### Hunt May Cause International Complications

BERLIN, Aug. 9. (AP) -The vanishing jewels of German royalty lured American investigators on a \$2,000,000 treasure hunt tonight through a bizarre maze that already has involved a dozen nationalities in Berlin's underworld and promises to lead to an international incident.

German Prince Ferdinand Von Schoenaich-Carolath told interviewers he and his wife had submitted to truth serum tests to satisfy investigators of the accuracy of his story that the jewels belonging to his mother, Princess Hermine, the late widow of Germany's last Kaiser, had mysteriously disappeared from a trunk in the house of an American friend where he had kept \$5,000.000 of the German Royal treasure. A woman emis-sary, he said, had "risked her neck" to smuggle the jewels from his mother's apartment at Frankfurt-On-Oder in the Russian zone, where she died Thursday, into the American sector of Berlin.

The nervous, 34-year-old Prince, who is blind in one eye from a war wound, said he had been shadowed by two NKVD (Soviet secret police) agents before the 29 gems disappeared, and was certain he had been betrayed to the Russians while playing a cat and mouse game with them and moving from apartment to apartment in an effort to shake them off his trail.

**Midwestern States** American quarters said the disappearance of Princess Hermine's By The A jewels had the possibility of international complications because earthquake which a Chicago seismologist said was "bigger than ever they had been smuggled from the experienced before in the Midwest area." Russian zone and the Russians might demand the rest of the treasualties.

be returned.

### Some Oppose Steel Industry Nationalizing

LONDON, Aug. 9. (P-- Prime Minister Attlee, accused by the conservatives of seeking "totalitarian powers" to deal with Britain's economic crisis, faced a new conflict within his own labor party tonight over the government's nationalization program.

Persistent but unconfirmed reports that some cabinet members were opposed to carrying out plans to nationalize the steel industry during the crisis were followed by the calling of a special private meeting of labor members of Parliament for Monday.

One political writer said leftist intellectuals and trade union members would demand a direct "yes" or "no" answer on steel from Attlee.

Tomorrow night Atlee will outline to the people of Britain over the BBC his work-more-eat-less program for staving off economic disaster.

The hour would have been Most London newspapers carried stories reporting dissatisfaction among laborites with Attlee's "anti-crisis" program. The Daily Express political writer said "Major changes in the government' ed he was expected to pass may result from a rift over the Adak, about 150 miles farther future of the steel industry. along his eastward course, a Government sources declined comment on the reports. Key ministers were reported conferring Earthquake Shakes with Atlee over the week end to outline his reply to labor critics on Monday. with Atlee over the week end to

HUGHES CONFERS WITH A IDE-Howard Hughes (right) sits in the hearing room in Washington in shirtsleeves as he confers with Noah Dietrich, Hughes company official, before taking the witness chair to testify at a session of the Senate Subcommittee investigating Hughes' wartime plane contracts. (Wirephoto).

cowboy" of the 14th annual Big Spring Cowboy Reunion rodeo, which rang down the curtain with a rousing show before some 4,500 people here Saturday night.

Weeks copped the honor and a wrist watch that went with it by piling up the greatest number of points over a four-day period. 1 116

# **Claims** Parties **Killed Predjudice**

WASHINGTON, Aug. 9, In-Howard Hughes told Senate investigators today he began spending for entertainment when he got confidential word that Army officers considered him a "stuck up" rich man who wouldn't "kow tow."

Also, the millionaire plane designer, manufacturer and flier solemnly testified that he would leave the country for good if his giant, much-criticized cargo plane fails to fly.

"I put the sweat of my life in this thing" Hughes told a war investigating subcommittee. "My reputation is rolled up in it.

"I have stated several times if it is a failure, I'll probably leave this country and never come back. And I mean that."

Hughes said he could not guarantee the plane would fly or that t would be a success, that he only noped it would. But he said the criticism of the project and of the money spent on it was 'unjustified

**Hughes Says Army** 

The subcommittee is investigating the wartime contract the government gave Hughes and Industrialist Henry J. Kaiser for the aerial cargo craft-the world's biggest plane. It also is looking into Hughes' contract during the war for photographic reconnais-

### Sun-Seared Arkansas Described As 'Vast Tinderbox' By Forester

LITTLE ROCK, Aug. 9. IP- Sun-seared Arkansas, described by State Forester Fred Lang as "a vast tinderbox," was dotted by 53 forest fires yesterday, and at Smackover, the scorched earth contributed indirectly to loss of approximately 1,000,000 feet of lumber by fire.

