GOVERNMENT MEDIATORS SEEKING SETTLEMENT OF MOST SERIOUS STRIKE

Private Initiative In Oil Industry Can Serve Defense

SAN ANTONIO, Texas.—National defense is best served by the petroleum industry under a system of private initiative and development, George A. Hill Jr., vice-president of the South Texas Chamber of Commerce, declared here Friday night at the chamber's fourth annual oil men's jubilee. The jubilee honored H. R. Cullen of Houston.

"National defense and national welfare are best promoted and served by the extensive and efficient development of petroleum, an essential and indispensable weapon of national defense, through the media of private capital, initiative and management in a free competitive system, capable of quick mobilization for emergent national service," Mr. Hill said.

"Free enterprise has achieved the highest degree of development in exploration and in the advancement of such of the associated sciences involved in petroleum technological progress as have resulted in cheaper prices to the consuming public in the United States. Helpful functions of government, including both the State and Federal governments acting within their respective constitutional spheres, in regulation and in aid of petroleum industrial progress are recognized in the promotion of conservation, in the prevention of physical and economic waste and in the scientific ascertainment of consumptive demand."

Mr. Hill devoted most of his talk to a discussion of the oil conservation achievements effected through State regulation of the petroleum industry.

"The number and variety and the effectiveness of oil conservation processes under State regulation have been so improved and so vast in the immediate and very recent past that the industry itself has largely overlooked the important public duty of making known the elaborate pattern of our conservation laws and regulations," Mr. Hill said. "The achievements of the oil and gas industry, now pre-eminent among all industries in its readiness and ability to serve the ends of national defense, are the direct result of the combined effect of private initiative, capital and direction, supported by the State regulation of conservative practices. And the industry has achieved this special fitness NOT by accident, but by painstaking method and wise design."

Greek Artillery Plays Havoc With Italian Attacks

ATHENS, Greece, Mar. 22.—Greek artillery was dominating the Albanian front today. Heavy and light guns, even anti-aircraft guns, were hammering at long lines of Italian reinforcements and supplies moving up to the central sector.

Greek and British fighting planes were said by Greek officials to have swept the Italians from the skies in the last six days and the Greeks were using their anti-aircraft guns to fight ground forces.

An Italian tank attack was smashed on the central front, according to a Greek spokesman, and two tanks were put out of action. Others were reported damaged by artillery.

Greek artillerymen were said to be causing heavy damage. One barrage at an undisclosed point was said to have set off tremendous explosions, indicating an ammunition dump had been hit. At another point an Italian oil dump was hit, starting a fire that shot hundreds of feet into the air.

Ranger Girl Is In a Contest In Lubbock

Jane Matthews of Ranger, winner of the 17th district oratorical contest, sponsored by the American Legion, was in Lubbock Saturday to compete in the divisional contest held there.

Winner in the divisional contests will go to state finals to be held later this spring. The Ranger contestant was accompanied by her mother, Mrs. J. E. Matthews.

BRITISH BOMB GERMAN BASES DURING NIGHT

LONDON, Mar. 22.—British planes heavily bombed the great German submarine and naval base at Lorient, on the French invasion coast, for several hours during the night, the air ministry said today.

"Many high explosive bombs were aimed at gaps in the clouds," the air ministry said. "They were seen to burst in various parts of the harbor, on a wet dock, to the west of the dock and on the western bank of the river where two violent explosions were observed."

It was the 49th raid on Lorient and the third in successive nights. Latest types of super-bombers dropped many unusually heavy bombs and the raid was both intensive and highly successful.

Docks at Osten also were attacked during the night despite the bad weather which restricted Royal Air Force offensive operations.

The air ministry disclosed that planes of the coastal command attacked German warships and supply vessels off the Frisian Islands and Helgoland Bight on the North Sea German Coast by daylight yesterday.

Coastal command planes also bombed a tanker, escorted by warships, off the Belgian Coast, a Norwegian railroad dock near Egersund, coastal motor boats and a Norwegian airdrome.

EASTLAND 1ST, RANGER SECOND IN TRACK MEET

Eastland High School won the Eastland County Interscholastic track meet in Ranger Friday night, though Eastland officials who are consolidating reports, stated that no individual winners had yet been listed there.

Ranger won second place in track and field events, with Gorman being third. Meet officials could not estimate, late Saturday, which school in the meet was leading in points, and stated that it would be Tuesday morning before enough returns were in to determine the winners.

Winners in various divisions, not previously published, include:

Essay Winners
Rural Division—1. Stella Merle Arp, Okra; 2. Helen Dempsey, Bullock; 3. Dorothy Daniels, Flatwoods.

High School Class A—1. Brenda Warwick, Cisco; 2. Beatrice Toti, Ranger; 3. Faye Lambert, Eastland.

Ward Division—1. Jean Turner, Eastland Junior High; 2. George McBea, Carbon; 3. Alda Jane Loftis, Olden.

Class B High School—1. Eva Jean Hunter, Olden; 2. Carolyn

Strip Teaser Is Speaker At Class At Columbia U.

NEW YORK, Mar. 22.—You can learn more about life-in-the raw in a burlesque theater in one month than you can learn in college in a year.

Strip-teaser Margie Hart proved that to everyone's satisfaction last night in a lecture on "Comparative Sex Appeal Ratings of Students" at Columbia University. The lecture was sponsored by the Columbia Players.

"Look at me," Miss Hart said. "I never went to college. Yet here I am, giving a lecture to a group of college students. Did you ever hear of a college student giving a lecture to a group of strip-teasers?"

No one had, although several students expressed the opinion it would be good work if you could get it.

