

# Appeals Court By-Pass Possible In School Case

## Race Petition Could Go To Supreme Court

AUSTIN (AP)—Atty. Gen. John Ben Shepperd said today final court action is possible before school starts on the question of whether state money can be paid to desegregated schools under present laws.

The comment was in connection with a suit filed by the Texas Citizens Council in district court at Big Spring. The suit seeks to bar payment of state funds to schools which permit Negro and white students to attend classes together.

Shepperd said an appeal from the district court decision could be carried directly to the Supreme Court, by-passing the intermediate appeal court.

"If the court should hold that state payments can be made to desegregated schools under the Gilmer-Alkin (education) Laws as they are now written, there would apparently be no immediate problem," Shepperd said.

"That presumably would remove any urgent need, so far as state aid payments are concerned, for a special session of the Legislature to adjust state education laws in line with the recent U.S. Supreme Court ruling that segregation is unconstitutional."

Shepperd declined to comment, however, on the special session question, saying that was in the province of the governor. Gov. Shivers has been out of town and unavailable for comment on recent speculation of a special session.

Earlier Shepperd had said that if Texas laws on segregation are eliminated, the whole structure of school laws will collapse. He noted again today that segregation is so intertwined in the Texas education laws, elimination of that feature could throw the remaining parts of the laws out of balance.

## Both Sides Sum Up Cases In Trial Of Sgt. Gallagher

NEW YORK (AP)—The prosecution and defense summed up today in the court-martial of Sgt. James C. Gallagher who is charged with collaborating with the enemy and causing the deaths of three fellow Korean War prisoners.

The prosecutor, Maj. James J. Jenkins, asserted that "on the evidence it has proved every specification and every charge beyond a reasonable doubt."

In turn, Lt. Col. William B. Walsh, defense counsel, claimed that two of the soldiers the 23-year-old Gallagher is accused of murdering might have died "in the normal course of events" at a Korean prison camp in 1951.

The prosecution contends Gallagher carried favor with the Chinese Reds and threw two ailing POWs from a prison hut and left them to die in the freezing cold.

Walsh said "witness after witness has testified that it was just as cold outside as it was inside and not one word of proof has been offered in the record as to the cause of death" of Cpls. Donald Thomas Baxter and John William Jones.

Throughout the summations, Gallagher sat listening intently. Tense spectators were his mother and two sisters.

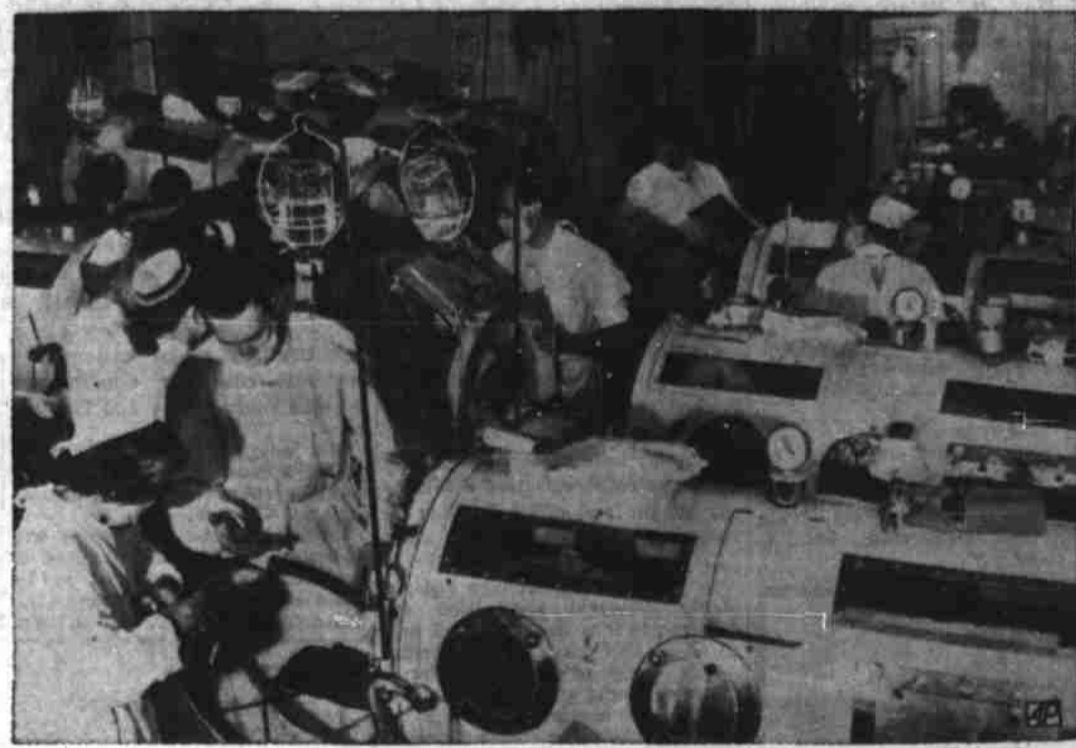

## PRISON RIOT Guards Club Cons Into Submission

COMSTOCK, N.Y. (AP)—Guards and state police, using night-sticks and guns as clubs, battled prisoners for 28 minutes early today and broke up an uprising at Great Meadow Correctional Institute.

Eighteen prisoners were injured. One shot was fired accidentally when heavily armed guards and state troopers herded the 174 rebels back to their cells. The shot ricocheted and wounded two troopers and a guard. The other casualties were a trooper and 14 prisoners, who suffered cuts and bruises.

It was the first revolt in a New York state prison in a quarter century.

The rebels had defied an ultimatum from Thomas J. McHugh, state correction commissioner. McHugh raced here 100 miles from Canton and told the rebels to end the disturbance within five minutes. They did not comply.

Emergency Polio Ward

Here's a general view in the corner of the emergency polio ward at Haynes Memorial Hospital in Boston, Mass., as Boston's polio epidemic reached 480 cases. Teams of doctors and nurses are giving emergency treatment to critical bulbar cases. There are 21 iron lungs in this room supplied by the National Foundation for Infantile Paralysis which has already brought 61 of the respirators into the city. The critical patients are lined up close together so hardpressed medical teams can give them fast emergency treatment as needed.

## Airport Financing Discussion Slated

The financial problem of building a permanent municipal airport here will be the topic of discussion at a noon meeting Monday in the Chamber of Commerce conference room.

Attending the meeting will be the members of the Chamber's Aeronautics Committee, the Howard County Commissioners Court, County Judge R. H. Weaver, City Manager Herbert Whitney, Chamber president Marvin Miller, and other members of its Chamber's board of directors.

Jack Cook, chairman of the Aeronautics Committee, said the Air Space Subcommittee in Dallas had approved a site for the proposed air field. Cook and Miller attended the meeting at Dallas earlier this week. The area tentatively approved for the field is from 10 1/2 to 13 miles east and southeast of Big Spring, Cook said.

No plans have been made for a more definite site as yet, Cook added. Approval of the area was the first step before making definite financial arrangements for construction of a field.

Big Spring has been without a suitable air field since Webb was reactivated. The Air Force installation took over the municipal field and local flyers have been using a small field northwest of the city which is suitable only for very light aircraft. The field has only short, unimproved runways that cannot be used for commercial airline traffic.

The CAA will not approve the transfer of Webb's field to the government as a permanent installation unless more adequate municipal flying facilities are available. A municipal field must be at least 10 miles from Webb.

The annual chest X-ray survey will be held Sept. 30-Oct. 8 this year, according to Mrs. Alton Underwood, chairman of the x-ray committee of the Howard County Tuberculosis Association.

The dates were set at a meeting of the group Wednesday afternoon in the city-county health unit office. Phillip Gauss of the State Health Department, Tuberculosis Division, was on hand to discuss the program with local workers.

A place for the x-rays has not been decided upon, but Ike Robb, president of the local TB Association, is making the arrangements. Persons attending the meeting Wednesday were Zack Gray, co-chairman of the x-ray committee, Mrs. Bill Seals, clerical and hostess committee chairman; Jewel Barton, health unit nurse; Lige Fox, sanitarian; Robb, Mrs. Underwood, and Gauss.

The schedule for the free x-rays starts at 1 p.m. Sept. 30. Then they will be given from 9 a.m. to 6 p.m. each day, except Sunday, Oct. 1-3. This schedule will give local persons seven and a half days to come in for the x-rays, Mrs. Underwood said.

Mrs. Seals will have charge of the bookkeeping for the program and will make arrangements for registration and the order the persons will be received.

WACO, Tex. (AP)—Bill Masters, 3, was killed and seven persons hurt yesterday in a collision at a busy downtown intersection. The injured included his mother, Mrs. Robert Masters.

Collision Kills Baby, Injures Seven Others

THE WEATHER  
BIG SPRING AND VICINITY: Partly cloudy with light drizzle in 10 a.m. showers. Steady rain in afternoon and evening. High tonight 84, low tomorrow 68. Wind S.W. 10 to 15 m.p.h. Clearing this date 10 p.m. High today 84, low tonight 68. Wind S.W. 10 to 15 m.p.h. Clearing this date 10 p.m.

## Giles, DA, In Huddle Over 10 Land Cases

AUSTIN (AP)—Bascom Giles and Dist. Atty. Les Procter huddled for more than two hours yesterday for a talk about 10 veterans land scandal criminal cases still pending here against the convicted former land commissioner.

Procter said after the conference the cases were "just discussed." He said no "agreement" was made on disposition of them.

Giles could not be located for comment after the meeting. But his lawyer son, Rogan Giles, said he was sure his father would have nothing to say about the conference.

Giles said before entering the DA's office that disposition of the remaining cases was the reason for his visit.

Giles is free on two special bonds—one from conviction here last month on a charge of complicity in theft of state veterans land program funds, and the other from his plea of guilty in San Antonio Tuesday to an indictment charging that he consented to accept a \$30,000 bribe.

His son said the primary reason for the appeal from the guilty plea was to give the ex-commissioner time to get his personal affairs in order before starting to serve his sentence.

Giles got a three year sentence from a jury here in the accomplice to theft case, and a six year sentence from the court in San Antonio. The Bexar County court made the sentences run concurrently.

Nine of the remaining cases here accuse 54-year-old Giles of theft of state funds in connection with a veterans land deal in Kinney County last fall. His conviction here resulted from that transaction. The 10th pending case here charges conspiracy to commit theft in a land program deal in Dimmitt County.

Procter, meantime, has said the remaining cases will be set for call in October.

Steering Committee For City Industrial Foundation To Meet

A meeting of the steering committee for the Big Spring Industrial Foundation has been set for 7:15 p.m. Monday in the Chamber of Commerce conference room.

The committee was appointed Monday by the directors of the Chamber of Commerce after they approved the charter and by-laws of the foundation.

The foundation is to be non-profit and is set up for 50 years. Its purpose is to render financial and other assistance to manufacturing and industrial development in Big Spring and the surrounding area.

The 25-member steering committee is to encourage membership in the venture as well as attend to immediate business.

NAACP Petitions For Desegregation

GREENVILLE, Tex. (AP)—Immediate desegregation of Greenville schools is asked in a petition from the Hunt County Chapter of the National Association for Advancement of Colored People.

The school board had announced earlier this year schools here will continue on a segregated basis through the 1955-56 school year.

Victoria Schools To Continue Segregation

VICTORIA, Tex. (AP)—Victoria schools will continue on a segregated basis through the 1955-56 school year, trustees announced last night.

Mighty Low Sales Cost  
This user of Herald Want Ads sold his house to "the first people who looked at it" on the first day the ad was run. That means about as low a sales cost as you can get!

Wanted Man And Arms Seized

A leather jacket draped over his arm, Charles Falzone, 42, one of the FBI's 10 most wanted men is led out of the U. S. marshal's office in Pittsburgh, Pa., (left), after he was arrested nearby New Bedford where he had been living for the past eight years. At right, a deputy U. S. marshal packs the firearms found in Falzone's home which included 15 pistols, 7 rifles, and a shotgun.

## U.S., China Envoys Meet For 8th Talk

GENEVA (AP)—The U.S. and Communist Chinese ambassadors met today for the eighth talk in nearly three weeks of secret negotiations here on repatriation of civilians each government claims the other is holding.

So far the two envoys, U. Alexis Johnson of the United States and Wang Ping-nan of Peiping, have announced no progress toward a solution.

The United States is seeking the release of 41 American civilians it says the Reds have jailed, put under house arrest or refused to let have exit permits.

Peiping contends that the United States is holding thousands of Chinese students in America against their will. Washington says all Chinese nationals are free to leave the country.

## Extension Granted Moroccan Ruler In Home-Rule Efforts

PARIS (AP)—The French government today gave Sultan Mohamed Ben Moulay Arafat "a few more days" to form a broad Moroccan government that would put the protectorate on the way to home rule and quell mounting violence.

The announcement was made after a four-hour cabinet meeting over which President Rene Coty presided.

Resident Gen. Filbert Grandval is due in Paris later today to report on Ben Arafat's chances.

The Sultan is believed to have achieved little, if any, progress toward forming a new Cabinet.

The French cabinet ministers are scheduled to meet later today with Grandval to set up a conference of both French and Moroccans to see what can be done if Ben Moulay Arafat fails, as it is generally expected that he will.

Secretary of State Jean Medecin, the cabinet spokesman, told reporters that the Sultan had asked for an extension of the brief period given him to form a government.

The Sultan had been asked to bring together all tendencies of Moroccan opinion in his government. The powerful Nationalist group refused to join.

Official French reports from Morocco disclosed more violence in the protectorate. At least four persons died in Casablanca a last night and seven were wounded, including a French doctor whose car was stoned.

French troop reinforcements were arriving in Morocco in preparation for a crisis expected Saturday, anniversary of the exile by the French of pro-nationalist Sultan Mohammed Ben Youssef. Terrorist groups have called for a general strike.

## Waco Rules Gradual Integration Policy

WACO, Tex. (AP)—Under a gradual desegregation policy the Waco School Board will open the first grades here to white and Negro students alike this fall.

The board, in a statement of policy issued yesterday, said other grades will be integrated in succeeding years but not necessarily at the rate of one grade a year.

## Councilmen Delay Impeachment Vote

HOUSTON (AP)—The illness of Councilman Mat Wilson, the mayor pro tem, prevented the Houston City Council from taking a final vote today on the impeachment of Mayor Roy Hofheinz.

Six councilmen conferred behind closed doors over an hour and then announced they could reach no verdict without Wilson. They scheduled their next meeting for Monday.

The council had been expected to vote formal impeachment today, but speculation has developed on the possibility of a strong reprimand or censure as a substitute for the attempt to oust the 42-year-old mayor.

Some councilmen appeared reluctant in that impeachment would require an election within 30 days to select a new mayor. Houston voters on Tuesday approved a Hofheinz-backed charter amendment setting a new election for mayor, city controller and the eight council positions Nov. 19.

Hofheinz has said only a court order can remove him from office. The mayor's impeachment trial ended yesterday after he and seven councilmen accepted a truce long enough to hold the first formal council session in two weeks.

