... in the amount of rain reported in the Eastland Telegram, which obtains its reading from the official Weather Bureau Station here in Eastland, and the amount that is reported for Eastland on the front page of an Abilene paper under the column head "Where It Rained." The Abilene paper does not obtain their rainfall reports from the Eastland observer, and consequently, their rainfall reports will vary from the official records for this area, and from figures reported in the Eastland Telegram, which are accurate.

We merely mention this because of numerous phone calls after rainfall reports appear in the Abilene paper that do not coincide with the correct figures reported in this paper.

Within the next 2 or 3 weeks, we shall have passed our worst part of summer, and can look forward to cooler fall temperatures. Personally, it won't be too much of a chore to put up with the remaining heat — just the perenial, president, and carnivorous mosquitoes.

## WEATHER TIPS

By **JAMES DABNEY**  
Official U. S. Weather Observer

In this article, we will attempt to deal with two items that are of interest, particularly in the middle of the summer — temperature and rainfall.

Actually, we have had a relatively cool summer in Eastland County, as of this writing. We have had only four days of 100 degrees, or higher, temperatures, and these occurred Wednesday through Saturday, August 7th - 10th, reaching a high of 104 degrees on Saturday, August 10th. Since then, the thermometer has not risen over 96 degrees. This was reached Thursday, August 22nd, the day this article was prepared.

And, though it may have seemed hotter to you, due to stillness, humidity, and biting mosquitoes to keep you awake, the highest nighttime temperature so far this summer has been 73 degrees. This occurred on Friday night, August 9th, just prior to the following day's high of 104.

However, you can feel thankful for our "relatively" cool temperatures. Be glad you do not live in, or near, Death Valley, California, at Greenlands Ranch with an elevation of minus 178 feet, because on July 10, 1913, the highest temperature ever recorded in the Continental United States was reached — 134 degrees.

And, for Texas residents, Seymour has the dubious honor of having the highest temperature officially recorded. This happened on August 12, 1936, when they sweated under 120 degrees of heat.

If there are readers who are curious as to the World's highest recorded temperature under standard conditions — well, this occurred in Azizia, North Africa, Sept. 13, 1922, when the natives endured a temperature of 136 degrees — just 2 degrees more than Death Valley's in 1913.

But, so much for heat. Let's talk about something a little more cooling, rain. August, thus far, has only produced 3.53 inches for Eastland. However, we will undoubtedly have more, as the seasons begin to change toward the latter part of the month, and more cool fronts try to push into our area and run into the warm, moist air now present.

Checking back over Weather Bureau records, one finds interesting data relating to rainfall throughout the United States, and the World. Of course, you must keep in mind that there are only about 12,000 official rain gauges throughout the U. S., or an average of about one gauge per 250 sq. miles. The opening through which rainfall enters the standard gauge is 8 inches in diameter; and, if all the gauges in the U. S. were concentrated in one large group, the total catchment area would be about the size of a standard baseball diamond, so consequently, it is almost impossible to actually, and officially, record rainfall from every rain storm throughout the country.

Weather Bureau records show that the heaviest rainfall ever recorded in Texas over a given period of time occurred at D'Hanis, Texas, May 31, 1935, when 22 inches fell in 2 hours and 45 minutes. Now, that's a lot of water. D' Hanis is in Medina County, about 50 miles west of San Antonio.

And now, to clarify a dis-

# About HemisFair; How It Is

Much has been written about the San Antonio, Texas following quotes from city residents to HemisFair grounds and in the city reasonable. Made in a world-wide variety of restaurant cuisine is there for the leisurely diner, but most folks find their way to the many air-conditioned outdoor "food clusters." Mixed in with hamburgers, tacos, shishkabob and hot dogs are exotic counterparts from dozens of foreign

countries. And desserts? Forget the calories and try the Swiss ice cream delicacies Danish pastries, Dutch fudge, Mexican bunuelos. All these food cluster taste treats are inexpensive. A dollar goes pretty far at these pick and choose food stands even when you add in a dessert. Everything can be eaten as you walk along. Walking is only one of the convenient ways to get around what national magazines have called a "bite-size," "easily negotiated," "air-conditioned," "relaxing and comfortable" world's fair. For variety, try the longest Mini-Mono-Rail ever constructed at a fair. Or for a breath-taking panoramic view of the Fair and downtown San Antonio take the Swiss skyride; then for a relaxing low-level view enjoy the Lagoon Boat Cruise or El Trenicito (The Little Train) both of which wind in and out of every nook and cranny of the 92.6 acres.

