

## Building And Postal Totals Up For May

Construction figures above that for all of '37. The business picture remained jumbled again as May reports were tabulated on building activity, postal receipts and new passenger car sales.

**Car Sales Off**  
Both building and postal receipts were up, and by good margins, but new car sales were off, as they have been all year.

The construction of 10 new residential structures and six buildings for business purposes brought the May total for building within the city to \$2,210. This spurt of activity brought the total of the first five months of the year to \$27,278, better by a thousand dollars than the entire building total for all of 1937.

The 10 residences, to accommodate 10 families, cost approximately \$17,815. The half dozen business houses aggregated \$28,500, accounted for largely by the \$23,000 Currie Driver building on Rannels street.

Postal receipts for May set a new record for the month with \$5,313.90. Postmaster Nat Shick reported. While it was under the \$7,247.75 record for April, it was well above the \$4,963.32 for May a year ago. The gain continued the upward trend for postal receipts since the first of the year.

But new car sales were sadly down. During May the number of the new passenger machines registered here was down to 55, three less than for April and far under the 97 for May of 1937.

Registration of all passenger cars during May lacked only four coming up to the total of last year, after the new car deficiency was deducted.

## Cedillo Revolution Apparently Finished

MEXICO CITY, June 1 (AP)—The Mexican government apparently has written the final chapter of the Cedillo revolution which broke out May 29 in San Luis Potosi state. Dispatches from San Luis Potosi City said Cedillo's sister had visited President Lázaro Cárdenas in an attempt to arrange a surrender of the Agrarian overlord.

The pursuit of Cedillo, still at large, was described as an operation for military police. President Cárdenas was quoted as saying in an address at Matehuala in the northern part of the state, "let us leave the sick man (Cedillo) to his flight through the hills."

Leaving his headquarters at San Luis Potosi where he directed the fight against Cedillo, President Cárdenas yesterday visited Charcas, Vanegas, Matehuala, and Estacion Acoroa. He received ovations and ordered elections at Vanegas and Matehuala to replace ousted Cedillista town officials.

## Enough Red Lights

WASHINGTON, June 1 (AP)—Without a smile, the bureau of standards announced today there is no danger of running out of red traffic lights. Experts found domestic potash supplies are sufficient for supplying the kind of red glass needed for traffic equipment.

## What Is Your News I. O.?

Each question counts 50; each part of a two-part question, 10. A score of 50 is fair; 80, good. Answers on editorial page.

1. Who is this local Mexican strong man?
2. Herbert Hoover contrasted the economic philosophy of Franklin Roosevelt with that of what other Franklin?
3. Gov. George H. Earle, supported by Jim Farley, won the Pennsylvania democratic nomination for U. S. senator. True or false?
4. With what, instead of bombs, Chinese aviators say they had Japanese cities?
5. The Sudeten Germans are: (a) German opposing Nazis of their homeland; (b) the main minority in Czechoslovakia; (c) an American Nazi group.

## Property Restoration Demanded Of Japan

WASHINGTON, June 1 (AP)—The United States demanded today that Japan "take immediate steps" to restore American properties in China to "their rightful owners."

In a strong note presented by Ambassador Joseph C. Grew to Japanese Foreign Minister Ugaki, the Japanese were told that their "infringement of and interference with American right in China" was "giving the government of the United States increasing concern."

It was pointed out that while Japanese civilians have been permitted to enter and do business in areas from which the Sino-Jap conflict has moved on American businessmen and missionaries have been denied permission not only to resume their former residences but even to visit their holdings.

Waiting in Shanghai  
State department officials estimated that over 300 Americans have been waiting in Shanghai for many months to get permission to return to their properties in the Yangtze valley, including Nanking.

The note said that "the problem of enabling American citizens in China to reenter and repossess their properties from which they have been excluded by the Japanese military and of which the Japanese military have been and in some cases still are in occupation is giving the government of the United States increasing concern."

"It is difficult," Japan was told, "to perceive any warrant for the continued placing by the Japanese authorities of obstacles in the way of return by Americans who have legitimate reason for proceeding to the areas in question."

