VOL. XVII NO. 20. SUBSCRIPTION \$2.50 A YEAR.

BIG SPRING, TEXAS, FRIDAY, FEBRUARY 11, 1921.

JORDAN & HAYDEN, Publishers.

WEST TEXAS C. OF C. MEETING.

2000 Delegates Attend the Annual Meeting in Ranger and a Big Time Was in Order.

W. W. Rix, president, Miss Nell Hatch, secretary, J. E. Mundell and B. Reagan, directors of the Chamber of Commerce, represented Big Spring at the annual meeting of the West Texas Chamber of Commerce, at Ranger, Texas, February 7th and 8th.

They report a most successful session early fall at about 2350. How 2000 delegates were in attendance and the citizens of Ranger royally entertained the visitors.

The A. & M. College proposition, re-districting, frigate and other important questions came up for discussion and many prominent Texas, as well as visitors from other states addressed the meetings.

A number of cities had brass bands and from 200 to 500 delegates and a big fight was made for the 1922 convention with Plainview winning this honor.

The following officers were elected for the ensuing year: Clifford B. Jones, spur, president; J. A. Kemp of Wichita Falls, first vice president; W. V. Crawford of Waco, second vice president.

Directors: J. W. Cheney, Amarillo; Louis J. Wortham, Fort Worth; S. E. Miller, Mineral Wells; Charles Brewington, Stamford; George W. Briggs, Lubbock; W. F. Hallmark, Dublin; O. M. Caldwell, Breckenridge; M. B. Hankey, Abilene; S. W. Grebor, Brownwood; Thomas F. Owen, San Angelo; Hubert Harrison, Wichita Falls; A. B. Spencer, Crosbyton; I. M. Harkey, DeLeon; George Sheppard, Sweetwater; Stuart L. Williams, Ballinger; E. S. Shannon, Fort Worth; Will P. Jones, Childress; T. L. Fagg, Eastland; E. B. Robinson, Del Rio; B. P. Smythe, Plainview; Will P. Rooney, Fort Stockton; B. J. Barnes, Ranger; J. W. Ray, Cisco; H. W. Burleson, San Saba; Milton McConnell, Graham; W. S. Cooper, Colorado; B. Reagan, Big Spring; O. H. Lloyd, Vega; P. E. Fenner, Uvalde; C. P. Thraime, Snyder; C. C. Small, Wellington; J. A. Drake, Pecos; Henry M. Half, Midland; J. A. Wheat, Seymour; S. B. Hatchett, Taboka; J. A. Gilmartin, Ellaville; W. D. Carruthers, Brady.

The fire department has two calls. When the fire alarm sounded about 4 o'clock last Friday afternoon things looked bad, for a wind-storm was in progress and had a fire been under good headway it would have been a difficult matter to control it. Fortunately the danger threatened. The fire was in the arway of the Warl basement; someone dropping a lighted cigar which came in contact with some paper. The smoke arising soon attracted attention and the fire was extinguished by the time the fire alarm was sounded.

The fire department was called out again about seven o'clock Monday morning. Fire originating in the furnace room, in the basement of the Cole Hotel, threatened that structure, but by prompt work the fire boys soon had the fire under control and the resulting damage was not great.

The guests of the hotel were given quite a scare when the smoke began to fill the building, and they lost no time in getting dressed and getting out.

Retail Clerks Initiate Eleven. At W. O. W. Hall on Monday night the Retail Clerks Protective Association held a most enjoyable meeting, twenty-five being present for this occasion.

Eleven new members were initiated at this meeting, adding quite a boost in membership for this going organization.

One of the enjoyed features of the evening was the enjoyment of refreshments consisting of sandwiches, cake, coffee, etc.

B. T. Jones, president of the association, made an interesting address in which he complimented the membership for sticking together and urged the securing of every clerk in Big Spring as a member of the organization.

B. Reagan Elected on Executive Board. B. Reagan of this city, is in receipt of the following telegram from Porter Whaley, general manager of the West Texas Chamber of Commerce, announcing his election as a member of the executive board of the West Texas Chamber of Commerce:

"It is with much pleasure that I carry out my instruction to notify you by wire of your election to the Executive board of the West Texas Chamber of Commerce at the hands of the great gathering of representative business men at the third annual convention at Ranger. This is said to have been the largest attended Chamber of Commerce convention ever held in the United States. A meeting of the board will be held shortly."

Wm. Coughlin and B. F. Kelsey of Denton were business visitors here Thursday.

14457 Bales Cotton Glined. According to the government spinning report, 14,457 bales of cotton were ginned in Howard County up to January 16th. Up to the same date last year only 6,583 bales of cotton had been ginned in this county.

Pastor of Baptist Church Arrives.

Rev. S. W. Kendrick, D. D., arrived in Big Spring last Friday to begin upon his duties as pastor of the First Baptist church of this city, having resigned as pastor of the First Baptist church of Hot Springs, Ark., where he completed a service of four years.

Fortunate indeed is the First Baptist church of this city in being able to secure a man of Dr. Kendrick's recognized standing and ability; and under his leadership the future extension of church influence and activity will be greatly increased. Fortunate also is our city, for Dr. Kendrick is a live-wire and will take a leading part in all civic and commercial movements looking to the advancement of the welfare of this community. We are indeed pleased to welcome him and his estimable family as citizens of Big Spring. It will be about March 1st before Mrs. Kendrick and son arrive to make their home here.

As a further proof of the standing of Dr. Kendrick in his former home, we print a letter from Charles H. Brough, Governor of the State of Arkansas.

"Doctor S. W. Kendrick, who for the past four years has been pastor of the First Baptist church of Hot Springs, Ark., is leaving this church voluntarily to locate in the west.

"I can say sincerely that Doctor Kendrick is one of the ablest ministers and best organizers we have in our denomination in Arkansas. He has greatly built up the Baptist cause at Hot Springs, and I regard him as one of the outstanding men of our denomination. He has a lovely family and he, himself, is a man of irrefragable character and fine address."

"Charles H. Brough, Governor.

We know our citizenship is going to like Dr. Kendrick, for his is a personality that wins immediate respect and esteem, and our wish is that Dr. Kendrick and family will never have cause for regret because of their leaving a greater field to cast their lot with us.

Each officer was urged to do her work faithfully in order that we may attain the "Star" in a shining class, and feel assured that this class will be so thoroughly organized that we will have no difficulty in maintaining every essential feature required in the Standard of Excellence.

When we organized in August there were scarcely enough members to fill the offices, so we feel that we have had a phenomenal growth as we now have a membership of forty with many more promised. Will you, who should, be with us, come and join Sunday? With Mrs. Ford, as president and Mrs. Reagan as teacher, we have an excellent leadership and we welcome you most heartily. Reporter.

G. F. Wolcott Dies in Midland. Geo. F. Wolcott, one of the prominent and well beloved citizens of West Texas was claimed by death at his home in Midland, Tuesday, Feb. 8th. He had been ill for some time. He had made his home in Midland for many years and owned large ranching interests in Midland and Martin County.

He is survived by a wife, four sons and two daughters. Deceased was the uncle of our townsman, J. F. Wolcott. Funeral services were held at Midland Wednesday.

El Rodeo Queen Elected. The contest to select the El Rodeo Queen at the High School was ended last Friday afternoon, Miss Lillie Mae Hayden, Senior candidate, being elected queen, Miss Willie Belle Williamson was in the race to the finish and the election proved one of the most keenly contested elections yet held for this purpose.

As a result of the keen interest and rivalry, something like six hundred dollars was secured to issue the High School annual, El Rodeo.

Wage Agreements Abrogation Denied. The federal railroad labor board, Thursday, denied the request of the American Railway Executives for immediate abrogation of the national wage agreements with the brotherhoods and establishment of a new basic rate for unskilled labor predicted on local conditions.

The board suggests that neither the roads nor the unions interrupt the pending hearing on standard rules and working conditions with further unwarranted demands.

Pedro Pena and Miss Chanete Chacon were married in this city February 5th.

DISTRICT COURT IN SESSION

The Petit Jurors Summoned for Second Week Excused. Cases Tried.

District Court convened in this city Monday with District Judge W. P. Leslie and District Attorney E. I. Hill in charge.

The grand jury was impanelled Monday, A. G. Hall was made foreman and they have been busy on investigations all week.

District Judge Leslie announced that those summoned to serve as petit jurors for the second week of court need not report as the jurors for second week have been excused from service.

