## Eastland School Board Issues Statement

In view of the Election Order issued by the Eastland County Judge for the purpose of consolidating the Olden Independent School District with the Eastland Independent School District, the Board of Trustees of the Eastland District offers the following public statement:

"Although the Eastland Independent School District would welcome the addition of the Olden Independent School District to the Eastland District, and would encourage the voters of the Eastland District to vote in favor of such a merger as an expression of their willingness to receive the Olden District, it is the belief of the Eastland Board of Trustees that the final decision should rest with the people of the Olden District.

"The Eastland Board would also make it absolutely clear that it did not initiate or have any influence in initiating a petition that eventually resulted in ordering the election, and that it has not made promises, arrangements, or 'deals,' with any other school district, group, or individual relative to this proposed consolidation."

## Bond Sales Up In This County

ved today from Mr. H. M. Fentress, Chairman of the Area Ten Savings Bonds Committee, sales for the first six months of 1968 in Eastland County were \$360,000. June sales for the county totaled \$10,574 and 26 per cent of the sales goal has been achieved.

Texas sales of E and H Bonds year-to-date reached an all time high of \$90,967,734 — an increase of 8 per cent over June 1967. June sales in the state totaled \$12,741,809.

Nation-wide, the cash value of Series E and H Savings Bonds outstanding set an all time record of \$51,572 million — a gain of \$342 million in the first six months. The Treasury reports that June sales of E and H Bonds and Freedom Shares were \$381 million.

## Olden-Eastland Combine Vote Set August 24; Absentee Begins

Elections to consider the consolidation of the Olden School with the Eastland system are called for Saturday, Aug. 24 at both locations.

The date was picked Friday morning during a meeting in the Eastland County Commissioners Courtroom, called by County Judge Scott Bailey.

Absentee voting for the election will begin Monday morning, Aug. 5, in the County Clerk's office, Judge Bailey said.

Qualified voters are those persons who are registered, and residents of the two districts, it was reported.

Judge Bailey named election Judge C. J. Langlitz to preside at the Olden box, and Election Judge Mrs. Jeanette Harris to be in charge of the Eastland voting.

Petitions asking for the elections were presented to Judge Bailey Monday morning by F. L. Spurlin, who lives at Lake Leon. The two petitions were found to have a sufficiency of signatures to call the elections, Judge Bailey said. The proposition, a simple "for" or "against" consolidation, will have to pass in both districts to accomplish consolidation, he said. (Olden voters will be deciding if a majority wants to combine the Olden system with the

Eastland system, and the Eastland voters will be deciding if they want to accept the Olden school into their system.)

The poll lists show 256 voters at Eastland and 1,934 at Eastland.

Mr. Spurlin in an interview Friday morning said that he had five petition forms printed — four to be distributed in Olden and one in Eastland. The one petition from Eastland contained 24 names when it was turned in Monday to Judge Bailey, he said, and two of the Olden petitions contained 42 names. The other two Olden petitions, which together, Spurlin said, had about 60 more names, were not turned in. Mr. Spurlin said that beginning on last Friday (July 26) evening, and through Saturday and Sunday, he personally collected the names of 72 persons of the first 77 people with whom he talked. He is confident, he said, that the election will carry in both towns.

Asked why he was pushing for consolidation, Mr. Spurlin said that the "tax situation in Olden," and the fact that the "youngsters are not getting a fair shake in the Olden school."

One of Mr. Spurlin's three children is of school age and attends in Eastland. A graduate of Eastland High School himself, Mr. Spurlin attended school in Olden ten years, he said, and his wife formerly taught there.

Judge Bailey called the Friday morning meeting to discuss with the petition signers and school officials the most appropriate date for the elections.

Some questions are yet to be answered about the eligibility of voters, particularly on some who might have a home in each school district, and officials and the election authorities are expected to spell out the requirements shortly.

Judge Bailey has already secured election supplies for the election, but indicated that additional ballots may be necessary.

