

Not Twice As Much Fun—

DOUBLE THANKSGIVING BRINGS TROUBLE

By Associated Press

The second Thanksgiving, new style, found a hangover from tradition still plaguing some Texans but a lot of turkey meat moving down thousands of eager gullets in military training camps and induction centers was a counter balance.

Some folks had a right to be blue. Take Claude Simpson of Dallas, all hepped up with visions of roast turkey and fried chicken. Somebody stole his turkey and chicken Thanksgiving eve from his back porch ice box.

And Hugo E. Grenwelle of Fredericksburg wounded when he instead of the turkey was shot on a hunting trip. He spent his Thanksgiving in bed.

By tradition, and there were countless charitable remembrances which made the day happy for many of the underprivileged.

The War Today— England Of Old Found At Best In Midlands

By FRED VANDERSCHMIDT It is not coincidence that Ernest Bevin, the man to whom workaday England looks with trust and hope, chose to outline the British government's war aim of social security on the very day that Coventry buried its bomb dead in a long and ugly gash in the earth and in the Midlands.

When the other cities of the midlands searched for new dead in the bomb-made rubble. "Things can never be as they were . . . The old age has passed," said the minister of labor, bluntly.

Big Harvest Reason For Celebration

Looking back over the past year, most West Texas farmers have occasion to celebrate Thanksgiving today for the same reason that it was first observed by the Pilgrims.

The midlands is the fortress of England, not merely the fortress of her industry, but the staunch heart of the nation's spirit. Here is the merrie England of old: All the way from Banbury Cross to Nottingham, this land of the Domesday book, of civil war, of Weavers and Dyers, of "Coventry blue," of piping hot buns and cool, brown ale and the stories of Mother Goose.

Big Crowd Follows Steers To Battle

There was a sudden spurt in demand for tickets, both on the special train to Sweetwater for the district 3 tilt, and for the game itself. School officials were busy passing out ducats to late-takers, and the T&P railway station reported brisk sales for the special.

Two Colleges Risk Records This Weekend

By The Associated Press
Two of Texas' three undefeated, "bowl-minded" college football teams see action this week, with both expected to come through.

The other — Texas A. and M., aiming at the Rose Bowl—rests until Nov. 25 when the Aggies battle their traditional rivals, the University of Texas.

Texas Tech, undefeated but on a tie, is in St. Louis today to meet the St. Louis University Billikins. St. Louis U. lost to Centenary, a team Tech defeated.

Hardin-Stemmons, unbeaten and undefeated, meets the University of San Francisco Dons at Abilene Saturday. The Dons have lost four games and tied one but they've met such worthies as Stanford, Santa Clara and St. Mary's, three coast powers, and the Creighton Bluejays.

Two Texas college conference championships hang in the balance this weekend.

Texas A. and M., one of the toughest of the nation's smaller colleges, plays West Texas State at Canyon Saturday. The Javelinas defeated St. Mary's, the other member of the Alamo conference, and can win a clear claim to the title with a victory over West Texas State.

A triple-tie for the lead looms in the Texas conference. Howard Payne is certain to finish with the top three, the Yellow Jackets having already finished their schedule with one defeat. Abilene Christian College can clinch a tie for the top with a victory tomorrow over McMurry at Abilene. It is the same for Texas Wesleyan, which plays Daniel Baker at Brownwood Saturday night.

Laughing Boy Plays Final Game Today

COLUMBIA, Mo., Nov. 21 (UP)—Tradition has pulled crowds to the Kansas-Missouri football games for 48 years. Today the expected 20,000 spectators at their forty-ninth meeting will be there saying farewell to a tow-headed kid, Paul Christman, the Tigers' laughing boy.

Even the forecasts of near-freezing temperatures and murky skies won't keep them away.

Christman, just in case you aren't abreast of your gridironology, is the young man who has gained approximately two and a quarter miles of ground while in control of a football for a trio of Missouri teams on 26 different fall afternoons.

Mr. Christman will go down in Big Six history for the 413 paces he has thrown up to today, for the 189 that reached their mark and for the 3,822 yards he gained by both running and passing.

