The Bill Is Coming Due!

Have you ever noticed how easy it is to establish a charge or term-payment account in a department store? But no matter how easily the credit is obtained, or how small the payments, they come due regularly and if not paid—well, the law just takes its course and the debtor suffers.

The people of the United States are just now waking up to the fact that they have been on a gigantic spending spree. Never did they use their public credit so freely. But the day of reckoning is here. The charge accounts are coming due and the payments will have to be made.

In the latter case, however, the people thought they were going to be given something for nothing—that the billions of dollars handed out in the name of "relief" would be taken from somebody else's pocket.

But the dream has ended. The taxgatherer's hand is going right down into John Jones' pocket to take out the money to pay the charge account, for the "gifts" to Jones.

A new tax-raising bill has been thrown into the lap of Congress that will have a tremendous effect on the earnings, the savings and the estates of every citizen. For camouflage and publicity purposes, it is designated as a "share the wealth" or "soak the rich" tax program. The Portland Oregonian says:

"This is but the beginning... The government Santa Claus is about to be withdrawn... Gradually he is to become overshadowed by another figure. This one will appear to the taxpayer ere he plays out his part, like a government Shylock. There is no other way.

"Good old Uncle Sam is going to make the rich pay and pay. Nothing is said about making other people pay. But that will come later. We are all going to pay—pay through the nose and pay till it hurts, in increased federal taxes down through the lower brackets. Our tax bill during the next generation is going to be a thing high, wide and handsome, and at the same time fearsome. It is not going to fall lightly anywhere. It is going to fall heavily on all who have incomes, in whatever brackets."

Charge accounts of the government (tax bills) become due just as do charge accounts of stores (private bills). There is no difference whatever in principle—but there is a great difference in fact, in that the government, if you fail to pay your tax bill, can use more harsh and ruinous methods on the individual to force payment than can the private store. There is no leniency shown by the tax collector. He collects your taxes or he takes your property.—Lufkin News.

Southern Cotton Growers and Their Demands

An all-South cotton conference, sponsored by the New Cotton Association of Commerce, ended in a riot. There were hundreds of dirt farmers (or growers) who responded to the call. Well, the association of commerce named the chairman. He manhandled the dirt farmers and they responded. A dirt farmer from Lake Providence, La., offered a resolution that the meeting officially endorse the federal cotton program. His resolution was quickly seconded by other farmers. Chairman Haspel declared the resolution out of order. He used the steam roller. He adjourned the convention until "the following morning." Commissioner of Agriculture J. E. McDonald was a delegate. He submitted his plan. He suggested a domestic price of 20 cents for cotton, \$1.50 for wheat and "comparable" for that portion of our major agricultural crops domestically consumed. McDonald declared that under the allotment principles of the Dies bill, now before Congress, "the price of that portion of our major agricultural products domestically consumed would be held at such a level as would assure prosperity." The Texas farmer from the county advised that all farms should be prorated under AAA regulations and that the prorata on each should be held at the protected prices in this country with the balance sold abroad "at any price it would bring." He further stated that this principle is that upon which the manufacturing industry of the United States operates successfully. Under it, according to the Texas commissioner of agriculture, the domestic market pays protective prices for the surpluses go abroad at or near the cost of manufacturing.

Picking time is here in the coast country and the valley. Marketing and marketing are on the way. There are thousands of prophets who are advising the farmers how to pick, how to make money and how to invade the foreign markets and sell their surpluses. Texas will produce a very big crop this season under the control system. Uncle Sam has in storage millions of bales of cotton. He has loaned millions on the fleecy staple. Processing taxes are under attack everywhere the republic over. Cotton growers are interested in the final outcome. Wheat growers are interested. There is a court of last resort. It may "say the last word" before picking time is over in West Texas.

It is a good idea to express sound sense in plain words.

