

PROCEEDINGS IN COURT OF CIVIL APPEALS

The following proceedings were held Friday in the Court of Civil Appeals, Eleventh Supreme Judicial District: Affirmed Texas & Pacific Ry. Co., vs. J. Presley, Bowie.

Public Invited To See Mexico Movies Friday At 7:30 P.M.

A number of inquiries from Ranger, Cisco and Eastland district such an interest in the second annual Texas Lions good trip to Mexico, March 23-31, 2, that there is likely to be a good-sized Eastland County contingent, according to Russell of Fort Worth, who will show motion pictures of colorful Mexican scenes Friday night at 7:30 o'clock on the mezzanine floor of Gholson Hotel in Ranger.

Cleanup Campaign Suggested By Man

A suggestion that the citizens Eastland and organizations cooperate in a city-wide cleanup campaign was offered Friday by one of the town's prominent residents.

Countries Agree On Spoils Of Republic

By United Press BUCHAREST, Rumania, Mar. 17.—Rumania and Hungary were ordered late today to be on the verge of concluding negotiations for the division of a small share in the spoils of the republic of Czechoslovakia.

Breaking Czecho-Slovakia's Back

This map shows how what was left of Czechoslovakia after Munich partition crumbles under impact of Slovakian declaration of independence. Vienna, only 30 miles from Bratislava, capital of Slovakia, is a concentration point for German military.

TELEGRAM'S SCHOOL OFF ON 3-DAY RUN

The annual Spring Cooking School, sponsored each year by the Eastland Telegram, opened classes Thursday afternoon with a good attendance.

Mrs. Arveva D. French, a noted food expert, is demonstrator for the school again this year, and on the opening day she gave many helpful hints and recipes for cooking appetizing dishes, and this afternoon from 2 until 5, she will give demonstrations.

Howard Davenport Dies of Injuries; Funeral Is Planned

Word was received in Ranger Thursday night that Howard Davenport, formerly of Ranger, who was injured in El Paso, had died at five o'clock Thursday afternoon.

No one knows just how the fatal accident occurred, it was stated today. A train had pulled into El Paso, according to information received, and Davenport was checking it. Later he was found beside the train, with a compound fracture of both legs, one hand crushed and the little finger of his other hand cut off.

Czech Minister Will Stay In Legation

WASHINGTON, March 17.—Czech minister Vladimir Hruban announced today that he has informed his government he does not recognize its capitulation to Chancellor Hitler "as valid, inasmuch as it is unconstitutional."

O'Daniel Urges A Discount On Taxes Is Paid Promptly

AUSTIN, March 17.—Gov. W. Lee O'Daniel today sent a message to the Texas Senate proposing the passage of an act which would permit discounts for the prompt payment of taxes.

Couple Married

Billie B. Lavender and Mildred Scott of Cisco were married this week by Justice of Peace E. E. Wood of Eastland.

U.S. DENOUNCES ANNUAL 9:49 BANQUET IS THIS EVENING

WASHINGTON, Mar. 17.—The United States government today denounced German aggression against the former Czech government in vigorous terms.

Acting secretary of state Sumner Welles, speaking with the full knowledge and approval of President Roosevelt, said that this government "cannot refrain" from making known this country's condemnation of the acts which have resulted in the temporary extinguishment of the liberties of a free and independent people.

Welles declared also that this government has "on repeated occasions expressed its condemnation of a policy of military aggression."

Top Price Is Paid On Champion Steer

FORT WORTH, March 17.—The top price for the nation's livestock shows this year was paid today when "Real Prince," the grand champion steer of the 1939 Southwestern Exposition and Fat Stock Show sold on the auction block for \$1.26 a pound.

PWA Project To Be Increased In Spring

FORT WORTH, Texas.—The Public Works Administration has 841 non-federal projects under way in its seven-state fifth region, of which Texas is a part, and is completing an average of 12 projects each week, George M. Ball, regional director, has announced.

THE WEATHER

WEST TEXAS—Fair tonight and Saturday, except unsettled in extreme southeast portion. Not much change in temperature.

Needle In Seven Years Goes Entirely Through Man's Foot

RED HILL, Pa.—It required seven years for a needle point to travel "one foot."

The foot was that of James L. Wood, Red Hill farmer. He stepped on a needle seven years ago. The point penetrated the big toe of his right foot and broke, leaving a half inch of steel in the flesh. Wood forgot about the accident.

47,000 Texas Farms And Ranch Owners In Soil Program

COLLEGE STATION, Texas.—Approximately 47,000 Texas farmers and ranchmen received a total of \$6,376,456 in February for participating with the crop and range land conservation program of the Agricultural Adjustment Administration.

IS IMPROVED

E. M. McCoy, who recently was seriously ill, continues to show improvement, it was reported Friday. He is a resident of Eastland.

BROWN IS VISITOR

Harvey Brown, reporter for 42nd district court at Abilene, was a visitor Friday at Eastland.

BRITAIN TAKES STEP TO STOP HITLER DRIVE

LONDON, Mar. 17.—Great Britain today took the lead in democracy's "stop Hitler" drive by recalling her ambassador to Germany to report on the nazi "march to the east."

With the swift expansion of nazi-fascist power alarming every European capital, the government of Prime Minister Neville Chamberlain followed the example of the United States and ordered S. Neville Henderson, its ambassador at Berlin, to return to London. It was believed likely that Hitler also would recall his ambassador, Dr. Herbert von Dirksen, for a "report."