But he also will be remembered as the young man who came to college—first to Purdue and then to Missouri—with the somewhat original idea that football could be played for fun as well as keeps.

That's the reason for his "Verily, I sinketh" while reclining on that portion of his body midway between head and heels in the 19 to 0 shellacking by Ohio State last season.

One glanced at the mirror convinced him his slightly pugged nose wasn't a bit sinister and that he couldn't qualify as the boo-boo type of player.

Since then he's laughed his way through despite an inward nervousness that makes it impossible to eat on the day of a game and sends him to church for an hour's meditation before each kickoff.

The pass-master's farewell closes one of the brightest periods in Missouri football. Nineteen of those 26 games were triumphs. Missouri won its first Big Six title last year, and made its first appearance in a bowl.

Cagers Continue Preliminary Work

Basketball Coach John Daniels is continuing limbering-up exercises for his Big Spring high school proteges. With a total turnout of approximately 35, he is hopeful of recruiting a crew of cagers that will give a good accounting in the coming season's clashes. Tentative plans call for a match between the Big Spring quintet and the House of David basketballers on December 9 to open the season.

Workouts thus far have consisted of a series of drills designed to give the prospects a smoother style of maneuvering on the court and take the kinks out of the boys. Detailed court maneuverings will be taken up next week, Daniels said.

Part of Daniels procedure is almost as tricky, and in some spots more so, as tactics in actual competition. Ball-passing has developed from simple one-two-three flips to complicated double and cross shellings.

Horace Bestick, Roy Collins, Ralph Stewart, Peppy Blount, Taylor Rowe, and David Lamm are promising candidates for berths on Big Spring's traveling squad, but will not be available for intensive training until football season's close.

Other state winners will compete in 17 regional tournaments. The state tournaments already assigned include:

South—Greenwood, Miss. July 19; Waco, Tex. July 26; Russellville, Ark. July 20.

Midwest—Adel, Ia. July 10; Wichita, Kas. July 11; Lexington or North Platte, Neb. July 20; Oklahoma City, Okla. Aug. 1; Racine, Wis. July 20.

VEST POCKET STELLARIUM
PITTSFIELD, Mass. (UP)—The Berkshire museum has a "vest-pocket edition" of New York's planetarium—the stellarium. The New York planetarium cost about \$250,000, but the stellarium, a similar and smaller instrument built by three young electrical engineers, cost only \$250.

Limber-legged Bill Henderson, the Texas Aggie sophomore end sensation who bagged eight passes in a row for 117 yards against Rice, now has picked up 325 yards on aerials to lead his closest competitor, Hickey of Arkansas, by 104 yards.

Quiet Jess Neely, speaking of the forthcoming TCU game, said: "I hope they don't have a Bill Henderson. He is the best pass receiver I have ever seen in football."

Today's Guest Stars:
Al Reese, Galveston News: "When Ted Weems, the blue-clad back left the Aggie game the Owls did worse than no good. They should have called him from the bench with: Little boy blue, Come blow your horn, Kimbrough's on my tummy, Robnett's on my corn."

Flem Hall, Fort Worth Star-Telegram: "What we'd like to see would be a game between the current Aggies and that 1938 TCU team. They'd need a 10-acre field and the turf would have to be called down."

Dick Freeman, Houston Chronicle: "Several persons have asked me what happened to Rice against the Aggies. Well, in the first place the Texas Aggies happened to them."

TURKEY CHOP 30 MILLION
AMHERST, Mass. (UP)—Ellsworth Bell, Massachusetts State college economist, sees a turkey in every oven this Thanksgiving. He figures the nation's 1940 turkey crop at 33,000,000 birds and approximately the same number of families were counted in the 1940 census.

Midland Wins Over Yearling Squad, 26-12

Midland's junior footballers took to the overboard route to blitzkrieg the Big Spring Yearlings at Midland Wednesday afternoon with a tally of 26 to 12.

Doyle Stewart, Coach Carl Coleman's fullback and chief ground-gainer, was held solid by a determined Midland aggregation most of the engagement but got away twice to slash across the hosts' goal line to mark up Big Spring's counters.

