DAR Chapter Is Accorded Honors At State Meeting
Mrs. Yancey J. McCrea of Charles Crawford Chapter of the Daughters of American Revolution was appointed by the new state regent of Texas, Mrs. E. R. Riggs of Graham, to her list to state officers, and five other honors were won by Cisco chapter members at the annual state DAR conference in San Antonio, Feb. 19 to 22.
Mrs. McCrea is to serve as state chairman for "Flag of the United States of America" in Texas for three years with 104 chapters under her leadership.
Mrs. Phillip Pettit was awarded a third place ribbon for her outstanding work on "Americanism," and Mrs. Sam Kimmell, chapter chairman, was given a cash award for work with local schools. Honorable mention was given to the local chapter for work on JAC which is work with teenage clubs.
Work covering all committees in the club, under the chairmanship of Mrs. W. C. McDaniel, was put on the honorable honor roll.
Mrs. McCrea also gave the response to the welcoming address.

Kenneth Savoy Speaks Sunday To Witnesses
Kenneth R. Savoy, district supervisor informed the conference of Jehovah's witnesses Sunday at 3 p.m. that "in this 'mistle age' the future holds fear and perplexity to many people."
"On the other hand God's word extends a message of comfort, peace and security, which conditions will shortly prevail on the earth under the rule by Christ," Savoy continued, "truly this is good news."
This message Savoy directed to an audience of 1,185 at the Exhibits building, Ft. Worth.
This closed out the three-day conference. The theme of the conference was "Fulfilling Our Ministry." Savoy pointed out the chief weakness of the 19 congregations assembled was meeting attendance.
Savoy said, "that in order to fulfill our ministry it is necessary to attend all meetings and help each other by giving individual assistance."
Circuit Supervisor, Harlan C. Mathes in his closing talk "Safeguard the Heart with Wisdom" said, "a Christian's effort to help save others will result in his own salvation."
"It requires knowledge, wisdom and understanding to live now-days, and in the future."
As It Looks—
(Continued from Page One)
American youth to strive for scientific cadetship and pursue a career in science and engineering; that it would strengthen our present system of scientific education by training more people skilled in the art of communicating interest in science, and increase the percentage of science teachers.
If we are to concentrate on training scientists for the future, this method would at least pinpoint our efforts. It would assure the services of trained scientists for the Government, and not train a lot of people who may decide to accept employment in private industry after they receive their education at Government expense.

Moore About—

(Continued from Page One) Eastland is proud to have the Church's annual state meeting here. If the property is to be sold, however, we hope someone gets it who will do something with it. It holds a lot of possibilities.

We had out of town visitors the other day who commented favorable on our street markers. We've kinda gotten use to them ourselves, but shouldn't forget how much work went into getting them.

See you Thursday.

THDA Banquet Discussed at HD Council Meeting

The Eastland County Home Demonstration Council met Wednesday in the Texas Electric assembly room and discussed the THDA banquet along with other business.

The meeting was opened by the group repeating the club motto, pledge and prayer in unison. Clubs represented at the meeting were Flatwood, Lake Cisco, North Star, Pleasant Hill and Word.

Mrs. Ernest Schaefer gave a report on the THDA banquet to be held in Cisco March 24 and 25. Mrs. Sidney Hanson was appointed to receive tickets at the THDA banquet to replace Mrs. Bela

Tucker.

Various committee reports were read with Mrs. Willie Ward giving a report of the E. E. Committee. Mrs. Lottie Lassiter gave the finance committee report.

Plans for the 4-H county camp to be held July 18 at Lake Cisco Presbyterian Camp were given by Mrs. Ward. Miss Nancy Weathers reported on her work with the 4-H girls of Eastland County and read the recommended 4-H pledges.

Miss Sandra Kirkland, Home Demonstration agent, related the results of the Texas Home Demonstration Study. Recommendations of the Civil Defense were read by Mrs. Bernice Greier.

The club was asked to donate cakes and pies for the Livestock Show for 4-Hers and FFA boys.

After the business session, a recreation period was led by Mrs. Lassiter.

I GIVE YOU TEXAS

By **BOYCE HOUSE**

Notes from a trip:
In Arkadelphia, Ark., the Yellow Cabs are gray.
Four miles before reaching Benton, the highway has signs proclaiming that the traveler can obtain beaded moccasins, squaw boots and hand-painted skirts at

Keatley's. Also Southern - cured hams and 20 varieties of homemade candies, including black walnut roll and caramel - dipped pecans. In fact, 10,000 items.

In North Little Rock, this sign is in front of a pawn shop: "Need dough? See Frank or Moe."

And in Memphis:
A roaming shine-boy chants, "Shoe-shine a dime; a brush, a penny."

