

MOORE about... EASTLAND

by Virgil E. Moore

We still can't decide which of the Frost brothers is the one we should avoid, and for that reason we are just dodging both of them. It seems that Cyrus was elected on the city commission, and Bill got his picture in the paper (with Cyrus' name under it).

The thing wouldn't worry us, but since both of them are attorneys we keep expecting some court action any moment. Actually, of course, it was just our belated April Fool's Day joke. We forgot to write a column on the Lirpa, Loof situation this year.

Larry McGraw is a guy who always has a bright remark to make. For instance, the other day out at Hillcrest Food Market he and Ed Sargent were discussing an attempted break-in at Ed's store. Ed was telling Mac that the fellow who tried to break in through the back door didn't get in, but he nipped up the door. Larry, with his usual straight face, replied, "That's not what I heard. They tell me the guy got in, checked out your prices and left empty handed because they were too high."

The thing that amazes us is that Ed wasn't open. I thought that place never closed up.

Mrs. Milton Nash was telling us Monday that her husband is a lot better. She also was telling us that the people of Eastland are wonderful folks. As is usually the case, Eastland folks, without any prodding from anyone, came to the aid of the Nash family when the friendly city policeman suddenly was hospitalized.

We hate to see John Goodes leave town almost as much as all these Methodists do. John and Sue have been wonderful citizens, and we do not think that Odessa deserves them. John has been one of Eastland's hardest workers. He successfully headed the United Fund drive here a couple of years ago, has been a hard working church member and an active officer in the Lions Club, just to point out a few of his achievements.

Some folks have been saying that we would do anything for money. This is not so.

For instance, Aubrey Van Hoy, the Majestic Theatre manager, told us he would let us slip in to see "Raintree County" free of charge if we would plug the show in our column today.

Do you think for one moment that we would say the show is great, that it's one you shouldn't miss, that it's got some great stars and that it is showing through Wednesday? Absolutely not.

That paint salesman, Bernard Hanna, sure got a new look on Hanna Hardware and Lumber Co. in a hurry. A member of the Rotary Club, Bernard knew he was going to get roped in on the clean up campaign, so he jumped the gun and completely re-painted his entire store, signs and all. Certainly looks good, Mr. H.

H. P. Pentecost came in with a bluebonnet in his hand the other day. Mr. Penny brought the flower to Carolyn Collins, our social editor, commenting that it was the first of the year in his yard.

All of which makes us reason that this should be a good year for the Texas flower. We can just see the hillside covered with a blue paint job.

That's about as far as we can go and still stay in column one.

Elizabeth Fox of Olden has been notified that she will be awarded a state degree at the state meeting of the Future Homemakers of America in San Antonio on April 17. The Texas Electric Service Company's auditorium, Thursday, at 10 a.m.

Mrs. Houle was elected president of the auxiliary in January and has been busy appointing the various committees that will serve during her two years administration. The membership committee too has been active and many new members have joined the Auxiliary.

Mrs. Grace R. Reed, hospital superintendent, will outline the duties of the emergency committee who will serve at the hospital in case of a disaster.

"It is urgent that the hospital's blood typing list be revised," Mrs. Reed said. "This drive, to begin in the near future, will be discussed and planned at the meeting as a Eastland County project."

"Our hospital is now rendering service throughout the county and the blood-bank should be supported by all the hospitals in Eastland County," Mrs. Houle stated. "It is important that each citizen know his own blood type and whether you agree to be a blood donor, in case of an emergency, or not, this drive will be an opportunity for you to get your blood type card."

The project of the Women's Hospital Auxiliary is maintaining the hospital grounds and the proceeds from the November annual thrift sale has supported our needs.

"Yes, the young and the young in heart are working equally hard to serve this community," Mrs. Buda Butler, publicity chairman for Texas Hospital Auxiliary, said. "Our town does not exist somebody makes it tick. Somebody has to wind it, keep it oiled and watch the parts. For the most part they are volunteer workers. Yes, like the volunteer worker who built our hospital."

"Remember, you, too, can be a member of The Women's Hospital Auxiliary. Those who share."

Gambling Gains Taxable, Loss Not Deductible

"Those golf, poker, or bridge winnings you collected during 1957 are taxable according to law and should be reported in your Federal income tax return."