"The average college student," Miss Hart continued, "would get a much broader education if he had to take a course that required him to attend a burlesque show every day for six months."

Miss Hart originally intended to discuss "Communism, the colleges, and strip-teasing." Her thesis was to have been that strip-teasing, if introduced to colleges, would drive out communism.

Big Blow for National Defense

Women complete windings of stationary part of a 40,000-horsepower motor to spin a fan that will create winds of hurricane velocity in Wright Field's wind tunnel near Dayton, O. Army planes will be tested by fan being assembled at Westinghouse Pittsburgh plant.

Medical History Is Made By a Youth Who Lay Injured Eight Days With Out Food or Water And Yet Lives

GLASGOW, Scotland, March 22.—Medical history was made today by the survival of John Cormack, 22, who lay for eight days injured, unable to move without food or water, in the debris of a bombed tenement building.

When they finally reached him, Cormack greeted rescuers with a grin. At a hospital today he was reported "resting very comfortably after a good night."

Until now it had been believed that four or five days was the limit of man's endurance without water, and Black's Medical Dictionary, under the heading "fasting," says persons subjected to the worst combinations, deprived of food, given little water, exposed to severe cold and forced to make great muscular effort, cannot live "more than two or three days."

Cormack endured all these conditions except the muscular effort and physicians believed his survival might be explained by the fact that he was pinned down in such a way he could not move, hence every particle of energy was conserved. His calm courage apparently reduced his mental and physical anguish, helping conserve his energy, keeping him in a state akin to hibernation.

Another amazing thing was that Frederick Clark, 32, had been taken alive from the same wreckage a few hours earlier, after seven and a half days of entrapment without food or water, although Clark died a few hours after his rescue. He, too, was conscious when rescuers reached him, and gave rescuers instructions on how to release him.

Only tremendous will power kept the men alive, physicians said.

Rescuers were digging casually through the tenement debris, hunting for bodies, and had just removed a woman's body when they heard Clark's moans. Hope long ago had been abandoned that any

one could have survived the destruction of the building in the raid last week.

It took three hours to dig down to where Clark had lain imprisoned for 180 hours. A woman doctor attended him while the debris was removed piece by piece.

After giving him a hypodermic, the doctor said, "there, that wasn't so bad, was it?"

"No, not so bad," Clark replied, the first words he had spoken to another person in more than a week.

Freed, he took three sips of tea, nodded his thanks to the rescuers, then dozed off from the effects of the sedative. He lived to reach the comfort of a hospital bed.

The finding of Clark caused a hurried search of the rest of the ruins. The rescuers soon came upon Cormack, fully conscious, covered by a blanket that had been part of his bed when the bomb struck. His arms were crossed in repose on his chest—he couldn't move them. A beam had fallen near him, holding off most of the weight of the debris and preventing serious injury.

Cormack was extricated about the time Clark died. He sipped tea, smoked a cigarette, then was carried to an ambulance. He told the rescuers he believed a girl, trapped near him, was still alive, and the search continued. It was still under way today.

Bethlehem Steel is threatened with big labor strike.

BETHLEHEM, Pa., Mar. 22.—The giant Bethlehem Steel Corporation, working on \$1,500,000,000 in defense orders, was threatened with a walkout today at its parent plant here.

The C. I. O. steel workers organizing committee served notice on company officials and Sidney Hillman, associate director of the office of production management, that a strike will be called on Monday unless the firm calls off an election of officers next week for the employees' representation plan, characterized a company union by the N. L. R. B.

The CIO claims a majority of the 18,000 workers at the plant. Howard T. Curtis, local SWOC director, said the CIO members demanded "action" when ballot boxes, draped with American flags, made their appearances in various departments of the mill last week for the nomination of officers of the ERP.

The NLRB ordered Bethlehem to disestablish the organization on company officials and Sidney Hillman, associate director of the office of production management, that a strike will be called on Monday unless the firm calls off an election of officers next week for the employees' representation plan, characterized a company union by the N. L. R. B.

BRITISH AID IS APPROVED IN COMMITTEE

By WILLIAM H. LAWRENCE
United Press Staff Correspondent
WASHINGTON, Mar. 22.—The Senate Appropriations committee today unanimously approved the \$7,000,000,000 war-aid appropriations bill, which includes funds to build 10,700 more American airplanes for Great Britain in the next two years.

Senate debate on the bill will begin Monday. Leaders hope to pass it then by an overwhelming majority.

The committee rejected a motion by Sen. Gerald P. Nye, R., N. D., to cut the appropriation in half, but instead reported the measure to the senate in the identical form that it was introduced and passed by the house.

If no amendments are adopted by the senate—and it appeared that none would be—the measure will be flown to President Roosevelt in mid-week for his signature at sea aboard the yacht Potomac.

The bill provides: \$2,054,000,000 for aircraft and aeronautical material; \$1,350,000,000 for agricultural, industrial and other commodities; \$1,343,000,000 for ordnance and ordnance stores; \$753,000,000 for manufacturing defense articles; \$362,000,000 for tanks and other motorized equipment; \$260,000,000 for miscellaneous military equipment; \$200,000,000 for testing, inspecting, repairing, and outfitting defense articles for foreign governments; \$500,000,000 for administrative expenses.

The disclosure that the aircraft fund would provide 10,700 planes was said to have been made by defense production director William S. Knudsen and other defense chiefs in secret sessions before the senate appropriations sub-committee which completed work on the \$7,000,000,000 bill yesterday.

Billy Peters is winner in rifle shoot contest.

Billy Peters, son of Chief of Police W. J. Peters and Mrs. Peters, 1501 South Seaman street, Eastland, and who is a student at Oklahoma A. & M. College, Stillwater, Oklahoma, was a member of military teams from his school competing with teams from all over the country in a contest held at Kemper Military Institute in Missouri.

