permit it to dry out in the house after Christmas—don't fail to anchor it firmly—don't use light bulbs of greater strength than one fireproof candlepower.

These little hints are simple enough—there's nothing but common sense behind them, and they will cost nothing, in either time or money, to follow. And they may be the means of saving the lives of loved ones.

Smokeless Cities

Some years ago various cities carried on campaigns to eliminate the smoke nuisance. The use of smoking fuels by the majority of homes had created a difficult problem in closely packed urban districts, and the smoke was proven to be highly inimical to the health of residents and workers, as well as to plant life.

Depression threw a wrench in the movement, inasmuch as householders were unable to go to the expense of installing smokeless fuel equipment, and were forced to get along with their old heating plants. It seems inevitable that, as good times return, the effort to get rid of smoke will be renewed, and that thousands of homes now using outmoded heating systems will replace them with oil and gas. The result will be stimulation of smokeless fuel industries, beautification of cities and higher health standards in our urban areas.

A chronic kicker is sure to let his foot slip some day.

Referendum Date For Bankhead Act Is Now Announced

COLLEGE STATION, Friday, Dec. 14, 1934, has been set as the date for the Bankhead referendum throughout the cotton producing states by the agricultural adjustment administration, according to information received by H. H. Williamson, vice director and state agent for the extension service.

At this time eligible voters will be asked: "Are you in favor of continuing the Bankhead act for next year (June 1, 1935 to May 31, 1936)?" An eligible voter is defined in the act as "a person who has the legal or equitable right as owner, tenant, share-cropper, or otherwise to produce cotton on any cotton farm, or part thereof, in the United States for the crop year 1936-36."

According to that, any person is eligible who signed a 1934 and

1936 cotton acreage reduction contract as well as any person who is or was eligible for tax exemption certificates in 1934. Any other person is eligible who presents proof that he owns and has a present right to produce cotton on a cotton farm, or any person who signs and files a witnessed statement that he has made arrangements to produce cotton on a cotton farm in 1935 by entering into a lease or share-cropping agreement.

If ownership and the right to produce cotton on a cotton farm are held jointly by two or more persons, all such persons are entitled to vote. The term "cotton farm" means any farm on which cotton has been produced commercially one or more years since 1927. Individuals who are in doubt about their eligibility to vote can obtain information from the community committee which will have a list of eligible voters.

Henry A. Wallace, secretary of agriculture, defines the impartial attitude of the adjustment administration in a statement that will be given each voter with his ballot.

The referendum is provided for in the Bankhead act itself. If two-thirds of those who have the legal

right to produce cotton favor the continuation of the Bankhead act, and if the president finds and proclaims that the economic emergency in cotton production and marketing will continue to exist, the provisions of the act will be extended to cover the period of the crop year 1935-36.

"Cotton farmers," a portion of the statement reads, "must decide whether, in their opinion, the adjustment of cotton production under the voluntary contracts is sufficient to meet the requirements of the present emergency. Will the efforts of a small minority of non-cooperators, the tendency toward more intensive cultivation, and the possibility of new lands coming into cotton production combine to increase total production above the point which seems desirable? That, it appears, is the central question involved in a decision on continuing the Bankhead act for next year." The secretary emphasizes in his statement that the administration is not seeking to impose its views upon the producers and that "it is for the cotton farmer so choose."

The referendum is provided for in the Bankhead act itself. If two-thirds of those who have the legal

Hi-Y Play Date Changed at Meet To December 21

The Hi-Y meeting Tuesday night was a marked one in the short history of the club because of the important business carried out.

The date of the Hi-Y play has been changed to Dec. 21, instead of Dec. 14. Tickets for this play have been printed and will be on sale in a very short time.

The main business of the meeting was the selecting of several new members from the list of applicants. Those who applied and were not chosen at this meeting may be elected at any future meeting.

Those who were voted in Tuesday night were Boyd Tanner, Wendel Seibert, Tom Harrison, John Hart, Warren Lane and Jimmy Hahon. Those who wish to be members should keep in mind the purpose and aim of the Hi-Y. It is to create, maintain and extend throughout the school and community high standards of Christian character.

Hi-Y pins were presented to the members. The white cross on the emblem stands for purity. The red triangle for red-blooded service and growth in body, mind, and spirit.

Members who were present at the meeting were Ralph Mahon, Bill Satterwhite, Rex Gray, Clyde Chaney, Parker Brown, Mike Williams, Marshall Coleman, Raymond Pipkin, Sam Butler, Jack Teatworth, Wesley Lane, Horace Horton, and Terrell Coleman.
