RANGER GETS SPRING MEETING OF OIL BELT TEACHERS AT A COMMITTEE MEETING IN CISCO

At a meeting of the executive committee of the Oil Belt Education Association, which was held at the Laguna Hotel in Cisco Tuesday night at 8 o'clock, Ranger was selected as the place for the 1937 spring meeting, at which an annual attendance of about 1,500 teachers, superintendents, principals and teachers is usually present.

Abilene was selected as the meeting place of the fall meeting of superintendents, principals and county superintendents. About 500 usually attend the fall meeting.

The Oil Belt Education Association covers 12 counties and the spring meeting is the general meeting of all the teachers of the district. The counties included in the association are Eastland, Callahan, Haskell, Fisher, Mitchell, Nolan, Palo Pinto, Shackelford, Stephens, Young, Jones and Taylor.

Dates for the two meetings were not arranged by the executive committee, though the fall meeting is usually held in October and the spring meeting sometimes in March.

Those at the executive committee meeting were O. G. Lanier of Ranger, L. A. Woodbridge of Sweetwater, W. H. Bryan of Blackwell, Nat Williams of Cross Plains, and S. E. Pass of Abilene. Other members of the committee, who were absent from the meeting, are W. A. Ross of Mineral Wells and Boyce Dwiggins of Breckenridge.

Ralph Morrison Resigns From Reserve Board

WASHINGTON, May 20.—Ralph Morrison, Texas business man, has resigned as a member of the Federal Reserve Board it was revealed today, presumably because of differences with other members over the extent that government should regulate banking and business.

Rumors have circulated for some time that Morrison, a self-made business man who built up his own electric power organization and then sold it in 1925 to enter banking, and Chairman Marvin Eccles of the Federal Reserve Board had differed on the policies on which the recently reorganized board should operate.

Eccles had advocated rigid supervision of the banking from the time of his appointment as chairman by President Roosevelt. Mr. Morrison indicated he would not accept Morrison's resignation until he had an opportunity to discuss the situation with him. Morrison is reported to be at his home in San Antonio.

Youths Captured After Long Chase

EL PASO, May 20.—Two youths in a stolen automobile were captured by a posse of peace officers after a chase of 125 miles through New Mexico.

The youths gave their names as Fred Smith, Roanoke, Va., and Howard Carr, Richmond, Va. Smith was captured in a doctor's office in Hatch, N. M., after he had been shot in the leg at Las Cruces yesterday. The posse captured Carr in the automobile 18 miles north of Hatch today. The youths refused to make statements.

Cafe Operator, Wife Make Bond

Mr. and Mrs. Pete Theous, operators of an Eastland cafe charged in Eastland justice court after an alleged seizure of liquor by a state liquor control board agent Tuesday, were released from jail after execution of bond, the sheriff's department reported Wednesday. Bond for each was \$750.

Insurance Case Moved to County

Because witnesses are more accessible in Eastland County, a case of George H. Walls against Safety Casualty Company has been transferred from 52nd district court in Comanche county to 88th district court at Eastland.

Walls seeks annulment of a ruling of the Industrial Accident Board of Texas and an award for damages allegedly sustained while working as a pumpjack for the Magnolia Pipe Line company.

Grisham Brothers and J. A. Lantz, Eastland, are attorneys for the plaintiff and Conner & Conner, also of Eastland, for the defendant.

Terriers Are Used To Hunt Coyotes

SAN ANTONIO.—Prompted by the story of a Montana coyote trapper, Texas hunters of predatory animals are preparing to use wire-haired terrier dogs in their hunt.

R. E. Bateman, a Montana district agent for the U. S. Department of Agriculture's predatory animal survey, described how the tiny dogs were used in den-hunting. On one occasion, he sent a dog into a female coyote's den, and to his surprise the dog came back without its victim.

Bateman then tied a chain on the dog's collar and sent it back again. There was great commotion below. The hunter gave a tug on the chain and out came the dog—securely attached to a coyote almost twice as large. That inaugurated the use of terriers in den-hunting.

The dogs are used also for their ability to follow a scent and for companionship.

Professional hunters in Texas destroyed 914 predatory animals in April, besides 867 unborn young. The animals—coyotes, bobcats, wolves, and mountain lions—annually take a heavy toll from the herds of domestic animals on West Texas farms and ranches. The April catch included 702 coyotes, 144 bobcats, 66 wolves, and two mountain lions.

In April, 101 men worked a total of 2,937 days with dogs, traps, and rifles killing the predatory pests. The best catches were made by Alvin Strey and Mike Williams. Strey took 49 coyotes and 14 bobcats in Culberson county and Williams killed 13 coyotes, eight bobcats, and one mountain lion in Frio county.

TOWNSEND MAY MAKE AGE LIMIT ONLY 40 YEARS

WASHINGTON, May 20.—A coalition of Townsend forces with those of Father Charles Coughlin and a descent of 1,000,000 aged upon Washington in a spectacular pension demand was proposed by Townsend leaders in 1935, the house inquiry revealed today.

At the same time Dr. Francis Townsend, originator of the pension scheme, told the committee he would favor lowering the age limit of his pension proposal to 40 or 50 years, "if the army of unemployed grows."

He also agreed, under sharp examination, that the transactions tax, proposed to raise the estimated \$24,000,000,000 required annually for the pension would be a "pyramided universal sales tax" falling heaviest upon the poor.

The suggestions were revealed as James Sullivan, house Townsend committee counsel, inquired into charges that "follies beauties and cabaret singers" participated in a transcontinental Townsend motor caravan.

Uncle Testifies Insanity Prevailed In Boss Family

HOUSTON, May 20.—Sam Formino, Waco grocer, testified in district court here today there was insanity in the family of Vince Boss, 20, who is charged with murdering R. W. Albert, 33, cheese salesman.

The evidence was given at a sanity hearing for Boss in an effort to forestall his trial on the murder trial on grounds of insanity.

Formino, great-uncle of Boss, told the jury that a great aunt of the youth was insane eight years before her death in Waco in 1933 and a great uncle, brother of Formino, also is not mentally sound.

