

MOORE about... EASTLAND

by Virgil E. Moore

Aubrey Van Hoy and the Interstate Circuit went all out Monday and Tuesday of this week to see that this writer—and about 30 others—had a nice time in the big city of Dallas. Their efforts were not wasted.

The two-day meeting was designed to show the press of Texas that Interstate Theaters plans to combat the easiness of viewing television with top ranking movies. Their plans are to show not one outstanding movie a year, as has sometimes been done in the past, but "at least two every month." Screenings of "A Farewell to Arms" and "Bridge on the River Kwai" were shown, and they are proof that movieland has forgotten the idea that the best efforts of all are not needed to come up with a movie which will sell.

All around us at both of these movies we heard newsmen and theatre men alike speak practically just one word, "Realism" was their brief description of both movies. We think that at one time the word would have been a good definition of the shows. Today, however, after the TV show "Dragnet" has used the word as a handle for so long we think it rather trite.

True the movies are realistic. Not in the "Dragnet" fashion, either. Without reservation anyone, we believe, can recommend "Bridge on the River Kwai" as one of the best movies in years and years. Look for it to walk off with a number of Oscars. "A Farewell to Arms" had some of the best acting we have yet to see in movies. It is what the boys who make films describe as an adult movie and it will be interesting to see what the reaction to the show will be here.

Everyone has some advice for the movie world, as George Murphy told his audience in Dallas. Ours is this: Realism isn't as bad as you might think. Honestly, everything doesn't work out for the worst in real life. Every once in a while things go the way you would like!

The trip to Dallas gave us our first opportunity to use the new Fort Worth-Dallas turnpike and our first chance to stay in the new Statler Hilton Hotel. We would like to have brought both back to Eastland with us.

It also gave us another chance to remember that the Majestic Theatre here in Eastland is as nice as any you can find. Interstate went all out to construct a fine moviehouse here, and they did. We doubt that there is another city in the world the size of Eastland which has such a fine plant. Actually, of course, the theatre was built to serve the entire county, and that doesn't leave it with such a small population.

See by the big city press that Judge Cecil Collings, of the 11th Court of Civil Appeals here, is "very seriously considering" being a candidate for Supreme Court associate justice of Texas. The post is being vacated by W. St. John Gerwood, Judge Collings term with the Appeals Court expires in 1960.

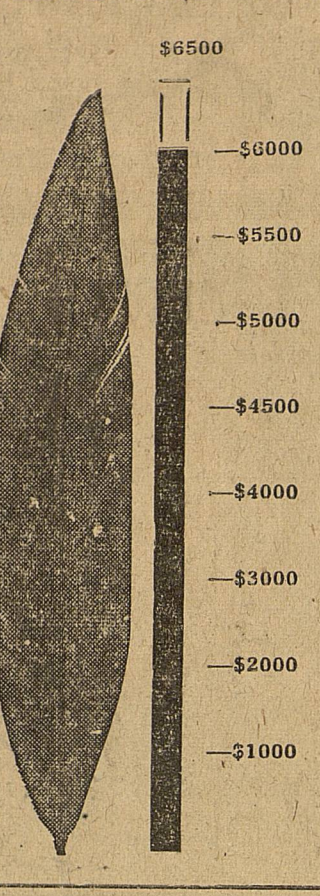

The Don Kincaids were on the way to St. Louis the other day for that turkey meeting, and who should climb aboard their plane in Fort Worth but Elvis Presley. Mrs. Kincaid said, "I've never heard so much confusion." Apparently she was close enough to know, for she returned with his autograph. Personally, we had rather listen to Mrs. Kincaid sing than Elvis. Pat really does have a fine voice.

EASTLAND UNITED FUND DRIVE

Big Sale Starts At Worth Food

Hundreds of dollars in prizes will be offered to local residents during the Managers' Appreciation Sale at the Worth Food Mart here.

The two managers of the local store said that extra low prices would be offered on merchandise Thursday, Friday and Saturday.

Cary Hightower, grocery manager, said that groceries would be placed on sale. Homer Meeks, meat manager of the store said extra low prices would be offered in the meat department.