Last Friday Big Spring blasted Lubbock's lightweight loose from a 17-consecutive-win record, but was unable to display as potent a scoring drive while visiting in Midland's home precinct. This was the second time in the season for Big Spring to be downed by the Bulldog pups.

One of the Matlock twins, a half-back, received an ankle injury of undetermined seriousness in the duel.

Grid Game

(Continued From Page 1)

tactics will probably be used in this afternoon's engagement. Injuries have handicapped the Mustangs' to some extent. Loss of Harley Rogers, regular field general, because of hurts received in the tilt with Abilene dealt them a wallop from which they have never fully recovered.

Big Spring carries three pounds weight advantage over Sweetwater for the total squad, the Steers hitting the scales at a 166 team average to the Mustangs' 163. Both clubs' forward walls are equal, 171 pounds, but it is in the backfield where a big weight difference is found. The Herd's secondary outweights the Ponies' nine pounds, the former scaling 159 to the latter's 150.

Condition of the field today might have a large bearing on the game's final score. Big Spring, being the crew that will be on a title-bound drive, is placed in the role of an aggressor, since Sweetwater will be out to first stop the Herd's rambling before trying any advances of its own. Due to the style of play usually followed by the Steers, they will be at a great disadvantage in case they are on a slow field. In other words, regardless of Sweetwater's determination to start the ball rolling first, Big Spring will be out to continue its march—Sweetwater to stop it. A boggy field reduces the invaders' forward momentum, thus well in a share of the load off the defenders' shoulders.

A combination of General Mud and a Mustang power to resist can be the Steers undoing. Fair weather and a fast field will put everything in Big Spring's favor.

Looking 'em Over

With Jack Douglas

Big Spring's Steers are finally drawing near the closing point of a season that has been filled with "hardest-test-est" games — and they're still doing it. The Herd was not considered much of a title threat at the beginning of the district race, were only given credit for being lucky at the midway stretch, and now that the home-stretch is in view they are conceded a slight edge over Sweetwater—a team that ranks third in the standings.

Like the Cincinnati Reds this summer, the Steers have scraped through some pretty close ones—but they've won 'em.

Today's show is going to be pretty harrowing in spots and the Steers are going to look like a volley ball team—the kind that used to wear those floppy, black what-you-call-'em—with some of their maneuverings, but it is our opinion that they'll keep up their march for a district title. We'll go a little closer to the end of the limb and air our prediction that they'll let at least one team outside the district know they've had a scuffle before the curtain is dropped on the whole shooting match.

Big Spring has a boy in the backfield who can hit the line, sweep around end, and return punts with the best of them—namely, Pete Presley, hammering little fullback.

And then for the line. This department is as rugged as it is big, and for a high school team it is plenty big.

A line center composed of boys like Clifton Patton, Winsett Nance, Hal Battle and Frank Barton is an item that takes something out of the argument that the Steers have just had a run of good breaks.

As for the flank, Lemuel Nations and Ralph Stewart are not outstanding pass receivers by any means but they are adept at another department of this business of football—defensive play. They've shown an ability to pinch in thrusts at Big Spring's forward wall in such a manner as to make it easier for the ones in the center to get in some mighty telling hits.

And after all is said and done, what was probably Big Spring's most crucial game, the one with Midland, was won on a pass to Stewart.

NYLON USE TRIPLED
WILMINGTON, Del. (UP)—Production of nylon for uses other than the manufacture of hosiery has tripled during the first nine months of 1940, the E. I. du Pont de Nemours & Company has announced.

WORKERS DONATE BOMBER
LONDON (UP)—A Wellington bomber now being built at the Vickers Armstrong factory will be presented to the nation by the workers who have collected more than \$50,000.

Condition of the field today might have a large bearing on the game's final score. First Turkey Day Grid Fare Scanty

NEW YORK, Nov. 21 (UP)—The Thanksgiving football fare today is almost as rare as the Thanksgiving turkey will be tomorrow.

There was a time when this holiday was just about the biggest moment in any football season. That was when Armistice Day, election day or any other red letter date on the calendar was considered set aside for the college schedule makers.

