

## J. S. Liner Hoover Bombed In Chinese Waters

### CHAMPIONSHIP NOT BEHELD ER SCHEDULE

By United Press  
NEW YORK, August 30.—The Farr of England, the challenger, held a slight advantage over Louis, the champion, who weighed in today for the fight tonight at Yankee stadium.

Mike Jacobs, said a heavy downpour between the time they enter the ring will postpone the fight. The rain was clearing away by 7:30.

YORK, Aug. 30.—(Sp.) Louis, the 23-year-old fistic lion from Detroit, makes the defense of his recently won world title against Tommy Farr, British Empire champion, at Yankee Stadium tonight.

### Owner, Tenant and Fatally Hurt

ELL, Aug. 30.—James J. McCull, 50, and J. J. McCull, 51, found shot to death today at their farm.

### ger Army bed White Boys Encampment

Fletcher, captain of the nearby National Guard is in charge of the encampment. The boys are to be equipped with all necessary gear and will be in the camp for several days.

### Sand Passed Dorothy Test

Test of the sandblower was passed by Dorothy Taylor, 15, of the local school. She was the only girl to pass the test.

### Ex-Eastlandite For Governor?

KARL A. CROWLEY

Is Karl A. Crowley, solicitor general for the post office department and attorney at Eastland 18 years ago, going to run for governor?

Discussion and reports give political observers a slight conviction that the attorney will be a candidate.

### COLLUM LOST TO SCHOOL IN RESIGNATION

Resignation of G. W. Collum, director of the Eastland high school band, has been accepted by members of the school board.

### Land Within Site Of Test Purchased

B. B. Saulsbury of Potter county has purchased 115 acres of land from the Three guardian-ship and Threet estate in Callahan county.

### Dove Season Not Open 'Till Sept. 15

While the state law says the dove season opens in Texas on Sept. 1, the federal law which supersedes the state law says doves may not be shot until Sept. 15.

### Coach Is Sought By Rising Star

With only a week to complete the task, the Rising Star school board Monday began consideration of naming a successor to Carr Sprayberry, who has resigned from his coaching position.

### Mrs. R. H. Tadlock Seriously Injured

Mrs. R. H. Tadlock who was hurt in automobile accident Saturday near Comanche when a tire blew out is reported still in serious condition at City-County hospital.

### STORMS BREW MIAMI COAST 50 MILE GALE

MIAMI, Fla., Aug. 30.—A tropical storm spun inward from the Atlantic today, lashing the Florida coast with wind as high as 50 miles an hour and sending small craft to shelter.

### Post Office Clerks Meet In Fort Worth

FORT WORTH, Aug. 30.—The clerks of the U. S. Post Office Service today opened their 35th annual convention with a heavy program covering almost every phase of their activity.

### Committee Draws Golf Club Rules

Rules and regulations of the Breckenridge Golf Club have been drawn and announced by Mrs. J. D. Sanders Jr., chairman of the committee.

### Two Teachers at Schools Selected

Election of two teachers in Eastland schools, announced Monday, fills the instructor staff with the exception of a band director.

### Nine Fairs For County Scheduled

First of a series of community and sectional fairs in Eastland county is scheduled Friday at Crocker.

### Land Within Site Of Test Purchased

B. B. Saulsbury of Potter county has purchased 115 acres of land from the Three guardian-ship and Threet estate in Callahan county.

### Dove Season Not Open 'Till Sept. 15

While the state law says the dove season opens in Texas on Sept. 1, the federal law which supersedes the state law says doves may not be shot until Sept. 15.

### Coach Is Sought By Rising Star

With only a week to complete the task, the Rising Star school board Monday began consideration of naming a successor to Carr Sprayberry, who has resigned from his coaching position.

### Mrs. R. H. Tadlock Seriously Injured

Mrs. R. H. Tadlock who was hurt in automobile accident Saturday near Comanche when a tire blew out is reported still in serious condition at City-County hospital.

### Schoolmarm Drama's Climax

Big second-act denouement of Isabelle Hallin's career was when she was acquitted of charges of serving cocktails to drama pupils in Saugus, Mass., high school.

### Woman Drowns Near Beaumont

BEAUMONT, Aug. 30.—Mrs. Margaret Oubry, 65, Beaumont, drowned in a creek near here Sunday. Companions in the water when she died were unaware she was in distress.

### Two Killed In Auto Wreck

PORT ARTHUR, Aug. 31.—A justice of peace verdict of accidental death of Hugh Morton, Jr., 29, and George W. Wiltze, both of Port Arthur, killed in an automobile accident.