The criminal docket has been set for the third week, beginning February 21. The following civil cases have been heard this week:

W. T. Rawleigh Co vs. S. A. Hartman et al.; judgement for plaintiff.

M. H. Morrison, administrator vs. C. J. Brown et al.; judgement for plaintiff.

P. L. Anderson vs. John Wilson, recovery of land; judgement for plaintiff.

G. C. Yell and wife vs. Sam H. Smith, cancellation of lease, judgement for plaintiff.

The case of G. W. McClain vs. O. O. Dryer et al, cancellation of lease is on trial today.

Among the visiting attorneys in attendance on court are: Ellis Douthitt of Sweetwater; Ernest Herring of Aspermont, and W. H. Garrett of Colorado.

Irene Bridges vs. Buck Bridges, divorce granted.

Mrs. Mary Emma Smith vs. T. J. Smith, divorce, granted.

"Homemakers" Meeting. The executive committee of the Homemakers Class of First Baptist church was entertained delightfully at an afternoon tea in the home of Mrs. B. Reagan, our teacher, Tuesday, Feb. 8. The meeting was presided over by our president, Mrs. Steve Ford; and a general discussion of the various duties of officers followed.

Each officer was urged to do her work faithfully in order that we may attain the "Star" in a shining class, and feel assured that this class will be so thoroughly organized that we will have no difficulty in maintaining every essential feature required in the Standard of Excellence.

When we organized in August there were scarcely enough members to fill the offices, so we feel that we have had a phenomenal growth as we now have a membership of forty with many more promised. Will you, who should, be with us, come and join Sunday? With Mrs. Ford, as president and Mrs. Reagan as teacher, we have an excellent leadership and we welcome you most heartily. Reporter.

G. F. Wolcott Dies in Midland. Geo. F. Wolcott, one of the prominent and well beloved citizens of West Texas was claimed by death at his home in Midland, Tuesday, Feb. 8th. He had been ill for some time. He had made his home in Midland for many years and owned large ranching interests in Midland and Martin County.

He is survived by a wife, four sons and two daughters. Deceased was the uncle of our townsman, J. F. Wolcott. Funeral services were held at Midland Wednesday.

El Rodeo Queen Elected. The contest to select the El Rodeo Queen at the High School was ended last Friday afternoon, Miss Lillie Mae Hayden, Senior candidate, being elected queen, Miss Willie Belle Williamson was in the race to the finish and the election proved one of the most keenly contested elections yet held for this purpose.

As a result of the keen interest and rivalry, something like six hundred dollars was secured to issue the High School annual, El Rodeo.

Wage Agreements Abrogation Denied. The federal railroad labor board, Thursday, denied the request of the American Railway Executives for immediate abrogation of the national wage agreements with the brotherhoods and establishment of a new basic rate for unskilled labor predicted on local conditions.

The board suggests that neither the roads nor the unions interrupt the pending hearing on standard rules and working conditions with further unwarranted demands.

Pedro Pena and Miss Chanete Chacon were married in this city February 5th.

Herman Griffith Dead

As the result of the effect of German poison gas sustained in two separate battles during the world war, Herman A. Griffith, son of I. A. Griffith, died at the family home at 421 Osage street at 12:30 a. m. Tuesday, after almost three years of suffering, victim of wounds received in the service of his country.

The young soldier has been almost constantly ill since his return from overseas in June 1919. He spent a short while at El Paso in search of health, but returned to the family home here some months ago. He had been critically ill for several weeks preceding his death. As a member of Company B, 117 Supply Train, Forty-second division, Herman Griffith was the victim of German poison gas on two separate occasions—once in the Luneville sector and again in the great battle in the Argonne forest. He served two years overseas with the American Expeditionary forces as a member of the famous "Rainbow" or 42d division.

Herman Griffith was beloved by all who knew him.

Besides his father, he leaves one brother, Harry Griffith, and three sisters, Mrs. C. E. Day, and Misses Mabel and Louise Griffith.

The funeral services will be conducted at the residence at 4:30 o'clock this (Tuesday) afternoon, with burial in the city cemetery. Dr. Millard A. Jenkens, pastor of the First Baptist church, will conduct the services.

Mayor Dallas Scarborough issued a request Tuesday that all business houses in the city, out of respect for this young man who died in defense of his country, close at four o'clock during the funeral. Abilene Reporter.

Report of Prayer Circles. Wednesday, February 9, 1921. Circle 2. Met with Mrs. Flewelling, Mrs. Dr. True was the leader, and 6 were present. Will meet next Wednesday with Mrs. Elliott and Mrs. Musgrove will be the leader.

Circle 4A. Met with Mrs. Hughes, Mrs. Choate was the leader, and 11 were present. Will meet next Wednesday with Mrs. Miller and Mrs. Shive will be the leader.

Circle 4B. Met with Mrs. J. N. Dale, Mrs. Settles was the leader, 12 were present. Will meet next Wednesday with Mrs. Lester, Mrs. Williams will be the leader.

Circle 4C. Met with Mrs. Burkham, Mrs. Gay was the leader, and 8 were present. Will meet next Wednesday with Mrs. Lester, Mrs. Williams will be the leader.

Circle 5A. Met with Mrs. Beckett, Mrs. Holmes was the leader, and 3 were present. Will meet next Wednesday with Mrs. Litter and Mrs. Noble Read will be the leader.

Circle 5B. Met with Mrs. C. E. Williams, Mrs. Phillips was the leader, and 21 were present. Will meet next Wednesday with Mrs. Parks and Mrs. Floeman will be the leader.

Circle 6. Met with Mrs. Costlow, Mrs. Clay Read was the leader, and 11 were present. Will meet next Wednesday with Mrs. Dawes, and Mrs. Davis will be the leader.

Circle 8. Met with Mrs. Mann, Rev. J. W. Harrison was the leader, and 19 were present. Will meet next week with Mrs. Maxwell, and Mrs. Cambridge will be the leader.

Parks-Station. At Coahoma, Texas, on February 5th J. A. Coffman, Justice of the peace performed the ceremony which united in marriage Grover Parks and Miss Odessa Station.

The contracting parties are popular young people of the Coahoma community and we join their many friends in extending congratulations and best wishes.

Big Spring Wins Basket Ball Games. There were two dandy games of basket ball played here Thursday afternoon.

The Girl's team of the Big Spring High School defeated the Girl's team from Lorraine School and the B. S. H. S. Boy's team defeated the Lorraine boys.

A large crowd thoroughly enjoyed these interesting contests.

Bridge Club Meeting. The members of the Bridge Club were the guests of Mrs. W. W. Rix Tuesday afternoon and the occasion was one of complete pleasure.

In the games of the afternoon Mrs. Jno. Clarke made high score and Mrs. W. W. Inkman made second high score. Delicious refreshments were enjoyed at the close of play.

Mrs. A. T. Lloyd and daughter, Miss Otero returned last Saturday from Houston where Miss Otero had been to undergo medical treatment.

OIL DEVELOPMENT

With Work Being Steadily Carried Forward and Additional Work Started, Outlook is Good

General Oil Company Operations. The General Oil Company continues to increase their activity in this field and will soon have work going forward on five tests.

Work was started this week on Reed No. 1, in the east part of the county. It is planned to set casing to 3250 feet in order to shut off water, so drilling can be resumed.

All plans are completed for resuming operations on Sand Hill No. 1, five miles northeast of Big Spring. This well was drilled to a depth of about 1650 feet with rotary drill but will be completed with standard rig.

At McDowell No. 1 the crew were successful in fishing out the six inch casing and are now after the fishing spear that was lost. This will either be recovered or gotten out of the way in the next day or so. It is stated that considerable oil shows to be in this well. As soon as everything is arranged this well will be given a shot of nitro-glycerine.

A job of reaming is on at the Neel well. It being necessary to set 2800 feet of six and five-eighths casing in order to shut off water encountered at 2700 feet.

Roberts well No. 1 is now past 2500 feet. Drilling is temporarily suspended, while a fishing job is being completed.

At Enders-Cushing Test. Due to fuel shortage work on the Enders-Cushing test well on the Cushing ranch in Glasscock county has been delayed some this week, but a shipment of fuel was received Thursday and drilling was resumed today.

Another oil showing was encountered in this well last Sunday at 945 feet similar to the showing found at 680 feet.

Ten inch casing has been set in rock at about 1000 feet, successfully shutting off all water. After passing thru a limestone the drill is now in a red-dish sand formation and fast progress should be made.