Great Britain's action was viewed as a rebuke to the nazi destruction of Czechoslovakia. Diplomatic circles believed that France would take similar action.

The French cabinet of Premier Edouard Daladier asked parliament for dictatorial powers to meet the new threat created by nazi seizure of Bohemia, Moravia, and Slovakia, and by expectations that Hitler would now stand back of his partner, Premier Mussolini of Italy in a move against France in the Mediterranean.

Roundup To Draw Survivors Of First U. Of T. Law Class

AUSTIN, Texas.—The three survivors of the University of Texas' first graduating class, the veterans of 1884, were today named by Ex-Student officials honor guests for the Tenth Annual Round-Up, alumni homecoming here, March 31, April 1 and 2.

Of the first thirteen law students to receive diplomas on the old "Forty Acres," ranks have been thinned after 55 years to include only Robert Atkinson Pleasants of Houston, George Russell Smith of McKinney and John Stephen Stone of Paris. T. U. Taylor, University veteran engineering dean emeritus in charge of "Texas Ex" reunions during Round-Up, was not sure whether the institution's number one students could attend the homecoming.

Square Dancers Are Invited To Contest

ABILENE, Texas.—An open invitation to all square dance teams to come to Abilene March 24-25 for a square dance contest in connection with the West Central Texas Livestock Show and Rodeo was issued this morning by Charles Bacon, president of the Abilene Booster Club. First prize of \$10 and second prize of \$5 is being offered the best square or set, as a special prize of \$2.50 is offered each of the two best callers.

Apr. 6 Proclaimed Official Army Day

WASHINGTON, March 17.—President Roosevelt today proclaimed April 6 as Army Day and invited the governors of the 48 states to issue similar proclamations.

When a 'Giant' Goes to Court

Towering over a spectator, 21-year-old Robert Wadlow, 8-foot, 8-inch "giant" of Alton, Ill., is pictured in corridor of courtroom at St. Joseph, Mo., where he testified in his suit against Dr. Charles D. Humber, basing charges on article written by the Barnard, Mo., physician.

Jury Cases Set In 91st Court

Two civil cases have been set for trial next week in 91st district court at Eastland, according to Judge George L. Davenport.

Set for Monday is the case of Carrie Ella Tipton et al vs. Fannie J. Kimmel et al. On Thursday the case of Jack Brown vs. Texas Coca-Cola Bottling company will be heard.

Petit jurors summoned, according to a list in the office of District Clerk John White, are: I. J. Pence, Cisco; I. S. Echols, Gorman; K. E. Ambrose, Ranger; B. O. Seagle, Scranton; T. H. Pace, Ranger; M. E. Crossley, Rising Star; S. J. Holder, Desdemona; J. A. Hart, Alameda; I. H. Pippenger, Douthan; R. A. Tucker, Gorman.

Revolt Leaders In Spain Sentenced

MADRID, Spain, March 17.—A court martial today passed death sentences on Lt. Col. Luis Barceilo and Lt. Col. Emilio Bueno, leaders of the communist revolt against the republican government, which was suppressed last week.

Neutrality Law Is Need Of Country

WASHINGTON, March 17.—President Roosevelt declared today that the United States needs new neutrality legislation, particularly in the light of European developments of the last few days.

MANN RULES RACE BET LAW IS NOT VALID

AUSTIN, Mar. 17.—Attorney General Gerald C. Mann ruled today that local option on pari-mutuel horse racing would be unconstitutional.

The ruling was made after the house of representatives had referred the question to him for advice.

Four Are Injured In Wreck Thursday Night Near Ranger

Three boys and one girl were injured, two slightly, in an automobile accident near Ranger Thursday night, and were given treatment in the City County Hospital.

NYA Boys Enter Track, Field Meet

"Chuck" Squires, recreational director of the Ranger NYA projects, and five NYA youths are to leave early Saturday morning for Fort Worth, where they will enter the track meet of the Southwestern Exposition and Fat Stock Show.

Fascist Warm Of Demand On France

ROME, Italy, March 17.—The fascist press today warned that Italy will follow up the nazi triumph in Central Europe by achieving her demands against France in the Mediterranean.

Revolt Leaders In Spain Sentenced

MADRID, Spain, March 17.—A court martial today passed death sentences on Lt. Col. Luis Barceilo and Lt. Col. Emilio Bueno, leaders of the communist revolt against the republican government, which was suppressed last week.

Neutrality Law Is Need Of Country

WASHINGTON, March 17.—President Roosevelt declared today that the United States needs new neutrality legislation, particularly in the light of European developments of the last few days.

FILIBUSTER ON COLLEGE BILL STARTS TODAY

AUSTIN, Mar. 17.—Senator Joe Hill of Henderson today started a filibuster against the final passage of a bill to raise John Tayleton College at Stephenville and North Texas Agricultural College at Arlington to the rank of senior colleges.

Hill began speaking at 12:30 o'clock after points of order had kept the bill from coming before the senate for two hours and a half.

Request Forms To Classify Cotton Ready At Austin

Forms for making request for the free classing of cotton of their 1939 crops are available to one-village communities and other cotton improvement groups at the Austin classing office of the Division of Cotton Marketing, Geo. E. Miller, who is in charge of the office, announced today.

Representatives of any cotton improvement group may obtain sets of these application forms by applying to the Bureau's office. The address is P. O. Box 1140, Austin, Texas. Group applications may be filed any time after members have planted their cotton, but early applications will be given preference after allowance is made for the different dates of planting over the Cotton Belt.

