Lie Foresees Break In U.S.-Red Deadlock

Java Warfare **Continues** In Spite Of

BATAVIA, Java, Sept. 4. (P-Gunfire crackled along the frontlines of Java and Sumatra tonight as the first month of the ceasefire order, sponsored by the United Nations, ended. Not a day has passed in which both the Dutch and Indonesians did not report new fighting.

The Dutch, for instance, reported 14 new clashes on the islands yesterday and accused the Indoesians of systematically disturbing law and order in an attempt "to convince the outside world that the Dutch were incapable of maintaining peace and security."

The United Nations consular mission, which the security council ordered Aug. 25 to supervise the cease-fire order and report on it, is just now beginning its work. Consuls General Thomas Lambert of Great Britain and P. Vanderstichelen of Belgium will fly to the republican capital of Jogjakarta tomorrow to establish personal contacts. The United States, French, Chinese and Australian consuls general, the other members of the commission, previously had visited the inland city. The Dutch have lost more than

400 killed, wounded and missing since the cease-fire order supposedly became effective at midnight Aug. 3. The Indonesians estimated their losses were 15 times as great.

Real Estate Men Deny Charges

LAKE SUCCESS, Sept. . 4. (AP)-Trygve Lie is approaching one of the most crucial periods in his tenure as secretary-general of the United Nations with expressed hopes of an early break in the East-West deadlock stalling international agreement.

With the 55-nation general assembly opening in two weeks for what some observers choose to call a make-orbreak session. Lie is confident at least some of the difficulties between the United States and Russia will be wiped away, he told the Associated Press today.

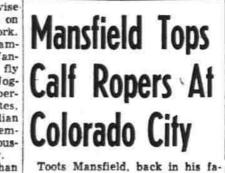

Lie acknowledged that it was impossible to forecast whether the log-jam would be broken as early as this fall, +but he added a conviction

COWBOY, SKUNK happen.' FIND EACH OTHER

CARLSBAD, N. M., Sept. 4. P-Dudley Ussery, foreman of the 9-K ranch just across the Texas line from Carlsbad, went shopping for a powerful deodorant today.

Ussery smelled a skunk at the ranchhouse, and went searching outside and underneath the dwelling. As the scent grew stronger he moved inside. Finally 'ie peered into a clothes closet. That was when he found the

Project Under Houston Channel

Underwater Highway Traffic Tunnels Will Be First In Texas

By MAX B. SKELTON Associated Press Staff HOUSTON, UB-In 1949 Texas will

have its first underwater highway traffic tunnel

The Harris county commissioners court is receiving bids on construction of a \$5,000,000 vehicular tunnel at Pasadena that will run

2,200 feet under the Houston ship channel and replace a ferry service that slows both highway and channel traffic.

It will be the first such project in Texas and the second in the South.

The project is the first of two being planned to facilitate handling of the tremendous increase of highway and channel traffic that has accompanied the coastal industrial boom

A second tunnel, a cooperative project between Harris county and the state highway department, will be constructed at Spillman's Island in San Jacinto bay at the base of

Practical, low-cost, allsteel buildings. Easy to erect; will not sag, warp or rot. Permanent, fireconstruction. Call. today for full details.

NOW FASHION EXPERTS DECREE MEN'S ANKLETS TO SHINE FORTH

NEW YORK, Sept. 4. (AP)- Men's ankles are about to have their day in the sun.

With women's legs and ankles losing the battle against the longer skirt, men's fashion designers have decreed the male ankle will come out from under. Men's trousers, they say, will be at least two inches shorter.

Tony Williams, fashion arbiter for the annual list of best dressed men, warned gloomily that the way things are going, men will be lucky if they have any pants left at all.

"The shorter trouser with cuff will barely touch the top of the shoe," he said.

A spokesman for a chain of men's clothing shops said pants on eastern university campuses will barely meet the top of the sock, but added, "every customer is encouraged to decide the most becoming length for himself. After all, it is very simple to turn up a hem."

The charter members of the SYMPTL (Sam You Made The Pants Too Long) club have the sanction of women fashion designers.

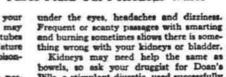

Clarie McCardell declared, "It's time we women had something to look at."

Acid Shot Set For Plymouth No. 1 Frost

A small shot of acid was due to be given Plymouth No. 1 Frost, north-central prospective Ellenburger for Sterling county, after a 100sack cement squeeze job had been run to shut off drilling mud coming through perforations.