Top prizes to be offered will be an Admiral Whirlpool electric freezer, and an RCA Whirlpool electric range. Other prizes include a Novelco Speedshaver, ladies train case, ladies Empress electric shaver, eight beautiful dolls with rooted hair, four signature dogs, and 12 plastic clothes baskets.

The managers said that no purchase was necessary to win any of these prizes. To be eligible to win, all that is necessary is to register free every day. You do not have to be present to win.

Local residents have until February 1 to register for the prizes. All of the prizes will be divided between Ranger, Eastland, and Cisco.

The drawing will be held in the Eastland Store February 1 at 7 p.m.

The first 50 customers Friday will receive one-half gallon of Taylor's home-made ice cream. Also, the first 50 customers Saturday will receive five pounds of sugar.

C-C Members Urged To Attend Meeting

All Chamber of Commerce members interested in industrial development have been invited to attend the fifth annual West Texas Industrial conference to be held in Abilene on Jan. 23, manager H. J. Tanner announced today.

The industrial conference, sponsored by the industrial development committee of the West Texas Chamber of Commerce, this year offers a five-point program on industrial development: government factories, processing agricultural products, mineral resources, industrial foundations and a study of the potentials of the region in scientific and economic discovery and development through research.

Eastland Loses Pair; to Test Clyde Friday

Eastland's Mavericks had their usual hot fourth quarter Tuesday night, but it wasn't enough to salvage their District 10-A encounter with Throckmorton as the Hounds hung a 58-48 defeat on the locals. Eastland's girls also fell before the onslaught, coming out on the short end of a 34-24 count.

The Mavs scored 18 points in the final stanza to narrow the gap between the two teams from 14 points to just six. It was an extremely poor first quarter, which is also becoming the usual habit for the Mavs, which beat the locals. Throckmorton got 15 points in that period to five for Eastland. From then on the Mavs outscored "the winners, but could never cut the 10 point lead.

High scorer for Eastland's girls was Yvonne Green. She got 12 points for the night while Sue Meriman had 19 for the winners.

The Mavs' journey to Clyde Friday night, with both a boys and girls game slated.

Legionnaires to Receive Plaque From Unit Tonite

Eastland Legionnaires will receive a plaque from the Marine Reserve Unit here tonight.

Marine Reserves use the local Legion Hall to hold their weekly drills in. The plaque will be to recognize the assistance given the Reserves by local Legion members.

Pat Murphy, of the local Post, said a dinner is planned for 7:30 and the plaque will be awarded after dinner. He urged all Legionnaires to attend the meeting.

WTCC officials have said that there will be no registration or other fees charged those attending the conference. The all-day meeting will be held at the Wooten Hotel in Abilene, beginning at 9 a.m.

The organization and use of industrial foundations will be discussed by John W. Tippitt, assistant research economist of the Texas Engineering Experiment Station at College Station. Tippitt is author of "The Organization and Operation of Industrial Foundations in Texas."

"A Garment Industry for Our Town?" will be the title of an appraisal by Scott Metcalf of Dallas, manager of the manufacturers agency of Singer Sewing Machine Co. Metcalf will also show a movie on the initiation of a garment manufacturing plant.

West Texas mineral resources, known locations of mineral deposits, their commercial uses and how to launch exploration for others will be discussed by Dr. John T. Lonsdale of Austin, director of the Bureau of Economic Geology.

A panel discussion by J. C. Porter of Wichita Falls, chairman of the WTCC agriculture and livestock committee and assistant vice president and agronomist of the First National Bank; C. B. Senter of Van, agricultural agent of the Texas and Pacific Railway Company, and Jesse Ward of Fort Worth, agricultural engineer of the Texas Electric Service Co., will be featured at the conference. The panel will discuss considerations of the feasibility of increasing the value of locally produced crops and establishing a payroll through canning, packing, mixing, shelling, etc.

The conference program also includes a look into the future. Dr. Sylvan J. Kaplan of Lubbock, coordinator of research at Texas Technological College, will discuss, "West Texas in the Space Age" with emphasis on the potential of the region.