LANDON LEADS IN NEW JERSEY OVER BORAH

Gov. Alf Landon of Kansas emerged today from his latest test of pre-convention Republican sentiment with a long lead over Sen. William Borah in New Jersey.

Landon's lead over Borah was more than 4 to 1 and he was assured the convention vote of the New Jersey Republican delegation.

Gov. Harold Hoffman also scored a victory. He was leading the Republican delegates-at-large, despite a bitter fight against him, based on his intervention in the Lindbergh kidnaping case.

President Roosevelt received the unanimous support of the Montana Democratic delegation to the national Democratic convention, Republican delegates were unopposed.

Michigan Democrats met in convention today. National Democratic Chairman James Farley was to address the gathering in a plea for party harmony tonight.

Starhemberg to Hold Meeting of Heimwehr Leaders

VIENNA, May 20.—Prince Ernst von Starhemberg, ousted dictator of Austria, today called a war council of commanders of the Heimwehr, his private army.

Fresh from Rome conferences with his patron, Premier Mussolini, Starhemberg arrived in Vienna by plane and took steps to oppose orders issued by Chancellor Kurt Schuschnigg, who ousted him from the cabinet, that the Heimwehr be disbanded.

Starhemberg's intimates said the conferences of commanders supported their leader's determination to oppose Schuschnigg's disarmament orders. After today's conferences held secretly, a call went out for a national meeting of Heimwehr leaders to discuss future action of the militant organization.

Continuance Asked In Murder Trial

CORSICANA, May 20.—Prosecutors today asked continuance of the trial of Mrs. Alla Kent, 300-pound wife of the former oil millionaire, charged in connection with the death of Noble Hattaway, 23-year-old night club musician.

The slaying allegedly occurred at a house owned by Mrs. Kent at 4:30 a. m., April 15. Hattaway was her dancing partner.

Smoke of Battle in Which Three Died

A blazing, gasoline soaked shirt, tossed into the home of William Wells and his sister, negroes of Gordonsville, Va., ended a six-hour gun battle that brought death to them and Sheriff William B. Young of Orange county, Va., and injury to six others. Pictured is the smoking ruin of Wells' home, which was besieged when he resisted arrest on a white woman's charge that Wells threatened her with a gun. The negroes were shot when they fled from the fire and fell back into the flames.

Mrs. Susan Steele, 95, Who Came To Eastland County in 1878, Succumbs

Death came quietly Wednesday morning at 6 o'clock to Mrs. Susan Steele, 95, one of the county's pioneers, at her residence in Eastland. The oldest citizen of Eastland, she came to the city in 1878.

Funeral services will be held for the prominent Eastland church woman from the First Methodist church in Eastland at 3 p. m. Thursday, with the Rev. George W. Shearer, pastor of the Methodist Church at Arlington, officiating. Rev. E. R. Stanford, pastor of the Eastland church, will assist.

Burial will be in Eastland cemetery under direction of Hamner Undertaking Company. Grandchildren of Mrs. Steele will serve as pall bearers. They will be Elmo Hill, Steele Hill, Roscoe Hill, Russell Hill, Ned Jones, all of Eastland, and Joe Browning Steele, Waurika, Okla.

All children of Mrs. Steele, who had been ill three weeks, were present at her death. They were Dave Steele, who lived with his mother, Eastland; Mrs. R. F. Jones, Eastland; Mrs. Sallie Hill, Eastland; Mrs. Alice Huddleston, Fayetteville, Ark.; Mrs. J. E. Steele, Ringling, Okla.

The only other immediate survivor is a brother, W. C. Bedford, of Desdemona.

On the eve of Mrs. Steele's 95th birthday Jan. 17, she gave the following reason for her longevity: "Lots of hard work and plenty to eat."

Bonds Posted On Federal Charges By Two of Nimrod

ABILENE, May 20.—Marion Bell and Paul Tomlin, of Nimrod, Eastland county, made bonds of \$500 each before United States Commissioner Ida M. James Tuesday, on a charge of possessing and concealing intoxicating liquor.

Deputy Marshal C. S. Brown brought the men to Abilene Monday, from Coleman, where they were taken into custody Friday by City Marshal H. T. O'Bar.

TOWNSEND CONVENTION

A Townsend convention is to be held at Cisco Friday, May 22, in the city hall.

Delegates from each Townsend club in the seventeenth congressional district of Texas are to meet for the purpose of selecting a candidate for representative to United States congress for this district.

Bankers Are Told Their Great 'Crime' Was Giving Credit

HOUSTON, May 20.—State Banking Commissioner Zeta Gossett, Austin, advised members of the Texas Bankers association here today that they should adopt a policy of public relations to counter abuses heaped upon them by "demagogues and ultra-radicals."

The great "crime" of the bankers, he said, "was that they advanced too much credit in the boom years of the 20's and made a substantial contribution in this manner to that era of so-called prosperity."

Eastland's Part At Convention Mapped by Lions

Plans of the entertainment committee for Eastland at the district 2-E convention at Cisco June 16 and 17 were reported Tuesday by committee members at the weekly luncheon on Connelley hotel roof.

It was decided that a committee will select a girl from the beauty pageant entries to be seen Saturday at a local theatre and that she be the club's representative in a similar revue at Lake Cisco during the convention.

Members of the entertainment committee are Donald Kinnaird, chairman, G. W. Collum and A. E. Herring.

Joe McDade was introduced as a new member and announcement of his initiation next week made.

H. C. Davis, a visitor, secretary of the Chamber of Commerce, announced advance tickets to the Centennial Exposition may be purchased at his office.

Entries In Beauty Event Near Fifty

With the number of entrants nearing the maximum of fifty, plans Wednesday were nearing completion for staging the Frontier Centennial Beauty Pageant at the Connelley Theatre Saturday night.

Sponsored by the Eastland Chamber of Commerce, the purpose of the pageant is to select an Eastland young lady to represent Eastland in the Frontier Centennial Pageant in Fort Worth, the try-out for which will be held in Fort Worth May 30, under the direction of Billy Rose, assisted by the Texas Sweetheart contest, the John Murray Anderson, noted producer, both of Broadway and London.