The deep wildcat, first indicated producer for Sterling, was due to cidize through perforations from 8,358-78 after squeezing through perforations from 8,310-20 in an effort to shut off the mud thought to be coming in from behind the casing above the Ellenburger pay zone. Ten days ago the test rated N. M., Mr. Chandler and daugh-180 barrels on a 12 hour test before sealed off to prepare for test. Since then mud has choked off efforts to revive the flow. Location is 1,980 feet from the south and been ill. west lines of section 39-2, H&TC, 12 miles north and slightly west of Sterling City. It has a chance

of being the first Ellenburger producer on the southeast side of the Permian Basin.

In Martin county, King, Warren & Dye No. 1 Martin, three miles of Hatchell, Mr. and Mrs. John east of Stanton, prepared to test shows in the Grayburg, indicated on an electric log from 3,600-3,700 feet. On a 30 minute drillstem test from 3,914-4,061 feet in the San Andres, the test returned 1,100 feet of sulphur water. Location is in the C NW SE 9-35-1s, T&P. Stanolind's No. 1 J. E. Mabee, deep exploration in northwest Martin

county, was below 6,273 feet in lime. It is 660 feet from the south and west lines of section 87-258, Briscoe school land survey.

One test, R. G. Clay No. 1 O. W. Jones, was abandoned in southeastern Dawson county. It quit at 4.366 feet in the San Andres after lutile testing from 4,335-63. Located in the C NW NE 26-35-5n, T&P, the test had been projected for 4.750 feet. Humble No. 1 F. M. Weaver estate, in the northwest utskirts of Lamesa, was at 3,590 feet in anhydrite. Location is in the C NE SE 68-35 (no survey).

Big Spring (Texas) Herald, Thurs., Sept. 4, 1947 Ways Of Dressing Up Luncheon Meat Loaves

By CHARLOTTE ADAMS Associated Press Food Editor Canned luncheon meats are fairly reasonably priced. That's a big point this year of 1947, isn't it? But perhaps you — and your GI family members are tired of canned meats. That could be because you just turn them out of the can, slice them and serve them. Here are some suggestions on other ways to serve canned meats.

Bar-B-Quick

3 tablespoons cider vinegar teaspoon salt teaspoon dry mustard

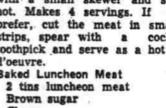

Worcestershir tablespoons

2 tablespoons water

2 tablespoons butter 1 tablespoon brown sugar 1 teaspoon grated onion 1 (7-ounce) can tomato paste 1 (12-ounce) can luncheon meat Combine in a skillet all ingre-

dients except the canned luncheon meat, mixing well. Simmer about 10 minutes. Cut luncheon meat crosswise into strips (3x1x1 ins.) and add to sauce in skillet. Simmer 20 minutes longer or until sauce thickens. Turn meat occasionally. Spear each piece of meat with a small skewer and serve

garine.

Salt

Pepper

Chutney

1 tablespoon curry powder

Brown meat, onion, tart apple

in butter or margarine. Add rai-

sins and water to cover. Cover.

There should be about one and a

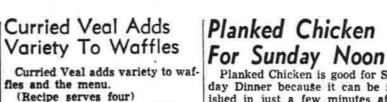

half cups of liquid when finished.

Simmer about one and a half

cup light cream

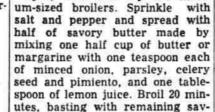

French fried onions

Grated Coconut

Planked Chicken is good for Sunday Dinner because it can be finished in just a few minutes after 1 pound veal cut in cubes church.

tween the chicken and the border. hours or until meat is tender. Place in a very hot oven, 500 degrees, for five to ten minutes or until vegetables are browned.

Pink Bollworms In Southwest Texas

SAN ANTONIO, Sept. 4. (B-There is a definite increase in the number of pink bollworms discovered in cotton crops in Nueces and San Patricio counties, L. F. Curl, division chief of the U.S. bureau of entomology, said here Wednesday.

"While the increase is not alarming," he stated, "it does show a trend."

He said .03 pink bollworms were discovered in each bushel of cotton in Nueces county in 1946 while the 1947 gin trash inspections revealed 1.18 worms per bushel.

Consumption Of Water Jumps Here

Local water consumption jumped to a new record Guring August when pumping figures exceeded those of July by more than 100,000 gallons, City Manager H. W. Whitney announced this morning.