EASTLAND MAN MADE DIRECTOR OF AN AIRLINE

Organization of the recently chartered Mid-Continent Airlines is completed. Hamilton, McRae, president of the Eastland Chamber of Commerce announced Saturday in Eastland following return from a stockholders meeting held in Fort Worth, where he was elected a director.

McRae, with O. E. Harvey and C. J. Rhodes, attended the meeting when R. H. Clement of Fort Worth and John Grimmitt of the same city were elected president and vice president in charge of operation, respectively.

H. E. Edwards was elected secretary. He is a member of a Fort Worth law firm, Trammell, Chizum, Estes and Edwards. The board of directors will include Clement, Grimmitt, Edwards and McRae, and President of the Sweetwater Board of Development Manroe.

Clement until recently was assistant supervisor of air commerce for the Department of Commerce in this section.

Grimmitt has been private pilot for Lew Wentz, Tulsa oil millionaire, doing flying for oil companies in West Texas and had charge of a fleet of planes for the Continental Oil Company at Ponca City, Okla.

Decision was made by the stockholders that Dallas would be headquarters and Braniff Airlines company in that city handle their ticket sales. Head offices of the company, however, will be in Fort Worth.

Tentative plans call for operation of the service, due before August 1, between Midland and Marshall.

OIL WELLS NEAR GORMAN MAKE GOOD SHOWING

GORMAN, Texas, July 20.—The Thompson well, located southeast of here, and the Gowen well, north of town, are in the pay level with good showings, it was reported here today.

The Gorman well is considered good for 20 barrels in its present production but it will be drilled deeper when 10-inch casing is taken from the hole. The well is making considerable gas and flows occasionally by heads.

Reports indicate the Thompson well is good for over a million feet of gas. Operators intend to drill 100 feet farther to reach a deeper oil structure.

Several are at work on a block of acreage in another part of the section that will open up new territory.

Storage facilities have been erected at both wells.

ABILENE, Texas, July 20.—Shackelford county's deep test, the Pitzer & West George T. DeLaFosse, drilled deeper to a total depth of 4,460 feet and last night 3,000 gallons of acid was being run into the hole.

After drilling the plug at a depth of 4,450 feet, corrected by steel line measurements, 15 barrels of oil per hour were swabbed from the hole the first hour, 12 the second, and no increase was shown deepening to the present total depth.

The well will stand as it is for three or four days, probably Monday or Tuesday, and then will clean out to determine the amount of increase in production made possible by the acid.