appearing interior walls and expanding screens as it presents Academy Award winner Francis Thompson's three-part documentary "U.S."

Perhaps the most popular pavilion at HemisFair is the Institute of Texan Culture which utilizes the most modern exhibit techniques to trace the ethnological history of the Lone Star State from prehistoric times to the present.

The Confluence Cosmos is a primary theme exhibit that attempts to place our dramatic leap into space into a meaningful human context as it shows the various ways in which man, through history, has experienced the universe.

One of the major cultural attractions of HemisFair '68 is Tesoros de Los Museos de Espana. Included among 14 rarely lent treasures from Spain are masterpieces by Velasquez, Goya, El Greco and others. The collection is valued at more than fifty million dollars.

So steeped in educational value is HemisFair that the Texas Board of Education has declared that an organized class trip to the Fair counts as a regular school day.

And entertainment? National travel writers have termed HemisFair's talent tops! From the high-flying Voladores who perform without safety devices from a 114-foot pole to Laterna Magika and Kino-Automat (termed the best of Expo '67) you'll find spectacle, fun, color, shocks and surprises galore. There is something for everyone... Fiesta Island with tummy-tumbling rides for the kids, the naughty Puppets of Paris (Les Poupees de Paris) for the adults and the 622-foot Tower of the Americas, with its revolving restaurant and observation deck for the whole family.

A sparkling panorama of big-name performers will appear in the beautiful new 2800-seat Theater for the Performing Arts and the 10,000-seat Arena from now through September. Headlines include Allen and Rossi, The Bayanihan Philippine Dancers, Jimmy Dean, Wayne Newton, The Mills Brothers, Ringling Bros.

## Norris Family Reunion Held At State Park

The 20th annual reunion of the family of the late Mr. and Mrs. G. S. Norris was held Aug. 16, 17 and 18 at the Abilene State Park, it was announced by a family spokesman.

There were approximately 150 relatives and friends in attendance and the group enjoyed visiting, singing, swimming and pitching washers. Special entertainment was provided by a group of square dancers from the Abilene area.

Relatives from the area attending were Mr. and Mrs. Earl Norris, Mr. and Mrs. Charlie Norris, Mr. and Mrs. Lon Norris, Ms. Fannie McNeley, Mr. and Mrs. Obie Duncan and family, Mr. and Mrs. Walter Maynard and family, Mrs. Ju-Anita Rogers and Joe, Mr. and Mrs. Paul Norris and family, Mr. and Mrs. Truett Norris & family and Mr. and Mrs. O. Z. Kellar and family.

Also, Mr. and Mrs. Tom Laseter, Mr. and Mrs. Jerry Laseter, Mr. and Mrs. Arl Laseter and family, Mrs. Rozelle Caraway, Mrs. Sandra Stuart and son, Mrs. Ronnie Pack, Mr. and Mrs. John Laseter.

Visitors were Randy Pack, Linda and Martha Swan, Larry Bryant, Monte Hood, Rodney and Thomas Pierson, Nancy Boggs, Cassie Nelson, Tommy Martini, Jimmy Luker and Kenneth Fox.

Barnum and Bailey Circus, Louis Armstrong, Henry Mancini and Roy Rogers, to name a few.

All in all there is so much to see and do that the average family should plan 2 to 3 days to see HemisFair '68. Even so you probably will want to plan a return visit before October. Then too, while in the Alamo City don't forget the old favorites such as La Villita, the River Walk, The Spanish Missions, Fiesta Noche del Rio at the outdoor Arneson River Theatre and all the rest.