Tick Eradication Work Extended To More Of The State

The Livestock Sanitary Commission of Texas in conjunction with the Bureau of Animal Industry conducted activities for the prevention and eradication of the fever carrying tick in 64 counties in Texas for the month of February.

Eastland Masons At Meeting In Caddo

A group of Eastland Masons assisted recently in the conferring of two Fellow Craft degrees at the Caddo Masonic lodge.

Revolt Leaders In Spain Sentenced

MADRID, Spain, March 17.—A court martial today passed death sentences on Lt. Col. Luis Barceilo and Lt. Col. Emilio Bueno, leaders of the communist revolt against the republican government, which was suppressed last week.

Neutrality Law Is Need Of Country

WASHINGTON, March 17.—President Roosevelt declared today that the United States needs new neutrality legislation, particularly in the light of European developments of the last few days.

WASHINGTON NEWS

FROM CONGRESSMAN
CLYDE L. GARRETT

MEASURES INTRODUCED—There has been a slight slowing down in the introduction of new measures in the House and Senate recently. Among those introduced were: Senator Wagner's bill to make Federal grants to States in connection with a national health program; Senator Walsh's bill curbing subversive activity in the Army and Navy; Twelve Senators introduced the Constitutional amendment asking for a national referendum before any declaration of war. The Railroad Aid Bill which was drawn up by the special management-labor committee appointed by the President last fall, was made public by the Senate Interstate Commerce Committee.

HOUSE ACTION—The most important issue taken up by the House of Representatives lately is the one dealing with a larger War Department appropriation. The measure, appropriating a half billion dollars, to be spent chiefly on new equipment for the Army—784 new combat planes, new anti-aircraft guns, new semi-automatic rifles and improvement of the coast defenses, was approved by the House. Another appropriation bill approved by the House was the Treasury-Post Office supply measure. This bill would give \$1,805,000,000 to the two large departments.

POPULATION PEAK—1960—That the population of the U. S. probably will not reach its crest until about 1960 is the opinion of an agricultural economist of the U. S. Department of Agriculture. The number of births per year, however, has been downward since 1924. Births per year have declined from nearly 3,000,000 in 1921 to about 2,300,000 in recent years. He cites figures to show that enrollment in the first grade of public schools has declined about 100,000 each year since 1930. Enrollment in elementary schools as a whole is declining, and there are about 12% fewer children under 10 years of age in the nation than when the census was taken 9 years ago.

HIGHWAY TUNNELS—Since tunnels have come into frequent use in highway construction, highway engineers have had to con-

sider problems of tunnel ventilation. The exhaust gases of motor vehicles contain carbon monoxide—poisonous when inhaled. This gas is colorless, odorless, and tasteless and its presence cannot be easily detected. To avoid dangerous concentrations of gas, special ventilation is generally necessary in highway tunnels over 1,500 feet long and in shorter tunnels in which the natural ventilation is not effective. At the Wawona tunnel in Yosemite National Park ventilation is obtained by three tunnels especially constructed for ventilation purposes. They are driven horizontally from the main tunnel to the face of a cliff. One of these exhausts the bad air. The other admits fresh air to the main tunnel at the quarter points. Fans are installed in the center ventilation tunnel. These fans have automatic control and turn on and off as necessary to keep the air safe for travellers.

BEEF GAINS INCREASED—The

cheapest beef cattle gains usually come from pasture grasses. More of these inexpensive gains may be made by supplementing grasses that ordinarily furnish grazing only in spring and fall with a pasture plant that may be grazed in the summer, studies show. At Sni-Bar farms rotation grazing of the bluegrass pasture, supplemented in midsummer with Korean lespedeza pasture produced an average of 107.9 pounds of gain per acre. Unsupplemented bluegrass pasture, produced only 71.8 pounds.

THIN LAWNS—Every spring thousands of home owners, recalling that the lawn looked rather thin last summer, scatter seed in hopes that a dense stand of green grass will hide the bare spots. The most frequent cause of thin turf is infertile soil. Grass plants usually adjust themselves to the plant food available in the lawn or pasture. When grass cover is thin, it usually is a good sign that there

is not enough plant food to support a dense sod. Sowing fresh seed is likely to be a waste of money and effort unless the soil is made fertile enough. Thin lawns or pastures usually need a complete fertilizer and in most cases benefit from an additional application of superphosphate.

Peanuts Are To Be Sold At Warehouses

U. S. No. 1 peanuts, stored in warehouses in this part of the country, will be sold the latter part of March and during April at warehouses where they are stored, it has been announced by

Dick Weekes, manager of the Southwestern Peanut Growers Association. Sales will be held at the warehouses, for cash or certified check as follows: March 27-28, Ranger, Chamber of Commerce warehouse. March 29-30, Rising Star, Oscar Schaefer warehouse. April 3-4, Gorman, Gorman Bonded warehouse. April 5-6, Comanche, Comanche Bonded warehouse. April 10-11, Tolar, Tolar Peanut warehouse. April 12-13, De Leon, Golden Oak Bonded warehouse.