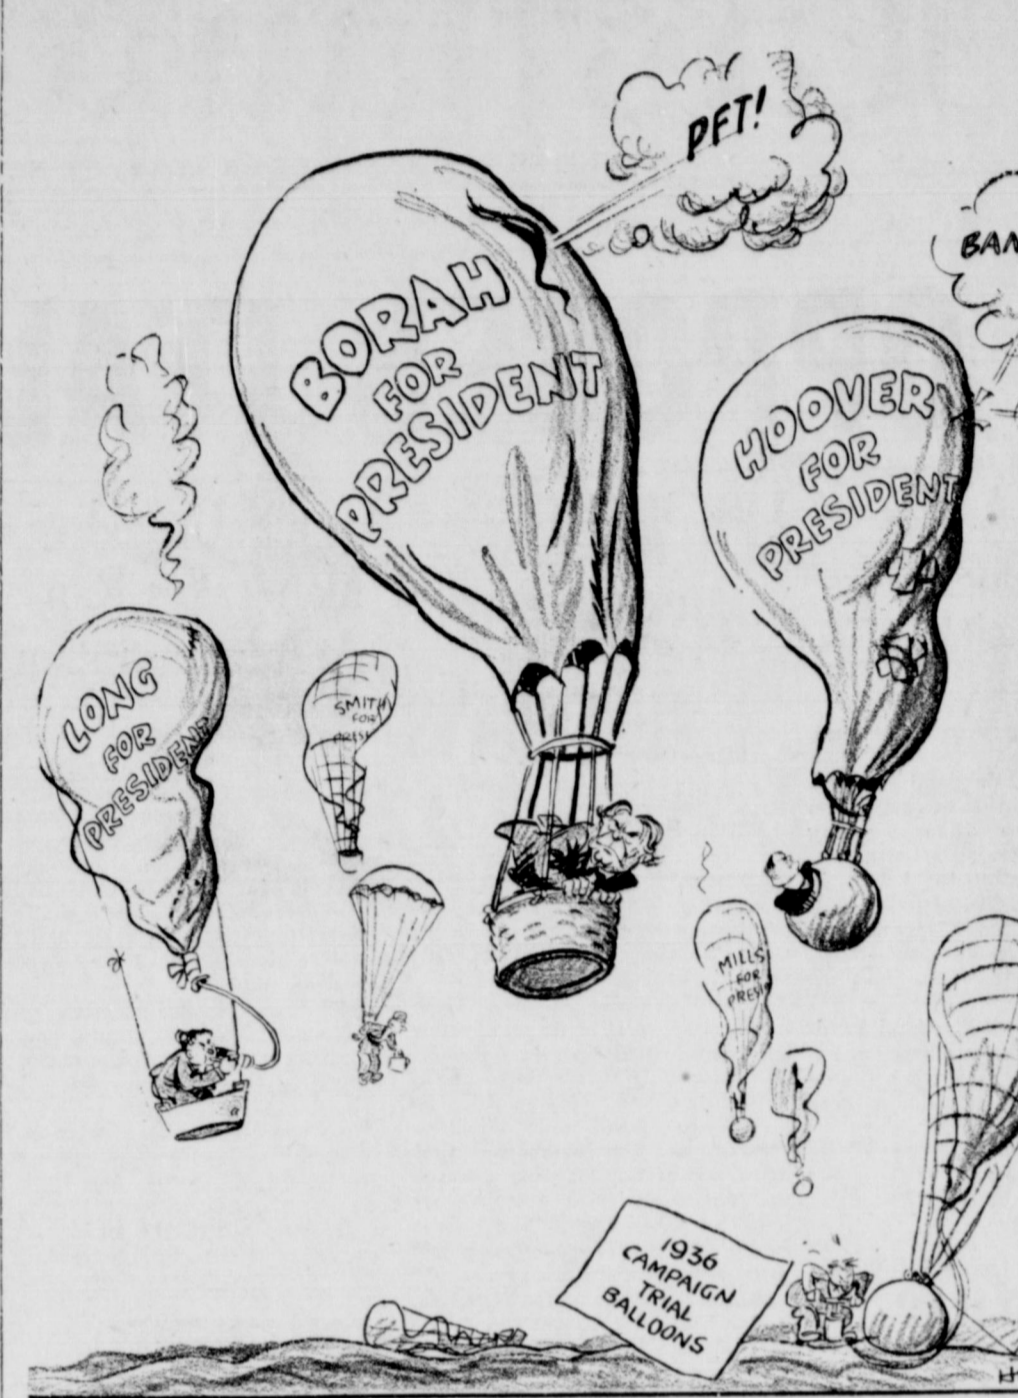

It is located in Section 1549, T. E. & L. survey, about eight miles east of Albany, and is one of the most important in this section of the country.

Contented Life Is Girls' Big Problem

BOSTON.—Contentment represents nine-tenths and financial return only one-tenth of a girl's vocational problem, according to Dean T. Lawrence Davis of Boston university's college of practical arts and letters.

"When a young woman, doubtful about the occupation in which she should engage, seeks advice from a competent counselor," Davis said, "the first question which she is likely to be asked is, 'What would you like to do best of all, provided a way could be found for you to do exactly that work?'"

Scout Tent City To Be Raised at National Jamboree

NEW YORK, July 20.—A complete city within a city will spring up almost overnight when upward of 30,000 Boy Scouts converge upon Washington for the National Jamboree celebrating the twenty-fifth anniversary of the founding of scouting in America.

