Next Term Will Be No Party For President

No matter who wins the coming election, a lonely and frequently very tired man is going to be occupying the White House during the next four years.

For the country is in the midst of a period of considerable stress, and the focal point of this stress will rest squarely in the middle of the executive mansion.

He will be forced to decide whether the United States is going to swing to the right or to the left during the next four years.

He will have to direct the foreign policy of the most powerful nation in the world at a time when—unless all observers are mistaken—the world will be in greater danger of stumbling into war at any time since 1918.

He will be faced with the titanic task of erecting defenses against the drouth and erosion that have become so dangerous to our future as an agricultural nation.

It is the same way with unemployment. Here, again, the president should not be held wholly responsible...

Most important of all, he will have to furnish the people of America with a moral and emotional rallying point.

One of these days they may do some very distressing things if that conviction and that leadership are not given them.

It is hard to think of any man on earth on whom more will depend than the President of the United States in the next four years.

The campaign is beginning to speed up, and hard things will be said about both candidates for the next couple of months.

Sport Glances. . . . . By Grayson

THERE has been no let up on the vast amount of money which the New England public has been wagering on the races.

Even the St. Louis Browns could afford a scout like that. Burgess Whitehead, traded to the Giants for Tarzan Parmelee last winter, is fooling the Cardinal management by standing up and starring under a full season's play.

ELEANOR HOLM JARRETT drank herself out of the Olympic Games. Joe Church, the boxer, poached himself out. Irving Pease, Toronto middleweight, was sent home because he ate himself out of his class.

NATIONAL LEAGUE

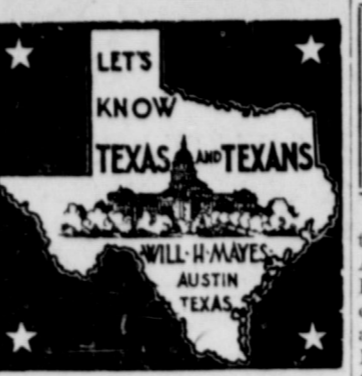

Table with columns: Team, W, L, Pct. St. Louis 72 45 .615, New York 72 46 .610, Chicago 68 50 .576, Pittsburgh 61 58 .513, Cincinnati 56 61 .479, Boston 53 64 .453, Brooklyn 47 70 .402, Philadelphia 41 76 .350

Yesterday's Results New York 3-6, Boston 2-1, Brooklyn 6-3, Philadelphia 5-5, Cincinnati 0, St. Louis 7, Pittsburgh 5. Second game called, 6-6, in tenth, darkness.

Today's Schedule

Cincinnati at Chicago, Pittsburgh at St. Louis. (Replay of Sunday's tie), (Only games scheduled).

Third parties have the faculty of landing in that position when the votes are tallied.

In this column, answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people.

Q. Is it hotter in Texas in September or October than in Iowa?

A. The thermometer may register a few degrees higher, but the body heat is no greater because of dry atmosphere and cooling gulf breezes.

Q. What became of Jesse James, the noted Missouri outlaw?

A. It has been stated repeatedly that he was shot and killed by Bob Ford April 3, 1882, but there have been persistent rumors from that date to the present that he is still alive.

Q. What share is Goliad having in the Centennial Celebration?

A. Goliad will receive \$75,000 from the Centennial appropriation for a Centennial memorial auditorium and stadium to be built during the year.

Q. In what way was Sam Houston related to Jesse Chisholm?

A. Houston married and for nearly three years lived with Tiana Rogers, a British-Indian half-breed, his second wife and an aunt of Jesse Chisholm.

Crayon Projects in Texas History

It is easy to teach children history with penciled outlines of historical subjects and colored crayons. History taught in this way is never forgotten and a taste is created for more information.

Life of the Saint Of the Day

By REV. S. E. BYRNE

St. Bartholomew was one of the twelve who were called to the Apostolate by our blessed Lord Himself. Several learned interpreters of the Holy Scripture take this apostle to have been the same as Nathaniel, a native of Cana, in Galilee, a doctor in the Jewish law, and one of the seventy-two disciples of Christ, to whom he was conducted by St. Philip, and whose innocence deserved to be celebrated with the highest praise by the divine mouth of Our Redeemer.