### DeLeon Team Will Enter Galveston State Tournament

DeLeon's girls' team, runner-up in the district tournament at Eastland, will enter the state amateur softball tournament at Galveston.

### Eastland Girls To State Event

With the state championship and a trip to the nationals at Chicago at stake, Eastland's Fire Girls will be off at 5 a. m. Tuesday for Galveston to participate in the Amateur Softball Association of America tournament.

### Mother Of President Says F. D. Not to Run

PARIS, Aug. 30.—President Roosevelt does not want a third term, his mother, Mrs. Sarah Delano Roosevelt said today.

### Schoolmen Due to Meet at Eastland

The National Youth Administration program for Eastland county for the coming school year will be planned at a meeting tonight at 7:30 in the office of County Superintendent C. S. Eldridge at Eastland.

### Oil Field Worker Near Death at Atlanta, Texas

ATLANTA, Texas, Aug. 30.—An oil field worker named Larry, 32, today was near death in a Texas hospital after a shooting scrape 12 miles east of here.

### \$1.50 IS SET AS EASTLAND SCHOOL RATE

The 1937 tax roll for the Eastland Independent School Board, showing valuations of \$2,500,531, had been approved Monday by members of the trustee board who levied a \$1.50 tax rate.

### Lobbies Receive Football Togs

First preparations for the long tough grind to be faced by the Cisco Lobos this year will be started Monday morning when equipment will be issued to all candidates for the grid season.

### Famed World War Marine Regiment Sails for China

SAN DIEGO, Calif., Aug. 30. (SPL) — Carrying the colors of the gallant Sixth Marines, decorated by the French government in the World War, 1,308 marines left here yesterday on the naval transport, Chaumont, and the light cruiser, Marblehead, for war-torn Shanghai.

### New Director of WPA Is Selected

Major Karl A. Wallace has been chosen to succeed George L. Dickey, director of Works Progress Administration district 7, who will devote full time as dean of North Texas Agricultural College in Arlington starting Sept. 7.

### Mishaps Take Toll In Ft. Worth Area

FORT WORTH, Aug. 30.—One man was dead today and five were injured, two seriously, from week-end accidents here.

### No. 1 Briton In China Now

British diplomatic affairs in China, following the wounding by Japanese air-fire of the Ambassador, moved into the hands of Admiral Sir Charles Little, pictured above, commander-in-chief of the British Fleet, as senior officer of the senior service.

### ALLRED SAYS DALLAS STRIKE BE PROBED

AUSTIN, Aug. 30.—Governor James V. Allred announced today that he will appoint a state industrial commission to investigate the Dallas military strike.

 expedition.  
**DR. DUNN**—the third  
 expedition.  
**BROTHERS** and  
**MELITA**—young scien-  
 tists who turned out  
 to be a team.  
**PRISCILLA**—the girl who  
 takes the boat on their  
 expedition. She is the  
 only one who has had  
 a sea experience.

**CHAPTER IV**  
**NEITHER** Magellan nor Colum-  
 bus set out with hearts keyed  
 higher for adventure than the  
 three girls aboard the little power  
 cruiser "Chinook."

The girls were there to wish  
 their father and give some welcome  
 and advice. The truth was that  
 they were just a bit nervous,  
 now that he came to the full real-  
 ization that he was more or less  
 responsible for sending off the  
 "Chinook" with her comely cargo.  
 But he hid his concern as best he  
 could, knowing that a little confi-  
 dence on the part of his proteges  
 might not come amiss.

Keeping the boat at half-speed,  
 and with a sharp lookout for busy  
 commercial craft, Kay Danborn  
 stood at the wheel. Melita and  
 Priscilla busied themselves stow-  
 ing the supplies which had been  
 literally dumped aboard in the  
 last-minute rush as the first day  
 of their vacation started.

Once out of the bay, with its  
 disconcerting traffic, Kay breathed  
 easier. She found that she was  
 quickly learning the trick of keep-  
 ing the boat on its course.

The first day's course she had lit-  
 erally memorized at Jim Pike's  
 instructions. "You're in for clear  
 weather. I'll give you some  
 suggestions with which you can  
 make the best day's run. That'll  
 be all, good-bye."

When the boat was at anchor,  
 Kay found that she was  
 relieved by the changes in  
 the bay, since it was at Kay that  
 Jim had directed most of his  
 attention.

They would lead them  
 comparatively quiet and  
 easy. But Jim had  
 that in crossing two or  
 three they might easily find  
 open to the "tail-end"

of the bay. So they were all  
 alert and delicat-  
 ous as possible danger.

