WILL THE REAL MAVERICK SPIRIT PLEASE STAND UP

The Mighty Mavericks scheduled Ten games all in a line. They downed the Haskell Indians And then there were but nine.

Number two was Ranger They didn't slow our gait! We sent the Bulldogs yelping home And that left us with eight.

DeLeon was third to try To stop the Mav eleven But they were badly beaten, Which left Big Red with seven.

The Red and Black showed power That the Loboes couldn't stop. We gained a conference victory-Six more to reach the top!

The Indians of Comanche Tried to drum an upset drive. We remembered 1968 And won that number five!

Five down, and five to Go-Clyde Bulldogs tried to score, But when the mud was washed away We lacked, you guessed it—Four!

Another Bulldog pack advanced And they were on a spree!!! But Hamilton went sadly home, We'd whipped them. leaving three!

Just three you say—but oh, those three!!! Would Ballinger's might come through? Well. not enough to stop BIG RED And that left the BIG TWO!!

The forecast read: "A blizzard's due With Winter's fiercest blast" But Maverick Spirit weathered well And Coleman's left till last!

Nine down and one to go, We need this win for sure! Maverick Spirit with Big Red glow Will leave the Blue Cats-BLUER!!!

SO-blow the horns And ring the bells And cheer your team with pride. But remember—THE REAL MAVERICK SPIRIT Is the one YOU feel inside!!!

ing out-lobbied in Congress.

the third-are true, and a more serious one can be lev eled. The "walking" catfish poses a real threat to the fresh-water ecology of Florida-and perhaps of neighborings states as well.

On May 21, 1968, a night watchman at a construction site near Boca Raton, investigating the barking of his dog, was startled to encounter a strangelooking fish traveling across bare ground. This story ballooned into a widely printed tale of an housewife who reported. "My dog is fighting with a big cat fish in the back yard. since then a great deal more the walking catfish in terms of its rapid spread across the

to local species. The walking catish Claria Florida when tropical fich dealers imported young specimens for sale. Some apparently escaped as long as three to more on the road the next day six years ago: now they are thriving in a visouthern Florida. wide area of

from nearly everyone to wh I showed a walking catfish: Am they only that big?" Where are their legs " Their abled ability to tramp over the countryside and fight dogs has apparently created the image of an enormous, manacing creature. In truth, Claras batrachus grows only to about 22 inches in eastern Idia and Southeast Asia, whence it omes. So far, the largest colected in Florida has been 18

Most of the walking catfish originally imported were al. binos-pale pink with a darker pink head They have long, somewhat eel-like bodies and large flattened heads bearing eight long barbels. These are obviously important sense organs; the fish reacts instantly when the barbels are touched.

Many of the individuals found in the wild in Florida are still a'binos, but a sub-stantial number of of springs have reverted to the normal colors, from pale slate-gray to mottled browns and blacks. At first I was doubtful that the fish actually walked, in

T. K. LEWIS Taxidermy Shop

704 E. 20th Cisco

Ph. 442-3249

Thursday, November 12, 1970

the sense of using limbs to propel themselves. But after virtually nose to nose observation, I am convinced that they do. While much of their fights dogs. The first two of forward progress is made with these allegations—tough not a snakelike slither and vigorous thrashing of the tail the walking is aided by the use of stout spines in the pecoral

> To walk on land, the catfish must be able to breathe air. Indeed, even in the water Clarias comes to the surface to gulp air at intervals. To allow for this, the rear part of each gill has evolved into sort of a lung.

Being a fish, Clarias perfers to remain moist. This is probably why it walks mostly at night and during periods

Sometimes the newcomers move across land in large numbers. At least one such migration was reported last fall when a bartender of them north of "hundreds" state and the threat it poses Fort Lauderdale, slithering batrachus, first arrived in ported the incident to biolog-Fresh Water Fish Commis sion, who found five or s'x crushed by passing cars.

I got the same questions Navasota Man Heads Brazos Electric Co-Op

Curtis F. Maynard of Nave Power Cooperative, Inc., with headquarters in Waco and C. Lividtwe of McGregor has been elected vice president.

The elections took nladuring a business meeting of the board of directors of the rural electric cooperative at its headquarters building at 2404 LoSalle. In the meeting T. E. Craddock of Seymour was re-elected secretary-treasurer. He has held this post the formation of the cooperative in 1941.

Maynard is the manager of the Mid-South Electric Cooperative of Navasota, one of the nineteen cooperati which own and operate BEPC. He was named to the board in 1949 and was elected vic president of the board January 8, 1969.

He replacts Truett W. Baiey of Cleburne who has retired from the board and also as manager of the Johnson County Electric Cooperative.

member and past president of Texas Electric Cooperatives, the statewide organization of electric cooperatives. The Maynards have two dren, a daughter, Mrs. Marilvn Mathews, a teacher in Freeport, and a son Tom. a senior in high school. They are of the Baptist