Hofheinz was not there later, however, when the councilmen completed his trial with a 10-minute session in which no witnesses were called. The hearings began July 15.

The mayor repeatedly has said that only a district court order can remove him from office. He has ignored the impeachment trial and an 18-day suspension voted by the council.

The eight impeachment charges against Hofheinz alleged he had knowledge of and gave consent to certain actions under investigation in a city land office scandal, gave department heads instructions designed to pressure the council into accepting a 20 per cent tax boost, and failed to discipline city employees who violated voting regulations and used city-owned automobiles improperly.

Both sides have court petitions filed. Hofheinz seeks a declaratory judgment. The councilmen seek a summary judgment. The mayor questions the constitutionality of the council's serving as complainants, prosecutors, judges and jury for the impeachment proceedings.

Among council business transacted yesterday was a quick canvass of returns from Tuesday's city charter election, in which Hofheinz won.

(See HOFHEINZ, Page 8, Col. 3)

## ORDER CHALLENGED Split Vote Backs County Engineer

The commissioners court, voting 3-2 Wednesday, upheld an order of Engineer Foster Dickey transferring equipment within the county road department.

The vote came after Earl Hull, Precinct No. 4 commissioner, questioned Dickey's order transferring a pick-up truck from the maintenance to construction division of the road department. The order also covered the exchange of two maintainers between the two divisions.

Hull contended that four pickups recently were purchased for the maintenance division, and that the vehicles should remain with the maintenance workers. Dickey said that the construction division was without transportation of any kind, while maintenance workers had five vehicles.

A vehicle previously assigned to construction is now being used by the department's draftsman-surveyor who was without transportation, Dickey said.

Commissioner Hull said he wouldn't object to the exchange of graders if operators were swapped also. Dickey didn't want to transfer operators. He said a maintainer in use on maintenance in Hull's precinct was more suitable for construction work than the grader he ordered sent to maintenance in the exchange.

Hull made the motion that Dickey's order be reversed. The motion was seconded by Commissioner Ralph Procter of Precinct No. 1. Commissioners Arthur Stallings of Precinct No. 3 and G. E. Gilliam of Precinct No. 2 voted against the motion and the tie was broken in the engineer's favor by Judge R. H. Weaver.

# 16 Show Business People Defy Probe

NEW YORK (AP)—The House Un-American Activities Committee, which today winds up hearings here into alleged Communist leanings in show business, has been defied by 16 out of 17 witnesses.

After actor George Hall—the 12th witness—admitted yesterday he had been a Communist, five other persons took the stand and refused to answer committee questions on constitutional grounds.

The first 11 witnesses also balked at questions during the first three days of hearings.

Madeline Lee, 32, actress and wife of comedian Jack Gullford, yesterday cited the First, Fourth, Fifth and Eighth amendments.

She cited the Fourth Amendment on the grounds that the inquiry constituted "illegal search and seizure and deprivation of the only thing I have to sell, my talent."

And the eighth on the ground she could not be subjected to "cruel and unusual punishment."

Like other balking witnesses, she pleaded the First Amendment, which guarantees freedom of speech, and the Fifth, which provides that a person may not be compelled to testify against himself.

Another witness was George Keane, one of six persons named by Hall as having been Communists. Keane appeared in "The Seven Year Itch" and "Brigadoon."

Keane, citing the First, Fourth and Fifth amendments, told the committee headed by Rep. Francis E. Walter (D-Pa.):

"I've always been a patriotic American who has fought for his country and I would fight again."

"But I'm not going to answer such questions (about Communist affiliations) because I consider this hearing an inquisition and not an investigation."

Actor Joshua Shelley, also named by Hall as having been a Communist, denied the committee's right to question him about his associations. He pleaded the First and Fifth amendments.

Peter Lawrence, former stage manager of the Ballet Theatre and co-producer of the 1950 production of "Peter Pan," was asked if he led "Actor for Peace" unit in the 1952 May Day parade.

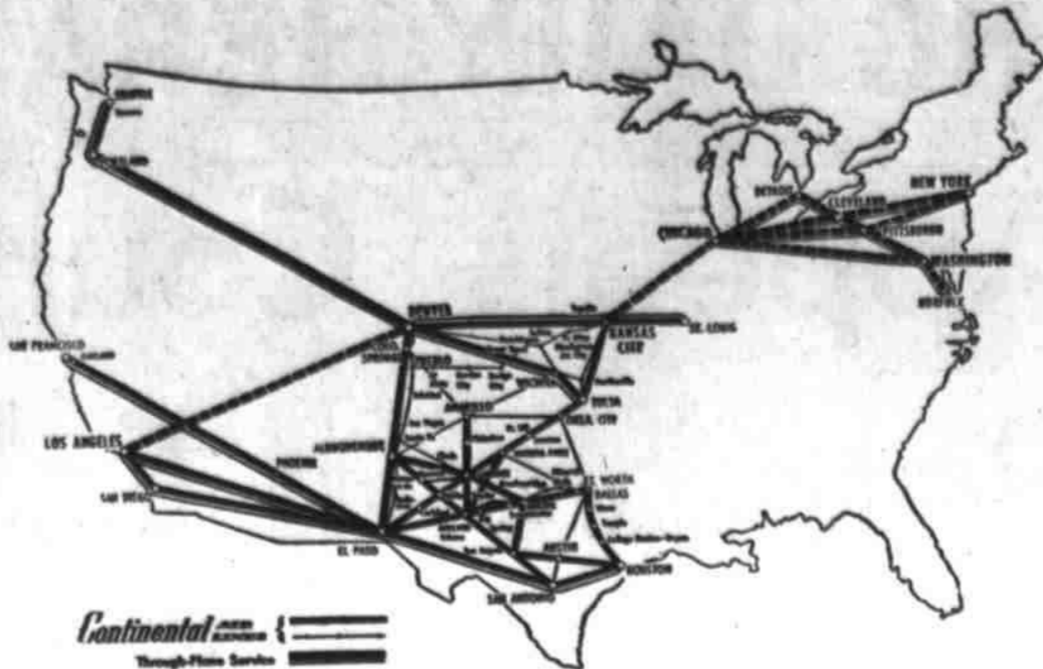

Replied Lawrence: "I can do whatever I please. I can walk, I can march and I don't have to testify about it."

The final witness was Albert Ottenheimer, a veteran actor and native of Tacoma, Wash. He was graduated from the University of Washington and later organized the Seattle Repertory Playhouse. He testified he spent about 20 years with the playhouse, acting and helping to direct shows.

Ottenheimer cited the Fifth Amendment in refusing to answer whether he had ever been a Communist party member or had taught in Communist-supported schools.

He said, however:

"I have never committed espionage or knowingly advocated the use of force or violence to overthrow the government. I am deeply and unwaveringly loyal to my country."

# Continental Plans Expansion With Recommended Routes

Continental Air Lines, Inc., of Denver, recommended for extension of routes to Chicago and Los Angeles by a CAB examiner last Thursday, immediately announced plans for construction of a \$7,000,000 hangar and office building at Denver headquarters of the company.

In the Service-to-Denver case, a highly contested application for new routes into Denver by all major trunk line carriers, Continental—as result of examiner Ferdil nand M. Moran's recommendations—suddenly blossomed from a regional trunk-feeder line in six western states to a potential coast-to-coast carrier.

Moran recommended grant of a new route to Continental between Denver and Los Angeles and extension of its present Denver—Kansas City route into Chicago with a proposed "interchange" arrangement combining the services of Continental and Capital Airlines to link Capital's major eastern and mid-west cities to Continental's western communities and Los Angeles.

The suggested program comprises a fourth major transcontinental system via Denver, Kansas City and Chicago.

Addition of the new routes will add approximately 1400 miles to Continental's current 4,961 mile route serving Denver, Kansas City, Tulsa, Oklahoma City, Dallas, Houston, San Antonio, El Paso, Amarillo and Albuquerque, and 40 other major communities in six states.

Continental's present fleet of five DC6Bs (two on lease), six Convairliners, and nine DC3s will be augmented in March, 1956 with three additional Convairliners and in April, 1957 with five new DC6Bs. Purchase of the additional fleet, costing ten million dollars, was announced on April 26 at the annual Board of Directors meeting.

# U.S. Seeks Triple-Barrelled Protection Against Radiation

By FRANK CAREY  
AP Science Reporter

GENEVA (AP)—The United States is working intensively on a triple-barrelled method of protection against the effects of atomic radiation.

If the method proves applicable to humans, you would take a pill of a chemical called "thiuronium" as soon as the warning sounded for an atomic attack or an atomic plant accident.

Immediately after exposure to radiation, you would get an injection of bone marrow to help recovery from any radiation effects not covered by the original pill.

Finally a shot of streptomycin would reduce the bacterial infection which is potentially high in cases of radiation damage.

Dr. Alexander Hollaender of the U.S. Atomic Energy Commission described the combination treatment last night at the atom-for-peace conference.

Hollaender said the three-step treatment enabled 50 per cent of a group of mice to survive three times the amount of radiation they could otherwise have endured.

But he emphasized:

"It will take at least another year or two before some of the questions can be settled and before one would consider it for human application."

Hollaender stressed the need for finding means of protection from radiation that might be encountered with the expansion of peaceful uses of atomic energy. He did not mention radiation from atomic attack, but the implication was clear that protection against industrial radiation also would help in the event of nuclear warfare.

The American scientist said the major question still unanswered is whether thiuronium is too toxic for man in doses strong enough to give a high degree of protection. In animal studies, he said, it appears to be less toxic than two other related substances which also have shown high protective effects.

The AEC is working with the University of Rochester, N.Y., in further experiments on the method.

Hollaender also told the conference a new finding—demonstrated so far only in bacteria—shows that the process of genetic or hereditary change requires considerable time to be completed after radiation has been absorbed.

"During this time," he said, "it is possible to do something about it. We can prevent a high percentage of mutations (changes in cells bearing hereditary characteristics) to be realized by either treatment before or after exposure."

Pointing out that this finding may be of "considerable importance to the human race," Hollaender said he "unfortunately" was not able to report whether it would apply to mammals.

"Experiments to check this on mammals have been started and it will take several years to obtain even preliminary data, he explained.

Hollaender said persons who are exposed to "significant" amounts of radiation should avoid conception for several weeks afterward.

Experiments with mice, he explained, show that sufficiently severe radiation can damage chromosomes in the male sex sperm. Sufficient dosage, he added, can result in "stillbirth or other detrimental effects" in the offspring.

# VA Has Place For Nurse-Anesthetist

The Veterans Administration Hospital has an opening for a nurse anesthetist, Hayes Bacus, personnel manager, announced today.

The applicant may be either man or woman and the salary, which depends on experience, education and training, ranges from \$4,730 to \$6,390 per year.

Also needed at the VA hospital, according to Bacus, are an occupational therapist and a physical therapist, both with a salary of \$3,670 per year.

Bacus explained that men, as well as women, can apply for the nursing assistant jobs which are now open. He said applicants must pass a test given by the Civil Service board of examiners. Jobs as nursing assistant are open both at the VA hospital and at Webb AFB. The salary is \$2,960 to \$3,175 per year.

Information concerning these jobs may be obtained at the personnel office in the hospital.

# CAL Authority To Serve Area Is Proposed By CAB

The Civil Aeronautics Board Wednesday proposed to give Continental Air Lines "permanent authority" to serve Big Spring and 15 other towns on the route it acquired in the merger with Pioneer Air Lines.

The CAB also proposed temporary certification for service to seven other communities, including Snyder and Lamesa.

Permanent authority would be granted for the service to Big Spring, Abilene, Amarillo, Austin, College Station-Bryan, Dallas, Fort Worth, Houston, Lubbock, Odessa-Midland, San Angelo, Temple and Waco, and Albuquerque, Clovis and Santa Fe, N. M. The temporary certificates would be for service to Lamesa, Snyder, Sweetwater, Plainview, Mineral Wells, Breckenridge, and Las Vegas, N. M. The temporary service would be authorized for a period of three years, according to the proposal.

The CAB asked Continental and others to file any objections to the proposed order within 15 days.

Continental has been operating the former Pioneer routes since its merger with Pioneer last April 1. The airline, a "trunk" outfit, had permanent authority to serve its own route, but only temporary authority to provide service on the routes acquired from Pioneer.

In 1955, more than ever

# BUSINESS IS RELYING ON NEWSPAPER ADVERTISING TO KEEP SALES CLIMBING

In 1955's first half, newspaper advertising has made its biggest contribution on record to the continued growth of American business.

In the first six months, business invested more dollars in newspaper advertising than in any half-year in history.

Manufacturers' advertising set a new record.

So did retailers' advertising—including the department stores, chain stores and all the rest.

So did classified advertising—mainstay of real estate, used cars and many another business.

Manufacturers and retailers alike are profiting from the salespower of newspapers—the salespower that stems from the fact that newspapers are the shopping medium—where consumers look eagerly for advertising—and from the fact that nowhere else can manufacturers' ads and retailers' ads work together so effectively to increase the productivity of both.

IF YOU ARE

- a manufacturer
- a retailer
- a distributor
- a merchandise broker
- a manufacturer's salesman

... ASK YOURSELF: Is newspaper advertising being called on to do all it can to keep my sales going up?

**HERE'S THE RECORD\***  
1955 VS. 1954

	June	1st Six Months
National advertisers . . . . .	Up 15.9%	Up 9.5%
Retail advertisers . . . . .	Up 8.9%	Up 6.8%
Classified advertisers . . . . .	Up 17.8%	Up 14.4%
All advertisers combined . . . . .	Up 12.5%	Up 9.2%

*In each category—Biggest June on record—Biggest six months on record*

\*SOURCE: Media Records 52-City Index. Available data from 291 smaller newspapers reporting to the Bureau of Advertising, ANPA, indicate substantial gains in these newspapers, too—e.g. national advertising in these 291 smaller newspapers was up 13.8% for June; up 4.8% for the first half—vs. 1954.

# Naturally, They Still Had The Key

LONG BEACH, Calif. (AP)—Eight-year-old Phillip French kicked at some old newspapers on the beach yesterday and made a fascinating find—an obsolete pair of handcuffs.

Naturally, he tried them, on his ankles. Just as naturally, he couldn't get 'em off. He hobbled to a nearby hamburger stand run by his mother Mrs. Richard French.

She hustled him to police headquarters. Sgt. Robert Houghton tried all manner of keys and finally found one that set Phillip free.

# Youth Gets Ready For School Opening

DALLAS, Tex. (AP)—Police arrested a 15-year-old boy yesterday who admitted taking 1,500 pencils in a Sunday burglary at an advertising firm.

"What in the world did you want with all those pencils," officers asked.

"Well," replied the boy, "school starts pretty soon."

# Veteran's Friend May Claim Flag

A close friend or an associate of a deceased veteran may receive the veteran's casket if no claim is made by the next-of-kin.

The Veterans Administration said this provision is made in a new law signed by the President. Previously, such flags were presented only to the next-of-kin of veterans who were discharged after serving a full enlistment or for disability in the line of duty.