As the state wilted in the 15th straight day of 100-plus temperatures, and a stubborn brush and woods fire whipped over 2,000 acres just eight miles to the south, the town of Hope joined the increasing list of municipalities which are banning the outdoor burning of anything, including trash.

The forest fire south of Hope, which was still burning last night but reported under control, was the largest in the state yesterday.

Describing the parched state with its prematurely sun-browned grass and foliage as a tinderbox," Forester Lang took notice of growing apprehension in populated areas and said, "I think everyone is thoroughly frightened now."

"And they should be, for a careless spark - in town or country -can suddenly start a ranging fire," he added.

medical weapon is being forged in the search for a tuberculosis in the search for a tuberculosis streptomycin but is derived from cure. a hitherto undescribed mold-like

Several months ago. Dr. Edwin A. Johnson, 34, assistant professor germ. of bacteriology and immunology, was examining some glass plates he was preparing to throw away. He had used them in cultivating molds from dust gathered in the school's laboratories.

In examining the plates, Johnson found a mold-like organism inhibiting the growth of another mold. The new substance seemed to be pushing the old mold off the culture plate.

Working on a theory that if an organism can prevent the growth of molds it can also halt the growth of tuberculosis germs, which are in the same general class as molds. Johnson went to work with his microscope and test tubes.

The result was the drug Mycomycin, which, Johnson says, potentially is more effective than streptomycin, which has been described as a "wonder drug" in the treatment of tuberculosis and other diseases.

Drug manufacturers are investigating Johnson's find and the Houston professor hopes that through use of commercial facilities the way will be opened for extensive animal experimentation and clinical application of the drug to huALL-STEEL BUILDING FARMS Low BUSINESS QUICK, PERMANENT,

been reported in certain areas of New bulletins from the Depart-

yellow in color, and that they may not be seen without aid of a magnifying glass before they are half grown. The bulletins also point out that damage caused by Red Spiders often is confused with rust. The insects live on the under side of leaves and the first indication of their presence is the appearance of red spots on the leaves, which finally curl and drop to the ground.

Lewter said the description fits conditions in fields he visited Friday, and that he would list it accordingly on his official reports on cotton pests. As a control measure, the county agent is recommending 10 percent DDT powder mixed with sul-

phur. Careless worms also were inflicting damage to cotton crops in at least three communities late in the week. Lewter said he had thought earlier that prospects were good for avoiding any trouble from that source, but an inspection tour revealed heavy infestations of the worms at Elbow, Knott and R-Bar. Lead arsenic spray, applied with two bordeau nozzles to each row is being recommended for

Said the Governor: "I think it s something to get excited about think is as something to get worried about -'worried' is a better word for it than 'excited.' Giles, who has accused Clark "double talk" regarding his attitude toward Texas' claim to its tidelands, said the preservation of Texas submerged school lands is the most important question in Texas today

The present controversy is the result of a U.S. supreme court decision upholding the federal government's claim to California tidelands

Other coastal states, afraid that similar suits will be brought against them, have been organizing a campaign to secure congressional legislation recognizing States' claims to their lands.

Giles charged today that Clark had ridiculed Texas' excitement over the matter.

President Truman last year yewhich would have relinquished any

They said they planned to fly federal claim to tidelands. "Mr. Clark's evasion of the Istogether so that "if one of us goes down the other can either radio sue yesterday convinces me more or fly to the nearest stop and re- than ever that Texas must continue to work with the other states

Tune in on TOMORROW.

The "drive" of tomorrow is here today! . . . as ultra-modern as television, and with nearly 8 years of PROOF behind it!

It's in the picture for the future-and Oldsmobile brings it to you today! Just as television is the big news in the field of electronics, automatic transmissions are the number-one topic of conversation in the automobile industry. Some day . . . nobody will shift gears ... nobody will push a clutch. But today . . . only Hydra-Matic Drive provides fully automatic shifting! Only

Hydra-Matic Drive eliminates the clutch pedal entirely!

What's more . : . Hydra-Matic Drive was introduced by Óldsmobile nearly 8 years ago! Since that time it has been proved in the hands of nearly 400,000 Oldsmobile owners-proced in literally billions of miles of driving-even proved in combat use on Army tanks!

