

## Joseph M. Weaver Rites To Be Held At 3 Friday

Funeral services for Joseph M. Weaver, 71, prominent Texas oil man who died at his home in Eastland Wednesday morning after a brief illness, have been tentatively scheduled for 3 p.m. Friday. Services will be held at the Holy

Trinity Episcopal Church and Rev. A. E. Hartwell will conduct the rites.

Mr. Weaver, founder of States Oil Corporation and past president of the West-Central Texas Oil and Gas Association and a director of Mid-Continent Oil and Gas Association, was born at Moundsville, West Va., May 24, 1882. His early career was in the food and tobacco business. Later he became a partner with L. H. Wentz of Ponca City and John McCaskey of Pittsburgh in the oil business.

Mr. Weaver first came to Eastland Feb. 24, 1917, to take the oil leases that founded States Oil Corporation. Shortly thereafter he was joined by Mrs. Weaver and the three children, Virginia, Ruth and Louise, who came to make

Eastland their home. Mr. Weaver was very active in the development of Eastland county oil, and through Weaver-Crisa Corporation and Duquesne Oil Corporation, his activities included oil discoveries in the East Texas and Coleman fields.

He was a Mason, a member of the Episcopal Church and a former mayor of Eastland. He was always constructively helpful in Eastland's civic and charitable projects. He disposed of States Oil Corporation in 1949, the year in which his first wife died, for more than three million dollars. Later he married Mrs. Margaret Powell Heftiz and they lived at Beall-Hurst Farm, Eastland, until his death occurred on Jan. 6, 1954.

Survivors are his wife, Mrs. Joseph M. Weaver, his three daughters, Mrs. Donald H. Russell of Dallas, Mrs. John Latrobe of Fort Lauderdale, Fla., and Mrs. David W. Owen of Wellsburg, West Va., and five grandchildren.

Hammer Funeral Home is in charge of the service. The family has requested that no flowers be sent.

## C-C Suggests Check On Fly By Night Salesmen

Got stuck by any of the fly by night salesmen? If you have it's your own fault.

At least that's about the way the Chamber of Commerce feels. The C-C not wanting to say "we told you so"—again Thursday reminded Eastlanders to ask would be salesmen to identify themselves with the Chamber letter of authorization.

Herb Tanner, chamber manager, said, "Unless the salesman has the C-C okay, don't buy. Instead pick up your phone and call the Chamber of Commerce immediately. We are protecting our businessmen and our public. We have plenty of legitimate business houses here without having to buy from out-of-town door to door salesmen."

## Morris Attends Winter Camp For Boy Scouts

Fifty-nine Scouts and leaders, including John Morris of Eastland, opened up the Winter Camp for Explorer Boy Scouts last Thursday morning, Dec. 31, and closed Saturday noon, Jan. 2.

Most of the program was given over to hiking and exploring. Reports of wild deer and turkey were numerous as well as small animals and birds in abundance. Each group did their own cooking and all camped in tents. Special ways of heating the tents were used and everyone slept warm, although it froze each night of camp. The evenings were spent around the huge five-foot fire place at the mess hall, where games were played and pipe corn was popped in open papers—the first some of the young men had ever seen.

## Singer Sewing Center TV Show Tonight

Singer Sewing Centers will present Four Star playhouse tonight over many television stations. On the program Dick Powell plays the role of a jet pilot in "The Test", a dramatic story of one important day in the life of a pilot who anxiously awaits the doctor's report on the illness of his little girl.

Eastland's Singer Sewing Center jointly sponsors the program.

### EASTLAND DAY AT LIVESTOCK SHOW FEB. 1

February 1 will be Eastland Day at the Fort Worth Livestock Show it was disclosed today by Herb Tanner, manager of the Eastland Chamber of Commerce.

Tanner said that the city would be represented at the show by Miss Babeth Quinn. She will be Eastland's cowboy sweetheart and will ride her own horse into the arena.

The big Fort Worth show will open with the traditional parade through the business district of Fort Worth Jan. 29. It will run for 10 consecutive days.

Riding clubs, family groups and individual horsemen have been urged to participate in the parade by Parade Marshal Ernest Allen, vice president of the stock show. If a group knows ahead of time and will notify parade officials, a special section will be arranged but, Allen adds, "if you don't know until the last minute that you can be here, come on—we'll have a place for you."

January 20 has been designated in honor of Future Farmers, Future Homemakers and 4-H Club members. A group from here is expected to make the trip.

Because of the educational value of the livestock exhibits and other features of the exposition, the annual pilgrimage is eagerly looked forward to and buses and cars bearing the classes and groups roll into Fort Worth from all sections of Texas and from other states.

Interest of the students of agricultural and livestock raising centers naturally in the junior show were steers, lambs, dairy calves and poultry compete for top honors.

The world's greatest indoor rodeo, the "Battle of Song", the Midway shows and rides, free Western entertainment on the stage in the Exhibit Building, band concerts and scores of educational and commercial exhibits give the young visitors a full day.

## No Rain, No Sleet, No Snow; Sun Will Shine

More chamber-of-commerce weather is predicted for Eastland today and Friday. The weatherman says it will continue to be fair and mild both days.

