VERDICT CAN BE RETURNED

Judge Calls Attention To Credibility of Some of Witnesses.

FLEMINGTON, N. J., Feb. 13. -A jury of four women and eight men began their deliberation on the guilt or innocence of Bruno Hauptmann, accused of murdering Charles A. Lindbergh, Jr. Just as Thomas W. Trenchard,

in a strong charge to the jury, ad-

vised them they could return one

of three verdicts. They are: 1.-Guilty as charged in the indictment. 2. Guilty with a recommenda-

tion for life imprisonment. 3 .- Acquittal. The justice concluded his charge at 11:15 a. m., but the jury did not retire at once. Justice Trenchard asked them to remain in the jury box until their room was pre-

pared with its exhibits. They left the courtroom at 11:20 while the spectators remained in their seats and counsel for both sides went into a confer-

In the course of his charge, Jus-

tice Trenchard rules: 1.-That if Hauptmann entered the Lindbergh nursery by opening the window, it was burglary and that the resultant death of the

child was first degree murder. 2.—That it was possible to recommend life imprisonment if he is found guilty, but the recommendation "must be part of the

3.—That if there is any reason able doubt on any important point implicating Hauptmann, the ver-

dict must be acquittal. The justice cautioned the jury

Regarding Hauptmann's own testimony he said the jury should disregard the fact that he was an interested party, but should conider his credibility from the standpoint of his criminal record in Germany.

Defense counsel objected strenuously to certain portions of the charge, particularly involving proof the child was taken down the adder from the nursery.

Funeral For Baby Who Fell Sunday Held On Tuesday

Funeral service were held from the Methodist eburch in Eastland Tuesday for Douglas Seed, infant of one year and 11 months, son of Mr. and Mrs. Bill Seed, with the Baptist pastor from Strawn in charge, with Rev. E. R. Stanford assisting. Interment was at Strawn.

The baby was fatally injured a chair, broke its neck and died 30 minutes later in an Eastland

Governor Allred and **Lump Sum Appropriations**

Gov. James V. Allred has recommended to the legislature that a lump sum appropriation be made for the University of Texas and for Texas A. & M. college, subject to adequate regulation of of salary scale and detailed reporting on how the money was spent. Governor Allred commented that he had found it impossible to make budget recommendations in detail.

The lump sum proposal is the primary program of friends of the university for 1935. Only three states other than Texas, maintain out-moded itemization of education budgets, other legislatures having put detailed management of universities in the hands of controlling boards. The board of regents of the university has made an enviable administrative record. It has been worthy of confidence of the legislature and of the people, and does hold that confidence. There is every reason why the board should be directed to fix detailed expense items subject to broad outlines of policy laid down by the legislature.

A second point is in the university program-restoration of salary cuts. This is an extremely desirable objective. Yet its advocates are anxious to reconcile their views with the true necessities of the state, as determined within the next few months. Ultimately the salary scale must be raised, if a University of the First Class is to be maintained

A report of the university board of regents to the legislature invites a full investigation of its affairs. Complete records are already available, in line with the university's program of pitiless publicity. A most wise requirement is Governor Allred's suggestion that these reports be made nandatory. And there is a standard method of accounting already in vogue.

Lack of wisdom in taxation is most evident in the failure to consider the effect upon the people from whom the money is taken.

Income Tax In A Nutshell

Capital Gains and Losses

duction for losses from the sale tions 11, 112, and 113.

upersedes or replaces the 12 1/2 account in computing net income percent captal gan and loss provis- gains and losses from the sale or ions contained in section 101 as exchange of capital assets as comwell as the limitation on the de- pared and recognized under sec-

or exchange of stocks and bonds | Section 117 (a) provides that in held for less than 2 years as pro- the case of a taxpayer other than An entirely new treatment of vided for by section 23 (r), (s), a corporation only the following capital gains and losses is provided and (t) of the Revenue Act of percentage of the gain or loss recfor by section 117 of the Revenue 1932. Section 117 deals with the ognized upon the sale or exchange Act of 1934. Such new treatment manner or method of taking into of a capital asset shall be taken

ALLEY OOP

come: 00 percent if the capital asset has been held for not more than 1 year; 80 percent if the capital asset has been held for more than 1 year but not for more than 2 years; 60 percent if the capital asset has been held for more than 2 years but not for more than 5 years; 40 percent if the capital aset has been held for more than 5 years; but not for more than 10 years; 30 percent if the capital asset has been held for more than 10 years.

Section 117 (b) defines capital assets as property held by the tax-payer (whether or not connected with his trade or business), but does not include stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary ourse of his trade or business. In this definition the length of time the asset was held by the taxpayer is disregarded. Section 117 (c) provides the

rules for determining the period for which a capital asset has been held and is similar to the provisions of section 101 (c) (8) of the Revenue Act of 1932. These provisione are in general to the effect that, where property is acquired in an exchange and the property so ecquired retains the old basis on which to compute gain or loss as it had in the hands of the person from whom it was so ecquired, the period for which the property disposed of in the exchange or the period during which the property was held by such former owner is also to be included in determining the period wor which the property is held for the purpose of section 117 (a).

