Placing the Blame for Aerial Bombing

It is impossible to read of the airplane bombing raids on Chinese cities without a sharp wave of indignation. But it is rather important for all of us to be sure that our indignation is directed at the right people.

A clew to this riddle, and tip-off as to the direction our indignation ought to take, is provided by a recent story from the Tokio correspondent of the New York Herald-Tribune.

For the Japanese people have not been told about the bombing of noncombatants. Their government has assured them that Japanese planes have attacked none but strictly military objectives.

Naturally enough, the Japanese people have believed all of this. As far as they know, their airplanes have been scrupulous in observing the rules of civilized warfare.

It would pay us to remember this. For one thing, it will help us to direct our indignation at the right target.

The Japanese are about like everybody else. No nation as a whole is ever going to approve the killing of children or the bombing of homes.

Because the people at war will not know what their own governments are doing. Modern war is, above all, ruthless. It has to be that way.

Mid-Continent Oil Association Will Hear Railroad Head

DALLAS, Texas.—Matthew S. Sloan, Chairman of the Board and President of the Missouri, Kansas and Texas Railroad, will be the principal speaker at the annual convention of the Texas Mid-Continent Oil and Gas Association.

"We are indeed fortunate in getting a man of Mr. Sloan's caliber to address our convention," said Mr. Smith, "and the message he will have for Texas oil men is bound to be of far-reaching importance at this time."

Mr. Sloan is a native of Alabama and while his residence is maintained in New York City, he spends the greater part of his time in traveling throughout the Southwestern territory served by the Katy.

A large attendance of oil operators from every section of Texas is expected to be in Dallas for the Texas Mid-Continent convention, which opens with a liveing business session at 9 o'clock Friday morning, October 29.

Steel Pickets Still In Youngstown Line

YOUNGSTOWN, O. — Daily, several hundred pickets can be seen these days loitering in the shadows of the black smoke rolling from the giant stacks of Republic Steel Corporation plants in Youngstown, Niles and Warren, O.

"The strike is still on," the pickets, leaders of the Steel Workers Organizing Committee, will say. "And, anyhow, this is better than 12 to 16 hours in a lot mill."

Planning Board Has Facts on Texas Of General Interest

By United Press AUSTIN.—The Texas Planning Board has unearthed some queer facts in its research. These have been listed in the board's bulletin under a heading, "Did You Know?"

That Texas has three Bostons: New Boston, Boston, Old Boston—all within five miles of each other.

That the United States is well represented in Texas: Colorado, Nevada, Ohio, Washington, Illinois, Missouri, Tennessee, Kentucky, Mississippi, and Texas City, are towns in Texas.

That Pittsburgh, Los Angeles, Buffalo, Detroit, Omaha, Moscow, Paris, Sweden, Turkey and Italy are in Texas.

That New York City is in Texas. Midway between Bellevue and Henrietta, a small store on the highway has this sign in front—"New York City."

That Dalhart, Texas, is nearer six state capitals than to the capital of Texas.

That the famous Three-D brand of the Waggoner ranch was caused by a cowboy who bent the iron into three perfect "D's" but found that when put on a cow the letters were backward.

That a train ran on hardwood rails from Rusk to Jacksonville in 1870. The larger city had a railroad and the citizens of Rusk built this one in order to hold the county seat.

WASHINGTON WITH RODNEY DUTCHER

By Rodney Dutcher NEA Service Staff Correspondent

WASHINGTON.—The question whether a popular referendum shall be required to take the country into war will almost certainly be a major issue on the floors of Congress within the next few months.

Last May, as reported in these dispatches, Congressman Louis Ludlow of Indiana had gathered 100 signatures for a petition to discharge from the House Judiciary Committee his resolution for a constitutional amendment which would require that the people vote on any proposed declaration of war.

Today he has 185 such signatures. This means that the proposed amendment, assuming Ludlow is correct in his assurance that he has enough additional signatures in sight to make up the necessary 218, will come before the House by February or March.

Subsequent processes of adding it to the Constitution would include passage by two-thirds vote in Senate and House and ratification by three-fourths of the states. House passage would require 290 votes if all members were on hand.

Heavy drive will be placed behind the proposal. A national committee of veteran, church, farmer, labor, war mother and other leaders is being formed to lend weight. Proponents think they can meet down opposition by insisting that America must be asked to "save the world for democracy" again without some democratic process for deciding whether the American section of

LITTLE PIGS OF HEAVEN isn't a song exactly, but it does make people who eat it want to sing for joy. That's the report of Grace Moore, singer of stage, screen and radio. Yes, the truth is out—Grace does a spot of cooking now and then.

