No More Chains for Chain Gang

Tax Board To **Adjourn Session** Until July 28

By United Press AUSTIN, July 20. - Absence of assessors' valuations for 13 counties and lack of reports on special tax collections for the first six months of 1938 today forced the state automatic tax board to recess without setting new tax rates. Comptroller George Sheppard expected full reports would be

eady by July 28. The present rates are 35 cents on \$100 valuation for general purposes, seven cents for Confederate pensions and seven cents for schools. The rate is the lowest in 20 years. Decreased valuation reports indicate that no likely increase will be made in the resent 49-cent state tax.

Absentee Voting Ends With Total 313 On Tuesday

'Hoppers Now Are Radio Kissing Not Much Fun Active on 60,000 Acres Says Cook

Eastland county's grasshopped festation now covers 60,000 acres of land, it was announced Wednesday by County Agent Elmo V. Cook, who this week assisted Charles H. Gable of Abilene representative of the federal gov ernment in Texas 'hopper control. The infestation is regarded as se vere as it has been recently.

Only a small portion of the infested areas have received poison. In one part of the county, on the Jack Pippen farm near Dothan, it was found that fungus and parasites, natural causes, have reduced the number of grasshoppers.

The number of 'hoppers next year, it was said, depends largely on whether many of the 'hoppers will be destroyed by fungus and parasites.

Ten thousand of the 60,000 cres infested is in crop land an the remainder in pasture.

Once again war steps in to prevent the holding of the Olympic Games. The Japanese have announced that the games of 1940, scheduled to be held in Tokio, have been suspended.

The situation is similar to that of 1916 when the games were to have been held in Berlin. With practically all the other nations of the world contending against the Germans on more important fields, in Flanders, it was of course impossible to hold any international sports comretition.

Tokio's suspension of the games is a tacit admission of the graveness, to Japan, of the war in China. Suspension comes not because contestants are warring against the organizing country, but because that country is so engrossed in war that it can not afford to devote attention and energies to objects of so little realtive importance as the Olympic Games.

The games have been over some pretty rough hurdles. before. Since Pierre de Coubertin of France conceived their revival in 1894, their value as a promoter of international understanding has sometimes been questionable.

De Coubertin had only the loftjest ideals for the revival of the ancient Greek contests which brought together athletes from all the Greek world. "It is necessary,' he said, "that we should preserve in sport those characteristics of nobility and chivalry which have distinguished it in the past, so that it may continue to play the same part in the education of the peoples of today as it played so admirably in the days of ancient Grece.

In the first place, ever since the first revival, the games have been taken too seriously. Sport and seriousness are contradictory terms. The more serious an athletic contest grows, the less sporting it is.

The Olympics have always been that way ever since in 1908 the frenzied partisans of Dorando, Italian Marathoner, picked up his nearly-unconscious form at the stadium entrance where he fell near the finish, and rushed him over the line. Soccer matches and winter sports in recent years have been marred by fights and squabbles, and the whole tone has been smudged by countries which have practically made an international crisis out of who won the hop-skip-and-jump.

However, even as bitter as some of the Olympic competitions have grown in past years, they are a good show, rent St. Louis American League a better show than the bombing of helpless civilians or club the shelling of a cathedral. Japan, having asked for the games, and having been awarded the privilege of being host to them, has now stepped out of the 1940 picture. There is plenty of time for some other country to make the gesture, and to hold the games. It would be worth while, if only to show that there are some people in the world who prefer less lethal athletic events to putting the handgrenade or dropping the 500-pound bomb.

• New low electric rates are now in effect, reducing still further the cost of electric service in homes and stores. You can use this saving to provide many of the services which you need and which you can use to make your home more comfortable and more attractive, and to save your time and your energy.

In stores, cheap electricity can be used to sell more goods by use of better lighting in windows and over counters, and by making shopping more pleasant to customers through the use of better ventilation and air conditioning.

Now that electricity is cheaper you can make many new and different uses of your electric service, and thanks to lower rates, the cost for this added service will be less than ever before.