Nothing untoward  
 happened that first day in the way  
 of trouble, but it was  
 a high point. Along  
 the side of the morning  
 board, and it was  
 a little time before Kay got  
 Priscilla's yelling.

Melita was a good  
 fighter. "I'll be right in  
 the middle. Nevertheless,  
 in the excitement, tossed  
 a small case of beans into the  
 sea—and these proved their  
 usefulness as a life preserver by  
 floating at once."

"What's the idea?" gasped  
 Melita as Kay and Priscilla  
 brought her aboard. "I thought  
 his darned boat was never going  
 to turn around and come back for  
 me. And then you drop me a case

Neither Magellan nor Columbus set out with hearts keyed higher for adventure than the three girls aboard the cruiser "Chinook."

of beans instead of a life preserver!"

"I'm sorry," Priscilla apologized.  
 "It was just what I happened to  
 be handy."

"Well, hereafter I suggest you  
 wear a life-ring around your neck  
 so it will be handy."

Kay grinned. "That might not  
 be a bad idea for you to take on,  
 Melita. That is, if you're going to  
 be falling overboard again." Then  
 she flew back to the wheel before  
 Melita could think of a suitable  
 reply.

PRISCILLA had been mightily  
 pleased when she found that  
 lunch time would bring her a  
 trick at the wheel—for this re-  
 lieved her of duty in the galley.  
 Carefully Kay pointed out a tow-  
 ering hill in the distance and ad-  
 vised Priscilla to keep the nose  
 of the "Chinook" pointed toward it.

"Is that all there is to it?"

"That's all," said Kay. "Except  
 don't argue about the right of way  
 if it looks at all close. And re-  
 member that sailboats have the  
 right of way over a powerboat at  
 all times."

"Well," Priscilla me-  
 lowed, "I don't see any traffic at all, so  
 I guess I'm a cinch."

"Just keep watching the moun-  
 tain."

Priscilla touched her beret.  
 "Keep watching the mountain,"  
 she repeated.

Forgetting Priscilla at the  
 wheel, Kay and Melita started the  
 preparation of their first meal  
 aboard. Almost at once they de-  
 cided that the kitchen in their  
 apartment ashore was palatial

when compared with the little gal-  
 ley of the "Chinook." In another  
 week they would have learned to  
 appreciate it as a masterpiece of  
 compactness, without waste space  
 and everything in its place. But  
 now it seemed absurdly small, and  
 the little gas burning galley range  
 seemed a mere toy.

After Melita began to get things  
 under control in the galley, Kay  
 went aft and rigged up the folding  
 table in the small cabin. This she  
 set hurriedly, then decided to go  
 on to the after cockpit. To her  
 amazement and shock, the "Chi-  
 nook" was only a few hundred  
 yards from shore, and heading to  
 it at full cruising speed!

KAY dashed through the boat  
 toward the wheel, knock-  
 ing over dishes and pots in her  
 speed. With a final bound she  
 was at the wheel, whirling it hard  
 over while Priscilla stood back  
 popping.

"What's the matter, Kay?"

Kay heaved against the wall,  
 heaving a great sigh of relief.  
 "Another minute and we'd have  
 been aground!"

"I thought we were getting  
 kind of close to the beach," Priscilla  
 said contently. "But you said  
 to just keep the boat's nose  
 pointed toward the hill."

"Well," grinned Kay weakly. "I  
 guess it was my fault. I should  
 have been up here sooner to  
 change the course. Now you see,  
 we head for that point way over  
 there."

Melita poked her head into the  
 pilot house. "What's all the ex-  
 citement?"

"Nothing much," advised Kay,  
 "except that Priscilla was just

about to do some land cruising  
 and I don't think there are any  
 wheels on the bottom of this  
 boat."

"You certainly messed up a pe-  
 cial of beans," said Melita ruefully.  
 "But maybe I can salvage enough  
 for a meal."

"I'll eat at the wheel. You and  
 Priscilla go ahead."

Priscilla was considerably  
 miffed because of her nearly cost-  
 ly error. "I don't suppose the cap-  
 tain will let me steer any more,"  
 she said.

"Sure I will," Kay laughed. "But  
 not until I get back my normal  
 breathing again!"

The lunch, although somewhat  
 scrambled by Kay's hasty trip to  
 the bridge, tasted better than  
 anything they remembered during  
 years of eating ashore. No ques-  
 tion about it, the sea air added a  
 real zest to the appetite.