At the Home Co. Test. Development of this test well in the Home Co. test well in the eastern part of Dawson county. The oil showing found at 1800 feet will be tested out as it is believed they can develop a small commercial well at this depth.

Uranian Oil Company. J. K. Smith returned Thursday from Ashwood to look after the property of the Uranian Oil Company in Borden County. One of the big oil companies is now considering the proposition of taking over and completing the test well southwest of Gall and if the deal does not go thru Mr. Smith will get things in shape for drilling to be resumed about March 1st.

Dawson County Oil & Gas Co. Eight inch casing is now being set in the test well of the Dawson County Oil & Gas Co. in the eastern part of Dawson county. The oil showing found at 1800 feet will be tested out as it is believed they can develop a small commercial well at this depth.

Corrected oil report, gotten up by Mrs. Jessye Gilham for the Chamber of Commerce.

GLASSCOCK COUNTY: McDowell No. 1: This well swabbed from seventy-five to one hundred twenty-five barrels every few hours, without reducing or lowering the oil in the hole. This was six or eight months since. Under this swabbing the casing, which was too light, collapsed. The hole has remained undisturbed since that time, until a few days ago. The hole was opened up to pull the casing, clean out and shoot. The well was standing 2000 feet in fluid, and a greater part of it being good, live oil, proves this well is going to be up to expectations of the most conservative oil men. When trying to pull the eight-inch casing it pulled in two and the spear was lost when fishing, however, the spear will be in today, and Bill Gallagher who is cleaning this well out, says it will soon be "fool proof". When this well is cleared it will be given a 200 quart shot. And it is the belief this will prove to be anywhere from a 500 to 1000 barrel well. This well furnished fuel oil for five wells until casing collapsed. This well is conceded by the oil fraternity to have been the best in this section.

McDowell No. 2: Nothing further will be done with this well, which was

shut down at about 2500 feet, until McDowell No. 1 is in shape to furnish fuel oil.

McDowell No. 3: This well was drilled to a depth of about 635 feet, and was shut down on account of fuel oil, and decided to remain so until McDowell No. 1 was completed.

Upon the completion of McDowell No. 1 so that fuel oil may be easily procured, another well will be drilled 800 feet east of McDowell No. 1.

Neel Well: Straight reaming at 2510 feet. Around 2700 feet this well bailed about one gallon of oil every fourth bailer. There is about 400 feet of open hole and they are straight reaming to set 6-5-8 casing at 2800 feet.

Brunson Well: Has been shut down since early fall at about 2350. However, Brunson Brothers say this well will be completed this year, if they have to do it themselves.

Oxhear Well: The Cosbrook Petroleum Company have a standard rig on the Oxhear ranch to drill, but have not rigged up. It is expected this Company will drill this well when the recceivser is lifted, as the Company is not insolvent.

HOWARD COUNTY: Roberts Well: This well is also the property of the General Oil Company. While shut down for some time for new cable, drilling was resumed ten days ago, and will be completed as rapidly as possible. Have a slight fishing job at present. This well had some oil and gas between 2300 and 2400 feet.

Sandhill Well: This well was drilled to about 1000 feet with rotary rig, and the rig moved to the Schaffee lease, also belonging to the General Oil Company, about three miles east of McDowell well. While this well has not been started yet, it is expected to in the near future. Sandhill equipment is enroute from Cisco and work will be started within the next two weeks it is believed. A standard derrick was originally built, so little time will be consumed in the starting of this well.

Big Spring Production Company: On Quinn ranch, has been taken over by the Federal Development Service Co., Inc., at 3700 feet, and they expect to complete at least to the 4000-foot depth. However, they are confident they will get the pay within the next 100 feet. They refused to let the former company drill any further.

Howard work will be resumed today and carried to 4000 feet. This well is looking as promising, and commercial oil is not found at a lesser depth.

The General Oil Company has five cars of six and five-eighths inch casing in the yards here now, and practically all the material needed to keep the wells drilling, without the shut-downs they have had heretofore. Work will be pushed as fast and conservatively as possible.

Cushing Well: Had nice showings of oil at 615 and 885 feet. Drilling with two crews at 1040, in white sand. This well is south and little east of Big Spring in Glasscock County.

Douthitt Well: This well was drilled to a depth of about 1600 feet by the McCarley Oil Association but was closed down last summer for finances. This well had several good showings of oil at less than 800 feet. Other companies are negotiating for this property to complete this well.

Altogether the operations have never looked better than they have the past week. And now that the financial crisis is practically over, it is confidently expected Big Spring will soon have her dreams realized in being the next big oil field in Texas. There has never been an abandoned or dry well in the whole country. The nearest well that has been shot is the Colorado-Texas at Iatan. This well is being cemented again to set casing ten feet from the bottom, and be brought in. This well is situated on the Eastern line of Howard and Mitchell Counties. When bailed responded splendidly before the last shot was given, which let water in again. This is expected to be overcome and made a nice well.

MICHELLE COUNTY: Underwriters No. 1: Is producing on pump about twenty barrels. This well has been given a heavy shot.

Underwriters No. 2: Responded to a lighter shot than was given No. 1, and is estimated to be about a fifteen barrel well.

Mrs. T. Milner returned the latter part of last week from Northern markets, where she had been to purchase a stock of spring and summer millinery for the Elite Hat Shop.

A marriage license was issued here last Saturday for Joe Hancock of O'Donnell, Texas, and Miss Lenora Butler of Cisco. The young people were married at Cisco, Sunday, February 8.

Presbyterian Church Notes

This week is Church Literature week. Next week will be self-denial week for Foreign Missions, and we urge all of our people to be present Sunday morning for the initial service for the Foreign Mission week.

Last Sunday morning Supt. Finlisen made a splendid address on the subject of "Evangelism", laying special emphasis on the home and school life, and the right training of children. Our offering for the China Relief fund was splendid, which shows that our people, not only claim to be religious, but practice it by answering the call of the Master for His needy ones.

Last Sunday our S. S. superintendent appointed Miss Jennie B. Leeper as S. S. librarian, and we hope to build up our library in a very substantial way. Perhaps a number of our folks have good books that they might donate for the use of our S. S. If so, we will be glad to have you bring them from time to time, and turn them over to Miss Leeper, or to Mrs. Littler.

Reduce and Diversify or Face Disaster

Dallas, Texas, Feb. 5.—Texas farmers, bankers and merchants are facing a crisis in the business of the State, and it seems certain that unless a drastic reduction of at least 50 per cent in the cotton crop is made, the bitter experience of the past harvest season will not only be repeated but will be intensified next fall, according to a bulletin of the Texas Industrial Congress.

Reports to the Congress from correspondents in various parts of the State indicate that in many cases farmers are not contemplating a reduction in the cotton acreage of even one-third as has been generally recommended.

The experience of the past has shown that were a reduction of one-third made, the actual reduction in this year's acreage is not too great.

The 1920 crop amounted to 13,000,000 bales. With no market abroad and a lessened consumption at home, there is every probability of a carry-over of from seven to eight million bales. A normal acreage this year, therefore, and a favorable season, will swamp the South.

There is no market for cotton because Europe is already well supplied or has not sufficient credit to purchase the crop still on hand.

Farmers who produced a crop last year on credit are in still worse condition today, because their indebtedness has not been liquidated, and hence the banker and merchant under these circumstances can not be expected to extend the usual credit for making this year's crop, even if they are inclined to do so. From expressions received from a number of bankers and merchants, it is believed that they will regard with favor the use by the farmer of such credit resources as he may have in growing a variety of crops and in the production of hogs and cattle for the consumption of the forage crops which he can raise.

We are now confronted with the choice of reducing the cotton acreage, severely, and raising a diversity of crops, or of facing business disaster next fall.

Motor With Comfort—In a Ford Sedan

WHEN you ride in a Ford Sedan or Coupe, you ride in comfort—weather holds no fear for you. A minute, and your car is transformed. Windows down, windshield open—the Ford Coupe or Sedan affords the coolness and breeziness of the open car. Windows up, windshield closed—and you are protected from rain, wind, sleet or snow.

And bear this in mind. The Ford Sedan costs you no more than the ordinary open car. In fact, the Ford Sedan costs you less to buy, war tax included, than any touring car manufactured in the United States, except, of course, the Ford. Compare the prices yourself.

