

HEAD FOR TEXAS HARVEST — N. R. Hamm stands on the lead truck of his long line of combines to give the highball sign starting the outfit off to Vernon, for the start of the wheat harvest. The outfit as it left Perry, Kas., includes ten 14-foot self-propelled combines, on trailers pulled by 10 trucks; four trailer houses, equipped for sleeping and dining; a maintenance truck with electric light plant; supply machine; gasoline, water, pickup trucks, and two motor cars. Twenty-seven persons make up the harvesting crew, which will work north from Texas into the Dakota wheat fields. (AP Wirephoto)

Arabs Expect Victory Soon In Jerusalem

Jews Claim Hospital Is Being Shelled

By The Associated Press

The battle for Jerusalem roared on today. A Jewish communique said the Arabs were shelling the Hebrew University and the Hadassah Hospital, strongpoints held by the Army of Israel. The Jewish Army said it had captured Mt. Zion and broken through the nearby Zion gate and raised the months-long siege of 1,700 Jews in the old walled city. Daniel de Luce of the Associated Press reported from inside the walled city that the British-trained Arab Legion of Trans-Jordan and Arab volunteers were fighting inside and outside the walls. He said the Arabs have cleared away nearly all the Jews to the north, east and south and struck deeply into modern Jerusalem to the west. Truce efforts failed. Arabs said the Jews were short of food and water.

Premier David Ben-Gurion decreed a state of emergency in Israel. Egyptian planes bombed Tel Aviv for the sixth day running. The mayor asked the U. S., Russia and the United Nations to stop Egypt from bombing Tel Aviv.

Egypt announced her troops in southern Palestine occupied the Arab town of Beersheba, southernmost limit of the Holy Land of Bible days. The defense ministry said Egyptian troops in a 10-hour battle captured the fortified Jewish settlement of Deir Suneid, guarding the road to Tel Aviv.

National Guard Is Patrolling Waterloo

Violence Breaks When Picket Killed

WATERLOO, Ia., May 20. (AP)—Nearly a thousand national guardsmen were maintaining order in this northeastern Iowa city of 52,000 today after violence broke out last night when a CIO Packinghouse Union picket was shot to death.

The defendant is 55-year-old Fred Lee Roberts, a non-union night cleanup man at the plant who claimed he sought to shoot into the ground when pickets stormed his car.

While CIO-UPWA officials called on their 4,500 striking members to "mourn the death of William J. 'Chuck' Farrell 40, and the wounding of Margaret Draheim," Rath officials expressed "genuine shock and deep regret over the whole incident."

A. D. Donnell, spokesman for the Rath company, challenged union contentions that a supplementary court order the firm obtained yesterday afternoon led to the

Latest Peace Bids Appear Deadlocked

WASHINGTON, May 20. (AP)—The peace-exchange between Russia and the United States appears today to be hardening into the same kind of deadlock that has blocked progress on all other issues involving the two great powers.

Moscow's latest declaration—a Tass news agency dispatch evidently reflecting official Soviet views—represents the Soviet Union as standing firm that any negotiations undertaken should be on a two-power basis, covering a range of subjects from atomic energy to human rights.

By contrast, Secretary of State Marshall has made clear that any settlements which Russia is prepared to reach on major issues must be sought through the United Nations, the Council of Foreign Ministers or other international agencies which have been grappling with these issues for the past two years or more.

American officials are inclining more and more to the attitude that, as one highly-placed authority put it, Russia is embarked on a "cynical attempt" to build up world hopes for more peaceful relations between East and West. Actually, they maintain, the Soviets are unwilling to make the practical compromises essential to real improvements.

There still is speculation here, however, that the State Department may yet send another note on the situation to the Kremlin. The purpose of this action would be to ask Soviet Foreign Minister Molotov what specific proposals his government has in mind.

City Has New Stop Signs

Several new stop signs have been erected at intersections in the residential area which handle large amounts of city traffic. Police Chief Pete Green announced this morning.

Full stops are required on Settles Ave. at the 11th Place and Washington Blvd. intersection and on Marsha Street at the same crossing. Stop signs also have been installed on South 18th street at Main and on Scurry street at South 18th.

The signs were included on a list of recommendations submitted by Green to city commissioners recently suggesting additional traffic control measures. Under authority of the city traffic ordinance already in force, the police department may erect stop signs as it deems necessary. Green said he was calling on all local motorists for full cooperation in observing new regulations. Penalties for violations will be the same as already in force for other types of traffic signals and markers.

LEWIS WALKS OUT — John L. Lewis, United Mine Workers president leads a group of union officials as he walks out of negotiations with the soft coal operators in Washington after a vote to seat Joseph E. Moody, president of the southern producers association, as a member of the conference. (AP Wirephoto)

BROWNING DEFENSE

Seeks To Offset Girl's Testimony

COLORADO CITY, May 20. — The defense sought today to offset damaging testimony of a 10-year old girl against her father, Albert Browning, 32, who is on trial for the shooting of his wife, Viola, 37.

Mrs. Browning was shot above the eye at the home of her mother-in-law, Mrs. Elma Browning, in Snyder on Feb. 8. How she came to be shot was a pivotal point, apparently, as the defense — with state permission — had Royal Kelley, Abilene police chief and former Texas highway patrol sergeant, make tests to determine at what range the death weapon could be fired without leaving a powder burn.

"Little Ila Jean Browning, who said that in none of her visits to her father in jail had he ever asked her 'to lie about anything,'" quoted her father as having threatened her mother and as saying "I am going to kill you." She added that on the night of the slaying her mother had said to her father "you are not going to beat me up this time."

From Sheriff Lloyd Merritt, Snyder, came the testimony that the defendant told him following the shooting that "this didn't just happen tonight, but has been going on for 21 years."

Viola Browning was an excitable woman, Dr. A. W. Browning, Fluvanna physician, said on the stand. She ran away repeatedly, but Albert would bring her back, he said. On one occasion he said he found her in a jealous fit threatening to kill another woman, "Albert, the children and burn the house down." He believed she was able to carry out the threat.

Jephtha Landrum, Jr., Fluvanna, supported this line of testimony, recalling how Mrs. Viola Browning had fomented difficulties between neighbors and friends by jealous suspicions and threats.

Mr. and Mrs. Browning had two gun play at least on two other occasions, Dennis Carl Browning, 19, eldest child said. The gun belonged to his mother, he said, but his father had gone with her to buy it because she was afraid to stay home alone.

On one occasion when his parents were quarrelling ("They always had trouble"), he said his mother produced a gun and he went between them. On another, after he had fought with his father for 30 minutes, his mother produced the gun again, he said.

Scars on his mother's head, object of repeated questions by District Attorney Ejdon Mahon, came from a blow over the head with a rub board. "Who hit her?" asked

Youth 'Officials' Set Good Example

ZANESVILLE, O., May 20. (AP)—The unexpected happened when high school seniors took over city offices for the day yesterday. Townsfolk expected the seniors to have fun "playing" mayor, police chief and other city officials. They had fun all right—and the adult officials had red faces because.

Jack Harker as police chief staged a series of gambling raids. "Mayor" Aubrey Sibbring and "City Solicitor" Frank Shurtz, Jr. went along.

They confiscated a jar with gambling slips in one place, broke up a poker game and found a pull tab board.

Harker didn't file any charges, although he claimed he had full legal authority to do so. While this was going on, "Fire Chief" Charles Cooper, "City Auditor" Henry Abele and "Safety Director" John Montgomery tried to condemn the high school building as a fire trap.

The real school officials, Superintendent Donald Summers and Principal Ralph Storts, managed to forestall this after an hour and a half conference.

DISPUTE QUIETED BY AGREEMENT

Super Carrier Proposal May Reopen AAF-Navy Argument

WASHINGTON, May 20. (AP)—The proposal to build a super-size aircraft carrier may reopen an Air Force-Navy argument supposed to have been quieted by high command agreement two months ago. Some high Air Force officials (take a dim view of the Navy's plan—backed by President Truman and Secretary of Defense Forrestal—to construct a 65,000-ton, flush-deck carrier from which long-range planes could be launched. But what form the Air Force opposition may assume is not yet clear. The nub of the developing controversy is this:

The Air Force contends that the assignment of missions worked out at the high command conferences with Forrestal at Key West, Fla., in March specified two things: 1. The primary function of the Air Force is strategic air warfare (defined as the destruction of factories, sources of raw material, rail and highway systems and other things making up an enemy's war-making capacity). 2. The Navy's primary air function is support of a "naval campaign" (defined as an operation or series of operations by ships, planes and marines to gain, extend or maintain control of the sea.)

Despite this, the Air Force maintains that a carrier of the size planned—with an unobstructed flight deck more than 1,000 feet long—undoubtedly would be used to launch big planes, possibly carrying atomic missiles as well as conventional bomb loads, to strike at strategic targets. This, the Air Force feels, would result in the Navy's encroaching on its assigned duty. For this reason, it is understood that Air Force representatives at sessions of the joint chiefs of staff (Army-Navy-Air Force) have declined to support the idea of super-carriers.

BLANK OUT CLAIMS NOT UPHELD

Martin Is Given 15 Year Sentence For Robbery Here

DALLAS, May 20. — Federal Judge T. Whitfield Davidson sentenced William L. Martin, 29, to 15-years in federal prison for robbery of the State National bank in Big Spring.

Martin did not deny robbing the bank of \$2,149 after he stuck a pistol in the window of T. S. Currie, Jr., and commanded him to hand over "your big money." However, he claimed his mind was a blank concerning the incident.

Approximately half an hour after he had forced W. E. (Shorty) Davis, taxi driver to carry him out of town, Martin ran into a host of officers east of town as he sought to double back into Big Spring.

All the funds were recovered. After a federal district court jury had found him sane at the time and thus guilty of bank robbery, Martin addressed the court:

"Your honor, have you heard a case in which less motive was presented? I have told you all about which I have any conscious recollection. There was no motive for me to commit robbery..."

Judge Davidson then passed the 15 year sentence.

Martin had complained of periods of blanking out, but Dr. Henry S. Colony, Fort Worth, U. S. Public Health Service psychiatrist, said Martin was accountable for his deeds. For one thing, he said, Martin told of seeing a pistol descending on his head during a fight while he said he was a soldier in Germany. Blackouts resulted from the blow, Martin claimed. This was one way he said he knew Martin was not sincere. In combat cases who cannot remember a shell explosion may be suffering brain injury, but those who can are suffering from hysteria. The pattern is universal, he said, adding that Martin was engaging in "willful forgetting" and that his suicide attempts and beating his head against his cell were "temper tantrums" much the "same thing in an adult as when a babe in arms holds its breath to attract the mother's attention."

The jury was out for only 30 minutes before it returned its verdict. Jester's Barber Named To Board

AUSTIN, May 20. (AP)—Gov. Beauford H. Jester's barber, Elgin O. Burrer of Austin, today had been named by the governor to the State Board of Barber Examiners. The appointment was announced yesterday, effective June 1, to fill the vacancy created by the resignation of J. H. Francis of Longview.

Gift Packages Set Parcel Post Mark

BERLIN, May 20. (AP)—Gift packages arriving in Germany from the United States at an average rate of more than 1,000,000 a month have established a new world parcel post record, the American Military Government said today.

BITTER CLIMAX IN OREGON

Stassen Says Combine Spends \$250,000 To Seek His Defeat

PORTLAND, Ore., May 20. (AP)—Oregon's bitterly-fought Republican primary campaign drew to an acrimonious close today—last of the presidential primary trials before next month's nominating convention.

Gov. Thomas E. Dewey of New York and Harold E. Stassen of Minnesota, who for three weeks have made Oregon the nation's foremost presidential battleground, brought their campaigns home at a gallop.

Stassen publicity charged an "eastern combination of Taft-Dewey forces" was spending \$250,000 in Oregon to stem the Stassen election tide which started in Nebraska and Wisconsin.

The New York governor retorted that this represented "reckless

CLASS IS 46TH

High School Graduation Set Tonight

The 46th class of the Big Spring Independent School district — 152 strong—will be graduated today.

In exercises set for 8:30 p. m. in the municipal auditorium, seniors will hear W. R. Smith, vice-president of Abilene Christian college, speak on "Living Life to the Full." Also they will hear from two of their own numbers whom they selected—Lynn Porter, daughter of Mr. and Mrs. A. A. Porter, speaking on "The Time is Now" and George Oldham, Jr., son of Mr. and Mrs. George Oldham, Sr., speaking on "The Race of Life." W. R. Dawes, assistant high school principal, will introduce the graduates and Dan Conley, school board member and father of a member of the graduating class, will present diplomas. Special awards will be announced by W. L. Read, principal.

Loyce Howard, daughter of Mr. and Mrs. E. C. Howard, will sing Gilbert Spross' "Let All My Life Be Music," and Eddie Houser, son

O'Daniel May Give Decision On Race

FORT WORTH, May 20. (AP)—Senator W. Lee O'Daniel is scheduled to make a radio speech tonight at 8 o'clock and is expected to reveal his political plans.

The Lone Star radio chain said the junior Texas senator had purchased 30 minutes of time and O'Daniel said yesterday that his speech would be of a political nature.

British Won't Give Israel Recognition

LONDON, May 20. (AP)—Britain plans no reply to Israel's request for recognition, received from Foreign Minister Moshe Shertok. Acknowledgement of the request would imply Britain recognizes the existence of the Jewish nation, a Foreign Office spokesman said today.

Chiang Elected Head Of China

NANKING, May 20. (AP)—Chiang Kai-Shek became China's first constitutional president today, and he called it a "turning point" in the history of this ancient land. Wearing a Chinese gown, the 59-year-old political and military leader was inaugurated before an audience of some 3,000 in the great hall of the national assembly.

Sworn in at the same time was Gen. Li Tsung-Jen, vice president elected for his outspoken demands for governmental reform. Li's election climaxed a bitter, prolonged fight in the national assembly in opposition to the Kuomintang, the governing party.

Chiang, who has guided China's destiny in one capacity or another for the past 20 years, pledged "complete allegiance" to the new constitution. The national assembly and legislative yuan were chosen under terms of that document. Chiang and Li then were elected by the national assembly.

"This," said Chiang in his inaugural address, "is a turning point in the history of our nation. For me, personal success or failure—may even life or death—no longer enter into my consideration. My only wish is to serve the state and my people."

British Approve Czech Fugitives

LONDON, May 20. (AP)—Eight fugitive Czech airmen who arrived here from their homeland last night in a "borrowed" plane were granted home office permits today to stay in Britain for six months.

A spokesman for the eight, who made up the fifth such plane flight of persons fleeing Czechoslovakia since the Communist coup in February, said: "We decided to leave Czechoslovakia because the principle of free living had been taken from us."

All of them refused to give their names for publication. "We still have parents living in Czechoslovakia," the spokesman said.

Baptists Discuss Church And State

MEMPHIS, Tenn., May 20. (AP)—Southern Baptists debated one of their favorite subjects today—separation of church and state.

The voting for new officers of the Southern Baptist convention waited until late afternoon while religious education in public schools was discussed. Other church-and-state relationships also came up.