A temperature reading of "near 70" is forecast for Thursday and Friday, with a low tonight in the lower 40s.

No rain, sleet or snow is forecast.

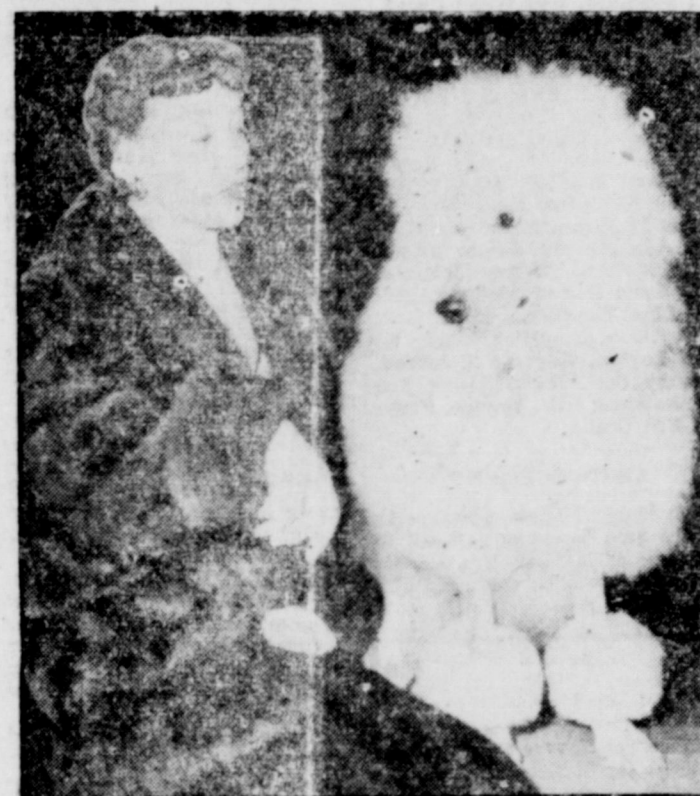

## New Addition May Be Built By Contractor

A leading West Texas contractor is considering building a new addition in Eastland of "fine quality budget priced" homes.

Herb Tanner, manager of the Eastland Chamber of Commerce, said the contractor would definitely build here if there is a sufficient demand for new homes. He urged anyone interested to notify the C-C.

"There is no obligation," he said, "but the contractor must know if there is enough interest here. If Eastland is to have these new homes, the contractor must know this week if there is an unmet demand for new homes in Eastland."

## TWENTIETH ANNIVERSARY OF PCA SCHEDULED FOR AUGUST

The 20th anniversary celebration of the Stephenville Production Credit Association, which includes Eastland county, will be held in Stephenville in August. It was announced today by the association's president, Cal McCurdy.

McCurdy said efforts will be made to have all past presidents, secretaries, and the original 33 men who met on Jan. 2, 1934 to form the association, on hand for special recognition.

Directors of the group are C. M. McCain, Eastland county; F. B. Shannon, vice president, Erath county; James Crouch, Tarrant county; and T. W. Winters, Hamilton county.

The ten county territory is served, in addition to the Stephenville office, by five other offices which are located in Eastland, Comanche, Decatur, Fort Worth and Cleburne. R. L. Wesson and Mrs. Johanna Mathias are in charge of the Eastland office.

In announcing plans for the anniversary celebration, McCurdy gave a brief history of the association.

On January 2, 1934, a group of farmers and interested businessmen met at John Tarleton College to discuss the possibility of organizing a Production Credit Association. Congress had passed the Farm Credit Act of 1933 which authorized such association to be chartered and operated on a local level by the farmer stockholders.

The county agents in Erath, Hood, Hamilton, Comanche and Somervell counties invited a number of farmers and ranchers to come to Stephenville to formulate plans for an association to be located in Stephenville. From these five counties 23 farmers responded to the call.

Thus, the Stephenville Production Credit Association was organized, and each man present bought one share of capital stock for \$5. The Production Credit Corporation of Houston bought \$40,000 worth of capital stock. The first step to be taken was to elect five men to serve on the board of directors until the first called meeting of future stockholders. Directors elected were C. C. Winters of Stephenville; G. M. Scott, Comanche; L. Bran, Hamilton; J. T. Dilhart, Granbury, and L. C. Trimble, Glen Rose. The first meeting of the board was set for January 11.

Added to the Buick group this year is a new model called the Century. Others are the "Special," "Super" and "Roadmaster," the Century is designed to sell in the price range between the Special and Super. It features a 200-horsepower Roadmaster engine, mounted on a 122-inch wheelbase. The special also has a 122-inch wheelbase. Roadmaster and Super have 127-inch wheelbase.

Styling features, besides the new panoramic windshield, include full rear wheel fender openings, built-in sunvisor and rain cover on four-door sedans in the Roadmaster and Super series, new high

front fenders and new instrument panel. New power brakes, new front end suspension designed to improve steering, and cowl ventilation are described by Buick as top engineering advancements. Grille styling has been refined with forty-nine thin bars of chrome enclosed in a chrome frame.

