The Big Spring Relays are a thing of the past, for this year at least, but the developments that came from that meet may foretell what is coming up in the two sectional races slated April 7 for San Angelo, Abilene and Sweetwater, and April 14 for Big Spring, Midland, Lamesa and Odessa.

Midland may prove the stumbling block for one team or the other with Lamesa due to cop very few points. They had no serious threats here. The Bulldogs began track drills Monday.

In ending their spring football drills Friday evening the Midland boys enjoyed quite a lively time. The exes played the 1945 team. The upcoming team took the game . . 32 to 0. That spells trouble for Bulldog foes next season. M. C. Hale, big fullback, was the pre-

dominant factor in the undergraduate win. One graduating boy, Ralph Vertrees left the game with a broken leg. At the beginning of the fourth period one ex was removed from the game by an official, and the entire ex team filed off, calling a halt to the

game. Must have been quite an argument. Playing for the 1945 team were Henshaw and Lay at ends, Mickey and Olliff at tackles, Kidwell and Scrogin at guards, Edwards at center with Yeager, Goode, High-

tower and Hale in the backfield. Richards, last year's District Three star, led the graduating gridders. Coach Gene McCullom is due to win his share of the games next year. Hale will be his biggest offensive threat, and may develop into the No. 1 fullback of the ddistrict, but yours truly can see no one ever replacing last year's No. 1 fullback of the district, and the state as far as I am concerned, George Graham of San Angelo.

Think it over. . . .

this community with the death of Mrs. Mary K.

For 46 years she labored with enthusiasm as a teacher in public schools, 17 of them in Big Spring The remarkable thing about her teaching career was that her achievements in it made its longevity the most insignificant thing about it.

Mrs. Bumpass was instinctively a teacher and such possessed the corollary urge for service. First of all, she loved her students and out of this came a patience and tolerance which resulted in understanding between student and teacher. She was eternally interested in what her children did, and each study for them was a new adventure for her. Thus it was that curriculum changes found her quite as eager as many younger minds.

Big Spring people, however, knew her perhaps better for her association with the West Texas Historical Museum. Out of an innocent project in a current events class a decade and a half ago came the vision for a museum. Mrs. Bumpass could see this tiny collection as the nucleus of a small museum and encouraged students to bring in more material. Soon others were contributing and before long the museum was . modest reality.

This was but half of the story, for the young institution was fraught with difficulties. It lacked cases and other facilities, but somehow she found a way or inspired others to help surmount the barriers. Housing of the museum was an omnipresent problem. No sooner would the material be set up than the necessity for moving it to another location would present itself. Had it not been for the faith and the insistence of Mrs. Bumpass that the museum, small though it was, be kept alive, it would have perished long ago. Big Spring will be ungrateful for this monumental contribution of a good woman if it does not preserve and develop the

It is out of such faith, energy and unselfish devotion that citles and institutions are fashioned. The spirit of Mary Bumpass must be kept afire here.

#### Watch Your Mail Boxes

The secret service division of the treasury department has made a timely suggestion to persons who get their mail delivered on routes-particularly city routes-if they are recipients of military dependency payments.

Unfortunately there are vultures who prey upon this sort of material. They watch homes with stars in the windows and they watch their mail boxes. It takes only a glance to tell that there is a government check in a box, and not much more time

to whisk it out. Best thing is to keep an eye open for the mail man and go immediately to the box-once he has come. Next best is to put a lock on the box if it is the slotted type, so that none but the owner can get

## have no help problem!"

Vomen are discovering that their dependable and useful electric appliances are helping a great deal to solve their home-making problems in these war days when help is scarce and there's so much to be done. A little time saved in preparing a meal or a light lunch, quicker and better cleaning with an electric cleaner, the convenience of

an electric refrigerator, all add up to many minutes saved each day.

Now that your electric servants are more necessary than ever, be sure to give them the proper attention to make them last the duration. Keep them clean, tighten any loose screws and handle appliances carefully. When they fail to work properly, take them to an electric shop which specializes in appliance repairing.