Today, the lowest-priced car to offer

GM Hydra-Matic Drive\* is the smart new Oldsmobile-away out ahead automatically-away out ahead in appearance, too. Owners know Oldsmobile is always in tune with tomorrow. They expect Oldsmobile to come out first with the really important advancements like Hydra-Matic Drive. That's why so many future-minded people say, "It's SMART to Own an Olds!"

### ROWE GAINS TENTH VICTORY -

# Homer By Howie Schultz Sinks Brooklyn, 5 To 3

BROOKLYN, Aug. 9. (AP)-Howie Schultz, stringbean first baseman purchased from Brooklyn earlier this season, poled a home run with the bases full for the Philadelphia Phillies to defeat his former Dodger mates, 5-3. The Brooks threatened in the ninth when they loaded the bases with one out, but righthander Al Jurisich relieved southpaw

Oscar Judd and forced Carl Furillo to hit into a game-ending double play.

Schoolboy Rowe won his tenth victory of the season at the expense of Vic Lombardi, who was taking his ninth loss. The Dodgers used pitchers, as did the Phillies.

Rowe connected with three hits in as many trips before bowing out after six innings

In all, the Blue Jays drove out 11 safeties off Brooklyn pitching while Rowe and his two successors were holding the Bums to eight blows. The other Philadelphia run was accounted for by Del Ennis in the seventh round with a two-baser

The Dodgers had 11 men left on base. Both Rowe and Judd had trouble with their control.

Cincinati's victory but the tall righthander has shown in the nightcap was its first in six an aptitude for more work in his games recent starts.

Cincinnati 100 000 000-1 9 0 Freddy Acton. Jeweler skipper. 200 060 00x-8 13 0 will probably be in the regular Chicago Raffensberger, Hetki. Erautt and lineup along with such reliable per-Mueller: Meers, Erickson and Me- formers as Bernard Savage, Odell Cullough. Womack, Bill Reinwall, Red Gross

Cincinnati 000 230 000-5 8 0 and Bobby Asbury. Chicago 000 000 000-0 8 1 In a previous encounter with the Lively and Lamanno: Passeau, Roscoans, the Big Springers hipman, Wyse, Kush and Schef- emerged the victors by a 20-10 fing. count

The nearest thing to a new Ford is your present Ford put in first-class condition with Genuine Ford Parts replacements. Genuine Ford Parts are exact duplicates, in precision and quality, of the parts built into your Ford originally. They're made right, fit right and last longer. Don't take chances on the lile of your Ford by having replacements made with parts that only LOOK like Genuine Ford Parts. "Bank on Big Spring Motor" to keep your Ford always a Ford by using Genuine Ford Parts!

**BIG SPRING MOTOR CO.** 319 Main Phone 636

003 031 01x-8 12 2 Jo Ed Black Grove, Smith and Tresh, Trout. The tournament was won by Billy Maxwell of Abilene. Benton and Swift.

300 West 3rd PASSENGER + TRUCK + COMMERCIAL

LEE JENKINS TIRE SERVICE

STUDY this chart and the conclusion is clear - Plymouth is by far - the low-priced car most like high-priced cars.

And there are other important facts this chart doesn't show. In the lowest-priced field, only Plymouth gives you Safe-Guard Hydraulic Brakes (32 % more braking efficiency), Safety-Rim Wheels (unequaled protection in case of tire failure), Superfinished Engine Parts (longer wear), Floating Power engine mountings (smoother

performance), and other basic advantages.

All this-plus Plymouth beauty, comfort and performance-combine to make the Extra Value you get when you own a Plymouth.

PLYMOUTH Division of CHRYSLER CORPORATION

YOUR NEARBY PLYMOUTH DEALER WILL ACCEPT YOUR ORDER. AND HE'LL TAKE GOOD CARE OF YOUR PRESENT CAR WHILE YOU'RE WAITING FOR YOUR NEW PLYMOUTH

### **COSTS LESS than a MAJOR OVERHAUL!**

Here's how you can get new power, new performance new dependability and economy from your late-model Oldamobile: Let us put a brand new engine in your car right now! The engine -- installed according to engineers' specifications-is surprisingly low in cost.

### NEW MATERIALS . . . 1947 ENGINE FEATURES

This is NOT a "rebuilt" engine. The entire assembly (including new cylinder block, new crankshaft, new timing chain, and new 1947-type pistons and rods) is factory-built to precision limits from new aluminum. new steel, new materials throughout. It carries a factory guarantee

Call us today, and we will schedule your car for a new engine installation at the earliest possible date.