Come in—let us show you the Ford Sedan or Coupe. Better get your order in now while prompt delivery is possible. And never forget the matchless "After Ford-Service" given Ford owners by Ford dealers means the continuous use of your car.

Fordson
 TRADE MARK

"The Fordson at Work"

A mighty valuable booklet just issued by the Ford Motor Company. It is yours for the asking. Drop in and get one or drop us a card or letter and we will mail you a copy free.

This book is not what the Ford Motor Company has to say about the Fordson Tractor, but what the tens of thousands of users have to say. Get the book! It is yours for the asking. Keep in mind the fact that behind every Fordson Tractor are all the resources of the great Ford Motor Company, likewise that reliable "Ford After-Service" which assures the keeping of the Tractor in working order every day in the year. Remember also that the Fordson Tractor, like the Ford car is simplicity itself in design and construction; easy to understand and easy to operate. Come in and let us tell you more about it. It is more important to the farmer today than anything else.

The Age of Machine Power on the Farm is no longer a matter of speculation; it is here—an established fact. It is the latest advanced step civilization has taken. It comes to the farmer with full promise to lift the great burden of drudgery and wearisome, wearing-out toil from the muscles of man and carrying them with much more profit by power of machinery, with the result that larger production, more comfort and greater wealth will come to the farm homes wherever the Fordson is employed. COME IN AND TALK IT OVER.

We the 40,000 Club Women of Texas.

Dear Co-Workers:

Mrs. Winter's message to us is my message to you at this time.

Florence C. Floore.

"A group of organized women in every community who can be depended upon to promote all movements looking toward the betterment of life."

My Dear Club Women: May I say a word to you about this Federation in which you belong?

The quarter century during which the club movement has been gaining headway now looks as though it has been merely a time of preparation for a service to our country based on the study of her human needs and now crowned with the power of citizenship. If we have the vision to stand together—nationally—with a clear understanding of what are the things of major importance and an equally clear determination to make of ourselves a compact body of American womanhood whose purpose is nothing less than the getting of true Americanism into our social and industrial and political life, and the stabilizing of our country as she passes through these years of after-war upheaval. It is the reason for our existence.

The Federation has the machinery for doing these things. There are five active Departments of work—American Citizenship, Applied Education, Public Welfare, Fine Arts, and Legislation. Each of these has its subdivisions.

But just as, in a human make-up, no faculty or aspiration stands alone, but all are intertwined to make a fully rounded man, so the Federation recognizes that it is by harmonious interaction of all these movements that we get progress. You may emphasize your own particular subject, but you realize constantly how it relates itself to all the rest. This encourages wide thinking. It discourages the one-sided "crank".

Our club came into being because we got something out of a group that no one can get alone—something that we all crave—companionship, friendship, the wisdom that comes from many minds, the inspiration that springs from contact of mind with mind, the

efficiency that results from combined effort.

The Federation is a long step forward in the same direction, club stretching out its hand to sister clubs with wider companionship, added friends, greater wisdom, nobler inspiration, a hundred times multiplied efficiency.

There are big tasks lying before women—tasks that need such wisdom as we get from combined study, tasks that need the altruism we get from working together, tasks that need the energy we get from combination of effort. We want homes where children can be well-born and joyous and grow up to noble citizenship, where the family income is made to serve the highest family interests, where there are vigorous American bodies and minds. We want Communities that are extensions of the home, where good schools, high standards of public health, recreation, beauty, shall tempt the finest type of people to come and live with us and bring up their children.

We can not get these things unless we all work together. We must put them into daily intercourse and into politics. There is no community so small that it cannot realize these ambitions. And when you have got them in your town and home you have helped to make your nation one hundred per cent Americans. The Federation stands and works for these. It urges you to study and to work. The two should go hand in hand. "Nothing is more dangerous than ignorance at work." Do not be isolated. Join the other women who are in the midst of things. YOU WILL GET HELP. YOU WILL GIVE STRENGTH.

Mrs. Thomas G. Winter, President, General Federation of Women's Clubs.

Harmony Toilet Water

One Bottle.....Two Bottles \$1.00.....\$1.01, plus tax Ward's Drug Store

This is from the Lewisville Enterprise: "Although shoes are still selling at \$8, \$10 and \$12 per pair, hides in West Texas are not bringing sufficient money to pay freight and express charges when shipped to San Angelo. The situation is converting more stockmen into advocates of a high tariff on all their products. A Water Valley man is said to hold the record in the low price he received. After shipping a hide a distance of twenty-two miles he received a check from the dealer for 1 cent, representing the margin of the sale price over the express charge. Five goat skins from L. J. Colls of Buena Vista, Pecos county, brought \$1.50. The express charge was \$1.10. A forty-two pound hide from Oswego, also in Pecos county, brought \$1.68, leaving 58 cents profits after the express was paid."

YOU don't use as much of Calumet as you do of most other Baking Powders. It has more than ordinary leavening strength. You save about half.

You don't pay a big price for Calumet. It's sold at a moderate price—that represents another saving.

You don't feel uncertain as to results. Bakings never fail—because Calumet never fails below the proven standard of "Best by Test."

It possesses the highest quality ever put into a Baking Powder. Contains only such ingredients as have been officially endorsed by United States Food Authorities.

For weeks, for months, it keeps as fresh and full of strength as the day it left the Calumet Factories, the World's Largest, most Sanitary and Modern Baking Powder plants.

Found cans of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Gold Cake Recipe Yolks of 8 eggs, 1 1/2 cups of granulated sugar, 1/2 cup of water, 1/2 cup of butter, 2 1/2 cups pastry flour, 3 level teaspoons Calumet Baking Powder, 1 tablespoon of vanilla. This mix in the regular way.

State Highway Engineers Visit Mitchell County

D. E. Manigault of El Paso, engineer representing the State Highway Department, was in Colorado Tuesday and Wednesday of this week in the interest of the Bankhead Highway through Mitchell county. Mr. Manigault made an inspection of the route of the highway through this county a few weeks ago and found that approximately seven miles of the route, in the western portion of the county, was sorely in need of repairs.

"The State Highway Department estimates that that section of your highway in the western end of the county generally known as 'Iatan Flats,' can be built into an ideal hard surfaced road at a cost of \$10,000 per mile, or \$70,000 for the entire gap across the flat. Of this amount the State is ready to bear one-half of the expense, which means that Mitchell County can now build an ideal permanent highway across those mud hole flats for only \$35,000."

The engineer stated that there were eleven miles of the highway at other points badly in need of repairs, and that the State would also go the county fifty-fifty toward making those repairs.

"You are situated between two impassable mud holes during rainy seasons," stated Mr. Manigault. "The Roscoe Flat in Nolan county and the Iatan Flat in your own county causes tourist travel to tie up at either Sweetwater or Big Spring when the roads are muddy and the business interests of Colorado are therefore losing a material patronage because of that condition. If these gaps were graded and macadamized, under specifications of the Department, you would get your share of this tourist patronage every day in the year.

"Of course, the only avenue open to you for financing the work that the State desires to assist you in, lies in the voting of a bond issue, and I find

that there are some who believe that now is not the proper time for going to the people with the request that they adopt the proposed bonds. They attribute their reason for so believing to the material losses farmers and business men have sustained through depreciation in market values of farm commodities and merchandise during the fall months."

Manigault was in Nolan county recently and states that he found public road conditions there even worse than in Mitchell county. "They do not have as good system of roads as you do," he stated, "but I believe that those people will inaugurate a program later in the year to improve their public thoroughfares. I found the commercial interests of Sweetwater interested in this matter and have the promise from them that something will be done to at least remedy the sore condition at Roscoe Flat."

The engineer left Wednesday for Big Spring where is spending several days superintending contemplated road improvements in Howard county. He stated that most of the West Texas counties through which the Bankhead Highway traverses from Colorado to El Paso were voting bonds and awarding contracts for placing the highway in good condition. In some of these counties, he stated, there was not an inhabitant living along the route for many miles, yet the people had bonded themselves and were going to the work of building the highway with a spirit that was commendable of their progressiveness. One of these is Culberson county, which has almost one hundred miles of the highway.—Colorado Record.

EUCALYPTUS: Heals the throat. Its in Santox cough syrup. Cunningham & Phillips.

"Bonnie B" Hair Note 10c each. Ward's

An Ideal Town

One of the towniest towns in the whole country, according to Tom Morgan, who has told about it in last week's issue of "The Country Gentleman", is Garnett, Kansas. Utopia hunters would be satisfied to sit right down in Garnett and live out their days provided they had never seen El Paso. But what Garnett lacks of El Paso's climate it makes up in social and political advantages.