**CISCO (Spl.)**—A raging fire destroyed the Cisco Junior College Administration building early Wednesday morning and college officials estimated the loss at near \$250,000. Cause of the blaze is undetermined. Dormitory students discovered fire in the two story building after it had gained considerable headway. Cisco Volunteer firemen were unable to control the fire, but did manage to keep it from spreading to other near-by buildings. The building and contents were insured for \$180,000. President O. L. Stamey said the insurance could not possibly replace the building. All that remained of the 45-year-old structure Thursday was a portion of red brick wall. The building housed the business offices, the library, the auditorium, music department, science department and many classrooms. The loss included all library books, many which cannot be replaced. Stamey said that it was impossible to estimate the loss on the library alone. At a meeting of students and faculty Wednesday morning it was announced that classes would be held as usual beginning Thursday morning. Classes will be held in the dormitories, the cafeteria, the shop building and the small classroom building on the campus. The building was built in 1908.

**Ranger Made Favorite To Cop Cage Title**  
A story by-lined Harless Wade, which appeared in today's Abilene Reporter-News, states that Ranger is a "heavy favorite to capture the District 7-A cage title. The story says in part: "Should the District 7-A basketball campaign go according to pre-season expectations, come February the Ranger Bulldogs will capture a cage trophy to set alongside their newly won state championship football award. "Eight district teams stand in the way of Ranger grabbing the roundball title, but only one — Cross Plains — appears anywhere near capable of picking off the heavily favored Bulldogs. "When the smoke clears from the two zone races, East and West, the two teams most likely to meet in the best two out of three game series for a berth in the regional tournament are Ranger and Cross Plains." Wade said, "Eastland could be the district's surprise quintet." He based his opinion on the fact that the Mavericks have high hopes of their all-lettermen starting line-up coming through.

## Moore... ABOUT Eastland

By VIRGIL E. MOORE

That Henry Pullmas is a fast man. We received a picture postcard from him this week and before we could mention it Henry was back home. Now the card was postmarked Los Angeles but the picture on the front was Las Vegas, Nev.

Fast man that Henry.

P. O. Friday of Desdemona was in the office the other day—getting his yearly subscription to The Telegram we might add—and we got to talking about the poultry business. Personally about all we know about the business is how to dispose of fried, baked, boiled or just plain chicken. His knowledge of the subject was a little more than ours, however.

Friday, who has been raising turkeys for five years, is trying his luck with 2,000 baby chicks. If everything goes okay he will have that many New Hampshire broilers ready by March 1. That will be just about right. We plan to visit him about March 10 and pick up a couple for our birthday present.

And speaking of birthdays. We guess you got your calendar from the hand students. We did. Found out those PHS boys and girls are pretty good salesmen. We decided we would just get a calendar and list the boys name, but soon one of the super salesmen got to talking to the wife and she decided she wanted her name listed too (that was when they told her it wouldn't list her age). Not wanting to be left standing by ourselves we just added our name to the list. A real good project which should catch on and be a yearly affair.

I. B. Walker, owner of the Dixie Drive Inn Theater, has got the bug situation solved. Walker has a big black and white cat that sits in the ticket window and eats up any insects attracted by the lights. Ladies being a good bug eater he is beginning to be an attraction. Kid—the younger ones—are beginning to want to go see the cat and the show.

We picked the following nonsense up from a booklet called "Tax Outlook." We told you the way these few tax rates had us confused — now they have us just plain old lost. If you remember we mentioned that income taxes are due to be slightly decreased this month while social security rates are due to increase. The article:

"Joe Much has a wife and two children. He makes \$2,600 a year. He currently pays no income tax and will thus pay none in 1954 when the scheduled reductions go into effect. But at the same time, if the Social Security tax rate goes up to two per cent, Joe's tax on account of the raise, will go up by \$13.30 a year in 1954.

"Alec Ander, his neighbor, also married with two dependents, earns \$3,500 a year. By the operation of the income tax reduction laws, Alec's income tax payments will go down in 1954 by \$17.69. But by the same token, if the Social Security tax rate goes up, he will be paying \$17.80 more in 1954 in Social Security taxes. Thus, net, he will be paying 11 cents more in taxes than he paid in 1953!

"On the other side of town lives Joe's cousin, Cal Canter (also married with two children). He makes \$3,570 a year. He'll pay \$17.89 less in income taxes in 1954 than he did in 1953 but, if the SS tax goes up, he'll be paying \$17.85 more for that, leaving Cal with a net gain of "take home" pay of four cents!"

And they say the tax load is being gradually lifted.

And J. M. Smith and son, Leo Smith, had good luck over the holidays. Both brought back bucks from

## Grid Banquet For Rangers Is Set January 22

## Dogs Land 3 On All-State

Three Ranger Bulldogs won berths on the official state championship team selected this week by the Texas Sports Writers Association to lead all other teams in Class A.

Leading the Dogs was End Chico Mendoza who polled 62 votes to take second place in individual voting. Other Ranger players to land berths were Guard Bobby Justice and Halfback Charles Masseege.

Only Wink's Ray Morgan, a tackle, beat Mendoza in point getting. Morgan had 69 votes. Masseege ran second in vote-getting in the backfield. He gained 40 points while Luling's Johnny Elam had 49 to take first place among backs.