'Not As A Stranger'

Olivia de Havilland and Robert Mitchum are the stars in "Not As A Stranger" now playing at the Ritz. The highly dramatic picture started Tuesday for its local premiere here and played to a capacity audience. The film version follows the book closely except where editing is necessary to cut down the length. Olivia de Havilland is expected to win an Academy Award for her performance in this picture.

## Nehru Claims Riot Total Now Up To 22

NEW DELHI, India (U)—Prime Minister Nehru said today the number of dead in the march on Goa and other Portuguese possessions in India last Monday "now is presumed to be 22."

In his third statement to Parliament in as many days on the "peaceful invasion" of Portuguese India, he reported 225 marchers were wounded and 2 still are missing.

In the total of fatalities, Nehru was adding to the 15 dead he reported Tuesday the 7 victims already cremated inside Goa. His figures were supplied by the Bombay state government.

The Indian demonstrators had launched what they called a "peaceful invasion" to take over the enclaves Portugal refuses to give up.

Communist leaders said Nehru's speech in Parliament yesterday in which he apologized for damage to foreign diplomatic and information offices during Goa protest demonstrations Tuesday was "a humiliating document."

They issued a statement to newspapers saying instead of being critical the Prime Minister should have "paid tribute to the massive emotions of our people which has made them feel proud and exhilarated."

Madras added to the series of general strikes honoring the "martyrs" of the Goa march today. The city on India's southeast coast was paralyzed as business and transportation shut down. No clashes were reported.

Earlier this week, New Delhi, Bombay and Calcutta all were gripped by 24-hour strikes, marked by riots.

An article in today's issue of the Economic Review published by Nehru's Congress party accused the United States of "casting a covetous eye on Portuguese possessions in India."

The author's name was given as "N. Novoselsky," but a party spokesman was unable to identify him.

The article said it was at Washington's bidding that Lisbon is opposing India's claim to Portuguese territories.

Marmugao, Goa's port, it added, "has been turned into a large naval base with airdromes all around it" and American arms are shipped into Goa regularly.

Informed sources said Nehru and other high Congress officials were "shocked" when they learned of the article.

Soon afterward a Congress spokesman gave newsmen this oral statement:

"In our next issue we will carry a notice that the article was inadvertently inserted and does not in any way represent the views of Congress party."

The Congress spokesman said he could not identify the author but the article came from a pamphlet distributed by the "Goan Liberation Committee"—a Communist-backed group.

## Baptists Tell Of Russ Visit

LONDON (U)—Four leading American Baptists returned to Moscow Wednesday after a tour of the Soviet Union. Moscow radio quoted them as saying they were pleased with their contacts and the treatment they received.

Moscow radio said Dr. Arnold T. Ohrn, of Washington, D.C., general secretary of the Baptist World Alliance, told Russian newspapermen he was impressed by the "active religious life" in the localities the group visited. These centers included Leningrad, Kiev, Odessa, Simferopol, Yalta and Kharkov.

"Our contact with the Baptists of the U.S.S.R. and the Russian people in general was very pleasant," he said. "We hope that the opportunities for visits will increase in the future."

Others who made the trip are the Rev. Vernon Carney Hargrove, pastor of the Second Baptist Church of Germantown, Philadelphia, and a past president of the American Baptist Convention; the Rev. Theodore F. Adams, pastor of the First Baptist Church of Richmond, Va., and president of the Baptist World Alliance; and the Rev. Joseph H. Jackson, Negro pastor of the Olivet Baptist Church, Chicago, and president of the U.S. National Baptist Convention.

## Convicted Negro Rapist Dies In Electric Chair

HUNTSVILLE, Tex. (U)—A praying Floyd Ray Jackson, 26, convicted Negro rapist of a Hutchins, Tex., white woman, went to his death today in the state's electric chair.

The first charge of deadly current hit Jackson at 12:05 a.m. Just three minutes after he entered the death chamber. Three minutes later, at 12:08 a.m., he was pronounced dead.

Jackson and Calvin Ray Bennett, now serving a life sentence, were convicted of the June 29, 1954, rape of a Hutchins housewife who had gone to an outbuilding at her home to get gasoline for the pair.

The bury Jackson shook his head negatively when asked if he had a last statement. He groaned as death house attendants strapped him into the lethal chair.

Then the condemned man called to Father Francis Duffy, the prison's Catholic chaplain. Duffy talked to the man in low tones that witnesses could not hear. Then, after another call from Jackson, he and the chaplain held another short whispered conference. The priest declined to say what they talked about.

"I don't know why this had to

happen to me," Jackson complained in his death cell yesterday. "I never hurt anyone." He maintained he was outside the place where the attack occurred while Bennett was inside with the victim.

He blamed his conviction and death penalty on his inability to read and write and a 1951 burglary conviction.

**To Washington**  
TOKYO (U)—The American Embassy today said Ambassador John M. Allison is going to Washington in connection with Japanese Foreign Minister Mamoru Shigemitsu's U.S. trip. Allison is scheduled to leave Monday, one day before Shigemitsu.

## Farm Bureau Defends Action In Cheese Deal

WASHINGTON (U)—The Agriculture Department says it acted "solely in the interest of American farmers" in cheese transactions frowned on by Comptroller General Joseph Campbell.

The Department issued a statement yesterday saying it would carefully review Campbell's opinion that the deal with a number of cheese distributors was "unauthorized and improper." It did not say immediately whether it would seek to recover the estimated two million dollars paid out.

Involved were "purchase resale transactions" around April 1, 1954, when Secretary of Agriculture Benson lowered the cheese support rate from 90 to 75 per cent of parity, and cheese firms hurried to unload at the higher rate.

Under these deals, the government paid distributors 37 cents a pound for the cheese, at the 90 per cent level, then sold it back to them at 34 1/2 cents, without ever taking actual possession of the products. The department said the arrangements were made to keep the cheese in commercial channels and thus readily available to consumers, and to avoid transportation costs.

The department contended the transactions saved money for the taxpayers. Campbell said they cost the government about two million dollars.

The payments were said to have been made to about 100 distributors for about 90 million pounds of cheese.

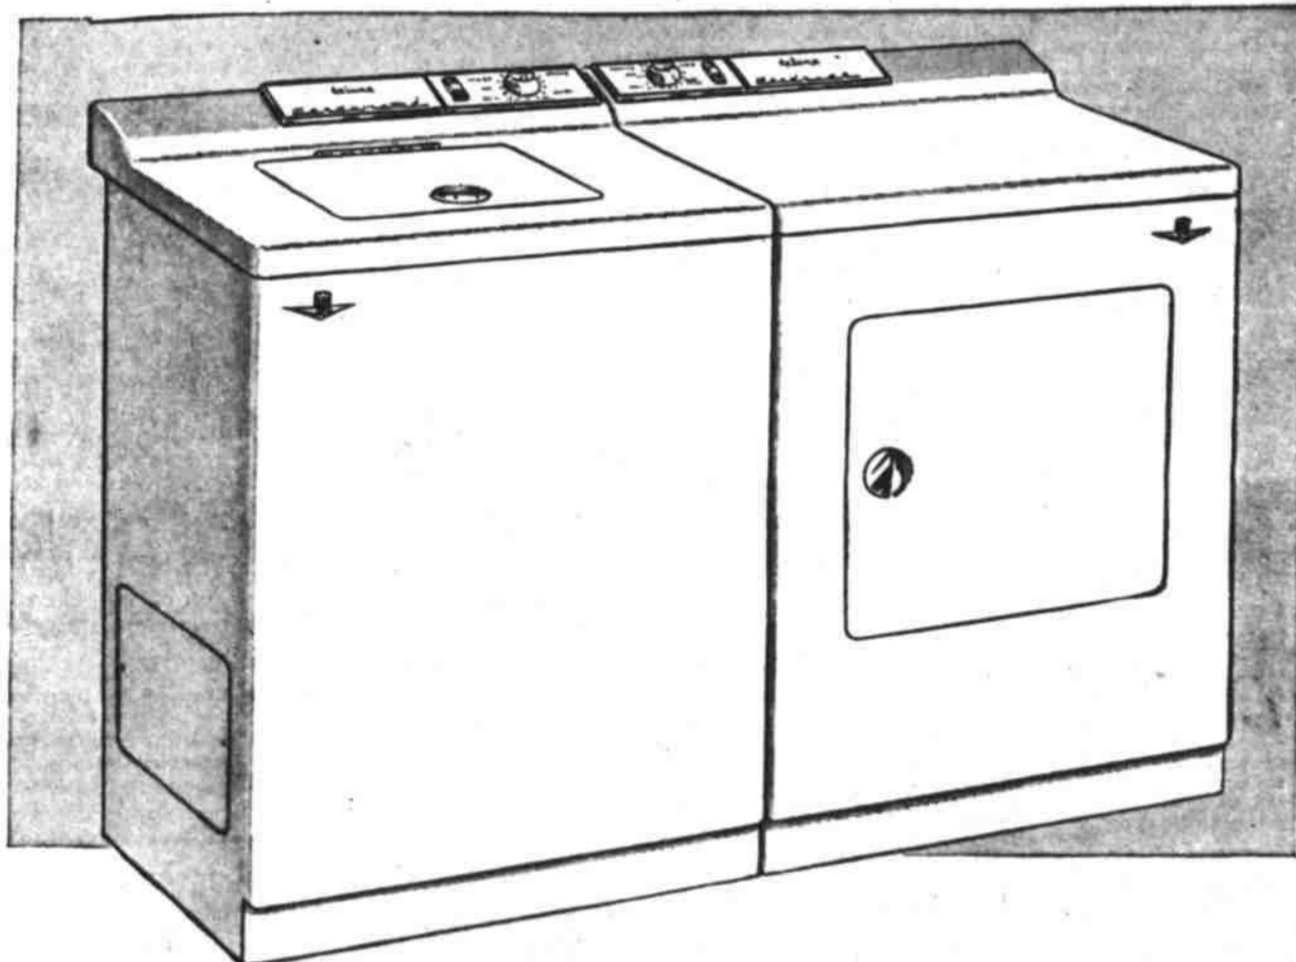

Companies mentioned by subcommittee staffers included Kraft Foods Co., the Borden Co., the National Biscuit Co., A&P stores, H. J. Heinz Co., Superior Cheese Co. (a Safeway stores affiliate), and C. J. Berst & Co., Portage, Wis.

### WARD'S HOME LAUNDRY "TWINS"

BOTH FOR **\$337.88** \$10 DELIVERS BOTH

Comparable in quality and features to nationally advertised brands selling for \$70 to \$100 more. Simply set the dial on the automatic washer. It shuts off automatically (about a half-hour later) when the job is done, and clothes are extra clean. Cleansing currents literally "chase" the dirt from clothes. Over-flow rinsing floats it up over the basket top. Then entire wash is spun damp dry. Dryer (with identical 9-lb. capacity) "makes" ideal weather, 3 heat settings—gentle to every fabric.

**Big 15 Cu. Ft. HOME FREEZER**  
**\$269.88**

REGULAR \$339.95 — SAVE \$70

Save \$70—15 cu. ft. freezer. Now chrome and frosted-green trim. Stores 525 lbs. in 2 compartments. 2 baskets, divider, trays and juice rack give storage flexibility. "No-Sweat" cabinet walls.

**36-in. GAS RANGE. Reg. 154.95**  
**\$134.88**

This sale-priced range features a griddle, ideal for hamburgers, pancakes. Built-in fluorescent light, clock, timer, 2 appliance outlets on modern-design back-ground. Oven has window, light.

## His Friendship Causes Trouble

MIAMI, Fla. (U)—His friendship for a Milwaukee optometrist caused Fred A. Thomas a lot of trouble but the red-haired restaurant worker will get \$5,000 from the man's estate.

Dr. Albert Napientek, the optometrist, died in a Miami Beach hotel room last April 13.

A week later Thomas was found in a motel room at Dunedin with \$60,480 of Napientek's money under the bed. Thomas claimed the optometrist gave him the cash to invest in a barbecue stand, but a charge of larceny was filed.

Harold Shapiro, attorney for Napientek's widow, said yesterday Thomas has agreed to settle his claim for \$5,000.

County Judge Frank Dowling is expected to turn the money over to the widow, as executrix of Napientek's estate, tomorrow.

Thomas still faces the larceny charge but that is expected to be dropped.

## More Crosby X-Rays Slated

FLEWIS, Wash. (U)—Madigan Army Hospital doctors planned more X-rays today on Pvt. Philip Crosby, 21-year-old son of singer Bing Crosby, to get an exact picture of his back injuries.

The young soldier's car went off a highway at Raymond, in southwestern Washington, into a riverbed Sunday and he suffered a fracture of one or more vertebrae. An ambulance brought him here yesterday. He had to wear a traction on his neck but his back was not in a cast.

## Nixon Sets Return

LOS ANGELES (U)—Vice President Nixon returns to Washington today after a nine-day vacation which included golf, talks with political friends and outings with his family.

# MORNING PEEPERS

By Joyce Connaway

On a cool cloudy morning in Big Spring, when rain looks so near, this is what the housewives of East 17th Street were doing. Green beans were being prepared for cans as Mrs. Floyd R. Hasley, 109, was storing away food for the long winter months. Mrs. Thekla McGee, 105, was reading the paper and drinking coffee.

Putting on her makeup in order to leave was Mrs. Herman H. Morris, 106. In a not-at-home streak, I hit the homes of Mrs. Ethel Hickson, 107, George Mclear, 109, and John C. Irwin, 11.

I was the one who dialed the number that rang the phone that awakened Mrs. Roy F. Bell, 112. Mrs. Darvis G. Chenault, was starting to go to the grocery store. The Chenaults have moved from East 17th to 1603 Avion.

## Californians Visit Forsan Relatives

**FORSAN** — Mr. and Mrs. Fred Thieme and family of Oakland, Calif., have been guests of his brother, Mr. and Mrs. Frank Thieme of Coahoma.

Mr. and Mrs. S. C. Cowley have had as guests Mary and Bill Copeland of Jacksonville and Mr. and Mrs. Jimmie Hager, Donna and Susie of Peeco.

Martha Cowley has returned to her home in Abilene after a visit here.

Mr. and Mrs. Merwyn Miller have been visiting in Seminole, Okla. On vacation in Colorado have been Mr. and Mrs. Roland Howard, Ronnie and Dewey. Also on vacation are Mr. and Mrs. Delbert Bardwell, Milton, Jerry and Herbert, who are fishing at Red Bluff Dam.

The Rev. and Mrs. R. O. Sullivan have returned from Houston where they attended the funeral of his mother, Mrs. J. R. Sullivan. His father came to their home for a visit.

Mr. and Mrs. R. B. Thornton have moved to Brady.

The Church of Christ Daily Vacation Bible School will begin at the church Monday morning.

## Lamesa Bride-Elect To Be Feted Tonight

**LAMESA** — LaDon Chitwood of Lamesa will be the honoree at a gift tea this evening in the home of Wanda Beauchamp in Midland. Co-hostesses are Mrs. G. K. Kinsay and Mrs. B. T. Evans, both of Midland, and Lytane Leal of Lamesa.