Here is a town that seems to have a civic consciousness, a mass mind as individual as the mind of a person. First, it realizes that it depends on the surrounding country for its prosperity, yes, for its existence. It also realizes that everybody in the town must do something for the town, that there must not be too much duplication in that doing, and that everything that is done must be coordinated.

To that end, every interest is organized. The women are organized. Their organization has subsidiary organizations or subclubs for dividing up their labors. The men are organized, the boys are organized, and the girls are organized. Then the farmers have their organization.

The result is a fine, clean city, well lighted, well paved, plenty of water, fire protection, and over it all a beauty that gives it the air of a city much larger than Garnett is. The town's population is only 3000, but it has 40 blocks of paved streets. It has parking in the center of its wide streets as well as at the sides, and its lighting system is more artistic and complete than any along El Paso's streets. Most of its business buildings are of brick or stone. It has a forest of trees.

Garnett is the county seat of Anderson county, Kansas. That county has had eventful history. Border raids, droughts, grasshoppers, panics, and populism have preyed on it through the years. But it got and applied now

ideas, learned how to save the soil. The boys got an education and actually come back home to use it. Garnett became the clearing house and forum of the county's ideas, from breaking cows of kicking, to criticisms of Greek architecture.

Today Garnett is a political entity, functions like a well oiled machine, and the people are prosperous and happy. America needs more Garnetts. El Paso Herald.

Notice to Ex-Service Men

William Frank Martin Post 136, American Legion, invite all ex-service men to be present at their regular meeting Tuesday, February 15th, 7:30 P. M. at the Y. M. C. A.

The State Vice-Commander will be here. "Make" will be served. J. F. Hair, Adjutant.

The protective tariff has never and can never be the friend of the farmer. On the contrary, I think it is the inventor and most insidious enemy the farmer has. I am unalterably opposed to this proposed emergency protective tariff bill advocated by the Republican party, alleged to be offered in aid of the farmer. I live on a farm and all I have invested in farming and stock-raising interests and I am sure that the present deplorable condition of agriculture could not be helped and on the other hand would be rendered worse by this proposed tariff bill. I ought, in appropriateness, be entitled a bill to aid the farmer by lowering the price of what he has to sell and raising the price of what he has to buy.—National Committeeman Thomas H. Bova.

BIG SPRING LUBBOCK

BELOVED BY ALL PARISIANS

Solemn and Sacred in Memory is the Square Known as the Place de la Concorde.

"The spot where France weeps," the Place de la Concorde, is one of Paris' greatest showplaces. Thousands died there in the blood of madness of the French Revolution; the allied enemies of Napoleon held a solemn Te Deum there in 1814; in 1871 the hated Prussian encamped in the beautiful square; later the same year it was the scene of fierce and bloody conflicts between the Versailles troops and the Communards, who had erected barricades at one of its entrances. Since 1871 until recently the statue dedicated to the city of Strasbourg had been continuously draped in mourning, and known as the "Lion Sister," keeping Alance-Lorraine alive in the minds of the French.

It is a place of lovely fountains and statues. Originally it was intended as a center of commemoration, where statues and monuments might be erected to celebrate the memory of great Frenchmen and their deeds. There are in it now eight colossal statues, representing eight principal cities of France—Lille, Rouen, Nantes, Bordeaux, Brest, Marseilles, Lyons and Strasbourg. There is now talk of erecting in it some immortal conception of the present conflict and its victorious outcome.

Efficiency Complication.

"You mustn't ask the telephone operator the time of day when your clock stops."
"Why not?" inquired the new subscriber.
"Because it takes up too much valuable time."
"But it takes up more of everybody's time when you get the wrong number once or twice before you can call up a friend or a jewelry store to make the same inquiry."

Successful Dollar Is One That Works

The dollar that goes to work is the successful dollar. The idle dollar is a failure.

The successful dollar brings back another dollar with it. It makes itself a dollar and something—two dollars and something—a whole family of dollars.

The careless dollar goes off somewhere and is never seen again.

A Texas man the other day lost a life-time's savings—\$756.00. His dollars had gone off in the pockets of two fake stock promoters. He had not taught his dollars to keep good company.

Hundreds of years ago a man to whom a handful of dollars had been trusted buried them in a napkin. He got no increase—he did not even keep what he had. One might as well have nothing as keep an idle dollar.

The dollar that succeeds is energetic—and careful. War Savings Stamps do more than save your dollars. They put them to work at 4% interest. And they never fail. Your Government guarantees every one of them.

Have you bought your Thrift Stamp today?

ONCE A CUSTOMER, ALWAYS A FRIEND..CUNNINGHAM & PHILIPS

The Cost of War

From speech of Hon. Marvin Jones, in the House of Representative, February 2, 1921.

It is very interesting to study the cost of the various wars in which the United States has been engaged. The estimated costs of the wars of the United States are as follows:

War of 1812.....\$ 120,000,000
War with Mexico, 1846-48, 174,000,000
Civil war, 1861..... 3,500,000,000
War with Spain, 1898... 1,900,000,000
World War, 1917-18.... 24,010,000,000
The \$24,000,000,000 cost of the World War does not include loans to the Allies and other activities.

The total cost of the World War to all nations has been conservatively estimated at about \$200,000,000,000. If property and other indirect losses are included the amount reaches the enormous total of \$350,000,000,000.

Dr. Edgar B. Rosa, Chief Physicist of the Bureau of Standards, declares that for the fiscal year ending June 30, 1920, 92.8 per cent of our total expenditures were for wars and the result of wars.

For the four years, 1914 to 1918, the armament and military expenditures of this country has cost each man, woman and child \$-20.32, which does not include the \$24,000,000,000 spent for the World War. I believe this country should reduce its military appropriations to the lowest possible amount consistent with national protection. If any nation on the face of the earth is in a position from an economic point of view, from a military point of view, or from the standpoint of prestige to set an example it is the United States of America.

In 1914, prior to the World War the peace time strength of Germany's standing army was 870,000 men, and she had a reserve force of five million trained men. The standing army of France was 783,000 men; Russia, 1,500,000; Austria, 435,000; Italy, 396,000; Great Britain, 262,000; Turkey, 230,000.

I have always observed that a "pistol toting" man will sooner or later get into a fight. Evidently that applies to nations. The South American Republics have practically no peace time military strength, and they have not had any wars to amount to anything for many years. In 1914, the standing armies of 15,000; Chile, 10,000; Peru, 6,000; Venezuela, 9,000; Bolivia, 3,000; Columbia, 5,000; while in Europe even little Bulgaria had a peace time army of 65,700.

During the last hundred years Europe has had about 40 wars, and during the same period no wars of any consequence have occurred in South America. Europe has had these vast armies and the South American countries have lived in peace. They have had small armies. Moreover, at the time mentioned the European nations, except Great Britain, had universal military training and service; while none of the South American countries, with the exception of Argentina had military training and even her training did not include universal service. If we are to have military establishments with equipment bristling over the face of the whole earth, we are going to have war.

Is death the end of all this struggle, is destruction to be the paramount purpose of mankind? Are the engines of desolation to continue to call for the major activities of man? If so, there is no bow on life's dark cloud and no star of hope in the firmament of the future.

There is no royal road to peace thru a lane of bristling bayonets, along which great armies may march in regal splendor to the tunes of martial music.

MICKIE SAYS

OUR REPORTER SAYS NOT GITS HIS GOAT IS THAT THE FELLER WHO NEVER GIVES HIM ANY NEWS IS ALWAYS HOLLERIN' ABOUT THEY BEIN' NO NEWS IN THE PAPER!

Herald Want Ads Get Results.

Gambling Should Cease

The editor of Cotton and Cotton Oil News, published at Dallas, Texas, and Memphis, Tenn., "views with alarm" the attitude of the producers towards Boards of Trade, Grain and Cotton Exchanges. He says:

"We think a long step was made in yielding to public opinion and the dictates of the people when Congress modified the delivery contract of the New Orleans and New York Cotton Exchanges when further tenders of any kind of cotton below middling was forbidden."

And why does the editor of Cotton and Cotton Oil News think that it was such a long step to prohibit the cotton gamblers from offering for delivery unspinnable cotton? Until it was prohibited, thanks to public opinion, thousands of bales of low grade cotton were held at the ports year in and year out for delivery purposes only, but it was never delivered as no one wanted it. It was just one way for depressing the market, and although some of it was so old that it had whiskers, it was counted every month as so many bales of cotton in stock.