## HILLIARD RESIGNS, GOING TO GORDON

The Board of Trustees of the Olden Independent School District in a called meeting Friday evening accepted the resignation of Supt. Travis Hilliard and released him from his contract.

Mr. Hilliard, superintendent of the Olden school system for the past 22 years, told this newspaper Saturday morning that he has accepted the position of superintendent of the Gordon School System, and will report to that office Monday morning.

"I believe," he said, "it is in the best interest of my career and of the Olden system that I resign at this time. I will continue to work with the Olden board as needed, but not in an advisory capacity."

A native of this county, Mr. Hilliard graduated at Eastland and taught in Olden three years before becoming superintendent there.

"Naturally, after so many years," he said, "we consider Olden home and it will be hard for us to move away from the community and our friends."

## Over 150 Boy Scouts Expected To Enter Annual Swim Meet

More than 150 Boy Scouts are expected to take part in the annual swimming meet of the Nor-East District, Comanche Trail Council, at the Lake Cisco Park pool on Tuesday, Aug. 6. The program will begin at 7:30.

Boy Scouts and visitors are expected from six towns of the district, including Stephenville, Breckenridge, Eastland, Ranger, Rising Star and Cisco. Eighty to 100 boys are expected from out-of-town and Cisco planned to enter 66 scouts in the event.

The program will consist of assorted contests in the various swimming strokes, plus relay races, for both junior and senior scouts. Boys 14 and over will compete in the senior division. There will be a special relay race for all age groups.

Ribbons will be awarded to the winners of the various events. Following the pool program, the scouts and their families will spread picnic basket lunches in the park.

Lloyd McGrew of Cisco will welcome the visitors. Awards will be presented by Bill Criag of Breckenridge and Frank Sayre of Eastland to the first and second place winners, respectively.

Victor Childers, advisor of the Cisco Explorer Post, will serve as the master of ceremonies. Members of the Post will serve as lifeguards and will participate in some of the events.

Bill O'Pry, field executive from the Brownwood trail office, will be here to assist with the event. Local arrangements were being handled by Mr. Childers, Vernon Honea, Rev. Hillis Herren, Mark

Richardson and Jim Hanlon. Mr. Childers said that the Cisco group plans to invite the Nor-East District to hold the meet here each year since this is a central location.

The American Legion Post, donated the use of the facilities for the meet, Mr. Childers said. "We sincerely appreciate this," he added.

## H. A. McCanlies Elected Chairman Aging Committee

H. A. McCanlies of Cisco was elected chairman for the Eastland County Committee on the Aging at a Thursday afternoon meeting in the Texas Electric Reddy Room.

Other officers elected were Mrs. Ruby Springer of Ranger, vice-chairman; and James Reid of Eastland, secretary-treasurer.

County Agent Dee Gordon said that the committee would coordinate its work with that of the Governor's committee, appointed in 1957 after passage of Senate Bill 12.

Mrs. Janet Thomas, County Home Demonstration Agent, said Eastland County averages 18.8 per cent of elderly citizens, which is not the highest in the state, but is above the state average.

Gordon, Mrs. Thomas, McCanlies, and Mrs. Springer were elected delegates to the Workshop for County Committees, Sept. 10 and 11 in Brownwood. The workshop will service some 40 Central Texas counties. It is sponsored jointly by the Governor's committee on aging and the A&M University extension service.

The next county meeting will be held Tuesday, Sept. 24.

Present: at the meeting were Mrs. R. W. Gordon, and Mrs. Springer, both of Ranger; McCanlies of Cisco; Mrs. Viola Gattis of Scranston; Jack Cozart of Nimrod; Joe Housson, Mrs. Arthur Murrell, D. E. Frazer, James Reid, Gordon, and Mrs. Thomas, all of Eastland.