Town Will Plan a Budget For Year

Highways In 36 States to Be Given Survey This Year Rural highway surveys or road planning programs are now in process or soon will begin, in 36 states, according to latest information received by the American Petroleum Industries Committee. More expensive road studies are being undertaken to supply the necessary information to place future highway improvements on a sound and scientific basis. Each survey consists of three parts, namely, a highway condition survey, a highway traf-

plants. After the garden has been plowed, spread a coating of one to three inches of this "summer manure" over the surface, then rebreak the ground or disc and harrow it until it is well mixed into the soil. This "spongy" material will greatly increase the water-holding capacity of the soil and prevent it from packing. When fall rains come, the garden soil handled in this way will be ready for planting. "It is often hard to get the fall crop of potatoes to come up even when there is enough moisture. Potatoes from the spring crop should have at least six weeks of 'rest' between harvest and planting time before they can be expected to sprout. To encourage sprouting, there are two methods of treating seed potatoes that may be used. One is to cover the potatoes with damp straw, after placing in a shady location, and when sprouting begins, plant. The other is to treat seed potatoes with a solution of 1 pint of ethylene dichloride to 4 gallons of water.

Rich and Reckless

By Mary Raymond  
BRENTHED when the firing began I wouldn't be telling this tale. "Do you live on this side of the river?" "Born on this side." "You must know the locality pretty well." "Every foot of it." "I'm thinking of taking a place out here. Maybe you could tell me if there are any empty houses around." THE baldheaded man thought a moment. "There's one. Been vacant a year, but you wouldn't want it. It's not fit for rats to live in. Belonged to old man Hardison who was so miserly he let it almost tumble down on him. After he died folks said it was haunted. Claimed they saw lights in it sometimes. You couldn't get anybody to go anywhere near that house after nightfall. Guess you wouldn't want it anyhow. It's three or four miles off the highway in the woods." "Perfect!" Brent exclaimed. "What's that?" "It's just the house I'm looking for. The doctor said I must live in the country." Brent added hastily, "I haven't been well recently." "You look fit as a fiddle. But if it's air you want you'll get plenty of it through the big cracks at old man Hardison's place." "I wonder if you could direct me to the house?" "Sure. Drive on the highway about five miles until you find a little forked road cutting into the woods. It's so overgrown with grass now most people would think it was just a path. It's the road that leads straight to the place. It's a lonely drive. If I were you, I'd wait until morning." "Thank you very much. Good-by." "If I was you, and I happened to see a light in those parts, I'd sure wait until morning. Folks say old man Hardison's ghost—" The baldheaded man's warning was lost in the sudden roar of the old car. A short while later, Brent's searching eyes found the forked road. He turned off the highway and was soon deep in the woodland described by the elderly man. Suddenly he stopped his car. Some distance ahead was a glimmer of light. Brent's lips set grimly. He drove deeper into the woods, got out of the car, and started cautiously on foot toward the house. He saw, as he came closer, that with the exception of one light, the dilapidated old house was in darkness. A car was parked close to the side of the building. Brent stooped and focused a flashlight on the license number. The number did not correspond with the one he carried in memory. Perhaps there was another car in the garage. He straightened and felt a heavy hand on his shoulder. "What, my prowling friend, is the object of your call this evening? Chickens? Cars? You tell me." Brent laughed. "I was looking for Mr. Black. This is such a queer run-down place I thought Bill Patrick had made a mistake about it. So I was looking at the license number to make sure." "Not so fast, my friend. What do you say to stepping inside?" HE was trapped! And Molly was here. Brent was certain of it. He controlled his voice with an effort. "Just as you say." "We came out for a st. Black was nervous. And here Patrick sends you out. How d it happen?" "I was doing some work on the building," Brent lied glibly. "The roof leaked from that last rain. Bill needed somebody to take a message and he offered me \$5 to make the trip. I was glad to do it, too." "We'll see what Black f inks of your message. First I'll relieve you of your gun. Guess you wouldn't be making a lonely trip like this without carrying a gun. It wouldn't be right safe, would it?" "I'd happen to bring one. L.H." "Patrick told you to bring a gun?" "Not exact'y. He said it was pretty dark and deserted out here and maybe I'd be afraid to make the trip. I said I wasn't, but I thought I m'd be held up. You never can tell on a dark highway." "I understand. Guns is sure treacherous. While you're here I'll take care of yours. You don't mind?" Brent landed over his gun, watching the bulge in the other's pocket that was partly a mean piece of artillery and partly a hand which he knew was accustomed to using it. "Here's Black now." Brent turned and faced the night club owner, whose dark eyes raked him ominously—taking in the laborer's garb and tumbled hair. "Patrick said two men were coming to 'The Red Poppy' to talk with you tonight. He said it was necessary for you to be there." "I'm going in, but not because of your message. I have an idea you're a damn sneak. I'm taking my wife back to town. There's a job Louis and I got to do before daybreak—maybe two jobs—that might bother her. Women are funny that way." (To Be Continued)