And the proprietor of a one-chair shine parlor in the entrance way of a vacant building: "Yes, sir, shine 'em so they'll look like brand-new from Julius Lewis's". In reply to a question, "Who is Julius Lewis?" "It's so fine that a pair of carpet-slippers cost \$20."

Memphis visitors once more have the opportunity to ride on an excursion steamer. The boat isn't nearly as large as the "Princess" was but it is trim and neat-looking.

A steamboat glides along, pushing three large barges and kicking up waves.

From the railroad bridge, a curving ripple in the river can be seen; to the eye of a pilot, it tells a story—perhaps a sand-bar.

A station-wagon parked on Madison near Main is identified by lettering as belonging to an armored car company and also there is the information that "this car contains no money or other valuables."

And I viewed a shrine — the home of Elvis Presley. It is a new brick mansion, two stories, back from the highway. There is a high fence; also a big iron gate which is open but a guard prevents entry. Elvis' figure is shown in wrought iron on the gate.

Ten cars were parked in front of the estate and the occupants waited, on the chance that their idol might appear.

Down the walk way came a young man with sideburns but it was soon apparent that he was too bulky—perhaps one of the musicians. By the time we drove on, after several minutes, four more cars had stopped.

Mrs. D. B. Raney

Many friends and relatives helped Jack Pockrus celebrate his birthday, Sunday, March 2. The first to give him birthday greetings was Mrs. M. I. Lasiter who came on Saturday. Sunday morning others came bringing a covered dish for the noonday lunch. Some came in the afternoon.

Rev. W. R. Ivie of Cisco, who also was celebrating his birthday, brought a devotional service in the afternoon. The guests included Mrs. Charlie Morris and son Billy and family of Wichita Falls, Miss Mary Lou Tiarks of Breckenridge, and many from Ranger and the community.

Mrs. J. A. Caraway spent several days last week visiting her family, Mrs. Melton Luttrell and daughter at Fort Worth.

Mrs. Ida Raney and Jewel Newham of Ranger visited their brother and uncle John Bradford and wife at Weatherford Saturday and Sunday. They went that far with Weldon Leonard and family who visited Mrs. Leonard's parents, Mr. and Mrs. F. G. Shelton at Irving.

Jackie Eddleman brought the morning message at Oak Grove Baptist Church Sunday. He was accompanied by his parents, Mr. and Mrs. Frank Eddleman and Mrs. Cordia Lambert.

Mr. and Mrs. Carlton Templeton and Carla Jean of Abilene spent Sunday with his parents, Mr. and Mrs. A. O. Templeton.

Zero Tolerance For Methoxychlor Noted In Milk

COLLEGE STATION — The use of methoxychlor as a pesticide on milking dairy cows when the method employed leaves residues of the poison in the milk has been outlawed by the Commissioner of Food and Drugs.

The Commissioner's ruling was in the form of a regulation setting a zero tolerance for methoxychlor in milk, according to F. M. Fuller, extension entomologist. The action was on a petition requesting a tolerance of 0.25 part

per million for methoxychlor in milk to permit use of the pesticide as a fly spray on milking dairy cattle.

Because of the unique place of milk in the diet of infants, children, the sick and aged, the Food and Drug Administration asked the National Academy of Sciences to select an advisory committee of scientists to consider the petition and make a recommendation, as provided by the pesticide law.

The committee found that the data on safety were inadequate to tolerance which would permit residues of methoxychlor in milk. Summarizing their position, the committee pointed out the long-standing policy of the FDA and food officials of all states that no poisonous or injurious substance should be sanctioned in milk. They said that in view of the importance of milk in the diet, a greater margin of safety must be established than would be the case for any other food item.

But Fuller points out that the FDA's action does not prohibit the use of methoxychlor on dairy cows if the use will not result in residues. A tablespoonful or 10 grams of 50 percent wettable powder per animal, rubbed lightly in the hair on the back of the cows will help control horn flies, and will leave no residue when applied no oftener than once every three weeks. But a residue results when used in sprays or dips, and they are un-

acceptable.

FOR EVALUATION OF SCHOOLS...

Information Available To County School Committees

As thousands of Texas citizens join in their county Hale-Aiken committee's study of local schools, they have a wealth of information available to assist them in their timely evaluation of the schools.

Local committees have a deadline of May 1 for reporting their recommendations to the state-level Hale-Aiken committee, headed by Sen. A. M. Aikin, Jr. of Paris.

Much basic information has been provided by the Texas State Teachers Association in a booklet, "Education... An Investment in the Future." Each committee member has been furnished a copy of

this TSTA-developed booklet, which tells the story of Texas schools statistically and graphically. The information it contains was compiled from authentic sources which are identified.

This survey points up the fact that the number of school-age children in Texas is growing at the rate of almost one-half million each year.

