Sheep and Goat Field Day will be held Friday, August 18, at the cafeteria at Ranger College. The program will begin at 8 a. m. and will last until 4 p. m. with time out for a dutch treat

The annual field day is sponsored by the Ranger Chamber of Commerce and the County Extension agents. Dr. John Foster and W. T. ## GREENBACKS LOSE 2ND GAME TO DROP STATE CHANCES

The Eastland Greenbacks, among the eight top teams in Texas, were defeated 7-to-5 Thursday by Monahans and its powerful southpaw hurler in the State Junior League Tournament in Brownwood.

The Greenbacks' second loss removed them from contention in the state playoff. They had lost to Haskell, 3-1, Wednesday in their opening game. They won the district crown at Coleman.

Thursday's game opened beautifully for Eastland but turned into Monahans' game in the third. Joe Herrera made the first run in the first and Gil Gaeta and Frank Clabourne were driven in by Royce Miller in the second. Monahans put

**UN-INTENDED VENTILATION** — Joe Manning, Foremost Distributor, sits at his desk and looks out through what was the east wall of the building. ## Cycle-Auto Crash Friday Injures 1 On East Main St. Marlin Cagle Injured in Friday 2-Car Crash on W. Commerce

Tommy Monsey, 31, of Lubbock was taken to Eastland Memorial Hospital Friday morning after he and his brother Ricky were involved in a motorcycle-car accident.

Mrs. Opal Brewer Cole 48 of Hico driving a 1961 Chevrolet collided with the boys' motorcycle in front of Safeway. Extensive damage was reported by Chief Ray Laney. The Monsey boy's condition was reported to be improving Saturday morning by hospital officials.

**VETERANS TO MEET** Veterans of World War I will meet in regular monthly session at 7:30 p. m. Monday, Aug. 14, at the county court room. Members and interested veterans were asked to attend.

A two-car crash early Friday morning resulted in serious injuries to one of the drivers and extensive damage to a nearby building. Autos driven by Marlin Cagle and Dr. R. R. Wells collided at 6 a. m. at the intersection of West Commerce St. and South Green. Cagle, newspaper deliveryman for the Fort Worth Star-Telegram reportedly was traveling west on Commerce and Dr. Wells, south on Green.

Following the impact, Cagle's auto continued to travel west on Commerce, striking the east side of the Foremost Milk Distributing office, crashing in the wall and scattering debris through the building. Mr. W. A. Owen was the only person in the building at the time, but was not injured.

After striking the building, the auto apparently reversed its course and returned almost exactly over the route it had come, returning to the intersection of the crash, after knocking down a steel street sign post on West Commerce St. Cagle was taken to Eastland Memorial Hospital where his condition was listed as satisfactory Friday afternoon.

Dr. Wells is a resident of Hereford and is in Eastland substituting for Dr. M. A. Treadwell Jr. who is vacationing. Dr. Wells stays at the Village Hotel in Eastland.

**Meet Mr. Industry**

James Whitehead, 17, is the son of Mr. and Mrs. Jim Whitehead. He plans to attend Cisco Junior College. James was a letterman in football and basketball and won all-district and all-area in basketball. He was a class officer and Chief Fireboy and an Industrial Theme winner. He was a member of the Thespians, FFA, E Association and the Junior and Senior plays.

**By JAMES WHITEHEAD**  
Hell-o! My name is Industry. I am looking for a place to make my home. Along with me, I shall bring all my many families to settle with me and take care of my business. Of course, I do not want to live in too large a city. I believe one on the average size of between three thousand to five thousand people would properly fit my needs if its urban characteristics were suitable. I was noticing on a Texas map a small town located in an ideal position for my needs. The town is about halfway between two of Texas largest cities, Abilene and Fort Worth. This small town is named Eastland and since I have arrived here I have noticed many interesting things about this town. I would like you to tour this town with me while I tell you why I most likely will choose to settle here.

The first thing I am most concerned with is the educational facilities for my caretakers' sons and daughters. The information I have thus far obtained is impressive. Eastland has the most complete independent school system I have ever been associated with. For the younger children in grades one through six, Eastland has a

brand new elementary school with all the modern facilities for the convenience of the children. The playgrounds are equipped with safety improved playground equipment and are properly supervised for the welfare of the children. The intermediate youngsters, grades seven and eight, are privileged to attend the Eastland Junior High School located next to high school. Grades nine through twelve attend the house of knowledge in a three story building with modern equipment and newly developed visual aids. After graduation from high school, students may further their education in one of two junior colleges. Ten miles west of Eastland is Cisco Junior College, which is growing every day. Ten miles east of Eastland is Ranger Junior College. Located within one hundred and fifty miles of Eastland are six major Texas colleges and universities including Texas Christian University, Southern Methodist University, Hardin-Simmons, Abilene Christian College and McMurry. Any way you look at it, a student in Eastland public schools can not help getting a most complete education if he tries.