Miss Chitwood, bride-elect of Glenn Woodson Matthews, is to be married Sept. 3.

Beautifully illustrated in COLOR, this book brings you scores of easy-to-sew pattern designs for all ages and occasions. Send now for your copy. Price just 25 cents.

## THIS IS GOOD EATING

### SPECIAL TUNA SANDWICHES

Ingredients: One can (7 ounces) tuna, 1/4 cup finely diced celery, 2 whole canned pickles (diced and drained), 1 tablespoon butter or margarine, 1/4 cup coarsely broken walnut meats, 1/4 to 1/2 teaspoon salt, pepper, 1/4 cup mayonnaise or mayonnaise-type salad dressing, 2 teaspoons cider vinegar, bread, butter or margarine, salad greens.

Method: Turn tuna, including oil in can, into a mixing bowl; flake. Mix tuna, celery and pickles. Melt

1 tablespoon butter in a small skillet over low heat; add walnuts; stir often until walnuts are browned. Add walnuts and butter in skillet to tuna mixture with salt, pepper to taste, mayonnaise and vinegar; mix lightly but well with a fork. Makes about 2 cups. Use filling at once (so walnuts will be crisp) with buttered bread and salad greens for sandwiches. Serve with the following.

Special Tuna Sandwiches: Canned Grapefruit Sections with Sweet Red Cherries Beverage

Dr. and Mrs. Y. M. Collins, 908 Scurry, left Wednesday for Ruidoso, where they will spend the remainder of the summer. They were accompanied by their niece, Frances Carolyn Daniel of Lubbock.

## Greek Beauty

Brunette beauty Margia Dean, soon to be seen in RKO's "Shock," uses yogurt and olive oil in her complexion routine.

## HOLLYWOOD BEAUTY

### Greek Beauty Staunch Booster For Yogurt

By LYDIA LANE

**HOLLYWOOD** — Margia Dean, soon to be seen in "Shock," a movie she made in England for RKO, is a natural brunette who is proud of her Greek heritage. And no wonder, for when she went to visit Athens recently, she was given a royal welcome. Her grandfather, General Folomares, was the Regent for the young Prince Otto.

"So many important people came to see me," Margia said as we had iced tea in the patio of the Beverly Hills Club.

"Did you learn any Greek beauty secrets?" I asked.

"My mother has extraordinarily beautiful skin," Margia confided, "and I have often seen her wash it with yogurt. I suppose I shouldn't say wash because she strokes it

on and lets it dry and then rinses it off with warm water. It does leave the skin very soft and acts a mild bleach. It is most helpful at the end of summer when a tan starts fading.

"We eat a great deal of yogurt," she continued. "My mother always had jars of it in the refrigerator. I think it is delicious with fruit and it makes a low calorie salad dressing. Even if you have to cultivate a taste for yogurt I think it is worth the effort because it is so good for you. There are statistics which link longevity with people who include yogurt as a major factor in their diet.

"Yogurt helps chemically to balance the system and assist the body in the elimination process," Margia added.

I asked Margia if she had a recipe for a low calorie yogurt dressing.

"I love to cook but I never measure anything so I can tell you what I use but you'll have to work out your own proportions. To the yogurt I add enough chill sauce to make it the color of 1000 island dressing and then I season it with powdered chives, dry mustard, Worcestershire sauce and salad herbs. Sometimes I change it around with garlic instead of chives."

"I can see that you are a booster for yogurt," I said. "But do you use anything else to keep your complexion so perfect?"

"I use olive oil to take off my make-up," she answered. "This is another Greek trick I learned from my mother. It helps lubricate the skin and also cleans it perfectly."

## New Teacher Arrives For Forsan Schools

**FORSAN** — Mr. and Mrs. Wayne Waldrop of Killeen have moved here, where he will be the instructor for shop and science in the schools. A daughter, Mary Ellen, will be in the fourth grade, and a son, Michael, is five years old.

Mr. and Mrs. R. A. Fullen have returned from a trip to Ruidoso, N. M. and Kermit.

Mr. and Mrs. Ted Henry have had as guests Mr. and Mrs. Miller Ray Henry.

Mr. and Mrs. Dan Fairchild and son of Jal, N. M., have been visiting his parents, Mr. and Mrs. M. Fairchild, and Mary Ann.

Visitors from Spraberry have been Mr. and Mrs. Fred Adams and sons.

Guests in the Jim Craig home have been Mr. and Mrs. Bobby Baker and Debbie of Andrews.

## Knott People Attend Homecoming, Reunion

**KNOTT** — Mr. and Mrs. J. W. Motley have returned from Dudley, where they attended a homecoming.

Attending funeral services in McGregor for Mrs. Dora Marsh were Mr. and Mrs. C. G. Ditto, Guy Ditto, Mr. and Mrs. Buster Freeman and Mr. and Mrs. Son Ditto. Mrs. Billy Mack Crawford of Waco has been a guest of the Dittos.

The Herman Jeffcoats have recently had as their guests Mr. and Mrs. Weldon McClanahan and Mr. and Mrs. Y. D. Jeffcoat of Big Spring and Mr. and Mrs. Lynn Jeffcoat of Dallas.

The home of Mr. and Mrs. Buster Freeman was the scene recently of a family reunion, with about 30 attending. Towns represented were Meridan, Waco, Big Spring and Hobbs, N. M.

## Forsan Circles Meet Together At Church

**FORSAN** — The Belle Overton and the Willie Mae Kennedy Circles of the Baptist Church met jointly at the church Tuesday to hear Mrs. R. O. Sullivan conduct the program on "Liquor Traffic."

Also on the program were Mrs. Everett Oglesby, Mrs. R. D. Garrett and Mrs. Charles Wash. Mrs. Carl Toppie was in charge of the business meeting. Following the program, Mrs. Willie Riffe was presented with a shower of baby gifts.

Refreshments were served by Mrs. Toppie.

Mrs. John Kubecka entertained the Pioneer Sewing Club Tuesday afternoon. Six members were present. Mrs. John Cardwell will be the hostess Sept. 16.

## New Coats For Autumn Are Straight, Tweedy

Tweeds are definitely the thing for fall wear in coats and suits, according to William Jarrad, representative of Malvin of California, who was at the Little Shop all day Wednesday.

The most popular trend in the "tweedy look" is the bark or brownish shades, but high colors of red, yellows and greens are good also.

"Although the new look in high style coats is the chopped off or shorter than long look, for casual wear, the long coat will be the best seller," Mr. Jarrad stated.

The lines of the long coat are straight, made clutch style or with very few buttons. The sleeves are fitted at the wrist to be worn push-up fashion.

Velvet, velveteen and corduroy coats promise to be in demand this year for casual as well as after five wear. They are even making velveteen raincoats, but in this country, we do not have too much need for one of these.

Something new are the ebony tones, which is a charcoal base with blue, red or green over it to give it a mingly effect.

Mink, beaver, and all types of animals' furs are being blended with an artificial man-made fiber to make richer colors and a softer, more elegant fabric.

Mr. Jarrad pointed out one coat of a new material called Huaraza, which is made from a fiber of an animal in the Andes Mountains of Peru.

"Never buy a coat unless it has a Millium lining," stressed Mr. Jarrad. This lining is an all weather insulation cloth that is valuable in all coats, no matter what fabric, style or color they are.

## Lodges Have Meal; Instruction School

The "pinks" honored the "greens" with a chicken dinner Tuesday following the meeting of the John A. Kee Rebekah Lodge No. 153 Tuesday night at Carpenters Hall.

Mrs. M. O. Hamby presided. Sick members were reported. Several sick visits were made during the week.

The announcement was made that there will be a practice next Tuesday for presentation of the flags by the members who go to the Stanton Lodge.

After the lodge meeting next Tuesday night, the Past Noble Grand's Club will have a bingo party. There will be games for the children and refreshments will be served.

A coffee will be given in the T.W. Neel home, 1007 E. 12th, Saturday morning to raise money for building fund.

There were \$1 present.

A school of instruction was held by district deputy president, Francis Shanks for members of the Big Spring Rebekah Lodge at their meeting in IOOF Hall Tuesday evening.

Mrs. K. J. Neilson was in charge of the session. It was announced that all past noble grands will have charge of the meeting to be held Aug. 23. Twenty-three attended Tuesday.

## Johnny Arrick Has Birthday Party

Movies were made and games were played when Johnny Arrick was honored with a seventh birthday party given Wednesday by his mother, Mrs. C. H. Arrick. Balloons were favors to guests.

Refreshments were served to Janet Rowe, Lynn Potter, Allen and Rickie Mosher, Garry Morris, David Hardin, Sherri and Sonja Arrick, Patsy and Donald Johnson, Jackie, Bobbie and Terry Lou Thompson, Mike Starling, Linda and Buddy Bruton, Arthur Lee Farris and Perry and Edgie Thompson.

## O. R. Smiths Have Reunion At Home

The O. R. Smiths, Sterling City Route, had a family reunion this weekend when all six children were home.

They are Mr. and Mrs. Thurlo Grissam and children of Hopewell, Va.; Mr. and Mrs. Howard Smith and family, Amarillo; Mr. and Mrs. Norris Smith, Munday; Mr. and Mrs. Elgin Jones and daughter, 1407 Stadium; Mr. and Mrs. Robert Smith and son, 406 Ridgeway; and Mr. and Mrs. Harmon Smith and sons, 1302 Tucson.

## Shriners' Picnic Set

Judging from reservations made so far, for the Shriners' barbecue to be held at City Park at 6:30 p.m. Friday, about 150 Shriners and their wives will attend the affair. All Shriners in Howard County are urged to be present as the election of officers will be held. Each Shriner is asked to wear his fez.

## Woman's Forum

A called meeting of the Modern Woman's Forum was held in the home of Mrs. Hush Duncan Wednesday morning with eight attending. Purpose of the meeting was to revise the by-laws and to select new members for the coming year. Refreshments were served by the hostess.

## Chapman Reunion

The Chapman family recently held a reunion in the Recreation Hall in Lamesa with 112 relatives attending and about 30 friends. Visiting, singing and games were the afternoon's entertainment.

## Smocked Dress

### 10 Jets Break Record In England-To-Austin Flight

AUSTIN, Tex. (AP)—Refueled in station here at Bergstrom Air Force Base. They refueled in flight.

Col. Richard N. Ellis, 39, led the Thunderstreaks.

The flight began with 12 aircraft but two landed at Barksdale Air Force Base, Shreveport, La., and twilled the other 10 home. No reason was announced for the landings.

One of the records was for time, the other for nonstop mass flight distance.

The fighters averaged 480 miles per hour for the 5,118-mile trip from the English Midlands to their

station here at Bergstrom Air Force Base. They refueled in flight.

Col. Richard N. Ellis, 39, led the Thunderstreaks.

The flight began with 12 aircraft but two landed at Barksdale Air Force Base, Shreveport, La., and twilled the other 10 home. No reason was announced for the landings.

### Reds Choose Head Of New Airline

BERLIN (AP)—East Germany's Communist government has chosen the son of President Wilhelm Pieck to direct the operations of the civil airline the Russians have authorized it to organize.

Officials at East Berlin's Schoenefeld Airfield said today that Arthur Pieck, 55, has been appointed general director of the East Lufthansa, which has adopted the same name as West Germany's fledgling line.

The East line will fly inside the East zone to Leipzig, Dresden and other major cities, and will also have landing rights in Warsaw, Prague and other satellite capitals.

### Guatemala Sets Proposal To 'Repudiate' Tyranny

GUATEMALA (AP)—A proposal to "repudiate" totalitarian political tendencies has been prepared by Guatemala for introduction today at the first meeting of the Organization of Central American States.

The meeting at Antigua, the colonial capital 38 miles from Guatemala city, brought together the foreign ministers of Honduras, El Salvador, Nicaragua, Costa Rica and Guatemala.

The proposal drafted by the anti-Communist government of President Carlos Castillo Armas called for "repudiation of every political tendency of totalitarian type which preaches or proposes to infringe on the democratic system, the dignity and the rights of man."

One long-range goal of the organization is the integration of the economies of the five countries. It also may help settle political differences.

### ROK Bans Citizens From Japan Visits

SEOUL (AP)—South Korea has "completely banned" Koreans from making any business or personal trips between South Korea and Japan, the Foreign Ministry said today.

Foreign Ministry officials said, "As a principle, no Koreans are allowed to make any private trips between the two countries . . . because 'the Japanese are giving protection and encouragement to elements opposed to the government of the Republic of Korea, to Korean national traitors, and to pro-Japanese Koreans both economically and politically.'"

### 3 White Men, Charged In Negro's Death, Meet Bond

BROOKHAVEN, Miss (AP)—Three white men, charged with murder in the shotgun slaying of a 68-year-old Negro farmer, are free on \$20,000 bond each today and await grand jury action next month.

Sheriff Bob Case of Lincoln County identified them as Noah Smith, 59, Mack Smith, 45, and Charles Falvey, 35. They are charged in the shooting of Lamar (Ditney) Smith on the lawn of the Brookhaven courthouse last Saturday.

The three waived preliminary hearing before Justice of the Peace E. F. Allen and were bound over to the September grand jury.

The murdered man was reported to have urged other Negroes to cast absentee ballots in Mississippi's gubernatorial race.

Edgar Case, a distant relation to the sheriff, told The Associated Press in an interview last night he had received a threatening telephone call. He said he had no idea who the caller was or the reason for the threat but "somebody called me and told me I was next."

# Jess-Talkin

by Jess Blair

Cotton is needing rain in most parts of the area. J. P. Bond, who farms five miles northeast of Big Spring, says his feed and cotton are willing now. The dry weather hasn't slowed down the worms in his community yet, as he has poisoned once and is starting across the field the second time.

The Luther-Gay Hill area is dry again, and more rain is needed all over the eastern part of the county. About the only places not in need of more moisture are the farms around Knott and Ackery that got rain last week.

Morgan Martin, ranching on North Creek, near Big Spring, says he doesn't have any grass, but the mesquite beans helped out during the summer. He has a few cattle but mostly runs sheep. There is still enough grazing in the pasture that he has not started feeding yet.

Guar has been a questionable crop for this area. Two years ago quite an acreage was planted but dry weather and the mosaic disease held down production. This year there are some good fields of guar. W. W. Posey has some on the southwest part of the State Hospital farm that is almost waist high now. He is stripping it with grain sorghums, with four rows of each.

Some of the stalks already have over 100 beans on them. In appearance, guar at that stage looks a lot like careless weeds. It has a tap root similar to cotton, but is a legume and puts nitrogen in the soil. Father east it has worked well as a soil improving crop, and cotton or feed planted on guar land always makes a bigger yield the following year.

Herbert Smith, Big Spring rancher and business man who has ranches in this area and also west of Roswell, says the grassland here can't compare with that in New Mexico. His place is located 50 miles southwest of Roswell where rains have been falling all year. He says grass is better than he ever saw it before. In that country grass comes out in two or three days after a rain, and in 30 days the ranchers have fat cattle.