In the contests between advanced military teams Peters won first place and third place for basic teams. In individual matches Peters won first place and five medals, scoring 396 out of a possible 400.

In all of the contests a .22 calibre rifle was used. Sometime in April Peters will enter contests of advanced military teams to be held in Kansas City and St. Louis, Missouri.

Fine of \$100 And 60 Days In Jail Is Given Robt. Tittle

Robert Tittle of Ranger, charged with driving an automobile while intoxicated, was found guilty by a jury in Judge B. W. Patterson's 88th district court Friday. Punishment was assessed at 60 days confinement in the County Jail and \$100 fine.

Tittle was alleged to have been the driver of an automobile that collided with one driven by Mr. and Mrs. J. T. Brown of Fort Worth at Ranger on Christmas eve, 1940. Both Brown and his wife, who at that time was Mrs. Moore, received more or less serious injuries. The couple was en route to Cisco to visit Brown's parents.

Chairman Wm. A. Leith of Ranger lodge of Elks announced today that he had received word from Chairman James R. Nicholson of the Elks National Defense Commission that former Governor Wilbur Lucius Cross of Connecticut had agreed to act as final arbiter in the Elks National Patriotic Essay Contest which is being conducted during the month of March. This contest has created nationwide interest among the high school students of the country and it is hoped that one of the local contestants will land a place in the finals of the national contest, at which time awards of \$1,000, \$500 and \$250 will be given to the winner by the Elks National Defense Commission.

Cross is one of the outstanding literary figures of America. He was graduated from Yale in 1885 and was given the degree of Doctor of Philosophy in 1889. Since then he has received the degrees of Doctor of Literature and Doctor of Laws from eleven universities and colleges including Harvard, Columbia, the University of California and the University of Michigan.

They form the only father-and-son combination in the nation in this field of work. And, oh yes—they both hold degrees from the University of Missouri, where they were both members of Delta Upsilon, social fraternity, and Sigma Delta Chi, professional journalistic fraternity.

Retired Employed Of Ranger Postoffice Dies On Saturday

W. B. Griffith, retired mail carrier of Ranger, died in St. Joseph's Hospital, Fort Worth, Saturday morning, after a long illness.

Griffith retired six years ago, moving first to his farm near Anson, and later buying a home in Ranger, where he lived until the time of his death. He was a member of the Presbyterian Church.

The body will arrive in Ranger Sunday morning at 1 o'clock, for services, to be conducted Sunday afternoon.

Survivors include his widow and several children.

Germans Refuse To Comment On Pact

BERLIN, Mar. 22.—Authorized German informants, refusing comment on the Yugoslav political crisis, declined even to admit today that German-Yugoslav negotiations were in progress.

RUSSO-TURKISH PACT TO GIVE TURKEY FREE HAND IN BRITISH COOPERATION

Income Payments So Far In March Well Above 1940

WASHINGTON, Mar. 22.—Income tax payments during the first 20 days of March totaled \$1,139,384,637—more than \$500,000,000 above the \$621,448,616 deposited during the corresponding period last year—the treasury said today.

The collections covered the tax on 111,940 incomes, due in part or in whole on March 15.

The treasury reported that \$81,910,713 of the \$1,139,384,637 represented excess profits tax payments under the excess profits levy enacted last year.

This year's figure was termed "amazingly high" by treasury officials, and far exceeded previous estimates of \$900,000,000 to \$1,000,000,000.

Officials said that the total represented payments deposited or mailed before the deadline of midnight, March 15. Some officers were so swamped with returns that it took four or five days for an accurate tabulation to be made.

The increases were spread generally through the 48 states, Hawaii and Alaska, and were traceable in large part to the reduction in exemptions and the 10 percent super tax for defense charges this year.

Exemptions for a single man were reduced from \$1,000 to \$800 while the exemption for a married man dropped from \$2,500 to \$2,000.

C. F. Shepperd, 76 Dies In Eastland After Long Illness

C. F. (Uncle Charley) Shepperd, 76, for twenty-two years a citizen of Eastland, died at his home at 509 West Main Street, Saturday morning. Funeral services will be conducted from the Eastland Methodist church Sunday at 4:00 p. m. by the pastor, Rev. Lance Webb, assisted by Jones W. Weathers, pastor of the Eastland Baptist church. Interment will be in the Eastland cemetery. He was a member of the Methodist church.

Hammer Undertaking company will be in charge of the body and the K. P.'s will have charge of the burial ceremonies.

Survivors include the widow, Mrs. Shepperd, eight daughters and two sons as follows:

Frank and Gordon Shepperd of Eastland and Mrs. Jimmie Little, Eastland; Mrs. James Milam, Big Spring; Mrs. Otto McGehee, Cisco; Mrs. Doyle Hubbard, Eastland; Mrs. Bob Cole, Strawn; Mrs. Calvin Williams, Eastland; Mrs. Denzil Yancey, Eastland; and Miss Virginia Shepperd, Eastland.

Also there are 15 grandchildren.

Excuse Us If We Swell With Pride

When an Eskimo was inducted into the army in Alaska the other day, a sort of circle was completed. Wearing the uniform of the United States are men of every strain of blood that flows in the veins of America—men of 23 different Indian tribes, men of Hawaiian, Porto Rican and Philippine blood, men whose ancestry stems from ancient China and Japan, men whose forebears came from Poland and Germany, Italy, France and Czechoslovakia, men of the north and south, men of the east and west—and all Americans.

We see them more frequently now in the streets of our cities, in the neighborhood of the great growing camps, and we are proud of them. We are proud of their appearance and their bearing, proud of the way in which they have, almost without exception, responded with loyalty to their America.