The subject was tied to the report of the committee on public relations, supported by four Baptist conventions including the southern group. During the past year, the committee has been active in opposition to formal religious instruction in public schools. It has also promoted organization of Protestants to work for more separation of church and state.

and flagrantly untruthful statements," and "desperate, irresponsible, eleventh-hour tactics." His campaign expenses, Dewey said, "are not a tiny fraction of the ridiculous sum he mentions, and he knows it." The Minnesota reference to a supposed join-up of Dewey and Senator Robert A. Taft of Ohio was labeled "unfounded and false." Stassen forces replied late last night through Stassen headquarters here with the statement: "We are willing to rely upon the good common sense of the people of Oregon to decide whether or not the amount of eastern money and the number of New York state employees, from the superintendent of banking on down, which are be-

EIGHTH GRADE PROMOTION

Good Human Relations Called Important Youth Objective

Learning to live with other people is one of the most important objectives for youth to seek. A. W. Dillon told eighth grade students at promotion exercises Wednesday night in the Municipal Auditorium.

Dillon, whose subject was "Your Exploratory Years" said that it is also important that boys and girls discover "ability to do things" but referred to his first point as the prime essential for success.

Certificates of promotion were presented to 183 eighth grade students by H. W. Smith, member of the school board.

"Why We Need Schools" was the topic for a talk by Joy Williams, daughter of Mr. and Mrs. William C. Williams. She appeared on the program as high ranking girl in the class. Alan Conley, high ranking boy, who is the son of Mr. and Mrs. Elmer C. Conley, spoke on "The High School. A Training School in Democracy."

Special music on the program was provided by Jackie Marchant, daughter of Mr. and Mrs. A. A. Marchant. She presented a piano solo, "Rhapsody" by Eckstein.

Processional and recessional were played by Mrs. Alice Willoughby, eighth grade music teacher. W. C. Blankenship, superintendent of schools, presided, and the invocation was pronounced by the Rev. Marvin Clark, pastor of the Trinity Baptist church, and the benediction by the Rev. Henry C. Thomas, pastor of the Church of the Nazarene.

Through error in transcribing names of the eighth grade class, the name of James Daniel was inadvertently omitted in Wednesday's issue of the Herald.

Coahoma Sets Eighth Grade Promotions

Diplomas of completion of the eighth grade will go today to 22 Coahoma students in exercises set for 8:30 p. m. in the school auditorium.

Glen E. Hargett, minister of the Coahoma Church of Christ, will deliver the address to members of the promotion class. Honor certificates will be presented by Morris S. Ledger, elementary school principal.

The Coahoma school band will furnish the processional music and will play a number. Supt. M. R. Turner announced. The invocation and benediction will be by the Rev. T. Marvin McBrayer, Methodist minister.

Those who will receive their certificates are Royce Acuff, Bobbie Adams, Billy Ray Brooks, Elvon DeVaney, Evelyn Diez, Janice Duncan, Dean Halliday, Ted Halliday, Emilio Hernandez, Jean Hernandez, Henry Hicks.

Jean Knight, Pauline Ray, Bob Read, Corrine Starr, Jean Stephens, Hugh Wallace, Walter Woodson, Carl Wyrick, Bobby Baker, Clay Vinson, Gary Faye Harrington.

SOIL CONSERVATION

Sheriff's Posse Fights Erosion

Dr. M. H. Bennett, president of the Howard County Sheriff's Posse Association, made application last week to the Martin-Howard Soil Conservation District for technical assistance in controlling wind erosion on the Posse show grounds 3 miles southwest of Big Spring. The association started drilling sodan Monday on the blow area around the race track, polo field and rodeo arena to provide a protective cover for seeding native grasses this fall. The area will be planted to grass to give a permanent cover to the land and stop damage to the show grounds caused by wind erosion.

Abruzzi rye on the W. D. Miller and Lee Warren farms in the North Big Spring soil conservation group is better than knee high and headed out. Miller planted rye and vetch last fall on his farm 2 miles north of Big Spring to control blowing on a shady field. In spite of the drouth the cover crop has made good growth and protected the land from blowing.

Warren planted his rye and vetch in hegarri stubble last fall and has grazed the field since October. A small area protected from grazing will make grain. Although the grain yield on the two crops of Abruzzi rye will be light because of the drouth, the land has received adequate protection from blowing. Crop residues from the rye returned to the land will improve the soil by adding organic matter.

T. L. Griffin, rancher-cooperator with the district in the Colorado River Ranch Group is putting 90 acres of cropland on the contour this year. Griffin will farm his land on the contour as a part of his coordinated soil conservation program to hold water on his field and prevent soil erosion. He had the help of the Soil Conservation Service in laying out his contour row system.

Two stock tanks were completed last week in the Vincent Soil Conservation group. Guy Guffee enlarged one of his stock tanks by 2200 cubic yards on his ranch two miles north of Vincent and L. M. Barr completed a 3000 cubic yard

tank on his farm two miles south of Vincent. The tanks were built to provide better watering for livestock on these places.

Construction of a 3000 yard stock tank started last week on the farm of J. C. Shepherd who lives 5 miles north and two miles west of Vincent.

H. B. Reagan also completed a 6,526 cubic yard stock tank on his place in the Midway soil conservation group 7 miles southwest of Big Spring.

Bill and Lee Reed, rancher-cooperator in the North Concho River Soil Conservation district started shipping muttons and black face lambs this week. The muttons and lambs are in good shape. The Reed Brothers have improved their range conservation measures designed to increase the grass cover and litter of their pastures.

Steve Currie, rancher-cooperator who ranches 5 miles southeast of Garden City, is getting good grazing on his irrigated pasture. Currie started grazing the pasture of 68 acres with 95 cows and 30 calves a month ago. He divided the pasture and grazes half of it while irrigating the other half. His stock are in good shape because of the high quality forage provided by the irrigated pasture. Currie plans to use a four pasture system of grazing, when all of the irrigated land is established to grass. Using this system he will graze one pasture, water one, and rest two pastures each week.

Manufacturer Won't Give Up Tax Fight

NEW YORK, May 20. (AP)—Vivien Kellems says she is going to "sue everyone" in her war on the withholding tax law—including a bank which turned over \$1,685 of her money to the government.

The Westport, Conn., manufacturer told a news conference yesterday that the Internal Revenue Bureau's forced collection of the money was "misappropriation of funds."

"Don't think I am going to back down," she declared. "I'm going to take every legal step open to me."

Miss Kellems, demanding a test of the constitutionality of the withholding tax law, said she is ready to go to jail to get one.

She said she could be sentenced to jail for 40 years and fined \$40,000 for refusal to withhold taxes from each of the 40 workers in her cable grip manufacturing company at Westport.

"I shall not collect any withholding taxes unless the law is taken to the Supreme Court and declared constitutional," she continued. "I think it's stealing to go into any one's pay envelope."

Miss Kellems held the news conference in her home here after the Westport Bank and Trust Company notified her it had given the money to the government to satisfy a lien slapped on her bank account.

The \$1,685 represented \$837.70 in withholding taxes due, a 100 per cent penalty and \$10 interest.

She told the conference the government was violating the constitutional amendment against involuntary servitude when it sought to force her to spend time and money collecting taxes.

Employees of the company, with her help, saved enough money to pay their income taxes for the first quarter-year last March 15, and now are saving for the next installment due on June 15, Miss Kellems said.

COMMENCEMENT
Stevenson Will Give Address At Colorado

COLORADO CITY, May 20.—Former governor Coke Stevenson will deliver the commencement address at Colorado City high school on this evening, May 27, when 73 graduates will receive diplomas here; it has been announced by superintendent of schools, Ed E. Williams, and high school principal, H. M. Morton. Also part of the program will be the choral club, under direction of Mrs. Bill Mathews, the choral readers, coached by Miss Gladys Miller, and the high school band, directed by R. P. Rose.

The annual commencement sermon will be preached by the Baptist pastor in the First Baptist church at eight in the evening of Sunday, May 23. Rev. R. Y. Bradford, pastor is the father of the class of '48 salutatorian, Willis Bradford, whose average for this school year was 96.9.

Valedictorian of the class is Joe Berman, son of Mr. and Mrs. Philip Berman. His average was 97.8. A wee fraction behind those two honor students was Roy Davis Coles, Jr., son of county superintendent and Mrs. R. D. Coles, who finished third with an average of 96.6.

Orchestra Booked For Legion Dance

A return engagement for Jack Free and his orchestra has been booked for Saturday evening at the American Legion club house.

While the dance is open to the public, Post Commander D. L. Burnette, Jr. said that any Legion member who brought an application for a new member or renewal (together with the \$4 membership fee for either of these) would be admitted with his wife or date without cost. Arrangements are in charge of Burnette. The dance starts at 9 p. m. Saturday.

From where I sit... by Joe Marsh

Take Your Choice, Neighbor!

The missus—who writes our Woman's Column in the *Clarion* under the name of "Nancy Gale"—gets letters about recipes, advice on etiquette, home management, etc.

One letter she got last week was about a recipe she published for Welsh Rarebit—made with tart cheese, Worcestershire, and a cup of sparkling tangy beer. "Turned out great," says her correspondent. "But you didn't mention what beverage to serve with it. Should I serve beer? Cider? Iced tea?"

The missus' answer was simply:

"Any beverage your guests prefer. You don't have to serve cider—any more than you have to serve beer...but it's often courteous to let guests have a choice."

From where I sit, that simple answer applies to more items that Welsh Rarebit. In a world where everyone has different tastes and ideas—we should recognize those differences—and never deny the right of choice to anyone!

Fair Reports Might Help

Fallacies crop up now and then in American foreign policy, and inconsistencies seemingly abound, but none, we hope, which is so predicated on such a false notion as the Russians seem to have about Henry Wallace.

Typical of this is a comment in the newspaper *Moscow Bolshevik*. In answer to a definition on the different political parties in the U.S.A., the *Bolshevik* said that "an important feature of the present election campaign is that there is a third party. This is the new independent political party standing for defense of the democratic freedom of the American people. Wallace is the champion of the Roosevelt course of American policy. In his speeches Wallace has shown himself the champion of peace and security of the people."

The impression is clearly conveyed in the article in its entirety that Wallace is a widely popular figure in the United States and his chief champion of peace.

Despite the fact that critics heap invectives upon his head and call him everything from an out-and-out communist to a starry-eyed dreamer, Wallace has served a useful purpose in keeping alive the second side of the issue and at the same time the democratic elixir of free discussion and debate. But to assume by the widest stretch of the imagination that Wallace possesses a major popularity to distort the facts. Certainly he has his following, but if the Soviets think it is of great significance, let alone dominant, they are under great delusion. Perhaps more realistic reporting and less propaganda in the Red press would be helpful.

The Harvest Is The Pay-Off

Big Spring turns out another crop from its finest field—its children—today.

The occasion is the graduation of 152 seniors from high school.

In a sense, it might be said that this is the annual harvest, yet this is hardly accurate. The harvest is a continuing process; one that started years ago and which will reach its peak in the years ahead.

As a matter of fact, the harvest is the best gauge of the effectiveness of the schools. Some might say that the number of students who go off to college determines how well the secondary school has functioned. Others may reason that how well those who go to college fare in their grades is the real criterion of the high school's work. Still others will say the number getting jobs determines the usefulness of the school.

Now none of these are right. The thing which will truly reflect the job being done is how well, now and in years ahead, these graduates take their place as contributing and creative members of society. If we have shown them how to be more active in service to others and less selfish than we; how to be able to intelligently utilize time that has been placed in their hands; to gain happiness as well as a livelihood from their vocations, then the harvest will be great. If making grades or dollars is the only ultimate achievement, we have failed these young men and women—and they will return the favor.

Tarts, Darts And Dashes

Many a person's mind has been closed for years, but not for repairs or alterations.

Most of us find that it is a much easier job to talk ourselves into trouble than out of it.

A skirt is a garment which is always too short, too long, too tight, or too loose.

Give a child a pad and pencil and he will soon learn to draw—on the walls.

Truth may be stranger than fiction, but it isn't nearly so marketable.

Today's Birthday

SIGRID UNDSSET, born May 20, 1882, won the Nobel prize for literature in 1928. The honor was based largely on her books about the Middle Ages. Since that time she has become a Roman Catholic and her books more often have modern themes. Some critics say she has been less effective with modern settings. A Norwegian, she came to America when driven out by Nazis in World War II. Her books were burned in Hitler Germany.

Texas Today— Spirited Newswoman.

By WILLIAM C. BARNARD

Mrs. Lee J. Rountree, spirited, grey-haired publisher of the Bryan Daily Eagle, lives in a goldfish bowl setting with an office framed by the big front window of her modern newspaper plant.

Thus, she spends much of her day waving and talking to passers-by.

"I like people," she explains. "Some women like diamonds—I like people. I like to think that everything I do in the newspaper business is a background for some human good."

Mrs. Rountree is a woman of strong, kindly features; a dynamic person of disputed age. "Most women don't give their right age—I won't give any age at all." Here is a record unmatched by other Texas newspaperwomen. This month she celebrates her 25th anniversary as publisher and managing editor of the Eagle.

Her day begins at 6 a. m. and she works in all parts of her plant, writes a daily column, handles her own mail. The newspaper is her life; she has no children. "I'm all alone—an old grey wolf."

When her husband, a widely-known newspaperman, dropped dead in 1923, Mrs. Rountree became head of the Eagle "to carry on for Mr. Rountree and to prove a woman could succeed."

"I have always kept my business dealings on a business basis," she said. "Too many women rely on sex. Man or woman, you have to give service. Any person going into the newspaper business should have inside him the desire to give service." She paused, thumped herself on the chest over the heart region, and went on:

"If a fellow doesn't have it here, he doesn't belong in the newspaper game."

Mrs. Rountree winds up her busy office day at 7:30 p. m. but doesn't waste much time sleeping. "I have my best thoughts at 3 a. m."

She has made a real place for herself in the civic life of the town, has had a fling at state politics and even a brush with the national variety.

She served a term in the Texas legislature during Gov. Ross Sterling's administration. She was vice chairman of the Texas Democratic delegation to the national convention at Houston in 1928, and seconded the nomination of Jesse Jones as president. Mrs. Rountree is past president of the Bryan Chamber of Commerce, the first woman to hold such an office in this state. Born on a big ranch in Llano County, she lived in Williamson County before moving to Bryan.

The volatile publisher doesn't smoke, drink or swear—says neither is necessary in getting out a newspaper. As for liquor: "I have enough pep without steaming it up with alcohol."

When, recently, she purchased a \$73,000 color press, an acquaintance asked: "Why would you buy a thing like that at your age?"

Mrs. Rountree pointed to a big oak tree across the street from her office.

"The fellow who planted that tree," she replied, "didn't live to see it grow, but it shades a lot of people."

The Nation Today—

U. S. Policy Reasonable

By JAMES MARLOW
WASHINGTON, May 20.—Why has this country so far thrown cold water on the idea of sitting down with Russia to work out world peace?

Maybe this will explain it. In the past week the Russians—Premier Stalin and Foreign Minister Molotov—have expressed willingness to sit down and talk with us.

President Truman froze up. So did Secretary of State Marshall. And Tuesday the State Department chilled the idea some more. Why?

Put in plain language, this is what the United States has told Russia:

We're not going to talk with you head-to-head on things that affect other countries or the world.

If you want to talk about something that affects just you and us—like trade between us—that's all right.

But if you want to talk about things affecting other countries, then they're going to take part in our talks.

(For example: Any talks about a peace treaty on Germany would have to include us, Russia, Britain and France. All have an interest in it.)

And, further, this country told Russia:

There are all kinds of machinery—like the United Nations—already set up for talking about world problems and trying to settle them.

If you really want to settle them, then do the settling inside the United Nations or through whatever machinery covers the problem.