Justice had 59 points. Only Ranger and Gilmer placed more than one man on the team. Gilmer landed an end, Dickie Sorrells, and a guard, Paul Davis, on the first eleven. The most noticeable thing about the selections is that Ranger End Tommy Hinds, a great 185-pounder, was left off the first and second team.

### Miss Mary Alice Freese And Mr. M. M. Snyder Take Wedding Vows

Miss Mary Alice Freese, daughter of Mr. and Mrs. J. E. Freese, 501 S. Bassett and Mr. M. Morris Snyder, now stationed in Hawaii with the Navy and formerly of Gorman, were married in the home of her parents December 31st, 7 p.m.

Rev. Otto Marshall read the double ring ceremony before an improvised altar of white gladioluses and candles. Mrs. Curtis Young was at the piano for the traditional wedding music, "I Love You Truly" and "Wedding March" from Lohengrin.

The bride, given in marriage by her father, wore a soft blue crepe with velvet trim, with a jewel studded hat of matching color. Her flowers were a shower bouquet of white gardenias and stephanotis atop a white Bible. Miss Betty Westfall was the brides only attendant and wore a red velvet with white trim and her corsage was of gardenias.

Carl Freese, brother of the bride, served the groom as best man.

A reception in the home followed and the bride table held a four tiered cake topped with miniature bride and groom encircled with orange blossoms and a centerpiece of gladioluses and candles for fruit punch. Miss Westfall served the punch and Miss Pat Pogue helped the guests with the cake. Included in the house party were Mrs. Vernon Red and Mrs. Johnson Smith and Martha Lee Freese, brides sister.

The couple left for a short wedding trip to Dallas. Going away costume for the bride was grey traveling suit with black accessories.

Mrs. Snyder attended Eastland High School and has lived in Eastland most of her life.

Mr. Snyder is the son of Mr. and Mrs. George Snyder of Gorman and is a graduate of Gorman High School.

Guests attending the wedding were: Messrs and Mesdames Vernon Red, Johnson Smith, Clara and Shirley, I. C. Donigan of DeLeon; E. K. Henderson, Curtis Young and Gary, Emmitt Powell, Hubert Westfall, Carl Jones, J. W. Watson, LeJeune Horton, Mmes. Stella Jarrett, H. C. Adams, Myrtle Alabrook, Misses Virginia Hatten, Patsy Pogue, and Betty Westfall. Messrs. Don Martin, Archie Campbell and David Marshall. The parents of the newly weds, the brothers and sister of the bride, Carl and Charles Wayne and Miss Martha Lee Freese.

After a short wedding trip the groom will return to complete his tour of duty with the Navy.

#### Bringing Home the Bacon—

... is not the popular pastime it once was, for we are living in a changing world. Take a look at prices, for example. Not up a little but doubled and trebled in many fields. An exception is insurance, except car insurance. The hazards of driving are still increasing, and all claim records for 1953 will be broken. For this reason we cannot afford to be without adequate car insurance. It's a "must" in every family budget.

If it's insurance, we write it!

Exemplar of the 1954 Buick's years-from-now styling is this stunning new Surex Riviera

THE instant you see these 1954 Buicks, you'll know that something sensational has happened in automobile styling. Here is vastly more than the usual model changeover. Here is vastly more than could be done just by warming over what Buick had before. Here is something accomplished by going far beyond artful face-lifting. Here is that rarity of rarities—a completely new line of automobiles.

But Buick didn't stop with the bolder, fresher, swifter-lined beauty you see in raised and lengthened fender sweep—in the huge and back-swept expanse of windshield—in the lowered roofline—in the most more glamor features of exterior modernity. They upped all horsepowers to the highest in Buick history. They engineered a new V8 for the SPECIAL—and in the process came up with new Power-Head Pistons that boost gasoline mileage in every engine.

## BUICK the beautiful buy

They brought to market a sparkling newcomer with a famous name, the Buick CENTURY—a car with phenomenal horsepower for its weight and price—a car with more pure thrill per dollar than any Buick ever built.

And they did all this without change of the price structure which, for years, has made Buick the most popular car at its price in the world.

We invite you to come in and inspect these great beauties, these great performers, these great buys. Then you'll see why the Detroit previewers are already saying, "Buick's the beautiful buy!"

When better automobiles are built Buick will build them

Ford's completely new 130-horsepower overhead valve V-8 engine, which Ford engineers call the greatest improvement since the original Ford V-8 and an improved 115-horsepower OHV I-block Six, are power choices in the new 1954 Ford passenger cars to be introduced by dealers early in January. The new deep-block construction of the V-8 results in smoother, quieter and more responsive power with greater economy and longer engine life. This cutaway model shows the engine's interior construction.

BOSTON—George Augenstein, 83, recalls helping Wilbur and Orville Wright work on an early model of their flying machine. Augenstein was employed as a stationary fireman for a Columbus, O., street railway at the turn of the century. On his days off he would help the Wright brothers in their scrappy experimental workshop, receiving \$1.00 per day for his efforts.

