## Mavericks Move Into Lions' Den At Albany

Riding the rest of a four-win streak, the Eastland Mavericks are expected to be getting down to the nitty-gritty Friday night when they move to Albany to face the Lions in an Albany Homecoming situation.

And the Lions are expected to be salty, especially in view of their wanting to please the eyes on hand. One reliable source guessed they'd be at least two touchdowns better Friday night than on any other given night.

Head Coach Shirley Frazier called the Mavericks in good shape and ready to go. They suffered no major injuries last Friday night in the duel with De Leon. That game was a first-half scare for the fans, but went exactly as the coaches and the local team had guessed. The De Leon coach admitted after the game that his team was playing "way above themselves" during that scoreless first half. The Mavericks began the scoring late in the third and made it a runaway in the fourth — amassing 40 points to their visitors' 0.

Albany is bringing a 3-1 record to the Friday night tilt, and drubbed Clyde, 360 last week. The Lions have a nonconference season total of 94 points to their opponents' 39. The Mavericks have put 182 points up, allowing only 20.

The game Friday night, which has a 8 p. m. kickoff, will be the last non-conference outing for the Mavericks, before the District 8AA race begins in earnest.

Albany has traditionally been an inigma for the Mavericks — back when the two teams were in the same district (A), and the Lions have a good record of domination of that district. Their big man — Strapp—is still in the saddle.

## Miss Day Is Honored With Party On Her 98th Birthday October 5th

Miss Sallie Day was honored at a birthday party Saturday afternoon, Oct. 5, at Hickman Nursing Home. The party was hosted by nieces and nephews. Miss Day is the only surviving one of the twelve children of the late W. H. and Elizabeth Day. She has two sisters-in-law, Mrs. Lon Day of Fort Worth and Mrs. Jess Day of Eastland.

Theme of the party, "Aunt Sallie is 98", was carried out in the decorations and refreshments. The "98" cake squares were iced in white and topped with baby blue ribbon flags with the legend, "Aunt Sallie is 98". They were arranged to form "98" against a baby blue background. Stands behind the table were covered with mock orange blossoms. Flag poles were decorated with tiny blue Japanese roses. Punch was served with the cake.

Guests registered on silver-edged plaque hung with silver tassels against a blue background.

Miss Day wore a blue silk robe, a gift from Mr. and Mrs. Neil Day; matching slip pers, gift from Mrs. Rose Day; baby blue corsage, gift of Robert L. Wright and Cecil W. Mayfield; and a gold bracelet engraved "Aunt Sallie 98th Birthday" from Nelda Wright and Melba Mayfield.

## Thursday To Be Eastland United Fund Victory Day

Thursday is "G" day. The day on which the Eastland United Fund Campaign is set to go over the top. Everything looks good. Drive Chairman E. O. Moore reported early Wednesday that he had checked in a total of \$5,060.50, with a number of large firms and

most of the team captains yet to be reported. "We are confident that we will reach our goal by mid-Thursday, and urge all team captains, volunteers and UF supporters to get that card in as soon as possible so that we may wind it up on time."

Drive Chairman E. O. Moore said at midweek, in anticipation of the victory Thursday.

Over or not, a public effort will be held on the Courthouse Lawn beginning at 9 a. m., he said, and continue until noon. If the goal has been reached, the coffee will be victory celebration — if the goal of \$8,255 has not been reached.

Either way, if the goal reached on Thursday will be a record of records — probably among the first in the state, and certainly one of the very few, if not the only campaign to be attained in short drives of several days. The campaign was kicked off with a luncheon last Thursday.

A total of 14 agencies are participating in the current drive, and workers have been pounding the pavement diligently, Moore said, working to round up the whole thing by Thursday. The advance gifts committee reports increased giving, and general the entire campaign has been a whirlwind approach to many worthy causes served by UF in Eastland.

Again this year, the theme has been ONE DRIVE ONLY with the added IN 7 DAY

A woman rushed excitedly up to a zoo attendant and exclaimed: "Young man, you should see what's going on in the monkey cage. Four monkeys are sitting at a table playing cards!"

The attendant shrugged. "So what?" was his nonchalant reply. "They're only playing for peanuts."

A FINE innovation down at Poe Floral is the giving each week of a beautiful mum corsage to the girl of some lucky Maverick footballer's choice. All the varsity names are in a pot and the winner this week is Steve Wilson, according to Owner Operators C. W. Hoffmann and Bill Hallmark.