For several years, however, the trend has been toward sticking to Saturdays, exclusively, and the confusion over the celebration of Thanksgiving the last two years has just about cooked the day's goose as well as the turkey, so far as football is concerned.

As a result, the only game in the East today involving a major team will be Fordham's fracas with Arkansas at the local Polo Grounds. This might have been an attractive entrée on the holiday menu when it was scheduled, but the Rams are once-beaten and the Razorbacks have won only two out of seven engagements.

Fans in the Baltimore area will be entertained, presumably by the battle of a strong little eleven from Rutgers and the staggering Terrapins of the University of Maryland.

In the South Virginia Military and Virginia Tech will keep their annual gridiron date while the University of Richmond and Spiders engage William and Mary.

The headliner for the rest of the country will be the annual struggle between Kansas and Missouri. Undeclared Texas Tech and St. Louis university come to grips in another leading mid-western dispute.

Arkansas Plays Fordham Today
NEW YORK, Nov. 21 (UP)—Thanksgiving day football as far as fans in this metropolis were concerned meant Fordham against Arkansas.

The once-beaten Rams were overwhelming favorites for the tussle, although the Razorbacks, whipped five times in seven starts, were strong enough to give the University of Mississippi its only setback of the season.

It was the first meeting of the two teams.

Turkey Eating Isn't Over Yet, Merchants Say

Not all Big Spring people will eat their Thanksgiving turkey today, although it is generally considered the official holiday here.

Local meat markets reported yesterday that many families are reserving turkeys for next week. One merchant even predicted the price of turkey might rise a fraction.

"A good demand for turkeys will be made clear through to Christmas," he said. "But the supply is good. I'm offered plenty of No. 1's at 12 cents on foot."

Along with turkeys, marketmen reported heavier-than-usual sale of choice roasts, hams and other meats.

Sixteen cents on foot, 19 cents feather dressed, and 23 cents fully dressed was a commonly quoted price for turkeys, with the same due to prevail after Thanksgiving, unless a slight rise should materialize.

Thanksgiving Dividends Are On Increase

NEW YORK, Nov. 21. (AP)—Corporate directors spread before shareholders today a Thanksgiving menu of increased and resumed dividends as a forecast of what financial circles said probably would be the most bountiful year-end disbursements by American enterprise since 1937.

Despite the war-time boost in federal taxes to help pay the defense bill, many companies have had sufficient increase in profits to make generous payments in the usual Thanksgiving and pre-Christmas plum-cutting.

Steel, machine-making, aviation and other industries working at record or near-record speed arm the fighting men of the United States and England have been conspicuously represented in recent dividend actions.

For the heavy industries, fortune had swung from the depression famine phase to the comparative feast of busy times.

Profits, however, have lagged relatively in the return of industrial production to the highest levels since 1929, a big year for dividend recipients.

In the final rush of dividend declarations before Thanksgiving, America's No. 1 corporate giant, the American Telephone & Telegraph Co., ordered payable to some 632,000 shareholders the regular quarterly disbursement of \$2.25 a share on the common stock.

The action called for distribution of approximately \$42,000,000 on Jan. 15 to shareholders of record Dec. 16.

Italian Room Ready—The Italian room, 11th in a series of nationality classrooms being equipped in the University of Pittsburgh Cathedral of Learning, will be opened soon, according to university officials. Official dedication of the classroom, however, has been postponed because the room will not be completed until early next year.

Suicide in Haystack—CLIMAX, Sask. (UP)—A widow named Mrs. Lapperechuk devised an unusual method of committing suicide here. She buried herself in a haystack and set fire to it.

"Hey, you! Why don't you pull down your shades?"

Home Defense Unit Movement Grows

WASHINGTON, Nov. 21. (AP)—John G. Broady, New York lawyer sought for questioning by the senate committee investigating wire-tapping, was reported today to have sent word to the committee that he would appear for testimony when necessary.

H. I. Fischbach, attorney for several other committee witnesses, announced when today's hearing opened that he had received this information from Broady by telephone last night.

Yesterday the committee had agreed to suspend until next week the questioning of Robert C. La Borde, an operator of conversation recording equipment, but La Borde voluntarily returned today.