Tomocino Del Cielo (Little Pigs of Heaven) (8 to 10 servings) (6 servings)

One-quarter pound lump sugar, 1-4 cup water, yolks 6 eggs. Boil sugar and water until it forms a small thread on edge of spoon.

Arroz Con Pollo (6 servings) One large or 2 small chickens, 3 large Spanish onions, 1-4 pound of gammon, 2 medium tomatoes, 1 cup of rice, 4 pimientos, 12 asparagus tips, 1 cup of peas, parsley, salt and pepper, chicken stock.

Little Pigs Sauce is terrifically simple. Use 2 squares chocolate and 6 tablespoons water. Combine over fire stirring until chocolate is completely dissolved. Then pour over those sweet little molds and they will squeal "this is heaven!"

Even though Grace's notes are very sweet, she can cook other things besides desserts. She makes a grand Spanish salad and a high C of an onion soup. However, all

Road Mappers On A Nine-Year Trek

Commander Leonidas Borges de Oliveira, Francisco Lopez de la Cruz, Mario Fava, and S. W. White, who made up the party, traveled through 15 countries in their survey. They prepared 34 maps and charts of the route, which will be turned over to the Pan-American Union in Washington.  
Ten thousand miles of the 16,812 miles of the highway are open to motor traffic, they said. It is expected that the route will be opened south to Honduras within two years and that the entire project will be finished within six years.  
The exploratory expedition traveled across almost impassable stretches of country in Central and South America. For weeks at a time they lived on parched corn, roots, and drank water from the stalks of the bejucote tree.  
When they had no gasoline they fueled the cars with a mixture of kerosene and alcohol and lubricated them with lard.  
The Pan-American Highway would enter the United States at Laredo, and extend from there to Austin, Dallas, Little Rock, Memphis, St. Louis, Springfield, Chicago, Detroit, Cleveland, Akron, Pittsburgh, Washington, Philadelphia and New York, enabling South American visitors to this country to traverse the most important industrial and commercial centers.  
The expedition reported it had received both moral and financial support from all of the countries in which it had made surveys and studies of the route and several of the countries have already improved their sections of the 16,000 mile highway.  
Where more than 30 similar expeditions have attempted the same undertaking and failed, the present expedition sees the end of the nine-year trip already in sight.

Traffic In "Night Life Women" Goes On Unchecked

EL PASO.—Regular traffic in "night life" women between Oklahoma, El Paso and California is operating almost unchecked because of the unwritten "code" of the women involved, the Federal Bureau of Investigation has revealed.  
An FBI official said officers seldom can persuade a "lady of the evening" to swear to any definite information that might implicate the panderers, because she is ostracized by her kind if she does.  
As a result, prosecution of such cases is almost impossible if the women involved will not assist by swearing to the complaints.  
El Paso maintains one of the few remaining supervised "red light" districts in the United States.  
Time after time, police and federal agents have had a case almost completed when the woman involved would change her original story. Agents would need her testimony that the man accused transported her across a state line for immoral purposes.  
Night Police Chief Leonard Butchofsky recalled a recent case of a night life woman being beaten so frequently by a man that police entered the investigation.  
When first arrested, the woman admitted that the man had forced her to lead an immoral life in several states. FBI agents were called into the case. Then the woman changed her story and denied that the man ever had transported her across a state line.  
Butchofsky said many of the women in El Paso's supervised district had men "managers;" that most of the women have entered such a life of their own volition and have become attached to men who force them to continue, through intimidation.

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys  
Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.  
The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 2 pints a day of about 3 pounds of waste.  
If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start gagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness.  
Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

IT'S IN THE NEWS!  
There are two classes of news in these columns every day:  
(1) Interesting stories about events all over the world; and (2) The advertisements. Yes, the advertisements are news, and in many ways the most important of all, because they affect you more directly and personally than any other.  
A new and better method of refrigeration is devised—and you learn about it through advertisements. Improvements are added to automobiles which make them safer than ever—again advertisements carry the story. Styles change in clothing—and advertisements rush the news to your doorstep. A manufacturer finds a way to lower the price on his products—he advertises to tell you about the savings.  
You'll find that it pays to follow this news every day. Reading the advertisements is the sure way to keep abreast of the world... to learn of new comforts and conveniences... to get full money's worth for every dollar you spend.