We have not coerced or bludgeoned them into being Americans. We have not forbidden the use of the languages of their homelands, nor vilified their ancient culture. Yet they cleave to America, and they love her.

The difference between what happens here and what happens in Europe is well illustrated by a story. A certain family in Poland, when Russia took over their territory and forbade them to speak Polish any longer, emigrated to America. They would not live in a land where their beloved language was forbidden. To be free to use it, they came to America. Today not a single child of that family speaks Polish. When they were under compulsion, they clung to their ancient language; under free American institutions, it was no longer important.

All these fine young Americans in whom every blood in the world runs red and strong have such a feeling. We are proud of them, and proud of the fact that they all march shoulder to shoulder today.

That is one of the things America can give the world—this final denial of stupid racial theories which would divide the world into little blood-fight compartments of inbred racial groups. The soil of a common country, the tie of a common language, the link of a common ideal of freedom—these are grounds on which civilized men may stand together and march together.

We hate to seem sentimental, but we never see them standing and marching together like that without swelling with a sudden great pride.

When talking pictures came in we hoped they'd do away with talking audiences—and we still think it was a good hope.

The Chicago stenographer missing with \$2000 must have used the touch system.

UNCLE SAM IS SET TO TURN ON THE JUICE AT GRAND COULEE, MAN'S BIGGEST WORK

BY PETER EDSON
NEA Service Staff Writer

Kick Modesty in the seat of the pants. Shove Shame out the window. And open the doors to Bragadocio. For the biggest thing on earth is about to get going this month, and it isn't a war.

Take all the people in the United States and put them in a pile. It's bigger than that.

Take Cheops' pyramid in Egypt, then take Boulder Dam, and then take another Boulder Dam. It's bigger than all three put together.

Take the cost of the Panama Canal, add twenty-five million dollars for luck, and you'll come close to its value.

Take a row of Rockefeller Centers three-quarters of a mile long and pour two Niagara Falls one on top of the other over the middle. It will be bigger than that.

With that fanfare, it is now safe to give you the name—Grand Coulee Dam.

It's up in northeast Washington State. On March 22, the first two generating units of its power plant will turn electric current into the Bonneville transmission line, and juice will start flowing to Spokane, 90 miles away, to the shipyards in Tacoma, where defense vessels are being built, to the Boeing plant in Seattle, 260 miles away, where aircraft are being built.

Turning on of this current takes place more than a year ahead of schedule, but this is only a start, a mere 20,000 kilowatts, 27,000 horse power.

When the whole project is completed, there will be available a thousand times that—2,700,000 horse power, nearly onethird of the total electrical energy developed in the United States today.

Behind the big dam—12,000,000 barrels of cement, 12,000,000 cubic yards of concrete making a mass 500 feet wide at the base, 550 feet high and 4300 feet or three-quarters of a mile long—there will be backed up the biggest artificial lake in the world, 150 miles long, stretching clear to the Canadian border. Drowning you in statistics, this is enough to give every person in the United States 25,000 gallons of water. Enough to slake the thirst, wash the clothes, and dirty dishes, and bathe greater New York for ten years.

AHEAD OF SCHEDULE

All this, too, is just a starter. When the job is done, a part of the power will be used to pump a part of the water, by means of the world's twelve largest pumps, to a man-made reservoir nearly 300 feet higher than the big dam, and two miles away. There, behind two little dams no bigger than ten-story buildings, water will be impounded in a reservoir 27 miles long and covering 43 square miles, to be carried by a system of canals 250 miles long to irrigate a fertile but now semi-arid area the size of Delaware, 1,200,000 acres.

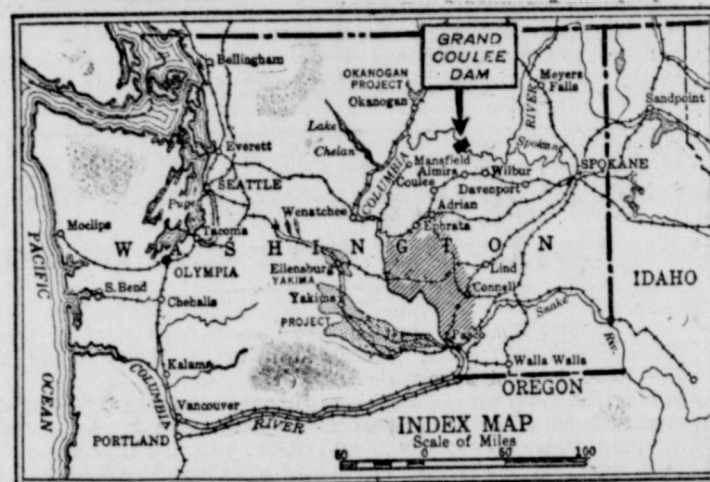

This won't be completed for a generation, 25 or 50 years, but it is definitely a part of this biggest program for the biggest thing of its kind.

Building this dam in less than eight years is in itself a marvel. Putting even a part of it in operation a year and more ahead of schedule is a record.

Surveys began in 1933. In December the contract was let for clearing 2,000,000 yards of loose dirt from the dam site, getting down to bedrock. A 32-mile railroad, from the Great Northern main line, two bridges across the river below the dam, two cities to house the workers had to be built. In July, 1934, a combine of

Map, made by U. S. Bureau of Reclamation engineers, shows the location of Grand Coulee Dam in relation to vast area it will serve.

four construction firms, the "MWAK" company, won the contract for building dam base. Contracts for completion of the dam and power houses were let in 1933 to Consolidated Builders, Inc., made up of MWAK, plus the famous Six Companies that built Boulder Dam, plus General Construction Company of Seattle. It was too big a job for any one company to tackle.