Looking away for a moment from the rodeo arena is Mrs. Sonny Edwards (upper left), whose husband's name is familiar in rodeo circles. Also out to see the performances were Mrs. Howard Schwarzenbach, sister of Mrs. Edwards, and Travis Reed who holds, his grandson, small 'Red' Schwarzenbach.

Upper center, dark-haired Sammie Sue Mc Comb shares a tasty snow-cone with an equing friend. Sammie Sue is the daughter of Mr. and Mrs. Sam McComb.

Upper right, Mrs. Toots Mansfield smiles for the photographer and for good reason. Her husband. Toots Mansfield, entered in the local rodeo, five times has been recognized as calf roping champion of the world. Pictured with Mrs. Mansfield is her daughter, Deane, and W. P. Edwards of Christoval, stockholder in the Big Spring show and an old time rancher in West Texas. Dr. and Mrs. M. H. Bennett are at extreme right.

Hours before the parade Wednesday at 6 p. m. scores of children gathered at Third and Bell streets in hopes of riding in such conveyen ces as the cart pictured at lower left.

Watching the rodeo from the judges' box were Mrs. Sam Kinch, left, of Fort Worth, wife of the Star-Telegram correspondent here for the show, and Mrs. Roy Lackland (right) of Dallas, whose husband was announcer. The unidentified youngsters were guests brousing around to see what went on upstairs.

Pictured at lower right are four of the dozen riders who carried colors in the grand entry Wednesday evening when almost 200 horses came onto the arena. (All photos by Jack M. Haynes),

**Beautification Unit To Consider Plans** For Yard Judging

A special meeting for the chamcation committee has been called for 5 p. m. Monday in the chamber's conference room, Mrs. L. P. McIntire, chairman, announced

Saturday. Heading the agenda will be plans for judging in the city-wide crape myrtle contest, which the committee has sponsored this summer.

Arrangements are to be made for judging the entries early in September. Out of town judges are to be selected within the next few days. All members of the committee

and other interested persons are being urged to attend the Monday meeting.

# When Soil Blows Away, So Do Cities IT FELL TO EARTH, I KNEW NOT WHERE

Like a big pig, with his hams settling over central Martin county and his back arching near Knott and sloping to his snout near the vicinity of Coshoma, a localized "dust bowl" has been gradually taking shape for several seasons.

Camouflaged by reasonably good crops this cason, it is difficult to ascertain that this land hog is around, yet the record of replantings and constant blowing of crops, plus inability to get good stands show unmistakably that he is rooting

We apply the term "dust bowl" because it is roughly within this area that most of our severe blowing has taken place. The alarming feature is that it is progressive. While many have had crops come up to good stands, not a few have experienced disheartening failures through severe crusting and destructive blowing with each high wind. There have been a few reports of farmers having to replant as many as six times.

Something, we believe, can be done about this, and an increasing number of landowners are of the same opinion. The wind, we have with us always, and in some seasons we have it in greater velocity and persistency. If there is anything to cycles, we are going to face one or more of these blustery seasons in a few years. The sensible thing, it would seem, is to beat the weather to the punch

Most students of soil believe that wind erosion is caused principally by exposure and lack of organic matter in the soil. If this be true, then the problem can be met.

The first step is to cover the land. Normal procedure in this section is to "put up" land in the winter and await a planting rain in the spring. So long as there is organic matter to hold soil together, this practice works out fairly well. Revolutinary thinking may change even this, but it may as well be recognized that we are not now near that point.

Our difficulty is that we have dissipated reserves of organic matter put in the soil by the centuries. For best conditions in our rainfall belt, it is estimated that soil should have .2 of one per cent organic matter by weight. More than 25 spotted soil analyses in the affected area have shown the presence of only one-fourth to one-half of the amount of organic matter needed.

This matter, provided by decaying plants, has been lost largely through cropping. Cotton puts back around 1,000 pounds per acre but losses, through oxidation, a ton and a half, creates a net loss of a ton a year. Bundle feed, under the same procedure, shows a net loss of about 1,000 pounds per acre per year. Ungrazed combine feeds about break even.