## DEFENSE CRUMBLING

SHANGHAI, June 1 (AP)—Japanese said today Generalissimo Chiang Kai-shek's latest defense line along the cross country Lunghai railway were giving way gradually before Japanese aerial power.

Japanese army planes intensively bombed Chinese troops near Lanfeng, although the army of Nippon still appeared to be balked in its efforts to reach Kaitong and Chengchow, railway points on the central China front which are important to the Japanese offensive planned against Hankow, China's provisional capital.

## Is Opposed To Earmarking Of Funds

WASHINGTON, June 1 (AP)—President Roosevelt personally intervened today in the fight over earmarking proposed new federal public works fund with a warning that unemployment has grown more acute in recent weeks and that a flexible relief program is essential to check it.

**Letter To Adams**  
The chief executive expressed his views in a letter to Senator Adams (D-Colo.), floor manager for the administration's \$3,247,000,000 spending bill now being debated.

His action was quickly interpreted by administration senators as greatly strengthening their stand against demands of republicans and conservative democrats that the funds be earmarked by assigning them for use on specified projects.

Mr. Roosevelt wrote Adams that unemployment has "grown worse" since he sent his relief message to congress six weeks ago.

"Emergency employment, therefore, should come right away instead of being deferred," the president said, adding:

"It is the gap existing now that we want to fill. Therefore, I greatly hope that the emergency appropriation bill in its final form will put no restrictions on the immediate starting of works projects, and that it will make possible the selection of those projects which can be got under way most speedily."

**Passage Tomorrow?**  
Senate chiefs hope to pass by tomorrow night the relief and public works bill—the only major legislation besides the wage-hour bill still on the calendar. The senate was called into session at 11 a. m., an earlier than usual, to hasten a vote.

The senate voted yesterday to make \$50,000,000 of WPA funds available for doles should an emergency arise. It turned down a suggestion by Senator Vandenberg (R-Mich) that \$100,000,000 be set aside from work-relief funds for direct relief payments.

One of the biggest fights remaining centered on a committee amendment to restrict use of FWA funds for constructing utility systems which would compete with privately-owned plants. Senator Norris (Ind-Neb), so-called "father" of the TVA, was leading an attempt to eliminate the restriction.

## COTTON STAGES A SHARP COMEBACK

NEW YORK, June 1 (AP)—The cotton market snapped out of a long decline today with a late rise of around \$1 a bale on the New York cotton exchange.

Traders attributed the rally to short covering and cessation of a movement which had knocked prices down about \$5 a bale last week.

## Grasshopper Plague Feared

Bad Infestation Reported In North Part Of County  
Acute infestations of grasshoppers in an area of north and north-eastern Howard county added to fears that the destructive horde might reach "plague" proportions over a large part of the county.

Both jumbo grasshoppers and the yellow winged hoppers (destructive locust) are appearing in increasing numbers on the northern and north-eastern borders of the county.

## Will Fight For Flexible Wage, Hour Levels

SENATE GROUP PROMISES TO HELP 'LITTLE BUSINESS'  
WASHINGTON, June 1 (AP)—"Little business" won assurances from senate conferees today that they would fight for elastic wage-hour standards in order to protect its interests.

Senators Thomas (D-Utah), Walsh (D-Mass.) and Pepper (D-Fla) said many small merchants and manufacturers had declared they could not continue to operate if they had to provide the same minimum wages and maximum hour as larger firms.

The three senators are among members of a joint committee which will begin tomorrow to draft compromise wage-hour legislation. The major issue is whether nationally uniform standards shall be ordered.

Walsh, pointing out that 68 per cent of the nation's business firms employ less than 20 persons, said any compromise bill should consider the ability of an employer to adjust himself to its provisions over a period of months or years.

Thomas, chairman of the senate labor committee, urged that a board be created to make exceptions where rigid standards would bring unemployment.

Noting that the senate-house committee had wide powers to rewrite the legislation, Senator Pepper said he thought it should be broadened "to provide some stimulation for small businesses in remote sections of the country."