**Crude Oil Sales in Texas Set All-time Record**

DALLAS (Sp.)—Due to the 25 cents per barrel price increase at mid-year, Texas set a new record in income from crude oil sales during 1953, but a reversal of the annual production pattern is causing grave concern to the state's oil producers now, Charles F. Simons, executive vice-president, Texas Mid-Continent Oil & Gas Association, said today.

In its year-end summary of the petroleum industry's operations, the Association calculated the value of the state's crude oil and condensate output at \$2,798,545,000. This was \$130,270,000 higher than in 1952.

"The January-to-December production trend was upward in 1952 and downward in 1953. This trend is of more immediate concern to Texas operators than the comparison between annual volumes. They are starting the year with production rates almost 400,000 barrels daily lower than last January. If production continues for the year at this rate, total Texas income from oil production for 1954 would be some \$87 million less than in 1953," Simons said.

Royalty owners, the state government and the economy in general shared proportionately in the increased income from oil sales, but the industry itself did not realize the full benefit of the increase because of higher outlays on drilling, Simons pointed out. The operators drilled 18,574 wells during 1953 which was 1,112 more wells than in 1952, this offsetting a large share of the increased income.

**'Sacrament' To Be Christian Science Topic**

That purity is basic to spiritual progress will be the theme of the Loson - Sermon entitled "Sacrament" to be read this Sunday in Christian Science churches.

The following passage will be among those read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "We should strive to reach the Holy Spirit where God is revealed; and the cornerstone of all spiritual building is purity. The baptism of Spirit, washing the body of all the impurities of flesh, signifies that the pure in heart see God and are approaching spiritual life and its demonstration" (241:24).

This correlative Bible selection will also be included: "Let the words of my mouth, and the meditation of my heart, be acceptable in thy sight, O Lord, my strength, and my redeemer" (Psalms 19:14). The Golden Text is from Galatians: "Ye are all the children of God by faith in Christ Jesus. For as many of you as have been baptized into Christ have put on Christ" (3:26, 27).

This new T-800 Series tandem axle truck is the first tandem unit ever built by Ford. The biggest payload carrier in the 1954 Ford Triple Economy truck line, it handles payloads (with body) up to 29,943 lbs. As a tractor it pulls a gross combination of 60,000 lbs. within legal limits of most states. Factory-built, it has a front end and frame engineered for tandem operation and the tandem suspension permits "level-load" distribution regardless of the uneven surface traveled. Powered by a new low-friction 170-h.p. Power King V-8, it has Master-Guide power steering available to reduce steering effort up to 75 per cent.

## WHAT EVERY YOUNG LAWYER SHOULD KNOW

HATTIESBURG, Miss.—An attorney whose experience includes participation in 207 murder trials gives this advice to young lawyers:

"Beware of the juror who is an old guy with one foot in the grave—he will electrocute you in a hurry."

Earl Wingo added that the most lenient juror generally is one under 40 with a good education. If he's fat, all the better.

"A fat man who laughs at almost anything and likes a good joke is good, too, for the defense lawyer," Wingo continued.

Skinny people generally won't do from the defense standpoint, Wingo added, especially if they have "little, old, mean faces."

## Fall Season Hunting Deaths In State 23

AUSTIN (Spl.) — Four additional hunting fatalities have brought to twenty-three the number of Texans succumbing during the fall hunting season, according to the Executive Secretary of the Game and Fish Commission.

All of the latest deaths were attributed to firearms. Of the previous list of eight reported, six had been caused by drowning of duck hunters.

The latest casualties included: A Bonham man shot by his own gun which was discharged when he set it down against a tree. The bullet struck him in the head.

A Corpus Christi man killed by his son near Uvalde when the latter fired at a wild turkey.

A 16-year-old Marshall lad killed hunting rabbits when a companion's gun was discharged as he hurried through a fence to shoot at a rabbit.

A 14-year-old Fort Worth boy killed by a self-inflicted rifle wound while hunting.

The Executive Secretary said the fall casualty list seems to be running slightly higher than that of last year.

He said that while all the reports have not been made, it is significant that not one case has been reported of a hunter being killed in Texas when mistaken for wild game.

The Executive Director said the final total would not be known for sometime since the last phase of the major fall harvest carries on through January 16 when the quail season ends under the General Law.

In 1948, Army medical reserve officers showed that trench fever is transmitted by the bite of the louse.

The greatest engine advances since the original FORD V-8  
BOTH NEW 1954 Ford engines... the Y-block V-8 and the I-block Six... have overhead valves for most efficient high-compression operation on today's fuels. Valves are free-breathing to give you the most GO... free-turning to seat tightly and maintain high compression. Both engines have a deep-cast block with skirt that extends well below the crankshaft for greater strength and rigidity... smoother, quieter performance and extra-long engine life. Their modern short-stroke, low-friction design cuts friction losses... gives you more usable horsepower, more miles per gallon of gasoline. New high-turbulence combustion chambers assure a more thorough mixing of fuel and air for faster, more efficient combustion. Plan to Test Drive a '54 Ford. You'll find these new Ford power plants are the greatest engine advances since the original Ford V-8.