The young lady that will be selected and designated Miss Eastland will be given an all expense paid trip to Fort Worth for an audition and if selected for a part in the Frontier Follies will be offered a contract to appear in this show during its three months engagement in Fort Worth.

Clark Gable, screen actor, will also be in Fort Worth to assist in selecting the girls for the show and will act as one of the judges for the Texas Sweetheart contest, the winner of which will be offered a six months screen contract with the Metro Goldwyn Studio in Hollywood.

In conjunction with this beauty pageant the Eastland Lions club will also select a young lady to represent them in a beach revue in Cisco June 16-17, during the Lions district convention which will be held in that city on these dates.

REPORTS ON MEET

C. F. Sheppard reported on the recent grand lodge of the Texas Knights of Pythias at the Eastland K. P. meeting Tuesday night.

FAVORABLE SIGNS ARE SEEN IN WASHINGTON FOR ACTION ON LEON RIVER FLOOD PLAN

Mock Air Raid to Be a Centennial Feature at Dallas

DALLAS.—Spectators at the opening of Dallas' Centennial exposition June 6 will see a mock air raid more lavish than any previously given in the state.

Forty United States army war planes and 250 men from Uncle Sam's artillery will take part. Equipment will include \$10,000 worth of fireworks, two three-inch anti-aircraft guns, four .50 caliber machine guns, four searchlights and sound locaters.

Maj. W. W. Carr, commander of the army post at the exposition, this week completed arrangements in Galveston. Present at that meeting were Lieut. Col. Richard Donovan, commander of the 69th Coast Artillery, Fort Crockett, Galveston; Maj. R. W. Douglas Jr. and Maj. O. P. Gotlin, representing the 20th Pursuit Group, Barksdale Field, Louisiana.

The fighting planes will include two squadrons—one of pursuit ships and the other of observation planes. The Fort Crockett unit will include the regimental band.

The mock battle will be presented the night of June 6, as part of the opening ceremonies. The planes will start from a height of 8,000 yards and drop flares instead of bombs during the raid.

Several of the bombs will be designed to spread into the designs of the six flags under which Texans have served.

Last American Is Defeated In England

SOUTHPORT, Eng., May 20.—Bridgett Newell, the medalist and Pam Burton, runner up for the past two years, moved into the final rounds of the British women's golf championship today as Marian Miley, the lone American survivor was eliminated in the quarter finals.

One Passenger Is Drowned In Plane

ROCHLAND, Me., May 20.—One passenger was reported drowned and five others and the pilot rescued by coast guards today when a large seaplane plunged into the ocean off Rockland.

The accident was witnessed by the crew of the coastguard boat and six were taken off, but one was trapped and apparently drowned as the plane sagged five feet beneath the surface.

TWO MILLION AVAILABLE FOR STATE PENSION

AUSTIN, May 20.—Orville Carpenter, executive director of the Texas old age assistance commission, informed Governor Allred today that the national social security board yesterday granted a Texas request for allotment of \$1,181,250 of federal funds to match the state's old age assistance fund for the months of July and August. Carpenter returned to Austin today from Washington.

The announcement was taken to mean that the first distribution of pension funds will be \$2,362,500, as federal funds are to be matched with state funds.

Mock Air Raid to Be a Centennial Feature at Dallas

DALLAS.—Spectators at the opening of Dallas' Centennial exposition June 6 will see a mock air raid more lavish than any previously given in the state.

Forty United States army war planes and 250 men from Uncle Sam's artillery will take part. Equipment will include \$10,000 worth of fireworks, two three-inch anti-aircraft guns, four .50 caliber machine guns, four searchlights and sound locaters.

Maj. W. W. Carr, commander of the army post at the exposition, this week completed arrangements in Galveston. Present at that meeting were Lieut. Col. Richard Donovan, commander of the 69th Coast Artillery, Fort Crockett, Galveston; Maj. R. W. Douglas Jr. and Maj. O. P. Gotlin, representing the 20th Pursuit Group, Barksdale Field, Louisiana.

The fighting planes will include two squadrons—one of pursuit ships and the other of observation planes. The Fort Crockett unit will include the regimental band.

The mock battle will be presented the night of June 6, as part of the opening ceremonies. The planes will start from a height of 8,000 yards and drop flares instead of bombs during the raid.

Several of the bombs will be designed to spread into the designs of the six flags under which Texans have served.

Visitors Win In Eastland Games

Brownwood all-stars defeated Eastland by a score of 11 to 5 in one of two special games at the Fire Department field Tuesday night. Eastland Burr girls' team lost to Breckenridge, 15 to 10.

Tonight Tesco plays Lone Star and Firemen meet Highway.

Electric Sign to Welcome Roosevelt To the Centennial

DALLAS.—A two-ton electric sign will welcome President Franklin D. Roosevelt June 6 when he comes to visit the Texas Centennial.

The "motorgraph" will be used throughout the exposition. It is the largest traveling electric sign in the nation. It cost \$22,000 to build, and is 75 by 10 feet in dimension. Letters used on its surface are six feet high.

Other distinguished visitors to Texas' 100th birthday party will include Gov. Herbert H. Lehman of New York; Mayor Fiorella H. LaGuardia of New York city; and the two United States senators from New York, Dr. Royal S. Copeland and Robert F. Wagner.

Politics Found to Be Barber Shop's Favorite Subject

CHICAGO.—The nation's barber-chair sitters are talking politics nowadays more than they have been in 40 years, says Joseph Seeburger, operator of the huge Merchandise Mart shop here. He has been listening to tonsorial topics for four decades and has decided that current conversation finds politics completely stealing the show from sports and the weather, day in and day out. Many of his customers are merchants visiting the wholesale center from all sections of the country.

TEXAS OIL DRILLING COSTS MILLION DOLLARS DAILY

To insure an uninterrupted future supply of crude petroleum, the Texas oil industry is spending over a million dollars a day for the drilling of new wells. Statistics compiled by the Mid-Continent Oil & Gas association of Texas show that the Texas oil industry spent last year, for drilling alone, the sum of \$377,400,000, which amounts to a daily average expenditure of \$1,034,000.