Although some committee members forecast a long struggle over the measure, administration leaders said that yesterday's decision to abandon the government reorganization bill until next year virtually assured adjournment by June 10.

## COURT AFFAIRS LIFE SENTENCE

AUSTIN, June 1 (AP)—The court of criminal appeals today affirmed a life sentence assessed Omer Smith of San Saba county for the shotgun slaying of Floyd Isom, July 5, 1937.

The court rejected numerous defense objections to trial procedure and said it found no error in the record.

Two men assessed the death penalty and whose convictions previously were affirmed by the appellate court were denied rehearings.

## CHARGES FILED IN MIDLAND SHOOTING

MIDLAND, June 1 (AP)—A charge of assault with intent to kill was filed in justice court here by County Attorney Merritt Hines against T. N. Box in connection with the wounding of Marshall Gunter.

Gunter, who was shot Monday, was given a chance to survive.

Mrs. Box, wife of T. N. Box, who was taken to a hospital after the incident when she became ill, was reported recovering.

## West Texans Working For Air Line

FURTHER CONFERENCES BEING HELD IN WASHINGTON  
After a conference with Harlee Branch, assistant postmaster general, Tuesday on a proposed Amarillo-Big Spring-San Antonio air line, representatives from Amarillo, Lubbock, Big Spring and San Antonio continued the campaign Wednesday in Washington before S. A. Clesler, superintendent of the rail and air mail service.

In the group were J. H. Greene, Big Spring; C. E. Maedgen, Lubbock; Tom Cotten, Amarillo, and Fred Harmon, San Antonio.

Tuesday the committee appeared before Branch in a request for more West Texas airmail service. Sweetwater representatives appearing in Washington over the weekend in a surprise move, asked that the proposed route follow two alternate courses from Lubbock to San Angelo, one to include Sweetwater because of its rail connections.

J. H. Greene, speaking for Big Spring, appeared with representatives from Amarillo, Lubbock, San Angelo and San Antonio and pointed out the strategic location of Big Spring with east and west stops on the American Airline transcontinental flight.

Congressman Clyde Garrett accompanied the Sweetwater representatives while Rep. George Mahon, Colorado, and Rep. C. L. South, Coleman, accompanied the larger group. Both declared that a large area of West Texas now has no north and south airmail service and that the volume of business to be expected over such a route would more than justify its establishment.

## 'STAND-UP STRIKE' IS OF BRIEF DURATION

EL PASO, N. Y., June 1 (AP)—A "standup strike" by Remington Rand employes in protest against refusal of the United States supreme court to review a National Labor Relations Board order reinstating strikers ended quickly today in plants at Middletown, Conn., and Elton, Syracuse, and Elmira, N. Y.

Employees returned to their jobs after being told that the company would do "everything possible" to meet demands of the Remington Rand Employes association that the group be recognized as the sole bargaining agent for workers.

W. W. Wilk, assistant to the manager of the Elmira plant, said "peaceful cessation of work" ended there after 25 minutes. Harold Day, manager at Elton, said work was resumed after an hour's delay.

## Abandon Hope For Return Of Victim

One Man Taken From Crowd In Dramatic Fashion By G-Men  
PRINCETON, Fla., June 1 (AP)—Abandoning hope for the safe return of kidnaped Jimmy Cash, hundreds of men undertook a hunt in posess of 15 today while federal agents dramatically seized one of their number.

Emerging from a conference with the father, James Bailey Cash, Sr., in his home, the G-men seized M. F. Braxton, a bald, portly carpenter about 55 years old, who was in the throng being formed into posess in a school yard 100 yards away.

Shielding him with their bodies, they hustled him to an automobile and sped off northward to Miami. Braxton was taken to the office of

HUNTINGTON, N. Y., June 1 (AP)—A wallet containing a picture of a child said by its finder to resemble five-year-old James R. Cash, Jr., kidnaped in Florida, was picked up today on a state-way leading to the Long Island railroad station here by Charles E. Price, a freight clerk.

On an envelope containing the photograph was this unsung message: "Boy held by gunmen and woman. I escaped in the everglades 1 1/2 miles from Princeton (Florida) across the railroad tracks."