To instruct this increasing scholastic population, the number of teachers has increased from 50,000 in 1948-49 to 78,000 during the current school year. By 1962, the teacher total will soar to 93,

285.

Housing for these additional children will require expenditure of more than \$127 million a year by local school districts for construction of classrooms during the next six years.

In addition to statewide information about Texas schools, the handy booklet compares Texas school system with those in other states.

For example, Texas ranks 32nd among the 48 states in the amount it spends for each pupil in average daily attendance, having spent \$255 per pupil during 1956-57 compared with the national average of \$295. Texas stands 27th in the percent of income spent for current educational expenses.

In training of its teachers, Texas ranks second in the nation with more than 96 percent holding bachelor degrees or higher. In contrast, the average salary paid Texas teachers ranks 24th in the nation, the TSTA booklet shows.

Average salary in 1956-57 of all instructional personnel in Texas—including classroom teachers, principals, and supervisors—was \$4,000. The national average was \$4,330.

Of all employee groups in busi-

ness, industry, and the professions, classroom teachers ranked lowest in 1956. The average salary in Texas industry and business that year was \$4,445, compared with an average salary of \$3,842 for classroom teachers.

In 1956 Texas collected an average of \$70.36 from each person in state taxes, placing this state in 36th place in per capita tax collections.

The booklet also reveals many interesting facts about teacher demand and turnover. It indicates that 40,955 teachers will be needed as replacements and additions within the next five years. More than 10,000 teachers change positions each year, and 4,500 are lost from the profession. The turnover averages 14 percent per year, compared to a three percent employee shift in Texas industry.

Are enough teachers available? The trend is discouraging, the booklet reveals. In 1950-51, Texas colleges and universities had 7,275 graduates prepared to teach. By 1956-57 this number had declined to 5,096, and only half of them showed up in the classrooms last fall.

As the number of persons training to enter the teaching profession decreases, the number of emergency certificates issued to unqualified persons increases. In 1955-56, there were 1,121 such emergency certificates granted. In 1956-57, the Texas Education Agency issued 3,199.

Another significant trend is that more than 11,000 Texas teachers are nearing retirement. As they retire, the number of teachers needed will sharply increase.

How is State aid to education financed? Where does the money come from? Who pays what taxes and how much? These are some of the important questions answered by the TSTA publication.

Commonly used terms are also defined so that the booklet can be of practical use to local citizens. These terms include: minimum foundation program, minimum salary schedule, local fund assignment, permanent school fund, state available fund, foundation school fund, and others.

Many other items are contained in the colorful, comprehensive survey of the state's school system.

National Doll Dressing Institute To Sponsor Doll-Dressing Contest

The National Doll Dressing Institute, which sponsors an annual national doll-dressing competition for women, announces the panel of judges for the 1958 competition: Miss Helen Hayes, First Lady of the Theatre, Honorary Chairman; Mrs. Angelica Cannon, Associate Fashion Editor, "Mademoiselle"; Miss Nanina Comstock, Editor-in-Chief, "McCall's Needlework and Crafts"; Mrs. Mary E. Lewis, Founder-Life Member, National Doll and Toy Collectors Club; Mrs. Roxa Wright, Craft Editor, "House Beautiful".

The competition will again be for the benefit of the March of Dimes. All dolls, with the exception of the 127 prize-winners, will be donated to the March of Dimes for its own fund-raising program. Last year, this organization distributed many thousands of dollars to local chapters throughout the country to be sold for the benefit of the March of Dimes.

The National Doll Dressing Institute annually awards a total of \$15,000 in cash and Government E Bonds. The first grand national prize is \$2,500 in cash and was won last year by Mrs. Marion Durarte, a housewife from Detroit, Michigan, for her entry "Mexican Bull Fight." Second grand national prize of a \$1,000 bond went to Mrs. Hattie B. Rennolds, a 73-year-old grandmother of Charlottesville, Va., for "Afternoon Frock, 1860".

A trio of dolls representing "Alice in Wonderland and the Red and White Queens" by Miss Hazel McLellan, a doctor's secretary in Carmel, Calif., took third grand national honors, \$500 in bonds. 127 prizes are awarded: 48 state first prizes of \$150 in bonds, 48 state second prizes and 28 national honorable mentions of \$50 in bonds each.

Prizes were won in past years by women all over the United States and its territories. Dolls were entered from Hawaii, Alaska, Puerto Rico, and the Virgin Islands. The 1958 contest closes midnight, October 1, and winners are notified by November 15, 1958.

The prize-winning dolls become

the property of the National Doll Dressing Institute and, as a permanent collection entitled "A Treasury of Hand-Dressed Dolls", are scheduled for an exhibition tour in leading department stores in major cities throughout the country.

The rules of the contest are fully outlined on the entry blank attached to the small, inexpensive "Lingerie Lou" dolls available in most variety stores.