The next thing I am most interested in is the housing situation for the families I will bring with me. I have studied a layout map of Eastland and have found out that many new homes are being built and that many nice apartments are available. I noticed also that there is for sale an assorted variety of lots in ideal places for homes. Housing would present no problem for me.

I have some cousins who belong to the factory & plant families. Many of my kind-folks have found Eastland a most suitable place to live. My most unusual cousin is a pottery plant. She turns out beautiful ceramics. Cousin Jane Factory makes ladies garments. Her covername is very well known. The name is Hollywood Vassarrette. John Plant manufactures Haydite. To hear them talk, it would be a sin to settle anywhere but Eastland.

Next I would like to tell you of the excellent business shops and stores that are "on the square". There are three drug stores, four department stores, one fabric store, and two grocery stores in a one block radius. Housewives would love this. There are also many convenient public services such as the Eastland National Bank, K E R C radio station, the Eastland Police Force and Eastland Fire Department. The Eastland Telegram provides the local news and advertisements. For the working family there are two baby nurseries that are state approved. "I have talked myself into settling here. Make way, Eastland, here I come!"

Average annual participation in Eastland is 26.80 inches. Average annual temperature in Eastland is 63.9 degrees F. Eastland maintains two parks containing 23.5 acres. Eastland High School auditorium has a seating capacity of 584.

## V. C. EMPLOYEES GIVEN 10-CENT AN HOUR PAY HIKE

An overall ten cent an hour pay raise to all employees was announced last week by Victor Cornelius. This is the second raise in 1967 for most of the 60 employees of the theatrical advertising and menu printing plant.

Estimated benefit of the pay increase is approximately \$14,000 annually to employees, bringing the annual payroll to over \$300,000 and making the firm one of Eastland's largest employers.

Along with other improvements being made within the company this year are the purchase of a new ultra modern paper cutter and two modern offset presses for the menu department. Delivery of the equipment is expected at an early date.

The company has gained several employees within recent months because of increased business.

Cornelius has recently been granted a U. S. patent on his Redi-Clips, small plastic clips with an adhesive backing. Used for attaching daily luncheon specials to menus, they create an advertising space

for point of purchase sales. The company enjoys a volume of business from the sale of these Redi-Clips to restaurateurs as well as to advertisers across the nation. Among them are such national advertisers as Coca-Cola, 7-Up, Dr. Pepper, Budweiser, Schlitz and others.

## Dutch Club Meets With Mrs. G. A. Fyffe

Club president Bonnie Garner presided over the business meeting. Devotional was presented by Juel Browning. Cubian Perry gave timely "thoughts for the day."

Members present were Mrs. Edna Huffman, Leona Arterburn, Eula Craven, Vila Sharp, Emma Donley, Juel Browning, Cubian Perry, Joyce Hoover and the hostess.

## FBI Is Seeking New Employees

On July 26th FI Director J. Edgar Hoover completed 5 years of service in the United States Department of Justice. During this period he has seen many crises arise which threatened our security. No crisis, however, has been more critical than that which faces the Nation today, with world conflicts, threats of internal subversion, rising crime rates, and civil disobedience. J. Gordon Shanklin, Special Agent in charge of the FBI's Dallas Office, which covers this area, advises that high caliber young men and women are needed to fill vacancies at the FBI's Washington, D. C. headquarters and to share in the opportunity of meeting the challenges which are presented.

Mr. Shanklin informed that positions are available for typists and clerks. Starting salaries are \$4,269 for typists, and \$3,925 for clerks. Applicants must be citizens of the United States, high school graduates, and at least 16 years of age. Additional details, arrangements for personal interviews, and applications for employment may be secured by contacting Mr. Shanklin at Room 2, 181 Commerce Street, Dallas, telephone RI 1-1851, or by contact with the nearest FBI Resident Agency (located at Worth, Lubbock, Paris, San Angelo, Sherman, Texarkana, Tyler and Wichita Falls).

According to Mr. Shanklin, many persons occupying clerical positions in Washington attend the colleges and universities in the Nation's Capital while working for the FBI. Effort is made to arrange working hours whereby any employee desiring to further his education may do so. The FBI also assists employees in locating suitable living accommodations. Mr. Shanklin pointed out that many of the FBI's Special Agents, begun as clerks in Bureau headquarters. Mr. Shanklin noted that recent high school graduates and returning servicemen who have not settled in government employment may find careers in the FBI of interest. He said the FBI has need for a limited number of radio operators, in addition to the positions described above.