"Jim Pike said to be sure any  
 wash up the coffee pot first," Kay  
 called down from the pilot house.  
 "That's okay with us," Melita  
 said. "But why?"

"If we strike the wash from a  
 bigger boat, the coffee pot might  
 spill, and Jim says it takes a  
 month to get spilled grounds out  
 of a galley."

Melita and Priscilla at once  
 grabbed for the coffee pot, taking  
 no chances on such a calamity be-  
 falling the good ship "Chinook."

It was none too soon, for a few  
 moments later the little cruise  
 was overtaken by a huge white  
 yacht whose wake was not kind  
 to set the "Chinook" to wallowing  
 awkwardly, and had Melita and  
 Kay clutching for support.

(To Be Continued)

## New Ford Automatic Inspection Machine Sees, Hears, Feels

A tireless automatic machine, which "sees" better than a hawk, "hears" better than a hare, and with a sense of "touch" infinitely acute, has been placed in operation at the Ford Rouge plant for inspection of the valve rods, a small, accurately finished engine part.

Observers who watch the machine work and realize its intricacies recognize it as one of the greatest robots.

The uncanny device, which utilizes photo-electric cells and radio amplification to work its wonders inspects valve push rods for accuracy, hidden fissures and accuracy of dimension. Ford V-8 standards demand precision to one ten-thousandth of an inch. The machine performs 11 distinct operations so rapidly that 42 push rods are inspected each minute. Those which do not meet rigid specifications are rejected.

Valve push rods are cylindrical parts which rest against the camshaft and, by action of the cam, lift, or open the engine intake and exhaust valves. The small parts feed through a narrow slot into one end of the testing machine and are carried upright through two inspections, then turned 90 degrees to a horizontal position for remaining operations.

First the push rods are checked for hardness. An automatic microscope works in connection with an "electric eye." A diamond tipped weight drops on the push rod. If the hardness is correct, the weight rebounds to a predetermined height, intercepts a light beam, and the electric eye actuates a mechanism which passes the push rod. Push rods that are not hard enough are rejected.

In the second operation, a hammer strikes the side of the valve push rod. By "listening" to the pitch and duration of the resulting sound, the machine determines instantly whether the push rod structure is without defect. A hidden fissure will curtail the period of sound vibration. A microphone and amplifier are part of the inspection mechanism at this test station.

Then follow nine other successive inspections to determine accuracy of manufacture. The first will bear a tag offering a \$5 reward if it is returned.

From Omaha five electroscopes will be headed for the higher altitudes, each borne aloft by a tandem of five balloons. In Nebraska the population is sufficiently dense it is believed to insure all of the instruments being sent back to the institute when they come down.

In Canada the experiments will be made from Saskatoon, Saskatchewan, where another five balloons will be sent aloft. To date, the only information available on cosmic rays in Canada is at a height of 21,000 feet. This time it is hoped to attain at least 90,000 feet altitude.

Parachutes attached to the instruments will be two yards square and red.

is for squareness of the bottom face of the push rod. Here the maximum variation permitted is one-thousandth of an inch. Next the part is measured for roundness, with variation held within three ten-thousandths of an inch. Squareness of the top is gauged and in this case, the limit is five ten-thousandths of an inch. Following this, automatic fingers enter the slots in the sides of the push rod to check for minimum wall thickness. Two steps gauge the diameter, first at the center and then at both ends. These measurements must be within five ten-thousandths, the specified dimensions. In the final three stations the parts are measured for length and sorted automatically into seven groups, with only one-thou-

## Labor Day Dance At The Baker Hotel

Announcement has been made that the Labor Day dance that would be held in the Baker Hotel in Mineral Wells, music would be furnished by Frank Bird and the Baker orchestra. The dance will start early Wednesday evening and last until the wee small hours of the morning. Those who enjoy dancing are urged to attend.