The August total amounted to 107,739,000 gallons, or an average of more than 345,300,000 gallons a day. The July total was 107,622,000 gallons. Aug. 11 was the heavlest day of the month, with slightly over 4,000,000 gallons.

Once again more than 40 percent of the total was drawn from the city lakes. Pumping records from the various sources of supply showed 47,930,000 gallons from the lakes; 15,272,000 from Sec. 33; 9,-930,000 gallons from Sec. 17; 1,-975,000 gallons from the City park wells: 32,658,000 from the O'Barr well field.

Traffic Resumed After Truck Fire

DALLAS, Sept. 4. (P- Normal traffic was resumed on U.S. Highway 80 Wednesday after being rerouted 10 miles east of Dallas boulevard when a truck loaded with ten 50-gallon drums of acid for delivery in Kaufman, Texas caught fire last night.

As the drums exploded, flame shot 50 feet into the air.

Driver of the truck, Ramo Davis, 21, of Belleville, Ill., said the chemicals probably were ignited by friction.

The blaze was brought under control by the Dallas fire depart-

Senator Says U. S. Must Make A-Bombs

WASHINGTON, Sept. 4. (P-Senator McMahon (D-Conn) said Tuesday the United States is forced to go on making and improving atomic bombs because of Russia's refusal to accept the American plan for international control.

As a result of this stand by Russia and its "aggressive and expansionist policy on every front," McMahon declared, the people of the United States have become unified in our determination that Russia shall not either by intrigue or by force accomplish the domination of Europe and Asia."

McMahon was one of eight speakers during a half hour coast to coast "radio rally" in which Democratic orators warmed up for the 1948 campaign by hammering at the record of the Republican-controlled congress on labor, price, farm and housing legislation.

Attitude Is The Thing Which Counts

Attitude is perhaps one of the most important thing in human relations. Get the attitude of an individual, a community or a state or nation and you can pretty well sketch the complete picture without any more questions.

Thus, it is that the experience of David Solomon, a former serviceman, is particularly refreshing.

News stories tell how he was driving near Pershing Road Beach in Chicago when he heard two 14-year-old lads call frantically as their canoe capsized. He jammed his car to a stop, rescued the boys and returned to his car to find a crowd waiting.

He also found that his wallet and \$30 was missing from his coat.

Most of us would have had some pretty pronounced reactions to such a situation. We likely would have concluded that "there ain't no justice," or "that's what a guy gets for trying to be helpful."

But Solomon proved that reaction to experiences largely mirrors out stripe.

"Oh, well," he said, "it was worth thirty bucks to save those boys."

David Solomon made his loss a gain for himself. Unwittingly, he may have created gain for others in enriched philosophy of life.

position to protect them.

MERRY-GO-ROUND

held as prisoners.

BY ROBERT S. ALLEN

WASHINGTON. - If certain inner Army politicos have their way, able conscientious Gen. Omar Bradley will be sidetracked as General Eisenhower's successor and shunted off into a high-sounding but lesser job. The secret plan is to make Bradley commanding general of a U. S. theater that would be created for this purpose. The theater would include the continental U.S. and be comparable to the Mediterranean and other foregin theaters. As theater commander, Bradley would be junior to the chief of staff, the post he really wants and is oustandinly fitted to hold.

However, by sidetracking Bradley, the Army politicos would open the way to grab off the C-S prize. First choice on their list is tali, ambitious Gen. Mark Clark, U. S. commander in Italy during the war.

Bradley is now in Europe on a special inspection trip, on six weeks' leave from the Veterans. Administration. He is Eisenhower's personal choice as his successor. At the time Eisenhower announced his plan to retire from the Army in January to become president of Columbia University. he told newsmen he hoped Bradcasually, "Oh, I've got a lot ley would become chief of staff. But the inner Army politicos more at home." . . . The famed have other ideas. Bradley is too non-political minded to suit them. Under the new unification modest Ben Cohen, who recently and promotion acts, there are numerous juicy plums to be grabbed off and they want a direct hand in the grabbing. They rightly fear there would be little fitting that President Truman or none of that under Bradley. So, during his absence, there is much undercover scheming and wirepulling to side-track Mr. Bradley, These antics are particularly interesting in view of the Army's customarily haughty disdain of politicians. Actually, inner Army politics is as hectic, petty, and crass as any played outside the service. NO LUCK

Before stepping out as national commander of the Veterans of Foreign Wars, genial Louis Starr called on President Truman With VFW legislative representative. "Are you quitting, too?" asked the President.

