Moore.. ABOUT Eastland

By VIRGIL E. MOORE

You can credit red beans for a lot of those fine picnic tables we have at Ringling Lake For it was red beans and Irish stew which caused a lot of the work to be done.

We found cut that bit of infermation Saturday over a cup of coffee at Davis Drug. W. M. Coppock, city water superintendent, and Moore About got to talking about things in general and pretty soon Bill comes out with the fact that the last W. P.A. project ever let in Texas was right here in Eastland. It was to build the north spillway out at Eastland I ake. Bill credits the work to then-Mayor Carl W. Hoffmann. --vem-

It was a situation much like the one we have today that caused the spillway to be built on the lake. Lake Eastland was full of water, Bill recalled, when four inches of rain feil on the watershed. The heavy run-off cut a deep gap in the dam and it looked like it would give way for awhile. Mayor Hoffmann asked for W.P.A. help in repairing the dam but was told W.P.A. was being discontinued and that no new contracts were being signed.

-vem-"Mr. Hoffmann just wasn't the kind to give up," Bill said. "He went down and sat on their doorstep until he got what he wanted." The red beans came into the picture while W.P.A. workers were building the concrete tabout at Ringling Lake. Copnock slow and Mr. and Mrs. Hoffman

the menu a couple of times a week. "There's still lots of folks who thinks well of Eastland just because of those red beans.

Coppock, and employee of the city for some 22 years, also credits Hoffmann with the fine cemetery Eastland has. He said that back before Hoffmann did cemetery was kept quite a different way than it is today. "Then the City hired a man who put a plow in back of his horse and plowed up the whole thing, graves and all." Today the cemetery, lined with avergreens, is a living tribute to Hoffmann and others who heiped make it what it is today.;

Thumbing through some back issues of the paper we came across a story the other day where the Eastland Chamber of Commerce had invited the United Nations to set up permanent now. headquarters here. This was hunting for a home. Eastland didn't land the UN, but just think what this place would be to take a shot at.

OVER THE TOP-Water was going over the Lake Leon "morning glory" some three feet deep this morning, as shown in the picture above. The lake was still rising after reaching an all-time high Monday. The picture above shows little of the spread out lake (most of it is to the right of this picture) but it does reveal the large amount of water emptying out of the lake. Water will not go out of the emergency spillway until the lake reaches a level of 82 feet. (Staff Photo)

Employers Can't Give Hot Checks For Payrolls

AUSTIN — An amendment to the Texas "hot check" law that makes employers liable for paying their employees with checks that "bounce" has been signed into law by Gov. Price Daniel. Charles T. Lux, executive vice-

president of the Retail Merchants Association of Texas, said the new amendment closes a loophole in the 'hot check" law. "Until this amendment was signed, a retail business or any other place of business that accepted worthless checks presented in good faith by workers had practically no legal recourse to recover its loss," Lux

"Now under the new amendment employers who give checks that prove to be 'hot' are subject to criminal prosecution and may Perkins, 1-up; Warford def. be fined up to \$2,000 and sent to Thompson, 7 and 6; Townzen def. jail for 30 days if the amount injail for 30 days if the amount involved is less than \$50. If the amount of the worthless check is more than \$50, then the penalty is from two to ten years in prison and a fine up to \$10,000."

Lux said there were several hundred cases in Texas last year where employers paid off their workers with worthless checks causing the places that cashed these checks to lose many thousands of dollars.

Prosecution of these cases under the Texas "hot check" law was cover checks given as wages or

Third Generation at the Wheel!

"Like father, like son", the poets say.

And never was it truer than in the case of a great many fine Cadillac families.

For there are, in our land today, a number of families that currently boast as many as three generations at the wheel.

We mention this simply to underscore a great and dramatic truth about Cadillac-that, of course, is its unchanging goodness and quality.

For fifty-five years, the Cadillac name has signified one and the same thing to motorists everywhere—a motor car created at the highest level that automotive science would permit.

Over that time, Cadillac has attracted to the ranks of its owners the finest list of names to be found anywhere on the American motoring scene. And, those who have followed the path to

Cadillac in 1957 are enjoying the most abundant blessings of this ceaseless crusade for quality. The new "car of cars", with coachcraft by

Fleetwood, is beautiful and luxurious to an unprecedented degree. And its performance and handling ease are a revelation!

Certainly, the Cadillac car has now become an even wiser investment for an even wider circle of America's motorists.

If you have yet to acquaint yourself with these brilliant Cadillac virtues for 1957, your dealer will be delighted to tell you how easily you can make Cadillac a fine family custom of your own!
