

SOIL CONSERVATION SERVICE WORK IN 1953 IS OUTLINED

"Despite unfavorable moisture conditions a considerable amount of conservation work was applied on individual farms and ranches in Eastland county during 1953," the annual report of the Eastland office of the Soil Conservation Service revealed Tuesday.

The SCS report said, "It is evident that an ever increasing number of farmers, ranchers and even city dwellers are becoming conscious of the benefits derived from practicing conservation. Many old fields have been seeded back into native grasses in order to stop soil erosion, hold the rainfall on the land and provide additional grazing. Brush has been pushed on hundreds of acres in order to allow native grasses to return."

"When managed properly a greater return will be realized from these areas than if they were planted to field crops. Included in the practices applied in 1953 were 30 miles of terraces to intercept the flow of water across cultivated land and divert it to protected areas where it can be removed from the fields with a minimum of erosion damage."

Rotarians Hear Sgt. Cole Ask For MOD Backing

Sgt. Jess Cole, of the Ranger National Guard, told Eastland Rotarians Monday that the March of Dimes was not just something that was needed—"It's something that we have got to have."

Cole, who was introduced by Arthur Murrell, program chairman, spoke in behalf of the Dimes drive and urged Rotarians to "put your weight behind the MOD efforts."

Cole showed a film on polio and told the club that it takes an average of \$1,700 a month to treat each victim of polio.

He told Rotarians of the efforts of different groups in the county to raise funds for the drive.

Conrad Reeves is Victim of Polio

Conrad Reeves, formerly of Eastland and one time manager of the Men's Shop, who now lives in Midland, is in the convalescence ward in Hendricks Memorial hospital in Abilene. Conrad had polio several weeks ago and will be in the recovery ward for six to eight weeks.

Mrs. Reeves, in Eastland for a few hours, stated that his hardest fight now will be loneliness as she must stay with their two children in Midland where Rhinda is in school. She hopes that his Eastland friends who are in Abilene at anytime will go by for a few minutes to see him. She wanted also to say definitely that he is out of the contagious stage so that no one need fear to visit him.

Conrad was a charter member of the Quarterback Club here and was largely responsible for the club's first minstrel show as president of that organization.

County Bonds are Refunded

Eastland county commissioners voted Monday to refund bonds on the Eastland county courthouse for a period of seven years. By unanimous vote C. N. Burt Co. of Dallas was selected over two other firms entering bids.

Outstanding bonds now total \$117,000. A payment is due March 15 of \$12,000 and in addition a payment of \$13,000 will be made, County Auditor Harold O'Brian said.

By refunding the bonds, \$8,928 in interest rates will be saved. The new interest rate will be 2.2 per cent. In 1944 the bonds were refunded at an interest rate of 3 1/2 per cent. They were voted in 1927.

Present at the regular weekly meeting of the Commissioners Court were Judge John Hart and Commissioners B. M. Bennett of Gorman, Frank Castleberry of Eastland, Henry Carter of Rising Star and T. E. McCaules of Cisco.

Rising Star Man Tells of Fight Of Snake, Rabbit

RISING STAR (Spl.)—Everett Harris, Rising Star farmer, found himself sitting in a ring-side seat to one of the best fights ever witnessed recently. Harris was plowing in a field near his home when he heard a noise in bushes nearby and upon investigating found that a cotton tail rabbit and a large coach whip snake were in deadly combat.

"The rabbit would jump at the reptile and strike with all its might and then the snake in turn would do his best to get the rabbit in its coil," Harris said. "The rabbit delivered its blows too fast for the snake to catch it."

Harris said the fight went on for several minutes and that both the snake and the rabbit were covered with blood. Then the rabbit saw Harris and took off for the bushes.

"I've wished since I'd been real quite — it's possible one or the other might have won the fight."

Pack Committeemen are G. C. Stinchcomb, M. H. Perry and John Goode. Virgil Massingill and Ed Sargent are assistant cubmasters and Mrs. Ed Sargent is treasurer. The Pack is sponsored by the Methodist Church.

"Any boy can enter the Cub Scouts on his eighth birthday who is eligible and can remain until his eleventh birthday," Foster said. "If a boy is interested he should have his parents contact me at 910 South Seaman or phone 753."