Ranger H. D. Club In Session Tuesday

The Ranger Home Demonstration club met Tuesday at the home of Mrs. O. A. Hinman with 12 members present, five visitors and one new member. Miss Ramey was present and gave a very interesting demonstration on yeast bread, discussing the flour, utensils and yeast to be used in making yeast bread. Members present were: Mrs. J. E. Ferris, Mrs. E. P. Mills, Mrs. J. W. Parish, Mrs. Earl Blackwell, Mrs. G. C. Love, Mrs. Ralph Hise, Mrs. G. T. Williams, Mrs. J. W. A. Cox, Miss Ruth Ramey, Mrs. O. A. Hinman, Mrs. Joe Faircloth, Mrs. Frank Weekes; new members: Mrs. Mahoney, visitor and Mrs. Beck and Mrs. Harmon from the Oakley club, visitors.

Oakley Club Meet Wednesday

The Oakley 4-H club met Wednesday at 4 p. m. Jane Harman, with two visitors, and two visitors towards joined the club. Miss Zelma Ruth Ramey gave each member a card for their frame gathering and making a statement. Those present were: Dean, Clotis Hamon, Marie Williamson, Joy Graves, Patsy Tarrant, Clara Lizzie Belle Proctor, Ada Grave, Munroe, and Mrs. Harman.

Home Is No Place For The Family Washing

Broiling Seals in the Flavor!

There's an appearance about a broiled dinner that pleases the eye... an aroma that intrigues the taste. And broiled foods are more delicious when done to a turn in the smokeless broiler drawer of a modern gas range.

Fast, clean and economical, gas is the only heat that really broils. Only gas provides the intense heat needed to give meat appetizing, crispy and even browning so desired. The heat penetrates so fast that loss of juices is prevented, flavor is saved. Fast broiling is only one of many features on modern gas ranges. See them all demonstrated at Cooking School. Tomorrow is the last of 3 school sessions.

Make the Census Really Worth Something

Complicated plans are already under way for the 1940 census. It is probably the most important since the government took the first one, in 1790.

The taking of a census every 10 years is provided by the Constitution. The original purpose was simply to determine the number of representatives each state should have in Congress.

The Constitution, stating first the basis for representation, continues: "The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of 10 years, in such manner as they shall by law direct." The first census was, as a matter of fact, taken only about one year after the first Congress assembled, and has been taken every 10 years since.

The actual field work of taking the 1940 census will not begin for about a year, but already careful plans are being made to make it yield not only population figures necessary to apportioning representation among the states, but a vast amount of further data which Congress believes is necessary to any real understanding of our national problems.

The law of 1930 required the Bureau of the Census to cover population, occupation, unemployment, agriculture, irrigation, drainage, manufactures, mines and quarries, and business.

Director William L. Austin is already receiving hundreds of suggestions as to what ought to be included.

First, it should be remembered that since the depression, we have never had an accurate count of the unemployed. Estimates by labor organizations and manufacturers' and business associations are all we have.

So one of the primary jobs of the census, after the basic count of all people, is to find out for the first time how many unemployed people there really are in this country. If possible, it should find out how many of these are able to work if work is offered them.

Then we would at last have something basic on which to mount our guns in attacking the problem. If it should be possible for the census bureau to devise some means whereby this data could then be brought up to date, say once a year, in the future, it would be performing a national service.

Major revelations may be expected. How greatly has the population shifted back toward the country from the cities? How many aliens live among us? What have recent droughts done to the population of states affected? How many transients are there? And so on.

First step in solving any problem is to know the facts. We know all too little about our situation today, and a careful and intelligent census should be of utmost value in giving the light whereby we may better find our way.

"OUTOURWAY" - - - - - By Williams

Session Nearing For The Surgeons

INDIANAPOLIS, Ind.—The American College of Surgeons will hold a six-state sectional meeting here March 22 through March 24. Distinguished surgeons from all parts of the country will address the sessions, which will be attended by the medical profession at large, hospital trustees, superintendents, nurses and other hospital department employees. Indianapolis hospitals will hold operative and non-operative clinics for visiting surgeons while the meeting is in session. These will be supplemented by clinical assemblies, scientific sessions, medical motion pictures, and conferences on administrative and professional problems in hospitals. A session which will be open to the public on the subject of "conservation of health" will close the

Session Nearing For The Surgeons

meeting. Talks will be given on appendicitis, cancer, medicine and the public, medicine and the future, hospitals, and doctors. Among the surgical problems to be demonstrated and discussed will be gall bladder surgery, evaluation of cancer treatment, hypertension and its surgical aspects, complication of pregnancy, peptic ulcers, and eye, ear, nose and throat surgery. Among the nationally prominent speakers will be Dr. Howard Naffziger of San Francisco, president of the American College of Surgeons; Dr. George Cline of Cleveland; Dr. Irving Abell of Louisville; Dr. Frank E. Adair of New York; Dr. Frederic W. Bancroft of New York, associate professor of clinical surgery, Columbia University College of Physicians and Surgeons; and Dr. Geo. H. Gardner of Chicago, assistant professor of gynecology, Northwestern University Medical school. States included in the conference area are Indiana, Illinois, Ohio, Wisconsin, Michigan and Iowa.