Plus five optional power assists\* you might find only in America's costliest cars

- DIVIDEND IN DRIVING EASE**  
Master Guide Power Steering: It does up to 75% of your steering work for you, makes parking a pleasure, leaves you with the normal feel of steering as the straightaways.
- Swift Sure Power Brakes: Power does up to one-third of the work of stopping for you! You are less fatigued, more relaxed. In the stop, and go driving of congested traffic.
- Power-Lift Windows: Windows open or close at the touch of a button under each window or on left front door. Drives may operate any of the four Power-Lift Windows.
- 4-Way Power Seat: Push one of two controls and the front seat goes up or down... push the other and it goes front or back. It's a real convenience and comfort feature.
- Fordomatic Drive: You get the smoothness of a fluid torque converter plus the instant "go" of an automatic intermediate gear. Ford also offers gas-saving Overdrive.

This Ad Effective Friday and Saturday Only

Designed as a versatile light duty truck which also takes the family to town in comfort, this sturdy new 1954 Ford F-100 Series pickup offers a choice of Ford's completely new 130-horsepower overhead valve Power King V-8 or the new 115-h.p. OHV Cost Clipper 6-cylinder engine. Its smart new grille and "driverized" cab are combined with 45 cu. ft. of unobstructed loadspace—all-bolted construction pickup box for superior strength and longer life. Fully automatic Fordomatic transmission, I-Rest tinted glass and vacuum-boosted power brakes are available at extra cost.

An exhilarating open-air feeling with overhead visibility entirely new to a hardtop is found in this new 1954 Ford Crestline Skyliner—a Ford exclusive in the high volume field. The illusion of riding in a convertible is given by the transparent, molded plastic top, tinted blue-green, which covers the entire driving compartment. Like all 1954 Fords, it is available with a completely new 130-h.p. Y-block V-8 engine or a new 115-h.p. I-block Six.

### HANDY HOME HINTS

#### ENTERTAINING TODDLERS

When "small fry" come to visit, have a play drawer for them that you can pull out and place in the middle of the floor for their entertainment. For a starter, buy an assortment of five-and-dime toys, such as hard-rubber automobiles, tractors, trucks and fire-engines, a few pull toys, a box of blocks and some washable cuddly toys. Add empty sewing spools strung together, a handful of clothespins, one or two pie tins and a package of discarded playing cards and the toddlers will enjoy themselves while you visit with their parents:

#### KITCHEN DESK

Running a household can be as challenging a job as that of a woman executive in business. And every executive has a desk. The homemaker's kitchen planning desk can be a cozy, attractive center which keeps the budget, shopping lists, menus, appointments, etc., carefully on file. Expensive woods are impractical because of kitchen steam but a clay-tiled desk top in a lovely color to accent the walls or match them would be ideal, the Gas Appliance Manufacturers Association suggests.

#### WHITE GOODS INVENTORY

Take stock of your supply of white goods while the annual sales are in progress, the home economists of the Gas Appliance Manufacturers Association advise. Save worn sheets and pillow cases to polish windows and mirrors, but rip off hems and selvages before cutting them up into rags. Thinned out terry cloth towels are handy for wiping up messy spills of ink, paint, grease and for washing the family car. Get extra mileage out of your discards by doing a rag wash periodically in your washer. Ten minutes in your gas clothes dryer with the dial set at high and they'll be ready for duty again.

#### EFFICIENCY TIPS

Good-to-know: a quick rub with vaseline keeps corks from sticking in bottles of liquid cement, polishes and glues. And a dab of glue on the knot will safely seal the ends of cord when there isn't enough to knot securely.

### Farm Chemical Conference Set At Texas Tech

LUBBOCK (Sp.) — Twenty-four experts in agricultural chemistry will tell of the best methods for use of fertilizers, herbicides and insecticides Jan. 13 and 14 at the first annual Agricultural Chemical Conference.

The program will be conducted at Texas Technological College, Lubbock, sponsored jointly by Tech, the West Texas Chamber of Commerce, the Lubbock Chamber of Commerce and the Texas A&M College system. Conference theme is "the place of chemicals in West Texas agriculture."

Loyan H. Walker, manager of the agriculture and livestock department of the WTCC, points out that the agricultural chemist has greatly aided the farmer by providing products that enrich the soil and crops, curtail effects of animal and plant diseases, and destroy harmful weeds and insects.

Designed particularly for bankers is the banquet address the night of January 13, "The Relation of Agricultural Chemicals to Crop Financing and Production," by George B. Hall, manager Western Cotton Oil Co., El Paso.

The conference has been planned primarily for the agricultural chemical dealers, distributors, processors and manufacturers, and bankers, but it is open to the public.

Registration for the meeting begins at 8:30 a.m. on Jan. 13. J. C. Porter of Wichita Falls, chairman of the WTCC's soil conservation committee, will preside at the opening session.

First day of the conference will be devoted to the subject of fertilizers. Speakers and their subjects include: "Soils of the High Plains"—Homer Taff and James R. Coover, Soil Conservation Service, Lubbock.

Ready to go...  
Without a touch of an iron!

### They have a Gas clothes dryer!

Every stitch of clothes this family is wearing (and this includes the teddy bear!) came from the gas dryer without seeing an iron!

