At Last the Cards Are Down in Europe

The conquest (it is nothing else) of Czechoslovakia has at least this merit:

The world now understands quite clearly that Adolf Hitler, backed by all the military might of Germany, is prepared to seize anything he wants without a shadow of regard for right.

Many have believed this all along. But the taking over of the Sudeten areas of Czechoslovakia had a certain amount of reasonableness in its favor. After all, the Sudetens, a large majority of the people of the area, were German and were at least willing, perhaps eager, to join the Reich.

It would be useless to pretend that the Czechs of Bohemia and Moravia are German, so a new phase is invented by Hitler to cover them: their lands are "part of the living space of the German people." Such a phrase means nothing, or if it means anything, it would include Yorkville, Cincinnati, and Milwaukee.

So now we have the picture of a small neighboring country, inhabited by people entirely outside Hitler's "racial" orbit, who are overwhelmed and taken into the Reich without a shadow of warning or any appeal to the rights of the case that would register in the mind of a 10-year-old child.

When Hitler said at Munich that he had no more territorial ambitions in Europe, and when he joined in guaranteeing the borders of the dissected Czech state, some people doubted the validity of his words. Now everyone knows just how valid they were.

No one can have any patience without a quibble about the "protectorate" status of the Bohemian-Moravian state. Anyone can see how much independence and autonomy is left to a state in which a foreign power can arrest thousands of people, deprive all except minority Germans of citizenship, appoint a foreign governor and impose foreign laws, conduct the area's foreign and economic affairs, maintain military garrisons of foreign troops, supervise all communications and money. And that is Hitler's program for his new territory.

No country directly concerned has seen fit to act, or even to protest. Britain has merely wrung its hands. France has maintained a shocked silence. Russia has said merely, "Huh! Better not come too close to ME!" The United States, infinitely farther removed than any of these countries, can scarcely be expected to be more active in the matter.

But the implications must not be missed. As good an excuse for seizing any country in the world can be made by Adolf Hitler as he gave for the conquest of Czechoslovakia.

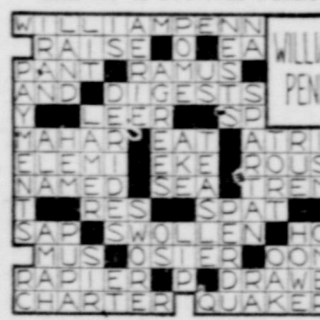

Hitler's appetite was supposed to have included Hungary. But who's Hungary now?

High School Bands To Participate In Marching Contest

SAN ANTONIO, Tex.— Nearly 2,000 Texas high school bandmen from all parts of the state will take part in this year's spectacular marching band event which is scheduled as a part of the annual Fiesta Week program and which will take place at Tech Field on Thursday night, April 20, according to Mrs. Cecile Logan, chairman of the marching bands festival of the Battle of Flowers Association.

The event will be participated in by six classes of bands and separate awards are to be made to the winning band in each classification. Two well known band directors approved by the Music Educators' Association will be selected from out of the state to act as judges. All bands taking part in the event will also march in the world-famous Battle of Flowers Parade which will take place the following afternoon.

Local high school bandmen will act as hosts to visiting bandmen and the local group will stage a massed performance in the field in which more than 500 will appear on the field in intricate maneuvers at the same time.

All bands participating in the event will be allowed a period of time not to exceed eight minutes on the field during the marching event. Music played shall be of a military nature.

This is the fifth successive year that the marching bands event has been staged as a part of the Fiesta Week program and numerous schools from all over the state are sending bands and drum and bugle corps that have never before participated in the festival.

Fiesta Week will begin this year on Monday, April 17 and extend through Saturday, April 22.

Scrubby Mesquite Is Good Lumber Frank Dobie Says

AUSTIN, Tex.— The scrubby mesquite that "clutters" Texas from the Panhandle to the Gulf makes good building material, according to J. Frank Dobie, University of Texas professor and author of Southwest literature.