The driest desert in the world is in Asia. Some very valuable information was presented in selecting feeding, feting and showing the calf as well as in keeping the calf healthy. Jerry Lackey, County Agricultural agent from Callahan County emphasized the necessity of selecting the "middle - of - the - road type of calf to take to the stock shows. He emphasized that calves should be selected from top quality herds. Mr. Lackey said "There is only one secret in fitting champion calves and that is a lot of hard work." Dr. Bill Cardwell from Cisco talked about some of the new medicine that he used in calves for prevention of respiratory ailments. He also answered a number of other questions ranging from cortisone to warts.

The Eastland County Beef field Day on Saturday, Aug. 5 was a big success. Approximately 30 calves were brought to the all day training session at which there were about 90 people in attendance.

## ASCS COMMITTEE ELECTION WILL BE ON SEPTEMBER 20

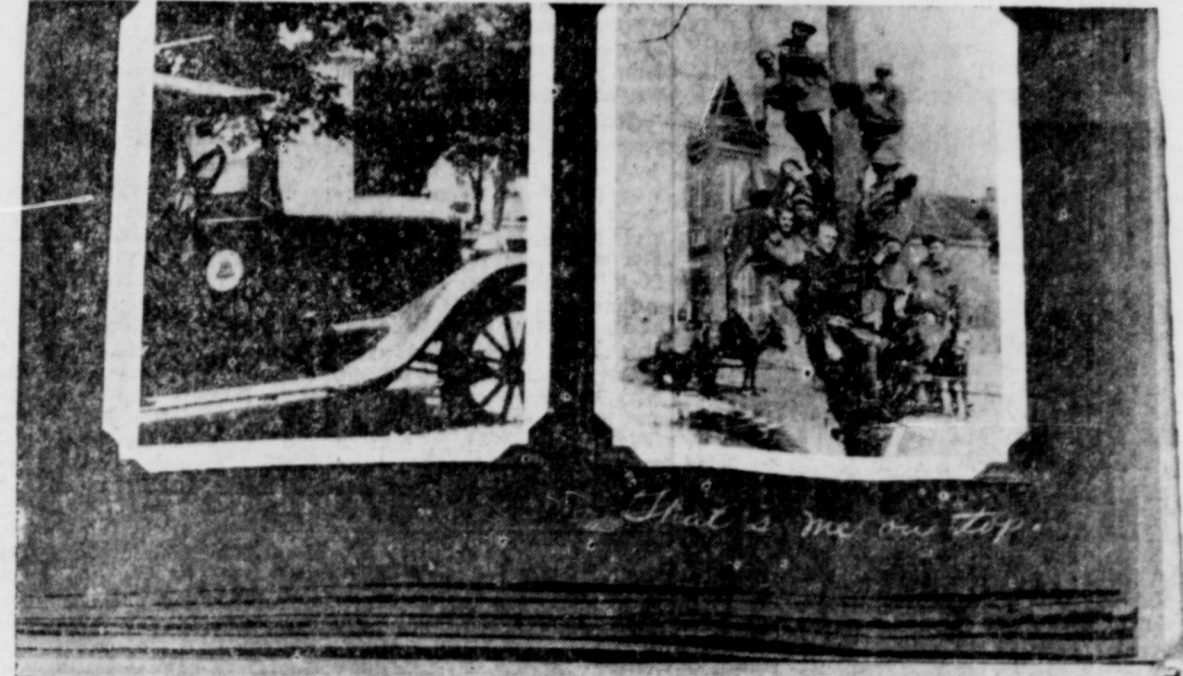

The 1968 Agricultural Stabilization and Conservation Service community committee election will be Sept. 20, according to Jesse G. Meredith, office manager.

Ballots will be mailed all known eligible voters on Sept. 10, and must be mailed or returned in person by Sept. 20.

The ballots will be tabulated in the ASCS office in Eastland on Sept. 22, Mr. Meredith said.

The ASCS is in the process of making payments on 1967 wheat, cotton and feed grain, and payments are being computed and processed by computer for the first time this year.

Producers who have acreage diverted under the feed grain and cotton program are reminded that their diverted acreage may not be grazed until Nov. 1, 1967, Mr. Meredith stated. No crop can be harvested from this area. He added that acreage diverted under the Cropland Adjustment Program or Conservation Reserve Program cannot be grazed or harvested during the entire period of the contract.