Engineering problems, foreseen and unforeseen, brought new and amazing solutions.

To remove the over-burden and clear the bedrock foundation, a belt conveyor five feet wide and over a mile long was installed, dumping the rubble into handy canyons.

A TRIUMPH OF MAN'S BUILDING ABILITY

Hauling in sand and gravel would have cost millions, so natural deposits were uncovered nearby and the world's largest gravel pit put in operation. The two world's largest cement mixing plants went to work, and in May of 1939 they turned out 29 tons of mixed concrete every minute, to set a world's record.

When slides threatened to interfere, six miles of pipe were buried in the clay bank, a refrigeration plant set up, and an ice dam 20 feet thick, 45 feet deep

frozen solid from August 1936 to April 1937, and so kept in check.

Settling concrete heats and expands, then cools and contracts. To keep even temperatures, 2,000 miles of thin-walled inch pipe are set in the dam and water circulated through the vast cooling system.

In the center 1650-foot section of the dam, to control the flow of extra water, are 11 movable steel drum gates, each 28 feet high, 135 feet long. To keep them from freezing in cold weather, nine miles of electric heating cable are installed.

A 30-foot highway will surmount the finished dam.

A 12-foot tunnel runs through the heart of the dam, connecting the two powerhouses at each end, each powerhouse over 700 feet long, each to hold nine units generating 150,000 horsepower each.

and 110 feet long was literally

ACROSS THE CONTINENT FOR TWO CENTS

Now that "the Hounds of Spring are on Winter's traces," a brand-new set of fashions for women and for men begins to emanate from those birth-places of style, Hollywood and New York. Just how far away are you from those emporiums of vogue?

Wait! Don't let this question depress you. Don't think of the answer in purely geographic terms. You are by no means so far away as you might imagine. Like a long-range telescope, the advertisements in this newspaper bring the scene in the new fashion centers.

The final and visible stage of this modern "television" is the advertising in these pages. Advertisements will give you the tip on the latest modes, they will direct you to the most alert establishments and they will attract you by the high quality and equitable prices offered. You cannot afford to ignore them.

MODERN MENUS

BY MRS. GAYNOR MADDOX
NEA Service Staff Writer

YANKEE bean soup is a first class meatless "nutrient" meal in itself. Several readers ask for a recipe. Here it is, together with two brand new fish main dishes for Lenten meals:

YANKEE BEAN SOUP

One-half lb. dry pea or navy beans, 1 quart water, ¼ lb. salt pork, 1 onion, ¼ teaspoon pepper. Soak the beans over night. Drain, add water, sliced salt pork, onion and pepper. Cook about 1 hour or until beans are mushy. Rub all but the salt pork through a coarse sieve. Season to taste. Serve hot with a slice of the pork for each serving.

TUNA AND SALMON VEGETABLE CASSEROLE

(Serves 6 to 8)
One cup uncooked elbow macaroni, 4 tablespoons butter, 4 tablespoons flour, 2 cups milk, 1 teaspoon salt, 1 teaspoon Worcestershire sauce, ½ cup flaked tuna, 1 cup flaked salmon, 2 cups sliced cooked carrots, 1 cup cooked lima beans, ¼ cup grated cheese. Cook elbow macaroni in boiling salted water for about 10 minutes or until soft and no starchy taste remains. Drain and wash with cold water. Melt butter in saucepan; blend in flour. Add milk gradually, stirring constantly. Add seasonings and allow to cook for about three minutes or until no starchy taste remains. Add macaroni, salmon, carrots and lima

TOMORROW'S MENU

BREAKFAST: Grapefruit juice, cornmeal mush, bacon, coffee, milk.

LUNCHEON: Yankee bean soup, hard rolls, rhubarb tarts, tea, milk.

DINNER: Tomato juice, tuna, salmon and vegetable casserole, spring salad bowl, prune scuffle, coffee, milk.

beans. Turn into a well-greased two-quart casserole. Sprinkle the top with the cheese; cover with the utility glass cover and bake in a moderate oven (350 degrees F.) about 30 minutes or until top is brown.

BAKED FILLET OF FLOUNDER

(Serves 6)
Two-pound fillet of flounder, ½ cup minced onion, 2 tablespoons gingersnap crumbs, 2 tablespoons minced parsley, 2 teaspoons Worcestershire sauce, 1 teaspoon salt, ½ cup water, 2 lemons, sliced. Wipe fillets with a damp cloth place in an oval two-quart heat-resistant glass casserole. Cover with a mixture of onions, crumbs and parsley. Add seasonings and pour water over all. Cover and bake in a moderate oven (350 degrees F.) about 25 to 30 minutes. If fish is fresh; bake about 40 to 45 minutes if fish is quick frozen and not thawed.

Garnish with lemon slices and tufts of watercress.

DOLLARS TO DOUGHNUTS

EDITH ELLINGTON

COPYRIGHT, 1941, NEA SERVICE, INC.

BEATRICE DAY: Bee refuses to work despite the hard work at the mill. Her first pay check was \$1.00. She has ever since been a "doughnut" to Mr. Bradley. Today she has no more doughnuts, suggests Bee try to get a date with him.

CHAPTER XII

BEATRICE felt her heart thump, astonishingly. A date with Mr. Bradley! The idea is ridiculous! she snapped.

Yet, the next morning she found herself watching him. He listened with courteous attention as an impatient customer poured out her wrath. He listened with the same politeness while Miss Dane waved her blood-red nails under his nose, laying down the law.

This morning, under the usual guardians in his buttonhole, he wore a black and white badge with a crimson ribbon.