In an article in the March Interscholastic Leaguer, University publication for high schools, Mr. Dobie states that mesquite was used in the construction of the Alamo and numerous old Catholic churches and Mexican ranch houses of the Southwest. Furniture in the great King ranch house and window work of Castroville's first church are of mesquite, he said.

"The laymen usually divides mesquites into two classes," he states, "trees, and the scrub or scrub mesquite which does most of its growing underground, giving certain portions of the West the reputation of being 'a hell of a place where you have to dig for wood and climb for water.'"

"Of the tree mesquites," he added, "there is one kind with yellowish wood and another of a deep reddish hue as beautiful when polished as the richest mahogany."

Houston To Get New Talent For Her Ball Team

By Roy J. Forrest
United Press Staff Correspondent
HOUSTON, Texas.—New talent has been imported by the Houston Buffaloes of the Texas League in an effort to raise the club from the doldrums of seventh place among eight outfits.

Manager Eddie Dyer, facing his first season as skipper of the Buffs, was uncertain whether his catchers and pitchers will be strong enough to make the grade or whether replacements will be necessary.

Dyer has three holdover pitchers with whom to begin spring practice—two right-handers and a southpaw. The other hurlers are new boys who made high marks in the minors last season.

Walter Cooper will be the only catcher returning from the 1938 campaign. Tommy Turner, up from Columbus, Ga., has a fine record for a young backstop but his status is doubtful.

The real catching problem is Joe Cusick from Asheville, N. C., who may be the answer to the need for a first-stringer, but he has had only two years of experience. He has a fine arm and is a good hitter.

Radical changes appear likely in the infield, although four members

of the 1938 club will contest for positions. Only Lou Scoffie was held over from the outfield and there will be a big change there, also.

Dyer probably can depend on Ted Wilks, right-handed holdover; Harry Brucheen, southpaw holdover; and Howard Krist, right-hander who was optioned from the St. Louis Cardinals, to form the nucleus of his pitching staff.

There are four other young pitchers who have possibilities and may stick with the Buffs on their try-outs.

Mathew Surkont, who was obtained from Cambridge, Md., has a reputation for strikeouts although he has been in professional baseball only one season. He is a right-hander. Ernest White, southpaw, comes highly recommended from Portsmouth, Ohio.

The other pitchers who may stick are Francis Barrett, right-hander from Mobile, and Henry Nowak, another right-hander, from Albany, Ga.

Try-outs will be given to J. D. Creek, who won 15 games for Taft, Texas, last season; Murray Dickson, right-hander, from Decatur, Ill.; John Maher of Portsmouth; George Munger, youthful holdover; Roland Van Slate of Springfield, Mo.; and Howard Pollett, rookie from New Orleans.

The latter is a southpaw; Maher, Munger and Van Slate are right-handers.

In the infield, Robert Anderson of Springfield will contest John

(Red) Davis, holdover, for third base. Al Cucinello, who retired last season because of a bad arm, may return if he has recovered, to vie with Second-Baseman A. C. Phillips.

Eddie Lake of Decatur, regarded as the best fitter of the entire Cardinal chain, appears the best bet to hold down the shortstop berth. John Antonelli, a holdover, probably will return as utility infielder.

At first base, Johnny Watwood, veteran holdover, may be ousted by Johnny Hopp from Rochester, N. Y., a converted outfielder. Hopp is a distance hitter and batted .229 last season.

Pre-season observers believed that Scoffie; Marion Ashell, Houston boy sent to the Buffs by the Chicago Cubs, and Henry Nick Cullop of Sacramento, Calif., would make up the outfield.

Two players, however, were possibilities for upsetting the outfield dope. Harry Schmiel of Springfield, and Chester Wiececok of Portsmouth, Ohio, were promising youngsters.

Schmiel or Wiececok were the hottest contestants of Cullop, who is 37 but who batted 20 home runs last year. Cullop once got 54 home runs with Minneapolis, and he may have enough ginger to keep the youngsters back.