You'll likely need some new electric appliances, so that you can take full advantage of the new rates, so visit our store or any other dealer who sells electric appliances. You'll be surprised how little it costs for electricity to operate your electric appliances.

doorbell again

14.

I Suppose daily to your door came the butcher, the grocer, the clothier, the furrier, the furniture man, and every other merchant with whom you deal? What a tedium of doorbell answering that would mean!

It would be even more impractical for you to visit daily all these stores to find out what they have to offer and the price.

And yet you need those merchants' service quite as much as they need your patronage. Contact between seller and consumer is essential in the supplying of human needs. Before a sale can be closed the goods must be offered. Every day, through the advertising columns of this newspaper, the merchants of this city come to your home with their choicest wares. Easily, quickly, you get the news of all that is worth while in the market-places of the world.

They are not strangers at the door, but merchants vou know and trust. You are always surer of high quality and fair price when you buy an article advertised by a reputable firm.

that make a house a HOME

THOSE careless marks of his baby fingers ... could any one buy them from you now? The knee-high smudges on the door! The pencil scratches on the wall that showed his growth from two to a little man of six! The nicked nursery bed where you two watched for hours one night until a sprawled, feverish form slipped into healing slumber!

Yes, a home is seasoned with smiles and tears, mellowed by memories and flavored with hopes. Each room has well-loved articles that have grown dearer with the years. And there are new things that you are working and planning for. It may be an occasional table for the livingroom. New drapes for the breakfast nook. A summer rug. Porch and lawn furniture.

The advertisements in this newspaper bring you news of furnishings to freshen your home. Study them and save shopping steps and budget dollars. They will help you add to the gracious charm of your home... that little world which is your very own! WEDNESDAY, JULY 20, 1938

ELECT HENRY V. DAVENPORT UNTY COMMISSION

EASTLAND TELEGRAM

Sometimes in elections there is so much confusion that local candidates for most important offices are neglected, particularly as to the men who are elected to the office.

In Eastland County the office of Commissioner is above all one of the most important, if not the most.

The duties of the Commissioners are to handle all the finances of the county and act as overseers for the proper distribution of the funds from taxation and all other sources.

We are particularly interested in the election of the most efficient person for the office of Commissioner of Precinct No. 1.

In looking over the record that has been made by Henry V. Davenport one can readily see the value of his services to the people of his precinct, as well as to the advantage of the entire county.

Davenport has proven himself thoroughly capable of conducting the affairs of his precinct as well as getting the most results out of the taxpayers' money for all work that comes under his jurisdiction.

His economical methods of handling the funds allotted to him has been outstanding throughout his past administrations. He has been fearless in assuming the position of seeing. that no money is paid out for any purpose other than which is proper and worthy, whether for charity or for returns in labor.

He has been fair to all communities in the distribution of lateral roads that have been built and graded, and as fast as possible has been taking care of those communities that demand attention for better roads.

To defeat Henry V. Davenport in the coming election would be a calamity to the taxpayers of his precinct and would set back and create a serious menace to the road and work projects that his program calls for. It would be costly to every property owner in Precinct No. 1, and would cause irreparable losses.

The careful and devoted attention that Henry V. Davenport has paid to the needs of not only his precinct but of the entire county has placed him among the greatest assets the county could have. His judgment in matters of importance to the taxpayers' interest is not denied by his colleagues and his service is entirely free from discrimination or selfish motives.

Every voter and taxpayer in this entire precinct should make it a special business to cast their vote for Henry Davenport for their best interests. A careful analysis and study of his record will make an impression that will justify his retention in the office as your County Commissioner.

During this period of government spending, in which Eastland County has and will receive much benefit, if properly handled, it is the duty of every citizen to have a man who is thoroughly familiar with the Federal Government process for allotting funds for all county projects. The several years' experience that Henry V. Davenport has had in this particular work with government officials qualifies him above all others as the man to retain.