## RECKLES and HIS FRIENDS—By Blosser

## New Data Is Near Upon Cosmic Ray

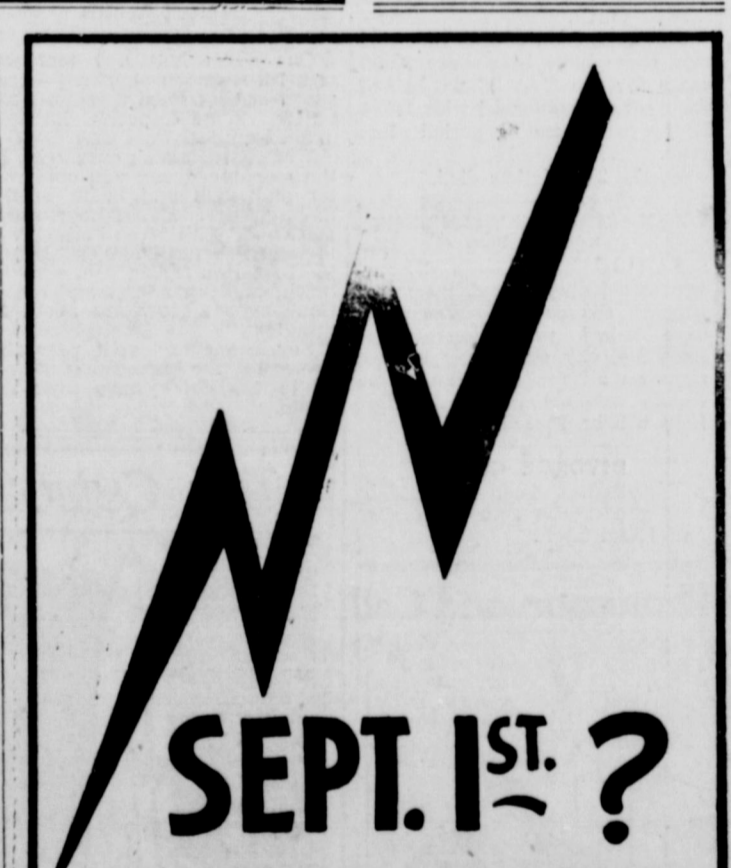

By United Press  
 PASADENA, Calif. — Dr. Robert Millikan and Dr. H. Victor Neher of the California Institute of Technology have completed plans for a further study of the cosmic rays in the Middle West and Canada.

This will be added to the data already obtained last year when 11 electroscopes were set up in India.

Where in the past stratosphere data on the cosmic rays was gathered by airplanes reaching an altitude of only 20,000 feet, it is expected that the new experiments will reach into the regions 90,000 feet above the earth.

The instruments for registering desired data about the cosmic ray at high altitudes will be sent up by small balloons provided with a mechanism that causes them to burst after three hours. During this time all of the necessary data will have been mechanically registered by special instruments which are attached to parachutes so as to descend them safely to earth.

The principal problem is to get the instruments returned to the institute where the data can be compiled and compared. For this purpose each set of instruments

CALENDAR TONIGHT Revival services, Baptist church 8 p. m., pre-prayer meeting circles, 7:30 p. m., in church.

Tuesday Revival services, Baptist church 10 a. m. and 8 p. m., pre-prayer meeting circles, 7:30 p. m.

Council Meeting Announced The young people's division and senior young people's department of Methodist church announce the council of these classes will be held at the church Thursday evening at 8 o'clock, with session on the lawn.

Members of these departments are earnestly requested to attend as earnestly other business plans are to be considered those for their part in the Eastland County Union of Young People of Methodist churches, to be held the following week, place announced later.

Prominent Eastland Man to Marry Shreveport Girl Mr. and Mrs. Grady Pipkin and their son, Bruce, accompanied by Mr. and Mrs. Jess Pipkin of Breckenridge, and Mr. and Mrs. F. L. Odell of Dallas, have returned from a four days' stay in New Orleans, at the National Piggy Wiggle operators' convention.

Mrs. Grady Pipkin brings the announcement of the coming marriage of their son, James, to Miss Thelma Hickman of Shreveport, Louisiana, daughter of Mr. H. B. Hickman, a real estate and oil operator, who, several years ago, lived in this city. Mrs. Hickman passed away some time ago.

The wedding is announced for Sept. 5, Shreveport, a church ceremony at 6 p. m. There will be a bridal party, and Raymond Pipkin will be the groom's best man. The groom's relatives who will attend are parents, Mr. and Mrs. Grady Pipkin; brothers, Bruce and Raymond, who will leave Friday for Shreveport, and the parents on Saturday.

The bride-elect was a graduate of Baton Rouge high school, and graduated this May from Louisiana State Teachers College. Her father has given the bride-elect the home, 209 Oaklawn, Hillcrest, completely renovated, and formerly owned by Wayne Jones.

Several social affairs are being held in Shreveport in honor of the bride-elect, and others are planned by the smart set in Eastland. James Turk Pipkin graduated from Eastland high school in 1933 and attended John Tarleton College, afterward going into business with his father, Grady Pipkin of Piggy Wiggle stores. He has occupied a prominent position in the social and business world, and has a host of friends who wish him happiness.