Previous West Texas industrial conferences have drawn an average attendance of more than 200, and all indications point to an equally sizable audience this year. E. L. Buelow of Abilene, chairman of the WTCC industrial development committee, stated.

Joe Muirhead to Complete Basic Training Jan. 27

FORT CARSON, COLO.—Pvt. Joe W. Muirhead, 22, son of Mr. and Mrs. Jack Muirhead, 902 S. Seaman, Eastland, is scheduled to complete eight weeks of basic combat training Jan. 27 at Fort Carson, Colo.

Muirhead, a 1953 graduate of Eastland High School, was graduated in 1957 from Hardin Simmons University.

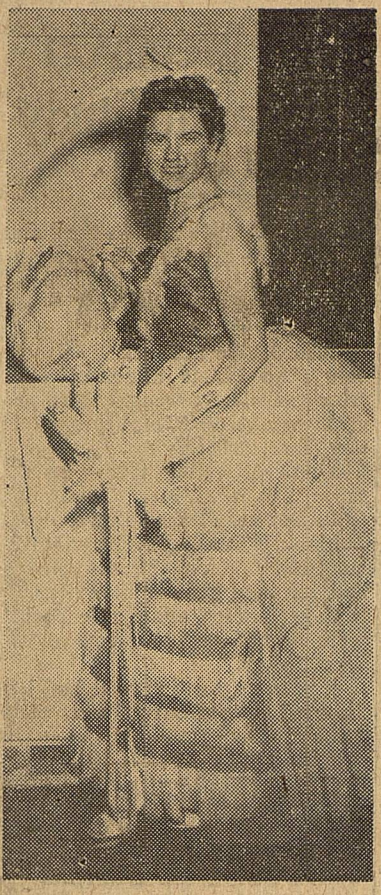

and 1955 and winner of the Maxwell Trophy as "Outstanding College Football Player of 1954." Many ex-Southwest Conference players, including graduates of SMU, Rice and Baylor, dot the team line-up.

More than 300 Marine and Navy men tried out for Sukiran team and Stephen was one of some 50 players to make the squad. He earned a starting berth in the

first game and held it all during the season. The highlight of his season came when he was named a member of the All-Star eleven. Stephen's coach described a 55 yard punt return as one of the EHS's star's greatest runs of the year. That came against the Yokota, Japan Air Force Base Raiders. It pulled the "Streaks even with the Raiders at halftime, 7-

TURKEY TALK—Mrs. Don Kincaid, wife of an Eastland turkey breeder and hatcheryman, takes a look at one of the top turkeys at a meeting held in St. Louis. The turkey was grown by Fred Jandl of Allentown, Pa. Mrs. Kincaid's costume is made of white turkey feathers fastened on a blue gown. The head dress is made of feathers, an egg and wish bone.

County Represented At St. Louis Meet

Turkey growers from every corner of the nation including Eastland County—nearly 4,000 of them—demonstrated a faith in the future of their industry by holding one of the most successful conventions in their 40 years of existence.

Eastland P-TA Groups to Host County Council

The regular meeting of the Eastland County Council of Parent-Teacher Association will be held Friday at 9:30 a.m. in the Texas Electric Company club room in Eastland, according to Mrs. R. M. Benton, president.

The West and South Ward PTA of Eastland will serve as host units for the meeting.

Plans will be made for various workshops and schools of instruction to be held in the spring after election of officers by the units of the council. An interesting program is planned for the coming year.

Arlin Bint, superintendent of Cisco schools, will be the featured speaker for the Friday meeting. He will explain the Hale-Aiken Committee of 24, a committee authorized by the state legislature to survey the needs of the public schools in regard to finance, program, teacher supply, and school construction.

He will also explain to the group what each local PTA unit can do to help with this survey to insure the recommendations which come from the county to the state committee represent the best thinking of the people of the county.

All local unit council representatives and presidents, as well as all school officials are urged to attend this meeting.

J. E. Owen Puts Hat Into Ring In JP Election

J. E. Owen today announced that he would seek election as justice of the peace, Precinct 1.

Owen's candidacy is subject to the July Democratic primary. He is presently serving as justice, having been appointed to the post by the Commissioners Court following the death of Judge Jim Boggs.