It's New Era

LA PORTE, Ind. (U.P.)—This city of 18,000 is convinced motor cars are here to stay. Street Superintendent H. F. Hoelcker announced that the last municipally-owned horse that hauled trash for the street cleaning department has been sold.

WATCH THIS — PINPOINT ACCURACY!

Washington Merry-Go-Round—

Rightists May Have Killed Polk

By DREW PEARSON

WASHINGTON.—George Polk, the American news commentator, whose bullet-pierced, bound-up body was found in Salonika Bay, wrote me a letter before his death about his troubles with the Greek government. Based on this letter and otherwise, evidence points to the probability that rightist forces within the government were responsible for Polk's murder.

In the first place, only the Greek government had access to his broadcasts. Only they know how critical he had been of Greek rightists attempts to sabotage the American reconstruction program. The Greek guerrillas, on the other hand, had everything to gain from the interview with Polk which he sought.

In addition, all sorts of obstacles had been placed in Polk's path. The Greek government did not want him in Greece and did everything possible to get him out. Here is a sample of Greek obstruction:

"During the past four days, I've been trying to make arrangements for flying to Salonika," Polk wrote. "I've been to the foreign ministry press section, to the Greek air force headquarters, to the Greek commercial air line, and to the government air travel priority department. Today, after four days of leg work and innumerable telephone calls, I have not succeeded in making any arrangements."

"Everything is tied up in red tape. The airlines will not say whether they have a seat or not. First, I've got to produce a priority but I can't get the priority until I give the seat number and flight number and date of the plane I will take. So, back and forth I've been like a tennis ball. The plan is to make me fret myself into a tizzy—or perhaps give up the trip. Yet if I made an issue of all this red tape, everybody would blantly say that Polk is simply impatient."

POLK WAS A BATTLER

George Polk was fighter, whether as newspaperman or in the service of his country. During the war as a Navy pilot he was in the thick of the battle of Guadalcanal, broke his back in a crash landing, came home to fight for unification of the Army and Navy. One of the things that griped him was his memory of an Army pilot sinking in the water with the Navy refusing to rescue him until it cleared with the Army.

In Greece, George fought the grafters and the rightwing extremists. An article in *Harper's* magazine told a revealing story. In writing to me, he told how reactionaries in the government sought to discredit American newsmen who were critical. Apparently he had some premonition of trouble, for he said: "The rightwing is trying to get a number of us discredited or removed from Greece."

"Royalist 'Ethnos' has denounced 'irresponsible correspondents' who write 'unfavorable and misleading' stories about the Greek government," George continued.

"The attack upon correspondents is being made by the royalist political group known as the Populist Party. Under leadership of Deputy Prime Minister and Foreign Minister Constantine Tsaldaris, key Populist members throughout the government appear to be implementing a carefully devised offensive."

GREEK AMBASSADOR CRITICIZES

"As an illustration of the method of attack, consider a letter concerning me written by Greek Ambassador Vassili Dendramis, an ultrarightist supporter of the Tsaldaris clique. Strangely enough, Dendramis wrote to CBS president

Frank Stanton complaining about my article on Greece in the December *Harper's* magazine." Dendramis is smart enough not to write to *Harper's* because he knows the magazine probably would publish the letter, thereby enabling me to answer his charges in print.

"However, my case up to the present is rather mild compared with the attack being made against out-spoken reporters on the scene. The Ministry of Foreign Affairs has just written to the *Christian Science Monitor* complaining that their correspondent in Greece, Constantine Argyris, is guilty of using offensive language in dealing with Greek government officials and also is guilty of drunkenness at interviews. Knowing Argyris as well as I do—and having the highest respect for his professional and personal attributes—I know this charge is a lie.

"Another correspondent who has drawn Greek rightwing fire is Ray Daniel of the *New York Times*. He arrived in Greece unaccompanied by his wife and when his articles proved displeasing for the rightwing politicians, they spread malicious slander about Daniel.

"Yet another reporter who had provoked the Greek rightwing is Homer Bigart, of the *New York Herald Tribune*. At the moment, being a new comer in Greece, Bigart is getting the 'treatment' that others of us already have had. In particular he is being denounced by name as a Communist; he is being ridiculed for 'looking at things upside down'; he is being refused interviews by persons he needs to see for news purposes—such as Foreign Minister Tsaldaris. The *New York Herald Tribune* has been denounced by royalist 'Ethnos' for 'bad faith in

publishing untruths.'

"SOMEONE WILL GET HURT!" John O'Donovan, of the London *Observer*, is sharing Bigart's 'treatment.' Two other reporters, Stephen Barber of the London *News Chronicle* and his wife, Mary Barber, of *Time* magazine, recently encountered a little more effective rightwing retaliation. At Ioannina they were prevented for some time from proceeding to Konitsa because of—and this charge was made to them in person—being 'Communists.'

"Another correspondent who has troubles is Fred Sparks, of the *Chicago Daily News*. In fact, Sparks has written a bitter story about his experience at being denied routine press privileges while trying to cover the Konitsa battle.

"The pattern of the rightwing's attack on the other American correspondents here is clear—public denunciation plus official obstruction. There is nothing so tangible as censorship or blunt refusal to allow a reporter to visit the civil war areas; instead, there is a clever plan of making news work in Greece as difficult as possible for critical correspondents.

"In addition, now that so many correspondents are writing such critical stories on the dominant rightwing faction of the government, there are a number of vague hints that 'somebody is likely to get hurt!'

Poor George didn't know, when he wrote these prophetic lines, that he was to be the man who would get 'hurt.' His murder, however, may be the cause celebre which will bring to the surface the ugly scandals of Greece—scandals which the American people very much need to know about. To that end, this column will soon publish further revelations regarding dynamite-laden Greece.

HE CRAWLED BEFORE HE WALK." he told me. Like Howard Hughes, he may some day enter the industry in a big way.

No wonder John Farrow is the fair-haired director at Paramount. "Dark Circle," originally slated for 45 days, was finished by Farrow in 24 days. Careful planning did the trick. Says his star, Ray Milland: "The director is the one to cut down costs. If he knows what he wants, and gets it, you save money."

Constance Bennett, on the other hand, reports: "I always hire the most capable actors I can for the pictures I produce. If the actor knows his job, the picture moves along. That's where you save the money."

Ann Sheridan will spend the summer on her Connecticut farm, returning to Warners in the fall for her last film there, "Flamingo Road." Perfection is the keynote on "Command Decision." Scenes have been rehearsed, shot and reshot, even when the actors could see no room for improvement.

THEFT OR BARTER?

TACOMA, Wash. (U.P.)—Mrs. Paul A. Olson returned home from a trip and found that someone had entered her home and stolen several articles of her underclothing. But in return she found a two-piece woman's suit and four skirts lying in neat order on her bed.

There is much virtue in the old saying that one shouldn't look a gift horse in the mouth but, like most generalities, there are exceptions to the rule.

We are faced with an important exception, or so it seems to me, in the case of Premier Stalin's announcement that Moscow is willing, if America is, to accept Henry A. Wallace's recent open letter to him as the basis for peaceful settlement of Russo-American differences. There is more than a little doubt as to what sort of steed we are being offered.

The big question we have to answer, of course, is whether this is a real peace offer or whether it is a shrewd move to bolster Russia's position and the Red revolution for the spread of communism. It's a mighty uncomfortable thing to have to challenge what purports to be a peace gesture. However, we are forced to it by Bolshevik aggression which has been going on unceasingly, with the resulting enslavement of numerous small nations and a threat to the rest of the world.

Does Moscow suddenly halt this program of 30 years' standing and say: "We abandon our project. We are ready to peace?" I think not. What then has Moscow in mind?

Well, one thing that political circles in this country were quick to note was that Premier Stalin, with his praise of Mr. Wallace, had intervened in the American presidential campaign. It remained to be seen what the effect would be.

Then diplomatic quarters are asking whether Moscow might be raising the peace issue in order to weaken the Marshall Plan for European rehabilitation, and block support for American military aid to the nations of Western Europe. Suspicious further give rise to the thought that Russia would like a lull in the cold war to give her a chance to consolidate her gains and bolster her economic position, especially heavy industries which would be needed if war overtook her.

One of the most bewildering features of Marshal Stalin's statement is his assertion, "The USSR government considers that, despite the difference in the economic system and ideologies, the co-existence of these systems and a peaceful settlement of differences between the USSR and the United States are not only possible but also doubtlessly necessary in the interests of a general peace."

Of course world peace would be dependent on peace between Russia and America. However, the thought that the ideologies and economic systems of the two nations could be reconciled completely reverses everything that communism stands for.

Notebook—

Push Buttons For Peace

By HAL BOYLE
NEW YORK, May 20.—To heck with push-button war. I'm for a push-button peace. It'll be more fun.

Now take these new-fangled guided missiles—the buzz bomb and rockets. Every big country has its scientists straining their gray matter blue trying to figure out ways to make them more deadly.

These trained electric boom-erangs do promise to take a lot of exercise and hardship out of war. The top brass in all lands, the generals who rein a swivel chair, the admirals whose deck in a desk, can push buttons all day in their offices and still get home for the cocktail hour.

The only combat equipment needed by the men who pushed the buttons would be thumb guards to save wear and tear on their pinkies.

Guided missiles are gadgets with a real peacetime future. Here are a few suggestions offhand:

First they must be made small enough to fit into a pocket and equipped with a radio telephone device.

Cowboys then would be independent of saddle sores. They could press a button and lie in their bunks and read western story magazines while the faithful little guided missile zoomed out to round up the cattle in the south 40-mile pasture.

A housewife could send them out to shoo away strange dogs, peddlers and annoying bill collectors. She wouldn't have to miss her favorite soap opera by going out to look for "Junior." Any guided missile worth its fuel would not only go and find the rascal—it would butt him in the rear until he came home.

These loyal mechanisms also could be used to call taxis on a rainy day, to protect banks against robbers, fight burglars and trial and photograph errand husbands.

Of course there might be abuses at first. City wolves could sit at their windows and send the innocent missiles out to whistle at pretty girls. The boss could have them wing around the office checking up on the hired help. A Dodger fan might break up a critical baseball game by sending a missile out to snag a ninth inning flyball.

Affairs Of The World—

Gift Horse Exception

By DEWITT MACKENZIE
There is much virtue in the old saying that one shouldn't look a gift horse in the mouth but, like most generalities, there are exceptions to the rule.

We are faced with an important exception, or so it seems to me, in the case of Premier Stalin's announcement that Moscow is willing, if America is, to accept Henry A. Wallace's recent open letter to him as the basis for peaceful settlement of Russo-American differences. There is more than a little doubt as to what sort of steed we are being offered.

The big question we have to answer, of course, is whether this is a real peace offer or whether it is a shrewd move to bolster Russia's position and the Red revolution for the spread of communism. It's a mighty uncomfortable thing to have to challenge what purports to be a peace gesture. However, we are forced to it by Bolshevik aggression which has been going on unceasingly, with the resulting enslavement of numerous small nations and a threat to the rest of the world.

Does Moscow suddenly halt this program of 30 years' standing and say: "We abandon our project. We are ready to peace?" I think not. What then has Moscow in mind?

Well, one thing that political circles in this country were quick to note was that Premier Stalin, with his praise of Mr. Wallace, had intervened in the American presidential campaign. It remained to be seen what the effect would be.

Then diplomatic quarters are asking whether Moscow might be raising the peace issue in order to weaken the Marshall Plan for European rehabilitation, and block support for American military aid to the nations of Western Europe. Suspicious further give rise to the thought that Russia would like a lull in the cold war to give her a chance to consolidate her gains and bolster her economic position, especially heavy industries which would be needed if war overtook her.

One of the most bewildering features of Marshal Stalin's statement is his assertion, "The USSR government considers that, despite the difference in the economic system and ideologies, the co-existence of these systems and a peaceful settlement of differences between the USSR and the United States are not only possible but also doubtlessly necessary in the interests of a general peace."

Around The Rim—By The Herald Staff

Big Catalogues Are Improved

After looking over the announcement of new books that were to be published this spring, a Dallas News book reviewer pronounced the best publication that he had come across to be the Sears and Roebuck catalogue.

Whether he was making a jibe at the current dirth of worthwhile writing or complimenting the latest publishing work of the giant merchandising firm, I do not know. But I take it as tribute to the latter.

Anytime a firm can promote the sale of its products and at the same time be more entertaining than a writer who composes purely for a reader's enjoyment, deserves a note of praise.

Drew Pearson in one of his recent columns suggested that the U. S. send Sears catalogues to Russia as a weapon of psychological warfare to win the Soviet people's friendship and show them the fruits of capitalism. He was as serious as the book reviewer.

A look through one of these mammoth publications whether it be Sears' or Montgomery-Ward's shows, however, that the firms are far from satisfied with their efforts. They have made some interesting improvements recently.

Glancing through the 1170 pages of Montgomery-Ward's basic catalogue I find that much space is devoted to educating the prospect. Not only is a potential buyer shown the product, its description and price but he is told how it may be used to best advantage, what its limitations are, or, if it's an appliance, how it must be installed.

For instance in the section on linoleum tile, complete instructions are given for taking measurements before purchasing and for installing the flooring. Whether the buyer does the work himself or has someone do it, he'll know where he stands.

Education of the reader is practiced to an even greater degree in the special supplements which are a recent development.

In the new Ward's photographic catalogue complete instructions are given for setting up a darkroom and for carrying out the developing and printing of film. The uses of all cameras and accessories are fully explained. In addition, the latest developments in the field of photography are discussed.

The special fishing catalogue explains all major fishing techniques and the care of equipment along with the presentation of products for anglers.

In all cases, the information is boiled down and carefully presented in simple understandable language.

To my mind, the cataloguers deserve additional praise.—ADRIAN VAUGHAN

Today And Tomorrow—

Clarification In Palestine

By WALTER LIPPMANN

It is much too early to write off the United Nations as a failure in Palestine. In fact only now, after the events of last Friday, is the Security Council, or the United States as a member of it, in a position to take the kind of action which in the American official view is required by the Charter. This action, said Ambassador Austin on Feb. 24, "must be directed solely to the maintenance of international peace. The Council's action, in other words, is directed to keeping the peace and not to enforcing partition."

Action by the Security Council to keep the peace could not begin until the United Kingdom ceased to be responsible for the government of Palestine and until the State of Israel has been recognized as its legal successor in the territory defined by the General Assembly.

Up to Friday of last week the Security Council could have acted to maintain international peace in Palestine only of Great Britain, as the legal government, had said it was the victim of aggression. Britain did not say this. Therefore, the fighting in Palestine was internal disorder, like the uprising on Bogota, and not a breach of international peace.

Even though the violence was aided and abetted by Arab governments outside of Palestine, there was no case before the Security Council as long as the British government did not choose to call upon the Security Council for help. This is a crucial point in any understanding of what has happened in Palestine and of what is now going to happen. The problem of Palestine could not come before the Security Council in the form which enables the Council to act to maintain peace until there was a government in Palestine which called upon it for help. Thus, it would have been impossible for the Security Council to take action against the external guerrilla forces in Greece if on Dec. 3, 1946, the Greek government had not requested it under Articles 34 and 35 of the Charter. If the Greek government had taken the position of the British mandatory government, that it was responsible for law and order in its territory and that it was not the victim of external aggression, the Security Council could not have taken action in Greece.

The termination of the British mandate and the recognition of the State of Israel have radically altered and greatly clarified the task of the Security Council. Any invasion of the territory of Israel as defined in the United Nations resolution by the armed forces of Egypt, Syria, Iraq, or Trans-Jordan is now an unmistakable act of aggression which the Security Council is obligated to oppose.