Miss Wilda Drago and Party Have Returned Miss Wilda Drago, noted violinist, has returned with Mrs. Dixie Williamson and her daughter, Miss Alma; Mrs. Graham of Cisco and her two children, and Miss

Entertains Guests Miss Lela Balton of Olney and Miss Eula Crawford of Weatherford, who arrived Tuesday to visit Mrs. Hollis Bennett, with their hostess, spent Wednesday in Anson, the guests of friends. The visitors returned to Weatherford Thursday afternoon.

Shower Arranged for Mrs. Kilgore A shower honoring Mrs. Johnnie Kilgore will be held Tuesday afternoon at 3:30 at the home of Mrs. W. F. Davenport, hostess, 201 S. Ostrum street. Mrs. Kenneth McElroy will be co-hostess.

Frost Family Motors West Mr. and Mrs. Cyrus B. Frost, Misses Wilda and Lura May Frost, Cyrus Frost, Jr., and Bill Frost, formed a family motor party on their trip to Long Beach, Calif.

Clara June Kimble, from a several weeks' delightful stay in Bella Vista, in the Ozarks, the resort of musicians.

The group enjoyed many musical evenings amongst themselves and with prominent artists summing there. John Allen Mouser was with them a couple of weeks but returned earlier.

Miss Drago stated she would leave Tuesday or Wednesday for San Angelo to spend the balance of her vacation with her sister, Mrs. Wanda Drago Beall. She expects to return about Oct. 1, and reopen her studio.

Mrs. Russell Entertains For Daughter, Geraldine A charmingly arranged little dancing party was the farewell entertainment tendered by Mrs. P. G. Russell to her daughter, Miss Geraldine, on Saturday evening at the family home.

An intimate little group of young people danced in two rooms where the rugs were rolled back for the merry feet that tripped to the radio music.

Lead punch and trays of small cakes were served throughout the evening from a lace-laid table. Miss Geraldine left yesterday for Holdenville, Okla., where she will be the guest of her Godmother, her aunt, Miss Marine Lawrence, for the next school year. She will have her sophomore year at the high school of Holdenville, but will return home for the holidays.

The group included Misses Julia Parker, Elizabeth Ann Sikes, Louise Flack, Alma Williamson, Patsy Wiegand and Alice Henry of Ranger; Messrs. Bob Perkins, Dick Martin, Jim Whittington, Bob Ferguson, Jack Brown, Pat Owen, Robert Searls, Bob Keadler, John Allen Mouser, and Donald Russell, brother of Geraldine, who assisted Mrs. Russell throughout the evening.

Newlyweds Receiving Lovely Gifts Mrs. Johnny Kilgore arrived on Thursday for a week-end stay with her parents, Mr. and Mrs. A. F. Taylor, a busy time, packing her effects, and the lovely wedding gifts Mr. and Mrs. Kilgore have been receiving.

Among these is a chest of silver from the bride's parents. The groom's parents have given them a car, and a number of lovely gifts are being received from Eastland and out-of-town friends. Mr. and Mrs. Kilgore will go to housekeeping in Lubbock, where she will be in the music department of Texas Tech as accompanist for college, and he will finish his last year of college course.

Mrs. Hollis Bennett Entertains Guests Miss Lela Balton of Olney and Miss Eula Crawford of Weatherford, who arrived Tuesday to visit Mrs. Hollis Bennett, with their hostess, spent Wednesday in Anson, the guests of friends. The visitors returned to Weatherford Thursday afternoon.

Shower Arranged for Mrs. Kilgore A shower honoring Mrs. Johnnie Kilgore will be held Tuesday afternoon at 3:30 at the home of Mrs. W. F. Davenport, hostess, 201 S. Ostrum street. Mrs. Kenneth McElroy will be co-hostess.

Frost Family Motors West Mr. and Mrs. Cyrus B. Frost, Misses Wilda and Lura May Frost, Cyrus Frost, Jr., and Bill Frost, formed a family motor party on their trip to Long Beach, Calif.

Miss Jane Connelley Whittington was a week-end visitor in Austin, with Mr. and Mrs. Will Seagriff. Mr. and Mrs. W. A. Wiegand have returned from a week's vacation spent in the Davis Mountains.

Chinese Say

(Continued from page 1) Hoover and to offer immediate redress.

SHANGHAI, Aug. 30.—China's new treaty with Russia contained secret clauses that Russia shall arm China for its war with Japan, a spokesman said today.

The spokesman alleged that more than 20 Russian airplane pilots have been fighting on the Chinese war front for two weeks.

