Moore.. ABOUT EASTLAND

by Dirgil E. Moore

C. M. (Clint) Dapan, who lives about four miles north of Eastland, is still looking over his shoulder when he hears a strange noise in his house. And you can't blame him either. The other day Clint killed a five-foot long diamond back rattles ake in his house The snake had 11 rattles and buttons, Dapan said. -hem-

Joe Bennett, shop foreman of The Gorman Progress, has worked out the birthday problem in his family. Two years ago on July 31 his wife gave birth to a baby boy. Yesterday, on their son's second birthday, Mrs. Bennett presented her husband with a baby girl.

Eastland football fans, still remembering those 1956 Mavericks, who went to the semi-finals in the state race before bowing to Stinnett, the state champs, are an eager lot. We wouldn't be surprised to see a line formed in front of the school business office Monday when season grid ducats go

Mrs. Jack Lusk, 611 Gilmer, has submitted two "cute sayings." She recalled how one morning "Our three year old grandson, Kevin LeFan, woke up all out of sorts. Nothing I could do would please him,, and he would cry and fuss. Finally I said to him, 'Kevin, if you don't hush crying and be nice I'm going out and get a switch and use it on you! He hushed, looked at me for a second and replied, 'Well, Ma Ma, just don't get a tree.

Mrs. Lusk also wrote: "When my seven year old granddaugter, Loris LeFan started talking, she couldn't pronounce any word that started with "F" distinctly. She was a little past two years old when she was visiting with us. She marked with crayola on the walls and I was very perturbed with her and asked why she did it. She thought for a moment and then replied, I'll have to sigger that out;"

Remember, a free 8X10 inch Canaris Studio photo will go to the cutest talking child whose parents, grandparents or neighbors enter our contest,

The other day when the City Commission ordered a crackdown on traffic violations one of our many advisors told us that he had anticipated such a step. "Every few years," he said with a smile, "the City announces in your newspaper that a traffic crackdown has been ordered. Of course that's the last we ever hear of it."

Having faith in the present commission (they earn every penny of their paycheck they don't get each month from the City), we told the fellow that it would be different this time. Said we to the fellow: "If something doesn't show up inside three weeks we will say so in print." He double dog dared us, and we took the dare. This is our way of putting it in print. To the best of our knowlege, nothing has happ

We say all this reluctantly. For we can't forget what hap-pened to us back in Edinburg, down in the Valley. We were working as news editor of The Daily Review there when Allen Engleman, publisher and editor, started a crusade against speeding. Engleman was, and is, a fellow who calls a spade a spade even when he steps on one in the dark and he really put the problem down in print in his column. The next day we found ourself standing before the municipal judge paying a

Another Ike Appointment ... Almost As Bad As Warren

President Eisenhower, who went into the presidency rhone 9520. preaching the doctrine that only qualified men should be appointed to government positions, straightway appointed Earl Warren as Chief Justice of the Supreme Court, and a man more ignorant of constitutional law could not have been found anywhere on the face of the globe. Never before in his life had Warren seen the back side of a judge's furnished apartment, bills paid bench until he took his seat as Chief Justice. He has shown , private bath. 416 N. Lamar. his unfitness for the job scores of times since.

Ike has now made another appointment equally as senseless. He has named one Maxwell H. Gluck as United States FOR RENT: Partly furnished 3 Ambassador to Ceylon.

There is in this world today only one BIG nation of influence that remains a neutral, and that is India. Ceylon and India are practically the same, like ham and eggs, FOR RENT: One small unfurnboth being populated with the same kind of people, and both having the same political and religious composition.

The areas of India and Ceylon are as populous as the area of China. They are prize plums for Communist picking. Although both India and Ceylon are at present neutral Nations, they lean strongly to Communism, and once they go over the last block of the world's great neutral populations goes under the influence of Red Russia.

More than anything else in the world it behooves the United States at this time to keep these two Nations at least neutral. If they cannot be won to our side, they should at least not be allowed to go over to the enemy thus giving him control of every inch of land in the Far East and all the people who inhabit that section of the world.

Who is Mr. Gluck that Eisenhower has picked to handle our affairs with Ceylon, and India? Mr. Gluck sells ladies ready-to-wear and lingerie in a chain of stores that he calls the Darling Stores. Mr. Gluck also breeds horses.

In a closed hearing in the Senate Foreign Relations Committee recently, Mr. Gluck-could not even tell them the name of the prime minister of Ceylon. He could not even tell them the name of Nehru, the prime minister of India. known to every third grade school boy.

But Gluck was given the appointment by Ike, neverther less. And when a newsman asked Ike at his press conference this week if the fact that Gluck had given \$30,000 to the Republican Party had anything to do with it, Ike got red hot and said it didn't.

Well, now, anybody wanna bet?