Sheets, pillowcases, bedspreads (and diapers, too) come from your gas dryer ready to fold and store. They're soft and smooth... not wind-whipped and stiff.

It's surprising how wrinkle-free most clothes come from an automatic gas dryer... your ironing is cut by one-third. And best of all, the most tedious one-third!

And of course, with an automatic gas dryer sprinkling is eliminated on those clothes that do need ironing.

Jeans, work pants, corduroy and denim playclothes, T-shirts, and those popular cotton flannel shirts come from the dryer ready to wear. "Miracle" fabrics, too, dry easily and quickly in the gentle tumble action. Orlon and Dacron dresses, sweaters and skirts (even accordion pleats!) take a short drying time and come out super-soft. Nothing keeps an Orlon "fleece" coat smoother or newer looking.

Get a gas dryer now. You'll be surprised at the time and work it saves you! See them at Lone Star or your favorite dealer's store!

Materials with a nap or pile keep their soft, fluffy newness with a gas dryer. Corduroy, shag rugs, wool blankets and chenille fluff-dry to perfection. Towels are twice as thick, twice as absorbent as when line-dried... and everything is lint-free!

## EARLY CHICK Announcement

Poultry-raisers—by planning ahead, you can be money ahead. Here's what we mean: Early chicks started in January, February or early March should make \$20 to \$40 more per hundred from the extra eggs they'll lay in the fall. Early chicks have always made more money than late chicks because they hit their peak production in September, October, November and December when prices are highest. So, plan ahead... to be money ahead... and get your chicks started before March 15th. For quality chicks place your order now with Wilson Feed and Seed—your Purina Dealer. Chicks you buy there come from carefully selected, high-producing parent flocks. They're bred right and hatched right to help them live—lay and pay. Order your chicks today from Wilson Feed & Seed for delivery just when you want them.

### CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 9.399 miles of Asphaltic Pavement from U. S. 80 in Cisco to 1.5 mi. North of Romney on Highway No. U. S. 183, covered by C 127-1-7, in Eastland County, will be received at the Highway Department, Austin, until 9:00 A. M., Jan. 20, 1954, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with the provisions of said House Bills, the State Highway Commission has ascertained and set forth in the proposal the wage rates, for each craft or type of workman or mechanic needed to execute the work on above named project, now prevailing in the locality in which the work is to be performed, and the Contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid for at the regular governing rates. Plans and specifications available at the office of B. R. Russell, Resident Engineer Brownwood, Texas, and Texas Highway Department, Austin. Usual rights reserved.

"White animal" is the meaning of the opposum's name. It comes from either "wabassin", an Objibway word, or "apassum", an Algonquin word. Some authorities claim the name comes from the fact that the opposum has opposable first hind toes, meaning that these toes work very much like human thumbs.

## NEWS FROM CHEANEY

We, too, had blackeyed peas for New Year's dinner, but wonder how many others had honey-dew melon to go with them? A nice sized melon which came from Plainview, where we visited during the Christmas holidays was surely a seasonable delicacy to grace the New Year's table.

We will catch up with a few of last week's happenings: Mr. and Mrs. Henry Perrin tell us of the arrival of a grandson in Baltimore, Md. The baby is the son of Maxine and Dale Warren, and has been named Madison Dale.

Randy Michael Compton arrived on Dec. 16, to his parents, Mr. and Mrs. Graham Compton, in

Weatherford. This, from the grandparents, Mr. and Mrs. Joe Butler, who visited the youngster just recently. The Butlers visited in Rule, Texas during Christmas with her sister, Mr. and Mrs. C. A. Brown.

Mrs. Oleta Wade, Dardemona, and Mrs. Addie Bell Moseley, Olden, were callers Saturday in the John Love home.

A reunion of the Cicero Weekes family was held in Ranger the day after Christmas. All the children were present with their families, which included Mrs. Maud Dean, Mrs. Sophie Freeman, Mrs. Etta Brittain, Mrs. Jennie Kimbrough, Willis, Dick and Frank Weekes, Buford Clemmer, Atlanta, Ga., a grandson of the Frank Weekes, was also numbered among the 35 who attended the event.

Mr. and Mrs. Alton Perrin left Friday for Lawrence, Mass. where they will visit indefinitely with Mrs. Perrin's people. They will visit in Baltimore, enroute, with Alton's sister, Maxine and Dale Warren. They were accompanied by a niece of Mrs. Perrin, Edna Sadzeweis, also from Mass.

Mr. and Mrs. Homer Goswich of Abilene, and Mr. and Mrs. Monroe Ainsworth and family visited their mother, Mrs. Garland Davis and Mr. Davis in Ranger during the holidays.

Other holiday visitors were here—the Bob Loves and the Jack Loves from Odessa and the Lum Loves of Lubbock in the home of their mother, Mrs. Ann Love.

Mr. and Mrs. Morgan Box and children of LeCenter, Ky.; Mr. and Mrs. Doc Stone, Hobbs, N. M., visited here with the Richard Tuckers and their mother, Mrs. Mary

Tucker, who accompanied them back to Kentucky for an indefinite stay.

Mr. and Mrs. Richard Tucker visited last week with the Chris Tucker family in Arlington. A nephew, Jog Dale Tucker was home for a 30-day leave from Germany.