WASHINGTON, Aug. 30.—Secretary of State Cordell Hull today ordered American Ambassador Johnson to lodge a vigorous protest with the Chinese government over the bombing of the American liner, President Hoover.

NANKING, Aug. 30. (SPL)—The Chinese government today announced conclusion of a non-aggression pact with the Soviet Union which, however, does not bind Russia to come to China's aid against the Japanese aggression.

The announcement indicated that as concerns China's present undeclared war against Japan the new treaty is only a gesture of Russian sympathy and moral support.

The treaty binds each signatory not to aid in any way a third party committing aggression against the other signatory.

The Nanking foreign office, in a communique, referred to Japan as "China's aggressor" but said if Japan would change her national policy China would be glad to conclude a similar nonaggression pact with her.

China's Hopes Up The communique said "great hopes are entertained" concerning the agreement with Moscow, adding that it might "prove a turning point for general improvement of the Far East situation."

Foreign authorities found nothing in the official version of the new treaty to support any expectation of Russian material or military support for China against Japan.

(Students of international affairs, however, have noted that Japan's steady expansion on the Asiatic continent, pressing against Russia as well as China, although in less degree, has steadily drawn China and the Soviet Union closer together since 1931.)

The Chinese Government announced that the treaty with Russia follows the general principles of the Briand-Kellogg pact of 1928.

Former Secretary of RMA, CC Visits At Ex-Residence

H. C. Davis, former secretary of the Eastland Chamber of Commerce and Retail Merchants' association, was in Eastland Sunday to arrange transportation of his household goods to his new home at Cleburne.

Mrs. Davis and their children who have been visiting at Tahoka, were met in Abilene by her husband for the trip to Cleburne. Leaving a few days ago to be away until time for school. Mr. and Mrs. Jack Frost are occupying their home and had as their week-end guests, Mr. and Mrs. Carroll Allen of Austin.

Eastland Personal

Miss Jane Connelley Whittington was a week-end visitor in Austin, with Mr. and Mrs. Will Seagriff. Mr. and Mrs. W. A. Wiegand have returned from a week's vacation spent in the Davis Mountains. Divorce has been granted by 91st district court to Tom High and Hazel High.

SHE'S MOORS' MERCY ANGEL

Anita Royo, 17, the only woman serving with the rebel forces on the Madrid front, has been twice wounded. She stowed away on a plane from her Morocco home when the rebellion started and since then has been acting as a nurse for Moorish troops under Franco.

Sit-Down Strike Still In Style

HOUSTON, Aug. 30.—The national maritime union called a sit-down strike on every cargo ship in port today and protested against arrival of a freighter manned by seamen of a new rival longshoreman's union.

'37 Paralysis In Increase Over 1936

CHICAGO, Aug. 30.—Infantile paralysis is centering in the west, south central states and the middle west, a United Press survey showed today. The U. S. Public Health Service said there have been over 3,000 cases for the first 33 weeks of this year, as compared with 1,454 in the corresponding period last year. Nearly 250 victims died.

TOWN IRKED BY TRANSIENTS

SAN JOSE, Cal.—To discourage transients without means of support the county supervisors have asked permission of the state highway authorities to post signs on all roads in San Mateo county announcing that no free food will be passed out.

DIVORCE GIVEN

Divorce has been granted by 91st district court to Tom High and Hazel High.

WASHINGTON WITH RODNEY DUTCHER

BY RODNEY DUTCHER NEA Service Staff Correspondent

WASHINGTON—If you've been a fairly constant reader of the papers for the past couple of months, you may have seen anything very noteworthy in this headline: ROOSEVELT TRIMS PROGRAM TO HASTEN END OF SESSION; SEES HIS POLICIES MENACED

But there is something notable about the headline just the same. It is the fact that it is from the New York Times of June 8, 1933, just four years ago. And it carries the suggestion that some of the breathless speed at which the New Deal has been moving has been on a circular course. In some respects that headline is a landmark showing familiar territory which we passed through four years ago.

The New Deal program is again being "trimmed to hasten the end of the session," and trimmed savagely, at that. The mutilated wage-hour bill designed to end sweatshops, spread work, and in-millions, has just died for this session. Efforts to get crop control legislation, aimed at keeping farm prices up and eliminating huge surpluses, have also been "trimmed" for this session.

Four years ago, in the full tide of New Deal enthusiasm, the nation was starting out with NRA and AAA, respectively designed to accomplish those aims. But both acts were killed by the Supreme Court. It is noteworthy that day, four years later, the effort to legislate on the same subjects is, for this session at least, stymied.