The whole machinery of the United Nations organization can now be set in motion to arrest the aggression and to bring about a settlement of what is now, and only now, a clear-cut problem of international peace.

The whole machinery of the United Nations organization can now be set in motion to arrest the aggression and to bring about a settlement of what is now, and only now, a clear-cut problem of international peace.

Annual Reports Are Given At Central P-T A

Yearly reports were given at the Central Ward Parent-Teachers Association Wednesday afternoon which was the final meeting for the school year.

Mrs. C. C. Williamson, conducted the business meeting and introduced Mrs. Alton Underwood, new president who in turn introduced the other officers and named some committee chairmen.

Bridal Shower For Doris Howell Is Given This Week In Stanton

STANTON, May 19 (Sp)—Doris Louise Howell, bride-elect of James Arthur Jordan of Stanton was complimented with a shower in the home of Mrs. Clifford Castiberry of Lenora.

as weekend guests, their daughter, Mrs. Cleo Pate and family of Odessa.

B&PW Club Hears Musical Program

Susan Logan, musical student of Mrs. Nell Frazier, presented several musical selections at the monthly dinner meeting of the Business and Professional Women's club in Hotel Settles Tuesday evening.

Society Of BLF&E Delegates Leave

Mrs. Ada Arnold reported that the delegates to the Democratic state convention were leaving for Brownwood Thursday at the meeting of the Woman's Society of BLF&E Wednesday afternoon.

Luncheon Honors Vivien Middleton

Vivien Middleton, graduating senior, was complimented at a luncheon given Wednesday at Hotel Settles by Mrs. G. T. Hall.

Reba Joyce Riddle Has Birthday Party

Reba Joyce Riddle was honored at a birthday party Tuesday afternoon by her mother, Mrs. J. B. Riddle.

Mrs. Buckley Heads Beta Rho Chapter

Mrs. Ernest Buckley, the former Betty Bob Dilz, has been installed as president of the Beta Rho chapter of Beta Sigma Phi in Manhattan, Kans.

Vacation Bible School Preparation Day Is Scheduled For Friday

Preparation Day for the Vacation Bible school of the East Fourth Baptist church is scheduled for Friday, May 21.

Third Grade Has Picnic In The Jack Smith Home

Mrs. R. D. McMillan and Mrs. Jack Y. Smith entertained members of Mrs. T. L. South's morning session of the third grade with a picnic supper Wednesday afternoon in the backyard of the Smith home.

Cayuses Yield Circuit Lead After Losing To Tribe, 6-5

Patton Duels LaBeach Again

LOS ANGELES, May 20. (AP)—A crowd of more than 60,000 at the annual Los Angeles Coliseum Relay was anticipated today as one of the greatest arrays of track and field stars got in final training for the cinderpath carnival tomorrow night.

Primary magnet for the track addicts is the renewal of the 100-meter sprint duel between Mel Patton of Southern California and Lloyd La Beach of Panama.

Named for the 100-meters with them were sprint king Barney Ewell of Penn State fame, who ran third to Patton here last year; Charlie Parker of Texas, Australia's John Treloar, and four others.

The 1500-meter coliseum record is 3 minutes 51.2 seconds, set by Italy's Luigi Beccali in 1932. Rated a chance to lower it are Penn State's Gerald Karver, who won the corresponding mile last year; Roland Sink of USC and Texas' diminutive Jerry Thompson.

Aiming at the Coliseum 14.3 seconds for the 110-meter high hurdles record (Roy Staley, USC, 1936) are such athletes as Lloyd Duff of Ohio State and August Erfurth of Rice.

LOOKING 'EM OVER

With TOMMY HART

Three local amateur beak bashers — Jimp Eppler, Billy Carlise and Billy Bob Whittington — will go to San Antonio next month to compete in the tryouts for the US Olympic squad being held there.

The trio will accompany Billy Wooster's Odessa team, which has been in training for the past several months. Since they beat the best Wooster had in the recent exhibitions here, Billy is probably putting into practice that ancient adage, "if you beat 'em, jin 'em."

The San Antonio winners will go to Boston for a national tournament, where the Olympic squad will be chosen. The champs, of course, get a trip to the London show of shows, with all expenses paid.

If the local lads come through, much credit must be given to Burt Gannon, the former Mid-Westerner who saddled himself with the task of training the biffers. Gannon and the Big Spring Athletic association have done more to create interest in the boxing game here than there ever has been before.

LOCAL SPORTS TO FEEL LOSS OF MUNY PRO, FOY FANNING

Foy Fanning, the local golf pro, departs the village soon to take up residence in Abilene, his former home. His loss will be felt.

Foy was a great promoter, did more to promote interest in the city-owned course and golf in general than anyone who has ever been here. Who ever takes his place is going to have a big pair shoes to fill.

DUTCH EVINGER PLACES EL RANCHITO TO POLO WIN

Dutch Evinger, who came near moving here a couple of years ago, played the big role in El Ranchito's polo win over Lamesa in the Fort Bliss spring tournament in El Paso recently. Final tally was 8-7. Evinger ramming home three goals in the final chukker to salvage victory. Gus White, Sr. and Gus Jr., were members of the losing team.

Evinger and the Whites will probably be seen in action several times this summer, once Dr. H. Bennett starts his polo program.

UNIFORM PITCHING MOUND NEEDED IN BASEBALL

Not only the Longhorn baseball league but the entire Organized game is in a bad way for a rule that specifies the measurement and composition of a pitching mound. They should all conform to the identical pattern.

A hurler who here could find a hill perfectly suited to him likely as not will have trouble in adapting himself to the slope of the knoll in most other sections. Some of the pitching mounds in the Southwest look like ant hills.

BALLINGER CONTINUES COLD AT GATE, SAYS SCRIBE

According to Gene Gregston, the Odessa scribe, the lack of fan interest in the Ballinger ball club is causing Club Owner Bill Moore sleepless nights. Bill even threatening to move the team to Roswell, N. M.

The team was well supported last year but Ballinger is the smallest city in the Longhorn league and, of course, does not have the potential trade some of the other contingents boast. Business might pick up with the end of school, however.

PITCHING WOES INCREASING FOR BILL DAVIS

Bill Davis, the Odessa skipper, continues to have his worries, most of them caused by an unreliable pitching staff. The other day, Ernie Faccio, ace of the Odessa staff, came up with a sore arm. Davis himself has long had an aching soup bone. So has Pete Amendariz, another flinger.

Davis has been cheered by the return of Joe "Li'l Abner" Moody, his right fielder, and the addition of Phil Wells, an infielder, to his staff. Phil is up from Austin, Moody has been out with an ankle injury.

McPIKE SENT TO LAMESA LOBOES BY GANN

Callen McPike, the Sweetwater flinger who was always a cousin to Our Town's Broncs, has been sold to Lamesa of the WT-NM league.

Pipeline Plays Oilers Tonight

FORAN, May 20. — Cosden's Pipeliners, marking time for their all-important test with the Bluebonnet Sunbeamers in Lubbock Saturday night, clash with the Continental Oilers in Foran tonight.

L. D. Cunningham will probably twirl a few innings for Cosden while his brother, Winifred, may work for Continental.

Collins Counts In 9th Frame

MIDLAND, May 20. — The Longhorn baseball league had a new pace setter this morning.

Vernon's well conditioned troupe, the doormat of the circuit last year, vaulted into the driver's seat by thumping the Ballinger Cats, 3-0, while the hapless Big Spring Broncs were dropping a 6-5 decision to Midland. Big Spring had led since early in the campaign.

Alert play gave the Indians a well-earned decision over the Hoses. Rip Collins singled with one away in the ninth inning and then raced all the way home when Ace Mendez stopped Clyde Perry's one-baser in center field but couldn't pick up the ball.

The Hoses tried desperately to score in the top half of the ninth inning after Mendez had reached first on a bobbie and stole second. However, Tony Traspasneto and Pinchitter Bert Baez looked at third strikes and Ray Vasquez skied long to Carroll Nipp to end the round.

Weldon Stewart survived an uncertain third inning to gain a pitching victory. He set the Cayuses down with five blows.

In the third, Vasquez singled behind Mendez to score a run. Jake McClain skied out and Gerry Rodriguez was retired on an infield play but Justo Aparizna strolled and Pat Stasey doubled home two tallies.

In the sixth, McClain led off with a hit, Stasey walked and Mendez singled to drive home a run.

Midland batted two in the third when Stewart struck, Collins singled, Perry walked, Harvel Jakes hit a high fly for one marker and Prince singled.

Gerry Rodriguez worked on the rubber for Big Spring until the ninth and Jimmy Perez reported just in time to be charged with the loss.

Houston To Host Skeet Shooters

HOUSTON, May 20. (AP)—J. T. Turner, President of the Houston Skeet Shooters Association, said Wednesday his organization will be host to more than 200 of the country's finest shots, at the state shoot to be held at the Houston Skeet Club June 10-13.

Wheat should be coarsely ground for feeding to poultry.

Hogan, Hamilton Share Top Spot In PGA Tourney

ST. LOUIS, May 20. (AP)—Two former champions, Bob Hamilton and little Ben Hogan, shared the lead with five-under-par 66's at the start of today's second and final 18 holes of qualifying play in the 30th Professional Golfers Association tournament.

Sure putting and accurate approaches to the greens of the hilly 6,467-yard Norwood Hills Country Club put the pair in the lead.

Hamilton, the 1944 titlist, turned in a classy 25 putt job as seven of the top 12 shooters showed complete mastery on the fast, true greens yesterday.

Hamilton, of Landover, Md., flashed the mildest series of shots with an eagle and two birdies on successive holes that gave him a four-under-par 32 for the incoming nine. He chipped from well off the green into the cup for an eagle 2 on the 13th, and lifted another into the hole for a birdie 3 on the 18th.

Hogan, of Hershey, Pa., who won the crown in 1946, used only 29 putts. Long putts accounted for three of his five birdies.

Gene Sarazen of Germantown, N. Y., and former Masters Champion Herman Keiser of Akron, O., each needed only 30 putts for 67's.

Burning a measly 29 putts for the day were Ed (Porky) Oliver, Kenmore, Wash., and Sammy Snead, the White Sulphur Springs, W. Va., slammer, who shared 68's with Jimmie Demaret, Ojai, Calif., and Pete Cooper, Ponte Vedra, Fla.

Champ Jim Ferrier, the defending champion, who didn't have to qualify, stroked through a 36-34-70 round just to get the "feel of the course."

All told, 25 of the 133 starters yesterday bettered or equalled regulation figures for the tournament stretch.

A qualifying score of about 150 appeared to be the order for 63 players who will join Ferrier in match play Friday for the top \$3,500 prize. The final match of 36 holes is scheduled for next Tuesday.

LOCALS WIND UP SEASON

Odessa Preps Stay In Fight For Title By Clipping Herd

ODESSA, May 20. — Odessa's outslugging Big Spring, 16-10, here Wednesday night. San Angelo currently is at the top of the heap and has completed '71 season. Big Spring enjoyed two big innings last night—the fifth and sixth—but Odessa hit Donnie Carter, Steer Aurler, hard all the way. D. A. Miller hit two doubles and a single and drove home four runs for Big Spring. Jackson collected a round tripper for the Bronchos.

The contest closed out the 1948 season for the Big Springers.

Cleveland Indians Remove Doubt About Who Leads In Junior Loop

By The Associated Press

Bobby Feller and his Cleveland Tribe have cooled off Connie Mack's Athletics and wrested the actual American League lead from Philadelphia.

By a mathematical freak, the Indians slipped into first place Tuesday night when they really trailed the A's by a half game. No longer is there any freak about it. Feller took care of that.

The fireballing righthander, who was the only American Leaguer to win 20 games last season, hung up his fifth victory last night by trimming Philadelphia, 6-1, with three hits.

Feller's brilliant pitching permitted the Tribe to sweep the series from the A's, who came into town on a red hot spree after winning a doubleheader in the Yankee Stadium. They moved on to Detroit in second place.

Hal Newhouser got back on the win path after being knocked out five straight times when he hurled Detroit to a 4-1 decision over Boston. Hal tied a record when he started four of the Tigers' six double plays.

The New York Yankees finally got a route-going job from Lefty Ed Lopat, ex-White Sox'er, who allowed 12 hits in taking an 8-4 verdict over Fred Sanford and the St. Louis Browns.

Pitcher Early Wynn helped Washington out of trouble with his bat. Coming in as a pinchhitter he singled home two runs that started the Senators to a 4-1 nod over Chicago. Walt Masterson benefitted by the blow off Joe Hayes.

There were some high shenanigans at Ebets Field, where the St. Louis Cardinals thumped Brooklyn, 14-7, before a night crowd of 32,888. It lasted for three hours and 28 minutes and consumed five of the Brooks' seven able pitchers. Clyde King, who replaced starter Rex Barney, caught the loss and the win went to Ted Wilks, the third Card chucker.

While the Dodgers were losing their fourth in a row at home, the Phils were coming from behind to shade Chicago, 2-1. Two in the last of the ninth on a triple by Johnny Blatnik and singles by Del Ennis, Eddie Miller and Howie Schultz turned Cliff Chamber's potential

Feller Throws Book At A's

CLEVELAND, May 20. (AP)—Bob Feller, pitcher and author, threw the book at the Philadelphia Athletics last night.

Feller's new tome is titled, "How to Pitch," so the Cleveland Indians' fireballer proceeded to give the pesky Athletics a practical review of its contents by twirling a three-hit 6 to 1 victory.

Bob had a one-hit shutout until the ninth and faced only 25 batters in the first eight innings, only one more than par for the course.

"I knew from the beginning I had it," Feller said. "About once in every eight or ten games you have exceptional stuff and I had it last night."

WHY FEEL OLD AT 40, 60 OR MORE

Why be the victim of the older crowd? Be the victor. Be able to enjoy life as you did in your youth. If added years have slowed down your vim, vitality and youthful pleasures, here is a method that may change your whole outlook on life. Why not try and regain the pleasures of living you once enjoyed? Why be discouraged—why not pursue the career and seek of a much younger man? Many men are obtaining amazing results with Culture Tablets. Women too, find Culture helpful.

The tremendous demand for this formula has necessitated a drastic price reduction. Get Culture tablets today from your druggist at the new REDUCED price.

Gannon Invites Boys To Train

All youngsters who want to learn the many art of self defense have an open invitation to join the boxing class now being conducted by Burt Gannon nightly at Pat O'Dowdy's Sportatorium.

The invitation has been extended by Gannon himself, who said he would lend his personal attention to any newcomers.

Some eight or nine boys are currently undergoing drills under Gannon. At least six of that number will be taken to Odessa to participate in a boxing show there June 1.

They are Jimmy Eppler, middleweight; Billy Bob Whittington, middleweight; Billy Carlise, welter; Doyle Maynard, fly; Cliff Prather, lightweight; and Cecil Gilstrap, lightweight.

BEER SOUTHERN SELECT OR GRAND PRIZE \$3.00 PER CASE (Plus Deposit) Wayne Stidham ICE STATION 1801 GREGG

SHOVEL and HOE

A Garden Column by Virginia Scott. Presented by the Big Spring Garden Club.

Almost every American gardener grows iris. This plant is, to the Upper-South, what the Azalea is to Alabama. It supplies more color, for its price, than almost any other bulbous plant and is very adaptable to soil and climatic conditions.