## Darrell Tully Named To Hall of Honor

Eastland native Darrell Tully, now athletic director of the Spring Branch School District near Houston, has been named to the Hall of Honor of the Texas High School Coaching Association.

Tully was inducted into the honor group Thursday at the 9th annual Hall of Honor luncheon held in conjunction with the Texas Coaching School in Fort Worth. Four others, Chuck Moser of Abilene, Joe Golding of Wichita Falls, Winston Knowles of Pine Tree, and E. C. Lerma of McAllen were also inducted into the Hall of Honor.

Truman Nix, of Colorado City, retiring president of the Coaches' Association, said the five honored men had reached the summit of their profession.

Tully attended Eastland High School until 1935. He is a graduate of East Texas State.

### Letters TO THE EDITOR

Dear Editor

Some members of the American party have objected that recent reports tend to picture our party as "extreme right wing conservative." We have backers from the widest range of the population and all are welcome and more than welcome. The only group we do not seek is the leftists and even a pinko would be received if it seemed he had seen the error of his ways.

The gathering included a very well to do family and some working people so stiff and tired they could hardly climb out of their pick up.

We hope to reflect the views and interests of all Americans but be ruled by no group right or left. We are most anxious to go anywhere at any time to explain George Wallace's stand to the people.

We had some people at our meeting who were too young to vote. It is good to see young people interested in their future and willing to work to make it better.

Your truly,  
G. S. CLARK  
Chairman

State, where he won All-American fame. He played professional football with the Detroit Lions, and was an officer in the Navy during World War II. He is a former president of the Texas High School Coaches Association.

He is married to the former Edith Rosenquist of Eastland. They have a daughter, Mrs. Mike Farley of Arlington, Va; and a son, Dean Tully, a sophomore student at the University of Texas.

## Fonville Aboard Aircraft Carrier

LONG BEACH, CALIF. — Seaman Donald R. Fonville, USN, son of Mr. and Mrs. Paul Fonville of Route 1, Ranger, is serving aboard the anti-submarine warfare support aircraft carrier USS Yorktown at Long Beach, Calif.

As a crewmember, he is one of the 3,000 man team operating to protect U. S. Pacific forces from the threat of submarine attack.

His ship recently returned from a seven month deployment in the Far East and is presently undergoing overhaul at the Naval Shipyard in Long Beach.

## Otis Greens Tell Of Alaska Trip -- 'Salmon, Bear'

(Editor's note: We invite each of you to report your vacations. This is the report of Mr. and Mrs. Otis Asa Green, school teachers at San Angelo. It was written by Mrs. Fern Green, mother of Otis.)

Otis and Norma Green have returned to Eastland after touring in Alaska for the past two months. They report a wonderful, exciting, colorful, and educational trip.

Norma has movies of Otis in action with Sock-Eye Salmon. She said that was something to see! They caught lots of salmon and other fish.

The bear hunt (which was at the end of a flight by air) was an experience with no bear but a real sport. Norma was disappointed or surprised to find Anchorage such a modern city. She kept waiting for backwoods Alaska, but found it quite modern in most ways. Otis managed to show her some rough country though, even to getting stuck in the mud for hours.

Norma and Otis are typical outdoors sports lovers, enjoying all phases of sports together.

On their trip back to Eastland, they came by California route and stopped in to visit with Otis' brother, Ben and his family in Santa Clara. Ben and his family are former Eastland residents and Ben graduated from Eastland High School in 1951. Ben, Bev, Paula, Pamela, Ben G. and Melody left on their vacation to the Sunnyside Cattle Ranch, a dude ranch in Rouge River, Oregon, as Norma and Otis left for Texas.

Otis and Norma returned to San Angelo, where they both will start their five year teaching there. They visited Otis' sister, Mr. and Mrs. O'Neil Barton and Howard of Brownwood on their way home.

Oh, yes, Otis has lots of "conversational tales" to add to James Reid's Flats", of the time when Otis and his Alaskan college friend, Harold Reed, spent many leisure hours spinning fishing and hunting "yarns" or stories during their four years at TSU in Fort Worth.