"However," according to A. E. Fogle, Jr., of Internal Revenue Service, Abilene, "gambling losses, may only be deducted to the extent of your winnings and provided you itemize your deductions. This is done on page 2 of your Form 1040."

Here are two examples: "During 1957 you had casual gambling winnings of \$300 and losses of \$500. The \$300 winnings must be reported on schedule H, page 3. If you itemize your deductions you may deduct \$300 of the losses on page 2. When you use the Standard Deduction, or the Tax Table, you may not claim any of the losses as a deduction."

Mr. Fogle continued with example 2: "Suppose your winnings were \$500 and losses \$300. The total winnings of \$500 must be reported on Schedule H, and all of the losses may be claimed as a deduction on page 2, if you itemize your deductions."

Sheep Men Must File Reports By April 30th

Emmett Powell, office manager of Eastland County ASC, announced today that April 30 is the final date for filing 1957 sheep wool and unshorn lambs applications for incentive payment.

Producers who have not filed applications with the County ASC Office should do so not later than April 30.

Country Club Will Work, Speaker Says

Dr. James Whittington warned Rotarians Monday that "prophecies of doom" have made many Eastland County progressive steps fail before they got started.

The president of the Lone Cedar Country Club land board was pointing to the hard fight waged by county citizens to build the new country club. He said that despite the fact that the clubhouse is going up and that the country club is now assured of being built (with money in the bank), the sceptics now are saying, "It won't work. It will not have enough money to operate."

Dr. Whittington said those same individuals were the same persons who said it was impossible to get enough people together to build the country club in the first place. He declared that he firmly believes—in fact, has no doubts—that the club will function smoothly. Then he explained a typical budget which could not only keep the club operating, but pay an annual dividend to stockholders as well.

"The country club will be a 'backdoor' to industrialization," the Rotary speaker emphasized. "When we learn to play together we will soon learn to work together."

Storm Signal In Eastland Is Six Blasts

Tornado time is here again. That's a warning that was issued this week by Fire Chief Billy Jack Johnson, who heads the Ground Observer Corp here.

Chief Johnson reminded Eastland citizens that an area alert system has been in use here for the last year. A number of citizens living within an eight mile

area of Eastland have volunteered to serve as spotters. They notify Johnson in case any funnel is spotted. If he has time, Chief Johnson puts men on the job of watching the funnel. Then if it heads for Eastland the fire siren will sound six times. In case time is short and a report is given the siren will be sounded without verification. However, Chief Johnson stressed the fact that every precaution will be taken to see that there is no false alarm.

Chief Johnson said a statewide radio set up has been established to give local volunteers needed information on storm warnings. He also revealed that the Ground Observers Corp will be worked into the program.

"We are still in need of two more sirens here," he stressed. "To effectively warn all of our citizens we need a siren near South Ward and another at the park. That, with the siren we now have at City Hall, would give us a sound warning system. It would also be a great aid to our volunteer firemen."

N. N. Richardson Promoted to Air Force Captain

First Lieutenant Norman N. Richardson, son of Mr. and Mrs. William O. Richardson of 1002 N. 4th, Merkel, will be promoted to the rank of Captain in the United States Air Force effective April 30.

Lieutenant Richardson is currently assigned to Technical Service Section of Headquarters 8th Weather Group, Randolph Air Force Base.

Upon graduation from Eastland High School in January, 1945, Lieutenant Richardson entered McMurry College, Abilene. He entered the U. S. Navy in 1945 and served four years. After being discharged from the Navy, Lieutenant Richardson entered Harbin-Simmons University, and received his BA in 1952. He continued his schooling at Penn State, University Park, Penn., receiving his MS in 1954.

Lieutenant Richardson entered the U. S. Air Force in 1950.

Clean Up Drive Letters Mailed

A letter went out this week to all Eastland businessmen urging them to join the clean-up campaign jointly sponsored by the Civic League and the Rotary Club.

Here is the letter sent to businessmen: "Dear Mr. Businessman: How's business? Better and better, we hope. Of course, there are some things which affect our businesses which are out of our immediate control, such as the cold war, oil imports, and the weather."

"There are certain things which we can do, however, to improve our business and our community. It will stand to reason that what is good for the owner, so we wouldn't want to pass up any opportunity for improvement."