The Jamboree will open Aug. 21 and continue through Aug. 30. It will be a world's fair of scouting drawing contingents from every continent. Delegations are expected from Great Britain, Canada, Cuba, France, Rumania, Hungary, China, Mexico, and the Soviet Union. Other countries promoting Jamboree contingents are Australia, British Guiana, South Africa, Haiti, Poland, Argentina, Belgium and the Scandinavian countries.

The scout city in Washington has been planned in complete detail by national headquarters here. It will have its own water supply, communication and transportation systems, and even a daily newspaper. Thousands of tents will be pitched on Columbia Island, within sight of the Washington Monument and the Lincoln Memorial.

Resources of the army and navy have been placed at the disposal of scout leaders. District of Columbia Scouts will serve as guides on numerous hikes to historic spots of Virginia. A special contingent of 1,260 boys from scout ranks will do police work for the camp. They will be divided into three groups, traffic guards, camp pa-

Food for the encampment for one day will total 250 tons. The estimated water supply will be 1,000,000 gallons daily. Special equipment has been bought to meet every need of this scout city. Included are small dry ice boxes for each troop, patrol tables and shower bath houses.

A review will feature the first day of the jamboree. The line of review will be along Constitution avenue, with President Roosevelt scheduled to pass through in a white house car. Later the scouts will march to the Ellipse for a formal welcome to the nation's capital.

Probably the most colorful event of the encampment will be the national grand pageant. It will be divided into four parts: "The Past of America," an Indian episode. "The Building of America," historical episode. "The Youth of America," scoutcraft episode. "The Future of America," citizenship induction ceremony.

The forthcoming jamboree will be the largest peace-time assemblage of youth in this country, according to headquarters here. The encampment will cover more than 400 acres and will include the most modern equipment of its kind.

In addition to the camp life, regional displays and friendship meetings, the scouts will go on extensive sight-seeing expeditions. First will be a thorough bus tour of the national capital, then a trip to historic Mount Vernon with many other hikes arranged by scout officials. Washington has been divided into four zones for hikes and a tour of each of these is on the program.

Scouts from every state will attend the jamboree. A section will be set aside for Sea Scouts and in addition to the regular program these youths will have an opportunity to cruise on the Potomac through the co-operation of the navy department and the coast guard.

CHRISTIAN SCIENCE SERVICES

"Life" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, today.

The Golden Text is: "How excellent is thy lovingkindness, O God! therefore the children of men put their trust under the shadow of thy wings. . . and thou shalt make them drink of the river of thy pleasures. For with thee is the fountain of life." (Psalms 36: 7-9).

Among the citations which comprise the lesson-sermon is the following from the Bible: "Search the scriptures; for in them ye think ye have eternal life; and they are they which testify of me" (John 5:39).

The lesson-sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "As adherents of Truth, we take the inspired Word of the Bible as our sufficient guide to eternal life" (page 497).

Grade Elimination Projects Are Urged

By HARRY GRAYSON

DALHART, Tex.—The Dallam County planning council has renewed efforts to get a grade elimination project for Dalhart.

Grade Elimination Projects Are Urged

Various other projects are being sought. They include a new junior high school building and gymnasium, repairs for county schools, community center for Texline, farmer-to-market road construction, according to County Judge Wilson Cowen, chairman.

Grade Elimination Projects Are Urged

CONNIE MACK named Hal Trosky as the most likely successor of Babe Ruth in the manufacture of home runs, but the big Cleveland first baseman is hitting only 250, and some of the critics are commencing to wonder if his sight have been a one-year phenom.

Grade Elimination Projects Are Urged

Trosky is only one of a number of the newer major league players who showed so much promise, but who have been unable to get going this season.

Grade Elimination Projects Are Urged

Bill Werber, of the Red Sox; Joe White and Marvin Owen, of the Tigers; Linus Frey, of the Dodgers; Frank Higgins, of the AAAAAs; Red Rolfe, of the Yankees; and Harland Clift, of the Browns, perhaps have been more disappointing to their managements than the others.