"OUT OUR WAY" - - - - - By Williams

STRENUOUS CURE IS USED TO COMBAT BITE OF A SPIDER was bitten while in an outhouse on his farm. He captured the spider when he noticed the sting, the called his physician, to whom he gives full credit for his recovery. He said he used several applications of epsom salts, as hot as he could bear, on the affected parts, then drank a pint of whiskey. This was followed by a dose of paregoric and use of two boxes of aspirin during the day. Tips said the hot salts drew the poison from the wound, the whiskey stimulated him and increased his resistance, the paregoric served to neutralize the effect of the spider's poison in his blood and the aspirin quieted his nerves. GARNER WAITS FOR SHAVE By United Press ST. LOUIS.—John N. Garner, the vice president, entered a barber shop here and instantly the barber men leaped from the chairs, sitting that the vice president's shaving service. He refused to step in front of other waiting customers.

CALENDAR TONIGHT

Young Women's Association, 8 p. m., residence Mrs. W. J. Herrington, hostess. Tuesday Paktus group, Camp Fire Girls, 9:30 a. m., lower assembly room, Baptist church. Pioneer Women's club, all day session, residence Mrs. Exer Hunt, hostess. Business & Professional Women's club, 7:30 p. m., at residence Mrs. Dave Wolf, hostess. Loraine Taylor, assisted by Mrs. A. P. Taylor, summer student festival, 8:15 p. m., Community clubhouse. Public cordially invited.

Will Tender Friendship Shower

The Martha Dorcas class of the Methodist church will sponsor a friendship shower of household effects in compliment to Mrs. J. Atchely, when the class holds their party at 3:30 p. m. Wednesday, in the lower assembly room of the church. The class is sponsoring the shower which they have asked all those of the Methodist church to take part in and send a gift. Mrs. Atchely was burned out Saturday night, during her absence. She has been visiting in Houston several days. The extent of the damage to the home and contents had not been determined at a late hour yesterday, but the loss of household effects was considerable. Mrs. J. Atchely is greatly appreciated by the various organizations of the church which for several years she has helped cheerfully and unseparably when called upon.

Recital at Clubhouse Tomorrow Night Miss Loraine Taylor will present her summer school in music and expression in a delightful recital at 8:15 p. m. tomorrow, Tuesday, in Community clubhouse, and will be assisted by her mother, Mrs. A. F. Taylor, whose piano students in the summer course are due for a very attractive series of numbers. A clever feature of the entertainment, the tap dances and soft shoe and waltz routine specialties, will be done by the students in smart novelty costumes. The public is cordially invited to attend the recital.

Gone to New Orleans Mrs. J. R. Tolbert, her daughter, Miss Jennie, and their guest, Miss Jo Earl Utz, left Saturday morning for Kilgore to join Mr. Tolbert. The party is making a trip to New Orleans, where, after a few days, they will take a boat for Galveston, prior to returning to Eastland in about a week. Vacationers' Dance Program The vacationers added another feather to their cap in their dance program of fifty numbers that entertained the gathering of eighty young people on the Connellee roof, for a delightful dance, Friday night. Those attending represented Cisco, Ranger, Olden and Eastland, and sponsors were James Hill and Jim Connellee. Mrs. June Kimble was chaperone and Aubrey Jameson did his bit in looking after the young folks and their pleasure. The vacationers are due to play in Ranger Friday night, from 9:30 to 1:30, for a dance at the Country club. Their music gets better and better and it is a pity they cannot be here next winter, but as college boys, they will be scattered. The present personnel includes Horace Horton, director; Miss Jane Ferguson, pianist; and Gilbert Clark, Frank Lovett, Jack Brown, Leslie Cook, James Dabney, Parker Brown, Desmond Daniel, Rex Gray and Colin Satterwhite.