One handicap in ranching there is the scabies quarantine. Ranchers must dip cattle before moving them off the range. The government furnishes the dip once a year during the autumn months, and requires that the animals be dipped twice about 11 days apart before they can be sold. This is a rather expensive operation, Smith says, as it costs about \$60 to fill the 1,500-gallon dipping vat.

Ranchers usually save this expense by taking advantage of the government dipping program. For this reason, nearly all cattle are sold in the fall of the year just after they have been treated for the scabies.

The braceros are moving into West Texas in large numbers now.

The Texas Harvesting Association has a big demand for workers in the counties north and east of here. James Jones, manager of the association, says cotton is about ready to pick in the Roby-Rotan area, and cotton pickers are needed there. There is also a lot of work going on in the counties north and west of Lubbock.

Farmers who are not members of a labor association now must join by Sept. 15 in order to get braceros labor. This is a new ruling and was sent out in the form of a letter to local associations. If the grower doesn't become a member by that date, he will have to recruit his own labor.

And to get braceros individually will be a slow, costly procedure. He will have to go after them, provide bunk beds and many other details. If a worker is hurt and the insurance does not provide enough to pay for hospitalization, then the farmer might be stuck with a big expense bill. He can join any association that is approved by the Labor Department, but should join one of them if he expects to get Mexican Nationals to harvest the crop.

ROAD DUST: Some of the prettiest range country in this area was once the rangeland between Lee's Store and Garden City. Now it is the most barren. . . . Woman in a community near. . . . "My husband has got so excited about this crop he has quit playing dominoes". . . . There is not a single shade tree of any size in West-brook except the mesquites. A root rot came along a few years ago and killed them all. . . . Dirt roads are mighty rough and full of chug holes in most communities. . . . Usually when you see a group of women and men chopping cotton, the women are working steadier than the men. . . . Prettier view in this area: That big pasture valley just below the hill that the Snyder Highway cuts through about 15 miles northeast of Big Spring. . . . Often wonder how some people heart trouble or ulcers. Customers seem mighty few, and they don't buy much. . . . Farmer in Martin County saying it would cost \$25,000 to make this year's crop. Such risk would give some people heart trouble or ulcers. Big irrigation farming is not for a piker or a man without a little gambling blood, because one hail storm could wipe out the entire crop. . . . A small dryland farmer in Dawson County who hasn't made a good crop since 1949: "This is my last year. Maybe I can get even by selling everything I have. This will be a fair crop, but these droughts will keep coming and they bring on old age fast. It's better to leave the farm now than wait until I'm too old to get a good job."

ed doors, if a trial should last over a period of days. How could she possibly meet her other obligations? She couldn't conscientiously. Would you want this job with only this to look forward to, prisoners, bars, daily grind, great responsibility, little contact with the outside world, board and room, and little compensation (the salary for both being what one could make alone). Do you wonder why more have not applied for the job, also why none have qualified? Where would you find persons saying they could qualify even if they were willing to submit themselves to such an ordeal? Yours truly, MRS. RUFUS DAVIDSON 220 NE. 11th.

Refutes Address Of Letter Writer

To the Editor:

Will you please make a correction in your next issue of The Herald in regard to the letter to the Editor in 8-17-55 issue of The Herald, signed by Mrs. H. N. Smith of Apt. 3, Ellis Homes. We have no such person living in Ellis Homes, and we are very sorry that someone wrote such a slanderous letter about the Sheriff, and affixed an address with this housing project. The name is fictitious, the address is fictitious, and I am persuaded that the contents are as well. W. O. McMEANS, Ellis Homes, Box 311

Mrs. Smith Says Name Was Mis-Used

Editor's Note: In connection with a letter that appeared in The Herald Wednesday over a signature of the same name, Mrs. H. N. Smith, 702 E. 12th, has informed The Herald that she did not write the letter, that she is the only Mrs. H. N. Smith in the city, and that the name has been mis-used. Mrs. Smith stated that she feels Sheriff Jess Slaughter has been fairly elected by a majority of the people, and that he has been unjustly attacked in the recent "grand jury" controversy. The Herald is happy to set the record straight.

## There Was Plenty Of Business On That Hill

SHELBY, N.C. (AP)—Names don't mean much to the sheriff's department here. The department's alcohol tax unit made three arrests yesterday after raiding a still located at the foot of No Business Mountain.

## Honeymooners Stage Hunger Strike in Goa

LONDON (AP)—A honeymooning couple from India is staging a hunger strike on the doorstep of the Portuguese colony of Goa Monday. An embassy attaché said they would be ignored.

## Boston Realtors Invite Inspection By Russians

BOSTON (AP)—The Rental Housing Assn. of the Boston Real Estate Board says it has invited Russia to send housing experts to Boston to study housing construction and operation.

# Ex-Con, Hunted As Cop-Slayer, Shoots Down Rookie Policeman

CHICAGO (AP)—A 28-year-old ex-convict, hunted for the killing of a detective Monday night, shot and seriously wounded a rookie policeman in a gun fight last night in a movie theater.

The slayer, believed wounded, fled while some 250 persons watched the movie. Several screamed as shots exploded but there was no panic.

Police stepped up their search for the gunman, Richard Carpenter, who Monday night killed Detective William J. Murphy, 34, in a gun battle in a subway station. Nearly 500 officers were sent into the Northwest Side district around the Baltimore Theater, where policeman Clarence Kerr, 25, was shot last night.

The gunman was Carpenter, and we know he is wounded," said Philip Breitzke, deputy commissioner. "He's somewhere around here, we know, and we'll get him."

Breitzke said there was a trail of blood from the theater aisle to the rear exit. Carpenter fled through the rear door after shooting Kerr in the chest.

Kerr, at St. Mary's Hospital, told Robert E. Ryan, deputy chief of the uniform force, that he and his wife Marion, 34, had gone to the theater. He believed a man in a nearby seat was Carpenter. He took his wife to their car and returned to the theater, sitting down in the seat next to the man he believed was Carpenter.

Kerr, with his gun in his hand, told the man: "You look like a man we are looking for."

The man replied: "All right, I guess you've got me." Kerr, a member of the department only 10 months, ordered the man to leave the theater with him. As they got to the main aisle, Kerr relaxed, the gunman pulled a gun from under his shirt, whirled and fired.

The policeman emptied his gun at him, firing five shots at point blank range and the sixth as he fled to the rear exit.

## Queen Arrives

NICE, France (AP)—Queen Soraya of Iran arrived here today for an informal vacation on the French Riviera. A member of the Queen's party denied earlier reports from Tehran that she was visiting Europe for medical treatment. "She is very well and in perfect health," he said.

## Dr. Love New VA Admitting Officer

D. Samuel D. Love, of Carolina Beach, N. C., became the new admitting officer at the Veterans Administration Hospital here this week.

Dr. Love was engaged in private practices in Carolina Beach. He replaces Dr. George Leonard who retired last month.

## Truck Driver Retrieves His Own Stolen Auto

LOUISVILLE, Ky. (AP)—Jack Fiener was driving his truck across a bridge when he saw in the rearview mirror the car that had been stolen from in front of his house earlier in the day. He blocked it with his truck. Two youths jumped out and fled. They were later captured on the Indiana side of the Ohio River and turned over to juvenile authorities.

## Stokowski Visit

HOUSTON, Tex. (AP)—Leopold Stokowski is visiting Houston for the first time since he signed as music director for the Houston Symphony Orchestra. The 73-year-old maestro planned to inspect Houston's new air-conditioned music hall today and meet the members of the 90-piece orchestra.

## Housework Easy Without Nagging Backache

Nagging backache, headache, or muscular pain and fatigue may be caused by over-exertion, unskillful use of day-to-day items and strains. And doing who-ops and drags weekly necessities under mild bladder irritation. . . . With that warning, unskillful use of these items, Don's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys—tending to increase the output of the 15 million kidney tubules. . . . So if nagging backache makes you feel sluggish, miserable—with restlessness, sleepless nights, . . . don't wait—try Don's Pills—get the same happy relief millions have enjoyed for over 40 years. Get Don's Pills today!

## LETTER TO EDITOR

### Thinks Sheriff Should Have Cooperation Of Grand Jury

To the Editor: This is only one person's opinion but perhaps it will find its echo in the hearts of many throughout Howard County. This little farce has gone on long enough and it is high time the defeated concede and recognize the fact that the voters preferred Slaughter at election time and still do. The voters, having expressed their confidence in his integrity and capabilities, expect him to execute the full responsibility of his office, in his own way, including that of custodian of the courthouse and jail, and are ready to back him up in stemming this undue pressure.

Mr. and Mrs. Taxpayer of Howard County does this pressure for a full-time jailer just stress the negligence of the sheriff or does it include and intimate that our hard-earned tax money has been spent on a building that is beautiful but unstable for meeting all the purposes for which it was built? There seems to be a flaw somewhere. Even if the sheriff were inefficient the jail would assure safekeeping of prisoners. I for one believe it will keep them as safely as any of the others throughout the land, but to say it can never be broken out of remains in the future.

By what authority does a grand jury dictate to an elected official? Why cannot the commissioners examine and test some of Slaughter's ideas and suggestions and determine their merits and practicability as a means of eliminating any possible jail-break in the future? Seems, he too, should be considered and cooperated with more fully in this matter.

Let us look at the qualifications required for the fulltime jailer. They are, according to The Herald, Vol. 28, No. 35: fulltime, a man and his wife, man to have complete supervision of jail, live in quarters in courthouse, to have charge of booking and releasing prisoners, and to maintain jail docket. The woman, to supervise preparation of the food for prisoners, to serve as matron for jail and to act as bailiff for the lady jurors. According to their own inference, FULL-TIME would mean just that, because they would have to be on guard at all times, and vice-versa, because they too, might sleep too soundly. Prisoners never give warnings when they plan to "fix the coop". The woman's job, being three-fold, would conflict at some time during her services, especially so when court was in session. Acting as bailiff for the women jurors, she would have to be with them at night, behind lock-

ed doors, if a trial should last over a period of days. How could she possibly meet her other obligations? She couldn't conscientiously. Would you want this job with only this to look forward to, prisoners, bars, daily grind, great responsibility, little contact with the outside world, board and room, and little compensation (the salary for both being what one could make alone). Do you wonder why more have not applied for the job, also why none have qualified? Where would you find persons saying they could qualify even if they were willing to submit themselves to such an ordeal? Yours truly, MRS. RUFUS DAVIDSON 220 NE. 11th.

# Red Guns Down Unarmed Plane Over Korea Demilitarized Zone

PANMUNJOM, Korea, Aug. 18 (AP)—Communist antiaircraft guns yesterday shot down a small unarmed American training plane. The U.N. Command today said the craft had "inadvertently intruded" over the demilitarized zone but not into North Korean territory.

## Georgians Hit Extradition Ban

ATLANTA (AP)—The refusal of Gov. George M. Leader of Pennsylvania to honor an extradition request for a convicted murderer is an affront to the citizens of Georgia and of every state, according to Gov. Marvin Griffin and Atty. Gen. Eugene Cook. In a strong statement, the top state officials said the unprecedented action was "an open invitation for every convict to seek refuge in Pennsylvania." Gov. Leader recalled a Georgia extradition warrant against Edward Brown and a Philadelphia judge freed him 10 days ago. Brown, convicted for the 1937 slaying of another Negro in Macon, fled to Pennsylvania after escaping from a Georgia prison farm. Griffin and Cook said the Pennsylvania governor set Brown free "without so much as even giving the state notice and a hearing on the application for recall." They charged Gov. Leader played politics with Negro legislators in releasing Brown. Neither Gov. Leader nor Atty. Gen. Herbert B. Cohen could be reached for comment.

## Scattered Texas Points Get Rain

By The Associated Press  
Skies over Texas were clear to partly cloudy Thursday but some light rain and thundershowers fell at scattered points. Cotulla, Waco, Abilene and Junction received thundershowers after midnight. Dallas had a trace of rain that barely spotted windshields but what appeared to be heavy electrical disturbances could be seen to the east and southeast during most of the night. Greenville reported a 1.43-inch rain in that Northeast Texas blackland area. The Weather Bureau said a low pressure area drifting into Texas from Louisiana and Arkansas could set off more showers Thursday. Forecasts called for little change in temperatures. At dawn they ranged from 68 at Amarillo to 81 at Galveston. Scattered afternoon and evening thundershowers were expected in every section of the state through Friday.

## Male Penguin Hatching Egg

VANCOUVER, B. C. (AP)—That proud male king penguin at the Stanley Park zoo is now two weeks faithfully along towards hatching an egg, a penguin accomplishment which has happened only a few times in North America. His mate is giving him no help at all. "Normally the female relieves the male at intervals during the egg's incubation period," zoo keeper Alan Best said today. "But so far she's shown no willingness to take over." The incubation period is 64 days. So Mr. Penguin has a job until about Oct. 5, unless the Mrs. takes over.

## Police On Alert After Prison Riot

FRAMINGHAM, Mass. (AP)—State police kept a watch today at the women's reformatory where 50 inmates last night smashed windows, dishes and "everything breakable" in a wild riot. Iris Allen, 26, of Fall River, serving a term for robbery, scaled a 10-foot barbed wire fence and escaped during the riot. Three others who tried to escape were captured. An inmate tipped officials to the breakout. Other inmates pounced on the informant, scratching and beating her. Then they turned to smashing everything breakable in sight. State police quelled the disturbance.

## American Woman's Work Is Praised

TOKYO (AP)—The American Embassy today cited Mrs. Eleanor H. Jordan, of New York and Vineyard Haven, Mass., for "intellectual eminence and unflagging industry" in founding and directing the embassy's Japanese language school. Mrs. Jordan, wife of New York Times correspondent William J. Jordan, established the school in 1950 for embassy and consulate personnel in Japan. During the five years she has headed the school more than 700 have attended its language classes.

## Driver Caught In Own Net

OKLAHOMA CITY (AP)—Traffic Judge James Demopolis never had heard a speech quite like it, especially from a defendant. "I'm appalled at the reckless driving on main street," said 26-year-old Charles Hamilton Keegan. "It sickens my heart. It makes me ashamed of my fellow man. I'm trying to do my part to help correct it." "Why then are you charged with reckless driving?" asked Judge Demopolis, stirring uneasily on the bench. "Because I saw a teen-aged boy who I knew," Keegan came back quickly. "He was driving recklessly. I was trying to catch him so I could take him some place and give him a quiet lecture on the principals of safe driving. You see, I've never received a ticket before in my life." The judge whispered to his bailiff and shortly afterwards a file was brought into the courtroom. It showed that Keegan had been arrested six times for traffic violations during recent weeks. "Is that your record?" asked the judge. "I guess so, your honor," Keegan replied. He paid a \$20 fine.

