The best news reporter ever had the honor to work with, William C. Edwards, is dead.

Bill, father of Jim Edwards who often comes to Eastland in connection with his job as Tex as Electric Service Co. | public relations representative, was city editor of the Edinburg Daily Valley Review when we served that paper as news editor. At the time of his death he was 78. Mr Edwards had served as published of the Denton Record-Chronicle the Washington Herald, the At lanta Georigian-American and the Odessa American during hi 59 year career. He died Friday in an Edinburg hospital.

Bill Edwards could get more news by walking around the Edinburg square than the rest of the entire staff of the Review could get by working night and day. His memory was remarkable.

As news editor we handled his copy, getting it ready for print and putting headlines on it. You had to watch Bill's copy close. Not because he was likely to make an error, they were few and far between, but because he sent his copy in the old fashioned way. Using one long sheet of peper Bill would begin to write In the middle of a story he might slug in two or three personals. It was up to the news editor to sort them out. Often he would turn Top Award At in more personals in one daybesides his other writings-than our entire society department would have

Bill had served in the Texas Legislature, had been a member of the State Democratic Executive Committee, was a past Rotary district governor and a former president of the Texas Press Association. We hope that someday we might become half the newspeperman he was.

Mrs. Francis Urban's young grandson was sharing a watermelon with his grandparents recently, and Mrs. Urban cut him a big slice, placing it in a large flat pan. She gave him a fork to eat it with, but soon noticed he had a piece of it in his hands and had both elbows in the pan. "Davy, get your elbows out of the pan," Mrs. Urban said. The lad looked puzzled, then replied, "Grandmother, it's running down my arms and I don't want it to get on my clothes."

### How Savings Bonds helped his ship come in-twice!

Ulysses K had adopted America with the fervor of a lover of

And one of the big dreams of his life was a trip back to his native Greece to tell his friends of the wonders of this country.

He had a plan to make that dream come true, too. Like more than 40,000,000 other Americans he saved for his goal through U. S. Savings Bonds.

When he had enough, he arranged his passage to Greece and set off for a New York bank to cash his Bonds.

He arrived but the Bonds didn't.

Somewhere on the way, he'd lost them and to further complicate matters, his ship sailed in 72 hours.

He told this story to a bank official who got in touch with the Treasury Department. Records were checked and Ulysses received

his money in time to sail on schedule-

And he sailed with another story of the wonders of America for his friends. Naturally, when he returned, he became an even bigger Bond buyer than before.

This true story illustrates the indestructibility of U. S. Savings Bonds. Any of your Bonds that are lost, stolen or destroyed will be replaced without charge by the U. S. Treasury. That's why Bonds are said to be "safer than cash."

And now "safer than cash" Savings Bonds are better than ever. Every Series E Savings Bond purchased since February 1, 1957, pays 3-1/4% interest when held to maturity. It pays higher interest, too, in earlier years and matures in only 8 years, 11 months.

Now more than ever it's smart to save with guaranteed-safe U. S. Savings Bonds. Buy them regularly where you bank or through the Payroll Savings Plan where you work.

Part of every American's savings belongs in U.S. Savings Bonds

The U. S. Government does not pay for this advertisement. The Treasury Department thanks, for their patriotic donation, the Advertising Council
