The investigation resolution was withdrawn only after Speaker Coke Stevenson indicated he would hold good a point of order against it. This point, raised by Representative Olin Van Zandt, is that the legislature has no power to investigate matters upon which it cannot legislate.

Gambling and liquor legislation have not been submitted for the special session.

### Spider Bite Brought 20 Pound Reduction

WICHITA, Kan.—Mrs. D. Stevens has found a swift method to reduce but she emphatically does not recommend it to others seeking a slyph-like figure. She lost 20 pounds in six days after having been bitten by a black widow spider.

"I'd rather have the 20 pounds than the misery," she declared.

In a sudden dash the bands captured the towns of Huachisimas, Linares and Montemorelos, killing seven persons, wounding more than 20, liberating all prisoners in one jail and, it was reported, robbing banks and levying contributions from merchants.

The bands fled to the mountains.

### NOME GUARDED AFTER A FIRE SWEEPS TOWN

By United Press  
NOME, Alaska, Sept. 18.—Armed vigilantes, reminiscent of the days of Nome glory, patrolled the streets today to guard food and clothing left after fire had leveled two thirds of the famous far north mining camp.

The fire burned every structure from the Golden Gate hotel to the water front, then, with the wind dying down, the flames spent themselves and the fire fighters obtained control. Only one hotel and one warehouse remained untouched.

Properly damaged was estimated at \$3,000,000.

Three coast guard cutters were due at the city tomorrow night. Coast guard headquarters reported each carried a medical officer and supplies to supplement the work of Dr. Rex Schwartz, mayor and only physician at Nome.

### All-Wrestling Show Enjoyed By The Ranger Fans

Chas. Lay, Elks promoter, made good his promise to give the fans a good show last night and it was a real good match and went for a draw.

Pat Swanson and Paul Murdoch each won a fall and the time was up before the last fall, this being a draw. These boys were evenly matched, Swanson having a shade the best of it because of his aggressiveness. However, Murdoch was the favorite of the fans and Swanson was booed on numerous occasions.

The best bout of the evening was between Chas. Lay of Ranger and Frank Schools of Los Angeles. These boys were fast and played the game fair. There was not any unnecessary roughness in any of the three falls. Each of these boys put out all he had and the match was enjoyed by all. Lay was the favorite of the fans but lost the match in the third fall. Whitney Davis was the referee.

All the proceeds from these entertainments go to charity. Lay promises the fans a new card next week and the public is invited.

### Adding Machine To Receive Pardon

PITTSBURGH.—The man "who once raced an adding machine and won" will be freed on parole from the Western Penitentiary soon.

Eugene H. Kuhn, the "human adding machine" was sentenced 26 to 40 years in 1919 for killing his estranged wife's parents. Recently Governor Gifford Pinchot granted clemency and Kuhn will soon be freed.

His mathematical ability has repeatedly amazed officials at the penitentiary. He can add two columns of figures simultaneously and can divide, multiply and subtract large sums entirely "in his head."

He can easily do the work of three clerks. Penitentiary officials said he has never taken any educational courses in mathematics.

## Buying of Sheep Is Begun Over Texas

AUSTIN.—Buying of sheep in Texas under orders from the Agricultural Adjustment administration at the rate of 12,000 head per day in 44 counties has been started, it was announced by C. Z. Crain, head of the commodities distribution department of the Texas Relief commission, which will act as agent in the shipping of the animals from pens to processing plants.  
Crain said a quota arrangement similar to the one used in the cattle buying program will be worked out for the sheep program, probably by the end of this week.  
All sheep bought will be processed by commercial canneries under contracts with the Federal Surplus Relief corporation. None will go to the government canneries in Texas, as has been the case in the cattle program.  
Crain said applications for the sale of two and a half million head of sheep to the government had been made at the last count and he said he expected that many or more to be taken in the program.  
Bureau of animal industry inspectors will not be used in the sheep program, as a flat rate of \$2 per head will be paid. Only eyes, one year old or older, will be bought.  
Crain said he had not yet received definite word concerning the government's project goat buying program.  
Counties in which sheep will be bought are Bandera, Bell, Brewster, Brown, Bosque, Burnet, Coke, Coleman, Comanche, Crane, Crockett, Concho, Edwards, Glasscock, Irion, Kerr, Kendall, Kimble, Kinney, Lampasas, Llano, McCulloch, Mason, Maverick, Menard, Mills, Nolan, Pecos, Presidio, Reagan, Real, Runnels, Reeves, San Saba, Schleicher, Sterling, Sutton, Taylor, Terrell, Tom Green, Upton, Uvalde, Val Verde, and Williamson.