## Delbert Bullard has worked with Southwestern Bell for 39 years

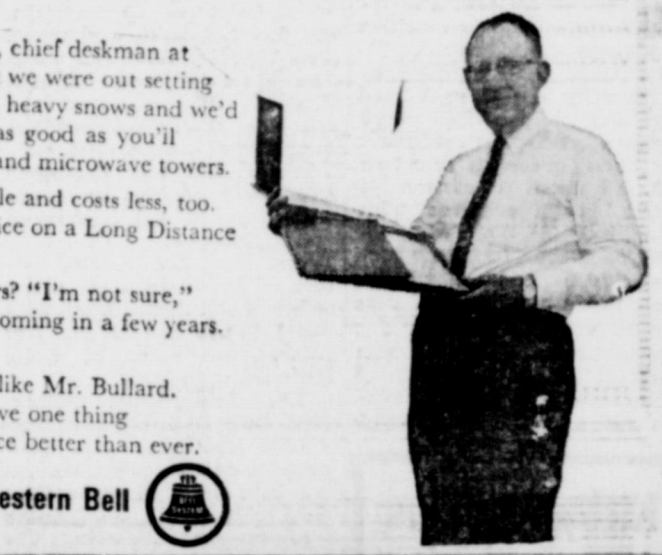

He's seen a lot of changes in telephone service

"They've definitely been for the better," says Mr. Bullard, chief deskman at Longview, Texas. "It hasn't been too many years ago that we were out setting poles with ropes and mules. Then we'd get one of those wet, heavy snows and we'd have to set them all over again. Now our equipment is as good as you'll find anywhere. And snowstorms don't bother buried cable and microwave towers.

"Customers get better service now—it's more reliable and costs less, too. When I started work, it was difficult to even recognize a voice on a Long Distance call. Now it's like talking across the room."

What about the changes coming in the next 39 years? "I'm not sure," Mr. Bullard says. "We've got Picturephone and the laser coming in a few years. Where do you go from there? I guess the sky's the limit."

Whatever comes along will come because of people like Mr. Bullard. He and 26,000 other Southwestern Bell people in Texas have one thing in common. They're working to make your telephone service better than ever.

MRS. RICKEY MANNKE  
... nee Mildred Smith

## MILDRED SMITH WEDS RICKEY MANNKE HERE

Miss Mildred Smith and Mr. Rickey Mannke were married at 8 p. m., Saturday, Aug. 12, at the First Methodist Church. The Rev. Lynn Layne officiated at the double ring ceremony.

Parents of the couple are Mr. and Mrs. Roy Lee Smith of Eastland, George Mannke of Parkland, Pa., and Mrs. Elna Ruth Mannke of Eastland.

Given in marriage by her father, the bride wore a floor-length dress of white taffeta which was accented with a fitted bodice and long sleeves of chantilly lace. The A-lined skirt and chapel train were trimmed with panels of lace. Her shoulder-length illusion veil fell from a cluster of taffeta petals centered with seed pearls. She wore a pearl necklace which was borrowed from Linda Hallmark. She carried a bouquet of cascading white gladiolus.

Miss Linda Hallmark was maid of honor. She wore a blue floor-length gown of taffeta and a blue shoulder-length

illusion veil. She carried a cascade of pink gladiolus. Billy Mannke of Parkland, Pa., brother of the groom, was best man.

Boyd Porter and Tony Lisenbee, both of Eastland, were ushers.

Miss Mary Ann Turner, organist, played "Swiss", "My Heart at Thy Sweet Voice," and "Beca use" before the ceremony. The vocalist were Mrs. E. C. Ragland of Eastland and Mr. and Mrs. W. T. Gattis of Fort Worth, the groom's aunt and uncle. Mrs. Ragland sang "I Love You Truly" and "Lord's Prayer." The bridal chorus and the traditional wedding march were also played.

The church was decorated with white candles in bronze candelabras and baskets of white gladiolus.

Mrs. Roy Lee Smith, mother of the bride, wore a two piece linen aqua dress with white gloves and shoes. Her corsage was made of white french carnations.

The bridegroom's mother, Mrs. Elna Ruth Mannke, wore a blue lace dress with white accessories. Her corsage was also made of white french carnations.

A reception following the ceremony was held in the Fellowship Hall of the church. Members of the house party were Mrs. H. E. Basham of Eastland, Mrs. A. C. Brown Jr. of Fort Worth, and Mrs. E. T. Knight of Smithfield, all aunts of the bride. Kay Smith, sister of the bride, registered the guest.

The register table was laid with a white linen table cloth and a centerpiece of blue flower arrangement.

The brides table had a blue cloth over-laid with white net. A three tiered columned wedding cake with traditional bride and groom, white punch, mints, and nuts were served. Also on the table was a centerpiece of 12 tapered candles in a flower arrangement.

The bride's going away dress was an avocado green bonded orlon dress with a silk multi-colored scarf and brown accessories. Her corsage was made of white gladiolus taken from her bridal bouquet.

The bride attended Eastland High School. The groom attended Eastland High School and will go to Viet Nam soon.

Eastland County was organized Dec. 2, 1873.