"SCOTCH SALE!" proclaimed the letters on the badge.

Beatrice's lips quirked. There were banners all over the basement in celebration of Scotch Sale, but this badge was too small.

"Miss Davis," he called.

"Yes, sir?"

"You're not wearing a Scotch Sale badge."

"Oh, was I supposed to?"

His throat, above his immaculate white collar, grew brick red. As if he guessed she'd been laughing at him.

BEATRICE had written seven more sales slips, and waited on two women who had promised to come back after they looked about some more, when Mr. Bradley stepped her as she started for home. "I see you never bothered about the badge, Miss Davis."

"Oh!" She had genuinely forgotten the stupid badge. "I've been so busy. Anyway, it can't mean much, one way or the other. The customers seem to know there's a sale on, and I've done very well without a badge."

Mr. Bradley's brown eyes snapped, and his big hand gripped the edge of the wrapping desk. "Are you trying to make a fool of me?" he asked angrily.

She was suddenly angry. Every one around her with the slightest scrap of authority seemed positively determined to ex-ise it, insultingly, on her! "As for trying to make a fool of you . . . don't you manage rather well by your-

self?"

BEATRICE had written seven more sales slips, and waited on two women who had promised to come back after they looked about some more, when Mr. Bradley stepped her as she started for home. "I see you never bothered about the badge, Miss Davis."

She was suddenly angry. Every one around her with the slightest scrap of authority seemed positively determined to ex-ise it, insultingly, on her! "As for trying to make a fool of you . . . don't you manage rather well by your-

self?"

Painful red flooded into the man's lean face. He opened his mouth. The brown eyes took in the heightened color of Beatrice's cheeks, the snapping eyes, and suddenly Mr. Bradley closed his mouth again, without saying anything.

"You're all riding me!" Beatrice cried. "Just because I don't talk the way the other girls do! Just because I know something about style and fashion and try to help these blundering idiots who come in here rigged up like caricatures!"

Mr. Bradley's expression changed. Beatrice said quickly, "Excuse me for saying that about being a fool. . . I didn't mean it. It's just that I've taken so many gratuitous insults from so many people around here lately, and haven't been allowed to retort even once. I'm not accustomed to this Spartan self-control." Her smile flashed. "Will you forgive me?"

Mr. Bradley said quietly, "Forgive it. I couldn't fire you if I wanted to, if that's what you're thinking. My authority is extremely limited. So limited it is non-existent. And like you, Miss Davis, I'm not accustomed to Spartan self-control either."

Miss Dane's rheumy eye spied them. She hurried over, her tight black dress straining at the seams, her blood-red nails startling against the pearls she pulled on nervously. "Aren't you going to lunch, Miss Davis? Don't hold us up!"

At the elevator, he was waiting. "It's my time to eat, too. Do you mind if I—I lunch with you?"

"I'd love it."

ALL at once, the feud was over. Yet, in the cafeteria, he leaned across the table and said, "I've had the feeling, ever since you came, that you've been laughing at me. Why?"

"I haven't been. I've been too busy learning my job. It's all new to me. I've concentrated on making that quota. And I thought I was doing fine when you bawled me out for advising the customers. . . ."

He played with a fork. "Miss Dane's orders."

"She doesn't know as much as she thinks she does! Times have changed since she started. I'm sure what I was trying to do is much better than selling a customer any dress, just to sell it. And it's my dream to prove I'm right."

"It's my dream to get out from under her thumb," he said. "In a couple of months, I ought to be way out. I—I'm studying merchandising at night, in a school of

the blood of men and women who refused to obey the commandments of the religious priests and suffered death because of maintaining their integrity towards God. The bloody record of the Roman Catholic hierarchy stands out now, loudly proclaiming the wickedness of devilish religious, the enemy of mankind."

These words of the self-styled "judge" and would-be reformer in the name of God are not very complimentary. The sad part of his statement is that it contains some truth. He is off the mark, however, when he says that people were not allowed to read the Bible. They were not only allowed but, as Catholics today, encouraged to read the authorized, correct version of Sacred Scriptures; however, they were forbidden, which rule still holds good today, to read unapproved editions.

For the rest, no normal-minded Catholic will deny but greatly regret the atrocities of the Spanish Inquisition, perpetrated in the name of the Catholic religion. But we must remember this: The Inquisition was not purely a religious move or an expedient of

the Church as such, but rather a political program. In those days a heretic was looked upon in the way we consider an anarchist today, namely, a danger to the commonwealth. Heresy was regarded as a crime of treason against the state. King Peter of Aragon declared that "the enemies of Christianity are the enemies of our kingdom and should be dealt with as such." Hence, people were punished and executed for being against the Catholic Church and for refusing to uphold her Faith because they were regarded as enemies of the state. So we are able to explain the Inquisition, especially in the light of the latest historical discoveries in the premises, but we cannot satisfactorily condone or excuse its cruel perpetration, which does appear an indictment against the Catholic Church if not historically analyzed.

This is an honest Catholic confession.

Now, let us consult the same historical records and see how Protestants acted when they had control of a country.

During the Reformation, Luther, Zwingli and Calvin regarded

opinion opposed to their Protestant religion as treason. Zanchi, a Protestant theologian of those days, taught: "There can be no doubt about it, and all learned and right-minded men acknowledge it, that the authorities may pronounce a sentence of death on heretics." So the Protestants proceeded to persecute and kill Catholics in England, Switzerland, Ireland and Holland.

And, in reading history further, one also will find that the Jews treated Christians in like manner, and vice versa. Therefore, this historic guilt of cruelty and crime against each other seems to be rather evenly divided and shared. But, even if it were not, if any religion could point the unstained and unbloody finger of accusation at the other, there still would be no sense in hating each other today for the wrong done by people centuries ago.