Judge Owen said he would make a formal statement later.

City's Fire Losses Small During Year

Reported fire losses in Eastland during the past year were only \$2,847.50, Fire Chief Billy Jackson revealed Thursday.

That means that Eastland citizens can expect to continue present low insurance key rates, or perhaps even improve the present rate.

In 1956 reported fire losses totaled \$10,800 and unreported fires pushed that total up to \$17,000. Chief Johnson said that fire losses reported to insurance companies but not to him would probably increase the 1957 fire loss some, but not much.

Chief Johnson praised both his volunteer firemen and paid men, saying as far as he is concerned they are the best anywhere. He gave much of the credit for the small loss during 1957 to the public, however. Properly warned, the Chief said, the public here has proven that it will cooperate.

The 1957 loss was the smallest financial setback for city property owners in a number of years. Eastland firemen again fought more large fires outside the city limits than they did inside. This year the City received monthly payments of \$25 from the county to help pay the cost of that added service.

Patsy Keith, Tommie June Sharpe Winners In Homemaking Contests

Winners of the Betty Crocker Homemakers of Tomorrow contest in two county schools have been named. Patsy Keith scored highest on the test in Eastland High School and Tommie June Sharpe ranked tops among Olden High School girls.

They received the highest scores in written examinations on home-making knowledge and attitudes, administered Dec. 3, to senior girls in the graduating classes. Their examination papers will be entered in competition to name this state's candidate for the title of All-American Homemaker of Tomorrow and will also be considered for the runnerup award in the state. For their achievement, they received award pins designed by Trifari of New York.

The national winner in the fourth annual Betty Crocker Search conducted among 327,000 young women in 11,800 of the nation's public, private and parochial high schools will be named April 17 at a banquet in the Waldorf-Astoria Hotel in New York City.

General Mills is sponsor of the program designed to assist schools in education for home and family living. This year's huge entry brings the four-year participation over the million mark. A total of 1,071,000 girls has enrolled in this national home-making project since it was launched in 1955. A total of \$106,000 in scholarships will be awarded this year.

Each State Betty Crocker Homemaker of tomorrow will receive a \$1,500 scholarship and an educational trip with her school advisor to Washington, D. C., colonial Williamsburg, Va., and New York City. A \$500 scholarship will be awarded the second ranking girl in each state. The school of the state winner will receive a set of the Encyclopaedia Britannica.

The scholarship of the young woman named All-American Homemaker of Tomorrow will be increased to \$5,000. Girls who rank second third and fourth in the nation will receive \$4,000, \$3,000 and \$2,000 scholarships, respectively.

Olden Basketball Teams Post Two Wins Over Carbon

Olden's boys and girls swept a pair of basketball wins from visiting Carbon teams Tuesday night. The Olden boys won 74-45 and the girls put a 65-54 victory count into the books.

Eddie Munn was high pointer for the fired-up Olden five, getting 40 points in one of his top performances of the year. Jack Hilliard had 15 points for the night, J. P. Horn got eight, Jerry Colburn 5, Ray Rodgers 4 and Gary Woods 2.

High pointer for the losers was Don Underwood. He had 26 points to his credit.

Wilma Edwards paced the Olden girls, getting 33 points to outshine Carbon's Ann Mangus, who had 26.

The games were first district encounters of the year for both Carbon and Olden.

Mrs. Justice In Race for County Treasurer's Post

Mrs. Ellen Justice, well known resident of Cisco, today authorized The Telegram to announce that she will be a candidate for the office of treasurer of Eastland County in the Democratic primary election next July.

Mrs. Justice was born and raised north of Ranger in Stephens County and moved to Cisco some seven years ago. Her husband, who was a native of this area, died in 1953. She is active in church and community activities.

Mrs. Justice said she would issue a formal statement in connection with her candidacy at a later date.

Quarterbackers To Meet Monday

The Eastland Quarterback Club will meet Monday night at 7:30 in the High School cafeteria, James Smith, president, announced today.