Section 117 (d) provides a very portant limitation affecting all taxpayers (including corporations, except with respect to banks and trust companies) that is, that losses from sales or exchanges of capital assets shall be allowed only to the extent of \$2,000 plus the gains from such sales or exchanges.

Section 117 (e) provides that gains or losses from "short sales" of property, and gains or losses attributable to the failure to exercise privileges or options to buy or sell property, shall be considered as gains or losses from sales or exchanges of captal assets held for one year or less. Section 117 (f) provides that amounts received upon the retirement of corporate bonds and similiar evi-

Will Eliminate Highway Hazard

State highway workers Wednesday began work of lowering of grade near the Main street-Commerce street junction, Walter Gray, city manager, announced. The grade will be lowered two feet and six inches in order to

eliminate the hazard of motorists

A Doctor Knows!

And doctors use a liquid laxative

There's a very good reason why doctors and hospitals have always used liquid laxatives! You'd use a liquid, too, if you knew how much better it makes you feel.

A liquid laxative can always be taken in the right amount. You can gradually reduce the dose. Reduced dosage is the secret of real and safe relief from constipation.

Just ask your own doctor about this. Ask your druggist how popular liquid laxatives have become. The right liquid laxatives have become. The right liquid laxative gives the right kind of help, and the right amount of help. When the dose is repeated, instead of more each time, you take less. Until the bowels are moving regularly and thoroughly without any help at all.

People who have experienced this comfort, never return to any form of help that can't be regulated! The

problems and it does us good to talk them over. That's why we have our 'Confi-corner.' Such a lovely young girl was here, sitting in the same chair you're sitting in. half an hour ago. She came to me because she wanted advice and I gave it to her. It seem some of the girls she works with have taken up some very dangerous ideas. Dangerous for themselves and for others! They've talked to this girl, tried to make her dissatisfied with conditions in the mill, telling her the workers are underpaid and the hours too long and I don't know what all.

"She didn't know what to do. She heard there was going to be a meeting to organize the mill workers in opposition to the company. These other girls insisted she must come to the meeting. She was afraid of what might happen if she ddin't go-and of what might happen if she did. Night after night she worried about it and finally she did the right thing-she came to me. Do you know what I told

Gale shook her head.

"I told her to go to the meeting and hear what was said there. I told her the best way she could help these other employes was to let me know what is going on. Because it's my work to help our girls, even when they're in the wrong. But how can I help them unless I know just such things? I told her she and I would work together to stamp out this dangerous, un-American propaganda. She left me, completely reassured. She's taking the right course and knows it.'

Miss Groves looked at Gale and went on in her purring voice, "You works in a silk mill. She and her She walked more rapidly. (To Be Continued)

New Baby Is Born In State of Texas

AUSTIN .- A new baby every four minutes, 320 every day, 10, 100 a month-that's the record of Texas, who showed 121,508 births registered with the State Bureau of Vital Statistics in 1934. This total carries an increase of 8,800 over 1933, when 112,669, the greatest number of births ever By Cowen registered with the bureau in any year, were registered.

The 1934 records showed an excess of 57,956 births over the total deaths. Last year in Texas there were 63,552 deaths recorded, or one death every eight minutes. 174 each day, or 5,296 per month. Or putting it another way, about two babies are born in Texas each time a death occurs in the state.

The Bureau of Vital Statistics is a part of the Texas State Department of Health and is charged with the duty of seeing that every birth and death occurring in the state is properly filed and registered. Such records are known as vital statistics because the information contained is of vital importance to the person himself, the ommunity, and the state.

Texas is now in the registration area for both births and deaths. Every one can assist in helping to keep our records at this high requirement if they insist that every birth and death occurring in their occurring in their family be re-

sprigs springing up everywhere.

it that they can find everything they want right here at home . The least thing that loyal folks can do is to try Eastland first . . and above all make selection now and get te pick of the new arrivals. The rains and everything else in proportion have made the merchants feel decidedly optimistic and they are taking advantage of it by buying lots of pretty things, and they have a right to expect their own home folks to come and buy from them . . its your town and our town . . .

Down at the City Grocery and Market, Ben Pryor, popular member of the Eastland City Commission is proudly displaying in of the City Commission will present tonight to Hon. J. M. Sherrell. fellow member, as a token of esteem and in honor of his recent marriage to Miss Vera Coon. The cake is a beautiful work of art Perhaps the most ambitious and the world at large. The guess as Mike Andrews, chef of the Court has ever attempted, Paramount's to answer . . the finger of guilt until closing time Mr. Pryor
