A Pleage For Patriotic Texans

A hundred years of freedom and

progress is to be celebrated in 1936. Our progress as a State has been phenomenal. It is a source of pride to the Nation. Texans, true and unafraid, pledge themselves to the unparalleled success of their State's hundredth anniversary.

"Men of thought, be up and stirring." Put this purpose before you. Let every Texan burn the Centennial pledge into his heart:

I will think-talk-write . . . Texas Centennial in 1936! This is to be my

celebration. In its achievement I may give free play to my patriotic love for Texas' heroic past; my confidence in its glories that are to be.

Texas Centennial Commission

AS TO CHILD LABOR

A bill to regulate child labor may be introduced at the approach of the next regular session of the Texas legisla-

Newspapers to some extent employ minors in selling and delivering newspapers. The Texas Circulation Managers association is concerned about the application of any proposed bill as it may affect the operation of their departments of the newspaper business.

Any broad newspaper policy should be based on the greatest good to the community involved. It is inconceivable that any publisher or any circulation manager of merit through the abuse or misuse of the child's time. Wherever any abuse in the publishing business is occurring it should be eliminated. If a law is necessary for such a purpose it should be passed.

On the other hand any fair legislative committee will not be composed of men desiring to reward or punish newspapers at the expense of a child.

The child himself is the issue and the question. Any newspaper that cannot be profitably published without the abuse of the child should be suspended, and any legislator who registers a vote either for or against the pocket book of the Texas press is misconstruing and abusing those who elected him. The people of Texas are first all the time for their state and for their children.

If the circulation managers of Texas can and do show the legislators that children under 18 years of age do benefit as a whole through selling newspapers, the only question remaining for the legislature is to determine whether Brain Trust, because no man or set of men can get a corany abuses exist in any individual property and to provide ner on brains in this country of free men. by law against their continuance.

As a broad question the regulation of child labor has been found necessary through law and a fair Texas press ers; they are just plain "windjammers" and should take a Ele nows this. Certainly a fair Texas press will not fight the long vacation. general principle of regulation of child labor through law because of fear that its own pocket book might incidentally be affected.