The editor of Cotton and Cotton Oil News will learn that public opinion will make the gamblers take several more long steps. The time is approaching when these Exchanges will either have to close their doors or confine themselves to strictly legitimate trading. At the present time it is safe to assert that not one-tenth of the transactions are legitimate.

Cotton and Grain Exchanges and Boards of trade are mediums through which a vast amount of legitimate business is transacted, and functioning as such, should receive the protection of the law and the endorsement of the producers. But—in connection with the legitimate business, and under the same rules, they have become gambling institutions of great magnitude. It is this feature that public opinion will wipe out even though it may have to clean the entire house in so doing.

Will the editor of Cotton and Cotton Oil News, who refers to the speculator as a "bogy man", intimating that there is no such animal, tell us what the mobs around the pits and rings are made of? The legitimate trader, with but few exceptions, and then only a hedging deal, is buying and selling spot stuff by sample and doing it quietly, while around the rings or the pits a howling mob of men is seen, buying and selling on margin, with no thought of delivery, or asking for delivery. None of them ever expect to see the real goods and most of them would not know what it was if placed on the table before them. What is a contract and what is supposed to be the legitimate use of this contract the editor refers to? It is the same kind of a contract that the legitimate trader uses. If the buyer demands delivery, the seller must deliver. If the seller insists on delivery, the buyer must accept. But again we ask: Is the contract in the hands of the speculator performing the function intended? It is not. It is no more than the ticket handed the gambler on a horse race by the book maker. You bet that the market goes up and I bet that it will go down, and the loser pays the difference. To deliver to the speculator that which he has purchased would insult him. It is the last thing he wants to do.

It is the gambling feature of the Cotton and Grain Exchanges and Boards of Trade that the producers object to. It is that feature which robs these organizations of the power to steady the markets and permits artificial influences to cause wide fluctuations. Any rule or contract which will permit the buying and selling within one month five times the total crop of any one commodity, is a bad rule, and makes that organization a fit subject for reform. Drive out the gamblers who pose in good society as brokers, and less will be heard in condemnation of Boards of Trade and Exchanges. Prohibit the buying and selling on a margin unless it be for hedging purposes in a legitimate business—make any kind of a rule that will protect the actual trader and at the same time prevent a man from betting on whether the price will go up or down for gambling purposes, and most producers will be satisfied.—Farm & Ranch.

Commerce owes and its own dignity not to farmer when he seeks to get

on an equal plane with the buyer." Stressing this last point in his conclusions, Mr. Ousley told of the efforts the same and stable farmers of the country are making to organize co-operatively through the American Farm Bureau Federation and warned against any efforts that might be put forth to thwart them in their undertaking. "If the farmers are cheated out of their aims, something may happen which I dare not mention. But keep in mind the political power which this vast army of producers possesses. If the producers are bounced out of their legitimate aspirations in this direction the class feeling exemplified by the Nonpartisan League of North Dakota will seize upon the entire Nation and the commercial friends of the farmers will go down in the crash with the farmers' commercial enemies. We must not have this class feeling. I believe this Government is worth preserving, but it is not indestructible and I do not believe it can survive without a happy and prosperous agriculture. And it is because I believe this that I appeal to this body to do its part to bring about such conditions in this region."

Oil News of Pecos Section.

The start of a new operation in Crane County, the signing of a contract for another operation in Reeves County and the discovery of additional sands in the Bell No. 1 are the outstanding features of the week's operations in the Pecos territory.

W. Quisenberry of the Tex-o-land Leasing Syndicate has moved a Star rig on a track of 24,000 acres held by his concern in Crane County and means to start drilling operations as soon as the outfit can be rigged up. He plans to start a 15 1/2 inch hole. The location is on Section 10, Block B-18. Another location has been made on Section 2, Block B-22. This makes the third operation to start in Crane County since the new year.

C. W. Ellsworth is here to start operations on his tract in Section 12, Block 55, township 5, Reeves county, and a contract has been signed and work will start on Monday. High grade lubricating oil similar to that for which the Toyah refinery guarantees a price of \$10 per barrel was found on this section when water wells were drilled a decade ago at about 200 feet, and a thorough test of this oil is to be made before going deeper. However, Mr. Ellsworth states that a standard rig capable of going to any depth desired will be erected soon.

Six feet of sand found just under the five foot sand that last spring started the rush to the Pecos field was found in the Bell No. 1 Wednesday just nine feet under the first sand. No effort was made to develop this as it closeness to the first sand, which was spotted by water made it impractical to handle it without considerable expense and time. The discovery leads Mr. Bell to believe that additional sands will be found below that will be more easily handled. The second sand was found at 696 feet.

Drilling on the Lubbock-Pecos well west of Pecos has been resumed and operations are down to 450 feet. This well is situated along the Texas and Pacific about half way between Pecos and Toyah. Work has also been resumed on the Tatum well at the intersection of Reeves, Culberson and Jeff Davis county. This well is down about 550 feet and running a new string of 8 1/4 inch casing.

Underreaming has been completed on the Bell-Reeves and the casing is set on the line rock just above the sand reported found at 1420 feet, and will be allowed to set for several days to assure a water shut off before drilling into the sand.

Protest Against Red Rat Notices.

A mass meeting of citizens was held at the Court house last Saturday afternoon to take action on unlawful acts of unknown parties. The meeting was called as a protest against the action of those who had posted notices last Friday night, warning negroes to leave this county, and signed by order of the Red Rats. Resolutions were passed denouncing the parties guilty of this unlawful act, and all present pledged themselves to see that the negroes were not molested. Petitions, containing the resolutions and a request that the grand jury make a thorough investigation in an effort to apprehend the guilty ones, were signed by many of our citizens.

At meeting of the board of directors of the Chamber of Commerce Saturday evening the action and resolutions of the mass meeting were unanimously approved.

As the posting of such notices is in violation of the State and Federal laws those responsible for same may find themselves in most serious trouble

Weird Wildcat Howl Now Silent

The weird howl of the "wildcat" has been stilled for several months in most of the counties of West Texas where the grand quest for oil was most pronounced. This was due to the fact that the money stringency came on just at a time when the "wildcats" themselves were being tamed.

A report last year showed that not less than 987 "wildcat" wells were being drilled in this region. Most of these had maximum depth of 2,500 feet. Clearly, this was not a careful test for oil, for in nearly all of the fields where any large quantity of oil has been found the depth has been around 3,000 feet. Throughout the West hundreds of derricks and rigs are standing idle waiting the minute when the coin of the realm will be sufficiently available to carrying thru contracts.

The big companies are the only ones which have announced new wells for the year. The Standard Oil company—under another name—is said to be preparing for exceedingly deep tests in Callahan and Eastland counties. It is said that another large company, convinced that a deeper stratum of oil as productive as that in the Tampico field underlies the 3,600-foot level from which Ranger wells have produced, will shortly start a 7,000-foot test. The oil production of West Texas is for the most part now controlled by the larger companies, according to the admission of the independent companies themselves. While the price of crude has shown a large decrease recently, it is remarked that there has been a corresponding decline in the price of casing, labor, timber, machinery and the like.

It is therefore not unlikely that 1921 will become the greatest of all years for the quest of oil in new sections.—Fort Worth Record.

BIG SPRING, TEXAS

The Corsicana Sun says: "Mr. Harding has requested President Wilson to call the Senate in extra session March 4. Mr. Harding's object is to get quick action on those appointments that must meet senatorial endorsement. This would indicate that he is not going to be slow in announcing the personnel of his cabinet. And it also leads to the conclusion that the list of those who will be honored with other important positions will be ready for announcement immediately on the taking of the oath of office. The office-seekers disposed of, the nation's business may then be taken up. And the "nation's business" has as big if not a bigger meaning than at any time when a new president came into office since the day of Lincoln's inauguration. And we can bring it closer to the present limiting the time to the late inauguration of Wilson. Lincoln

had the warring factions of a great nation to meet. President Wilson went into office with the world ablaze with war. Mr. Harding will go into office following that war which left a spirit of unrest the magnitude and depth of which has never before been experienced. The task before him, like that of Lincoln's and Wilson's will be a difficult one."