Smith said committee appointments will be made and suggested that all members be present "if they don't want to head a committee."

Go to Church Sunday

By Rev. Richard Smith First Methodist Church Pastor

In recent weeks we, the people of America, have become extremely anxious about our security and the freedom it maintains because of the credible fact that Russia can launch a missile with an atomic head and drop it in minutes and without warning anywhere in the world. We shudder to think that such destructive power now resides in the hands of men who are controlled only by a dialectical pragmatism and a godless ideology. We need only to look at the status of freedom in Russia to see what could happen to us.

One of the freedoms cherished by many of us is the freedom of worship. This freedom is a precious heritage, and yet there are many Americans who care little and do less about it. And yet, there are many of those same Americans who would like to believe that "God is on our side." The truth of the matter is that God will not be on our side until we are in evident fact on His.

The current commentary on the present relationship we have with God is the poor record we are now making in our Church attendance. It is true that there are many Churches which are overflowing on Sundays, but it is also true that there are many other people who are not to be found in Church at all.

The ministers of Eastland are concerned that there are many of our people who belong to the lists of the indifferent. It is their hope that the people can become conscious of their need of God, and that they will avail themselves of the precious privilege of worshipping God each Sunday morning and night in the Church of their choice. This is why the ministers are supporting the present effort known as the Church Attendance Campaign: "Let God Have His Way."

Dr. Charles Boss, a minister of the Methodist Church, recently visited Russia and had the opportunity of preaching in several of the churches there. On his return he told of his impressions and among them was "the vitality and the overflowing attendance of the Christian people." These Christians are in constant peril of their very lives for they are always suspects. Their right to worship is their most precious possession, a possession that can be and has been in many cases taken away without a moment's notice.

Even though we do not live in Russia, is our right and our obligation to go to church? (Continued on Page Two)

ligation to worship in a great and free country to be forfeited and therein be just as lost as it is to many Russians? Will it ever remain true that Americans will covet only those things which become scarce because of economic or political depletion?

The answers we give to such questions will ascertain in the final analysis what we really believe as Americans and as a Christian people. Furthermore, the

kind of a community we will have and the contribution we will make to a greater America and a better world hinges upon our loyalty to and support of the one Institution God has given us for our use in His service, the Church.
May there be many, many more

people who will say along about noon each Sunday, "I am glad that they said unto me, 'Let us go unto the House of the Lord'."

Arbor Day Will Be Observed Here Friday

Arbor Day will be observed in Eastland Friday according to a proclamation issued by Governor Price Daniel. The proclamation reads as follows:

"Texas derives many benefits from its trees—as a forest crop, as a raw material for its industries, as protection for its soil, and as cover for its wildlife. The continued progress of our State is in a large measure dependant upon this forest wealth.

"In recognition of these facts, the 51st legislature by resolution, requested the Governor of Texas to issue an appropriate proclamation encouraging proper observance of the third Friday of January each year as Arbor Day.

"The Texas Forest Service and Texas Forestry Association are sponsoring a Statewide educational campaign to encourage the planting of trees, the perpetuation of our forest resources and the prevention of forest fires.

"Therefore, I, as Governor of Texas, do hereby designate Friday, January 17, 1958, as Arbor Day in Texas and recommend due observance thereof by all citizens and particularly urge that the schools of the State hold appropriate exercises in this regard."

Dr. A. D. Folweiler, director of the Texas Forest Service, urges Arbor Day observance along with Governor Daniel.

"Arbor Day is more than just a

time to plant a tree and glorify it with a song or poem," Folweiler said. "This day should stimulate public responsibility in caring for trees so they will grow. Proper observance of Arbor Day will instill in the minds of everyone and especially school children, a wholesome regard for the importance of fostering and caring for shrubs, individual trees, and forests."

Arbor Day originated and was first observed in Nebraska in 1872. J. Sterling Morton, then a member of the Nebraska State Board of Agriculture and later United States Secretary of Agriculture, conceived the plan and the name. This plan was adopted, and on April 10, 1872, the first Arbor Day was celebrated. Thus, Nebraska became known as "The Tree Planter's State." In Texas, the need for observing Arbor Day was first recognized in 1889 at Temple a community which had comparatively few trees.