## Veteran Cisco Resident Harvests Record Size Tomato From Garden

The second largest tomato ever grown in Cisco was being held by E. N. Strickland when the above picture was made. It weighed one pound. The largest was still green and it weighs one pound and two ounces.

Mr. Strickland, who is 90 years of age, grew the tomatoes on his 185-acre farm southeast of Cisco. And he is qualified to talk about big tomatoes. He has been growing them for some 75 years. The big tomatoes are of the

Beefsteak Variety. He has other varieties in his garden, which he and son, Earl work.

Mr. Strickland recalls that there was a time half a century or longer ago that he had one produce customer (grocery store) in every town west of Cisco as far as Monahans.

and twice a week a big box of his garden produce went out by T&P express car to them. Mr. Strickland, whose birth-

day is Aug. 8, was born in Austin and came to Cisco with his parents in 1886. He has lived on the present Strickland farm since he was 12 years old.

Mr. Strickland, who has long commanded the high respect accorded good citizens, has two sons and one daughter.

ter — Earl Strickland, a tired military man with his father; Gerald, Bronte, and Johnson of Brownwood. Mr. Strickland lives for a 90 year old drives his pick around the farm, life generally.

### AT RJC

by Floyd A. Walker

Pre-registration got under-  
way at RJC last Monday and  
will continue through Aug. 31.  
Students who plan to enroll in  
the college this fall are urged  
to come by the campus dur-  
ing this pre-registration per-  
iod and complete their enroll-  
ment early. The bog advant-  
age of registering early is, of  
course, that the student gets  
his pick of the times when he  
wants to take his classes. Stu-  
dent Personnel Director Larry  
Hunt will be in his office Mon-  
day through Friday from 9 un-  
til 4 and on Saturdays from 9  
until noon to help students get  
their fall schedules lined up.

A big new first is being ad-  
ded to the RJC schedule this  
fall—a complete lineup of the  
evening classes. Evening  
classes will meet one night  
weekly from 7 until 9:40 p.m.  
Classes to be offered in the  
evening include speech, Eng-  
lish, biology, physical educa-  
tion, government, Spanish, of-  
fice machines, French, art,  
typing, algebra and history.  
The program is designed so  
students who have to work  
during the day can get in up  
to ten hours per semester and  
still hold a full-time job.  
Classes will meet three nights  
weekly—on Monday, Tuesday  
and Thursday.

By the time classes begin  
this fall, the RJC campus will  
have undergone a major ex-  
pansion and remodeling pro-  
gram that will give the cam-  
pus a brand new look. The  
campus is being freshly pav-  
ed and curbed, two new build-  
ings—a student center and a  
practice gym—are being read-  
ied for occupancy and a  
central air conditioner has  
been installed in the Educa-  
tion Building. Come fall, the  
RJC campus will not only be  
the friendliest, but also one of  
the nicest in this part of the  
state.

### AT CJC

Pre-registration of students  
for the 1968-69 school year will  
begin on Monday, Aug. 19, at  
Cisco Junior College, accord-  
ing to Dean Ralph Dean.

More than 1,000 are expect-  
ed to attend classes at the  
college next school year, Mr.  
Glenn said. This estimate  
was based on inquiries and  
visits by prospective students,  
he added.

An announcement concern-  
ing pre-enrollment plans will  
be released in the near future,  
Mr. Glenn said.

### Shifting Insurance Burdens —

... has long been an American custom, and it's a  
good custom. Don't try to carry the load of finan-  
cial risks yourself against the hazards of these mod-  
ern times, but shift it to your local agent and let

Christian Science

Program Announced

"Beloved, let us love one another: for love is of God: and every one that loveth is born of God, and knoweth God. He that loveth not knoweth not God; for God is love."

Three verses from I John are part of this week's Lesson-Sermon titled "Love" to be read in Christian Science churches all over the world.