"This year, the Eastland Civic League and the Eastland Rotary Club are jointly sponsoring a drive to clean up, paint up, and fix up our city."

"You and your business can benefit from this campaign, Mr. Businessman, if you will enter into the Clean-Up Spirit and lend your support and cooperation to the campaign."

"How can you help? Primarily, by taking stock of your own establishment and taking the necessary steps to make it look attractive. Here are a few suggestions—"

1. Does your store-front need a new coat of paint?
2. How about the signs in front of your business—Don't they need re-painting or touching up?
3. Is the display-merchandise in your windows neat, clean, and up-to-date?
4. Would you be interested in installing a flower-box to set off your establishment?
5. How about your home—Doesn't it need a good outside cleaning?
6. Start now! Don't wait for

someone else to do it! "As a matter of fact, some face lifting has already begun. Talk to your friends and business associates—see what they are doing—get their ideas."

"Back the campaign! Talk it up! Let's wind up the month of April with a cleaner, more attractive Eastland!"

Car Damaged In Fire Sunday On Halbryan Street

An automobile fire sent Eastland Volunteer firemen to 215 South Halbryan Saturday night. The inside of the car was completely destroyed.

Firemen answering the alarm were Chief Billy Johnson, Fire Police H. E. Basham, Captain Foy True, Chaplain Johnny Grimmes, Capt. E. M. Simpson, Lt. Don Deniel, Lt. D. J. Walker, Reporter Darrell Basham, J. L. Ward, Sam Herring, I. J. Cormack and Jack Woods.

Widows of Vets May Receive Higher Benefits

Four of every five widows of veterans whose deaths were service-connected had elected generally higher compensation payments under the new Servicemen's and Veterans' Survivor Benefits Act. Veterans Administration said the act, which was effective January 1, 1957, permitted widows of veterans whose service-connected deaths occurred before that date to select payment either under the old or the new law, whichever was higher.

At the end of 1957, more than 40,000 widows had elected the new form of payment, while over 24,000 others still were receiving benefits provided by previous laws.

Most of the latter, VA said, were widows whose payments are higher under the old law than they would be under the new act.

VA said widows who make application for the new benefit, but who would receive more under the old law, will be advised against the wrong choice of payment.

EVERYONE APPROVED, NEEDLESS TO SAY—Moscow's man of the hour, Nikita S. Khrushchev, now Communist party leader and premier of Russia, announces his new cabinet to a wintery session of the Supreme Soviet, Russia's parliament, in Moscow. Later, Foreign Minister Andrei Gromyko announced that Russia was suspending all further tests of atomic and hydrogen bombs. The announcement came just after the Soviets completed a series of nuclear explosions and just before the United States was scheduled to begin a long-deferred series of tests in the Marshall Islands of the Pacific.

Has the "garden fever" hit you yet? If not, a few more warm days may bring it on. To some, growing a home garden is a way to relax. To others, a garden is an important part of the family's economic program. If properly managed, a good home garden can mean a sizeable saving on the family food budget. There is no substitute for the quality and the plain down-to-earth good eating that can be obtained in "garden fresh" vegetables from your own backyard.

released a new variety of watermelon designed to fit into even the smallest home garden. This variety has been named the "Bush Desert King" and, as the name suggests, it grows in a bush form rather than in the characteristic vine form. The plant of this melon usually extends from 4-6 feet from tip to tip and measures about 18 inches in height.

Timely Garden Tips
As always — Plan the garden in advance. Develop a complete plan of procedure to follow. Keep the garden small. Give a small garden good care, and you will be amazed at the quality of vegetables it will produce. Make a succession of plantings. Don't plant everything at one time and then stop—this results in over-production for a short time and the supply is gone. Staggered plantings will give a continuous supply of top quality vegetables over a longer period of time. Radishes, mustard, green bush beans, bush squash, and sweet corn are examples of crops that should be planted at least 2 or 3 times during the season.