It does not follow what we should abandon cotton and bundle feed-far from it. Logic seems to indicate a far wider use of cover crops than we have ever before employed. These will hold and protect soil from winter and spring winds. Proper selection of crops also will do much toward restoring organic matter. It is not something to be accomplished overnight, but it is something which needs to be attacked this year just as soon as land becomes fallow. If we continue to let our land blow away, we might as well know that our communities will be blowing away in the silent, gnawing process.

> Hal Boyle's Notebook Editor With A Heart

# It's United Nations Or Nothing

. .

.

#### By FRANK GRIMES **Herald** Special Writer

Suppose the United Nations were a going concern, instead of a hope in peaceable men's hearts? The world today would not be teetering on the brink of chaos, expecting the worst at any moment, and living from day to day in deadly fear.

Weak as it is, untried as it is, nebulous and voiceless as it is, the United Nations today constitutes mankind's only hope of an orderly world.

The job is far too big for any one nation. The United States can't do it alone, even if it wanted to become imperalistic, swachbuckling and bullying. About all it can hope to accomplish is to build dikes against the rising tide of world chaos, to shore up economies here and there, to give heart to faltering nations, and to hold out hope of friendly aid in a world of confusion and despair. Even if this program is carried out with complete success, it is still not enough. It would still be a U. S. show, a U. S. enterprise, and the peaceably-inclined nations would become U. S. dependencies. They would be "rice" democracies.

That is no answer to the over-all problem of acieving stability and peace through international cooperation, backed by international strength and determination.

It is the United Nations or nothing. With or without Russia, UN must take hold and create the machinery and sinews of peace. Whatever is holding it back must be discarded, up to and including any further traffic with the U If UN were fully implemented, with its own armed forces, it could end the bloody strife in Palestine in ten days. It could create there the sort of government under which Jew and Arab. could live in peace and harmony under UN watchfulness, until they could live together with out chaperoning. Britain can never achieve this, and

neither could the U.S. or any other single power -if we except the totalitarian ruthlessness of a Stalin or Hitler. Only a world organization powerful enoght to enforce its decrees could settle that problem out of hand

The Dutch and the Indoesians either respected or feared the UN's moral weight, for they ceased hostilities on demand. But if either decides to start shooting again, there is nothing the UN can do to stop them. If it had its own police force it could step right in and knock the combatants' heads together to enforce its decree.

Russia's stubborn contrariness has all but de stroyed UN. Perhaps the Kremlin planned it that way. But it is not too late to break Russia's paralyzing veto-grip on the security council, or to go over her head in taking action in hot spots like the Balkans. Russia would hardly dare go to war over if-not while we have a monopoly on the atomic bomb. In three or five years from now, when Russia probably will have the bomb too, it ould be too late.

The inevitable showdown should come as soon as possible-the sooner the better. If UN is to be the effective force it should be in keeping the peace, it had better get its hooks in early. It, and not a single nation like the U.S., should be building dikes against chaos. But how can it build any dikes as long as the sponsor and designer of chaos, Communist Russia, has a voice equal to all the other ten nations of the security

Frank K. Kelly, a successful free lance, cursed the idiosyncrasies of editors.

Now he is an editor himself. and finds it a bit disturbing to be issuing rejection slips to other writers. As a matter of fact he avoids

printed rejection slips whenever possible, remembering the bitterness of all writers toward turn-downs of this kind

"I have had so many self," he said pleasantly. "they got to seem like old buddies." Recently Kelly became manuscript editor himself for a well known weekly magazine and learned the other side of the He conscientiously picture. reads at least 15 to 20 manuscripts a day and has become something of a problem to the stenographers in his office.

"They say I write too many personal letters to writers," he said.

Kelly in most cases tries to gibe a personal assessment of each manuscript he finds it necessary to return-which is at

LOAN TO DUTCH

WASHINGTON. - The other new addition to the schoolhouse has nothing to do with the fightday I wrote something about poorly paid schoolteachers of Pennsylvania, a state in which I used to live. Today I want to write something about the schools of Maryland, a state in I live now.

Some people may think that 1 am hipped on the question of schools. But to me they are one of the greatest bulwarks of the nation. They are as much responsible for the intelligence and idealism of the American people as any other institution. We cannot stand by and see them neglected

However, I live in a county which appears to believe in educational neglect. That county happens to be one of the wealthfest in the world. Thousands of people commute daily from the District of Columbia into Maryland, people who help to run the government of the United States who should believe in good education.