Following is a review of cub scouting in Eastland. There are eight dens of Cub Scouts here and here is information on each.

Have You Paid Yet?

(An Editorial) This isn't the first editorial you have ever read in behalf of the March of Dimes, nor will it be the last. Yet despite the fact that the MOD has become a time-worn topic, it remains a must on our list.

There is something new about this year's Dime Drive. A whole new program—polio prevention—is being launched in 1954 by the National Foundation for Infantile Paralysis. The program encompasses both the trial polio vaccine in which we place such store and stepped-up quantities of gamma globulin.

This new phase of the fight against polio will need more than \$25,000,000 alone in 1954. But this is only part of the story—one third to be exact. The goal for the March of Dimes campaign this year is for \$75,000,000. In Eastland, like other cities and towns throughout the nation, the goal is \$1 per person. The county quota alone is \$24,000.

What makes the polio fight so expensive in this year of decision is that polio prevention must be superimposed on the parent programs of patient aid, research and professional education.

Operation of these three programs took upwards of \$50,000,000 last year, including \$29,000,000 for patient aid, and we must anticipate obligations of equal proportions in the months that lie ahead.

That's why \$75,000,000 is needed; that's why it will take 50 per cent more in '54. And that's why each of us MUST give more in the current March of Dimes.

Let's not let Eastland lag behind. All of us want most fervently to be done with this disease so that we may hasten on to the conquest of other maladies of mankind.

He was active in church, community and youth activities. He was a Mason, an Oddfellow, Rotarian and a member of the Ranger chamber of commerce. He was past president of both the Rotary Club and chamber of commerce and had served as city commissioner in Cisco, where he made his home for 20 years before moving to Ranger in 1943. He was a member of the board of regents of Ranger Junior College, member of the board of stewards of the Ranger First Methodist Church and a member of the Property Board of Methodist churches.

land, and Leon Henderson of Albuquerque, N.M.; his mother, Mrs. H. M. Henderson of Plainview; three brothers, Clyde Henderson of Oklahoma City, F. A. of San Angelo, and H. L. WINNER WILL BE FAVORED IN DISTRICT

The top two teams in the East Zone of District 7-A clash tonight in what will probably determine the zone cage favorite. Eastland's Mavericks play host to the rough Ranger Bulldogs, pre-season favorites, in a game scheduled to get underway at 7 p.m.

The Mavs, fresh from a 51-50 win over DeLeon in their opening district game of the season Friday night, will have the advantage of playing on their home court and of having several more games back of them. Ranger got a slow start due to a great football season, but their height advantage will probably make up for the lack of games played.

Eastland's probable starting lineup will have J. D. Hanson and George Harris at forwards, Stan Harris at center and Doug Williams and Bobby Pittman at guards. Coach Carrol Shelton said he might switch his starters around, however, and would not certify the starters.

Ranger's starting five will most likely have Chico Mendoza and Rodney Carter at forwards, Tommy Hinds at center, and Scott Forney and Bill Brazda at guards. John Rush may start at one guard slot, however.

Corneau, which is taken from the Farwest Rambler. The pleasant marriage of Mr. and Mrs. C. L. Corneau was a bright scene of joy and happiness last evening, the occasion being the marriage of their only daughter, Edith P., to Mr. Oscar Wilson.

"In one corner of the bridal parlor a canopy of white gauze beautifully decorated with mistletoe, smilax, carnations and roses had been arranged. The background of canopy was banked with fotted plants and cut flowers.

"After the ceremony many and hearty were the congratulations fairly showered upon the young couple.

"The bride, a sprightly brunette, was attired in an elegant and rich white brocaded silk bridal gown made with high neck and with long sleeves, and carried lilies of the Valley. The dress was made in a charming simplicity of style and was admirably adapted to the petite figure of the pretty bride.

"The bride is the only child of Postmaster and Mrs. C. L. Corneau and possesses many noble and womanly qualities which will bless and brighten her future home. She is very prominent in social circles and is beloved by a host of friends that is attracted to her by her bright and sunny disposition and lovable nature.