The present channel was the last link to be completed in the ectification. It reduced the 15 niles which the river traveled b ween El Paso and Box Canyon, below Fort Quitman, to 88 miles. Bulding the San Elizario Island hannel included construction of evees along each side of the 12mile stretch of water. This work was pushed as a flood protective measure, as considerable damage has been done in the past by th river overflowing its bankless

San Elizario Island came into existence when the river abandoned its original course near the Mexican foothills and took up new line along the foothills on the United States side of the valley. The widest distance between the ld channel to which the river has een returned and the new chan nel which it has occupied for 80 years is six miles. The island be tween the two channels covers about 13,000 acres.

A total of 14,600,000 cubic yards of earth have been moved in building the 88 miles of rectified channel. The work also neces sitated the construction of 176 miles of levees.

The program was carried on under the direction of the International Boundary Commission. L. M. Lawson represented the Unit-ed States on the commission. The Mexican commissioner was J. Pedero Cordova.

Candidate for Commissioner

Henry V. Davenport, commissioner from Precinct No. 1, who is a candidate for re-election to the position he is now holding

106th DISTRICT

. . .

We, business men, salaried men and men from the daily walks of life in Eastland County, most heartily endorse Lewis Crossley for the place he seeks in the Legislature of Texas.

Lewis has resided in Eastland County practically all of his life. He has taught school, worked in a bank, was with Carbon Trading Company, a general merchandising firm, for some years, in the local agency insurance business in Eastland before being elected to the responsible position of District Clerk of our county, which position he has held for three terms. He has made an enviable record as District Clerk, remaining true and faithful to the duties of this office at all times, granting special privileges to none but dealing with everyone who had business with this office on the same fair and equal basis.

Lewis is able and qualified to serve the people of Eastland County and Texas in this most important place in our government. Those who know him best know that he has practiced economy both in his personal affairs and in the District Clerk's office. He is in sympathy with the type legislation needed at this time, and will stand true to those principles of government upon which we have relied for these many years.

We most heartily endorse Lewis Crossley and especially request that the voters weigh all the facts before going to the polls on the 23rd, and that when this is done you will cast your vote for him.

. . .

.... MOTORE V

To the Women Voters of Eastland County:

For the first time during any of the campaigns my husband, Cecil A. Lotief, has made for the office of Representative to the Texas Legislature, I am publicly bringing my side of the present campaign before the good women voters of Eastland County,

Heretofore I have left all the campaigning for political office to my husband, and have been content to stay in the background, attending to my duties as a wife and mother, as well as finding time to devote my time and attention to our business, while Mr. Lotief was working night and day, doing all he could to see and talk to every voter personally.

During the past two weeks it has been called to my attention by friends that a whispering campaign is being waged against my husband, referring to his birthright of nationality in slurring and vicious propaganda.

In the first place, I do not believe that there is a better husband, nor a kinder father than Cecil A. Lotief anywhere in the world. During the years of our married life he has devoted his major interest in bestowing affection and devotion to his family. He has struggled in a sincere honest effort to make us a comfortable living by hard and faithful work.

I, above everyone, should know the characteristic emotions that guide him through his daily contacts with men and home. I know that his every thought and deed is for the benefit of mankind. I know that he is good, a loyal citizen of his chosen country and a Christian whose faith in God and the Saviour cannot be shaken regardless of reverses or defeat. It is this faith that inspires him to carry on for what is right.

I am proud of the record that my husband made as a public servant in the 43rd and 44th Legislatures as a Representative for Eastland and Callahan Counties. I know that he went into the office with clean hands and a clear conscience and when he was retired after four years of service he came home with the same clean hands and with a greater heritage by having the confidence of men of high standing in state and national affairs bestowed upon him, for his open and courageous service for the masses as a public servant. His sincerity of purpose and his honesty have never been questioned, and he has been praised for his intelligent efforts to bring about legislation that will affect all people alike for a greater and more progressive state. He has been praised for his consistent acts in economy measures in which great savings to the taxpayers have been made, yet not affecting the efficiency of good government

Of course, it is only natural for a wife to say good things about her husband, but I can say these things with much more enthusiasm than one can realize because I know him so well for what he is and it hurts deeply when whisperings are made that attempt to bring him below the dignity of his value as a citizen, a husband and a father.