Yet the school in my part of The mental cobwebs they gaththe county would put to shame some of the schools in warer be brushed out. famished Europe. Classrooms are overcrowded. Some of the kids have to study in the halls. Teachers are so overworked and harassed that discipline is almost impossible.

The other day a group of citizens met in the western part of Montgomery county-as citizens about various things which the citizens thought should be done. Among other things they complained. quite properly, about the Potomac school

#### ROADS VS. SCHOOLS

The answer, given by one of the county officials, was that building costs were too high. Therefore, an addition to the school would have to wait until building costs went down. Almost in the same breath, however, county officials announced to the assembled citizenry that the road which passes in front of the school would finally be made over new. This brought loud cheers from everyone.

How cozy Senator Brewster of Maine, chairman of the Senate war probe committee, is with Pan American Airways, was illustrated in some interesting backstage byplay the other day. In a closed-door session of the committee. Senator Pepper. Florida Democrat, demanded to know where the news leaks were coming from out of the committee. He said he was astonished that some papers carried full details about Hollywood girls and expense accounts even before Senators on the committee knew about them.

So a special committee session was called at 3 p. m. to consider Pepper's protest. At tha hour Pepper knocked on the door of Senator Brewster's private office. It was locked. Finally, however, he was admitted. Inside sat red-faced Senator Brewster together with Sam Prvor. vice president of Pan American airways, and its chief lobbyist in Washington, together with Julius Klein, paid publicity agent

of Pan American. (Copyright, 1947, The Bell Syndicate)

#### Texas Today—Jack Rutledge

# State Founders Confused Names

When we started giving the origin of names of Texas towns. we said early settlers had a tough time trying to find 4,000 names, all different.

Well, Mrs. Ida M. Darden of Austin proves just how confused they really got. The pioneers needed both city names, and county names. They'd name city, and then later name a county by the same name. But

in most cases, the county and city would be widely separated. For example, there is a Hen-

derson county, and a city of Henderson. But the city of Henderson is not the county seat of Henderson county. Henderson is the county seat of Rusk county, and Athens is the county seat of Henderson county.

Austin is the state capital, and the county seat of Travis county. But Austin was too good a name to use just once and forget, so they named a county

seat that, too-Austin county, whose county seat is Belleville.

Affairs Of The World-DeWitt MacKenzie

Mrs. Darden lists these names is further west than Mexico which are both county seats and . City, Santa Fe and Denver. S. L. Gill of Raymondville counties, but which are not in

the same area at all: Houston, Cameron, Caldwell, Bowie, Pecos, Kenedy, Taylor, Franklin, Anderson, Tyler, Terrell, Aransas, etc.

She also lists 14 Texas towns which are located in more than one county: Abernathy, Amarillo, Aransas Pass, Bartlett. Dalhart, Deport, Gladewater, Hamlin, Kilgore, Normangee, O'Donnell, Tatum, Winnsboro, 7 and

Yoakum. She could have listed Texarkana, too, which is not only in two counties, but in two states -Texas and Arkansas. Chaplain Morris Lively of the

U.S.V.A. hospital at Amarillo. Norias, to which all agreed. contributes this bit: when Horace Greeley said "go west. ish. and never knew that Norias young man", he probably meant is the Spanish word for Wells, El Paso. a grandson of Col. Lott. Steg-

Because El Paso, based on degrees west from Greenwich,

least 99 out of every 100 submitted.

"The result is the writers bombard me with their other manuscripts by return airmail. special delivery." he laughed "But that's al right. I did that myself."

Kelly said that as a contributor himself he always thought it was a legend that editors were in constant search of new talent, but he has found it to be true. The "name" writers get turned down often just as do the 'unknowns."

He said that all manuscripts get a thorough reading unless the editor can tell at a glance that they are hopelessly unadapted to their needs. Most w feat them

8 Big Spring (Texas) Herald, Sunday, Aug. 10, 1947

An air of peacefulness permeated the Old Stone Rauch on that April morning of 1867. Located in an open valley tha! was crossed by the Clear Fork of the Brazos, its nearest neighbor was Camp Cooper, five miles to the east. It was a primeval setting, uncluttered by people; for neither Fort Griffin nor the later county seat of Albany had yet been founded.