Clifton Dispel Doubt OWEN was ill this spring and has been in and out of the lineup, giving Flea Clifton an opportunity to prove that the Tigers weren't so weak in the way of reserves as everybody imagined.

Frey, the youthful Brooklyn shortstop, started out as though he intended to take his place among the leaders in just about everything, and the Flatbush flock slumped with him when his batting average fell to .249.

Handicapped by injuries, Higgins is hitting only 248, and his third year with the AAAAAs certainly is not turning out to be a charm.

Rolfe's poor hitting has been screened by the remarkable Yankee pitching. Such a keen judge as Rogers Hornsby believed that he had the makings of a remarkable long range hitter in Clift, but the Oklahoma man has failed to live up to expectations.

However, all the boys are young, and even fair ball players are so scarce that they get ample trials these days.

Screen Stars At Dallas

On their first visit to the Southwest, Art Jarrett, popular screen player, radio star and orchestra leader, and Eleanor Holm, international swimming champ and more recently singer with the Jarrett band, are attracting capacity dine and dance crowds to the Hotel Adolphus roof garden in Dallas.

thinking about money. Every so often I pinch myself and say that it can't last; but Mr. Marsh said the other evening that he may keep the place open until October. He seems satisfied with my work and although Mrs. Marsh is just a little difficult to get along with I feel I'm getting to know her better, and that her bite isn't as bad as her bark.

When she had sealed the envelope and addressed it, she thought, "I must write Bret, too." But she never wrote him. What could she write? They had parted so definitely, so finally, and there was nothing that had changed. She had come to Crest Lake against his will. She had told him, she remembered now with a little pang of regret, that he had no right to concern himself with what she did.

A dance was scheduled for the next Friday night—Marsh was bringing down a 10-piece band and a blues singer—and Jo knew that she would certainly have to meet Babs Montgomery then. Meanwhile she decided to avoid her if at all possible.

WHEN the aviator had gone on to his cottage Marsh said "Fragonet and his wife are coming in on the afternoon train. Like to ride to the station with me to greet them in proper style?"

Jo returned the greeting, but more effusively. "I want to see you later, Babs. I've been meaning to hunt you up, but—"

Marsh yelied jovially over the windshield. "Hi there, Pete!" The tall man turned and flashed a wide, dazzling smile, a smile that had seen hundreds of times at the little movie house in Weston, and at the neighborhood theater near the university district.

THE GREAT-HEARTED
26:5-12; II Samuel
1:23-27

Text: Look not every man on his own things, but every man on the things of others. (Galatians 2:4.)

The sweetest Psalmist stands out in the pages of the Bible, shining with the solemnity of faith and devotion to God. He lifted him to higher service and understanding of human life but mingled with him both in his sorrows of life. His life was spent as a caring for his father's wilderness, when he depended upon God as he bear and the lion from his His main weapon was a with stones. He became an in its use but acknowledged and directed his aim and end later to slay the giant, consolation was the harp. He to have absorbed the beauty nature into his very soul that it was the handwork of God, letting the quietness and itself into beautiful words of praise to God, who kept the sweet music of his harp from these fields that he summoned to be appointed by a prophet of God. The brothers had not thought to the youngest lad from his

Pharaoh tells us that the divine was departed from the distant Saul and was removed to in its protecting power and again to prophesy. The strange and demonical "Serpent" came upon Saul which suffocate and choke him un someone sang and played the in a sweet manner. The world was selected and while upon the king formed the loyal friendship with Jonathan. With the divine power within from his life grew more centered and let jealousy

take possession of his soul until he sought David's life and at one time that of Jonathan.

But David had the protection of divine power and eluded death in many ways. Our lesson today opens with the scene where he found Saul asleep and he could have easily slain him. Abishai words are often repeated today when he asked for the privilege of slaying the sleeping Saul, "and I will not smite him the second time."