Lacasa Lines
Mrs. D. B. Raney

Plant a variety of vegetable crops. There are 32 vegetable crops that can be grown in Texas gardens. In order to have a well-balanced garden that includes crops. There are 32 vegetable at least 10 to 12 different kinds of vegetables should be planted. Try one new vegetable crop in 1958—you may find a new favorite. Treat all vegetable seed with a protectant. This is very important this season because of excessive moisture and cool soils. A good seed protectant can help secure a more uniform stand of stronger seedlings. Make a heavy application of organic matter and of commercial fertilizer. Adequate applications will help furnish a quickly-available source of nutrients to the garden vegetables. Obtain seed of adapted varieties. Don't be satisfied with "second best." Use the varieties that have the potential to return the highest yield and the best quality. Plant varieties of vegetables that have been tried and proven adapted to your area. Tomato and pepper plants. There is still time for gardeners to start tomato and pepper plants in plant boxes or pots. Growing his own plants helps assure the home gardener of true-to-name transplants that are free from disease. It also gives him a supply of strong, stocky plants when the weather is favorable for planting. Some good tomato varieties for home gardens are Texto #2, Homestead, and Pritchard, or large size and crisp-fleshed sweet bell peppers, try Yolo Wonder. Watermelon For Gardens Home gardeners with limited space have never been able to grow the large vining types of watermelons. The Texas Agricultural Experiment Station has just

Chasing the Fire Trucks—

... is an old American custom, even an international tradition. It all started when the first fire wagons drawn by hand and horse were invented years ago. This foolish pastime has grown with the years until today it is not only a nuisance but a problem of gigantic proportions. Such a practice costs many lives and thousands of dollars in property values every year. Why do we do it? Nobody knows. Its silly, folks, so let's quit it, thereby leaving the streets and alleys open for the boys who fight our fires.

As predicted in this column of Feb. 27, President Eisenhower has issued an Executive Order which is supposed to tighten foreign oil imports.

However, it falls far short of the need, and is disappointing. The President and his official dealing with this problem express sympathy for the independent oil operator, which is all very well and good, but does not help the situation faced by the State of Texas.

The President's order is based on the voluntary cooperation of the importing oil companies, but three of the largest importers have not cooperated in the past, and there is no good reason to believe they will in the future.

In the Executive Order the "Buy American Act" is applied to petroleum. The Defense Department alone spent \$1,250,000,000 for oil and oil products in 1957. Of this sum, approximately \$335,000,000 was for foreign oil. The "catch" in applying the "Buy American Act" is that it does not apply when purchased outside the United States. It is also difficult to identify foreign oil because it is mixed with domestic oil.

Unless many American industries, including oil, have more protection than they are now getting

from the Government, the extension of the Reciprocal Trade Agreements which have for years sailed through the Congress, are going to have rough sledding.

VA DENIES ERRONEOUS REFUND REPORT

Veterans Administration today denied categorically the report that \$60 million in unclaimed premium refunds awaits veterans who hold or have held World War II GI Life Insurance policies. The unfounded report emanating from Kentucky VA says, has brought a deluge of post card requests for the non-existing dividends. VA said the erroneous report may have started from the recent cancella-

tion of 63,000 undeliverable National Service Life Insurance dividend checks, most of which date back to the 1948 special dividend which was paid in 1950 to policyholders or ex-policyholders for time in service during World War II. The checks, which total less than \$3 million, were returned to VA because the Veterans had moved without leaving a change of address notice with the Post Office. GI Life Insurance checks have always been forwardable if a change of address notice had been filed with the Post Office although forwarding of other VA checks was not permitted before January 1, 1958, the agency said. Although the checks have been cancelled VA said the money is being held in a special fund and will be paid to eligible veterans as they are located. More than 99.6 percent of eligible veterans applied for and received the Special NSLI dividend VA pointed out. The agency added veterans should not write VA unless they are certain they did not receive it.

AROUND RANGER COLLEGE CAMPUS

By Ranger College Journalism Class

Personality of the Week

By Elpidia Gonzales
Wanda Jean Payne has the honor of being this week's Personality of the Week. This fine eighteen-year-old freshman is the daughter of Mr. and Mrs. O. C. Payne of Carbon.

As her major, Miss Payne has selected education. She plans to attend North Texas State College to complete work for her degree.

She has become known as one of the most active girls on the Ranger College campus. In addition to being a checker at the school cafeteria, she has spent many hours of arduous work in the college book store, work for which she deserves great praise. She was recently selected by the faculty as one of the freshmen representatives for Who's Who in the college yearbook. She is a member of the Honor Society, Rangeans, Debs, chorus, and Masquers, drama club, and serves as typist of the college yearbook. She took an active part in the road block that the college held for the March of Dimes.