The Dave Weekes had all their children, Mrs. Eunice Love, Mrs. Naomi Rogers, Mrs. Edith Yancey and Mrs. Agnes Rodgers and their families together to enjoy the seasonal Yule dinner.

**Mother of Mrs. Elwood Buried in Strawn**

Funeral services for Mrs. Beulah Watson were held at the Morning-side Baptist Church in Graham Saturday. Mrs. Watson died at her home in Abilene last Thursday. She had been ill since October with a heart ailment.

Mrs. Watson was a member of the Corinth Baptist Church. She is survived by two daughters, Mrs. Howard Elwood of Ranger and Mrs. Jewel Walker of Abilene; two sisters, Mrs. Rosa Lee of Ranger and Mrs. T. A. Short of Arkansas; three grandchildren; and two great grandchildren.

Burial was in Strawn cemetery.

Handsome Tony Martin attempts to smooth over a romantic difficulty with Esther Williams in a scene from MGM's gay Technicolor musical, 'Easy to Love,' opening at the Majestic Theatre this week. Van Johnson enacts Martin's rival in the story of a water-skiing star who finds himself deep in man-trouble. The musical, filmed at Cypress Gardens, Florida, is highlighted by some of the most arresting water-skiing spectacles ever brought to the screen.

**STUDENT HANDY MAN LOAFS AT HOME**

CARBONDALE, Ill.—Richard Hoffarth is working his way through Southern Illinois University as a sort of collegiate "Available Jones."

Hoffarth, a mathematics junior from East St. Louis, Ill., advertises himself as a specialist in "doing the odd jobs husbands hate."

Hoffarth has fought wasps in an attic, washed windows in a 200-pane house, pickled pears, done gardening, and cleaned gutters on an almost perpendicular roof.

"One woman had me tar the cracks between the floorboards in her apartment to keep the beetles out," he said.

Hoffarth's odd jobs keep him busy about 20 hours a week. His wife and fellow mathematics student, Hallie, is not completely in favor of his activities.

"I can never get him to do anything around the house," she said.

**Massegee Wins Nation-Wide Poetry Contest**

By PAT PERRIN

Probably if you told this to some of the players who have tried to tackle him this past grid season, you would get laughed at, but it's true. Charles Massegee, Ranger High School's All-State back, is also a talented writer of poetry.

Charles has just been notified that one of his poems has been selected by the National Poetry Society of America in a recent Poetry contest. The poem will be published in an Anthology which will come off the press soon.

Charles is a senior and will graduate. He is the first student to be so honored at RHS.

**Pumps Winning Water Fight At Big Hurrah**

NOME, Alaska—Modern methods and the know-how of Alaskan miners are winning a battle against water which has seeped into a deep mine pit and sealed off a treasure of Alaskan gold.

T. F. Lane, manager for the famed Big Hurrah gold mine, said large pumps are "licking the water problem."

For half a century, mining men despaired of ever tapping the riches of the Big Hurrah because of the heavy water seepage that flooded the diggings.

**CAREER AS MAYOR EMBRACES TWO TOWNS**

MOUNT GILEAD, O.—It is not unusual for a mayor to win two terms in office, but Emery Murphy has been chief executive of two towns.

The 73-year-old retired machine shop foreman was mayor of Zion, O. in 1929 when he filled an unexpired term, moving up from president of the council. Upon retiring, he moved here and was elected mayor last fall.

**REVOLUTIONARY TIE**

NEW LONDON, N.M.—Two local residents can boast that their grandfather fought under George Washington. Joseph Cutting, 85, and his 85-year-old sister, Julia Cutting Thompson, are the grandchildren of Benjamin Cutting, who enlisted in the Continental Army in 1779 at the age of 18 and received an honorable discharge in 1780.

**Ross Kemp Speaks At RJC Assembly Program Tuesday**

ROCKVILLE, Conn.—City Court Judge Robert J. Pigeon proposed a change in legislation concerning the working out of unpaid fines at \$1 a day. "When the law was written," said the judge, "a dollar was worth a dollar."

"Careless Driving Leads to Murder" was the keynote of a speech given by Ross Kemp, of Abilene, divisional head of the State Department of Public Safety, in an assembly program at Ranger College Tuesday morning.

Mr. Kemp cited specific cases to show that a large percentage of traffic fatalities are a direct result of careless driving, often accompanied by drinking. In recent years many drivers who have been directly responsible through recklessness for accidents which resulted in fatalities have been brought to court to answer a charge of murder.

According to Mr. Kemp, the most effective means of increasing safety on the highways is through the education of beginning drivers. Courteous driving is never careless driving.

Following Mr. Kemp's talk a film entitled "A Day in Court" was shown.

The program was arranged by the International Relations Club of the college, which is sponsored by Mr. R. L. Willis.

Stark terror is sharply etched on the faces of these victims in the first battle of "The War of the Worlds," Paramount's brand new Technicolor thriller which opens Saturday only at the Majestic Theatre. Produced by George Pal, "The War of the Worlds" tells the astounding tale of an invasion of Earth by merciless marauders from outer space.