"No: no such luck for you. Mr. President. I'll still be around to get in your hair."

'Yes," grinned the President. 'I guess that's to be expected." TRAGIC PROBLEM

and 58 per cent stayed on their

jobs longer.

A report compiled by Comptroller General Lindsay Warren charges overpayments or fraud ing ceases, is still anyone's guess. The natives hate them in more than 5 per cent of all war contracts. Out of 4789 contracts that were studied, Lindsay found the government paid \$4,350,000 more than it shoulds La Junta, Colo., on a traffic have.

On the basis of these figures, Bender estimates the government was overcharged, or cheated, out of more than \$60,000,000 on the 318,000 war contracts.

Bender's investigators have informed him that the technique most frequently used to gouge the government was to falsify the value of inventory remaing at the time of a contract termination, particularly materials and equipment which could be used later for civilian production. Frequently, the contractors would repurchase these articles at a fraction of their face value. claiming that costly precision tools and fabricating machines were good only for scrap. DEWEY MOVE

The Dewey camp is quietly organizing to make a determined fight for the Iowa delegation.

Heading the move is Whitney Gilliland, of Glenwood, former youngest district judge in the state. The drive is aimed chiefly at Minnesota's Harold Stassen, who has considerable support among G. O. P. county chairmen.

However, the Republican state central committee is all split up, with members favoring Taft, Dewey, Stassen, Speaker Joe Martin and a few for General Eisenhower, State chairman Willis York and longtime national committeeman Harrison Spangler are in the Taft camp.

Refreshing International Amity

.

Nineteen nations have pledged themselves, in an unprecedented step, to act in concert against any aggression in the Western Hemisphere.

While the pact between the Americas is significant through its implications and provisions, it also is important per se. That these nations should come to common understanding on so vital a matter in so short a space of time is refreshing in the field of international relations.

It signals, as President Truman observed at Rio de Janeiro, formal notice to any "possible aggressor" as well as establishing an "example of good neighborliness and international amity."

Particular stress should be placed upon the latter, for it is the real foundation upon which effective functioning of the pact must depend. The announced policy

get together.

Affairs Of The World-DeWitt MacKenzie

Hope For Peace Is Not Dead

Anxious seekers after a remedy

to restore peace to our stricken world may find that, after all, there still is healing balm in Gilead.

Support for the belief that another world war may be averted comes to us simultaneously trom two distinguished sources: "resident Truman and former President Hoover. Mr. Truman, addressing the inter-American defense conference at Quitandinha, Brazil, yesterday, declared:

"We do not believe that present international differences will have to be resolved by armed conflict."

"American Magazine" pub-

President holds the opinion that economic weapons of the United States will prevail in the end despite a "whole series of communist revolutions now under way.'

And James F. O'Neil, new commander of the American Legion. declared vesterday in New York that while the danger of war can't be overlooked. "the talk of war is exaggerated-that "there is too much talk of war and not enough talk of peace."

Mr. Truman declared the postwar era "has brought us bitter disappointment and deep concern," and added: "We find that a number of nations are still ojected to a type of

lagged because of "political fear and uncertainty in addition to the devastation caused by war." What can dissipate these obstacles to peace? Perhaps one answer is to be found in President Truman's assertion that the United States is determined to remain strong to back up a foreign policy based on a desire for permanent peace. Certainly weakness encourages aggression. Another vastly important aid

to peace will be the economic rehabilitation of Europe. Prosperity will provide the strength to withstand political or military aggression

So we find after all that there is a chance of averting another world war, 't we can remove the

lateral. The Rio pact deals more particularly with aggression and therefore is a logivalescent Europe are talking of cal supplement to the Monroe Doctrine, but a "customs union" for the conit also is more than that. It is in effect an tinent. affirmation of the Monroe Doctrine by vir-The subject has come up both tually all the nations of the Americas. It at Geneva, where world trade also is a demonstration that nations can rules are being worked out, and at Paris, where the Europeans are trying to find out what they can do for themselves.

or more nations to charge no tariffs on the goods they buy from each other. The result is that consumers in those nations pay a little less for each other's goods. And the hope is that trade between the countries will pick up because of the lower prices.

tions.