SERIAL STORY 'MRS. DOC' BY TOM HORNER

The characters and situations in this story are wholly fictional. Yesterday, Emily finds that Eric Kane knew their old friends in St. Louis. Then Eric tells her about a dream-girl he once knew in St. Louis and Emily cries out, "You, Eric, you!" CHAPTER VII EMILY was laughing, almost hysterically. "I can't see anything so terribly funny about it," Kane's tone was sharp-edged. "Forgive me, Eric," Emily's laughter subsided. But it is funny—I was the 'Fairy Princess.' And you—you were 'Sir Knight'! I don't blame you for not recognizing me; there's quite a difference between a school girl of 18 and a doctor's wife of 24. And I looked positively outlandish that night in that headress and costume. Oh, it's such a funny, tiny world!" "My Fairy Princess," Eric murmured. "I had just returned from a vacation abroad," Emily explained. "I saw you dancing with Rosalind, just as I said. Like a foolish school girl, I decided to meet you—romantically. There was no dragon—not even a drunk. "I was afraid you might not be interested. I thought if you were, you'd be at Rosalind's next night, looking for me. But you weren't there, and my pride was terribly hurt. I never mentioned the affair to anyone. Rosalind and Walt thought I had left the ball before you arrived, and immediately eliminated me from the search. They never mentioned it. "That's why I've had the feeling, all evening, that I had met you before. I couldn't place you—I never dreamed of seeing you here—until you started telling me about the 'Fairy Princess.'" "I never came back, so you thought—" "Then I met Alan." "ALAN, darling, guess what? Eric and I met before, years and years ago—I was perched on the arm of his easy chair, after Eric had departed. 'Really, I didn't remember until he started telling me about a girl he had met at a Veiled Prophet Ball—' She was pouring out the entire story. "But I didn't love him, Alan, she concluded, "not like I love you. I was just a crazy kid. I knew that when I met you. You're the only man I'll ever love. "You were just a child then, honey. You still are—my baby." His arms were around her, pulling her down, closer to him. His lips brushed her forehead, she cuddled comfortably there, her head on his shoulder.

SERIAL STORY 'MRS. DOC' BY TOM HORNER

CHAPTER VIII THE letter burned Emily's fingers, seared her heart. Mixed emotions of anger, of disappointment surged through her, leaving her trembling. She fought down an impulse to scream, strove valiantly to keep back her tears. Without a word she turned, placed the letter on the mantel, resting it against Alan's pipe rack so that he would be sure to see it. "Then she faced Eric. "That's all he thinks of the greatest opportunity he'll ever have," she said bitterly. "He doesn't even read it!" "Don't be too harsh," Eric said. "He's been busy, night and day. He probably stuck it in his pocket hurriedly and forgot all about it. He—" "Don't try to defend him. There's no excuse for absolutely ignoring an offer of a job that will pay him twice as much as he earns here. It's just that he doesn't care. He doesn't care about me!" "Now, now, Emily," Eric's tone was soft and soothing. "I'm sure as soon as Alan has a little more time, he'll consider the offer, probably accept it, if it would make you happy." "Oh, no he won't. He's perfectly content to stay right here in Sumner, being just a country doctor. It doesn't matter to him that I have to go to parties alone, sit here at home alone for days and nights, never seeing anyone, never knowing anyone, never doing anything but answering that telephone and sending him away from me. "I don't matter. I'm just his wife." Emily's chin was quivering. "The only thing he ever thinks about are his precious patients. I hate every one of them. I hate Sumner. Sometimes—Oh, Eric!" She could keep back the tears no longer. Sobs shook her. Eric's arms were around her and she was crying, her face pressed into the yielding blackness of his coat. "There, there," he said. He stared over the sawn curbs that crowned her head into the dancing flames. He wondered if she could feel his heart pounding, if she could sense the electrifying thrill the nearness of her sent coursing through him. Gently, as if consoling a child who had bruised a finger, he talked, until his sob grew fainter and fainter. At last she raised her face to him. Her lips were close to his. Tears shone in her eyes. There was an instant of tense silence, then— "You're a darling, Eric, and I'm just a spoiled brat, and I—I need a handkerchief!" CHAPTER VIII "ERIC, if you insist on giving away tricks, Dr. Farrell and I just have to beat you." Alan's laugh was hearty as he added up the score. The four—Emily, Alan, Eric, and Dr. Farrell—were seated at the bridge table, the night after the Maddox dinner party. "Eric's not keeping his mind on the cards tonight," Dr. Farrell broke in. "What's wrong, son? Worried?" "Frankly, yes, Dr. Farrell," Eric answered. "About the weather." "What's wrong with the weather?" Farrell says warmer, Dr. Farrell replied. "After this snow, a little warm weather should be welcome." "It probably is, to everyone but me," Eric said. "Personally, I'd like to have it stay cold for a while longer." He noted the unasked question in their eyes and went on to explain. "It's about the dam. We had a heavy snowfall here, but farther north it was a record breaker for this time of year. Now, if we get rain and warm weather, all of this snow will run off, rather than soak into the ground, as it would do if the thaw was gradual. "And what has all this to do with your dam?" Emily asked. "It may make, or break it," Eric said simply. "You see, we built a diversion dam about a half mile upstream before we started work on the main dam. This diversion dam is little more than a pile of rock and earth. Right now it is backing water a mile upstream. It's taking about all the pressure it can stand, and if the river starts to rise, it may go out. "If it does, and all that flood comes pounding down the gorge, the new dam may go out too. We've got crews working day and night—24 hours a day—pouring gravel into that diversion dam, sandbagging the top; we're doing everything we can to save it. Every available man in the county has been put to work. If the thaw will hold off for 10 days more, we'll make it. "Sumner and the lowlands are in no particular danger, right now," he added, noting Emily's alarmed expression. "The river, thrill the nearness of her sent coursing through him. Gently, as if consoling a child who had bruised a finger, he talked, until his sob grew fainter and fainter. At last she raised her face to him. Her lips were close to his. Tears shone in her eyes. There was an instant of tense silence, then— "You're a darling, Eric, and I'm just a spoiled brat, and I—I need a handkerchief!" This diversion dam is little more than a pile of rock and earth. Right now it is backing water a mile upstream. It's taking about all the pressure it can stand, and if the river starts to rise, it may go out. "If it does, and all that flood comes pounding down the gorge, the new dam may go out too. We've got crews working day and night—24 hours a day—pouring gravel into that diversion dam, sandbagging the top; we're doing everything we can to save it. Every available man in the county has been put to work. If the thaw will hold off for 10 days more, we'll make it. "Sumner and the lowlands are in no particular danger, right now," he added, noting Emily's alarmed expression. "The river, thrill the nearness of her sent coursing through him. Gently, as if consoling a child who had bruised a finger, he talked, until his sob grew fainter and fainter. At last she raised her face to him. Her lips were close to his. Tears shone in her eyes. There was an instant of tense silence, then— "You're a darling, Eric, and I'm just a spoiled brat, and I—I need a handkerchief!" CHAPTER VIII "ERIC, if you insist on giving away tricks, Dr. Farrell and I just have to beat you." Alan's laugh was hearty as he added up the score. The four—Emily, Alan, Eric, and Dr. Farrell—were seated at the bridge table, the night after the Maddox dinner party. "Eric's not keeping his mind on the cards tonight," Dr. Farrell broke in. "What's wrong, son? Worried?" "Frankly, yes, Dr. Farrell," Eric answered. "About the weather." "What's wrong with the weather?" Farrell says warmer, Dr. Farrell replied. "After this snow, a little warm weather should be welcome." "It probably is, to everyone but me," Eric said. "Personally, I'd like to have it stay cold for a while longer." He noted the unasked question in their eyes and went on to explain. "It's about the dam. We had a heavy snowfall here, but farther north it was a record breaker for this time of year. Now, if we get rain and warm weather, all of this snow will run off, rather than soak into the ground, as it would do if the thaw was gradual. "And what has all this to do with your dam?" Emily asked. "It may make, or break it," Eric said simply. "You see, we built a diversion dam about a half mile upstream before we started work on the main dam. This diversion dam is little more than a pile of rock and earth. Right now it is backing water a mile upstream. It's taking about all the pressure it can stand, and if the river starts to rise, it may go out. "If it does, and all that flood comes pounding down the gorge, the new dam may go out too. We've got crews working day and night—24 hours a day—pouring gravel into that diversion dam, sandbagging the top; we're doing everything we can to save it. Every available man in the county has been put to work. If the thaw will hold off for 10 days more, we'll make it. "Sumner and the lowlands are in no particular danger, right now," he added, noting Emily's alarmed expression. "The river, thrill the nearness of her sent coursing through him. New Car Sales In State On Increase