But there was no peace for the agitated man pacing the stone enclosed yard of the old ranch. Two days before two of his sons. George and William, had joined other settlers going in pursuit of a band of marauding Indians. And last night he had dreamed that one of his boys was severely wounded. Now, he was waiting for a messenger, fearing the worst. He was still pacing the yard when William and John Anderson, weary with an all night's ride, came with the news. The George had been shot. arrow, entering his body above the navel, had broken when the shaft was pulled out. and its head could not be found. They thought that perhaps it might have become lost in the loose sand when jerked out.

While their elders were making preparations to receive the wounded boy, should he still be alive, the children took turns acting as look-outs; but a full hour before the party's expected arrival the boys were all on the smoke house together. As the scouting group wound slowly into sight, a shout of joy went up and the news was called to the anxious parents. The full number of horsemen had been counted!

George Reynolds was indeed sitting his horse. But it was ly from grim determination. wanting to reassure those w ing loved ones. As they come into sight of the Old Sto Ranch he had insisted that be taken from the litter. T litter was made of the me kayahs or cowhide packs swu between two horses. The horse were tied together, heads a tails, and led by two men foot. Thus they had traveled t 35 or 40 miles, except when t horses had to go single file: was then laid across his sadd Dr. James D. Ray soon rived from Weatherford, havi been brought by Sam Newcon a brother-in-law of young Re nolds. They had ridden nis and day to cover the hundr and some odd intervening mil-George Reynolds, future cat baron and assistant founder the First National banks of be Albany and Oklahoma City, gained his health. But his ther's psychic premonition death was not without found tion. Sixteen years and the and a half months after t fateful shot an iron arrowhe blunt and scaled with rust, w removed from George Reynolds' back.

The Mayan Indians were proficient as wood-carvers, potters,

# Leaders Want Christian Revival

Civil wars in Europe and Asia, bloody reprisals in Palestine and counter reprisals in England, the eastern and western blocs gunning for each other at close range; all these untoward events and many more make one view with respect General Dwight Eisenhower's remark in Billings, Montana, the other day that "it looks more and more as though the United States will have to accept a two-world concept when we have been working for a

one-world plan." About that time Attorney General Tom Clark delved into the same subject in a speech at the International Sunday School convention at Des Moines. He said the clear problem posed before mankind is this: Can the peoples of this earth live in world brotherhood? If they cannot, then the teachings and accomplishments of the last 2,000 years will be for naught. Our civilization will disappear in a series of atomic explosions.

Why is the world divided against itself? Clark answered that bluntly:

"The time has passed when we can dismiss the spread of atheistic communism as a phenomenon of the lunatic fringe.

No longer do we visualize the men are turning back to spiritdestroyers of Democracy and Christianity as a bomb-carrying bewhiskered man in heavy boots. Today he is streamlined, in all kinds of guises, sometimes behind a Democratic front.

That being the situation where do we go from here Attorney General Clark says: "To put it in the language of our day-we must accept and practice the teachings of the Nazarine-or elso."

Many men of many lands are thinking along the same line. President Truman, in a message the other day to the Baptist World Congress in Copenhagen, urged spiritual as well as political and economic cooperationamong nations to achieve a

ing my last European tour.

peaceful world community

Former Governor Harold Stassen of Minnesota, who also participated in the Des Moines Sunday school convention, told a press conference that there has been a strong resurgence to religion in Europe since the war. He recently made an extensive tour abroad. I also noted this in numerous countries dur-In many parts of the world

ual and moral values. Upon this trend many statesmen and observers are pinning

their hopes of solving our present difficulties and arriving at one world.

for special talent, all are pictured in comic relief. Radio and Hollywood activities come in for their share of attention.

The supporting cast includes outstanding talent. Huge Sydney Greenstreet appears as Lewis, the soap-maker and advertiser with his own ideas: Adolphe Menjou is the harassed and excitable head of an advertising agency: Keenan Wynn shines as the radio comedian. and Edward Arnold is seen as a talent agent.

#### **JOUTHWESTERN INVESTMENT COMPANY RECORD BABY** Phone 2018 CROP EXPECTED

NEW YORK, Aug. 9. (P) - A record high baby crop for 1947, eclipsing last year's high of 3,-440,000 babies, is predicted by Metropolitan Life Insurance Company statisticians.

The prediction is supported by the fact that there were about 1,572,000 births up to the end of May, an increase of 456.000 over the figure for the corresponding period of 1946, the company said lest night.

Further, it was predicted 1947 will hold the record for some time to come, since a marked