The nations balance each other happily. Belgium and tiny Luxembourg are two of the most highly industrialized areas in the world. The Netherlands turns out a good deal of food. They are in

For years economists have thought Europeans were pretty blind to cut up their continent with all sorts of tariffs against

Trouble Possible There are possible big leaks in a customs union row-boat. Take the Benelux union. Suppose Belgian prices began to rise because Belgium exported too much goods to France and England and goods got short at home. The Dutch would have to

pay more for Belgian goods. But the Belgians, still paying the lower Dutch prices, would begin to buy more in the Netherlands. Belgian reserves of Dutch guilders (The money of the Nethlands) would begin to evaporate. The Belgian government would have to limit the goods its people

> bought from the Dutch. The Benelux area would no longer be a free trade area.

U. S. government economists, who are watching the Benelux agreement, say the three governments could take steps to prevent such a jam. They say the next step, ideally, would be to

create a common money. Also they say there would have to be some production planning so that factory and farm prices would stay in a constant relation to each other.

yould still have a tariff attached.

The opposite argument runs:

"But we've got to help Europe

And so on down the line of U.S.

goods sold to Europe.

Exporters Uncertain Some American exporters are worried under a European customs union. Swiss typewriters

Most tragic problem in the Indonesian fighting is the fate of

lett in which the writer reports' that Mr. Hoover in an interview said he didn't feel that either communist world domination or another world war is inevitable. Shalett added that the former domination which we fought to overcome. Many of the remaining peoples of Europe and Asia live under the shadow of armed aggression." The President said European economic recovery has

"shadow of armed aggression." But if that continues- if small nations continue to fall unger "a type of foreign domination which we fought to overcome." then there will be war.

The Nation Today—James Marlow—

Revolution In Radio Industry

BY MAX HALL (For James Marlow)

WASHINGTON, CA-A revolution is going on in the radio industry.

Radio, after years of crawling delays, is moving fast into the FM era.

FM means from ncy modulation. It's a new kind of broadcasting, invented by Edwin Armstrong, a Columbia professor. The Federal Communications Commission says FM is better

than standard broadcasting because: (1) It has virtually no static,

even during a thunderstorm. (2) It reproduces music more faithfully because it has a full range of tones:

(3) It will permit a much greater number of stations, thus giving the listener a wider chaice and thereby bring about an improvement in programs. FM requires a different kind

of sending station and a different kind of receiving set-or at least a new attachment to old sets.

The war arrested FM in its infancy. After the war, radio say that FM ultimately will gain

In Hollywood—Bob Thomas

makers concentrated on standard sets, pouring out millions upon millions of them. FM had to wait. But now there are plenty of standard sets-too many in some stores. So the big swing toward

FM has begun. The radio manufacturers association says close to 1,000,000 FM sets already are in use.

and maybe 1,500,000 or more will be produced in the next four months. Most of these sets are combinations-both FM and

standard. As for sending stations, there were only 52 in operation when the war ended. But the Federal says there are 269 commercial FM stations in operation today and about 700 more have been authorized.

But FM won't replace standard broadcasting overnight. For years, the two systems will run along side by side. Television is coming along .too.

But its development is behind that of FM. The brilliant television era comes later. Many people in the industry

dominance over standard radio Others say long-range standard stations will be retained to reach rural audiences while FM stations take over in the cities. FM is short-range. It covers communities and metropolitan

areas, but not whole states and regions. The higher the atenna, the bigger the coverage. New radio spires are rising all around the nation's cities.

About two thirds of the 269 FM stations are under the same ownership as standard stations affiliated with networks like CBS and NBC.

These FM stations carry some of the regular network programs -without music. James G. Petrillo, president

of the American Federation of Musicians, has forbidden the networks to duplicate their music on FM simultaneously, unless they

pay extra for the privilege. But the question stands unsettled. Meantime a strictly FM network, the Continental, has come into existence and is growing.

Texas Today—Jack Rytledge

Battle Over Skirts Isn't New

The Daily Texan, the voice of the students of the University of Texas, came out flatly in favor of long dresses for women, saying short dresses were "shocking" and "demoralized male students."

But that was 27 years ago. When Hulon Black was editor, styles were changing like they are now, only the process was reversed. Instead of getting longer, dresses were suddenly getting shorter.

Black was "shocked." says Polk Hornaday, Harlingen attorney, and wrote a blistering editorial condemning the short dresses that revealed dimples in the knees.

Hornaday wrote a letter to the Texan defending knees and short dresses, and that's how we know about the thing. Hornaday's letter was reprinted in Doc Osborn's column in the Brownsville Herald, and says in part: "All the pipe-pillared maidens rallied to Hulon's support and agreed with him.