However, Wanda's versatility was revealed before she entered college. She graduated from High school as salutatorian of her class. In addition to being an honor student, she was prominent in other fields. She was a class officer for four years, basketball captain one year after having played for four years, and a member of the all-district team. She also played volleyball and was a cheerleader.

One seldom finds such a pretty, blonde-blue-eyed young lady with so many admirable traits as Wanda. She has depth of character, and yet, she possesses a marvelous sense of humor. She well deserves the honor of being a personality favorite.

A student's notebook is a special book used for taking notes and keeping papers that the student does not wish to lose. Every available space is used for something. The outside of the front and back cover is used to keep score on cat and rat games, tic-tac-toe, etc. More endearing information, such as dates and telephone numbers, is kept on the inside of the cover. Ball game scores are placed either on the outside or the inside, depending on the quality of the home team. The first page is the assignment sheet. Then there are some old assignments that have been completed. Graded test papers

When Distance Is Always Tempting!

Take a new Cadillac—point its hood toward some distant destination—and watch what happens!
We would be willing to wager that day's end would find you far closer to journey's end than you could ever have imagined!
We say this because we know how wonderful the miles are when they pass beneath the wheels of a new Cadillac—and how tempting distance is when seen through the windshield of the "car of cars".
First of all, imagine how comfortable and rested you would be! The seat-cushions are soft and deep and perfectly contoured. The steering wheel is ideally positioned . . . and the car is wonderfully spacious.
Then consider how easy the car is to handle! It is incredibly agile and responsive—and wonderfully smooth and level of ride. In fact, if you have selected the extra-cost option of Cadillac's air suspension, you can scarcely detect the presence of the road.
And think of your pride and contentment! The very knowledge that your motor car is so highly admired and so widely respected adds its own reward to each and every mile.
You ought to try it soon. Your dealer will be happy to explain the virtues of Fleetwood coachcrafting—and to give you the facts on every model, including the exclusive Eldorado Brougham.

Chapel Program Is Presented by Taylor Students

Terry Treadwell was the announcer for the chapel program given in the West Ward auditorium recently by the students of Mrs. A. F. Taylor who attend West Ward.

The program was begun by the singing of the "Star Spangle Banner" and the flag salute. Following the salute piano solos were played by Lela Lee, "Junior Prom" (Eckstien); Sussie Sneed, "Old Mac Donald" (Thompson); Marilyn Fagan, "Mary Had a Little Lamb." Linda Ann Perry sang "I Have a Gray Little Kitty" accompanied by Mrs. Taylor at the piano.

Susan Coleman and Lenette Dorsey played two piano duets of "On Wings of Song" (Schann) and "Peek a Boo" (Schann). The duets were followed by piano solos of "Comrades March C" (Teike) by Sherry Jo Butler; "Flow Gently Sweet" (Afton) by Linda Ann Perry; "Taps" (Englemann) by Terry Treadwell. Karen Green, Marsha Treadwell and Terry Treadwell presented a piano trio of "The Robins Lullaby" (Krogman).

Attending the program were friends, parents of the performers, students and faculty of West Ward.

Wharton Goes To Hardin-Simmons Univ. Next Fall

Hardin-Simmons University landed one of West Texas football's prize catches this week when David Wharton of Ranger indicated that he would play football for the Cowboys next fall.

Wharton, a 5-11, 170-pound fullback and a standout in two other sports, will graduate from Ranger high school this spring. He became a prime college prospect last fall after averaging 11.2 yards per carry and being named to the Class AA all-state team. H-SU head coach Sammy Baugh has indicated that he plans to convert Wharton to a halfback next fall.

Wharton lettered four years in football, three in basketball and three in tennis and was named as the outstanding football player of the Central West Texas area this fall by the Abilene Reporter-News. A captain of the 1957 team, Wharton was on the All-District 7-AA squad last fall. The Bulldogs won regional in 1955 and lost in the second round of state play-offs in 1957.

Wharton is now serving as president of the student council and is considered an outstanding student. "Everything I have seen at Hardin-Simmons I like," commented Wharton. "I consider it a privilege to be able to play under Sammy Baugh and his staff." Baugh commented, "We are very happy to have him and I think he will make us a fine boy."