Game And Fish Commission OKs New Test Area

AUSTIN (Spl.) — The Game and Fish Commission unanimously approved an experimental-demonstration wildlife area on a 6000 acre tract adjoining San Angelo Junior College which would handle the project.

The undertaking would be sponsored jointly by the college, the Commission and the United States Government which owns the land. The Commission would primarily contribute wildlife management talent and general consultant services.

The Executive Secretary of the Commission said the area, which is located on the shores of the new San Angelo Lake, will be designed somewhat along the lines of the key experimental programs maintained in various parts of the state to further the main restoration movement.

The Commission authorized expenditure of funds estimated at \$121,000 to cut a fishway across Bolivar Peninsula on the Gulf Coast, just east of Galveston. The pass to be located where State Highway Number 87 crosses the Peninsula will not be available for boat traffic since, it was explained, it is intended exclusively for fish passage and the general improvement of sports angling.

The Commission used its direct authority for the six-county reclamation area including Possum Kingdom to abandon the minor possession limit of 150 per person. The Commission, acting on the request of fishermen from that area, said the change would be tried out temporarily.

The Commission ordered a survey to determine advisability of permitting private interests to cut a Galveston Bay Channel in the vicinity of Eagle Point or San Leon. It discussed proposed surveys of shell deposits in the inland bays.

Walter W. Lechner of Fort Worth, was named chairman of the Commission to succeed V. F. Neuhaus of Mission, whose term has expired.

Three new members were sworn in: Herbert J. Frenley, Houston; Henry LeBlanc, Fort Arthur; and Henry Coffield, Marfa.

Eastland Music Study Club Presented E. H. S. Orchestra At Woman's Club January 20

The Eastland Music Study Club met at the Woman's Club January 20th for their regular meeting and presented the Eastland High School Orchestra in a program. Mr. George Bledsoe, director.

The president opened the meeting with the introduction of the orchestra members and guests. Mr. Bledsoe directed the ensemble singing of "Onward Christian Soldiers" with Mrs. Bledsoe at the piano. Mrs. L. Carpenter gave the club collect.

Mrs. W. E. Brashier, leader, presented Mrs. W. C. Vickers who gave a most interesting story of the Mission Bells in America, their history and location.

Mrs. Marvin Hood discussed "Songs of Hope and Fancy" with illustration of the pioneer songs and those that became popular in the days of early California.

Mrs. Jos. M. Perkins brought an interesting book talk on Emis Davis' "More than a Pitch Pipe" and cited that Mr. Bledsoe used more than a simple "pitch pipe" with

Akron Man Seeks To Use Wood Waste

AKRON, O. — Mathew M. Moore, is almost fanatical when it comes to waste, particularly if it involves wood.

Moore, who operates the Akron Basket Co., complains of the mountains of shavings and sawdust going to waste.

"Over half the nation's wood inventory now ends as waste materials," he estimated recently. Moore is working on two means of eliminating some of this waste. One calls for the utilization of wood scraps, shavings and sawdust in production of wood molasses.

"Sugar is a by-product of wood fiber, he explained, "and there is a good use for everything we now consider waste, if we only find the use."

"Wood molasses already has been accepted in 35 states as a food fit for animal consumption."

The other waste-eliminator still in the planning stage, too, would take the residue left from making wood molasses for use as an ingredient in a rubber material suitable for road building.

Office Open At Courthouse For Income Tax Aid

Early filing of your 1953 income tax return will be a big help to Uncle Sam and will put behind you a detail that becomes a bigger headache the longer you put it off. That's the word from Ellis Campbell Jr., District Director of Internal Revenue.

Campbell, who would be very happy to see a steady flow of letters bearing checks and money orders—no cash, please—reminded taxpayers today that payments should be made to the order of the District Director of Internal Revenue, Dallas, Texas.

"The vast bulk of Dallas District taxpayers will find no difficulty in making out their own returns, especially if they use Form 1040-A," Campbell said. "But for those who have a problem or two, our office stands ready to give assistance or advice. If you can present the facts on your problem over the phone, call us at 101. If you need personal aid, visit our office at Eastland County Court House."