SISTER MARY'S KITCHEN

By Mrs. Gaynor Maddox

LENTILS are the roast beef of many a European diet. And you don't have to favor the League of Nations to know that with meat sky high foreign dishes offer substantial ways to cut the food bill without cutting down the family nourishment. Lentils, little appreciated here, can be delectably interesting, they cost hardly anything.

Lentils With Egg Sauce (4 to 6 servings) One package dried lentils (1 pint), 2 carrots, 1 large onion, salt to taste, 2 1-2 tablespoons butter, 3 teaspoons chopped parsley, 1 egg yolk, 1-4 cup soup stock, pepper, 1 tablespoon lemon juice.

Wash lentils well in cold water. Soak over night. In morning drain and set to boil with onion, carrots, and salt in cold water to cover. When tender, drain off water. Remove onion and carrots. Turn into saucepan, add butter and parsley. Beat egg yolk, add soup stock and continue to beat until light. Stir into lentils. Remove from heat, add lemon juice and pepper. Serve at once.

Sauteed Lentils (6 to 8 servings) One quart lentils, 1 teaspoon salt, 1-2 teaspoon pepper, 1-4 teaspoon baking soda, 2 tablespoons butter, 2 tablespoons lard, 1 minced onion.

Wash lentils, soak overnight. In the morning drain, add cold water and soda and bring to the boiling point. Boil 1 hour, drain and cover with fresh boiling water and boil until tender. Drain. Melt fat in a frying pan, add the lentils and seasonings and onion. Cook over a slow fire about 20 minutes. Soy beans and split peas also come to the homemakers' aid while the cow jumps over the moon.

Tomorrow's Menu BREAKFAST: Fresh grape juice, parsley omelet, whole-wheat toast, coffee, milk. LUNCHEON: Lentils with egg sauce, sliced tomatoes, chocolate, cookies, tea, milk. DINNER: Tomato juice cocktail, split pea roast, white sauce, French fried potatoes, corn and peppers, white grape and lettuce salad, peach shortcake, coffee, milk.

THIS CURIOUS WORLD By William Ferguson

Comic strip panels with dialogue and illustrations. Includes text: 'THE MILK OF ALL MAMMALS WILL PRODUCE BUTTER!', 'CINDERS FROM THE GREAT CHICAGO FIRE SPREAD OVER A LARGE PART OF THE EARTH!', 'AT THE BOTANICAL GARDENS IN NEW YORK CITY, A SPECIMEN OF THE GIANT ARUM HAS BLOSSOMED! ONLY SIX OTHERS HAVE BEEN KNOWN TO BLOOM UNDER CULTIVATION! THE BLOSSOMS MEASURE ABOUT EIGHT FEET IN HEIGHT.'

Dionne Appearance At Fair Rejected

TORONAO, Canada, Aug. 30.—Dr. Allan Dafoe today turned in behalf of the Dionne quintuplets, a \$500,000 offer for their appearance at the New York World's fair in 1939.

Vienna Doctor Has Diet For Red Nose

VIENNA.—Sufferers from a red nose, don't despair! If your nose is not chilled or has acquired its high color by hard drinking—which latter, doctors say, is a rather rare case—you may be cured, according to Dr. Juvenal, writing in "Der Tag," by observing the following diet: For two months concentrate on vegetables and fruit, consuming only a minimum of fats and albumin.

During the following two months you may add milk and perhaps a little curds. Thereafter, and this is your permanent diet, you may also eat lightly of meat and two eggs weekly. It is imperative that you abstain from animal fats, kitchen salt, smoked and preserved meats, pork, mutton, coffee and tea. To quench your thirst, use milk and fresh fruit juices.

Large advertisement for HUMBLE MOTOR OIL. Features a large number '3' and text: 'One for your car, your pocketbook. At Humble Service Stations Humble Dealers you will find motor oil for your car, a price you'll appreciate. HUMBLE 997: a balanced motor oil. It has every good property in the right proportion for around performance. VELVET: a dependable motor oil at 25c per quart. BAYOU CITY: Sold in 5-gallon and 2-gallon containers at a surprisingly low price; also by quart at service stations and dealers.'

Advertisement for THE CURIOUS WORLD comic strip. Includes text: 'ALL fires, no matter how small, discharge quantities of dust into the atmosphere. Reports came from the Azores 40 days after the Chicago fire that the cinders had reached that place. Most of the so-called "dark days" occasionally reported in the United States are due to forest fires.'