## 'Well-Behaved' Diane Breezes Along Like Ordinary Storm

RICHMOND, Va. (AP)—Diane, the well-behaved hurricane, breezed northward early today as just another somewhat wet and windy storm. Her once potent 100 m.p.h. winds had been dissipated in a long trip through the Carolinas and Virginia. As she moved toward eastern West Virginia and central Pennsylvania her strongest winds were 40 m.p.h. Then, late last night as she buffed and puffed at south-side and southwest Virginia they had dwindled to 20 to 35 m.p.h. The Weather Bureau said her winds would continue to diminish as she moved north. Moderate to heavy rains were expected to accompany Diane's advances into Central Pennsylvania and Eastern West Virginia, as well as Western Maryland, today. Along the Atlantic coast, southeast storm warnings which had flown for days when Diane was at her worst were hauled down at 2 a.m. and only small craft were warned to stay in port until the seas subsided. Diane didn't do much damage in her passage over the Carolinas

and Virginia yesterday and last night after she came ashore in the morning. The Weather Bureau had no trouble predicting her movements as it did in the case of last week's Hurricane Connie, a more destructive storm. Following, generally, a north-northwest course once she hit the Atlantic mainland, Diane brought high tides that flooded some business establishments in northeastern North Carolina and rains that further damaged tobacco and corn crops in Virginia. Her winds, at one time 115 m.p.h. when she was still at sea, fell to 100 m.p.h. offshore and by the time she hit Wilmington, N.C., were down to 74 m.p.h. High tides rose into the streets at Washington, N.C., on the Pamlico River. Flooding conditions also were reported from Edenton, Hertford and Elizabeth City, N.C., where buildings stood in 18 inches of water. Waves did some damage at Wrightsville, Carolina, Kure and Atlantic beaches. Damage in South Carolina was described as "practically negligible." Highest gusts from Diane in Vir-

# THE WILD FRONTIER HAS A NEW KING!

Great Features back up Chevrolet Performance: Anti-Dive Braking—Ball-Race Steering—Outrigger Rear Springs—Body by Fisher—12-Volt Electrical System—Nine Engine-Drive Choices in all models—and, finally, the great scientific, technical and engineering resources of General Motors.

The new Chevrolet has proved itself all K-I-N-G in today's toughest driving competition! Starting at Daytona Beach last winter, the new Chevrolet swept aside all competition in its class in acceleration tests. It lambasted every car in its field and all but one of the high-priced cars down there on the fast, furious frontier of NASCAR\*-sponsored trials. And since then what's happened: The latest figures on hand show that so far Chevrolet has piled up a total of 196 points in NASCAR Short Track Standings—which puts Chevrolet in **FIRST PLACE** with a commanding lead of 99 points over its nearest rival! And that rival is a medium-priced car! What makes Chevrolet such a winner on the tracks? Faster acceleration, for one. Superior handling qualities, too—sure, steady cornering; quick, accurate steering; and smooth, positive braking. And these very same things clearly mean more safety and pleasure for you on the modern frontiers of our nation—our highways!

When would you like to try out this new King? Why not make it real soon!  
\*National Association for Stock Car Auto Racing  
Drive with care . . . EVERYWHERE!

Combine your new Chevrolet purchase with your vacation plans! Order a new Chevrolet through us, then pick it up at the plant in Flint, Michigan, see Chevrolet built, if you like, and drive your home. Chances are, you'll save a substantial share of your vacation travel costs!

America's hottest performer because it's got America's most modern V8!

# Capehart Would 'Like' Truman Help To Demos

WASHINGTON (AP)—Sen. Capehart (R-Ind.) said today Republicans will welcome an "asset" to them any campaigning former President Truman does for the Democrats in 1956.

"The American people have the utmost confidence in President Eisenhower and are perfectly satisfied with his record," Capehart said. "I don't think anything Harry Truman says will change their minds."

Truman said in a telephone interview last night he is going to "hear into the Republicans" in a series of speeches beginning at French Lick, Ind., Aug. 27. He said he will talk politics at Mackinac Island, Mich., Aug. 29, in Detroit Sept. 5 at a Labor Day rally and at two subsequent Democratic dinners in California.

"We'll beat the Republicans with their own ammunition," he said. "I am going to do all I can to help restore the government of this country to the people—I'll be available right along to the Democratic National Committee," he said.

"I'm not revealing my own ammunition," he added, but indicated he will talk largely about domestic issues.

The Democratic committee has made increasing use of Truman since his recovery from a major operation last year. He has been the stellar attraction at major party rallies since Adlai E. Stevenson, the 1952 nominee, took a temporary leave from politics to tend to his private business.

Truman, who said he is feeling physically "tip top" at 71, pooh-poohed the idea that he might be a candidate himself, as suggested by Democratic Gov. James E. Folsom of Alabama. He said he is for Stevenson, but will support the Democratic convention's candidates.

Capehart said in an interview he thinks Truman's active entry into the campaign would revive the issues of "crony government" and "Democratic mess in Washington" used by the Republicans in the 1952 campaign.

"Truman's statements and speeches will be an asset to us," he said. "I wouldn't know what his issues will be but I don't think the people want to go back to Trumanism."

## Boy Tells Of Icebox Deaths

PHILADELPHIA (AP)—Police learned yesterday how Lewis Andrews, 5, and his brother Lee, 2, came to die in an abandoned refrigerator in an empty apartment Tuesday.

Five-year-old Carl Jenkins told Detective Patrick Ryan that he and the brothers were playfully taking turns getting in the refrigerator. When the brothers got inside, Carl found he couldn't open the door, either because he wasn't strong enough or was too short.

Fearing punishment, he said tearfully, he fled. The bodies of the boys were found by their mother six hours later.

## Family Of Three Killed In Landslide

JONESVILLE, Vt. (AP)—A family of three was killed last night when they were buried in a landslide caused by heavy rains.

David Cutler, his wife Elsie, both about 40, and their daughter Patricia, 3, were watching sections of a bank wash away along the Winooski River when an embankment fell on them.

Fire fighters dug them out. The parents were dead. The child died a short time later in a Burlington Hospital.

## Ike Holds Celebration Over His Biggest Catch, 2-Pound Trout

FRASER, Colo. (AP)—Delighted over landing a two-pound Rocky Mountain trout, President Eisenhower today held the "biggest catch" championship at his secluded vacation retreat here.

He reeled in the trout yesterday in the first few seconds of 3 1/2 hours of fishing in cold St. Louis Creek. He also caught several other smaller trout, and his 7-year-old grandson David—fly casting

for the first time—hailed in two 12-inchers weighing under a pound. The youngster fished a quiet pond.

In addition to fishing, Eisenhower got in some golf practice shots, started painting a mountain scene, did nearly all the cooking for his party—and turned out quite a bit of work to boot.

The President also: 1. Signed a proclamation formally completing United States approval of the Paris agreements providing for rearming a sovereign West Germany.

2. Chose Robert H. Thayer, a national security affairs specialist, to be minister to Communist Romania, succeeding career diplomat Harold Shantz, who is retiring.

3. Picked John M. Cashin, of Kingston, N.Y., to be a federal district judge for southern New York state.

4. Accepted the resignation of Archie A. Alexander as governor of the Virgin Islands. Alexander, target of recent demonstrations against his policies, said he was resigning because of "the urgent

admonitions of my medical advisers."

The President drove here Tuesday from the Denver Summer White House to be the guest until Sunday of an old friend, Aksel Nielsen. Eisenhower and his grandson, who arrived from a Colorado boys camp Tuesday evening, are staying in a new cottage at Nielsen's Ryers Peak Ranch.

All advance indications had been that grandfather Eisenhower would give David his first fly-casting lesson. But the President turned the job over to Nielsen and some of the Secret Service agents.

James C. Hagerty, White House press secretary, told newsmen that the President and Nielsen together caught about 16 trout. The daily limit for each fisherman is 10.

Hagerty explained to reporters that the President shunned the placid pond where David fished because that kind of setup "is not his dish."

## Russians Find Way On Truce Teams, Ex-Solon Charges

TAIPEI, Formosa (AP)—O. K. Armstrong, former Republican congressman from Missouri, said today he had positive proof that Russian intelligence officers often take the place of Polish and Czech members on the Neutral Nations Supervisory Commission in Korea.

He attributed his information to Swiss and Swedish members of the inspection teams. U.S. military sources and South Korean intelligence.

"They have inspected and photographed U.S. military installations all over Korea," Armstrong said in an interview. He was in Korea last week.

## 10,000 Scouts Begin Jamboree

NIAGARA - ON - THE - LAKE, Ont. (AP)—Today was "Get Acquainted Day" for the vanguard of some 10,000 Boy Scouts from all over the world who will participate in the eighth world jamboree here.

About 2,500 scouts from 66 nations have already pitched their tents on the jamboree site, adjacent to historic Ft. George. Thousands more were arriving today. The jamboree will be officially opened Saturday afternoon by Gov. Gen. Vincent Massey, chief scout for Canada.

The scouts are expected to consume 800,000 pounds of supplies, most of which they will cook themselves over charcoal fires.

A daily newspaper will be published and a special telephone exchange "Jamboree Ontario"—has been established for the occasion.

## Boy Is Killed By Dog Pack

BRACEBRIDGE, Ont. (AP)—A 6-year-old boy was bitten to death yesterday when he tried to keep them from mauling his own pet dog.

Police said Wayne Baker had wandered away from his family's summer home at nearby Matthiessville. He was found in a clump of bushes on a neighboring farm an hour later.

Mrs. Vera MacDonald, who owns the farm and dogs, said she had gone to the store shortly before the incident. When she returned she found her dogs sniffing at some bushes. She chased them and found the mutilated child. He died in a hospital.

## Flier's Mom Holds Reconciliation Hopes

PORTLAND, Ore. (AP)—The mother of Airman Daniel C. Schmidt says she has not given up hope of a reconciliation between him and his remarried wife Una.

The mother, Mrs. Nellie Peters, 43, said last night she would have to hear it from her son that he definitely was through with his wife.

"Danny never said anything like that to me," said Mrs. Peters, who has talked to her son by telephone since he came home to find Una married to another man. Mrs. Peters has not heard from Schmidt for several days but expects him to visit her soon.

She recalled that her son told her he was going to work out the problem himself but "now others have entered the picture and it doesn't sound like Danny any more."

Mrs. Peters was referring to a statement by Schmidt's attorney Howard Welch, of Sacramento, that Schmidt has made up his mind he does not want a reconciliation.

"There has been no one trying to get them back together," she said. "Even the lawyers don't seem to want them to try to piece it together again."

The former Mrs. Schmidt said she remarried in the belief Schmidt was dead. The young airman was recently released from Red Chinese captivity.

According to Mrs. Peters, Una telephoned her Monday and asked for her help in seeking "Danny's forgiveness."

"She was scared stiff . . . She's just a confused kid of 19," Mrs. Peters said. "Maybe she made a mistake—but I can't help think of what Christ said of another who made a mistake. He said let him without sin cast the first stone."

The airman's mother quoted Una as saying she had left her second husband, Alford Fine, and was in hiding with hers and Schmidt's 2-year-old son.

## Coahoma In Need Of Three Teachers

COAHOMA, (SC)—Three more teachers are needed to round out the faculty for the opening of Coahoma schools on Monday, Aug. 29.

Supt. H. L. Miller said instructors are needed for home economics, high school English and grade school arithmetic. The official said he had no immediate prospects for filling the posts.

## Probe Of Fatal Car Crash To Continue

FREEHOLD, N.J. (AP)—An investigation into the death of wealthy Charles Hlavac will continue although an autopsy confirmed that brain injuries suffered in an auto crash were what killed him.

Hlavac's body was exhumed yesterday from the Grove Church cemetery in North Bergen, and reburied after the autopsy, ordered by Monmouth County Prosecutor Vincent P. Keuper.

Hlavac, of New York, died July 7 as a result of the crash on the Garden State Parkway. The car in which he was riding plunged down an embankment after a tire blow-out.

Two days before the mishap, Hlavac left his \$100,000 estate to his housekeeper Mrs. Carrie Spancek, 43, of New York. She was in the car at the time of the crash, along with William Jackson, 54, also of New York, who was driving. Mrs. Spancek and Jackson, both Negroes, were hurt.

Mrs. Spancek was held as a material witness and Jackson on a technical charge of causing death by auto. They were arraigned yesterday and held in \$5,000 bail each.

After the autopsy, however, Keuper said bail would be reduced to \$500 for the housekeeper and to

\$1,000 for Jackson, a real estate salesman.

The investigation was launched by Keuper when he said he was told that Hlavac changed his will before the crash, that Hlavac had been under doctor's orders to remain at home, and that there was a bad tire tread on the car.

Hlavac's brother William Hlavac, of Closter, N.J., had raised a question about the estate, Keuper said.

The prosecutor said last night the investigation would continue.

## 'Open House' For New Dallas Jail

DALLAS, Tex. (AP)—Sheriff Bill Decker announced today he would hold open house Sunday from 2 p.m. to 7 p.m. at his new maximum security county jail quarters.

"This is a pretty swanky jail," he explained. "We're even going to have music for the opening—organist Jack Caldwell from the Dallas Athletic Club."

The prisoners move in next week.

## A BRIGHTER STAR

### Russ Farm Leader Has Inside Track To Top Kremlin Posts

EDITOR'S NOTE: Tom Whitney, writer of the following article, is a former Associated Press correspondent in Moscow. Now assigned to the AP foreign desk in New York, he is accompanying the Soviet farm delegation on its tour of the country.

By TOM WHITNEY  
CHICAGO, Aug. 18 (AP)—Vladimir Matskevich is a Communist politician with a promising future. This bald and rotund 44-year-old Ukrainian, acting minister of agriculture of the U.S.S.R. and chief of the Russian farm delegation now touring the United States, looks like one of the brighter rising stars in the Soviet political heavens.

He also looks very much the way Americans think a Soviet Russian politician ought to look. He's bald except on the back

and sides of his head, and these he shaves to create the billiard ball impression which Americans have come to associate with Russians. His face is round in typically slavish tradition.

I have been touring with the Soviet farm delegation for four weeks. I have watched Matskevich with particular interest. And I've conversed with him on numerous occasions.

I have been impressed with his flare for making friends and influencing people. For example, at the Chamber of Commerce dinner for the Russians at Cedar Rapids, Iowa, an Iowa rose and asked Matskevich: "When Premier Malenkov resigned, his statement referred to

mistakes in farm policy as one of the reasons for his resignation. What were those mistakes?"

Immediately another Iowa rose.

"We have agreed," he said, "that we will not discuss controversial questions at this dinner. Therefore I suggest the question be withdrawn."

Matskevich listened to the exchange through an interpreter.

"But I would like to answer the question please," he said.

"When Premier Malenkov resigned, in his statement he covered the reasons for his resignation quite fully, and I don't have anything to add to that."

His audience thought he had answered the question but he had said nothing. The impression he had created was of an open and honest man.

And this has been the story all the way around on this lengthy tour.

Matskevich has a quality which Americans have not in general associated in the past with high-ranking Communist leaders: a sense of humor. It's not the bitter humor of a Vyshinsky but a good deal more gentle.