Oil production in Texas is roughly valued at about a million dollars a day. Yet, according to these official drilling cost facts, the oil industry puts back into the ground, for new wells very day, as much, or more, money as it receives in sales value for oil produced from existing wells. Last year, the oil industry in Texas drilled nearly 12,000 wells, at an average cost per well of \$31,500. Many individual wells, however, involve a cost of from \$100,000 to \$150,000, or more. This is particularly true in deep-producing areas of the state, such as are being developed in West Texas and along the Texas Gulf coast.

Drilling for oil and gas is an expensive process, involving the use of costly equipment and the employment of highly-skilled labor at better-than-average industrial wages. Payrolls for the producing branches of the oil industry aggregate about \$150,000,000 a year, which is paid to about 134,000 employees. In fact, the Texas oil industry, in all of its many branches, directly contributes to the livelihood of more than a million persons in this state. It is equally true that Texas oil also contributes to the livelihood of so many additional thousands of Texans that it may logically be stated there are few of our 6,000,000 residents who do not either directly or indirectly attribute their economic welfare to the oil industry.

While the facts presented here in serve to emphasize the magnitude, in all of its many branches,

Bad Politicians Taint Reputation of Good

"Politicians are all scum, in my estimation. They are mostly a lot of rats. That was not true of Lincoln and men of those days and of his caliber. But politicians have degenerated in the last 10 years until the name has become a term of opprobrium."

So says J. Edgar Hoover, redoubtable chief of the G-Men, following the capture of William Mahan, last of the big-time kidnapers sought by Uncle Sam.

Mr. Hoover's wrath is understandable, for he says that he would have rounded up Alvin Karpis and his gang in 1934 if certain Cleveland politicians had not tipped off the gangsters. He hopes, eventually, to land these politicians in jail—a pious hope in which all good citizens will join. Meanwhile, he dislikes politicians—and damns the lot of them.

His low opinion of politicians is shared by a great many of his fellow citizens, regardless of the fact that it obviously is grossly unjust.

Every man who holds elective office in this country, or has held it, is a politician; Roosevelt, Landon, Borah, Norris, Lehman, Horner, and all the rest. And no one needs to be told that these men are not "scum," or that they do not spend their spare time protecting underworld allies from the wrath of the law.

There are, in short, two kinds of politicians: the unselfish kind, to which the much-abused term, "public servant," can properly be applied; and the selfish, conniving, grasping kind, which is in the game for the loaves and fishes. And it is important to make the distinction between the two.

But the problem isn't a simple one of good men on one side and bad men on the other. The good men—the high-minded, scrupulously honest politicians, who have the loftiest conceptions of their obligation to the public—must, after all, bear part of the responsibility. For they do put up with the bad ones as stablemates.

Every city has seen examples. There will be one distinguished citizen who is dominant in the local councils of his party; a man above suspicion and above reproach, whose personal integrity and devotion to duty are simply unquestionable.

Teamed with him, in the local party machinery, there will be a scattering of the other kind of politician—schemers, believers in "honest graft," gimme boys who will stoop to anything on earth if they think they can get away with it. Now the "good" politician, in 99 cases out of 100, plays ball with these vultures. That's politics.

He may not know just what they're up to—indeed, he may take the best of care not to know; but he tolerates them and helps to keep them alive. He does this because, when all is said and done, it is by their help that he stays in office.

So we get the state of affairs of which Mr. Hoover complains; not because most politicians are crooked, but because the ones who aren't don't stand up in meeting and force the departure of the ones who are.

FOUR-LEAF CLOVERS ABOUND IN TENNESSEE

By United Press LOCKE, Tenn.—Two women here are in for luck—if there is anything to the four-leaf clover superstition. Mrs. E. O. Sanders found four four-leaf clovers in one bunch and then Mrs. O. O. Densford went out in her front yard and plucked six four-leaf clovers.

Lake Dallas Will Have a Hatchery

DALLAS.—A new state fish hatchery now planned for Lake Dallas, near here, should assure a plentiful supply for lakes and streams in North and East Texas. C. A. Vernoy, president of the Dallas Anglers' club, said today. Vernoy said present plans call for the largest hatchery in Texas at Lake Dallas. Fry from its waters would be taken to Lake Worth, Eagle Mountain Lake, and other fishing havens in the area. Restoration of the White Rock lake hatchery will give an adequate supply of fish for that lake and others in the immediate vicinity.

Congressmen had better talk business with the gentleman from Michigan who wears suits without pockets, as Uncle Sam might take to the idea.

WASHINGTON WITH RODNEY DUTCHER

BY RODNEY DUTCHER NEA Service Staff Correspondent WASHINGTON.—Recent conferences between President Roosevelt and some of the outstanding big business men of the nation are among the most interesting and most mysterious of late political developments.

Liberals among the president's advisers whisper that industrial-financial leaders, convinced that Roosevelt's re-election is inevitable, have sought these conferences, with the hope of obtaining a rapprochement with the New Deal which would result in various compromises.

This viewpoint would tend to put the big boys more or less in the position of supplicants eager to make their peace and the liberals usually add that Roosevelt isn't likely to make many concessions.

Conservatives, on the other hand, are sure that Roosevelt took the initiative in issuing invitations and is anxious to obtain the support of industrialists—or at least break their solid front.

FURTHER light is not yet to be had, although it may be significant that word began to trickle in from Wall Street weeks ago that big business moguls were reconciling themselves to the desirability of making certain "trades" with the White House, if possible.

Behind the scenes, operating with great secrecy, is Donald R. Richberg, former "assistant president," who may be considered No. 1 man among those few

liaisons the chief executive had had with industry lately. Rumors say Richberg engineers much of the recent parade from New York to the White House and there is no question that he again has become one of the president's trusted counselors.

On the other hand, there are innumerable smaller fry whose constant ambition is to act as intermediaries between Washington and downtown New York. Recent White House visitors have included Myron Taylor, U. S. Steel, Owen D. Young, General Electric, Walter C. Teape of Standard Oil, Walter P. Chrysler of the automobile industry, William L. Clayton, cotton magnate, and Bernard M. Baruch, the financier.