I am a born citizen of this country, seeing the first light of day in the State of Louisiana. My people still live there. I appeal to the the same consideration that any man of ability and integrity is entitled to. I know that he has served you well before and will do so again if you help to elect him as your representative.

I only wish that I could see every woman in Eastland County personally and extend my best wishes as well as thank you for all you have done for us. I am grateful and deeply appreciative for the majority vote of confidence that the people of Eastland County have given my husband in previous eelctions and I am sure that you will go to the polls again on Saturday, July 23rd, and extend him the same vote of confidence by casting your ballot for Cecil A. Lotief:

Please consider this an appeal from a wife and mother whose only object is to resent any inference that may be made in whisperings or otherwise that would bring my husband, and children, into the asmosphere of an "alien foreigner," and not fit to render worthwhile service to a community, state and nation in which we have so much faith and devotion.

In grateful and humble appreciation for your valued support, influence and your vote on July 23rd, I am,

Sincercly yours, Mrs. Cecil A. Lotief.

PUT SADLER IN THE SADDLE!

To My Friends In This Section:

I will consider it a personal favor if you, you relatives and your friends will vote for and support Jerry Sadle for the office of Railroad Commissioner of Texas.

Aside from our relationship I consider Jerry Sadler most eminently qualified for the office he seeks and it is my belief that you will be rendering a real service to your self and to Texas in voting for him.

Those who know him best say that he never breaks his word. I have his solemn promise that if elected he will do all in his power for the development of this section. He can and will do the job with credit to himself and honor to Texas.

I will appreciate it. Help me "PUT SADLER IN THE SADDLE.'

> Sincerely, HARLEY SADLER. (Pol. Adv.)

Tip Ross Seeking His Second Term As Representative

Tip Ross, candidate for Flotorial Representative which compris es Eastland and Call han Counties is seeking his second term to the office and has the following clipping taken from the Gorman Progress of last week. The clipping is an endorsement of his canlidacy for reelection and it is hereby reprinted that the people of the county may know how Mr. Ross stands in his own home town. The heading of the column in which the clipping appeared, is

"Thoughts of This and That": A large number of the bus ness men of Gorman have signed and presented to our Representa tive, T. S. Ross, a petition thanking him for the work that he has done in the Texas Legislature during the past two years and they heartily endorse his candidacy for re-election to another term as rep resentative of the 107th Flotorial District. Besides it being the Democratic custom to give a faithtul public servant a second term in office, the business men of Gorman endorse his candidacy because they feel that he has served the entire district honestly and conscientiously. He has been impartial in the things he has worked for in this district, serving the people wisely and judiciously. His years of experience in the

Legislature in previous years from another district, his knowledge of the laws of the state government and his ability to meet and mingle with the other legislators of the state has, during the past sessicn, gained for him a number of important posts in the House and will enable him to serve the peothoroughly than ever before.

ple of the 107th district more His record in administering the affairs of his office cannot be questioned. He has labored diligently to carry out the things he pledged himself to, when he was given this office in the last election and he will continue to give the people of this district the kind of service they want when he is returned in the July Primary. We know where and how he stands-is it wise now to make a

change? The Progress heartily endorses John Barnes Runs find that he has served the people well and should be rewarded with a large majority in the July primary.

Precinct in Ranger As July is here the ques can citizen. John Barnes, candidate for district clerk of East-constable Precinct No. 2, Ranger, land county, is a native of East-constable Precinct No. 2, Ranger, land county, is a native of East-Claude (Curley) Maynard, cantion comes to mind if anybody ever ate any of these thousands of eggs that have been poached Constable Precinct No. 2, Ranger, land county, is a native of East-H.