Fred Ankenman, club president, said that only three players have failed to return their contracts but

Astronomers Take No Chances With Telescope Mirror

By United Press
FORT DAVIS, Tex.— Astronomers took no chances raising the \$90,000 mirror to its place in the giant steel telescope of the McDonald Observatory near here.

They moved on wooden rollers the 82-inch "glass eye," second largest in the world, into a position established by plumb line and lowered the telescope over it. The tube was filled over the glass and secured with bolts.

The secondary mirrors, one 27 and one 21 inches in diameter, will be installed within the telescope.

They will be used to condense and reflect the light gathered by the big mirror from stars 400,000,000 light years away from the earth.

The "glass eye," one of the costliest pieces of glass ever poured, cost between \$90,000 and \$100,000, Charles J. Stillwell, president of Warner & Swasey Company of Cleveland, O., builders of the observatory, said.

that he anticipated no trouble in signing them.
Spring training began in Buff stadium Monday, March 13.

Radio, Violet Ray Featured In Court Battle At El-Paso
By United Press
EL PASO, Tex.—Radios are pitted against a violet ray machine in a court battle here.
An ordinance, passed three months ago, provides that all electrical machines which interfere with radio reception must be equipped with filters to eliminate static.
The owner of a violet ray machine became the first defendant in the initial case brought up under the law. He is R. L. Cotnam, director of a sanatorium which uses violet ray machines in the treatment of patients. He was named in a complaint filed by C. M. Wilchar, an attorney.
Wilchar asserted that from 7 p. m. until midnight his radio emits a "continual roar" and that many of his neighbors report similar disturbances in reception, assertedly from the violet ray machine.
Cotnam said that use of the high-frequency instruments is absolutely essential to him in his business and that similar machines are employed by all local hospitals, most beauty parlors, and many physicians.
In the event he loses the case, Cotnam said he hopes to persuade all El Paso users of the machines and many others that create electrical disturbances to contribute to a fund to take the decision to higher courts. He said he also planned to ask manufacturers to contribute to the defense fund.
Meantime, he has ordered equipment designed to prevent the violet ray equipment from interfering with radio reception.

MRA NORTH, Special Nurse -- By Thompson and Coll

fan contest is finished March 31.
2. The club is now controlled by a new president, George Schepps.
The park proper will take on the semblance of a new plant by the time the season opens.
Aside from an outfielder, two infielders and two or three pitchers, the playing roster will present new names.
Biggest change made by the Dallas club is the change in the business office. Schepps, prominent Dallas sportsman, stepped into the baseball picture with both feet this winter by purchasing on the open mart, several players whose form in spring training indicates they will rank among the league leaders. Foremost of Schepps' deals include:
1. Selection of Hap Morse as manager. Morse formerly was popular at second base on the Dallas team and piloted the club to one pennant.
2. Purchase of Bill Cronin and "Red" Hayworth, catchers.
3. Purchase of Hal B. Lee, Ernie Sulik and Cecil Smyly, outfielders.
4. Acquisition of Bus Schamp, Earl Overman and half a dozen promising rookie pitchers.

4,000 School Children Get "TB" Test

One of the broadest fights on tuberculosis yet undertaken in this county was started recently in Richmond, California, which is making tuberculin skin tests of nearly 4,000 school children, practically its entire school population. These skin tests, considered by authorities one of the most valuable weapons in the fight against the disease, reveal tuberculosis in its early stages.

This unusual project was conceived and is being financed by the Richmond Lodge of Elks, as one of many civic projects being undertaken by some 1500 Elks lodges throughout the nation. Dr. L. H. Fraser, physician and exalted ruler of the Richmond Lodge of Elks, is seen in the above photograph giving the first of the 4,000 tests to student Lolita Miller, while the nurse readies other pupils for their tests. Tuberculin is injected into the skin of pupils. If an inflamed area at the site of the injection results, tuberculosis is indicated and further tests are made.

juice then place, into unbaked pastry shell, strip top or place 6 sections of crust on top leaving small openings to show colored apples. Bake at 450 degrees F. 10 minutes. Reduce to 350 degrees F. for 30 minutes.