A RELATIVELY neutral observer who gets around Wall Street a lot was in Washington the other day and reports on two current trends there which most impressed him:

1. Big business men, usually their surprise, find that protection to roll in, in mounting ratio. As they become more prosperous, they realize that it is somewhat incongruous to have Roosevelt and the New Deal with the blind fury which has characterized so many of their attacks.

2. The industrial-financial community is enthusiastically accepting the idea of raising large campaign funds to defeat liberal or radical congressmen to create a barrier in the House of Representatives against further progressive legislation which may occur to Roosevelt.

run into Dallas except the one from Memphis. He holds several records, including one for flying the first airplane passenger run out of Dallas in 1921. He also has inaugurated mail-passenger schedules from Dallas to Houston, Galveston and Atlanta.

Airplane Pilot Does Not Take 'Postman Holiday' In the Air

DALLAS.—What does an air transport pilot think about while cruising home from a day in the skies? For Charles F. (Unk) Pedley, it means no "postman's holiday." He stays on the ground. First interested in Pedley's off-work period is his home, a 45-acre farm near Irving. Second in importance are his thoroughbred saddle horses, which the pilot raises as a hobby.

Besides his home and horses, Pedley's favorite diversion is fishing. He has a spring-fed fishing pond on his farm. Pedley, 36, has flown 11,380 hours in the past 17 years. His daily run is from Dallas to El Paso. He has flown every regular

Tomatoes Shipped From Port Isabel

PORT ISABEL, Tex.—Several carloads of Texas tomatoes were shipped to New York from May 12 aboard the refrigerated boat, the Texas Ranger, marking the first carload movement of Grande Valley produce by steamer.

The Texas Ranger carried on carloads of tomatoes on her experimental cruise. If the trip successful, present plans are ship two boatloads of produce weekly to Eastern United States and Canadian markets.

THIS CURIOUS WORLD By William Ferguson

IF THE EARTH CEASED SPINNING ON ITS AXIS, THE MISSISSIPPI RIVER WOULD BEGIN FLOWING NORTH! THE MOUTH OF THE RIVER IS FARTHER FROM THE CENTER OF THE EARTH THAN IS THE SOURCE! ONLY THE SPINNING MOTION KEEPS THE WATER FLOWING "UPHILL."

METEOROLOGY

HAS NOTHING TO DO WITH METEORS! IT IS A STUDY OF THE EARTH'S ATMOSPHERE. DUE to its spinning motion, the earth has a larger circumference at the equator, and is flattened at the poles. This flattening is believed to have taken place before the earth became solidified. The equatorial areas now spin along at a much faster rate than other earth surfaces, and, thus, centrifugal force assists water in its course toward the equator.

DOES IT PAY TO ADVERTISE?

Reprinted from Editor & Publisher, May 2, 1936

NATIONAL ADVERTISERS CAN YOU UNDERSTAND THIS ONE?

There are sixty-five or more packaged teas on sale within a fifty mile radius of New York City. But the best-seller is the brand of a New York Wholesale Grocer.

The tea that dominates the New York Market is White Rose.

White Rose is first in sales in fully 80% of 30,000 stores. And it has 99% to 100% distribution, a record approached by few grocery items in most general use nationally.

Consistent Advertising

The first White Rose specialties were canned corn, tomatoes and peas, rolled oats, and cocoa. But in 1901 Seeman Brothers decided to adopt "a pay item to advertise and put sales effort back of."

Two hundred cases of black tea were imported from Ceylon, advertised in the newspapers as White Rose, and sold like hot cakes in a

WHAT TEA IS BEST-SELLER IN NEW YORK CITY

... and WHY?

ADVERTISERS EVERYWHERE

—are invited to remember that Quality, Service and Newspaper Advertising have always been and always will be the KEYS TO ANY and ALL Markets.

Consistent, well-planned advertising copy will be read in your daily newspaper . . . in the home, where it is a welcomed and invited guest.

But that is only half of the story. The friends and stockholders of Seeman Brothers, of whose White Rose Line of "choicest products of garden, orchard and sea" White Rose Tea is the Leader, are offering their congratulations upon a Fiftieth Anniversary made notable by net earnings and comparable to pre-depression years, and assets a million dollars greater on January 1, 1936, than on January 1, 1929.

Well Planned, Pays!

market that had previously known only the green teas of China and Japan.

And so White Rose Tea was born. And with it a policy of continuous advertising in newspapers, one to three times a week, that has continued in force for 35 years.

Quality, Service and Newspaper Advertising are the keys that opened the doors of the New York Market to White Rose.

ANOTHER REASON WHY THE NEWSPAPER IS THE BEST ADVERTISING MEDIUM

Practically every family subscribes to or buys one or more daily newspapers. There are 35,000,000 papers circulated every day in the United States. As there are 30,000,000 families, allowing for illiterates, every family reads, on the average, one and one-quarter papers a day! Because newspapers are influential, and a part of the daily life of every literate person—because they are read and believed—because they are timely—because they are local—and because they are complete—the newspaper is the best advertising medium.

In the day's news, with President Roosevelt, with the baseball results, with the "doings" of Congress, with the happenings in Germany, comics, with the news of society, with cross-word puzzles, and everything

that appeals to the active and up-to-date American—the announcement of your product or name will find a ready association of quality and pertinence. A newspaper announcement gives you the opportunity of telling your story thoroughly and completely. You can show a picture of your product, you can diagram its uses—you can reason with the public. You can persuade—you can command—you can plead. In no other medium of advertising can you do as much, or sell as efficiently or as effectively.

A newspaper is "alive"—vital. Each issue vibrates with life and interest. A newspaper has elan which carries with enthusiasm to the reader all the matter included in its daily make-up. This gives force and animation to the advertisements in addition to their individual appeals.