Giving His Hobby

BARKER (AP)—Making violins is the hobby of Fred Smith, 84, who is deaf. Although they have a mellow tone and are readily saleable he has given away each of the 46 turned out.

Bruce Frasier, selective service board member and head of home defense unit committee, reports that plans for organization of a group to act in case of local disaster are gaining momentum and obtaining a good reception.

At the present, about fifty men have definitely agreed to join the unit when formed and others have signified their intention of doing so. All men between the ages of 18 and 65 are eligible for membership, although those within the selective service age-limits will not be removed from responsibility for a year's training in camp.

Men desiring to join the company can obtain registration blanks at the selective service board office in the First National Bank building, from Dale Thompson at Lee Hanson's store, and from Robert L. Winn at the Cactus barber shop.

The move is being sponsored by citizens of Howard county with the American Legion and all service organizations cooperating in outlining detailed arrangements. A report of progress being made by the home defense group was given at a regular business and installation meeting of the Legion Monday night. It was decided that the unit would be a rifle company, although equipment would not be issued until there was a surplus of regular army stock. Training will consist of one and a half hours drill per week at a place yet to be designated. Commissioned and non-commissioned officers will not be elected until a total of 74 men are enlisted. Chief purpose of the home defense company is to carry out duties of the National Guard while the latter is in camp. In addition to emergency work, Frasier said the group might be called on to participate in work against possible subversive activity.

FORERUNNERS ...of a Mighty Civilization

It took initiative and courage to do what the Pilgrims did — to settle a wilderness. It also took hard work. Those three qualities triumphed, however, and the roots of a nation took hold — grew — and flourished. Among all the other things we have to be Thankful for, let's not forget those intrepid men and women who started this great land of the free! A happy Thanksgiving Day to all of you...

Bi-Focals of Past Odd

SUNSET POINT, O. (UP)—Mrs. C. E. Miller owns what is probably the "granddaddy" of modern bifocal spectacles. The odd glasses have an extra set of lens, hinged at the side, which are swung in front of the normal lens for close work. They were originally used by Mrs. Miller's great-grandmother, in Scotland and are at least 150 years old.

AAA Administrators Asked To Economize

Appeals for more economical and efficient operation of county administrative units of the AAA program and for better farm organization were voiced by E. E. Nowotny, state AAA accountant and George Slaughter, chairman of the state AAA committee, before AAA and extension service representatives of district No. 6 here Wednesday afternoon.

Nowotny urged administrative assistants to practice, and county committees to insist upon, most economical administration methods to the end that more funds would find their way to farm producers under the AAA program.

"We are members of an organization to give farmers and ranchers their fair share of national income," he said, hence the less for administration, the more for producers.

Texas, as the most important agricultural state, has the poorest agricultural organization, said Slaughter, in stressing the necessity of united action in pushing for an adequate agricultural program. Lack of unity, he pointed out, almost cost appropriations for 1940 parity payments.

He also urged a large vote in the cotton marketing quota referendum for Dec. 7. "I had rather see a big, representative vote turn out and the program barely get by than to see a 95 per cent majority out of a small vote," he added.

Declaring that the AAA was the

"largest cooperative agricultural program ever attempted in the history of the world," Slaughter observed that "it is not perfect. We are not claiming perfection, but it is working."

The AAA, he continued, is completely run by those in the agricultural business, for, as he asserted, "there is no question but that it is a farmer's instrument. Its success or failure rests with us farmers and ranchers."

Slaughter looked ahead to a program which would permit storage of loan cotton on farms by amortizing storage unit construction through payments ordinarily required for storage. This, he said, would entail huge expenditures for insurance, and suggested a farmers mutual as a means for carrying the insurance at the most economical figure.

As for the referendum, Slaughter said that it resolved itself into whether there would be quotas and provisions made for loans, or production thrown wide open with consequent threatening of the commodity price structure.

The school dismissed Aug. 16 after holding classes during the summer.