The fair and only reasonable thing to do, when accusations and wrong things are charged, is first to investigate and find out whether the indictments are true and what are the circumstances connected with the supposed happening or situation. Working oneself up into a frenzy of bigotry and hate, serves no good purpose at all.

Every church, no matter which one, was and is always composed of fallible human beings, who can and do make mistakes. This was the case with the first religion ever inaugurated; it is still a fact with any church today. So why not make allowances for the ever-present human element of imperfection? God recognizes poor man's weaknesses. He took this into account in setting up his revealed religion, outlining our duties and making provisions for our lapses or errors.

business administration." "How wonderful! But aren't you dog tired at the end of the day?"

He grinned. "I almost explode with stifled yawns." Then he asked, "How did you ever get into Huntington's? You're so different from the other girls. I mean—just as you said when you were angry with me—you talk differently, you've been—well, differently educated . . ."

"So have you, haven't you?" "I used to think I'd be an architect," he admitted. "An old friend of the family wanted to see me through, but I couldn't let him support me indefinitely until I established myself. And an architect doesn't become established overnight."

"Besides, I figured it out that store merchandising and management has structure and form to it, too. I—I can't explain exactly. But it takes the same kind of mind. You plan for effects, results. You're building. Of course it's not so tangible, and maybe I'm crazy . . ."

"You're not crazy!" She looked around the crowded room where salesgirls, wrappers, stock girls, shipping clerks, markers, and alteration hands were eating their lunches.

"Most of the people who work for a store like this seem to have drifted into it. They're not career people, they don't bring superior minds and any enthusiasm or even interest to the job. Oh, I'm not blaming them, most of them never had a chance. But, Mr. Bradley, if you see this store differently—if you see it the way an architect sees the vision of a house that hasn't even been started yet—if you're really so absorbed and sincere that you're going to school at night after a hard day here—why I think nothing can stop you from coming out on top!" She was breathless, carried away.

"You could be general superintendent, some day!"

"I don't think Mr. Bruce Sheldrake need do any overtime worrying," he smiled. "But if you think I'm a ball of fire, you're the first girl who ever did. And that's heartening."

"Lots of girls must have liked you . . ." She dropped her eyes. Suddenly she caught sight of her wristwatch. "Mercy, I've got to run!"

"There's not much time for mutual understanding in Huntington's, is there?" he asked ruefully. "I haven't a class tonight. Could I come around and call for you after dinner? We could go into this ball of fire stuff more thoroughly."

FETES BRIDE-ELECT WITH TEA SHOWER

Second in a series of parties for Miss Lillie Marie Smith, was a tea shower host by Mrs. Joseph M. Perkins Friday afternoon at her home.

Yellow marguerites and sweetpeas and dresden figurines were used in decorations. Cleverly designed tea towels

and a luncheon cloth with napkins were embroidered and finished during the afternoon and presented Miss Smith. A shower of kitchen articles was presented the bride-to-be also brought to her on a decorated tea wagon.

Refreshments of strawberry parfait and angel food cake was served. On each table was a small bouquet of spring flowers and a miniature candle stick, and as each guest blew out the lighted candle a wish of happiness was made for the honoree.

Guests listed: Mrs. James T. Pipkin, Mrs. Sam Conner, Mrs. Allen D. Dabney, Jr., Mrs. James Birmingham, Mrs. John D. Harvey, Mrs. Cecil Barham, Mrs. L. M. Curry and Miss Smith.

MRS. JAMES HORTON ENTERTAINS FOR BETROTHED COUPLE SATURDAY

As a pre-nuptial compliment to Miss Lillie Marie Smith, bride-elect, and Mr. Raymond Pipkin, bridegroom-to-be, Mrs. James Horton entertained for the couple in her home Saturday night.

Spring flowers were used in decoration throughout the home. Liverpool rummy was played during the evening with a refreshment plate served at midnight.

Guest list: Mr. and Mrs. James Turk Pipkin, Mrs. Grady Pipkin, Miss Clara June Kimble, John Har, Miss Florence Perkins, Moreland Baldwin, Miss Christine Lewis, Fred Davenport, Miss Margaret Blount, Ben Sears, Miss Olivia White, Jack Carothers, Mr. and Mrs. Maurice Mullings, Miss Malfred Hale, Pete Cullen, Mr. and Mrs. Sam Conner, Miss Rama Barber, Mr. and Mrs. James Birmingham, Marguerite Quinn, O. L. Kimbrough, Viola LaMunyon, Eva Lee Jones, Dorothy Day, Max Kimble, Mr. and Mrs. R. L. Perkins, Jr., Miss Eva Sue Turner, Miss Mauleie Fay Turner, Miss Alla Rae Kuykendall, all of Ranger, and Horace Horton, Raymond Pipkin, Miss Lillie Marie Smith and Mrs. Horton.

MRS. ALBERT GLEASON ENTERTAINS SUSAN STEELE CLASS THURSDAY

Mrs. Albert H. Gleason entertained the Susan Steele Class of the Methodist Church Thursday in the home of her daughter, Mrs. Joseph M. Perkins.

The spacious rooms were beautifully decorated with spring flowers throughout.

The social hour was interspersed with music and songs with Mrs. Gleason as pianist.

A delicious refreshment plate of angel food cake, cookies and ice cream was served to the following guests: Rev. Lance Weeb, Mr. Albert Gleason, Mrs. Carrie Slaughter, Mrs. Minner Frey, Mrs. Frank Castleberry, Mrs. Tom Johnson, Mrs. Ida Jones, Mrs. Mae Harrison, Mrs.