Some of the Advantages of Newspaper Advertising

1. SECTIONAL OR LOCAL—Newspaper advertising is direct in that it covers a definite territory. You know exactly whom you can reach, and where they are located.
2. TIMELINESS—Newspaper advertising can be made to fit in with the calendar, or any scheme of events. As the paper comes out every day, the advertiser's message can be timed to suit certain occasions, buying moods, or to fit in with daily occurrences.
3. CONCENTRATION—In many cities or towns, one newspaper will give thorough advertising coverage. In some cities, it requires two or three. But the advantage of a newspaper is its completeness and thoroughness of coverage. If it has 50,000 circulation, advertisements placed in it offer a complete coverage for this many homes. A newspaper advertising campaign is thorough because it is complete.
4. GOES INTO THE HOME—The only way to get into some homes is with a newspaper advertisement. Many people will not read circular letters, or listen to the radio; but every intelligent person reads a newspaper. A newspaper takes the advertising message into the home—along with information and news of the day.
5. READ IN LEISURE—In the hurly-burly of life, every man and woman stops for a half-hour, or an hour to read a newspaper. Announcements that catch the eye in these moments of rest and leisure—if they are attractive—have a good chance of being read. It is the best time to get a message over. This message, by the way, is not "forced" on the reader, as ads in a moving picture theatre, circulars in your car, etc., and he can take it or leave it.
6. GOOD ASSOCIATIONS—Advertisements in a newspaper are among good associates. Not only is there the news of the World, but there are many quality products advertised, such as automobiles, cigarettes, foods, etc. Then there are the large department stores, and representative business concerns, and the trade names and products that have reputations. The ads of quality products reflect and suggest quality on all other ads in the same paper.
7. PERMITS VARIED COPY TREATMENT—Newspaper advertising allows full descriptions, and permits the use of persuasion, and argument, and "reason why" copy. Pictures and photographs—with great detail—diagrams and charts can be used—and the copy can be so dramatized that it will get attention, and "get over" the story.
8. INEXPENSIVE—On the whole, newspaper advertising is inexpensive. Campaigns can be carried on with comparatively small sums of money—that will "sell" a whole community.
9. NEWSPAPER ADS ARE BELIEVED—A newspaper will not intentionally allow misrepresentation in advertising. Most of the papers censor their ads, and protect their readers against fraudulent or mis-leading advertising. Newspapers are responsible institutions, and they have the confidence of the public. As a good business policy, they cannot afford to jeopardize that confidence.
10. THE VALUE OF THE PRINTED WORD—Few people understand the psychology of a printed statement. "Strange is the fascination of the printed page," says Bryce. The printed word, in itself, creates faith. Words can be best used to advantage in newspaper advertising.
11. FLEXIBILITY OF SCHEDULE—A newspaper is the only advertising medium that gives so much variety or flexibility in its schedule. The advertiser can use an inch ad today, or a page ad tomorrow. He can run all of his advertisements at Christmas time, or he can scatter them throughout the year. He does not have to make his schedule up for weeks and months ahead of time. He can start it at "a minute's notice."
12. QUICK ACTION—Newspaper advertising is direct. It gets quick action. Put an ad in today, and get results the same day, or the next day.
13. ALLOWS EXPRESSION OF PERSONALITY—In newspaper advertising, the personality of the advertiser can be developed. He can talk "straight from the shoulder," or "call a spade a spade." He can use humor. He can be individual.
14. SURE TO BE SEEN—Newspaper advertising is surer of being seen. Large ads will be seen by every reader. Small ones have, of course, a less chance, but, when run frequently, cannot be missed. Consistent advertising, well planned, pays!

Showdown Expected In Houston Dock Strike And Riots

Texas Legends and Folklore

By Olive M. Johnson, Director of Speech Arts North Texas State Teachers College

Geographical Legends
Many stories in Texas history have grown up around Enchanted Rock in Llano county. This is a mound of solid granite covering 640 acres. At night, spirit fires dance on the summit; by day, millions of isinglass stars gleam in the sunlight.

The most famous geographical legend is that of the naming of the Brazos river. The full name of the stream is Dos Brazos de Dios, the Arms of God.

SISTER MARY'S KITCHEN

BY MARY E. DAGUE
NEA Service Staff Writer

DEAR BRIDE, don't be scared. 1936 has been good to you with all its aids of fool-proof equipment and wonderful food-stuffs. Just use your common sense and a good cook-book in your new job.

Monday's Menu
BREAKFAST: Orange cereal, cream, popovers, creamed dried beef, milk, fruit.

Use Standard Measures
You will need standard measuring cups and spoons to measure the ingredients. An ordinary coffee cup or teacup never should be used because there is an appreciable difference in the capacities of the various cups and that difference may mean the ruin of a recipe.

Level Off Spoons With Knife
To use a measuring spoon full and level it off with a knife. Cupfuls are measured the same way.

It is time-saving to have two measuring cups, one for liquids and one for dry ingredients. The sets of cups are specially convenient in measuring fractions of cups because it's much easier to stroke off the amount accurately than to measure half or whatever quantity in the cup recording to the marks.

Flour is sifted once before measuring. It should be piled lightly

THIS CURIOUS WORLD By William Ferguson

A BASEBALL PITCHER COULD THROW NO CURVES, IF HE LIVED ON THE MOON! THERE WOULD BE NO AIR RESISTANCE TO GIVE A BREAK TO THE BALL.

THE AMAZON DISCHARGES ABOUT 6,000,000 CUBIC FEET OF WATER INTO THE ATLANTIC EVERY SECOND!

SINCE there is no atmosphere on the moon, there would be no friction such as is set up when a ball is thrown through air. However, a baseball pitcher, deprived of his ability to throw curves, would have the satisfaction of knowing that, due to the lessened gravity pull there, his infielders would be able to leap twenty feet off the ground to spear line drives.

FRECKLES and HIS FRIENDS-By Blosser

Sport Glances.By Grayson

LAKEWOOD, N. J.—Quite naturally, Charles Henry Blackburn considers Joe Louis Barrow a great heavyweight, but the lightweight of 30 years ago who fought them in all shapes and sizes, from the immortal Joe Gans to Philadelphia Jack O'Brien, can't help but say that the fighters of today have things pretty soft.

They have promoters building 'em, press agents writing about 'em, and everything is made just grand for 'em,' asserts 'Jack' Blackburn, who has trained and seconded Joe Louis since the Brown Embalmers launched his professional career and who now is preparing him for his 15-round encounter with Max Schmeling at Yankee Stadium June 18.