"To obtain help and avoid the rush and pressure of last minute crowds, call or come in now, while our personnel are better able to assist you."

"It's true that the filing deadline is March 15, but little or nothing is gained by waiting until the last minute to pay up. Taking care of your payments now will help your government to carry on its important defense and construction programs and many other activities, and will let you plan your budget for the rest of the year with assurance."

The district director stressed that careful reading of the instructions, accompanying the forms recently mailed out, will enable most taxpayers to prepare their own returns, often in less than an hour.

It takes strong soil to build strong cattle. Proper fertilizers put into the soil will make better hay for wintering cattle and will put bone and flesh on them in greater abundance. Hay that is short in nutritious food values cannot be expected to build healthy livestock. Now is the time to get out pencil and paper and begin figuring the fertilizer needs for grass and hay next season. The soil puts out no more than it already contains.

A major innovation in this new modern furniture is the curving legs sweeping outward from the underside of the table and chairs. Notable in this dining room is the new buffet with three doors framed with a slim projecting molding. Furniture is made of solid walnut and walnut veneers finished in a cool earth brown shade called, "SHERRY." This grouping is part of a new collection of furniture for the dining area, living area and bedroom area. (The Widdcomb Furniture Co.)

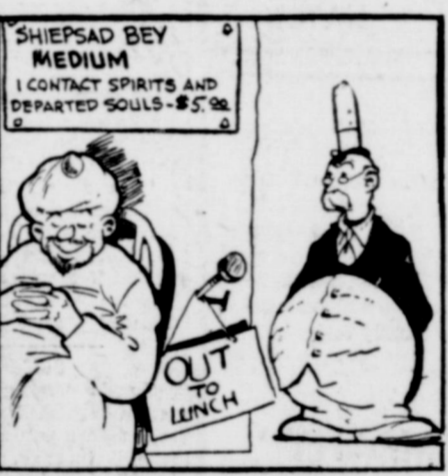

French Provincial furniture continues to gain new popularity. Shown is a grouping that is Contemporary in function, yet maintains the friendly warmth associated with Traditional furniture. Note the two cushion sofa and the contrasting fabrics on the wing chair. You will be seeing more French Provincial furniture during 1954. (Globe Farnor Furniture Co.)

Children's New Lingerie and Sleepwear Now Duplicate the Grownups' Styles

By EDNA MILES

FASHIONS in children's lingerie and sleepwear are as up-to-the-minute as those for mother. Can-can ruffles. Nylon taffeta petticoats. The elasticized bodice for super fit. Cotton print pajamas with matching slippers, both in gay colors that appeal to children. Although dress-up lingerie and pajama and nightgown fashions for children may seem frivolous and unnecessary at first thought, they make sense. Most of them are budget priced. The prettiest nylon slip, lavish with lace, takes minutes only to wash out, an hour to dry. Cotton flannel pajamas in bright prints wear well, can be worn without pressing if need be. Even the sissy rompers for very small children, the ones with many ruffles and much lace, are practical when they come in nylon plisse. Ruffled panties in the same fabric come with water-repellent plastic linings and have pretty lace or rick-rack trim.

Nylon dress-up slip for little sister has ribbed bodice and full, stand-out skirt finished with wide ruffle. Straps and bodice have lace trim. Ski-jama, right, is in cotton flannel with red background and white print. There's ribbing at neck, sleeves, waist and ankles.

Thirty-Two Church Men Have Chili Supper And Social

Thirty-two Methodist men congregated at the Methodist Church Tuesday, Jan. 19th, for a chili supper and an hour of recreation.

Starch Magic

Renew the appearance of dowdy-looking garments with a special cosmetic treatment of starch to which is added a little cake of ironing aid. Follow directions on the box of dry starch and just before you add the hot water, drop in one cake of the ironing aid and stir until dissolved. Now squeeze starch mixture well into the fabric and then squeeze all excess starch out. You'll find that ironing is twice as smooth and that your old clothes seem to have a new lease on life.

Henry Van Geem was chairman and with the assistance of Homer Smith, J. C. Whatley and W. F. Davenport a good and profitable evening was spent in complete relaxation with games and singing.