But David's thoughts went above personal things in reverence to God's wishes. "Destroy him not: for who can stretch forth his hand against the Lord's anointed, and be guiltless?" His patience was exemplified in the next verse where he left it all with God to deal with Saul as he would. But he took proof with him that he had been in the presence of Saul which fact later overwhelmed the disobedient man. David sinned after he became king in a horrible manner. But his faith and knowledge of God brought him to acknowledge his sin, begging for forgiveness and strength to return from his punishment to his former joy in salvation. He did not try to excuse himself or to boast of his greatness, he laid it all at the feet of his God.

Even though he sinned, he was forgiven and the name of David, to those who have studied, brings a vision of the Twenty-third Psalm wherein is found the gentle Shepherd who leads his followers into green pastures, beside still waters, in peace and plenty. To those today who are soul-sick and bewildered, take the Psalms of David to some quiet spot where nature expresses the true handiwork of God. "Take stock of your faith and God's dealing with you, see if the divine power leads life into channels of service for Christ. Does love for others, even those who dislike you, dwell in your heart?"

There may be many giants, hatred, love of the evil, bigotry with the Father of them all, mental laziness, to be slain.

Mother earth supplies all the physical needs of the body. Some day she will claim it again—"dust to dust."

God's work in history, psalm, prophecy and all forms of speech supply all spiritual needs, "and the word was God," who shall some day receive the spiritual body to himself in Christ Jesus again. Christ said, "And this is life eternal, that they might know thee the only true God, and Jesus Christ whom thou hast sent" (John 17:3).

Mrs. M. N. Singleton. Messrs. Ona Davis and Tom Sawyer took a load of produce to Strawn Friday to be canned.

Lumber Outlook Continues Bright

AUSTIN.—The lumber industry in the South continues in the main to show considerable improvement in comparison with a year ago, according to the University of Texas Bureau of Business Research. Average weekly production per unit during June, 271,422 board feet, represented an increase of 12.4 per cent over the previous month and 33.8 per cent over June, 1934, it was pointed out. Shipments per unit, 315,775 board feet, although 2.7 per cent below May, were 47.3 per cent above those of the similar month of last year. Unfilled orders, however, on June totaled 631,565 board feet, or 26.8 per cent below the corresponding date a month earlier, and 2.4 per cent below those of June 30 last year.

"I DIDN'T REALIZE THE FORD V-8 HAD SO MANY FINE-CAR FEATURES"

"IF I HAD KNOWN A FORD V-8 WAS LIKE THIS, I WOULD HAVE BOUGHT ONE MONTHS AGO"

"It was a big surprise to me—this Ford V-8. I'd seen it on the road and heard some mighty fine things about it. But there was still a little doubt in my mind. I just couldn't believe a low-price car could be as good as that. "Forget about price," a friend of mine said. "Things move fast in the automobile business and the Ford has stepped way out ahead. Look it over carefully and you'll see that it's different from every other low-price car. It's a new kind of car—Ford for the whole automobile industry." "So I decided to do the job right. I went over the Ford from bumper to bumper—studied every feature—took it out on the road and put it through every test I knew. Took my wife along, too, to get

her views. And say—if you think I'm enthusiastic—you ought to talk to her! In every way, the Ford V-8 is far beyond our expectations."

Many other motorists—men and women—have said the same thing about the Ford V-8—"it is far beyond our expectations."

We'd like to have you drive it and see for yourself. Many distinctive features put the Ford V-8 in a class by itself in performance, comfort, safety, beauty and satisfaction.

Leo C. Michael Bartlett and Robert Allen have the male Victor Schertzinger directed.