AUSTIN, Tex.—Sales of passenger cars in Texas during January and February leaped 21.5 per cent above the corresponding two-month period last year. University of Texas Bureau of Business analysis of reports from seventeen representative Texas counties showed today. Commercial car sales gained 15.6 per cent over January and February of last year, it was indicated. Passenger cars sold in February represented an increase of 23.9 per cent over February of last year and, despite the 28-day month, only 2.6 per cent less than January. Commercial car registrations gained 9.7 per cent over February a year ago and dropped 3.2 per cent below January.

Penney Observes 37th Anniversary

According to announcement by R. S. Searls, local store manager, the J. C. Penney company is celebrating their thirty-seventh anniversary this week. From one little store in a small mining town, Kemmerer, Wyoming, in 1902, to the present organization of 1,550 stores is the story book history of the J. C. Penney system. The Penney company now has operating stores in every state in the union and more than 100 operating in Texas. The first Penney store was known as the Golden Rule store and although the company is now 37 years old, it has never departed from the original sound principles of doing business, Searls, pointed out.

BANKING IS NOT A NEED--- IT'S A NECESSITY!

Mrs. French in her travels realizes the necessity of good banking connections—and when away from home feels the great security of knowing that her valuable papers, jewelry and silverware are safe in a SAFETY DEPOSIT BOX.

Bank Cashier's Checks are as good as government bonds anywhere, and they are much cheaper than any other method of making payments or money exchange.

Get in touch with this bank when in need of these services.

Eastland National Bank

"I like the convenience of my electric appliances"

An automatic toaster takes the guess-work out of making toast.

An electric grill will fry bacon and eggs, or toast sandwiches.

COOK EASILY, QUICKLY, RIGHT AT YOUR TABLE

Attend The Eastland Telegram Cooking School Saturday. See the many new dishes as prepared by Mrs. Arreva D. French.

Once you have experienced the ease with which you can prepare breakfast or lunch, right at your table, you'll appreciate more and more the convenience of your electric appliances.

You'll also appreciate the low cost of electric service, for about 2 cents buys enough electricity to cook the average breakfast or lunch, using a percolator, toaster and grill.

"Simply plug in your appliances and I'll do your cooking."

Electrical Appliances are Sold by Most Local Stores

Thousand Services To Aid Travellers

SAN ANTONIO, Tex.—"A thousand services in one" is the business of a new bureau formed here to take care of problems which

Advertisement for Bayer Aspirin: To Get Fast Relief from Discomfort of COLDS TRY GENUINE BAYER ASPIRIN

confront women air travelers. The bureau, the Merchants Aviation Hostess Service, was founded and is operated by women who felt that members of their own sex arriving in San Antonio often needed assistance in solving the myriads of little problems that arise in traveling. The service was established, through the co-operation of hotels and merchants who are recommended to travelers by the bureau, by Mrs. Florence H. Medlicott and Miss Sally Perry. "It covers almost anything," Mrs. Medlicott explained. "For instance, if a woman passenger comes into town and wants to see something of the city, we will take care of her children for her for two or three hours to let her take a sight-seeing trip unhindered." The bureau even will arrange the sight-seeing tour, if desired.