7, and enabled the Sukiran team to win in the second half, 14-7. Stephen helped set up the winning touchdown, too. He carried the ball to the seven yard line from where 225-pound fullback Don Wilson was able to take it across. Then as time was running out the Streaks found themselves pushed back to their own 12-yard line. The game write-up had it this way: "After several small gains, Stephen punted to Yokota's four yard line where both teams battled it out until the final whistle." Stephen's coach could merely say, "Boy, that was some punt!" Stephen is a graduate of SMU where he majored in physical education. He plans to enter the

PAYROLL WINDS

Now the easy way to save is better than ever!

The U.S. Savings Bonds you get through Payroll Savings pay you higher interest...taster!

Have you tried the Payroll Savings way to save yet? Eight million working people can tell you it's the best system ever devised to save for a goal systematically.

Here's how it works. You simply sign the Payroll Savings authorization card in your payroll office. Sign up for the amount you want. Then each pay period that amount is deducted and saved for you in a Payroll Savings account. When there's enough, a United States Savings Bond is purchased in your name and starts earning interest to add to your savings.

And now your Bonds earn higher interest than ever before. Every United States Series E Savings Bond issued since February 1, 1957 pays 3 1/2% interest when held to maturity. It reaches maturity faster — in only 8 years and 11 months. And redemption values are higher, too, especially in the earlier years.

If you haven't already done so, sign up for the Payroll Savings Plan at work today. Start piling up those Bonds for your future.

Incidentally, you'll be getting your Savings Bonds in a new "check" size — a lot easier to keep even in the smallest safety deposit box, a lot more efficient and economical for your employer and your government to process.

The piggy bank that can't be raided!
 To see how fast small change can add up, put it into Savings Stamps. 10¢ and 25¢ denominations available at your post office along with handy albums to keep them in. Start a book today.

Why use two when one will do?

You'll do better to protect your motor with this one all-weather oil than to change from heavy oil to light oil according to the season.

Users of Trop-Artic* All-Weather Motor Oil never have to worry about using different grades of oil at different seasons of the year. TROP-ARTIC is a light oil and heavy oil in one (grades 10W through 30). Furthermore, it lubricates and protects your motor far better than any of the old-fashioned "single grade" oils.

The reason is that TROP-ARTIC never gets too thick or too thin. In a cold engine it flows quickly for easy starting. In a hot engine it retains the "body" necessary to prevent wear. It reduces friction to save you gasoline. It keeps your engine clean. Compared to old-fashioned oils it can even double engine life. KEEPING POSTED

By MARENE JOHNSON
Eastland Postmaster

How would you like to pay 8 cents to send a letter to Breckenridge?

And what would your feelings be if the weight of the letter had nothing to do with the amount charged, but you were charged according to the number of sheets of paper in the letter?

That may sound fantastic, especially when we are able to mail any letter from Eastland to any other city in North America for only 3 cents an ounce. And for only 4 cents more, you can send it air mail.

Our early postal service did charge the 8 cents for a short trip of 30 miles, and the rates were based on the number of sheets of paper in the letter. Weight of the letter had nothing to do with the cost.

The sheet could have been very large, but it still went at the minimum letter rate, while a letter consisting of several sheets of paper was charged several times as much.

It's also interesting to note that in those early days, (around 1789 and, for some years later) postage was collected not from the person sending the letter, but from the person on the receiving end. Practical jokers of the day, or persons holding a grudge, sent expensive letters solely to annoy others.

Not only was our early mail delivery expensive, but it was extremely slow, and it was difficult to guarantee sure delivery, despite valiant efforts.

George Washington, at one time, complained letters from Philadelphia and New York took a month or six weeks to reach him at his beloved Mount Vernon in Virginia.

The news of our first President's death, despite day and night riding by post riders, took ten days to reach Boston from Mount Vernon—a distance of around 500 miles.