When he arrived in Detroit to visit the Ford plant, reporters asked him why he had come to their city:

"We're very interested in Japanese cherries," he cracked. "And we came here, of course, to study Japanese cherries."

When news photographers surrounded him at one of the first Iowa farms he visited, he reached down and patted the family dog. A little later he was seen playing with the family baby.

"If that man stays around here long he'll be elected senator," remarked a newspaperman who was following the expedition.

Matskevich appears to be a competent agricultural specialist. His questions show detailed knowledge of up-to-date farming practices and a grasp of farm problems.

But if he makes his mark in the U.S.S.R. it will not be as an agricultural technician, though he will certainly need to be competent in that respect too, but instead as a political leader.

He has the character and the ability, and the self-confidence which comes from the possession of power and authority.

In the Soviet farm delegation there is never any doubt when Matskevich is around who is boss.

As things stack up, his future in the Soviet Union is bright. He is a protégé of Nikita Khrushchev, an exceedingly important fact.

And he has a particular talent which is needed very badly at this stage of affairs in Russia in all departments of activity but particularly in agriculture. He knows how to persuade people to do what he wants them to do.

## MEN IN SERVICE

Cadet Homer H. Logan, son of Mr. and Mrs. B. F. Logan of 401 NW 9th, is completing a course of training with the Air Force Reserve Officers Training Corps this week at Davis-Monthan Air Force Base, Tucson, Ariz.

The summer instruction is designed to complement his three years of academic training as an AFROTC officer at Texas Tech. The course has covered weapons and marksmanship, physical training, aircrew and aircraft indoctrination, and the organization of an Air Force base.

Army 1st Lt. Richard F. O'Brien, 27, son of Dr. and Mrs. Philip D. O'Brien, 101 Lincoln, is taking his internship in medicine at the Brooke Army Medical Center, Fort Sain Houston. Lt O'Brien, who entered the Army last May, is a 1951 graduate of Hardin-Simmons University and a 1955 graduate of Baylor University College of Medicine. He is a member of Alpha Chi, Alpha Psi Omega and Phi Chi fraternities.

Zirconium Is Now Being Produced By The United States

GENEVA (AP)—The United States is the first nation in the world to achieve industrial production of zirconium—a relatively new aid to atomic power production.

It expects to make enough to supply all the needs of the United States and those of other countries as well, a report today at the atoms-for-peace conference disclosed.

Dr. Charles Eichner of France told newsmen about it in summarizing a technical paper delivered by an American scientist.

# QUALITY BUILDS BUSINESS... BUSINESS BUILDS RECORDS!

## Lone Star Beer FIRST in Sales Increase According to National Authority

### This Research Company Of America Report

clearly indicated that Lone Star Beer sales have increased phenomenally! Yes, "Quality Builds Business and Business Builds Records."

We, of the Lone Star family sincerely thank you for your appreciation of our product as reflected in your continuing and growing patronage of Texas' Fine, Light Beer!

#### RESEARCH COMPANY OF AMERICA

The following sales data have been developed through the fourteen annual editions of the BREWING INDUSTRY SURVEY published by the Research Company of America, 570 Fifth Avenue, New York 26.

The companies listed appear to have shown the greatest rate of sales increase during the fourteen-year period from 1941 through 1954. Firms identified with the symbol \* have purchased other companies or plants since 1940. The following sales figures are expressed in thousands of barrels.

Name of Brewer	1954	1953	1952	1951	1950	1949	1948	1947	1946	1945	1944	1943	1942	1941	% Inc.

#### Research Company of America

570 FIFTH AVENUE - NEW YORK 26, N. Y.  
Telephone PL 6-1981 - Cable BEVER-1000  
July 1, 1955

Thomas F. Conroy, Incorporated  
Majestic Building  
San Antonio, Texas

Dear Mr. Guthridge:

You have requested us to determine which brewer in the United States made the greatest progress - saleswise - during the fourteen-year period from 1941 through 1954.

Fortunately, this analysis was relatively simple for us to develop, as the basic data were available through the fourteen annual editions of the BREWING INDUSTRY SURVEY, which we regularly publish. This survey has been heralded by competent brewing authorities as the "Bible of the Brewing Industry".

In the special research investigation undertaken for you, it was immediately apparent that only brewers whose sales during 1954 exceeded 250,000 barrels reflected sufficient sales progress to warrant detailed comparison.

The brewers listed on the accompanying analysis have shown the greatest sales progress during the last 14 years. Some of these brewers have improved their sales position by the utilization of additional physical facilities obtained through acquisition, purchase of other companies, or similar procedures.

Such firms are identified by the symbol \* shown next to the brewer's name. The Brewing Industry, as a whole, sold 56,770,937 barrels in 1941 compared with a volume of 83,328,707 barrels in 1954. This represents an increase of 46.72 percent in the consumption of beer in the United States during the fourteen-year period analyzed. During the same corresponding period, per capita consumption of beer rose from 2.16 gallons to 2.9 gallons (1954), representing an increase of 37.26 percent.

From our analysis, it is apparent that the Lone Star Brewing Company at San Antonio, Texas, enjoys the highest percentage of sales increase (2,084 percent) during the last fourteen years for any brewer in the United States. This increase is particularly phenomenal since Lone Star did not acquire other companies or plants during this period.

A. Smith Paine  
Managing Director

# Helium-Oxygen Atmosphere 'Best' Mixture

PEARL HARBOR — Retiring Rear Adm. Charles B. Momsen says the human brain—given a shot of helium and oxygen—can function faster, better and more efficiently.

Momsen, who invented the Momsen lung, hopes to put his theory into practice when he retires from the Navy about Sept. 1.

Momsen heads Joint (atomic) Task Force 7 with advance headquarters at Pearl Harbor. His lifetime work with Navy divers and submarines produced the submarine's escape device which bears his name.

His latest theory was born of these labors.

"Deep sea divers work longer hours and produce better work while breathing a mixture of helium and oxygen," he told a reporter in a recent interview.

"Why not doctors, office workers, government officials or students?"

"This helium-oxygen mixture could be piped into hospital operating rooms, schools, offices, warships — wherever acute mental processes would be advantageous," he said.

"Sometime you may be sitting in a cool, comfortable office, breathing clean, invigorating gas mixtures and enjoying life in a new way. Or working 12 hours a day without fatigue, or doing six hours' work in four."

He said he wants to work on this theory when he enters civilian life but so far has made no commitments on research or financing. "Any improvement in a brain that's paid \$50,000 a year should be worthwhile," he said.

## Chamber Congratulations

Jimmie Greene, manager of the Big Spring Chamber of Commerce, congratulates Publisher Curtis Sterling, who was awarded the West Texas Chamber of Commerce community service award, Sterling is publisher of the Brownfield News, which backed a program for a city-county park in Brownfield. The campaign resulted in \$185,000 worth of improvements to the city park facilities. The award was presented to Sterling at the West Texas Press Association meeting in Colorado City last Saturday. Greene was present because he had been manager of the Colorado City Chamber when the press association was formed there 25 years ago.

## Webb Has Safety Engineer Vacancy

A vacancy currently exists at Webb AFB for a qualified safety engineer (GS-9). It was announced by Warren A. Farrow, civilian personnel officer. The position pays \$5,440 a year.

Applicants must have successfully completed education or experience or a time-equivalent combination of education and experience as follows:

A full four-year or longer professional engineering curriculum leading to a bachelor degree in an accredited college or university

and four years of successful and progressive experience in technical engineering.

In addition to meeting the minimum requirements listed above, applicants for GS-9 positions must meet the following requirements: One and a half years of progressive professional engineering experience, including at least six months of moderately difficult and important work. The experience must have demonstrated the applicant's ability to perform difficult engineering work under general supervision.

Interested applicants should submit Form SF-57, Application for Federal Employment, to the civilian personnel office at Webb.

## ENGINE CHANGE

# Speedy Webb Crew In National Event

Members of Webb's record-breaking jet engine change crew, claimants of the world title for the past two years, will get a chance to pit their skills against other crews from within the Air Training Command at the National Air Show in September.

The contest is billed as the Allison (Engines) Event, and will take place at the country's biggest air show, scheduled to be held at the Philadelphia-International Airport Sept. 3-5.

Present plans, as revealed in a wire from Flying Training Air Force, are for each Training Air Force to enter two crews. Engine and aircraft used in the contest will be the Lockheed T-33 jet trainer.

Though complete details are not available at present, it is probable that representatives of each training air force will be required to visit Training Command Headquarters to discuss rules for the base selections.

In the meantime, each base is required to furnish information regarding the best T-33 jet engine change crew, number of crew members, and their average T-33 engine change time. This may be difficult for Webb to comply with, since each engine change has been made in progressively better time, and there has been some turnover in the crews involved.

Before an Armed Forces Day crowd last May the Base's top crew, headed by M-Sgt. Joe Majors, pulled the engine from a T-33

and had the plane aloft again in eight minutes and 13 seconds. The actual change required only seven minutes and 25 seconds from the time the aircraft taxied to a stop in front of the crew. The previous year, with many of the same crew, it was 13 minutes before the plane was back in the air.

## Freed Flier Given Award

MONTGOMERY, Ala. (U) — The nation's second highest award and four other decorations were presented yesterday to Capt. Harold M. Fischer, an American fighter pilot released by the Chinese Reds last May 31.

Two other fliers who were released with Capt. Fischer — Lt. Roland W. Parks, Omaha, Neb., and Lt. Lyle W. Cameron, Lincoln, Neb. — were awarded Air Medals at the same ceremony for their combat achievements in Korea before they were captured in 1953.

The Distinguished Service Cross was awarded Capt. Fischer of Swe City, Iowa, for extraordinary heroism Feb. 16, 1953, when he led two F86 Sabre Jets against 16 Chinese MIGs. He destroyed two MIGs.

He also received the Silver Star, a first oak leaf cluster to the Distinguished Flying Cross and the third and fourth oak leaf clusters to the Air Medal.

# Ward Initiates New System Of Credit Cards

A new credit-card system as part of the company's monthly payment plan is being announced by Montgomery Ward.

H. C. Morrison, local Ward manager, announced that a customer with a credit card will be able to purchase up to \$35 worth of merchandise on terms simply by showing the credit card to the sales clerk. There will be no need to go to the credit office for approval, nor will a down payment be required. A new statement-of-account will be mailed to the customer after each purchase.

"Our new system" said Morrison, "makes buying on monthly terms as convenient as a charge account. The credit card system is geared to today's demand for quick, easy shopping, particularly since it permits shopping in various departments without credit delays."

Morrison said the company had tested its new system in the Baltimore and Denver outlets and proved so acceptable that its use is being extended. Present credit customers of the local Ward store will receive their new credit identification cards through the mail by Friday, Morrison said, and new credit customers may apply for cards at the credit desk. The cards will be valid for both retail departments and catalog shopping.

## Suicide Try Fails

NAPLES (U) — Nadian Haenni, disconsolate fiancée of Mussolini's grandson, today was reported out of danger and on the road to recovery after a suicide attempt.

# Burke Takes Over As Chief Of U.S. Naval Operations

ANNAPOLIS, Md. (U) — Adm. Arleigh A. Burke assumed command of the Navy today from Adm. Robert B. Carney and pledged "to push with all my energies" those policies which Carney has initiated to contribute further to the combat readiness and fighting trim of the U.S. Navy.

Burke became the new chief of naval operations in colorful ceremonies at the Naval Academy's Dahlgren Hall, where he was commissioned an ensign 23 years ago. It was the first time the Navy's top command had been changed outside of Washington offices.

"The problem of controlling the seas in tomorrow's world is a greater challenge to man than ever before," Burke told an audience of some 2,000 including heads of the other military services.

## Collecting Recipes Is Mrs. Stratton's Hobby

Looking through magazines and clipping recipes that sound appetizing and different is a hobby of Mrs. M. J. Stratton, 710 E. 17th. Employed as assistant cashier at the First National Bank, Mrs. Stratton also has another hobby—working in her flower garden, and she has a lovely yard to prove it. The Strattons have two daughters, Mrs. Dan Lewis, 102 E. 16th, and Mary Beth Stratton who will be a senior in high school this year. The grandchildren are Daniel Lewis III, age 2, and one-year old Shellah Dawn.

Mrs. Stratton has three recipes that she recommends. She collected them sometime during her clipping of magazines and books.

**FRUIT SALAD**  
Four beaten egg yolks added to 1 cup scalded milk. Add dash of salt. Cook until thick. When cool add 1 pint whipped cream, 1 large can sliced pineapple, chopped, 1 cup white cherries, 1/4 pound pecans, 1 box marshmallows, cut in small pieces, and juice of 1 lemon. Let stand overnight in refrigerator. Serves 20 people.

Mrs. Stratton suggests that if you like, you can add 1/2 cup sugar to custard mixture before cooking. Here is a salad dressing recipe that is excellent for head lettuce or combination salad.

**SALAD DRESSING**  
Put in electric blender 3/4 cup salad oil, 1/4 cup vinegar.

**Strawberry Cake Is Full Of Shortcuts**

This strawberry cake is full of short cuts — pancake mix and lemon pudding mix.

**STRAWBERRY QUICK CAKE**  
1/4 teaspoon salt  
3 eggs  
1/4 cup sugar  
1 teaspoon vanilla  
1/2 cup pancake mix  
1/2 cup coconut  
Grease sides and bottom of 2 8-inch round layer pans; line with waxed paper and grease again. Add salt to eggs; beat until thick and lemon colored. Add sugar a little at a time, beating well after each addition. Add flavoring and pancake mix; stir lightly until batter is smooth; add coconut. Pour into prepared pans. Bake in hot oven (400 degrees F.) 10 to 12 minutes or until brown. Cool in pans about 10 minutes; remove from pans and cool.

**Powdered Lemonade**  
The current trend for instant powdered beverages, from milk to coffee, now is joined by powdered lemonade. Latest fruit powder developed by the U. S. Department of Agriculture. Orange juice powder already is on the market, packaged for institutions and other large-scale users. Tomato juice powder and the new lemonade powder will be ready for distribution soon. All the fruit powders require no refrigeration and dissolve instantly in cold water.

1 teaspoon salt  
Black pepper to taste  
1 teaspoon prepared horseradish  
1 teaspoon paprika  
1 teaspoon dry mustard  
1/2 teaspoon sugar  
1 small clove garlic, crushed  
1 fresh tomato, peeled  
1/4 small onion  
1/4 medium avocado, peeled  
1/3 cucumber, peeled and diced  
Bury until smooth  
What you don't have a blender? Then chop the vegetables very fine and mash the avocado.

A barbecue sauce that lives up to its name is also given by Mrs. Stratton.