Mrs. French at the Cooking School Says Gold Medal Grade A Pasteurized Milk is the BEST—

PROTECTION for Your Family

Mom Says: "I always manage to find time for several glasses of Gold Medal Pasteurized milk during the day. Surprising how it makes me feel better and gives me energy for my housework tasks."

Sis Says: "Nothin' like a glass of Gold Medal Grade A Pasteurized Milk with some of Mom's cake! It seems like all the kids at school drink it. Miss Brown, our teacher, says milk gives us good teeth and solid bones and is just about the best all 'round food there is."

Billy Says: "I grow up to be Uncle Jim. He's the best thing fella' that I know baseball and the way I do! Mr. that's my gym tells all us kids a quart a day."

Dad Says: "I used of a milk can ed Gold Medal ed milk. After th it regularly. I feel better, too. I look better!"

THEY ALL SAY — "IT'S GREAT!"

Gold Medal Grade A Pasteurized Milk rates first with Eastland families. It contains the minerals and vitamins that are necessary in every diet. It is vital protection against sickness... and it promotes growth. Serve it to your family.

MILLIONS OF POUNDS HAVE BEEN USED BY OUR GOVERNMENT

Gasoline Company Safety Meeting Held In Ranger

counter-weight and the shaft with a coat of enamel paint and observing if cracks appear after a few hours of operation. Frank Landtroup told that never in his years of experience in engine maintenance had he found a counter-weight loose and believed it would be loose only a few revolutions.

Bill Stafford pointed out that sometimes it is necessary to use cheaters on the load booms in binding a load on a truck and Roy Russell stated that he thought it more dangerous to allow the load to slip into the cab than it was to use the cheaters. Arthur Williams was of the opinion that the booms used were of sufficient strength to use a short cheater.

Lonnie Todd explained the use of blocks and tackles and pointed out that one must use judgment in getting the maximum efficiency out of them by rigging them up properly.

Archie Robinson explained that the sediment in the bottom of the water treating tanks was carbonated lime while the lime that is

used for water treating is hydrated lime. Forest Ford pointed out that this carbonated lime, if stirred up in agitating the tank, would hinder the settling of the sediments.

Forest Ford explained the difference between heat exhaustion and sunstroke and expressed his belief that heat exhaustion was more prevalent in this region than sunstroke, and that during the summer months a number of the company's accidents can be traced back to a slight attack of heat exhaustion on the part of the injured employee.

John Ducker explained that the State Drivers' Law does not permit anyone to drive a car on the state highways or public roads without a license and that a person learning how to drive cannot use them and that he was at somewhat of a loss as to where the beginner was to learn.

L. M. Cawley said that he thought the greatest single hazard to night driving was poor lights. J. F. Byas was of the opinion that the greatest hazard was in driving at such a speed as not to be able

to stop within the lighted area of the car lights.

J. R. Jarvis, general superintendent, stated that he approved of this method of discussing the problems of the company's work at a meeting like this where everyone could voice his opinion and where everyone could receive the opinion of the entire group.

HELP 15 MILES OF KIDNEY TUBES

To Flush out Acids and Other Poisonous Waste

Doctors say your kidneys contain 15 Miles of tiny tubes or filters which help to purify the blood and keep you healthy. Most people pass about 3 pints a day or about 3 pounds of waste. Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood when due to functional kidney disorders, may be the beginning of nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 46 years. They give happy relief and will help the 15 Miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Now Making Loans To Farmers Not Upon Relief

Farm Security Administration now making loans to some most able farmers in the and is not limited, as it was, to the farmer who has an on relief, it was made today by Geo. I. Lane County Supervisor.

Lane says right here that the Security Administration are made only to those who are able to obtain adequate financing from any other source," Lane said. "The borrower must get the financing, which comes from a bank or from other private financial institutions not eligible for an FSA. But there are types of loans even fairly large farmers can obtain only from the FSA."

Security has made many this year to farmers or ranch who were in need of more to buy livestock or to rent acreage. In these cases, the or was always hard-pressed any of them had to meet their creditors and get their adjusted. Farm Security will lend to a man who is in such a situation that he has no of paying off old debts as new. If the old debts are too heavy, FSA helps to out an agreement with creditors by which the debts are down.

of these borrowers are large operators, and the sometimes run to several d dollars," the supervisor also pointed out another farmer served by FSA, n get all the money he at the bank for his in- operations. But he may nally need to use big-scale ent for a few days, or a ed sire, and yet have too sed of it to own one him- e is eligible for one of operative enterprises which financing.

BUTTERNUT BREAD IS

FEATURED BY MRS. FRENCH AT THE COOKING SCHOOL --

MEET OUR STAR SALESMEN!

No, they're not on our payroll. They probably know very little about us. But we still consider them our "star salesmen"! Why? Well, because they do a great job of selling our bread—Butternut bread. They're "sold" on it themselves. They like its fresh taste . . . its flavor. They know it's pure and wholesome because Mother has often remarked about it. They're even a little bit scientific, too, because they realize it provides them with the energy they need for school and play. So they tell their friends about Butternut—which makes them our star salesmen!