"Smoke Out The Frauds"

"Smoke Out The Frauds" is the slogan of the New York Evening World in an editorial reviewing the Fordney emergency tariff bill. There are south-owners who call themselves Democrats who are clamoring for a high tariff wall around America and all for the "protection of the American farmer and the American working man."

They have one wall without building another. European nations and individuals owe the United States government and individuals \$15,000,000,000. They are without credits in the former enemy countries and without cash to buy in the friendly nations.

For this reason there is no market for the surplus cotton of southern growers, for the meats of southern stock raisers, for the surplus wheat of western and northern wheat growers or for the corn of which there is a vast surplus grown on the prairie lands of the Middle West and Missouri and Kansas.

As there is no foreign demand for these owing to the financial conditions under European skies it is up to these southerners who call themselves high tariff Democrats to tell just how they are going about it to create a market for American surplus crops or products by placing an import tax on Egyptian cotton, Australian mutton, South American beef and Mexican crude oil.

All the old line Democrats were for a tariff for revenue only. They never did take kindly to the Republican doctrine of high protective tariffs. But back to the World and its "Smoke Out The Frauds". This editorial from our New York contemporary may interest Texas Democrats who are high tariff Republicans:

Fortunately for the country, the Republican and Democratic protectionists were unable to get more than a bare majority to favor a closure rule limiting debate on the Fordney fake tariff bill, the true character of which was exposed by the Evening World.

But it is not enough that the specific frauds in the Fordney fake should

be revealed. The light of publicity and discussion should be turned anew on the whole Republican tariff policy. It is full of deception.

Responsible Republican leaders actually hold before the people of the country the hope that a Republican tariff will prove a material source of revenue and will reduce the direct tax burden.

Representative Longworth recently sounded a warning against such optimism. He said:

"Revision of the tariff on strictly protective lines would not increase our revenue more than \$350,000,000 or \$400,000,000."

This was supposed to pass for a warning. It is more moderate than some of the claims advocated, but Mr. Longworth would have trouble to support a claim to any increase in revenue whatever.

What are the facts and what may reasonably be expected?

The fact is that the present Democratic tariff has proved to be an excellent revenue measure. Customs receipts for the year ending June 30, 1920, amounted to \$322,902,649.

The highest customs receipts ever recorded were \$333,683,445, in 1910 under the iniquitous Payne-Aldrich tariff, which caused a nation-wide revolt and the defeat of the Republican party and Mr. Taft.

According to Republican doctrine, a "protective" tariff, as the Republicans use the term, is not a revenue measure; it is an instrument of privilege for special interests.

No increase in revenue is to be expected from raising import tariffs. "Protection" would be more likely to decrease revenue and so increase direct taxation.—Fort Worth Record.

Obituary

At the home of his daughter, Mrs. J. H. Ross, at Carthage, Texas, January 15th, 1921 at 3 a. m., Mr. W. E. Walker passed away. Mr. Walker was born in Georgia, October 11th, 1836, served in the Civil war. He moved to Ennis, Texas in the year of '69 with his wife and 4 children. He buried his wife and 3 children at Ennis, moved to Stone Point and buried another wife and child; moved to Carthage and buried two more children. His youngest child, H. N. Walker, was scalded to death near Baird, Texas, February 25, 1919, and is buried at Big Spring. He had always borne his grief so patiently but the death of his son was such a shock it was too much for his strength and he collapsed, was confined to his bed most of the time, growing weaker from day to day, until the end came. He passed away peacefully as one going to sleep.

Oh, father we miss you, we look at the one chair which you have occupied for more than thirty years. We seem to hear your kind voice and feel your presence but your work was finished.

To his memory.
"No one hears that door that opens
Through which they pass beyond our call
Soft as loosened leaves of roses.
One by one our loved ones fall."

Mr. Walker was a kind and loving husband and father, a model Christian man, was loved by all who knew him, was ever ready to help his neighbors.

Surviving are his wife, and one daughter, Mrs. Ross of Carthage, one daughter-in-law, Mrs. H. N. Walker of Wills Point, 2 sons-in-law, Arch Herin of Wills Point, Wade Martin of Haskell, 13 grandchildren and 17 great grandchildren.

Mrs. H. N. Walker.

State Water Engineers to Survey Irrigation Project

Ballinger, Feb. 4.—The Colorado Valley Irrigation Association of this city has been notified by the State Board of Water Engineers that they will be in this city soon to inspect the maps and plans of the Stanley survey of the Colorado Valley irrigation project. While here they will also go over the proposed reservoir and dam site, with the view of making an official survey of the entire area.

Following their survey and the creation of an irrigation district, it is proposed to hold a bond election for the issuance of sufficient bonds to erect a dam across the Colorado River 2000 feet long and 100 feet high for the damming of the flood waters. It is estimated that the impounded water will be sufficient for the irrigation of 200,000 acres of land in Runnels, Coke, Tom Green and Concho counties.

ENTERTAINMENT OF ALL IN READINESS TO OPEN BIG SHOW AT THE COLISEUM

PRE SET FOR MARCH LIVESTOCK EXHIBITION AL FEATURE—OTHER ATTRACTIONS

SOUTHWESTERN EXPOSITION AND FAT STOCK SHOW AT FORT WORTH STARTS SATURDAY, MARCH 5, WITH SPLENDID PAGEANT

The eleventh-hour rush of preparation for the Southwestern Exposition and Fat Stock Show, to be held at Fort Worth, March 5 to 12, finds the plans of the management maturing more rapidly than in past

BULLDOGGING

In the Rodeo at Ft. Worth. The world's record has been broken several times.

years, even though the array of attractions is larger. Manager Sansom and Assistant Manager McKinley have the reins well in hand and feel safe in assuring the public a better, more varied and more interesting show all week perhaps than any that yet have been staged in the vast Coliseum building and upon the Coliseum grounds.

Entries of blooded livestock are arriving from all sections of Texas and adjoining states and it is now the general belief that every class will be better filled with choicer cattle. The dairy show has the best prospect of any of the classes in the livestock division.

The curtain will be rung up on the bring spring exhibition Saturday night, March 5, with a social event of state-wide importance—the imposing pageant, directed by Fort Worth society women, which always is a great feature and draws attendance from near and far.

Upon the Coliseum grounds, the J. George Loos carnival, an attraction whose merits have been winning it new friends year after year, has been placed. Manager Loos declares that his carnival is larger and better than in previous years, that everybody will find many things that will hold their interest. New and unique features of entertainment have been secured in a winter-wide search by Mr. Loos himself, who is a veteran of the carnival game.

Under the sterling leadership of C. C. Miller, the poultry show, which is held simultaneous with the stock show, in a hall adjoining the Coliseum, looms up alluringly for the lovers of fine birds. The Fort Worth exhibition has been coming to the front rapidly during the past few years and now occupies a flattering position among the poultry shows of the Southwest.

Texas and Southwestern purchasers of livestock probably will have eager competition in the sales event these years with eager purchasers from Mexico. The stockmen of that country are fast rebuilding their herds and, with the keen judgment of veteran cattle raisers, are seeking the better breeds, of which they will find a magnificent representation at the Fort Worth show.

Arrangements are practically complete for the Horse Show and Rodeo events, which occupy the foreground in the matinee and at night. Top-notch hands from all over the West are coming to Fort Worth to take part in the cowboy sports that always have proved so thrilling and interesting, with so much of the unexpected mingled throughout. In fact, a number of the nation's leading exponents of cowboy sports are wintering in Fort Worth and will start the spring and summer season here. The very best stunts in cowboy sports are planned—and they will be staged with the snap for which the Fort Worth show has become famous.

Bryan Roach, world's champion bucking horse rider; Hugh Strickland, his foremost rival; Tommy Kirman, famous trick rider and roping, are among the stars who already are being ready for the opening performance.

The Horse Show features promise better than for several years. Captain W. H. Furse, in charge of this branch of the show, announces that several prominent stables from Oklahoma and other states will be on hand, as will army horses from Fort Bliss.

Everything at Fort Worth is ready for the tap of the gong—and the very best attraction yet staged appears to be coming up.

The NEW EDISON

"The Phonograph with a Soul"

"Who is the most sophisticated man in New York?" Mr. Edison selected Wm. J. Burns, who gladly made the Mood Change test to assist Mr. Edison in his research work. Mr. Burns' Chart is reproduced. Mr. Edison needs thousands of these charts. Won't you help him by filling out a Chart?