Iris varieties are so numerous that anybody can become confused. They are all beautiful, so we just pick out a few good ones and let the fans scramble for the novelties. Perhaps the best time to transplant most types is right after they bloom. Selections should be made at blooming time when you can see for yourself just what you want.

Bearded Irises thrive in good garden soil, in well drained, sunny positions. Tops should be cut back to within three or four inches of the rhizomes, feeding roots clipped a few inches at planting time. Beds can be fertilized with bone meal before planting, they should not be added additional feeding, if this is attended to. Avoid manure on this type. For a quick show, plants can be spaced eight or nine inches apart.

Some of the highly rated varieties are Great Lakes, Wabash, Prairie Sunset, Golden Majesty, and Deep Velvet. Too long a list is confusing to the beginner. Some study should be made before selecting. Older kinds are splendid, and much cheaper.

The Oriental Irises are easy to grow, if started right. They should be divided into pieces with several shoots, rather than taken singly. This kind likes deep, rich soil, plenty of sunshine and moisture. Can be top-dressed with cow manure.

Seedlings of Japanese or Oriental Iris are very pretty and quite interesting to grow. Simply sow in well prepared beds and, in a couple of years, you will have a riot of color from which you may select the choicer varieties. They may be moved, with dirt, when in bloom or just after blooming.

Then there are the dwarf Irises that bloom again in the fall. This is Iris Pumila and is valuable for rock gardens and borders. The best bloomers are Jean Siret, chrome yellow, and Lieut. Chavane, violet. Olive White is a good cream colored variety.

Montbretias require practically the same culture as Gladioli. They are somewhat harder and can be left in ground over winter in warm climates and should be mulched at that time.

Tuberous-rooted Begonias thrive in loose, woody soil. They require plenty of moisture, good drainage and a sheltered nook. Fertilize with well-rotted cow manure.

Truman Will Make Address At College

WASHINGTON, May 20. (AP)—President Truman goes to Philadelphia today aboard an abbreviated version of the special train in which he will cross the country in June.

The President will address 1,300 fatherless school boys at Girard College (at 3:05 p. m. CST) during a visit in which he will steer clear of a huddle of Democratic political leaders in the Quaker City.

The party's executive committee meets there during the day to pick a keynoter and a permanent chairman for the national convention in July. Senate Minority Leader Barkley of Kentucky and House Minority Leader Rayburn of Texas, respectively, have strong backing for these posts.

Mr. Truman told Senator Kilgore (D-W.Va.) yesterday that he was taking a hands-off attitude toward organization of the convention.

Kilgore called at the White House to seek the President's endorsement of Senator Myers (D-Pa.) for keynoter.

Kilgore said the President expressed high regard for Myers but said he was leaving the question up to National Chairman J. Howard McGrath and the executive committee.

The school was founded and endowed under terms of the will of Stephen Girard, a wealthy merchant. One of the terms said clergymen could not be admitted to the campus, in order to keep the college strictly non-sectarian.

The first classes were held 100 years ago.

The President's schedule calls for a stay of about six hours in Philadelphia, all at Girard. His 10 to 15-minute extemporaneous address will be broadcast and televised.

Mr. Truman will return to Washington at 7:30 p. m.

Charge Of DWI Brings \$100 Fine

Sidney Bryant Steen, arrested on a charge of driving while under the influence of intoxicants, entered a plea of guilty to the charge in county court this morning and was fined \$100 plus expenses.

Steen's driving privileges were also suspended by Judge Walton S. Morrison for the ensuing six months.

Released On Bond

Lorin McDowell, picked up by state authorities Wednesday evening on a charge of driving while under the influence of intoxicants, has been released by the county on \$500 bond. McDowell was stopped on the extension of Martha street originally known as Lover's Lane.

Weather Forecast

Dept. of Commerce Weather Bureau

BIG SPRING AND VICINITY: Partly cloudy today, tonight and tomorrow. Little temperature change. Scattered showers in vicinity this afternoon. High tonight 90, low tonight 66, high tomorrow 90.

Highest temperature this date, 106 in 1927; lowest this date, 48 in 1931; maximum rainfall this date, 3.43 in 1908.

WEST TEXAS: Partly cloudy this afternoon, tonight and Friday. Not much change in temperatures.

Markets

COTTON

NEW YORK, May 20 (AP)—Cotton futures at noon were 1/16 cents a bale lower than the previous close, July 37.05, Oct. 33.92 and Dec. 33.21.

LOCAL MARKETS

No. 2 Mill 82.25 cwt. FOB Big Spring. No. 2 Extra and mixed grades 82.50 cwt. Kees canded at 43 cents a dozen, each market cream at 70 cents a lb; hens 25 cents a lb.

WALL STREET

NEW YORK, May 20 (AP)—Prices fluctuated over a narrowly irregular range in today's early stock market. The underdogs, though, was steady.

Oil and railroads, which have recently stood in front of the market, were singled out for attention but there was no indication of a decisive price trend.

Turnover declined still further and the appearance of large blocks of stocks on the ticker tape was still more infrequent.

LIVESTOCK

FORT WORTH, May 20 (AP)—CATTLE: 2,500; calves 850; sheep and goats, few sales of the better grades steady; medium and lower grades weak to 50 cents down; few good and choice yearlings and heifers brought 28.00-30.00 common to medium 26.00-28.00; fat cows 18.00-21.50; canners and cutters 12.00-17.00; bulls 16.00-21.50; good and choice fat calves 28.00-32.00; common to medium 24.00-26.00; yearlings 14.00-17.00; stocker calves and yearlings 20.00-28.00; stocker cows 15.00-18.00.

MOGS 1,000; butcher hogs and ewe 50 cents up; stocker pigs, steady; top 24.00 for good and choice 180-200 lb. good and choice butcher hogs 20.00-23.75; sows 16.00-17.50; pigs 17.00-20.00.

SHREPS 17,000; early bids on feed sheep weak to 1.00 lower; bids on lambs 1.00 or more lower; some good sheep spring lambs previously contracted 25.50; good spring lambs 23.00; slaughter ewes bid and sold 7.50-13.50.

Barkley Will Be Demo Keynoter

PHILADELPHIA, May 20. (AP)—Democratic leaders today selected Senator Alben W. Barkley of Kentucky as keynoter for their July 12 national convention. Rep. Sam Rayburn of Texas was named permanent chairman.

Senator J. Howard McGrath, Democratic national chairman, said in reply to a question the selections were not aimed at appeasing the southern block opposed to President Truman's civil rights program.

"They are both very liberal men," McGrath said, "who supported in every way the program of Presidents Roosevelt and Truman."

"Recognition is due both for long and valiant service to the Democratic Party," he added.

Edward J. Flynn of New York, former national chairman, said there was no discussion among the 16-member executive committee as to who would place Mr. Truman's name in nomination at the convention.

"It's up to the President," he said.

McGrath told newsmen the committee members discussed Mr. Truman's campaign prospects privately, but not during the committee meeting to complete organization of the convention.

Asked regarding Mr. Truman's chances of re-election, McGrath replied: "I am the greatest optimist in the United States when it comes to that."

This will be Barkley's third convention keynoting assignment. He served as keynoter or temporary chairman for the 1932 and 1936 conclaves and also as permanent chairman of the 1940 convention.

This will be Rayburn's first official capacity at a national convention.

Kiwanians Hear S'water Group

A Sweetwater delegation provided the program at the Big Spring Kiwanis club's regular luncheon meeting today in the Settles.

The visitors from Nolan county also delivered the Kiwanis organization's "travelling gavel" to which the local club will pass on to some neighboring unit within the next few days.

The entertainment program consisted of musical numbers and dance routines by pupils of the Sweetwater high school. Harvey Clay was in charge of the program this week for the local club.

Fishermen Turn Out For Season Opening

There were more fishermen than fish Thursday as the city reopened Moss Creek lake to anglers.

At noon, Frank Covert, lake supervisor, said he had issued 175 fishing permits.

Reports on catches were scattered, but Covert felt that the combined strings would be less than the total permits.

A bass, estimated at three to four pounds and one the string of Harry Montgomery, appeared to be the prize catch. Patrons were not overly anxious, for only three cars were on hand when gates were opened about sun-up. By 7:30 a. m. only 25 permits had been issued.

Warrants Issued

Five warrants against persons charged with defrauding by obtaining things of value with worthless checks were issued by the county this morning, bringing to 13 the number referred to officers since May 1.

FOR CONVENTION

Barkley Will Be Demo Keynoter

PHILADELPHIA, May 20. (AP)—Democratic leaders today selected Senator Alben W. Barkley of Kentucky as keynoter for their July 12 national convention. Rep. Sam Rayburn of Texas was named permanent chairman.

Library Will Be Air Conditioned

An air conditioner is now in the process of being installed at the Howard County Free library, it was announced Tuesday at the Friends of the Howard County Library meeting.

The Friends association is installing the degree conditioner as a means of increasing the degree of comfort to patrons of the library during summer months.

During the absence of Mrs. T. C. Thomas, president, who has been ill, W. E. Greenlee, vice-president, presided. Several committee reports, including one from the treasurer which showed a balance of \$270, were heard.

Margaret Christie, in whose offices the meeting was held, Mrs. Benny Collins, Librarian, and Mrs. Ollie McDaniel served refreshments to Neil Brown, Greenlee, Mrs. More Sawtelle, Mrs. B. L. LeFever, Mrs. Verd Van Gleson and Mathilde Maier.

Bus Riding Dog Is Lost In Big City

PARIS, Ill., May 20. (AP)—Rex, the Paris bus-riding canine, is just a small town dog after all. He has been riding buses in this city of 8,000 for years. This week, however, he accompanied his master on a 25-mile automobile trip to Terre Haute, Ind. There he jumped from the car and became lost in the city of 65,000.

A Terre Haute resident noted that his license was issued at Paris. He telephoned the Paris city clerk, learned the name of the dog's owner, and returned him home.

ANGRY HUSBAND MEANS BUSINESS

HOUSTON, May 20. (AP)—An excited woman called the sheriff's department here yesterday to get help for her neighbor.

"She has filed suit for divorce against her husband," the woman said. "Now her husband has threatened to start from the bottom of the house and tear it apart."

"Where is her husband now?" asked Jake Colca, chief investigator for the sheriff's department.

"He is under the house," the woman said.

Drive-In Manager Buys Auctioned Beer

Donald Brown, owner and operator of Donald's Drive In, was the high bidder on the 94 cases of confiscated beer proffered for sale by the Texas Liquor Control board.

Brown's offer was \$294.75.

The beverages were taken in several raids in this vicinity over the past several weeks.

Stock Exodus Is Continuing

The exodus of cattle from ranges continued Wednesday with a 1,675 head volume was recorded at the Big Spring Livestock Commission company.

Prices were steady to strong with one load of stocker steer yearlings rolling out at 29.00 and one of mixed stocker heifers and steers at 28.00.

White-face cows and calves ranged from \$175 to \$215 and plain cows and calves from \$125 to \$150.

Fat cows brought up to 22.50, fat bulls to 23.00 with two bulls in fine flesh going at 24.00. Fat butcher calves drew 27.00-29.00.

Top on the 75 head of hogs which went through the ring was 23.50. There were approximately 1,600 head of cattle in the sale.

Lifebuoy with its Purifying Ingredient GETS SKIN CLEANER STOPS "B.O." as no other leading soap can!

DOCTORS PROVED with 820 scientific tests the truth of this amazing statement...

The cleaner you get your skin, the doctors found, the safer you are from "B.O." (body odor). Any soap will remove all the grime and perspiration you can see—yet leave "invisible dirt" on your skin to form a foothold for "B.O."

Doctors compared the effects of daily baths with different soaps. The results are amazing! When you bathe with any other leading soap, you are simply not as clean, not as safe from "B.O." as you are when you bathe with Lifebuoy. After 820 scientific tests doctors say Lifebuoy's purifying ingredient makes the difference! And it is this same purifying ingredient that makes Lifebuoy so mild.

Use Lifebuoy daily. It is made from a special oil blend that gives you such an abundant, refreshing lather. Remember: Lifebuoy gives you cleaner skin... stops "B.O." as no other leading soap can!

ANOTHER GUN USES MARBLES

Ten-Legged Cannon Helps Oilmen Get Samples Of Rock

By HOWARD W. BLAKESLEE
TULSA, Okla., May 20. (AP)—A ten-legged cannon—which shoots its legs into oil wells—is on show here at the International Petroleum Exposition.

This cannon is about seven feet long, narrow enough—about three inches in diameter—to be lowered to the bottom of an oil well, or to any other level.

Near the top it has an explosive chamber, and when the "shot" of powder explodes there, it drives a piston downward. The piston in turn drives the legs.

These are in pairs, set like real legs, one on each side of the gun. There are five sets, one below the other. Going down the well they are folded modestly into slots in the side of the cannon.

When the gun fires, the legs are forced downward. At the same time they spread outward, each pair just like a dancing girl doing the splits. The legs are hollow. As they spread each leg is driven into the stone sides of the oil well. The hole in each leg picks up a sample of the rock at that point—what the oil men call a core.

After the cannon is fired, it is pulled up out of the well, its legs still hitched on, and each leg gives a sample of the rock. The samples are test pieces for traces.

It is an adage of the well-men that an oilman will shoot anything. Another recent gun uses glass marbles instead of the steel bullets.

These marbles drive through the steel walls, or casings and out into

the oil sands surrounding. They do not break until they have gone out into the oil rock. They work on the principle of tornadoes where straws are sometimes driven into tree trunks.

The straws travel too fast to break. The marbles do the same, starting at a speed of several miles a second, they are shot by nitroglycerine. They are packed around

the nitro in an arrangement called the glass marble torpedo, by the inventor, J. Gordon Burch, of Borger, Texas.

Dime-store marbles were first used. Now they are specially hardened glass, which explodes into powder when it breaks. The torpedos are used on old oil wells which have nearly quit producing.

Methodist Council To Make Report

SAN ANTONIO, May 20. (AP)—The Inter-Board Council of the Southwest Methodist Conference makes its annual report today.

The report, to be given by Rev. R. P. Curl and Dr. A. P. Shirkey, outlines a two-fold program, Rev. Curl said.

He said emphasis is to be placed first on a teaching and preaching mission to call Methodist people to new understanding of the Christian faith and on a financial advance to raise funds for extension of the ministry in the U. S. and abroad.

Barbecue Slated

All members of the Knights of Pythias are urged to attend a barbecue in the City Park, Saturday evening at 7:30 p. m. Families of the members and other prospective members will be special guests.

The Burmese New Year, celebrated this April, was 1310.

Do FALSE TEETH

Rock, Slide or Slip? PASTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, sticky, daily taste or feeling. PASTEETH is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get PASTEETH at any drug store.—adv.

AMAZING RESULTS WITH MERTOX TONIC

Mrs. Ben Grossman of Houston writes us as follows: "For a long time I have had occasional bilious spells. My head would hurt and I would vomit my food. My last spell was very severe and I just thought I would die. My appetite was poor and I couldn't sleep at night. I was so troubled with my limbs stiffening just before I would have a spell of gas and bloating. I would be dizzy and I would have a severe headache. My food would sour and I just seemed as if everything was wrong with me. To anyone suffering like I was, I recommend Mertox highly. This splendid medicine, containing 25 ingredients, works fast to eliminate poisonous matter from your system. Helps to build blood, red blood. Relieves constipation within a few hours and helps to create a more rhythmic bowel action. Get Mertox Compound today from any Texas drugstore at the new REDUCED price.