Opening Postponed

Due to unforeseen difficulties the opening of the Community Center, sponsored by the W. P. A. City Recreation project, has been postponed until Tuesday, March 28. The opening was scheduled for March 21.

Contributions of second hand furniture to the project will be greatly appreciated, officials state. Call the City Hall or 644 and the donations will be called for.

Entertains With Farewell Party

Mrs. Earnest Halkias was hostess to a farewell party Tuesday afternoon honoring Mrs. Troy Taylor who is leaving soon for California. Mrs. Sallie Baggett was co-hostess.

The home was beautifully decorated using cut flowers throughout. A delicious salad plate was served by the hostesses.

Guest list: Miss Sarah High, Mrs. P. H. Davis, Mrs. J. T. Sue, Miss Essie Taylor, Miss Myrtle Taylor, Mrs. R. L. Taylor, Mrs. D. T. Brinkley, Mrs. Cecil Hibbert, Mrs. C. A. Lotief, Mrs. Fred Hale, Miss Ima Ruth Hale, Miss Stella Gann, Miss Ethel Johnson, Miss Sylvia Baggett, and the honoree, Mrs. Taylor.

Mrs. Perkins Speaker At Club Luncheon

The Twenty-One Study Club of Desdemona entertained the Excelsior Club of Gorman Tuesday with a luncheon in Desdemona's attractive and well-equipped new school building.

Mrs. Joseph M. Perkins of Eastland, president of the Texas Federation of Women's Clubs, was presented as a guest speaker. Mrs. M. H. Hagaman of Ranger, president of the Sixth District, and Mrs. Billie Louise Crooke, assistant at the Marlin Crippled Children's hospital at Marlin, were also speakers for the luncheon.

VICKS VA-TRO-NOL

The State of Texas County of Eastland

Be it so ordered by the city commission of the City of Eastland, Texas, that an election be held on the 4th day of April, A. D. 1935, at which election there shall be elected three Commissioners to succeed Commissioners C. W. Hoffman, H. O. Satterwhite, and L. J. Lambert, whose term of office expire on that date; and be it further ordered that the names of all candidates for said office shall be filed with the City Clerk at the City Hall, in the City of Eastland, Texas, not later than five (5) o'clock P. M. on the 27th day of March A. D. 1935.

Said Election shall be held at the City Hall in the City of Eastland, Eastland County, Texas, and the following named persons are hereby appointed managers and clerks of said election, to-wit: Presiding Judge, Oscar Wilson. Judge and Clerk, R. B. Brasley. Clerk, E. P. Kilborn.

Said Election shall be held under the provisions of the special charter of the City of Eastland, Texas, adopted by vote of the people on the 16th day of May A. D. 1919 and under the Constitution and Laws of the State of Texas, and only qualified voters shall be allowed to vote.

A copy of this order, signed by the Chairman of the Board of City Commissioners of the City of Eastland, Texas, attested by the Clerk of said City, shall serve as proper notice of said Election. Passed and approved this 27th day of February, 1935.

W. W. KELLY, City Secretary. C. W. HOFFMAN, Chairman, Board of Commissioners.

program. Mrs. Chas. Lee, president of the Desdemona Club, presided as toastmaster.

The theme of Mrs. Perkins' address was "Speaking of Change." "We must have flexible minds," she said. "We hear a lot about 'drawing a line and staying with it,' but we have many texts and go into many fields. In that way we shall not become tiresome."

Speaking especially to the students, Mrs. Perkins said, "We have more opportunities and more things to make a home. With your new building and your beautiful Home Economics department, you can better train yourselves and learn more about how to make a home. They say that the more you know, the better companion you can be to yourself."

The teacher and students of the Home Economics department of the Desdemona High school assisted with the luncheon.

Mrs. Hagaman directed panel discussions about the Sixth District Club meeting to be held at San Angelo April 26, 27, and 28. She gave some instructions for club reports and urged each club to comply with these. She also urged that each club send representatives to the convention.

Rummage Sale Announced For Saturday

A rummage sale, previously announced by the Children's Workers of the Methodist Church, will be held in the lobby of the Eastland National Bank building Saturday, March 18.

Anyone having clothing, food, flowers or other items which they will give to be used in the sale, bring them to the Methodist Church this afternoon or before the sale Saturday.

Call Mrs. Wade Thomas or Mrs. Roy Birmingham and your donations will be picked up, officials stated.

The proceeds of the sale will be used in the church school department.

Robin M. Giles to Show New Styles at Stay in Eastland

J. B. Johnson and K. A. P. Poole, proprietors of the Modern Dry Cleaners and Dyers, announced today that Robin M. Giles, representative of the M. Born Tailoring company, will be in Eastland Wednesday and Thursday, March 22 and 23, to show a display of materials.

Giles will point out features of the materials, and give advice on selecting becoming patterns and offer his service in taking measurements that will insure the correct fit.

Giles has been making periodical visits to Eastland for the past 12 years and is well-known. He will make his headquarters at the Modern Dry Cleaners and will be there during the firm's business hours.

He has invited his friends to visit him.

NYA Officials Are Visitors In Ranger

H. A. Ziegler, district supervisor for the National Youth Administration from Fort Worth, and Miss Hines, state supervisor of NYA projects for girls, were visitors in Ranger, Thursday, while Miss Hines was inspecting the Ranger girls' NYA project.

Miss Hines spends a large part of her time inspecting and supervising the girls' projects over the state, each inspection trip taking about three months.