It is the current thought that this group may form itself into the regular church group of Methodist Men, which includes a regular study program such as the Women's Society of the church. It is an organization of the church that has proven through the last few years, to be invaluable to the men of the church and while the meetings have not yet taken on the full quota of attendance they hope for, they feel that interest is growing.

Thursday Club Members Study Woman's Economic Security

The Thursday Afternoon Study Club met January 21st at the Woman's Club, 3:00 p.m. for their regular meeting. The program for the afternoon was based on "Preservation of our Economic Security."

Leader, Mrs. Cecil Collins, quoted Louis D. Brandeis, "Democracy rests upon two pillars: One, the principle that all men are equal, entitled to life, liberty and equal opportunity for happiness. And the other, the conviction that such equal opportunity will most advance civilization." She then introduced the guest speakers of the program, Virgil Seaberry Jr., who acted as monitor or leader; Charles Freyschlag and Jack Frost, attorney.

Seaberry's introductory remarks were on overall picture of the basic laws of Texas, inherited from the days when the Spanish flag was flying and a mixture of the English influence which set Texas laws, for the most part, as different from other states.

Charles Freyschlag talked on

Woman's Rights and discussed the laws under which women in Texas may have separate property and estate and called attention to the importance of paying the poll tax and exercising of rights.

Jack Frost devoted his talk to inheritance taxes, wills and estates and the frequent indifference of women to these important things in our life. That women should keep themselves informed on the family income, investments and situations that would prove beneficial in time of distress.

The leader expressed her thanks for the most informative and helpful remarks of the guests.

President, Mrs. Frank Castleberry, had a short business meeting when roll call was responded to by quotations from "Poor Richard's Almanac".

Members present were: Mmes. Frank Castleberry, Cecil Collins, W. F. Leslie, W. W. Linkenhoger, Milburn S. Long, Frank Lovett, C. Melvin Ratheal, M. A. Treadwell, Clyde Young, J. C. Oglesby and O. R. Scott.

"It's yours if that's what you mean. But I don't flap my men this way." That's the way Ida Lupino talks to Edmund O'Brien in a new picture, "The Bigamist," which also stars Joan Fontaine and Edmund Gwenn. Showing at the Majestic Theatre Tuesday, Wednesday and Thursday.

Deep Lakes Once Where Death Valley Now Is

LA JOLLA, Calif. — Mammoth lakes over 100 feet deep once covered the vast stretches of desert which now extend for hundreds of miles in the Death Valley area. Dr. Carl Hubbs, professor of Oceanography at the University of California's Scripps Institution, says that pinnacles rising 125 feet above the desert are mute testimony to the depth of waters which existed in the region thousands of years ago. The desert pinnacles were built up under water by tiny fresh plants, he added.

Dr. Hubbs is an advocate of a state park in that area.

Sealing Tips
Save your tongue and digestion when sealing letters. An ice cube wrapped in a face cloth makes a handy device for moistening the envelope flaps and stamps.

Dear Patron:
Here is 80 minutes of spade-calling entertainment. Starting with a story as old as man, but startlingly new to the screen, Hollywood stops playing "Ostrich" to bring you adult drama. We don't go along with the idea that all American movie patrons are equal to the "Twelve-Year-Old Mind." That is why we confidently dare to show this picture. That is why we proudly offer you 80 minutes for grown-ups.

Bringing Home the Bacon—
... is not the popular pastime it once was, for we are living in a changing world. Take a look at prices, for example. Not up a little but doubled and trebled in many fields. An exception is insurance, except car insurance. The hazards of driving are still increasing, and all claim records for 1953 will be broken. For this reason we cannot afford to be without adequate car insurance. It's a "must" in every family budget.

This Traffic Bottleneck Was The Real Thing
TROY, N. Y. — Police said it was a baby's bottle that bottled up noontime traffic at a downtown intersection.

When one woman driver double parked, another pulled up behind her and refused to budge despite furious honking from several stymied male motorists.

One of the men thought the first woman was in trouble and got out to assist.

"I'm fixing the baby's bottle and they'll just have to wait," he was informed.

As horns continued to honk, the second woman still refused to pass because "I don't want to take a chance."