"I move that Hulon take four macaroni-underpinned maidens who have rallied to his support swimming each Sunday in Deep Eddy

"I haven't been shocked (by the new styles). Maybe some

Stars Tumble For Long Skirts

HOLLYWOOD, P-Tough luck girls, you might as well start ripping out the hemline. Because Hollywood's famous women are tumbling for the muchvaunted long skirts.

Though it wasn't the idea of film stars to lower skirts (legs being an important commodity here), the girls are apparently following the dictates of the style experts. Here are the ansswers I got from my query. What do you think of the new long skirts":

Bety Hutton: "I like them. Men have had the privilege of ogling for too long a time; now let them use their imagination."

Susan Hayward: "They are a boon to American womanhood. They make it easier to get in and out of a car without showing the upper leg."

Ann Southern: "I'm all for them. They make short girls look better."

Dorothy Lamour: "Why should women follow every whim of fashion? Long skirts are one of the silliest. Why robe?" Maureen O'Hara: "I think they are more lady-like. It is more provocative to lift the skirt

should a girl cover up pretty

legs and discard a whole ward-

and show the calf than to expose a bony knee." Final word on this momentous

matter comes from Bob Hope. Says he: "Women are never satisfied. Now that they can get nylons,

cept 12-grade plan. they want to cover them up." TEN YEARS AGO Sights and sounds on the Hol-An all-time high enrollment of

Big Spring (Texas) Herald, Thurs., Sept. 4, 1947

MORENO UNANIMOUS CHOICE

Five Bronc Players Named To All-Star Aggregation

The Longhorn baseball league's+ 1947 all-star team, picked by the official scorers in each city, is dom-

inated by Big Spring players. No less than five Broncs were chosen to the 12-man souad, according to information released to-

> day by Ira Johnson, league statistician, who took the poll.

Big Spring players named to the mythical club were Armando Traspuesto, catcher; Jake Mc-Clain, second base; Orlando Moreno, third base; Pat Stasey, right field; and Jose Cindan, pitcher. Others selected included Joe Dotlich, Sweetwater, first base; Roy McMillan, Ballinger, short stop; Bob Cowsar, Sweetwater, left field; Harvel Jakes, Odessa, center field; and Ernie Nelson, Midland, pitcher Ronald Murphy, Sweetwater, was named as utility outfielder, Rex d o i i o Pearce, Odessa, the utility infield-

Buddy Hancken, Ballinger, was picked as manager of the spangled

Moreno was the only unanimous

McClain played brilliant ball during the last half of the campaign to win the honor. He was not chosen for the All-Star game at Ballinger in July but played a major role in the Hosses' drive for the pennant and beat out Pearce and Miles Smithhart, Bailinger, for the honor.

The veteran American League umpire, Joe Rue, is one man in blue who doesn't think he's always right. Manager Ted Lyons of the Chicago White Sox claims that one day he criticized Rue and received a completely unexpected answer. Lyons charged up to Rue and

shouted, "Joe, what's the matter with you today?" And Rue smiled back, "Boy ain't I terrible?"

Bob Flowers, former Big Spring High school football star, has rejoined the Green Bay Packers of the National Professional football league, according to information received here.

Flowers Back

With Packers

Flowers, captain of the Steer 1934 team, spent five years in the National league but signed with the New York Yankees of the All-American Conference several weeks ago and went to summer camp with the Yanks in Connecticut

The Packers now have four ceners under contract, including Flowers and Charley Brock, formerly of Nebraska.

British Plan For Refugees At Hamburg

HAMBURG, Germany, Sept. 4. P-British troops went through 'Truncheon Drill" and intelligence agents combed Hamburg for terrorists today in prepar-tion for Sunday's expected arrival of some 4,400 Jews from the Exodus 1947. Three British transports are enroute from Port De Bouc, France, with the Jews, who were taken back to France after an unsuccessful effort to enter Palestine. They refused to disembark in France. The Jews, who had no immigration permits for Palestine, will be held in two camps near here while the British try to find a place for them.

The British have decreed that as few Germans as possible shall witness the disembarkation of the group here, but Norbert Wollheim. German Jewish leader, said today Hamburg's 1,500 Jews did not regard the edict as applying to them. Wollheim declared that Nazi racial laws stripping nationality from Jews sent to concentration camps had not been repealed. "Therefore," he said, "We claim

we are not German nationals and have the right to be present." He said, though, he did not anticipate that any local Jews would

attempt to make contact with the refugees until they were in camp.
