To every woman who thinks a clothes dryer is a Luxury...

If you took the second "a" out of the sentence above, you'd be right. A clothes dryer is luxury! But it's not a luxury in the money-could-havebeen-better-spent sense of the word.

There are lots of ways that a clothes dryer will save you money as well as work. You don't have to buy as many clothes, sheets, towels, or baby things when you have a gas dryer. Laundry takes so little of your time that you can squeeze it into your schedule more often. (And a dryer cuts out a third of your ironing!)

You aren't the least bit dependent on the weather when you have a gas dryer. You can give your clothes the ultra-violet lamp's sunshine treatment any day (or night) ... rain or