Louis will collect close to a quarter million this trip. "It wasn't that way when Professor Billy McCarnay picked me up in Indianapolis," explains the razor-engraved Blackburn. "A fellow had to build himself then. It was hard work. You had to fight to get fights, even with a ner. There was no running around taking the best offers. You took any offer."

An appeal to the reason of the workers who are members of the organization should be made.

Toss investigated the situation in Port Arthur and Houston at the request of the Port Arthur Labor and Trades Council which protested against "high-handed tactics" of I. S. U. officials in confiscating supplies and revoking the charter of their branch union there.

The Port Arthur council aimed its charges at Arthur Barnes, representative of the seamen's union. The charges and Barnes' answer were filed with the American Federation of Labor in Washington.

Gilbert Mers, Galveston, president of the Maritime Federation, blamed officials of the I. S. U. for the numerous beatings and with a recent riot at Port Arthur.

Mers said he considered it "very strange" that the seamen who are favored victims of attacks had favored formation of the maritime group. He said it was the aim of his organization to establish a maritime department, "democratically controlled," within the A. F. of L.

"Wild West" Shows Will Be Numerous Throughout State

By United Press
FORT WORTH.—Out-of-state visitors who want to see Texas' "wild west" will be treated to a dozen cowboy shows this summer. Chief Centennial rodeos are at Fort Worth and Dallas, and several others—given by real cowboys—will be offered from June through October.

Pampa will give a rodeo in June; Pecos, Falfurrias, Canadian, Eagle Pass, and Borger in July; Big Spring, San Angelo, Odessa and Lubbock in September.

BULLETINS FOR BRIDES

Unless this year is very different from other years, grocers' sales of rice will pick up during the next six weeks. Church organists will suffer occupational fatigue. Tin cans will rattle behind dignified automobiles. And a great many young couples, emerging starry-eyed from the middle aisle, will face Life together and find it full of New Problems.

They have so many things to buy, so much shopping to do, so many choices to make. Furniture, silverware, rugs and blankets . . . towels and toasters . . . soap and soup and cereals.

Fortunately for them, they go forth, budget in hand, into a world of standard values, recognized trade-marks, dependable merchandise. Familiar names, advertised names, will pass their lips naturally as they buy. They will read the advertisements more than ever now—selecting, rejecting, buying with a minimum of wasted effort and a definite assurance of value received.

The pages of this paper are full of bulletins for brides, news of the world of goods and services, short cuts to efficient housekeeping. Whether you're a 1936 bride of a 1906 bride, make it a habit to read the advertisements regularly. For the sake of time, economy and convenience, be familiar with standard values when you start out to shop.

The GLAMOROUS ADVENTURE by Jean Seivwright

CHAPTER I

THERE were dancing lights in Gail Everett's amber eyes as she walked lightly along Fifth avenue.

Pausing for a moment in front of a window display, she opened her pocketbook and pulled out a letter.

Slipping the letter into its envelope and tucking it again into her handbag, she repeated the address of the famous silk manufacturer while she turned into E. 34th street.

Everything was new to Gail, for it was her first visit to New York since she had been a child.

Gail had not been able to understand that. She had needed her mother. Of course there was old Martha, the housekeeper.

Her education—there was no denying it—had been rather haphazard. Gail had gone to 13 schools in as many states.

The lights changed then and she joined the throng of men and women hurrying across the street.

Gail Everett sketched fashions... dreamed of becoming a famous designer with a shop of her own.

learn from Lucille Travers, one of her schoolmates, that she was penniless. Gail was stunned when Lucille and her friends taunted her about being a "charity" student.

GAIL reached the tall gray building where the silk manufacturing firm occupied three floors.

But as her eyes grew accustomed to the almost exotic atmosphere (softly shaded lamps lent a dim light to the great room from which daylight was utterly shut out) she noticed several men seated around the room.

When Gail approached, this young woman looked up, smiling.

"Good morning. What can I do for you?" "I'd like to see Mr. Larnie—Mr. John S. Larnie."

"Did you have an appointment with him?" The girl at the desk started to turn the pages of a book which lay open before her.

"Not a definite one, but he invited me to call when I arrived in New York."

"Oh, how clever of you!" the girl exclaimed, yet Gail felt a note of insincerity in her words.

"When will that be?" There was an anxious note in Gail's voice. New York without anyone to help her... how would she get a start?

"Oh, thank you," Gail answered as the girl handed her a card.

Her amber eyes were shadowed as she stepped into the elevator again and she walked along the entrance hall with lagging steps.

"Pardon me," he said, removing his hat, "but didn't I see you in John Larnie's office a few minutes ago?"

A NORTH, Special Nurse -- By Thompson and Coll

Oil Drilling—(continued from page 1) The Texas oil industry, make it apparent that the cent of this God-given nature is founded upon business principles, and informed persons have at the natural resources are being exploited by those only purpose is to "Quick." Yet, the facts are growing that the oil industry is investing all and more into it and more into it actually receives for

its day-to-day production! This fact undoubtedly proves that the Texas oil industry is not a "Get Rich Quick" venture, but a sound business industry that is laying a firm foundation which will safeguard the economic welfare of our state for many years to come.

Many Texans will probably be surprised to learn that the oil industry really contributes to the state, counties and cities in the way of taxes, which are now estimated to comprise at least sixty per cent of the entire tax revenue of the State. Few realize that there are many tax levies on oil in addition to what is popularly known as the severance tax of two per cent, or two cents a barrel on crude production. Oil taxes include franchise tax, gross production tax, regulatory tax, gross receipts tax; state, county, school and city ad valorem taxes; motor vehicle tax, gasoline tax, pipe line transportation tax, distributing and bulk terminal taxes, and numerous

other levies assessed by the state and various counties and municipalities. On the whole, oil taxes collected in Texas are now higher than any other oil-producing state.

What the constant search for new sources of oil supply means to the people of Texas may better be visualized when viewed from the standpoint of future underground supply. Official facts show that Texas now has in sight nearly half of the nation's underground, reserve supply of oil. In fact, we fortunately possess about 5,500,000,000 barrels of prospectively recoverable oil underground, as a direct result of constant exploration and reinvestment of sales revenue from current crude production. This huge reserve, together with the fact that the world demand for oil is growing and its people will enjoy the economic advantages attending its development and production for many years to come.