Films Are Viewed By 20-30 Clubbers

Two new members, Cecil Heith and Robert Coffee were introduced at the 20-30 club Wednesday evening at the business and dinner meeting.

Bill Merrick, program chairman, presented a series of moving pictures which dealt with speed racing, the Pueblo Indians and the Americans at home.

Bill Beauchamp will be in charge of the program next week.

The main breeds of beef cattle in the United States are Hereford, Shorthorn and Aberdeen Angus.

It's Procter & Gamble's postwar WASHDAY WONDER

It does what's never been done before!

IT'S TIDE
... you've never used anything like it!

TIDE does what's never been done before—washes clothes cleaner than any soap, yet leaves colors brighter! It's a true washday miracle, made possible through wartime research. You'll know you're using a completely NEW product the minute you make suds with Tide. Tide suds look different, feel different... and those wonder suds just laugh at hard water! Even in hardest water they billow up so thick and fast you'll be amazed!

ONLY Tide DOES ALL FOUR!

- 1. Washes clothes cleaner!**
Yes, cleaner than any soap made! You'll get a real washday thrill when you see your first Tide wash. Everything comes cleaner—even grimy play clothes and heavily soiled work clothes. That's because Tide not only leaves clothes free from ordinary dirt, but actually removes dingy soap film as well!
- 2. Actually brightens colors!**
Color brightness perks up like magic as Tide makes dulling soap film disappear. Washable prints and pastels actually come out brighter with Tide! Tide is really safe for your dainty washable colors!
- 3. Never "yellows" white things!**
What a blessing, for your shirts, sheets, and pillowcases! No matter how often you wash them, no matter how long you store them, Tide can't turn them yellow!
- 4. Gives more suds—**
Prove it in your dishpan!
Kind-to-hands suds! Faster suds! Longer-lasting suds than any soap in hardest water! Tide cuts grease like magic... washes dishes cleaner than any soap! No scum in the water! No greasy ring round the pan! No cloudy film on dishes and glasses! That's why they rinse and dry so sparkling clear—even without wiping!

GUARANTEE—Procter & Gamble guarantees that Tide will do everything claimed for it in this advertisement. If you are not completely satisfied, return the unused portion of your package to dealer, and the purchase price will be refunded.

**NEW ELEPHANT
POLITICAL BAIT**

LOS ANGELES, May 20. (AP)—The Los Angeles Zoo housed its first elephant in four years today and a group of local politicians promptly took advantage of the situation by naming the pachyderm "GOP."

Zoo officials however, careful of a lady's feelings, declined to name the newcomer immediately. Just off the boat yesterday from Siam, the five-year-old female elephant appeared shy and wobbly on her piano-type pins. One bystander observed that she possibly was seeing pink people.

"GOP" got a friendly reception from everyone except a nearby donkey. It let out a raucous bray.

**Atomic Scientists
Hit Loyalty Probe**

OAK RIDGE, Tenn., May 20. (AP)—The suspension of two physicists from access to restricted atomic files brought the assertion from other atomic scientists here today that continued accusations against their loyalty will make it more difficult to get scientists to work for the government.

An official for the Atomic Energy Commission announced yesterday that the two physicists had been suspended pending a check on their loyalty status.

In Washington, an AEC official said the investigation of the two "involves character and associations" together with the regular loyalty check made on all employees of the atomic commission. Chairman Hickenlooper (R-Iowa) of the Joint Congressional Atomic Energy Commission said he wanted a report on the investigations.

The atomic scientists in their statement said that aside from making "it increasingly difficult to enlist the services of scientists on government projects," the accusations and inquiries into their loyalty have left them "seriously demoralized."

**Children Say
Man Drunk That
Killed Youth**

DALLAS, May 20. (AP)—Testimony possibly will be concluded today in the trial of Joseph J. McCarthy, 41-year-old Oklahoma City nurseryman who is charged with murder without malice in the truck death of a boy.

McCarthy, whose truck fatally injured eight-year-old Johnny Schwab on a Dallas County highway last Feb. 27, testified yesterday he was not drunk and had not taken a drink all day on the day of the accident.

Earlier, two other Schwab children and another child had testified that the nursery man "looked drunk" following the mishap. So had 11 other witnesses.

Among witnesses yesterday were Mary Helen Schwab, 12, and Jackie Schwab, sisters of the accident victim, and Lorie Willis, 15, companion of the Schwab children at the accident scene.

The children said they were knocked into a water-filled ditch by McCarthy's truck. Mary Helen said she was helping her sister Jackie out of the ditch and that McCarthy said: "Let her drown." McCarthy denied making such a statement.

Most of the accusations, the scientists said, were trivial, and the accusations against the two physicists were based on unsubstantiated rumors.

Furthermore, said the statement issued by the Oak Ridge Association of Engineers and Scientists, the charges consisted mainly of statements "that could be made about almost anyone who has had the varied contact normal in college and work."

**Canada Preparing
To Deport Union Man**

TORONTO, May 20. (AP)—George Knott, American union organizer, faces deportation proceedings here today. A high Ottawa official said Knott, who was arrested yesterday as a suspected Communist, probably will be deported to the United States soon.

The official said the government's move was in line with government policy to rid Canadian labor unions of alien Communists. He said unless Knott delayed the action by appealing to the courts, he would be escorted across the border, probably at Buffalo, N. Y., within the next few days.

**Siamese Publisher
Critically Wounded**

BANGKOK, Siam, May 20. (AP)—Suri Thongwanitch, newspaper publisher and outspoken critic of the Siamese government, was shot and critically wounded last night as he stepped into a jeep at the doorway of his home.

A gunman, who had been walking outside, shot the editor through the back of the head. His condition was critical.

His newspaper, the Voice of the Siamese, has strongly attacked the military influence in Siamese politics.

Training Ends

SEOUL, May 20. (AP)—The Korean interim legislature, formed in 1946 to train Koreans in legislative procedure, held its final meeting today. The National Assembly, elected May 10, will take over next week.

**PRINCIPAL UPHELD IN WHIPPING
STUDENTS FOR ODOR OF 'RAMP'**

BECKLEY, W. Va., May 20. (AP)—The Raleigh County Board of Education has upheld a school principal's right to whip children who come to class "exhaling the odor of 'ramps.'"

The ramp is a particularly pungent branch of the wild onion family, which children hereabouts sometimes nibble on the way to school.

Fred C. Roberts, principal of the Trap Hill High School, testified the smell "could be likened to that of a polecat," and said some of his pupils were made ill by the breaths of offending classmates.

He told the board he had asked children to hold their ramp-chewing until Friday afternoon, and announced a policy of segregation for the first offense and whipping for the second.

The board voted three-to-one at this week's meeting to dismiss charges of undue cruelty against Roberts. The negative vote was cast by J. E. Daniels, whose son, Dennis, was one of the boys involved and who brought the charges.

**Funds Allocated
For Egypt Forces**

CAIRO, May 20. (AP)—The Egyptian chamber of deputies adopted today a bill allocating five million pounds (about \$20 million) to meet the expenses of the Egyptian army.

The parliament last week approved the allotment of four million pounds (about \$16 million) for the same purpose.

**Man's Remnants
Found In Shark**

HONG KONG, May 20. (AP)—Fishermen said today they caught a giant 450-pound shark containing the remnants of a man's body off Cape De Gullar.

The only identifying article appeared to be a piece of a U. S. Army jungle green trousers—worn by countless natives in this part of the world since war's end.

Serve Spring Soups To Add Menu Variety

Associated Press Food Editor

There are good hearty recipes in a cook book called "From A Grosse Ile Kitchen" by Lucy and Sidney Corbett, published by Harper and Brothers, New York. The result of a husband-and-wife collaboration after Sidney Corbett was struck with paralysis, the book is not only about food but also about "fun and friends."

The Corbetts know the perfect soup for this time of year—leek and potato—of course. Hear them tell about it and see if your fancy doesn't turn to the kitchen.

"Leek and potato soup, made with milk—an almost forgotten spring delicacy! The leek is a sort of glorified spring onion. It has a green top, a white stem, a bulbous root with a feathery bottom, and a tough rather inedible outer skin. Cut off some of the green top and peel away the tough outer skin. Then cut all the remainder crosswise in quarter-inch slices. Allow one good-sized leek per person. Peel and dice two medium-sized potatoes per leek. Chop fine one large stalk of celery. Now put leeks, potatoes, and celery into a covered pot and boil slowly. Use only enough water to cover, and boil until leeks, celery and potatoes are reduced almost to a pulp.

Then cut about three slices of bacon or salt pork—salt pork is better—into 1-4 inch cubes. Fry out the cubes slowly in a frying pan.

"By now the leeks, potatoes and

celery should have boiled well down. Take the cover off the pot, add the bacon or salt pork cubes, and stir in. Add milk—two cups per person—and bring everything to a boil—very slowly, stirring occasionally to prevent burning, until the soup is the consistency of good cream. Salt and pepper to taste, but be careful of the salt if you have used salt pork rather than bacon for the cubes.

"While all this is in progress, cut slices of stale bread—one slice per person into half-inch cubes and brown the cubes in the remaining hot fat in the frying pan.

"When all is ready, serve the soup in a tureen or ladle directly into bowls. Put the croutons in another bowl—heat it first—and sprinkle a liberal handful atop of each bowl of soup as it is served. Delicious, delicate, satisfying—an ideal spring dainty."

Here is another good soup for spring. Served with a crisp salad and a fruit dessert, it will make an excellent company lunch.

Cream of Chicken Soup With Special Garnish

- 4 tablespoons butter or margarine
- 2-3 cup flour
- 1 teaspoon salt
- 3 cups hot milk
- 1-4 teaspoon poultry seasoning
- 3 cups rich chicken stock
- 1/2 cup diced chicken, cooked
- 1 1/2 cups puffed rice
- 1/4 cup melted butter or margarine
- 1/2 teaspoon curry powder
- 1/4 teaspoon turmeric
- 1/2 teaspoon salt

Melt 4 tablespoons butter or margarine in heavy saucepan. Add flour, salt and stir until it bubbles. Add hot milk slowly, stir until smooth and cook until thickened. Blend in chicken stock, add meat and heat very hot. Garnish with puffed rice mixed and crisped with 1/4 cup melted butter or margarine blended with curry, turmeric and salt. Six servings.

Hollandaise Sauce

Always looking for a way to dress up ordinary vegetables and make them more colorful and flavor-rich? Then top your vegetables off with a sauce that's tops in taste-appeal. (It's fine for eggs and fish, too.)

Hollandaise Sauce

- 3 egg yolks
- 4 tablespoons boiling water
- 2 tablespoons lemon juice, gently warmed
- 1/2 cup fortified margarine, melted
- Dash Cayenne
- Salt to taste

Place small bowl over, not into, a pan of gently boiling water. Drop the egg yolks in bowl and beat with rotary beater until they begin to thicken. Add the melted margarine, thickener. Continue to beat, adding the boiling water, a tablespoon at a time, until well beaten in. Beat in the warm lemon juice. Remove bowl from over the boiling water; continue to beat and gradually add cayenne and salt to taste. Keep warm, not hot, place until ready to serve. Makes a cup of sauce.

Two new refrigerator accessories are a plastic divider for ice cube trays that is described as non-sticking, and a plastic, stain-proof vegetable tray with hinged lid.

With the assistance of a completely equipped hospital with 16 beds, the M. S. Sobieski of the Bydala America Line had a record this spring of five births at sea.

Let Potatoes Share In Strategy Of Kitchen On High Food Costs

By CECILY BROWNSTONE Associated Press Food Editor

Are you letting potatoes share in your kitchen strategy? Between food prices and conservation you have to maneuver menus if you want to give your family nourishing and delicious food and still stay within budget bounds.

Here's a delicious potato dish that uses meat economically and can be served for lunch or supper:

- Special Stuffed Potatoes**
- 4 large hot baked potatoes
- 1-3 to 1-2 cup hot milk
- 4 tablespoons butter or fortified margarine
- Salt and pepper
- 1 cup cubed meat
- Cut each hot baked potato in half lengthwise; or cut off a slice from each one. Scoop out inside of shell; mash or press potato through a ricer. Add hot milk, butter or margarine, salt and pepper to taste and beat until light and fluffy. Add mixture lightly into four of the potato shells. Return stuffed potatoes to oven or broiler to brown slightly. Makes four servings.

Ever bake a chocolate potato cake? **Mexican Potato Cake**

- 1 cup sifted enriched all-purpose flour
- 2 teaspoons baking powder
- 1/2 teaspoon cinnamon
- 1/2 teaspoon powdered cloves
- 1/2 teaspoon powdered nutmeg
- 1/2 cup butter or fortified margarine
- 1 cup sugar
- 2 eggs, well beaten
- 1/2 cup milk
- 1/2 cup fluffy ricied potatoes
- 1 1/2 squares (1 1/2 ounces) unsweetened chocolate, very coarsely grated
- 1/2 cup finely chopped walnut or pecan meats

Sift together flour, baking powder, cinnamon, cloves, and nutmeg. Cream butter or margarine, add sugar gradually and continue to cream until light and fluffy. Add eggs, milk and potatoes. Beat thoroughly and add dry ingredients along with chocolate and half the nuts. Turn into 8-inch square cake pan which has been greased. Sprinkle batter with remaining one-half cup nuts. Bake in a moderate (350 F.) oven for 50 to 55 mins. or until done. Turn out on cake rack, remove waxed paper, turn cake right-side up again, cut in squares and serve hot with whipped cream.

Ohio State Compiles Huge Record Library

COLUMBUS, O., May 20 (AP)—The recent broadcast of a haunting organ melody puzzled even some long-hair music lovers.

"Such a strange composition," they reflected, wondering if they had heard it before.

They probably hadn't. The radio announcer explained why:

"You have just heard a real collector's item—an irreplaceable record of what is believed to be

the shortest symphony ever written.

"It is Symphony No. 4 by William Boyce, an obscure English composer who died in 1799. Only three minutes are required to play its three movements."

The three-minute symphony probably would rate "Oh's" and "Ah's" from record fanatics outside Ohio. But the listeners were not too surprised.

They were tuned to WOSU, the 5,000-watt station operated by Ohio State University.

WOSU claims the largest non-commercial phonograph record library in the world. Thirty-five per cent of its disks are in the rare, difficult-to-replace class.

The library consists of 12,000 records, and 5,000 electrical transcriptions, neatly filed like books in floor-to-ceiling cases. Seventy-five per cent of them are classical.

Consequently, radio listeners can get classical or semi-classical music from WOSU at almost any time of the day. One-third of its time it is on the air from 8 a. m. EST, to 7:15 p. m. on 829 kilocycles is devoted to music of famous composers.

The library is so extensive that WOSU could maintain its present musical program schedule (350 records a week) for perhaps two years without playing the same record twice, says Alice McCuskey, assistant program director.

Compositions by Mozart alone could consume a month of normally scheduled broadcasting. The same is true for Bach, Haydn and Schubert.

WOSU also uses another library, of 6,000 records, owned by the university's department of music.

Every composer whose music ever was recorded is represented in the WOSU collection.

GIFT HAS FANCY FACE

NEW YORK, May 20 (AP)—Columbia University has received a gift of eight million dollars but it won't be erecting any new buildings with the money.

The dollars are Chinese, donated by Tung-Li Lung of Peiping, an alumnus. They are worth about \$25 in American money.