Services at First Church of Christ Scientist in Eastland, begin at 11 a.m.

Lesson-Sermon also includes selected passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy. Among them is the following: "When we realize that there is one Mind, the divine law of loving our neighbor as ourselves is unfolded; whereas a belief in many ruling minds hinders man's normal drift towards the one Mind, one God, and leads human thought into opposite channels where selfishness reigns."

## More Workers To Be Hired by Firm

Purchase of three huge machines to double the capacity of their department that makes heads for steel tanks has been announced by the Sandler Manufacturing Company of Cisco. The first of the machines arrived Wednesday and the other two were due later in the week.

The machines, each of which weighs 40,000 pounds, were purchased in Peoria, Ill., and shipped to Cisco by truck. The factory already had two of the machines, which make plain and dished heads of various sizes for any kind of welded steel tank.

L. C. Davis, vice president in charge of the factory, said that Sandler has been making all of their own tank heads since installing the two machines last year and has also been making heads for a Wichita Falls concern. The Cisco factory will now be able to accept head orders from other plants, he added.

The new machinery installation will require the company to add five or six more men, Mr. Davis said. The factory now has 50 men in its shop.

The Sandler factory turns out a line of fertilizer tanks, oil and sugar tanks, assorted chemical industry tanks, huge industrial engine mufflers or snubbers and special order tanks. Sandler tanks go to most states in the USA, to Canada, South America, Japan, Australia, and two went this week to Yugoslavia. The factory is also making its third large water storage tank for the LRJ Ranch in Blanco County.

The factory was started some 15 years ago in a 30x40 building. Today, the plant has 39,000 square feet under roof and needs more space. Annual sales exceed \$1,000,000. Charles S. Sandler is president of the company.

## SOME FOLKS THINK OUR AUTOMATIC BANK DRAFT PAYMENT PLAN IS GREAT...

Others couldn't care less

Folks who use our Automatic Bank Draft Plan to pay their electric bills seem to like the idea. ♦ They like the convenience of having us draw a draft on their checking account for the amount of the bill. ♦ Then they don't have to bother writing a check, hunting for a stamp and remembering to mail it. ♦ And they don't have any trouble keeping their records straight because we immediately send them the portion of the bill they would normally keep, and it's marked "paid." ♦ Of course, many of our customers aren't interested in the Automatic Bank Draft Plan. They still want to get their bills at home and come in to pay us or send a check in the envelope we enclose each month. ♦ We started the Bank Draft Plan because some of our customers asked for it, and we want all our customers to know it is available. ♦ If you'd like to know more about the Bank Draft Plan, we'll be glad to tell you all about it. Then you'll know whether it makes sense for you. ♦

**P.S.** Naturally, this plan cannot go into effect on anyone's account until it is requested, and necessary authorization forms are signed.

# OES Looks At County, Reports Us Half Prosperious

Eastland County a poverty-stricken area, but only half way the federal poverty line, according to a report by the Federal Office of Economic Opportunity. The report indicates that Eastland County is in the "moderately unfavorable" category when compared with other counties in the state.

In the 12 categories on which the county is measured, we fell below "normal" in exactly one half. And we were only "moderately" below normal on each of these points while on the other hand, in the six areas in which we are adjudged above "normal", we fell into the "significantly" favorable section in at least two areas.

By way of further explanation, the report states: "Poverty indicators show social and economic characteristics which vary with the nature and level of poverty."

"Definition of terms is as follows:

"Extremely unfavorable — worse than 90 to 99 per cent of the counties. Significantly unfavorable — worse than 76 to 89 per cent of the counties. Moderately unfavorable — 60 to 75 per cent of the counties.

"Normal — no better or worse than 41 to 59 per cent of the counties.

"Moderately favorable — better than 60 to 75 per cent of the counties. Significantly favorable — better than 76 to 89 per cent of the counties. Extremely favorable — better than 90 to 99 per cent of the counties.