The wallet, tied with twine and its contents—which included the card of a Florida restaurant—were turned over to Chief of Police Charles Neinstiel, who thought the discovery so material that he immediately telephoned federal agents, both in Florida and in New York City. Agents were reported en route here.

The F.B.I. where agents, declining to make public any information, cleared themselves with him.

A general call was sent out for volunteers to start a thorough search of the farms and groves in this vicinity for some trace of the five-year-old youngster, stolen Saturday for \$10,000 ransom which was paid early yesterday. The highway through the center of Princeton soon was lined with automobiles for a mile in each direction as the aroused farmers responded.

E. I. Connolly, FBI inspector in charge of the case, personally directed search of the area around the spot where Cash tossed the \$10,000 in small bills from his car in accordance with a ransom note. Sheriff D. C. Coleman and deputies joined him.

"One Day Worse"  
"I talked with the family and nothing whatever happened last night," J. P. Cash, the boy's uncle. "The case is exactly where it was yesterday only it is one day worse."

"I've given up all hope the boy will be found alive. I didn't have much hope from the start but I feel that last night was the last chance for him to return alive."

The overalled Cash, who runs a

## ALUMINUM SUIT GETS UNDERWAY

NEW YORK, June 1 (AP)—The trial of the government's anti-trust suit against the Aluminum Company of America and 62 co-defendants—an action expected by counsel to last at least six and a half months—was begun today in federal court.

The government seeks to dismember an alleged combination in restraint of trade. It is one of the biggest suits of its kind in many years.

Change Looks Of Summer Rooms With Gay, Amusing Lampshades

FOR WARM EVENINGS These are some of the bright lampshades that are available to make rooms more cheery in summer.

By MARY DAVIS GILLIES Prepared by McCall's Magazine for The Herald

Probably the easiest way to change the looks of a room for the summer is with new lampshades—gay and amusing. And packing away the old silk ones until next winter is good for them, too.

Particularly appropriate for lamps with crystal bases are shades with bunches of crystal fruit and flower ornaments.

There is popularity ahead for lustrous black, dark green or blue shades. These are as attractive as they are distinctive and they give good light if the lining is white, if no light passes through and if there is an L.E.S. reflector bowl inside.

In the new lighting, good taste is the same as good health. The old-fashioned "not enough" lighting is not only drab but bad for the eyes.

Name Trickery On Ballots Scored By M'Craw

AUSTIN, June 1 (AP)—Attorney General William M'Craw, a candidate for governor, today hit at what he termed "efforts to confuse the electorate by the deceptive and spurious practice of attempting to place on the democratic ballot names similar to those of bona fide candidates."

In a statement he said: "The attempt to place on the official ballot names calculated to confuse the voters by either the vicious or the thoughtless ought not to be countenanced."

"The democratic executive committee will be warranted in striking from the ticket such candidates of trickery and deception. The tax collector of Dallas county informs me that the latest candidate of fiction has no poll tax receipt. Records show that he has never used the Christian name he now files under. I denounce such spurious practice whether it arises from a perverted sense of humor or is grounded in personal bitterness."

Railroad Commissioner, Ernest O. Thompson has filed for governor. Ernest O. Thompson, Dallas garage man, also seeks the nomination.

KELLOGG-BRIAND PACT RECOGNIZED

LONDON, June 1 (AP)—Prime Minister Neville Chamberlain told the house of commons today that Great Britain is still fully resolved to accept the obligation entered into on signing the Kellogg-Briand pact.

Chamberlain's statement was an expression of agreement with the declaration of Cordell Hull, United States secretary of state, who on May 28 reminded the powers that they had given their solemn word to refrain from war in signing the Kellogg-Briand pact in 1928.

Millionaire, 66, Weds Nurse, 34.

PASADENA, Calif., June 1 (AP)—Harold Fowler McCormick, 66-year-old convalescent millionaire, and his 34-year-old nurse, the former Adah Wilson, began a stay-at-home honeymoon today in the guarded estate of his sister.