Blind Man Proves Good Car Washer

CLEVELAND, May 20 (AP)—People come from miles around to watch Forrest Hill, 30-year-old blind Negro, perform his work as a car washer.

Harry Johnson, his boss at a gasoline station at Washington Boulevard and Lee Road, says Hill is "tops" as a washer.

"His speed is just average, but the result is perfect," Johnson declared. He never misses a spot. When he has finished a job on a car it is really done. He is so good that a lot of people wait around until he can get to their cars.

Hill lost his sight two years ago when the optic nerves in both eyes were severed in an automobile accident.

He tries to make up for his lack of sight by his sensitive fingers. He goes over each car twice with a hose and his fingers tell him if he has missed a spot.

Miss McCuskey believes. Only one composer is represented by just a single record. He is the Hungarian, Szentirmai. His work is "The One Little Girl in the World," played by a Hungarian gypsy orchestra.

While Boyce's No. 4 is the shortest symphony in the collection, it is not the briefest recording. Chopin's Prelude No. 5 in A major consumes but 28 seconds.

The longest composition runs three hours and 20 minutes. It is Bach's most famous sacred work, "St. Matthew's Passion."

Miss McCuskey estimates that 90 per cent of WOSU's listeners prefer the classical or semi-classical music. She believes the popularity of this type of music is growing generally.

With all its rare records, however, WOSU isn't worried by replacement problems. "There never has been any breakage that I can remember," Miss McCuskey says. "And since we play them only once or so every two years, we hardly have to worry about them wearing out."

Japs To Rebuild Statue Of Dog

TOKYO, May 20 (AP)—Dog lovers have arranged for a new statue of Hachiko, Japan's most famous dog.

Hachiko became famous in the '20's. Each night he met his master at the busy Shibuya railway station here. When the master died,

Hachiko did not understand. Nightly he met the commuter trains for 11 years looking for his master.

After he died in 1934, a statue was raised by commuters to his memory. They grew accustomed to meet "in front of Hachiko."

During the war the statue was melted down for the army. People made much ado over Hachiko going to war and a farewell ceremony was held.

Now they are to bring him back.

Wallace Would Visit Stalin

SAN DIEGO, Calif., May 20 (AP)—If it would help the cause of peace, Henry A. Wallace would visit Premier Stalin.

Replying to a question from the audience at his speech here last

Big Spring (Texas) Herald, Thurs., May 20, 1948 3

night, the third party presidential candidate declared:

"If I was confident that by going to Moscow and talking to Stalin the cause of peace would be forwarded, I certainly would go."

Disputing a State Department view that it cannot enter negotiations on world issues with Russia, he cited Article 33 of the United Nations charter.

The article provides that "parties to any dispute which threatens strife or endangers the peace of the world shall first of all seek solution by negotiations."

"I wonder," said Wallace, "if Secretary Marshall is fully aware of Article 33?"

About 2,000 persons heard the former vice president.

Just add cold milk or water to Pi-Do and mix lightly. Tender, flaky pastry is yours every time... for every kind of pie!

You Simply Can't Fail

Fig Filled Meringue Makes New Dessert

Let's have steak on Wednesday—not tenderloin but tender. But let's keep the cost in line with the budget by cubing or scoring the less expensive grades of beef and cooking steaks country style to "tenderize" them.

There is good eating in cubed steaks cut from round, rump or blade, as thrifty cooks have always known. If your steaks aren't cubed at the market, use a sharp knife and make cuts about one-eighth inch deep and about a half inch apart across the grain and again in the opposite direction. To counter fry the steaks—dredge in flour and season with salt and pepper. Place in pan with 2 tablespoons cooking fat and brown on both sides. Cover—adding a small amount of water if steaks seem dry. Cook until done. Make gravy from drippings. Time of cooking depends on the grade of steak used.

Fluffy, well-seasoned mashed potatoes lend themselves naturally to this steak dinner. Food specialists suggest snap beans for the green vegetable—snap beans flavored with one small onion minced if those at your table like them; this

way. Make your salad of citrus fruits, perhaps orange and grapefruit sections served with a honey French dressing.

A dessert with a delightfully different flavor would be fig meringue. And it's timely because figs are generally abundant at the market and are one of the few products that have recently declined in price.

FIG FILLED MERINGUE
2 egg whites
1-4 teaspoon vinegar
1-4 teaspoon vanilla extract
Salt
1-2 cup granulated sugar
Beat the egg whites until frothy; add the vinegar, vanilla and salt. Continue beating until stiff but not dry; add the sugar slowly—1 tablespoon at a time. Beat thoroughly. Shape meringue in rounds, with a "nest" in the center, on a baking sheet lined with heavy paper. Bake in a slow oven (250 F.) for 45 minutes. Makes 8 or 9 meringues. Remove from the paper while warm. Fill with fig filling made as follows: Combine 3-4 cup unseeded, cooked dried figs, 1-2 unpeeled orange cut in small pieces and 3 tablespoons strained honey. Heat until ingredients are well blended and thoroughly heated, stirring to prevent burning. Serves 5 or 6.

FOOD TIPS: You may find one, two or three types of figs at your grocer's. The less expensive cooking figs usually are the Mission figs, so-called because they were the variety planted around the missions in Calif., by the early Spanish missionaries. The Adriatic figs or the Calimyrnas. Mission figs are dark, contain small seeds and have a distinctive flavor which many persons like. The Adriatic figs are amber-colored. Calimyrna figs are larger and sweeter than the Adriatic. For cooking, buy one of these varieties whole in bulk. Pressed packaged figs commonly sold as confections are generally higher priced.

Milk Chocolate Brazil Nut Wafers

1/4 cup sifted enriched flour
1/4 teaspoon salt
1/2 cup fortified margarine or butter
1 cup sugar
1 large egg
1 teaspoon vanilla
2 squares (2 ounces) semi sweet sandy-making chocolate, melted
1/2 cup thinly shaved Brazil nuts
Sift flour and salt. Cream shortening, add sugar gradually, and cream together until light and fluffy. Add eggs and beat well. Stir in chocolate and vanilla. Sift in flour and salt, mixing until well blended. Mix in shaved nuts. Drop from tablespoon on lightly greased baking sheet, placing about 2 inches apart, and spread into flat rounds with knife. Bake in slow (325 F.) oven about 20 minutes. Makes 3 dozen very crisp cookies, about 3 inches in diameter.

Custard Sauce

1 cup milk
2 egg yolks
2 tablespoons sugar
1/4 teaspoon salt
1/4 teaspoon vanilla
Scald milk in double boiler. Beat egg yolks slightly; add sugar and salt. Stir scalded milk gradually but vigorously into egg yolks and return to double boiler. Keeping water in lower part of double boiler just below boiling point, cook the custard, stirring constantly until it is thickened and will form a coating on a metal spoon. This will take 15 to 20 minutes. Remove from heat, add vanilla and place over cold water to cool quickly. Chill 4 servings.

Breneman Estate Is Left To Widow

LOS ANGELES, May 20. (AP)—The \$250,000 estate of Radio Master of Ceremonies Tom Breneman has been left to his widow, Billie Dunn Breneman, former actress.

Of the total gross income from poultry in the United States in 1947, 67 per cent was from eggs, 24 per cent from chickens, and 9 per cent from commercial broilers.

Creamed Cheesed Potatoes

1/4 cup boiling water
2 1-4 cups cubed raw potatoes
2 tablespoons butter or margarine
1 1/2 tablespoons enriched all-purpose flour
1 teaspoon salt
1/4 teaspoon pepper
1/2 cup grated yellow cheese
Dash paprika
Cook cubed potatoes over medium heat until just tender, about 10 minutes. Melt butter or margarine in another saucepan over low heat. Add milk and water drained from potatoes (there should be about 1-3 cup), stirring until smooth after each addition. Return sauce to low or medium heat and stir constantly until it thickens and boils. Then continue to cook 1 to 2 minutes longer to cook flour completely. Add grated cheese and paprika and stir over very low heat until cheese is melted. Add cubed potatoes and reheat gently. 4 to 5 servings.

Baked Salmon, Rice And Cheese

1 cup long-grain rice
3 tablespoons butter or margarine
2 tablespoons enriched all-purpose flour
1 teaspoon salt
Dash of freshly-ground pepper
1-4 teaspoon dry mustard
1 1/2 cups milk
1 large can salmon
1 cup (1-4 pound) grated sharp cheddar cheese
Wash rice in hot water several times and cook in a large quantity of boiling salted water until just cooked through, about 15 minutes. Drain and wash off excess starch by holding under running water; drain well again. Melt butter or margarine in a saucepan over low heat; add flour, salt, pepper and mustard and stir until blended. Remove from heat; add milk and liquid and oil from salmon gradually, stirring until smooth after each addition. Return sauce to low or

Brown Betty With Cream

1-4 cup butter or fortified margarine
3 cups 1/4-inch bread cubes, with crusts left on
4 cups peeled thinly sliced tart apples
1/2 cup sugar
1 teaspoon cinnamon
1/4 teaspoon mace
1 tablespoon grated orange rind
1-3 cup warm water
Thin cream
Melt butter or fortified margarine, add bread cubes and saute medium heat and stir constantly until it thickens and boils. Remove from heat and add rice, salmon (flaked in large pieces) and grated cheese. Turn into a medium-sized casserole and bake in moderate oven until heated through, about 30 minutes. 8 servings.

over low heat, stirring constantly until crusty and brown. Put apples, sugar, cinnamon, mace and orange rind in a small bowl and mix well. In greased 1 1/2 quart casserole place alternate layers of apple mixture and bread cubes. Pour warm water over all. Cover and bake in a moderate (350 F.) oven for about 1 hour. Uncover and continue baking until apples are soft, about 30 minutes. Serve with thin cream. 4 to 6 servings.

Handy as can be!

Durkee "quarters" look so tempting and taste so good . . . served whole or sliced into attractive patties. Grand for cooking and baking, too. It's easy to measure when you use the 1/4 lb. print! Buy a pound or two now.

FEAR EUROPE AID

South Americans Want U.S. Machines

WASHINGTON, May 20 (AP)—Below the Rio Grande, from Mexico to Argentina, there are men, both in and out of the government, who resent the large chunks of American aid going to Europe. Latin resentment on the subject is one of the large hurdles the State Department has ahead of it in keeping friendly nations tied to the American plan for keeping the peace and rebuilding the peaceful sections of the world.

Latin resentment is not caused so much because American aid—much of it charity—is going to another portion of the world. It is rather because the Latins want American machinery to build up their own manufacturing industries. And they fear that the Marshall plan for Europe will send most of the United States' extra machinery across the Atlantic and that little machinery will be left to ship south to the Latin countries. And there is another difference. The Latins are not so much interested in aid-free help—as they are in just the right to buy the machinery which is now very short in the world. Many of the Latin nations are able to pay cash if they can just get the allocations.

In conference after conference they have made this plea for machinery. At the United Nations, at the Havana conference on world trade, and at the recent Inter-American conference at Bogota, the Latins have argued that they must have the machines to set up some manufacturing industries. Historically, the Latin nations have supplied the industrial nations to the north with the raw materials for their factories and grocery stores—minerals, grains, leather, and meats. In return, they have bought autos, locomotives, radios, clothes, electrical equipment, and so on.

Now they are determined to turn out some of their own manufactured goods. But they need our machines to get a good start. In particular they want machines for transportation, power equipment, and some machines to turn out the most essential consumer goods.

From our side, various U. S. officials have argued: (1) The U. S. can't help Europe and Latin America at the same time to the same degree. (2) Peace and revived

trade in Western Europe (which will be helped by the Marshall plan) is just as important to Latin America as it is to the United States. (3) Many of the dollars which Europe gets through the Marshall plan will be spent in Latin America. And Latin America will be free, in turn, to spend those dollars in the United States markets. (4) Latin American governments must be careful to industrialize gradually enough so that when they get machines, their people will be able to run them efficiently, as fast as they arrive. (5) Some Latin countries are already buying more than they can afford, and hence should pull in their belts for a while before they go deeper in debt for more foreign purchases. (6) At the same time the Latins are demanding machines for their own manufacturing industries, they are talking about new tariffs to keep out foreign goods, including American goods. So, in effect, the United States is being asked to help start a Latin American manufacturing industry. At the same time U. S. factories are being denied the right to sell in Latin American markets.

Talk on this subject with the Latin American countries has been intense for some time. Both sides show good will in trying to get a friendly solution. Both the North and South American continents recognize that they need each others' friendship, in the face of alarms from the Old World.

Vocational Students Will Be Certified

Fourteen trades and industries students will receive certificates at commencement exercises today.

Their completion of the 2,450-hour course prescribed by the state board of vocational education will create vacancies which will need to be filled before the next term of school, said Stanley Cameron.

Students interested in the vocational training, which requires half a day in school on related study and half a day actually on the job, should see Cameron.

Those who are graduating and receiving occupational training certificates from the state board are: Retail selling—Betty Bearden (C. R. Anthony Co.), Neta Betterton

(Wacker's), Bobbie Fields and Bonny Gill (McCrory's), Horace Ivey (Burr's), Vancil Scott (Lakeview Groc.), and Roy Shepherd (Piggly Wiggly).

Office Training—Barbara Olson (Retail Credit) and Nidra Williams (First National bank); electrical—Gilbert Pachall (Texas Electric Service Co.) and Dale Thetford (Wilson Electric); dental assistant—Oleta Williams (Dr. W. B. Hardy).

Charles Bailey, radio service student with Modern Appliance, and A. J. Betterton, retail selling student at White's store, will receive certificates for their course, but will not graduate from school this year.

IT'S GOOD TO KNOW

Mrs. Tucker's HOME MAKING HELPS

Smart is the man whose appreciation keeps diamonds in his wife's eyes as well as on her fingers.

© 1948 M.T.F.

Hot weather tip guaranteed to keep you and your kitchen cooler this summer. Mrs. Lynn W. Osborn, Muskogee, Okla., gets \$10.

Make the pastry for a two crust pie; bake the lower crust as for a pastry shell, then roll out the top crust and bake it on a baking sheet. While the pastry is baking, cook the fruit filling on top of the range. Cool both pastry and filling, then pour filling into pastry shell. Slide the top crust in place and you have a pie with the minimum of effort and heat.

Never get in a hurry for starch to cool! Mrs. O. C. Christensen of Houston gets \$10 for this suggestion: Add a tray of ice cubes to the hot starch. The starch cools and is not diluted too much.

\$10 instead of a penny for your thoughts, if published! Send recipes, menus and home-helps to Mrs. Tucker's Homemakers' Department, Sherman, Texas.

GLORIFIED HOMINY

- 1 medium onion chopped fine
- 1 tablespoon MRS. TUCKER'S SHORTENING
- 1 small can hominy
- 1/2 cup tomato puree
- 1/2 cup grated cheese
- 3 slices bacon
- 1 teaspoon chili powder, if desired
- Salt and pepper

Cook onion slowly in MRS. TUCKER'S SHORTENING until done but not browned. Drain hominy, add to onion, then add tomato sauce, chili powder if used, salt and pepper. Heat through, then place in oiled baking dish. Sprinkle cheese over the top and strip the top with the bacon cut in half. Bake in moderate oven (350 degrees) until bacon is crisp. Serves 2 to 4, and Mrs. Mary Dodson, Austin, Texas, receives \$10.

TAKE YOUR CHOICE!

Bar Association Endorses Collings

Cecil Collings, district judge, has the endorsement of the Howard County Bar association in his bid for promotion.