**Texas U. to Try to Show that Rockne System Is Not Dead**  
By United Press  
AUSTIN.—Coach Jack Chevigny, protégé of Notre Dame's famed Knute Rockne, started at the University of Texas this month to show the sports world that Rockne style football is not a dead issue.  
Texas' new coach has answered criticism that the Rockne defense is helpless before forward passes with the announcement that the regulation seven-man line, four-man zone secondary, would be used to stop the passes and charges of opposing teams.  
This year marks Chevigny's debut in the Southwest conference. He came to this section last year to coach St. Edwards University of Austin to their first Texas conference championship. A forward pass was responsible for the only touchdown scored against St. Eds in the conference last season.  
Many believe Chevigny will be forced to change his defense against Coach Ray Morrison's air-minded Southern Methodist University Mustangs. Morrison's teams have been notable successful against Rockne style defense, even at Notre Dame when the nation's late No. one coach was at his height.  
Texas will depend on offense rather than defense to win its games. Under the revised rules of forward passing, permitting successive incomplete passes without penalty and allowing incomplete passes to fall over the goal line without losing the ball, Chevigny expects to provide an attack that

will be both colorful and effective.  
The new rules make possible a wider range of ground plays by presenting a greater puzzle for the defending team. The Texas coach further insists on versatility in this backfield, and insofar as possible will further befuddle the opposition with four triple-threat backs, all of whom must be able to lead interference and block.  
Whether Rockne football at Texas is successful or not, it is certain the Longhorns will see plenty of that style this year. Their opening game is with Texas Tech at Lubbock where Pete Cawthon teaches this system. The following week-end, Chevigny will introduce a new custom in this section when the Texas variety and freshmen play a regulation game.  
The climax of Texas' non-conference season will come Oct. 6, when Texas meets Notre Dame at South Bend, in the nation's featured game of the week.

## NEW COMEDY FROM FOX OPENS WEDNESDAY

Featuring Sally Eilers and Zasu Pitts, "3 On a Honeymoon," Fox Film's latest comedy romance opens at the Lyric Theatre Wednesday. The picture, directed by James T. Tynan, is said to be a delightful, gay and giddy romance of a spoiled and willful girl who has been leading a hectic existence.  
She decides to take a European cruise, and while on board, her daring escapades prove to be a constant annoyance to the handsome second officer who has been instructed by the captain to keep a watchful eye over her. Although she assumes an impersonal attitude he finds himself falling deeply in love with the girl. Just when it seems that their romance is about to reach a happy conclusion, the girl finds herself involved in a blackmail plot and a murder. Unknown to the young officer, her efforts to help a honeymoon couple on board get her involved in the entire mess. How she finally manages to disentangle herself from these troublesome complications and win the young man, constitutes what is reported as a

stirring climax to the production.  
Charles Starrett, the young man who gave so excellent a performance in "Mr. Skitch," has the masculine lead opposite Sally Eilers. There are said to be many, are portrayed by that hilarious comedienne, Zasu Pitts. The other members of the cast are Henrietta Crosman, Irene Hervey, John Mack Brown, Russell Simpson and Cornelius Keefe.

## TEXAS LIFE CONVENTION

**REPRESENTING TEXAS LEGAL RESERVE LIFE INSURANCE COMPANIES**

Without the aid of the Western Electric Company, the men and women who furnish your telephone service would not serve you so well.

Today, as a proven fact, this company buys from Western Electric at a price that would be forced to pay in a competitive market.

Because the telephone service is so important for the long pull, these savings have many years been devoted, not to profits, but to holding the cost of the telephone service low.

This is a policy adopted in the past that from your standpoint as a customer, our own, it is sound and workable. It is based upon the belief that what the telephone user is in the end the company that will bring us the sure, more successful. Southwestern Bell Telephone Company.

Thomas A. Watson, the young electrician who helped Bell invent the telephone, made with his own hands the first instruments. But the demand grew too big for Watson to handle, so licenses were given to four other manufacturers.

Confusion resulted. By 1880 telephone designs of these manufacturers were as varied in appearance and quality as the women's fashions for that year. Lack of uniform quality hindered the development of good telephone service.

To gain this uniformity, these companies were consolidated in 1881 as the Western Electric Company, which for more than 50 years has served as the manufacturing and purchasing agent for the Bell System.