"ESCAPE TO BEAUTY" TOPIC FOR LAS LEALAS PROGRAM

The Las Lealas Club met Thursday evening in the Woman's Clubhouse with Miss Dorothy Day as hostess and leader for the program "Escape to Beauty."

Miss Marguerite Quinn discussed the topic "Decorative Art" followed by a discussion on "Pictures for the Home," brought by Miss Louise Karkalis.

During the opening period, conducted by Mrs. James Birmingham, president, it was announced that Mrs. James Horton would review Willa Cather's "Sapphira and the Slave Girl" at the club's next meeting, May 1.

Responding to roll call, with names of articles of fantasy, were Mrs. James Birmingham, Miss Day, Miss Karkalis, Mrs. C. W. Geue, Miss Verna Johnson, Miss Viola LaMunyon, Miss Jessie Lee Ligon, Mrs. Fred Maxey, Miss Marguerite Quinn, Mrs. H. B. Sone, Mrs. James Horton, Mrs. Sam Conner, and new member, Miss Malfred Hale, and visitor, Mrs. J. O. Earnest.

MRS. PERKINS BRINGS BOOK REVIEW FOR WSCS

The Woman's Social Christian Service of the First Methodist Church sponsored a book review given by Mrs. Joseph M. Perkins Friday night at the church.

Mrs. Perkins reviewed Hazel Spence's "One Foot in Heaven," which is the life story of Mr. Spence's father, a Methodist minister. The story tells of the part ministers had in the development of the country in early pioneer days.

Approximately one hundred were present for the review, which was splendidly given by Mrs. Perkins. A social hour followed with a tea plate served to those present. Mrs. W. P. Leslie poured tea.

GUEST IN GRADY PIPKIN HOME

Mr. and Mrs. Grady Pipkin have as their guest this week their son, Raymond Grady Pipkin, of Longview, and his fiancée, Miss Lillie Marie Smith.

Mr. Pipkin and Miss Smith will leave this afternoon for Fort Worth and will be guests this afternoon in the home of Mr. and Mrs. C. Keith Beyett for open house.

Miss Smith was a room-mate of Mrs. Beyett's, who was the former Miss Betty Perkins, and was also maid of honor at the wedding of Mrs. Beyett.

She will be house guest in the Beyett home until Tuesday when she returns to Eastland.

PRESBYTERIAN CHURCH

Clarence C. Elrod, Pastor

There are Christians who have never longed for wings to take them to some lodging place in the wilderness where they might "get away from it all." But they are the undiscourageable Christians. I need such a lodging place. Once a week I may have it in the fellowship of the church. We invite you to be with us Sunday in our regular day of church services. You will enjoy the friendly atmosphere and welcome. You will hear the eternal truths of God's word clearly presented. We invite you to hear the invitation of Christ as He said, "Come unto me, all ye that labour and heavy laden, and I give you rest" (Matt. 11:28).

Services Sunday
10:00 a. m.—Bible School. Lesson found in Luke 23. The history of the crucifixion of Christ.

10:50 a. m.—Morning worship service. Message by the pastor on

Now he is dead... somebody's got to fix him up to put him in

7:15 p. m.—Evening evangelistic service. Message on "Salvation for All."

Thursday Night Class
You are invited to meet with us in the Bible training class conducted each Thursday night at 7:15 by the pastor. Don't miss these Bible studies.

LATEST NEWS

YOU'RE SAFER

with the new SEIBERLING SAFETY TIRE

and you can buy it on EASY TERMS!

If you're a careful driver, the new Seiberling Safety Tire will "make a hit" with you, because it's built on these three entirely new safety principles:

1. A remarkable "Saw Tooth" tread that means quick starts; quick stops, protection against skidding.

2. "Heat Vents" for blowout protection.

3. A body of "Saf-flex" cord that guards against dangerous internal injuries.

We'll be glad to arrange convenient terms... without adding any interest or carrying charge to the list price. So why wait? Let us give you the tires you need NOW!

A Price for Each Purse—... A Home for every Tenant!

It should be good news to every prospective homeowner to learn that he can still buy a home in Eastland despite the rumor that all realtors have completely sold out. As fast as one home is sold we usually add another listing from some one who has decided to sell, so business goes on as usual at our place with a price for each purse and a home for every tenant. As the old saying goes, the early bird may catch the best worm, but in shopping for homes most of our prospects get what they want at the price they care to pay—if they don't wait too long!

We still have many nice homes to choose from. A small cash payment down with monthly payments about like rent is now will solve the housing problem for any family in Eastland. Let us show you these homes and explain our plan of easy payment, today.

AIR'S FREE so why not use it?

GETTING right down to it, one reason why you get as much as 10% to 15% more miles per gallon from a 1941 FIREBALL Buick with Compound Carburetion is that this engine is supplied with more air.

For it is a mixture of gasoline and air that gives you power.

A single carburetor, no matter how many jets it has, can handle only so much air.

But two carburetors that function as needed, as is the case in Compound Carburetion, can meet any fuel-supply need from low-speed to heavy-power use — and always provide a well-balanced mixture.

They can double the air supply as well as the gasoline feed — and that's something you can't do in any single-carburetor car.

So Compound Carburetion gets as much as 800 miles for the gas-cost of 700 in earlier Buicks of the same size.

It also provides a wallowing big bank of reserve power, which means an up-and-at-'em lift and surge that's nothing short of thrilling to experience.

And you can have Compound Carburetion, you know, on any 1941 Buick — it's only a few dollars extra on the swell big SPECIAL pictured here, and standard equipment on all other models.

BUICK PRICES BEGIN AT \$915 for the Business Coupe
