# Uncle Sam Is John Smith

It is the business of Harry L. Hopkins, WPA administrator, to pass money out rather than take it in. He does receive some money once in a while, however, and it is doubtful that he ever got a more significant check than the one he received recently from Fred Hohner.

Fred Hohner is an unemployed mechanic living in Newark, N. J. In 1935 he got some help from the WPA. Since then he has not needed any help; but he never could forget that he had had help when he needed it, and so the other day he set out to square the account.

He had \$112 at the time-and no job. But he went down to a postoffice and bought a money order for \$100, and then mailed it to Hopkins.

My money was getting so low that if I hadn't paid it when I did I might have had no money to pay," he explained. "The government did its best to me, and I wanted to do my best to the government."

The obvious comment on all of this, of course, is that it is a pity that more people don't have the same kind of conscience that Fred Hohner has. Millions upon millions working satisfactorily will be reof people have been helped by the government in the last of 1,100 parole board members five or six years; only a few have remembered to pay the serving in 243 counties has been government after they got on their feet again.

That doesn't mean that most people are ungrateful. It simply means that very few of us ever realize just what this government of ours really is.

It isn't a thing which exists of itself, an independent entity which floats cloudily in the sky over Washington and showers down blessings every so often. In reality it Texas' results. The Texas plan atis nothing more or less than the instrument through which tracted the attention of the fedall of us act. It is ourselves, in short-John Smith and his eral government. A special survey fellow citizens.

So when "the government" does something for a man tem, convicts are paroled to coun--provides a job for him, pays his rent, bails out his busi- ty boards, which promise to keep ness, or whatever-what is actually happening is that that obtain lawful employment. Failman's fellow citizens are coming to his rescue. He isn't ure to report to the local board being aided by a benevolent old gentleman with chin whis- results in cancellation of a conkers, known as Uncle Sam, or Santa Claus; he is being aided by his own countrymen, and all of them, in one degree or another, are paying the bill.

Perhaps people like Fred Hohner recognize that fact. If so, it is a little easier to see why they insist on repaying what they have received. They aren't repaying a mythical EASTLAND TELEGRAM

FARM HOME CAN HAVE "T PRIZE my Superfex above anything else in

LABOR

our home." That's what users say. And no wonder. We are enthusiastic about these refrigerators, too, and so will you be when you see what one will do in your kitchen, especially if 1 you live far from town, where the need for refrigeration is much greater than in city homes, with food markets just around the corner,

#### Cheapest to Run

No matter where you live, Superfex is one modern convenience you can have. It works ANYWHERE and it costs less to run it than any other refrigerator we ever heard of. There's no continuous flame. The burners do 24 hours' work in about two hours and then go out automatically. And the kerosene for a whole year costs only about \$10-less than \$1.00 a month. Superfex is made by the Perfection Stove Company, and we know what that means, and so does everybody who has ever used any of the oil stoves they've been making for almost 50, years. They began making these refrigerators ten years ago, and when we found out that many KEROSENE

of them have been in use right at the equator we figured that they must be pretty good and

East Commerce St.

WHAT'SA JUS' RYIN' TO MATTER CLOWN!

He wishes his schoolmates would ryan street west of the city just forget about the picture which sent Der Fuehrer into a

sputtering rage five years ago. Here's now it all happened:

In 1933 a photograph purporting to be that of Hitler at a vary early age was widely published in the United States. The baby in the picture wasn't a pretty baby. In fact, he looked like a most terrifying brat-obviously a very tough customer at a very early

Herr Hitler was made very unhappy by the picture, because it really wasn't Baby Adolf at all. The German government obtained a true picture of Hitler as a baby and sent it over here to be published. The newspapers all said they were sorry, but they didn't know how it happened or the identity of the baby whose picture they had published.

Now it has been discovered who the baby was-none other than John May Warren, now a husky 8-year-old who lives in Lakewood, a suburb of Cleveland. It was a picture of Johnny at 2 years of age which had been published as that of Baby Hitler. But the picture wasn't the real Johnny. Someone, identity unknown, had