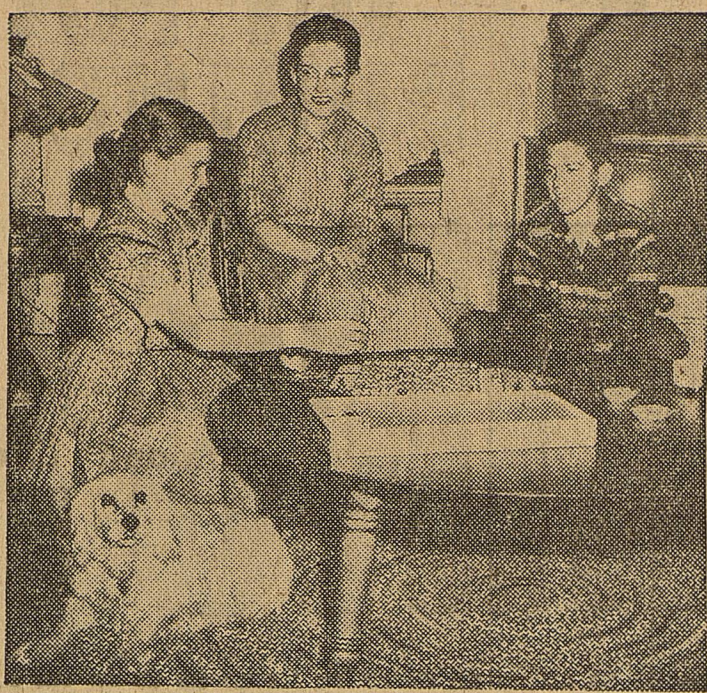

Early mail carriers were faced with Indian ambushes, treacherous swamps and icy streams. Four horses were sometimes called upon to pull a light mail load through snows drifts or deep mud.

But even then—as now—the U. S. mails had to go through. Present-day postal service is so important to our way of life we sometimes forget how much our very existence as a community, state and nation depends on it and revolves around it.

Government heads, legislatures and courts can be out of operation at regular intervals, but think what would happen to our community, our state and our Federal Government if the Post Office Department were closed down tightly for even a short time.

Think of the confusion that would exist in your own family or business life, as well as throughout the country, and we gain an appreciation of the importance of efficient postal operation.

And all of us in the Eastland Post Office are determined to give you a continuing and ever-increasing efficient operation in your postal service.

EL PASO — POLIO MOTHER OF THE YEAR for the 1958 March of Dimes in Texas. Mrs. John L. Crouch (Kathy), of El Paso, joins daughter Connie Ruth, 11, and son Larkin, 13, in a family game. More interested in the photographer is the Cocker, Ginger. Mrs. Crouch, executive secretary of the El Paso County Chapter of the National Foundation for Infantile Paralysis, and widow of a World War II fighter pilot, was named to symbolize in the 1958 March of Dimes the hundreds of Texas mothers who have overcome the crippling after-effects of polio to resume active and useful lives.

El Paso Mother of Two Kids Named Polio Mother of Year

Mrs. John L. Crouch, attractive El Paso mother of two, and widow of an Air Force pilot, was today named Texas Polio Mother of the Year for the 1958 March of Dimes.

Nomination of Mrs. Crouch was announced by Gordon McLendon, Texas chairman for the 1958 March of Dimes, who described the 37-year-old mother as "symbolic of the hundreds of Texas mothers who have courageously and successfully battled crippling polio to return to active and useful living."

Selected from a large group of nominees submitted by Texas county chapters of the National Foundation for Infantile Paralysis, Mrs. Crouch typifies, McLendon said, what a combination of determination and rehabilitation techniques can accomplish for the victims of the pre-Salk vaccine polio war.

Though confined to a wheel chair by the after-effects of a polio attack, Kathryn Crouch now serves successfully as homemaker, and as executive secretary of the El Paso County Chapter of the National Foundation for Infantile Paralysis.

It is a dual role, she says, "that seemed impossible eleven years ago." She remembers that "like most people, I thought polio was something that happened to somebody else. It wouldn't happen to Kathy Crouch."

When it did, it began with "the worst headache I ever had." A few hours later, in August, 1946, Kathy Crouch, mother of one child and expecting another, was admitted to a Fort Arthur hospital.