Womens Council Hold An All Day Session

The Womens Council held an all day session Monday in the First Christian church. The two circles worked on their individual projects in quilting and piecing under direction of their chairmen.

The noon covered dish luncheon included meat, salads, sandwiches, angel food cake, pastry and coffee.

Guests for the luncheon were Messrs. J. A. Beard, K. D. Hancock, L. W. Pitzer, Wesley Beard of Dallas, W. M. Wood and the Rev. W. A. Richardson.

The afternoon session was opened by Mrs. D. J. Fiensy with the hymn, "Faith of Our Fathers," and prayer by Mrs. Jess Barnett.

Mrs. W. A. Richardson, the council teacher, discussed a chapter in their study, "Women Under the Southern Cross."

The circle will meet in individual sessions at 2:30 p. m., Monday.

Present, Meses. R. F. Wynne, Harry King, George Metz, E. E. Wood, H. D. Hancock, I. L. Gattis, Bert Beatty, W. A. Richardson, J. R. Gilbreath, T. A. Bendy, L. W. Pitzer, N. L. Smith, George Hip, J. A. Beard, Jess Barnett, W. M. Wood, Babb, D. J. Wilcox, H. F. Ferrell, D. J. Fiensy, Eugene Day, Misses Johnny Hightower and Sallie Day.

Mrs. J. C. Whatley Hostess to W. M. S.

The Womens Missionary Society of Presbyterian church, met Monday afternoon with Mrs. J. C. Whatley.

The rooms were decorated with bowls of roses. In the social periods a gift shower was presented Mrs. C. W. Geue.

The meeting was opened by their president, Mrs. J. Le Roy Arnold, with minutes presented by the secretary, Mrs. L. D. Black.

In the business period preliminary plans were made for the church bazaar, in the fall, by the membership, divided into two sides in a contest for raising funds for church work.

Captains of the teams, Mrs. Black and Mrs. C. W. Estes.

Each member is requested to take her lunch and to assemble at the community clubhouse and leave in a party for their destination.

Convicts To Undergo Psychiatric Scrutiny

LANSING, Mich.—A system of psychiatric examinations for Michigan prison inmates about to receive paroles is being considered by the state prison commission.

Parole Commissioner Joseph C. Armstrong, advocate of the plan, believes that many inmates eligible for parole have records that indicate they might commit crimes if released. He said a psychiatric classification of all inmates of state institutions might help prevent "atrocious crimes."

MRS. A. F. TAYLOR presents

Students in Piano Recital May 20th 8:00 P. M.

SHERIFF'S SALE

The State of Texas, County of Eastland. By virtue of a certain order of sale issued out of the Honorable District Court of Dallas County, on the 4th day of May, 1936 by Geo. W. Harwood, Clerk of said Court, upon a judgment in favor of Continental Southland Savings & Loan Association, a corporation, for the sum of Three Thousand Sixty-nine and 57/100 (\$3,069.57) Dollars and costs of suit, in cause No. 97-697A in said Court, styled Continental Southland Savings & Loan Association, a corporation, versus Peyton Powers, S. S. Powers and wife, Leota Powers, and West Texas Construction Company, a corporation, and placed in my hands for service, I, Virge Foster, as Sheriff of Eastland County, Texas, did on the 8th day of May, 1936, levy on certain real estate situated in Eastland County, Texas, described as follows, to-wit:

FIRST TRACT—All that certain lot, tract or parcel of land situated in Eastland County, Texas, being the entire North 44 feet of Lot 15 in Block No. 35 of Daugherty's Addition to the City of Eastland, Eastland County, Texas. SECOND TRACT—All that certain lot, tract or parcel of land situated in Eastland County, Texas, being known and described as all of Lot 17 in Block 35 of Daugherty's Additions to the City of Eastland, Eastland County, Texas, and levied upon as the property of said S. S. Powers and wife, Leota Powers, West Texas Construction Company, a corporation, and Peyton Powers, and on Tuesday, the 2nd day of June, 1936, at the Court House door of Eastland County, in the city of Eastland, Texas, between the hours of 10 a. m. and 4 p. m., I will sell said real estate at public vendue, for cash, to the highest bidder, as the property of said S. S. Powers and

wife, Leota Powers, West Texas Construction Company, a corporation, and Peyton Powers, by virtue of said levy and said order of sale. And in compliance with law, I give this notice by publication, in the English language, one week for three consecutive weeks immediately preceding said day of sale in the Eastland Daily Telegram, a newspaper published in Eastland County.

Witness my hand, this 8th day of May A. D., 1936. Virge Foster, Sheriff, Eastland County, Texas. By D. J. Jobe, Deputy. May 10-17-24.

THIS CURIOUS WORLD By William Ferguson

The ANGLER FISH CARRIES A "POLE" AND "LURES" WITH WHICH IT CATCHES OTHER FISH. PIMENTO AND PIMENTO ARE TWO ENTIRELY DIFFERENT PRODUCTS. THE FIRST IS MADE FROM BERRIES OF THE PIMENTO TREE; THE LATTER IS A SPANISH PEPPER. THE UNITED STATES DEPARTMENT OF AGRICULTURE HALTS ABOUT 45,000 DANGEROUS PLANTS AND INSECTS ALONG THE U.S. BORDERS ANNUALLY.

PIMENTO is a pungent, aromatic spice, prepared from the unripe berries of the pimento tree, and is used in cookery and in medicine. Pimento is used in the manufacture of cheese, and as a stuffing for olives. Both names are derived from the Spanish word, pimento, meaning "pepper."

TERMITES Tunnel Into The Finest Homes

You will be amazed at the way these wood-eating insects cleverly tunnel into the finest homes, and without noise or sign eat away the inside of timbers. Ignoring the ravages of termites is costing home and building owners more than 50 million dollars a year. You may have to pay part of the bill. You can not see—nor hear termites at work, and only an experienced inspector can discover the extent of their destruction. It is best to have your property inspected for termites—and if there is infestation, secure the service of a reliable and nationally recognized termite control organization.