Judge Collings was endorsed by the Howard County Bar association, said Rupert Ricker, president, in a special meeting, and W. S. Morrison, George Thomas and John Coffee were named as a committee to draw articles of endorsement.

Judge Collings announced Sunday that he would be a candidate for the post of associate justice on the Eleventh Court of Civil Appeals.

Rope making was one of America's earliest industries. A man in Boston produced it commercially as early as 1630.

Commuters Go 1000 Miles To Honolulu

HONOLULU, May 19 (AP)—Inflation? Housing shortage? Nothing like that plagues residents of this city's most outlying suburb.

That's the report of a commuter who made a 1,000-mile trip downtown recently.

Otto Hourning, Jr. spanned a mighty broad stretch of the Pacific when he flew from Palmyra atoll to go shopping. But the jaunt was actually from one part of town to another for Honolulu's city limits are 960 nautical miles to the southwest—just beyond Palmyra.

"The 57 Americans living out there regard themselves as the forgotten people of the territory," Hourning said.

Once a blooming naval airbase, the atoll dozes now in the backwash of Pacific activity. It is populated by 32 men, 14 women and 11 children who hold down a small weather station and emergency air strip for the Civil Aeronautics Administration.

Just a string of 52 damp islets, Palmyra boasts no post office, school or night club. There is no dentist and no doctor. There are no office holders—except an unofficial "deputy high sheriff" who serves without pay.

Palmyra hasn't always basked in peace and quiet.

A Japanese cruiser shelled its military installations in 1942, and a wild storm sent high tides over most of its land a year ago.

Smitherman Rites Held

Last rites were said today for George M. Smitherman, 62, Sand Springs businessman, who died suddenly at his home Monday morning.

Mr. Smitherman had been in business at Sand Springs for the past two years, having come from Iatan, where he had resided since 1929.

Services at the Eberley chapel were in charge of the Rev. J. F. Fields, Penwell Baptist pastor, and burial was in the Iatan cemetery.

Mr. Smitherman leaves his wife; two sons, George J. Smitherman, Bessemer, Ala., and M. L. Smitherman, River Junction, Fla.; four brothers, Frank, M. L., G. H. and C. M. Smitherman, all of Lawley, Ala.; and three sisters, Mrs. J. C. Cleveland of Selma, Ala., Mrs. S. D. Johnson and Mrs. Luara Anderson of Birmingham, Ala.

C of C Declares May 31 Holiday

May 31 is to be a full holiday in Big Spring, the chamber of commerce retail committee and the Retail Merchants bureau have reminded.

Under a schedule of holidays adopted at the outset of the year, the plan of observing Memorial Day—May 31—as the day honoring the dead of all wars, was agreed upon.

It was felt that this would eliminate questions about observing V-E, V-J or Armistice Days.

Consequently, general business will be halted in Big Spring one week from Monday.

Photo Memory Locates Dog

OMAHA, May 20. (AP)—A man with a long memory was credited today with reuniting a dog, missing for three years, with its mistress.

Emil Hampl of Omaha saw the dog, recognized her from a picture published by an Omaha newspaper Sept. 12, 1945 at the time the dog was lost.

The dog, Queenie, belonged to Mrs. Jo Ann Ross Nicholson, formerly of Fort Collins, Colo., now of Pittsburgh. Queenie broke away between trains at Union Station during a train trip. Mrs. Nicholson advertised anxiously and the railroad apologized and made amends.

The dog turned up at the home of Mr. and Mrs. Paul L. Ehlers of Omaha who named her Daisy and gave her a home.

Hampl recently visited his mother-in-law, Mrs. Ehlers, and recognized the dog from the old newspaper picture. Mrs. Nicholson was notified.

Construction Start Near For SA Building

The Salvation Army is ready to pour foundations on its emergency shelter building, Capt. Olvy Sheppard said today.

As rapidly as funds or materials will permit, the eight-inch concrete piers will be placed under structures at the playground area, he said. There is some possibility that some material will be donated for the work, said Capt. Sheppard.

In the meantime, a quantity of pipe secured with buildings from the post, and which are not suitable for other purposes, have been laid to furnish lines to trees in the playground area. This may eliminate loss of trees, he added.

Gum arabic is used to suspend insoluble compounds in liquids.

CAREY'S IODIZED SALT

CAREY'S carries the FLAVOR!

SPECIAL TOWN-WIDE SALE LIMITED TIME ONLY

SAVE 15¢ ON A 25 LB. SACK OF GOLD MEDAL FLOUR WITH COUPON BELOW

Try this double-delicious DOUBLE-QUICK Betty Crocker New Method DOUBLE CHOCOLATE CAKE

NO CREAMING... NO EGG-BEATING

Perfect results assured only with Gold Medal "Kitchen-tested" Enriched Flour

For success—do these first:

- Have all ingredients room temperature.
- Preheat oven to 375° (quick moderate).
- Grease generously and dust with flour 2 round layer pans, 8-in. diameter, 1 1/4-in. deep (or 9-in. diameter, 1 1/2-in. deep).
- Measure level for accuracy with standard measuring cups and spoons.
- Sift GOLD MEDAL "Kitchen-tested" Enriched Flour, then spoon lightly into cup and level off. Do not pack.

1. Sift together into bowl... 1 1/2 cups sifted GOLD MEDAL "Kitchen-tested" Enriched Flour, 1 1/2 cups sugar, 1/2 tsp. double-action baking powder, 1/2 tsp. soda, 1 tsp. salt

2. Add... 1/2 cup high grade vegetable shortening, 1 cup milk, 1 tsp. vanilla

3. Beat vigorously with spoon for 2 minutes by clock (about 150 strokes per minute). You may rest a moment when beating by hand; just count actual beating time or strokes. Or mix with electric mixer on slow to medium speed for 2 minutes. Scrape sides and bottom of bowl frequently.

Add... 1/2 to 3/4 cup unbeaten eggs (2 large), 2 sq. unsweetened chocolate (2 oz.), melted, 1/2 tsp. red food coloring

4. Beat 2 more minutes, scraping bowl frequently. Pour into prepared pans. Bake 30 to 35 minutes in quick moderate oven (375°). When cool, frost with Chocolate Icing Deluxe (recipe below). *You may use 6 tbsp. cocoa in place of chocolate. Increase shortening by 1 tbsp. and sift cocoa with dry ingredient.

CHOCOLATE ICING DELUXE

Beat with spoon or electric mixer until fluffy 1 large unbeaten egg, 2 cups sifted confectioners' sugar, 1/4 tsp. salt, 1/2 cup soft shortening, 2 sq. unsweetened chocolate (2 oz.), melted.

Secrets Of Meringue Are Now Revealed Here

Don't worry, if you're a new housekeeper, about producing a wonderful meringue—all the mysteries of their private lives have been delved into by cookery experts. There's no reason why the white of the egg and you shouldn't get along perfectly together.

In the first place, there are two kinds of meringues, soft and hard. The soft, fluffy, mile-high kind is seen on the best lemon pies. The harder variety is used for that French concoction, meringue glace, and for other delectable dessert trifles. Master the soft meringue directions given here then try a cookbook recipe for the other variety.

The hows and whys of beating the egg whites, the method of adding the sugar, the baking temperature and time—all these are matters of the greatest moment in a meringue's life. Two tablespoons of sugar per egg white makes for a less fluffy, less tender produce—and it won't be sweet enough. But watch out! Too much sugar makes for a gummy meringue or one that has a deposit of sugar crystals.

Use powdered sugar or very finely granulated sugar for meringues. Do not use confectioners' sugar because of the small amount of cornstarch it contains. And when a meringue recipe suggests that you add sugar gradually, do so. Gradually in this case means about a tablespoon at a time, sprinkling it over the top of the egg white and beating after each addition until the mixture is smooth and glossy.

Slow and complete blending of the sugar is absolutely necessary. Try the taste-test to make sure the sugar is dissolved—if it's the least bit grainy, it's not.

Another word of warning. A meringue is temperamental and hates to stand around. Don't mix it until the pie is ready for it. The filling, if cooked separately, should be in the baked crust—cool and waiting.

When the filling is baked right in the crust the whole thing must be cooled before spreading with the meringue. Anything is likely to happen if you put a meringue on a hot filling—it may "weep", shrink, get tough! "Weeping" means little beads of liquid accumulate on the meringue after baking.

In spreading the egg white mixture over the pie bring it to the very edge of the pastry and make

a firm seal. It's said that this helps keep moisture from gathering between the filling and the meringue and prevents shrinkage. But don't smooth out the meringue—leave it rough if you want handsome sun-tanned peaks when it's finished!

A slow to moderate temperature is usually used for the modern pie meringue—325F. to 350F., and the time is about 15 to 20 minutes. There are other places for soft meringues, by the way, besides a pie. Right now, when it's a good idea to use fruit without flour, try them on peaches or apples. Use large canned peach halves, fill with candied chopped pineapple and top with a spoonful of meringue; one egg white beaten with one tablespoon of powdered (not confectioners') or finely granulated sugar will be enough for about six large peach halves.

For an apple delight try the following recipe:

Meringue Apples
6 firm tart apples
3/4 cup brown sugar, firmly packed
Cinnamon
Lemon juice
2 tablespoons butter or fortified margarine
3/4 cup sugar
1 cup water
2 egg whites
4 tablespoons sugar

Wash and core apples. Peel skin about 1-3 of the way down. Fill center cavity of each apple with 2 tablespoons brown sugar and sprinkle with cinnamon and a dash of lemon juice. Dot each apple with 1 teaspoon butter or margarine. Place in baking pan. Add the 3/4 cup sugar to the water and stir over low heat until thoroughly dissolved; boil for 5 minutes without stirring. Pour syrup around apples and bake uncovered in moderate (375F.) oven 25 to 30 minutes or until tender, basting frequently with syrup in bottom of pan. Remove from oven and cool in syrup. Make meringue by beating egg whites stiff but not dry. Gradually beat in 4 tablespoons sugar, a tablespoon at a time; continue to beat until smooth and glossy and mixture will stand in stiff peaks. Pipe meringue on top of apples. Bake in a slow (325F.) oven for 15 minutes or until delicately browned. Serve cold with apple syrup and cream. 6 servings.

Chicken Chop Suey

Chicken Chop Suey may seem rather special for a family dinner but it is worth the trouble since it only takes about half the meat from a good-sized hen, leaving the rest of the meat for the main dish of another meal—chicken pot pie with biscuit crust, for instance, or braised chicken.

CHICKEN CHOP SUEY

1 green pepper
2 cups shredded onion
2 tablespoons table fat
2 cups shredded celery
2 cups chicken broth
1 tablespoon cornstarch

1 tablespoon cold water
2 cups cooked chicken
2 cups canned bean sprouts, or cooked Jerusalem artichokes
Soy sauce
Salt
Cook the green pepper and onion in the fat for a few minutes. Add the celery, broth and cornstarch mixed with water. Stir until smooth and slightly thickened. Cover and simmer for about five minutes. Add the chicken and bean sprouts (or cooked artichokes). Heat thoroughly. Season to taste with soy sauce and salt. Serve with hot grits or fried noodles. Serves 4 to 5.
Menu Suggestion: With chicken chop suey only a tart salad is

needed to complete the main part of the meal because the required vegetables are already in the main dish. Grapefruit and orange segments alternated on salad greens, and served with a French dressing, will provide the contrasting touch which the menu needs. Since the chop suey is highly seasoned, a delicately-flavored dessert is a good idea. Here's a delicious suggestion—bananas covered with toasted coconut.

An "electric eye" for control of smoke nuisance is in use in Australia. It controls fuel supply and regulates smoke volume automatically.

Colored Sluggers To Play Thursday

Bolstered by four new players, the Big Spring Colored Sluggers are due to meet the San Angelo Black Sheepherders at Steer park at 8 p. m. Thursday.

Leroy Midkins, manager of the Sluggers, said he had four ball hawks in from Midlothian. He did not know their names, but knew by reputation that they were to be hot rocks on the field and with the hickory.

Emergency Vehicle Rule Held Invalid

AUSTIN, May 20. (UP)—Unbridled discretion given in Texas' new traffic code to police chiefs to designate vehicles of public service corporations as "authorized emergency vehicles" has been held unconstitutional by an attorney general opinion.

The opinion noted that the state law in this regard paralleled a Dallas traffic ordinance which the Supreme Court held unconstitutional on the same point.

The opinion, requested by Texas Department of Public Safety Director Homer Garrison, quoted the Supreme Court opinion as saying: "... While the ordinance attempts to grant permission to the chief of police to designate what vehicles shall have the privilege of an 'authorized emergency vehicle,' and thus be exempted from many of the provisions of the ordinances regulating others, it sets up no standard by which the chief of police is to be guided in making such a designation."

"There can be no doubt but that the reasons invalidating the city ordinance in turn invalidate that portion of the act herein in question," the opinion said.

Midland Rodeo Set June 3-6

MIDLAND, May 20. — Five big performances will be staged at the 14th annual Midland rodeo, June 3-6, when the world's top cowhands and the Southwest's best and most beautiful cowgirls will compete for purses and prizes totaling more than \$7,500, including entrance fees.

Night performances are scheduled June 3, 4, 5, and 6, with an afternoon show scheduled Sunday, June 6. Various area cities will be honored the first three days with the final day to be "All-West Texas Day."

Officials of Midland Fair Inc., said the 1948 show will be the biggest, best and most thrilling ever staged here. The rodeo stock, furnished by Gene Autry and Everett Colborn, is the wildest ever assembled, and will give the cowboys plenty of trouble.

The cowgirl sponsor contest will be a time event, with entries riding a combination "figure-eight" and "clover leaf" pattern at breakneck speed. The contest is open to all cowgirls.

Abe Lefton, world-famous announcer of Hollywood, Calif., will announce the show this year. The popular cowboy clowns, George Mills and Jasbo Fulkerson, will clown the show.

Trickriders Mitzl Lucas Riley of Fort Worth and Nancy Kelly of Phoenix will thrill spectators with spectacular rides at each of the five performances. Byron Hendricks and His Flying Twins, a marvelous horsemanship act, also will be presented. Other specialty acts are being arranged.

News For Junior

SAN FRANCISCO (U.P.)—Your tooth brush can be a menace to your teeth, a local doctor warns. Dr. A. W. Ward said teeth should never be brushed more than twice a day. "Injudicious" brushing, the dentist said, can damage tooth structure.

First Grade Paper

WORLAND, Wyo. (U.P.) — The World, Wyo., Daily News has competition but the newspaper is not much worried. The "competing" paper is published by the first grade pupils at the Spanish school.

It contains articles on how books are made, a short piece on Korea and a cartoon of Peter Rabbit.

American farmers boosted crop production nearly 33 1-3 per cent during World War II.

Now She Shops "Cash and Carry"

Without Painful Backache Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pain, leg pain, loss of pep

and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills

Livers Improved

McALLEN, (UP)—Cattlemen of the Lower Rio Grande Valley say the livers of steers fed on dehydrated citrus peel and pulp are bigger and redder than livers of steers on ordinary feed. The cattlemen claim the grapefruit and orange diet contains vitamins A, B, C, D and P.

To Probe X-Ray

CAMBRIDGE, Mass. (U.P.)—Super-voltage X-rays will be studied at Massachusetts Institute of Technology in an effort to aid cancer research. The American Cancer Society has granted the school \$70,000 to carry on experiments into X-rays up to 5,000,000 volts.

The number of livestock in the United States today is the lowest in eight years.