Will Return This Week G. W. Wilcox, the genial assistant manager of the Eastland A. & P. store, will be in Dublin all this week, the second week of his management of the A. & P. store there. He expects to return next Sunday. The Homer Bradford's Returning to Eastland Mr. and Mrs. Homer Bradford, Jr., will return to Eastland from Anglin on September first, and locate in their own home, which they left furnished when Mrs. Bradford and children joined her husband in Austin at the time school closed. Mrs. Bradford had been here as the guest of friends to arrange for placing Gates, her elder son, with the intention that he should attend the Eastland Hi this year. The change in plans was a surprise when Mr. Bradford advised her that he had been transferred to Eastland with headquarters here. He and several others with the Texas Old Age Pension Bureau, have been transferred to other points in connection with their work. Mrs. Bradford, accompanied by Mrs. Agnes Morrison Doyle, left

Saturday evening by motor for Austin. Mrs. Bradford will re-open her knitting class upon her return in September.

Sub Deb Club Outing Tomorrow Miss Ila Mae Coleman, sponsor for the Sub Deb club, reminds those going to Glenrose to meet promptly at her home on South Seaman Street at 9 sharp tomorrow, Tuesday, evening.

Those who will be at the camp will hold their regular club session Wednesday afternoon, at the same time that those in Eastland who did not go, will hold a similar session at the home of Miss Frances Lane.

Socialites Plan Weiner Roast Tonight Lucy Mae Cottingham entertained the Socialites at her home Saturday afternoon when the brief business session was conducted by the young vice president, Nina Mae Seale. The girls planned a weiner roast and gathering for tonight, Monday, at the home of Lucy Mae, and will have their fun in the yard at 7:30 p. m. A new member, Betty Pearson, was cordially welcomed by the group. Those attending were Nina Mae Seale, Ruby Lee Pritchard, Barbara Blythe, Wilma Williams, Ruth Hart, Mildred McGlamery and hostess, Lucy Mae Cottingham.

Eastland Personal EASTLAND PERSONAL a high Mr. and Mrs. L. J. Lambert entertained his brother and wife, Mr. and Mrs. E. W. Lambert of Fort Worth, over the week-end. Mrs. Allen D. Dabney returned home Friday from a two weeks' visit in Memphis, Tenn., with Mr. and Mrs. Allen D. Dabney, Jr. Mrs. William Sherriffs has returned from Seymour from a visit with her sister, Mrs. Walter Hart, accompanied by her mother, Mrs. Joe Hardin. Mrs. Monte Rowe, who has been visiting in Indiana the past month, will remain until the first of September. Mrs. D. L. Kinnaird has been visiting her mother, Mrs. J. B. Nunn, in Camden, Arkansas, the past week. Mrs. Allen D. Dabney, Jr., and infant son, Allen Dabney III, will arrive Tuesday to visit the Dabney family. Mrs. J. E. Thexton and daughter, Martha, of Gila Bend, Ariz., are visiting in the home of her sister, Mrs. O. H. Doss, prior to assuming a trip to Hartsville, Ala. Jack Taylor was to leave today for New York City to assume a position with the Irving Trust Company. Taylor, a recent University of Texas graduate, has been visiting his parents, Mr. and Mrs. Albert Taylor.

Weed Growths Are Menace To Health AUSTIN.—Texas has been fortunate this year in having beneficial rains in many parts of the State during the hot summer months. The rains, however, have made the weeds grow faster and left water standing in secluded places and has created an unsightly and insanitary condition in many communities. "While many places are well kept, there are some individuals who do not realize the necessity of keeping the weeds down and eliminating the standing water so that mosquitoes cannot breed," said Dr. John W. Brown, State Health Officer. "An appeal to the civic pride of the citizens in a community will often result in a clean-up campaign with astonishing results. Each individual can help by inspecting his premises to see that all nuisances are eliminated. "The inspection for conditions which might need correction should include: 1. Weeds and long grass which spring up almost over night this time of year. 2. Cans and other rubbish which might furnish a sufficient amount of water for mosquitoes to breed. Inspection of fish ponds. 3. Garbage should be disposed of in such a manner that flies will not be attracted. 4. Out-door toilets should be made sanitary. 5. Wells and cisterns should be inspected to see that the family water supply is free from contaminated material. Every member of the community should do his part to remove potential disease and death breeders."

EUROPE LIKES GROUNDHOOG QUEBEC, Que.—The groundhog—considered a nuisance on the North American continent—is coveted as a rare specimen of animal by European zoos. Six pairs of the rodents, born this spring at the Charlesbough Zoo, near here, have been shipped to Brussels at the request of zoo officials.