**MARVELOUS BARBECUE SAUCE**  
1/2 cup vinegar  
1/2 cup water  
2 tablespoons granulated sugar  
1 tablespoon prepared mustard  
1/2 teaspoon pepper  
1/2 teaspoon salt  
1/4 teaspoon cayenne pepper  
1 thick slice lemon  
1 sliced onion (medium)  
1/4 cup butter or margarine  
1/2 cup catsup  
2 tablespoons Worcestershire sauce  
1/4 teaspoon liquid or powdered smoke (optional)

In sauce pan, mix vinegar, water, sugar, mustard, pepper, salt, simmer-uncovered for 20 minutes. Add catsup, Worcestershire sauce and liquid smoke. Bring to boil. Cool and then store in refrigerator. Use as a basting sauce while grilling chicken or meat. Makes about 1 1/2 cups.

**Simple Sandwiches For Meat At Its Best Require No Garnish**

Some of the simplest sandwich spreads are made with butter or margarine and require no extra garnish. Whole wheat or rye bread are suggested with these recipes.

**OLIVE BUTTER SPREAD**  
3 tablespoons chopped green or ripe olives  
1 package (3 oz.) cream cheese  
1/2 cup butter, or margarine  
Creamed

Crush finely chopped olives to paste and combine with cream cheese and butter. Mix thoroughly. Mince watercress or parsley may be added. Makes about 1/2 cup spread. Use with whole wheat bread cut in triangles or oblongs.

**ORANGE SANDWICHES**  
1/2 cup butter or margarine  
2 teaspoons orange juice  
1 teaspoon lemon juice  
1 teaspoon confectioners sugar  
1 teaspoon orange rind  
Soften butter or margarine to be consistency of mayonnaise. Place bowl in dish of ice water and whip the fruit juice, sugar and grated rind. Spread on cut bread or Boston brown bread for sandwiches. Makes 1/2 cup.

**CHIVE BUTTER**  
1/2 cup butter  
1/4 cup chopped chives  
4 drops Worcestershire sauce  
Cream butter; add remaining ingredients and blend well. Makes 1/2 cup. Serve on ice box rye bread.

Collects Recipes, Hands Out Money  
Mrs. M. J. Stratton, 710 E. 17th, combines a career of assistant cashier in the First National Bank and being a wife, mother and an excellent cook.

## For Meat At Its Best Prepare It Outdoors

Everybody's doing it: cooking meat outdoors. But some grill addicts are more successful than others. Want to know the secrets of some of the best barbecue chefs?

Let's start with steak. You can, of course, choose such beautiful broiling steaks as beef tenderloin, sirloin, club, T-bone or Porterhouse. (Porterhouse is a T-bone steak with a large portion of tenderloin. You'll find some meat markets use the name T-bone and Porterhouse for the same cut.) Or if the beef is top quality and aged, chuck, rib, rump and top round steak may be barbecued over an outdoor fire whose long slow cooking will help to make them tender. Marinating the steaks will also help to bring them to succulence. For the marinating liquid you may use a thin barbecue sauce; a mixture of soy sauce, salad oil, crushed fresh ginger and garlic; or a mixture of salad oil, vinegar and garlic.

Some expert outdoor chefs suggest putting the steak on a grill, barbecue rack or wire meshing one or two feet above glowing coals. Others like to use an old-fashioned folding wire toaster with long handles so the meat may be turned easily.

**INDIVIDUAL STEAK SANDWICHES**  
Use individual boneless steaks (each at least 1/2 pound). Let the steaks stand at room temperature for at least half an hour. Brown and cook the steaks to desired doneness and remove from the fire. Have a loaf of French bread split and buttered. Place the steaks on one half of the buttered bread; top the steak with dollops of herb-seasoned butter. Now top the meat with onion rings, tomato slices, salt and lots of freshly ground pepper. Sandwich the bread and fillings together; slice diagonally to make individual servings.

**HAM STEAKS**  
Choose thick center slices from fully cooked ham and have them cut 1 1/2 or 2 inches thick; you can get these at your meat market. The thicker the better! This fully cooked style of ham will grill to perfection over the coals. A 1-inch slice will need about 40 minutes while the thicker slices will take about an hour; turn the slices every 15 minutes and brush with

some of the following pineapple sauce. Make the sauce in your kitchen, then reheat it over the outdoor grill.

**PINEAPPLE SAUCE FOR CHARCOAL-BROILED HAM**  
Ingredients:  
One and one-half tablespoons cornstarch, 1/4 cup firmly packed dark brown sugar, 1 1/2 cups pineapple juice, 1 cup drained pineapple chunks.

Method:  
Mix cornstarch and brown sugar together thoroughly in saucepan. Stir in pineapple juice a little at a time; make sure mixture is smooth before adding next amount of juice. Cook and stir constantly over moderate heat until thickened and clear. Add pineapple chunks. Reheat over outdoor fire and serve over grilled ham slices. Use some of the sauce to brush on the ham slices as they are being grilled.

**Save The Jewels**  
When going away on vacation try to avoid leaving your house ripe for a burglar. Cancel your milk and newspaper deliveries and inform your local policeman that you are away.

## Soup And Sandwiches Make Delicious Lunch

Soup and sandwich lunches recommended themselves during the summer. So easy to prepare, just appetizing enough for warm weather. The soup may be hot or chilled.

What soup and sandwich combinations go together? Flavors need to be well-balanced, of course. One team we like is a chilled tomato soup (flavored with dill or basil) with a hot tuna fish sandwich. In the recipe that follows, tuna, hard-cooked eggs and seasonings are added to a cream sauce; this filling is served between toasted frankfurter buns.

Another combination we like is a New England type clam chowder with an egg-and-olive sandwich. We're also partial to hot split-pea soup with ham and lettuce sandwiches.

Oyster stew that comes frozen nowadays is delicious with a toasted tomato and bacon sandwich.

And sometimes try lobster bisque (hot or chilled) with a sliced chicken or turkey sandwich. Cream of asparagus soup (hot or chilled) is delightful with a rarebit sandwich. To make the rarebit filling, mix grated cheddar cheese with mayonnaise and pimiento-stuffed olives or plain canned pimiento; spread between slices of whole-wheat bread.

Vegetable soup tastes good with a sandwich made from slices of cold meat loaf and chili sauce. Curried cream of chicken soup is delectable served with sandwiches of thin white bread, water cress and mayonnaise.

**TUNA BUNS**  
Ingredients:  
Two tablespoons butter, 3 1/2 tablespoons flour, 1 teaspoon salt, 1/4 teaspoon pepper, 2 cups milk, 1 very small onion (minced), 1 tablespoon lemon juice, 2 tablespoons minced parsley, 1 can (7 ounces) tuna, 4 hard-cooked eggs, 6 frankfurter buns.

Method:  
Melt butter in saucepan over low heat. Stir in flour, then salt and pepper. Add milk all at once with onion; cook and stir constantly over

moderately low heat until thickened and bubbly. Stir in lemon juice and minced parsley well. Fold in drained minced tuna and sliced eggs. Reheat meanwhile split buns lengthwise through center of top; toast under broiler. Spoon tuna filling into split buns. Makes 6 servings.

## Be Like The Irish—Try Cornish Pastry

The Irish carry Cornish Pasties much in the lunchbox tradition.

**CORNISH PASTIES**  
1 pound of lean lamb or mutton, cut into small squares  
2 tablespoons of finely chopped mushrooms  
2 tablespoons of finely chopped onions  
1 spoonful finely chopped parsley

Salt and pepper to taste  
Brown meat well in butter, add mushrooms, onion, parsley, salt and pepper to taste. Add enough water to cover. Cook slowly until tender. Slightly thicken the gravy and let cool.

Then make a good short, plain pastry and line small tart tins with it. Fill the little tart pans with the prepared mixture, brush the rims with cold water. Cover them with rounds of pastry to fit, pressing and pinching the edges together well so that the juice will not cook out. Brush the tops with beaten egg, make a small hole in the top to let the steam escape. Bake in a hot oven (450 degrees) for 10 minutes, then lower to 350 degrees and bake until brown.

**CHEESE EGG FILLING**  
1/2 cup cheese spread  
6 eggs, hard-cooked  
1/4 cup chopped celery  
2 tablespoons pickle relish  
Chop eggs. Combine with all other ingredients. Chill. Spread on rye bread.

Another sandwich made of rolls has the summerlike name Neptuneus. Naturally tuna is the main ingredient.

## Crisp Pecan Cookies Are Good Eating

When you have a long, tall drink in one hand, how about a fistful of good crunchy ice box cookies in the other? With this recipe, you'll have a big batch of cookies for long-term eating.

**ICEBOX PECAN CRISPS**  
3 cups sifted all-purpose flour  
1/2 teaspoon baking powder  
1/2 teaspoon baking soda  
1/2 cup butter, margarine or shortening  
1 cup pure cane granulated sugar  
1/4 cup brown sugar, firmly packed  
1 tablespoon lemon juice, fresh, frozen or canned  
1-3 cup milk  
1 cup ground pecans  
Sift together flour, baking powder, baking soda, and cinnamon. Cream butter until soft; gradually work in both sugars until smooth. Stir in lemon juice. Add dry ingredients alternately with milk to creamed mixture; blend thoroughly. Stir in pecans. Divide dough in half; shape into rolls or triangular strips on a lightly floured board. Wrap in waxed paper; chill in refrigerator several hours or overnight. Slice dough very thin. Place on greased cookie sheet, bake in 400 degree or hot oven 10 minutes. Makes 8 dozen.

## Gets Her Man

EDENTON, N. C. (AP) — An escaped convict, Billy Boyer, stopped at the home of Mrs. Thomas C. Nixon and asked for a drink of water. Mrs. Nixon recognized him and held him at bay with a shotgun until police arrived.

**UNCLE RAY'S CORNER**

A sailfish leaping.

During the first half of the past century an Englishman set down this note:

"We have made an amazing discovery. A sailing fish hoists a mainsail, and often sails in the manner of a native boat. It moves with considerable swiftness."

That man, Sir Stamford Raffles, was exploring waters far from his native England. The "sailing fish" of which he spoke is known today as a sailfish. It is related closely to the swordfish.

The chief difference between a swordfish and a sailfish is in the fin over the back. The back fin of a sailfish is much larger, and may measure 18 inches high and five feet in length!

Sailfish differ widely in size. One day, while on a fishing vessel off the southeastern coast of Florida, I saw a little exhibit which the captain had placed on a wall of the main cabin. Under a small sailfish (about 10 or 12 inches long) was a sign calling it THE WORLD'S SMALLEST SAILFISH.

Further explanation was given. This was supposed to be the smallest sailfish caught on a hook. As far as baby sailfish go, there are some which measure hardly half an inch. These are too young to have even a small bill.

Each winter many thousands of tourists who visit Florida, Cuba and the Gulf of Mexico have fishing as their main purpose. A fairly large number of these (but not all!) catch sailfish with rod and reel. A man who captures a sailfish is likely to have it mounted, a process which is all too costly.

Sailfish differ widely in size. One which weighs from 20 to 40 pounds is likely to be prized highly. Very rarely one is found to tip the scales at 100 pounds, or a bit more. Five years ago a record Atlantic sailfish was caught in the area of the Bahama Islands. It weighed 123 pounds.

Some Pacific sailfish are larger than any caught with rod and reel in the Atlantic. Eight years have passed since a 221-pound sailfish was caught near the Galapagos Islands.

Tomorrow: Four-eyed Fish.

**Pentagon Sets New PW Code**

WASHINGTON, (U)—The Summer White House in Colorado and the Pentagon planned to spell out today a new code for conduct for American servicemen who become prisoners in another war.

President Eisenhower, vacationing at Fraser, Colo., was reported ready to sign an executive order authorizing the new program.

A commission of retired senior officers and Pentagon civilians prepared a report to guide the services in training their men.

The new code is known to represent a compromise between the stern attitude of the Army and the far more lenient viewpoint of the Air Force on conduct of prisoners of war.

The commission studied cases growing out of charges that some Americans yielded to Communist pressure in North Korean camps and either signed false confessions or collaborated with the enemy to obtain better treatment for themselves.

Only the Army has actually court-martialed anybody on such charges. In eight completed cases, two men were acquitted, one officer was dismissed after a finding of guilty and five servicemen drew sentences ranging from 2 to 20 years.

An additional six court-martial cases are pending and the Army said that preliminary investigations point to the possibility of 12 other trials.

The Air Force secretly investigated 83 cases. It found no serious fault in most of these cases, but allowed seven men to resign and released three others, none of them under dishonorable conditions.

**Beards Popular With Scientists At Geneva Meet**

GENEVA, (U)—Why do many scientists wear beards? Just for the fun of it, some of them say. It's a habit, say others, or it saves time shaving. A few even admit their wives made them do it.

Those were some of the answers uncovered in an unscientific poll of bearded scientists at the international atoms-for-peace conference here.

Francis Perrin, French high commissioner for atomic energy, said: "I struck a rock while swimming in 1937 and broke my jaw. This prevented me from shaving for several months. After that I just decided to keep my beard."

Dr. Peter Fortescue, an engineer at Britain's atomic energy research establishment at Harwell, said: "I started mine during the war for the fun of it. The army didn't allow beards but I was in the home guard. I find it saves me many man hours by not shaving."

Prof. W. V. Mayneord of the British Medical Research Council said: "I happened to be ill and with nothing to do, I grew a beard. I liked it and I kept it. But it's only a temporary phenomenon."

Dr. Luigi Mongini of the Italian Research and Experiment Center, didn't get a chance to relate the reason he grew a beard.

"He grew it because I wanted him to," interjected his wife Dr. Carla Tamagnini, a fellow scientist at the Italian study center. "He started the beard two years ago when we got married."

The poll also showed that beards on scientists may be on the way out. The youthful scientist of the atomic age is clean shaven, wears his hair crew cut.

**Record Increase In Volume Shown For Lone Star**

One of Texas' great success stories reached a new milestone today with the release of a Research Company of American report showing that sales of Lone Star beer increased 2,084 per cent from 1941 through 1954. This was the highest percentage of any brewer in the U. S.

The report used sales data developed through the 14 annual editions of the Brewing Industry Survey. Figures previously released had shown that Lone Star's sales in 1954 had increased 15.5 per cent over 1953. Harry Jersig, president of the company, announced earlier that the brewery was beginning its eighth expansion in 14 years. Now that this expansion is completed, Lone Star will have a capacity of 900,000 barrels of beer.

The research report which showed Lone Star's 2,084 per cent increase from 1941 through 1954 listed the 15 brands of beer showing the highest increases. The number two beer listed in the report showed an increase of 659 per cent over the 14-year period.

The report showed the Lone Star's sales rose at an astonishing rate during the 14-year period. From annual sales of 32,000 barrels in 1941, Lone Star rose to 89,000 in 1945. It jumped to 166,000 in 1947, and reached 501,000 in 1952. Last year, Lone Star sold 667,000 barrels.

**New Building Set In Monticello Area**

Permits have been filed at City Hall for construction of 10 houses in the south extension area to Monticello Addition. Each house is listed at \$8,000.

The houses will all be in the 1200 block of Morrison Street. Each will be brick veneer, with six rooms and a bath plus a car port and storage room, according to the permits.

The permits were filed by the Monticello Development Corporation.