30 YEARS of public service was rewarded Tuesday evening when the Eastland Lions Club presented James Reid, a member that long, a plaque, naming him an Outstanding Lion. In making the award, President E. O. Moore pointed out that Reid's interest and contributions to this community goes far beyond his faithful service to the Lions Club. He's worked for a number of years with just about every worthwhile program, project and organization for that many years. His wife is a golden example of how a young man can channel his talents and time for other people, and we think he'd say "I do it because I have fun at it."

THE LIONS, at their Ladies Night, had a banquet meal at the White Elephant, and heard one of the finest programs ever, with the heart-singing of the choir of the First Baptist Church, Colored. Our town can be proud of these fine folk who enjoy singing and performing their rare talents for others.

AFTER SEEING the Nov. 5 General Election ballot, many are suggesting that brief voter-instruction seminars might be in order. It's not a hard ballot, but with the new "check-mark" party voting option, it's one that a voter could easily mis-mark to show his preference and too, there's those 14 constitutional amendments to think about.

### E. F. Harrison Elected Leon Soil Supervisor

E. F. Harrison was elected Supervisor for the Upper Leon Soil and Water Conservation District in Zone 5, at Gorman Tuesday evening.

Mr. Harrison, an active conservationist for many years, succeeds Mr. C. M. McCain who has served 10 years.

Mr. Harrison farms and lives between Desdemona and Gorman where he is active in farming and ranching.

people to work together in stopping erosion by wind and water and in improving land resources.

The program and plan was developed by local people and put into operation by local landowners and operators in cooperation with the Soil Conservation Service.

All of our natural resources, soil, water, and plant resources were getting away at a rapid rate, and agriculture, as a way of life, was at a low ebb in this area.

Solving the problems of water and wind erosion, flood damages, no conservation equipment, poor roads, livestock water needs, farm credit, and other physical, economic, and social conditions, have resulted in stable soil, increased yields upstream watershed projects, increased land values, better roads, electricity for rural areas and a more stable farm and ranch income.

Much credit is due the local people and their leaders particularly members who served so unselfishly on the District Board for the many accomplishments. Services rendered by board members, who serve without salary are largely responsible for the success of the district.

The stage is now set for almost unlimited growth and development in future years. The District has goals and objectives looking to participation and involvement off all people in conserving and developing all natural resources for the prosperity and happiness of all people in this area. In other words we are looking forward to improving not only the physical resources but also to improving and developing human resources.

Upstream watersheds, treatments to hold soil and water on the farms, and more than 100 flood prevention structures to prevent floods downstream are a goal for the entire area.

Approval of a five county resource conservation and development project is a major goal for this area. It will involve needed industry to supplement farm income and will require participation and help by business and professional people along with landowners and operators.

Goals to have every landowner and operator of farms and ranches as a District Co-operator with a whole farm plan for developing and maintaining soil, water and plant resources is another major objective for this area.

Other goals and objectives are to work with schools, 4-H Clubs, FFA Chapters and Boy Scouts to the point that conservation is taught in every grade and its importance understood by all youth. Essay contests, land and grass judging, conservation demonstrations and other encouragements are a regular part of each year's plan and activities.

To do these things and to continue growth and development, your local soil and water conservation district depends upon participation, service and involvement on the part of people throughout the district.

## Farm Bureau Elects Officers, Conducts Business at Meeting

The Eastland County Farm Bureau annual Convention was held October 7, 1968 at the first Christian Church annex. Speaker for the event was Wayne Little, Organization Director of the Texas Farm Bureau.

Visitors welcomed were Liz Leveridge, 1968 Eastland County Farm Bureau Queen, Ann Boney and George Sims,

students sponsored by the Eastland County Farm Bureau to the 1968 High School Citizenship Seminar.

Resolutions adopted by the convention were:

We recommend, Farm Bureau continue to support trade development corporations programs and that they include peanuts in it, also that Farm Bureau continue to sup-

port loan for peanuts as long as one is needed.

We believe our sample shelling machines should be calibrated in accordance to a sample of peanuts shelled by hand. This pattern of hand shelling, one sample, and adjust machine to do equal work.

We recommend a program that all allotted acreages have an equal tolerance. We feel that peanuts should have the same tolerance as cotton.

We recommend that minerals separated from the land should be taxed to show their value; if there was no value, why were they ever separated? Should render their value and tax accordingly as to their value.

We recommend a program that Federal Assistance in the form of a subsidy to any crop should not exceed \$7,500.00 if any land lord takes from tenant said amount, that landlord should be fined or liable to a prison term.