Although her case was diagnosed as polio and her right leg completely paralyzed, she remembers telling her husband, wartime fighter pilot Major John L. Crouch, that she would be "walking by Christmas."

Two weeks later her second child, Connie Ruth, was born. Her oldest, a son, Larkin, was two.

A few weeks afterward, Kathy Crouch went to Gonzales Warm Springs Hospital to begin the March of Dimes-financed rehabilitation treatments she hoped would put her on the road back. After two months she returned to Fort Arthur faced with the knowledge that she would probably never walk again, but determined to be a successful mother and homemaker despite her handicap.

And tragedy struck again. In October, 1947, her husband was killed during a cross-country training flight. A home he had purchased in El Paso for his family stood

empty. Kathy Crouch responded with characteristic courage. Leaving Fort Arthur where she had lived for most of her life, she took her small children to the new home in El Paso, seeing it as a symbol of a new life.

Soon, Kathy Crouch and her wheel chair were a familiar sight in El Paso. She became active in community affairs, and, as her children grew, with the PTA, the Girl Scouts.

In 1952 the El Paso County Chapter of the National Foundation offered her the exacting position of executive secretary. She

TELEPHONE TALK
by W. H. McAnally, Manager

BACKWARD GLANCE

Once again, we've turned the corner from an old year into a new one.

Before old man 1957 disappears completely from sight, let's take one last look at him. His was a year of continued telephone activity in Eastland and other nearby communities we serve. For that, he at least deserves a tip of the hat from us.

Here, in brief, is his telephone record:

1. Total telephones now in service in Eastland—1833.
2. Average number of local calls a day—11,200.
3. Average number of Long Distance calls a day—437.

To sum it up, folks in Eastland depended on their telephones to do many jobs for them in 1957 and we plan this year to continue offering the kind of service that telephone users here have come to depend on.

QUESTION FOR THE LADIES

How many times did you answer your telephone today? Several times, I'll bet. Chances are, you'll get one or two more calls before the evening's over.

I'll bet, too, you're usually in the kitchen when the phone rings, or when you need to make a call. Sometime, just for fun, count the steps you take going back and forth from the kitchen to the phone. And count the times, too, when you hurry through a conversation because there's something on the stove and you have to get back to keep an eye on it.

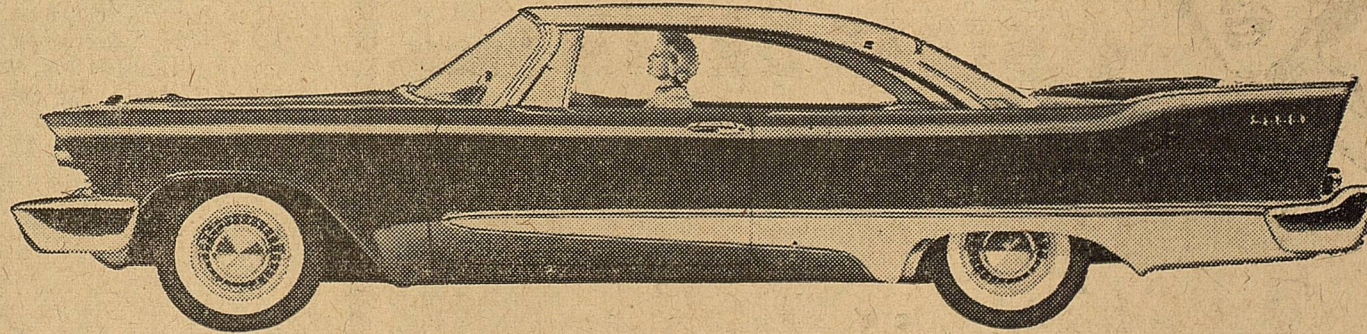

A telephone in your kitchen—where you need it most—is just about the handiest "appliance" you can have. You'll be surprised, too, how little it costs to put one in... even if you choose yours in one of the glamorous new decorator colors.

If you'd like more information about how you can have a handy new kitchen phone, just call the telephone business office—and we'll give you complete details.