Island Trade Goes On

WHO KILLED AUNT MAGGIE?
(Continued from Page 8)
She had insisted that this was just the time for her to check over the family records at Wisteria Hall. Although she is what some people would call rich, Aunt Maggie adds considerably to her income by working up family histories for ambitious ladies who wish to become members of the D. A. R., the U. D. C. and similar organizations. "It amuses me," she often said, "now that I am a widow." (She had been a widow ever since I can remember.) "I find out such strange things about the best people. Sometimes I think they are more pleased to pay me for what I leave out than for what I put in." Anyway, Wisteria Hall had been built around 1856 by my great-grandfather, and its library contains many rare old documents which Aunt Maggie had latched to get her plump hands on long before my grandmother's death. But grandmother had refused to be bothered. Each time Aunt Maggie suggested looking them over, she had put her off, saying there was nothing of any value on the place and that it was all foolishness, anyway. I could picture Aunt Maggie in the midst of a perfect orgy since her arrival yesterday. But where was she now? Certainly she was in none of the six second-floor bedrooms, nor was she in the sitting room. Climbing the rather steep back stairs, the only ones ascending to the third floor, I still received no answer to my call. But papers and books scattered about in the study showed that she had been there.

60-Day Order Anticipated

AUSTIN, Nov. 21 (AP)—Although uncertain, Texas oil operators today had reason to expect the railroad commission to issue a 60-day prorator order some time next week.

Upon conclusion of a two-day statewide prorator hearing yesterday, Chairman Lon A. Smith and member Ernest O. Thompson indicated they favored a 60-day order to replace the 90-day schedule expiring Nov. 30.

The hearing ended on a note of uncertainty after Commissioner Jerry Sadler asserted he would "have no part" of the Humble Oil company's proposal that permissible production in a field be based 50 per cent on acreage and 50 per cent on the number of wells.

Thompson defended a prorator which had been attacked by O. W. Kilham, veteran Laredo producer, as "a dam behind which the industry has been built."

Traffic Deaths In Texas Reach New October Peak

AUSTIN, Nov. 21 (AP)—State police today marked up 190 traffic deaths against October, the highest monthly toll of the current year and the largest number of October fatalities of record.

As a result, the 10-month total this year jumped to 1,363 deaths, 114 more or an increase of 9.13 per cent over the same period last year.

Drivers operating vehicles at speeds too fast for prevailing conditions were blamed for a goodly portion of the carnage by Col. Homer Garrison, Jr., public safety department director.

NEW ORLEANS, Nov. 21 (AP)—Seymour Weiss, chief political aide of the late Senator Huey P. Long, departed from Louisiana political life Wednesday to start serving a four-year prison term in federal prison for income tax evasion, one of four federal charges to which he pleaded guilty late yesterday.

New Houston Industry

HOUSTON (AP)—This city has launched its first ocean-going tanker, a sleek, all-steel, 212-foot ship valued at \$216,000. It was built by the Platzer Boat Works of Houston for Saco, oil firm of Lisbon, Portugal.

Top Cage Team

GUNNISON, Colo. (UP)—Western State college publicity department, which annually claims to have the highest (in altitude) collegiate basketball court in the country, reports that after a grueling try it has learned that its gridiron tops all in the nation. It is 7,883 feet above sea level.

WEISS STARTS HIS TERM IN PRISON

NEW ORLEANS, Nov. 21 (AP)—Seymour Weiss, chief political aide of the late Senator Huey P. Long, departed from Louisiana political life Wednesday to start serving a four-year prison term in federal prison for income tax evasion, one of four federal charges to which he pleaded guilty late yesterday.

STATES DIVIDED ON THANKSGIVING

WASHINGTON, Nov. 21 (AP)—They're unanimous on the giving thanks part of it and they agree pretty generally on the turkey and all the trimmings, but the 48 United States found themselves disagreeing amiably today on just the proper date for thanksgiving.

Thirty-two states and the District of Columbia will follow the lead of President Roosevelt and take a holiday today. Sixteen others, including all New England, home of the first American thanksgiving feasts, will wait until their usual last Thursday in November.

In addition to the six New England states, the Nov. 28 date will be observed in four states of the midwest—Kansas, Iowa, South Dakota and Oklahoma; four in the south—Arkansas, Florida, North Carolina and Tennessee; and in Pennsylvania and Nevada.