Sixty watchmen patrolled the grounds last night to enforce the strictest privacy for McCormick's third wedding—the culmination of a "June and December" romance.

Once wed to the late Edith Rockefeller, by whom he had four children, and to Madame Ganna Walska, Polish singer, McCormick met Miss Wilson at a Pasadena musical when she was nurse to the late Jean Harlow.

She attended him during an illness in 1930 and again this year, when his arthritic condition was complicated by a heart attack. Still too weak to appear in person, McCormick applied for a marriage license last week through his attorney.

This was Miss Wilson's first marriage.

FRED SNITE TO GO TO CHICAGO HOME

MIAMI, Fla., June 1 (AP)—Fred B. Snite, Jr., will leave tonight for Chicago encased in the respirator which has kept him alive since he was stricken with infantile paralysis in China 26 months ago.

The 27-year-old Notre Dame graduate now can breathe for 25 minutes without the help of the "iron lung." When he came to Miami Beach seven months ago he could stay out of the respirator only four minutes.

Advocates Revision Of Fishing Laws To Insure Better Supply

AUSTIN, June 1 (UP)—Even the sucker should have a better break, believes Will J. Tucker, secretary of the Texas Game, Fish and Oyster commission. In a statement Tucker advocated revision of fresh water fishing laws to insure a better supply of all species and provide better angling opportunities. First, he would have a maximum open season of seven months, compared with the present 10-month season, because many species, including bass, have not completed spawning when the season opens in May. In addition, he proposes that the sale of all species be prohibited. At present only bass and crappie are protected against commercialization. He would give catfish a protected season. They are protected under special laws applying to certain counties. Other proposals he believes would benefit Texas estimated 500,000 anglers: Restrict or outlaw seines, nets, trotlines and snag-lines. Permit seining of rough fish (buffalo, garfish, bullheads, suckers, bowfin and carp) under strict regulations. Revise size limits, a 12-inch minimum for bass instead of the present 11; eight inches for crappie instead of seven; prohibit taking catfish, except bullheads, under 12 inches; bluegill, other bream, goggle-eyes and yellow bass under five and white bass under nine. Prohibit commercialization of minnows and other forage foods in public waters.

HOLLYWOOD, June 1 (UP)—Razberry-voiced Pete Smith nominated Captain Fred G. Somers today as the bravest man in Hollywood. Smith advertised for some one to hold an apple on his head, while Howard Hill, champion archer, shoots at it from a distance of 50 yards. Somers volunteered. A slow-motion camera will record the feat for a Smith film specialty. TWO ARE INJURED IN CZECH DISTURBANCE

EGER, Czechoslovakia, June 1 (UP)—Two persons were injured last night in a cafe fight between Sergeant Wenzel Tuzman of the Czechoslovak army and about 25 followers of Konrad Henlein, leader of Czechoslovakia's Germanic minority. Tuzman was taken into custody. The injuries were caused by two shots he fired at the floor in what he said was self-defense. Both victims suffered leg wounds.

**Calf Feeding Procedure Related**

**Second Place Winner Shows Gain Of 373 Pounds**

Varnie Jones, 16-year-old son of J. J. Jones of Knott, furnished details Wednesday of his calf feeding experiment which won him second place in the Rotary club contest.

Beginning with a calf weighing 465 pounds, he finished with 838 or a gain of 373 pounds, an average gain of 2.07 pounds. He used 2,088 pounds of heads, 479 of cottonseed meal, 304 hegarl bundles and 327 pounds of silage. The latter came from a trench silo in which Varnie participated as a partner to his father.

Total feed cost was \$28.37 (at current prices), making the gain cost seven cents a pound.

Varnie joined the 4-H club in 1934. The first two years he raised cotton, then he raised feed and fed out his calf.

"We got our calves through the 4-H club," said Varnie, "through the cooperation of Ira Driver and O. P. Griffin, our county agent. My calf was a purebred Hereford with light red hair and white forehead and feet.