We believe that mineral rights separated from the land for a period of ten years and there is no production that the mineral rights be returned to the deed.

# THE GORDON SPOT

Congratulations to Bobby Gorman and Kincaid of Eastland. They both state winning 4-H member win state in an awards program. It is very unusual and a high honor to have two from the same county. There are only 35 state winners from among the 254 counties in Texas who go to the National 4-H Congress.

As I travel around the county, I see many chemical containers, some are empty and some are not. I don't think

Everyone realizes the danger involved with these chemical containers. Labels should be read before storing for any special requirement for storage. Some pesticides have warnings about low temperature storage and other requirements.

"Empty" chemical containers can be a source of danger to humans, livestock and wild life. All remnants of chemicals should be dumped into a deep pit dug in level soil and located to avoid contamination of water.

Large containers such as drums or barrels should be washed thoroughly and rinse water buried. Drums and barrels should be returned to the supplier or sold to a firm which can neutralize the toxicity of the chemicals.

Last week I read of a tragedy that occurred at Dunning, Nebraska, on June 29, 1968, an empty pesticide barrel purchased for \$2 was instrumental in the death of one boy and the serious illness of two others.

It was a hot Saturday afternoon on June 9, 1968. The three boys — Byron Milleson, age 6; David Copp, age 7; and Kurt Sauer, age 6 — were running through the sprinkler in the Milleson yard. The boys decided the new trash barrel could add to their fun. They rolled it into the yard and filled it with water. Since the barrel belonged to the Millesons and the play was in their yard, Byron spent more time in the barrel. David and Kurt took turns jumping in the barrel with Byron.

It is believed the boys played in the barrel 30 to 45 minutes. Two and one half hours later Byron got sick and was taken to the hospital. Later the other two boys got sick.

The label on the barrel was mutilated and could not be read. The original contents of the barrel were not known, but a similar barrel was located. Then it was discovered that the barrel had contained parathion and that atropine was antidotal.

Atropine was administered to the boys. It was too late for Byron but the other boys recovered after a serious illness.

This is a sad but true story. The parents of Byron Milleson have consented to its use with the hope that the information will in some way prevent similar accidents involving pesticides and empty containers.

## Sgt. Bailey With Top Unit of AF

HONOLULU — Chief Master Sergeant Billy R. Bailey, son of Mrs. Geneva Bailey of Gorman, has helped the 1957 the Communications Group earn the U. S. Air Force Outstanding Unit Award.

The unit, headquartered at Hickman, was cited for exceptional meritorious service from January 1966 to January 1968. The group's outstanding communications support contributed significantly to accomplishing the mission of Pacific Air Forces and other government agencies.

The sergeant attended Butler (Okla.) High School. His wife is the daughter of Mr. and Mrs. Jack Payne of Butler.

100 bushels an acre with his new 1968 Lilliston

James A. (Jimmy) Shadden, Route 7, Box 77, Dublin, Texas, tells the story:

"I'm very pleased with my new 1968 Lilliston 1500 Peanut Combine—this year I should make 100 bushels an acre, and that's good for this area.

"I used a Lilliston for five years before I traded on this new 1968 model, and it did an excellent job.

"When I first decided to begin raising peanuts, I drove at least 500 miles over the state to see every combine on the market operate. I chose the Lilliston and I am glad I did. You can't beat them."

Overwhelming testimony proves the Lilliston first in the field  
 Have you seen the new Lilliston?

"Because a Woman Was Ab-|First Las Leales Club meet-  
ent" was the theme of the ling Monday night at the Wo-

man's Club.  
Mrs. Gene Boney reviewed  
"Raising a Riot" by Alfred  
Toombs. The book describes  
how a man kept house and  
took care of three children  
while his wife was in the hos-  
pital.

Mrs. J. T. Gregory, presi-  
dent, welcomed members and  
read the quotation, "Walking  
up in the morning is the worst  
mistake a housekeeper can  
make" . . . Toombs.

Decorations carried out the  
program theme. Guests regis-  
tered on a white apron trim-  
med with red. A large poster  
showing a man carrying a pail  
and a mop was displayed.

Tables were covered with  
white and centered with ar-  
rangements of fall flowers and  
leaves. Pie, nuts, and coffee  
were served. Napkins were  
white with "Las Leales" print-  
ed in gold.

Hostesses were Mmes. Gre-  
gory, James Smith, Alma Has-  
sell, and Vernon Mahan.

Present were Mmes. Boney,  
Wayne Caton, Betty Cooper,  
Gregory, John Hart, Hassell,