Crop Conditions In June were Good

AUSTIN.—In all but the western portion of the state, rainfall was very heavy the first half of June, but during the later half of the month the precipitation was light and growing conditions became favorable. Moisture supplies are good in practically all of the State, except in a few counties in the extreme western portion; and in these moisture deficiency areas, conditions are greatly improved over those of a month ago. The condition of all field crops is much better than at this time a year ago. Except for citrus fruit, the outlook is for a much better fruit production than was obtained last season. Pasture condition on July 1 was better than the average for the past ten years. Feed supplies are abundant in the eastern two-thirds of the state. The cotton average in Texas standing on July 1, 1935, is estimated at 11,357,000 acres, which is 5 per cent greater than the 10,816,000 acres standing on July 1, 1934. With the exception of wheat and Irish potatoes, the acreage of the various crops in Texas are greater than were grown a year ago. The wheat acreage is below the acreage harvested a year ago due to heavy abandonment following unfavorable weather last fall and winter. The potato acreage is unchanged from last season. Compared with the acreage harvested in 1934, the corn acreage is increased 12 per cent, oats 13 per cent, barley 7 per cent, tame hay 5 per cent, peanuts 8 per cent, sweet potatoes 8 per cent, and rice 11 per cent.

GUARD against winter colds with circulated heat!

FLOOR FURNACE—installed beneath floor. Heats one or two rooms.

Doctors tell us that a constant, uniform temperature between 65 and 72 degrees is helpful in preventing winter colds. Gas floor furnaces and circulating heaters provide exactly this kind of heat. They CIRCULATE warmed air to every part of the room, knocking cold spots and chilly drafts. With the floor furnace no oxygen is taken from the air you breathe. Both prevent wall sweating. Investigate the advantages of this healthful gas heat now while special July prices and terms are effective. Pay only small amount down and equipment will be installed at your convenience.

FURDUE GRADS GET JOBS

LA FAYETTE, Ind.—Purdue University graduates have had little trouble in finding jobs during the depression. Out of a total of 4,300 graduates in the past seven years 91.3 per cent are employed, President E. C. Elliott announced.

YOU, TOO, CAN BE A

DUCHESS

In the grand old days of the drand dukes, Her Ladyship held a "little court" for tradespeople every morning in her own apartments.

It was usually while her hair was being powdered. In would troop lace-makers and portrait-painters, a poet with rolls of verses and a peasant who might offer anything from a yellow puppy to a pot of honey. All the wares of the realm were spread before the duchess for her discriminating purchase, and without her putting the toe of her shoe outside the door.

Have you ever thought how much like her you are? Every day, as you linger over your newspaper, the wares of the world assemble before you in the advertisements. Exciting new fashions from your favorite small shop. Household essentials from the great department stores. Everything for the menu . . . the motor car . . . the mode in make-up, offered to you for your choosing and deciding.

And many of these purchases you'll negotiate with more satisfaction than the duchess enthroned at her dressing table. For, where the duchess had to judge of quality for herself, you have the word of the merchant and the word of the manufacturer for integrity, correctness and cost.

That of Thursday morning was very well attended, and the program centered around the topic, "Friends."

The stories, songs and games were played by the children, representing friends in the home, in the community and the world friends.

The program was in charge of Mmes. F. L. Dragoo and J. U. Johnson, with Miss Clara June Kimble at the piano for the songs.

Mrs. W. B. White's granddaughter of Lubbock was a visitor.

Entertained Relatives Mrs. Maud Coleman of Miles, Texas, sister of Earl Conner Sr., and her granddaughter, Miss Roberta Coleman of Dallas, together with Mr. and Mrs. Fred Dreinhof of Ranger, have been guests at the home of Mr. and Mrs. Earl Conner Sr. during the past week.

Picnic Supper The regular session of the Women's Missionary society of the Methodist church usually held in the church Monday afternoons, will not be held, but instead there will be a picnic supper at the city park at 7 o'clock, when the husbands of the members will be the guests.

Each member is requested to bring two articles of food, to be served with containers for serving. The committee in charge, Mmes. W. E. Coleman, E. R. Stanford, J. P. Hearn, and Wayne Jones, have been busy with the necessary arrangements, and a very jolly evening will entertain the husbands of the members who are cordially invited to be present.

Miss Helen Rosenquest Hostess The Ko Shari club met 2:30 o'clock Friday afternoon at the home of their hostess, Miss Helen Rosenquest, and were very graciously entertained.