"I let my calf become familiar with his surroundings before trying to feed him. First month his feed was eight pounds of maize, two bundles of hegarl and one and a third pounds of meal per day. Second month I fed 10 2-3 pounds of maize, one and two-thirds pounds of hegarl and two bundles of hegarl per day. Third month his feed was 12 of maize, two and three-fifths pounds of meal, two bundles of hegarl and four pounds of silage per day.

"Fourth month he ate 13 1-3 pounds of maize, three and one-third pounds of meal and seven pounds of silage per day. Fifth month I fed 15 pounds of maize, eight pounds of silage, three and one-third pounds of meal and two

**Musical Test Classes To Be Held**

**Conley Plans Special Training Work For Summer**

Saxette classes, to determine if a child has latent musical talent, will be started here Tuesday at 9 a. m. under the direction of D. W. Conley, band director.

There is to be no tuition charge for the instruction. Only cost to the parents is for the inexpensive instrument amounting to only \$3.50. Parents are urged to contact Conley at the high school building and enroll their children in the class which meets semi-weekly during June and July. Conley will be at the school building during mornings.

The saxette, in itself, is not an instrument adaptable to band or orchestra work, but it has proven an excellent indicator of musical abilities. The instrument produces a clear flute-like tone and is easy to play.

Musical instructors have recognized that the saxette course of study is most successful for instrumental foundation and is one of the best means of ear training and the soundest introduction to sight reading. In addition to frequently revealing unexpected musical talent, it also is an excellent measure of the "will to work" in music of the child.

"Parents need feel no uncertainty about a child's serious interest in band music if he successfully passes this saxette course and desires a course in regular school band work," said Conley.

All of the regular band members, added Conley, beginners, junior high and high school, are urged to report for assignments Monday at 9 a. m. Conley will hold regular practice sessions with the band during the summer in addition to conducting the saxette class.

**HUGO, Okla., June 1 (AP)—**Grizzled Ches Hunter shoved his own hand-whittled pine coffin down the road toward Hollywood, and—he hopes—fame and fortune.

When night overtakes him, he will crawl under the ornate lid of his casket and go to sleep.

The 55-year-old former farmer and deputy sheriff said today he had a dream and a "warning of death came to me."

"I don't think I'll die soon, but I got up before daybreak next morning, had the lumber cut and in three months and three days the coffin was finished. And now, I'm on my way to Hollywood to have moving pictures made."

Hunter pushed the cart bearing the coffin here from his home at Idabel, Okla., 55 miles away, in three days. His feet, he said, are sore—"there's a bunion coming."

Hunter frankly said he is out to make money. He carves out canes, snakes and wooden figurines to pay expenses. He left his wife and five children at Idabel.

**Western Melodeers Play Again For Barn Dance**

The Western Melodeers swing out again tonight in dance tunes of long ago as well as swing music of today in the regular weekly barn dance at the Wally Simpson club on the east highway.

Tonight brings the sixth presentation of the barn dance at the Wally Simpson club, the fifth with the Western Melodeers furnishing the music. The group, two of whom broadcast daily on KBST, has developed a large following, judging from the numerous "fan" letters received each day at the radio station.

Dancing will start at 9 o'clock. However, music will begin at 8:30 with KBST broadcasting until 10 o'clock.

**WATER PROJECT IS AUTHORIZED**

WASHINGTON, June 1 (AP)—The war department has advised Senator Sheppard (D-Tex.) a \$175,000 would be spent in constructing an earthen revetment along the Sabine-Neches waterway to protect Lake Sabine from dredging spoils.

Sheppard said the announcement settled a question that had arisen recently as to whether the work would be done at government expense as a part of the \$4,320,000 dredging project.

**FRUIT, VEGETABLE SEASON AT AN END**

BROWNSVILLE, June 1 (AP)—The fruit and vegetable season of the lower Rio Grande valley was virtually at an end today with more than 38,000 carloads being moved to the nation's market, bringing a gross return of \$17,500,000.

Shipments this season were behind those of last year when the valley produced 45,000 carloads of produce and received gross return of about \$25,000,000.

The valley is still receiving returns from canned fruits and vegetables not included in the 38,000 carload total which was for fresh fruits and vegetables.