On an Old, Plank Road in the Southwest Desert

An old prospector with his train of pack animals and a group of western horsemen are shown here on the Yuma Road, the Colorado desert section of the "Old Spanish Trail." Authentic as to shrubbery and construction, the Yuma Road is one of nine famous "Roads of the Southwest" which have been reproduced by the Ford Motor Company at its exhibit at the Texas Centennial Exposition in Dallas.

Citizens of Eastland who are planning to visit the Texas Centennial in Dallas, were urged today by Guy Patterson Tire Service, local Ford dealer, not to miss seeing and enjoying the mammoth air-cooled exposition in the Ford Motor Company building at the Centennial. He also recommended that visitors to the Centennial ride over the reproductions of nine famous trails and highways of the "Roads of the Southwest" which encircle the lagoon near the Ford building. Yuma Road, the Colorado desert section of the "Old Spanish Trail" which is known in Texas as State Highway No. 3, is reproduced in part in the "Roads of the Southwest." The original Yuma Road stretches across the sandy wastes of the desert between Yuma, Arizona and

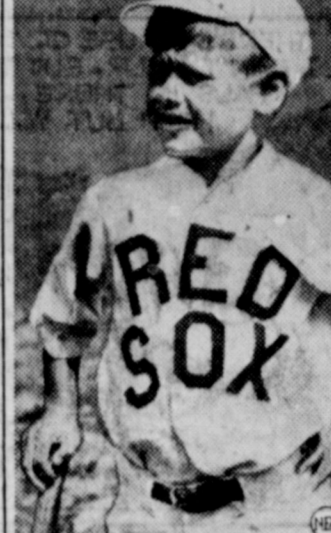

El Centro, California. It was first built as two parallel rows of planks and was probably one of the most interesting of all highways in the Southwest. Because of the shifting of the sands by the desert winds, early wagon tracks were obliterated almost as soon as made. After the construction of the plank road it was a constant fight between men and elements to keep the planks from being buried by the blowing sands. The first road was made of four planks, two for each wheel track, laid across girders in the manner of a primitive railroad track. At intervals turn outs were constructed in the same manner as the regular roadway. As two cars approached the nearest a turnout would wait for the other to pass. About 1919 this roadway was much improved and became a state

highway. At that time it was reconstructed, the plank parallel tracking being replaced by an 8-foot wide cross-way plank road with similar 8-foot turnouts holding two cars. These turnouts were built every four-tenths of a mile along the route. Now the road is paved. As construction of the paved highway progresses across the desert it was necessary to obtain quantities of water. In a small open space near the center of the dune area a well was drilled and at a depth of 153 feet a flow of water at the rate of 500 gallons a minute was struck. This well is believed to be one of the largest ever struck in the middle of the desert. With this water supply the embankment was dredged to a depth of three feet to form a firm sub-grade for the pavement. The embankment was covered with oil to prevent erosion.

Hubam Clover Is A Good Erosion Control Crop

GARLAND, Texas — Approximately 4,000 pounds of Hubam clover seed have been harvested and threshed on 12.5 acres of land on five farms in the Duck Creek soil conservation service project area. The clover was planted in February in strips and on steep eroded areas for erosion control. Hubam, unlike the biennial white sweet clover, is an annual and produces a seed crop each year while the biennial variety does not seed until the second year after planting. The clover has a tap root system with numerous lateral roots, making it an excellent crop for erosion control when planted in broadcast on the contour. As a soil building crop, Hubam should compare favorably with the biennial sweet clover. According to P. B. Duhle of the Texas Agricultural Experiment Station at Denton, wheat rotated with sweet clover increased its yield 117 percent over continuous cropping; oats 66 percent; corn 13 percent and cotton 22 percent. The Hubam crop may be cut early for hay, and a second cutting may be made later for seed, or an early cutting for hay with the second crop turned under for soil building purposes. Hubam seed production offers some possibilities as a paying enterprise for the black land of Texas. R. L. Hargrove of the New Hope community reports that Hubam planted on eroded Johnson grass land made fair growth. The grass was cut after the Johnson crop headed, and fed to work stock. Albert Corley of the Handley community stated that hay cut early in June made good forage and was readily consumed by the livestock. He expects to harvest considerable seed from his second crop and turn the stubble under. J. R. Sebastian is well pleased with Hubam clover planted on strips for erosion control. He plans to double his acreage next year, and states that planting Hubam in

FOXY FOX CUB

The name of Jimmy Foxx is sure to be perpetuated in baseball, if you listen to the proud arguments of Papa Foxx, Red Sox socker, and the youthful ambitions of James Foxx, Jr. The youngster, shown above, is the slugger of Camp Sokolakis, a "boys' outfit" in Maine, and is noted for his long distance clouting. He doesn't quite fill out a Red Sox uniform yet, however.