MOOD CHANGE CHART
An Analysis of Your Mental Reactions to Music, as RE-CREATED by the New Edison, "The Phonograph with a Soul."

Date of Test: *Nov 16 1921*

1. Place: *Edison Shop*

2. Time (What time in season?)
Morning Afternoon Evening

3. Weather (What time in season?)
Dull Cold Bright Warm

4. What kind of music did you feel like hearing? (Mark all which apply to each.)
Tender Vivacious Joyous Solemn Majestic Weird Marital Soothing Gay Simple Dreamy Sad

5. What was your mood for immediately preceding test?
Serious or Worried or Gay Carefree Depressed or Nervous or Exhilarated Composed Fatigued or Sad or Untaunted Joyful Discouraged or Optimistic

6. As a result of the test, what were your most noticeable mood changes? (Mark X in column.)
Re-Created Causing Such Change

MOOD CHANGE
Serious - Gave for
Even for - Gave

7. Please comment on manner in which mood changes occurred:
I came from a very serious conference and noted the fact that the music from the new Edison

WM. J. BURNS
Head of Wm. J. Burns International Detective Agency

Wm. J. Burns filled out the first Mood Change Chart

Will You Fill Out a Chart for Mr. Edison?

MR. BURNS pronounced the test most interesting. He enjoyed it and was glad to help Mr. Edison.

You'll enjoy filling out a Mood Change Chart also—and we know you will eagerly help the great inventor in his latest research into the effects of music on the minds and moods of mankind.

Read Mr. Burns' Chart. Then come to our store. Make the test. Learn how music affects your moods. Your Chart will be sent to Mr. Edison.

If you own a New Edison, ask us for a supply of Charts and invite your friends for a Mood Change Chart party. They will find it more entertaining than the Ouija board. If you do not own a New Edison, we will lend you an instrument with a supply of RE-CREATIONS, for giving a Mood Change Party.

The New Edison has perfect realism. Its RE-CREATION of music cannot be distinguished from the original music. This makes it possible for every home to enjoy the full benefits of the world's best music.

Don't Forget the Date

It is rumored that William G. McAdoo will be placed in charge of the reorganization and rehabilitation of the railroads of Mexico. When the properties are restored to a solid footing all government control will cease. Mr. McAdoo has recently returned from Mexico City and his visit there gives a basis for this rumor.

Development of West Texas Urged
Speaking of the relationship of Fort Worth and West Texas, William Monning, Sr., head of a large dry goods concern, president of the Citizen's Hotel company, which is constructing the Winfield hotel, and who occupies other odd jobs when not otherwise engaged, declared Wednesday that Fort Worth and West Texas were members of the same family.

"Fort Worth and West Texas go hand in hand," he said. "This point cannot be stressed too strenuously. The life of one depends upon the other. Developments of resources in West Texas means the development and expansion of the industries here in Fort Worth. This city is the natural gateway for and to West Texas and no other city can take its place.

"Every business man who possibly can should attend the Ranger convention of the West Texas Chamber of Commerce next Monday and Tuesday. It is in his interest that the business man should attend and learn from first-hand information the value of the trade territory immediately to the west of us.

"No steps should be spared in uniting West Texas and this city more closely and it is up to the business men of Fort Worth to see that this is done. The people of that section of the state look to us for aid and protection and they should not be disappointed.

Construction of the proposed railroad from Graham to Perrin, in Palo Pinto county, which would make direct connections into Fort Worth from the oil fields and also in Wichita Falls without coming through this city was urged as essential to the development of the trade territory in West Texas, according to Mr. Monning.

This railroad project if carried out would benefit Wichita Falls more than Fort Worth as it would make connections for the former city without the necessity of a passenger coming through this city as is now the case, Mr. Monning said. However, the development of Wichita Falls means the development of Fort Worth, he continued, and everything possible should be done to convert this project into a reality.

All men who have interests in the North and West Texas fields will make Fort Worth their headquarters with the completion of the Winfield hotel and the office buildings now under construction where they may obtain accommodations, Mr. Monning said. These accommodations have been denied them

in the past, but the future appears rosy.

"Yes, jobbing houses in Fort Worth would help strengthen the business ties that bind this city and West Texas," he answered in reply to direct question. "However, these jobbing concerns will have to be formed by local capital as very few foreign concerns would likely locate here at the present time.

"If the people of the city would subscribe funds for the organization of a jobbing concern here like they did for the construction of the Winfield hotel, we would experience little difficulty in locating one of the largest jobbing houses in the country here," he added with a laugh.

Notice

A girl to serve as apprentice is desired. Call at once at the Elite Hat Shop.

Oil Development in Mitchell County

Morrison No. 3, located 1500 feet south of the Underwriters discovery well, will be spudded next week, according to information given The Record Wednesday afternoon by representatives of the company. This will be the fourth well to be drilled in that vicinity by this company.

At Morrison No. 2 the crew was cleaning out Wednesday afternoon preparatory to a test. Considerable trouble has been experienced on this job from a lost ball, twenty feet above the bottom of the hole. Fluid was standing several hundred feet in this well.

Morrison No. 1, the shallow test recently drilled into the sand at a depth of 450 feet, will be drilled out just as soon as the cement sets. Unusual interest is being centered upon this well T. & P. No. 1, the discovery well, was reported Wednesday afternoon as holding up satisfactorily. Gas, which appeared from this well several days ago, was still flowing, although the increase in pressure stopped recently.

The crew at Foster No. 1 were drilling out cement preparatory for a test. The Colorado-Texas Company who are owners of this well, recently increased its capital stock and plan development of their lease holdings at Iatan on a large scale, it is reported.

Reynolds No. 1, being drilled by the Vincennes Company, on the Reynolds ranch 30 miles northwest of Colorado, was hitting new earth at 700 feet Wednesday afternoon. Manager Keek stated that he expected to sink this test with the least possible delay.

The Travellers well was drilling at 2980 feet and are no doubt to a depth of 3000 feet today. Log of the well continues favorable. Manager Alexander stated, and the company expects to pick up the pay within the next few hundred feet.

Tools for the Coleman No. 1, on the ranch of Dr. P. C. Coleman, seven miles northwest of Colorado, are in transit from Cisco, according to telegraphic information received in Colorado Wednesday. This well will be drilled by the Underwriters Company and they expect to spud it in just as soon as the tools can be received and strung.

Announcement was made Thursday morning at offices of the Underwriters Company, that tools for the Smith No. 1 well, five miles west of Colorado, would be shipped from Oklahoma. This well was spudded several days ago with a rotary rig but because of unfavorable progress it was decided to change to a standard rig. Drilling will be resumed as soon as the Standard tools arrive.

It was understood in local oil circles Wednesday afternoon that W. J. Thompson would organize a company for drilling the Phelan tract, which lies between Iatan and Westbrook. It is also expected that a drilling contract will be closed during the next week for sinking the first test on the Wulfen tract, several miles south of Colorado. This latter project is to be drilled by the Renotex Oil and Land Corporation, whose local representatives, Sloan and Knight, have been in San Francisco during the past ten days on business for the company.

A Big Spring syndicate is being organized to drill on the Wheat ranch, a few miles west of the Underwriters Company holdings. Considerable acreage on this ranch has been leased and it is reported at Colorado that several wells are planned by the controlling syndicate.—Colorado Record.

Home School Club Meeting

The regular meeting of the Home and School Club will be held at the Central School building at 4 o'clock Friday, February 18th.

All are cordially invited to be present. If you are interested in our schools, come and bring a friend.

The following program has been prepared.

Invocation.
Paper—What the Home and School stands for—Mrs. O'Keefe.

Discussion.
Business session.

Box Supper Saturday

An old time box supper will be held in the Ward building Saturday night, February 12th and everyone in the county, both young and old, are cordially invited to attend. The proceeds will go to the benefit of the B. Y. P. U. of the First Baptist church of this city.

Every woman and girl in the county is invited to come and bring a box and take part in the evening's pleasures.

Don't forget the time and place, and help make the occasion a success by being present.

Everybody welcome.

School Board Meeting Feb. 15th

On account of the president of the school board and several members being unable to attend the regular monthly meeting of the Board, this meeting was not held last Monday night.

The selection of someone to assess the taxes for the Independent School district and make up the rolls should have been attended to at such meeting. This is a most important matter so a special meeting of the board will be held at the home of A. W. Flancken, next Tuesday night, February 15, at 7:30 o'clock.

B. Reagan, President
A. W. Flancken, Clerk.