The business session occupied most of the afternoon, when important plans for many new and novel methods were discussed at length by the members, which will serve to keep the club busy for the balance of the summer vacation.

Plate lunch of tuna fish and potato chips, olives, pickles, and iced tea was served.

Members present were Misses Lucy Cottingham, Opal Barsley, Nina Mae Seale, Eleanor Harper, Nelda Bess Wood, and hostess, Helen Rosenquest.

Wedding Announcement Miss Maurine Early entertained Tuesday of this week with a

luncheon at the Peacock Terrace, Baker hotel in Dallas in honor of Miss Lucy Belle Ramsey, the sister of Mrs. Charles C. Robey of this city.

The luncheon was the occasion for the announcement, and marriage of Miss Ramsey to Robert Berry Smith on Aug. 3.

Mrs. Ramsey has visited her sister in Eastland on several occasions and has many friends here, all of whom join in congratulations.

Mrs. Robey will attend the wedding ceremonies.

At Home Mrs. Milburn McCarty returned home Thursday from an extended vacation and trip through the east with her son, Milburn, whose graduation exercises she attended in Hanover, N. H., at Dartmouth college.

Their itinerary included Hartford, Conn., and New York city, where Milburn began his work with the New York Tribune.

Mrs. McCarty assisted her son in getting located in his new home, and during her stay there met Mr. and Mrs. J. Floyd Owens, former residents of Eastland, who asked to be remembered to their many friends here.

Mrs. J. M. Perkins also sent regards to all her many friends.

Gadabout Club Miss Kathleen Cottingham was a charming hostess to the members of the Gadabout club at her residence Friday afternoon at 3 o'clock.

A short business session was held during which matters of great interest to the club were discussed and plans laid for future events that will engross the attention of the members.

Refreshments of sandwiches, potato chips, spiced peaches and spiced cake were enjoyed.

Those present, Misses Jo Earl Uttz, Clara June Kimble, Carolyn Doss, Margaret Fry, the hostess, Kathleen Cottingham, and a guest, Rose Jean Rogers.

GRACE MOORE WEARS GOWN WORTH \$6,500 The screen's most elaborate costume, costing \$6,500, is worn by Grace Moore in one of the sequences of her new Columbia starring vehicle, "Love Me Forever," a musical drama which will open at the Lyric Theatre on Monday.

The costume weighs seventy-five pounds and took more than twenty persons six weeks to make. Ten expert seamstresses spent six full weeks doing nothing but embroidering the costume.

It is worn by Miss Moore in one of the musical sequences. The bottom of the skirt is eight feet in diameter. The weight was so great that Miss Moore could not wear it suspended by shoulder straps but had to have a special wide girde constructed so that the weight of the costume could be suspended from her waist.

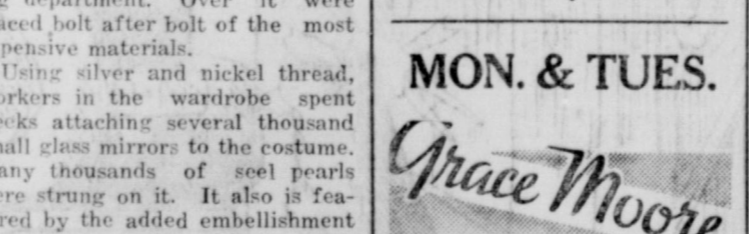

A steel foundation was constructed by the Columbia engineering department. Over it were placed bolt after bolt of the most expensive materials.

Using silver and nickel thread, workers in the wardrobe spent weeks attaching several thousand small glass mirrors to the costume. Many thousands of steel pearls were strung on it. It also is featured by the added embellishment of more than 300 white ostrich feathers.

"Love Me Forever," like "One Night of Love," was directed by Victor Schertzinger. Miss Moore is supported by Leo Carrillo, Michael Bartlett and Robert Allen.