Increase In Tax On Gasoline Killed In Pennsylvania

Opposition on the part of motorists and of the public has resulted in defeat of a bill at the special session of the Pennsylvania legislature, just adjourned, which would have increased the state tax on gasoline from 4c to 5c a gallon, and would have given the Keystone state one of the heaviest gasoline levies in the East. From the opening day of the special session, when the measure strips offers an excellent opportunity for making a complete crop rotation on the farm.

was introduced, increasing the state's automobile tax to meet the general expansion of the state. As a result of the effort of voters and taxpayers in the Ways and Means Committee of the House, which reported. Under the sponsorship of the state's automobile clubs, against increasing the tax for fuel were signed by thousands of voters and taxpayers in the state capital, pointed out that the bill would place a sales tax of 10 percent on an essential commodity also charged that "soak the motorists" so that others could get their tax obligations. The campaign of the Automobile Club of Pennsylvania through the increase in the gasoline tax is one part of a larger program have undertaken this year in effort to combat all the various forms of tax increases. The legislature also passed a bill introduced at the session, which would have a tax on fuel oil, when the Finance committee refused to report it.

Eastland Girls Beat Ft. Worth

Eastland girl team played Williamson-Dickie, Ft. Worth champion girl softball team, on the local field Saturday night before one of the banner crowds of the season. The game was packed with thrills from start to finish, the local girls winning out through more timely and heavier hitting, helped along by sparkling play afield. Outstanding in field work was a fast double play in the 6th inning when with one out and Combs on first by a single, Pee Wee took Morris' grounder and tossed to Edith Rosenquest who relayed to Mitchell to end the inning. With the score 5 to 2 against them, the Dickie girls threatened seriously in the 7th. With one away, Spencer and Kennedy singled, Haley lined to Hellen at third for the second out and Phillips got an infield hit to load the sacks. Johnnie Hall, Ft. Worth pitcher, in a desperate effort to win her own game, sent a hard grounder into left center that Moore raced over and took in time to force Phillips at second for the final out of the game. Both teams made one run in the first. Eastland went ahead in the second when Edith Rosenquest teed off with a single and Mavis Moore, playing her first game in an Eastland uniform, blasted one over the center fielder's head for the full count.

Smallest Rose Is Placed On Exhibit

DALLAS, Tex. — The smallest red rose in the world—so tiny that a thimble will fit over its bloom and a coffee pot over the full grown plant—was exhibited for the first time in the Southwest at the American Association of Nurserymen's convention at Dallas. The rose was patented the Tom Thumb and is owned by Robert Pyle, West Grove, Pa. "The Tom Thumb," he said, "will grow where any good garden vegetable will thrive. It can be used for bordering, in rock gardens and is charming in children's gardens. "The plant is adaptable for those who live in apartments, for one bush can be planted in a small flower pot successfully, provided it is given sufficient sunlight."

Box Score table with columns: Player, AB, R, H, O, A, E. Includes players like W-Dickie, Hays, George, Combs, Morris, Denman, Spencer, Kennedy, Haley, Phillips, Hall, and Totals.

Club Dies table with columns: Club, Members. Includes New MILFORD, Conn.—The New Milford Monday club, a women's organization affiliated with the State Federation of Women's clubs, disbanded when no member could be found at the annual business meeting who was willing to assume the presidency. The club was founded in 1897 and had 88 members.

Score by Innings table with columns: Inning, Eastland, Ft. Worth. Includes a Summary section: Two base hits, H. Rosenquest; home run, Moore; rins latted in, Moore 2, Jennings, Combs. "Where Did You Get It?"

Sometimes, in a friend's house, you see a particularly handsome rug or lamp, a new vacuum cleaner, an attractive chair or table. Or perhaps it's a new coat or dress, or some delicious new food-product.

You ask: "Where did you get it?"

Your friend says: "I got it at Blanks."

You don't ask: "How did you know Blanks had it?"

There is no need to ask; there is no mystery about that. You know your friend reads the advertisements in this paper. You merely sight enviously, and think: "I must have missed reading the ads that day."

Make it a habit to read the advertising pages of this newspaper regularly, carefully.