Using these guide-lines here's how the county stacks up with OEO:

Magnitude of poverty — moderately unfavorable.

Severity of poverty — moderately unfavorable.

Economic compensation — unfavorable.

Economic activity — moderately favorable.

Family resources — significantly unfavorable.

**THE GORDON SPOT**

By DeMarquis (Dee) Gordon

Eastland County Extension Agent

Congratulations to the Eastland County Farm Bureau on their beautiful new office building. A large number of people attended the formal opening of the new building Sunday, July 21. Jack Cozart, President of the organization, and the directors have done a fine job in leading their organization.

The 4-H boys had a good four-county camp at Lake Cisco, July 22 and 23. Sixty-seven boys from the four counties attended the annual camp. The Cisco merchants are always very cooperative in helping to make the camp an enjoyable one. We especially appreciate the cooperation of the A&P Food Store, Morton's Foods Cisco Processing Center, and the Cisco Steam Laundry. The management at the park was also very nice to us. They said our 4-H boys are the best manner-

of-living index for Eastland County in 1960 stood at 87, contrasted to a value of 100 for the average county.

The report also contains other detailed information on the county, mostly based on 1960 census figures, and later estimates.

## Rabies Not Thing of Past, Is Report Of Health Department

Is rabies a thing of the past? Don't bet your life on it, says the Texas State Department of Health. Statistics and activities of the Health Department indicate otherwise.

"Rabies in man is always fatal," said Dr. James E. Peavy, state commissioner of health, "and for that reason prevention is the only cure."

A big step in prevention is vaccination of pets.

"Vaccination of pets takes on a more vital role when you come to realize that most rabies treatments received by humans have come from exposure or possible exposure to pets," said Dr. Peavy. He noted also that rabid pets normally expose the people closest to them—their masters or neighbors.

Among the animal heads examined for rabies last year, 385 were found to be positive for rabies upon laboratory examination by the State Health Department. Another 16 cases were affirmed on military bases following examination at the Fort Sam Houston laboratory in San Antonio.

Of the 385 cases, 86 were dogs; 32, cats; 27, foxes; 152, skunks; 44, bats; 24, bovine; and 20, other species. Six horses and seven raccoons were found to be positive among the "other" species in 1967.

Communities and individuals have their greatest opportunity to prevent the spread of rabies among pets and on to humans by means of vigilant anti-rabies vaccination programs and stray dog control.

Health authorities feel that a community is adequately protected from an outbreak of rabies when 70 per cent of the pet population is vaccinated. But most urban areas in Texas have attained only a 10 to 16 per cent vaccination record.

Q — I have received a widow's pension providing benefits for myself and two minor children for several years. This VA award is based upon my husband's military service. I have just remarried. Will my children still be eligible to receive benefits from the Veterans Administration?

A — Yes. Your children will continue to receive pension benefits from the VA as long as their unearned income is less than \$1,800 a year for each child. These benefits will be paid until they reach age 18, or age 23 if they are in college. You should report promptly to the Veterans Administration your remarriage to prevent an overpayment of pension benefits.

## Two Cisco Men Are Accepted In National Guard

Two Cisco men have joined the Eastland County unit of the Texas National Guard, according to a report by Sgt. Bill Kendall, the administrative officer. They are Loren Stroebel and Tim Reich.

Stroebel is the son of Mr. and Mrs. Ernest Stroebel, and Tim is the son of Mr. and Mrs. Ernest Reich. Both are graduates of Cisco High School.

Sgt. Kendall said this was the first time that the local unit — Battery B (SE), 2nd Battalion, 131st Artillery — has accepted new recruits since 1965. The unit still has 14 openings which it hopes to be authorized to fill with area people, Sgt. Kendall added.

Young men interested in joining the National Guard were invited to drop in at the Armory on the Lake Cisco road to obtain complete information.
