MARINES STUDY JAPANESE; PLAN TRIP TO TOKYO

By ROBERT C. MILLER
United Press Staff Correspondent
HONOLULU (UP) — The Marines are taking no chances of getting lost in the suburbs of Tokyo. Nearly 200 of them stationed at the Pearl Harbor Marine base have enrolled in a special course and are being taught the Japanese language and customs under Lt. Richard A. Gard, USMC.

The class has the distinction of being the largest and possibly the first of its kind organized in the present war. Its growth has been so rapid that already classes have had to be transferred to larger quarters.

Lt. Gard, a graduate from the University of Washington and holder of a Master's degree from the University of Hawaii, was prevailed upon by a small group of Marines to teach them the fundamentals of the Japanese language which they figured would come in mighty handy when they land in Nippon "a few months hence."

That was how the class started and like Topsy, "it just grew." All the students are volunteers and seated side by side in the classroom are aviators, cooks, mechanics, engineers and musicians. Commissioned and non-commissioned officers together make up a large portion of the class.

Gard himself is an authority on Japanese and received his master's degree in Chinese philosophy.

"We've been operating more or less on a hit and miss schedule," Lt. Gard said, "we have very few textbooks or dictionaries and have had to improvise as we went along. Most of the course is given on mimeographed sheets which we make up ourselves. We hope to be able to put the lessons out in booklet form very soon."

The chief benefits from such a course, the lieutenant explained, are in questioning prisoners, reading maps, signs and identifying the various Japanese war weapons and materials.

The course is divided into sections, some of which are so large Gard has been forced to subdivide them into parts. The class first met in a small study room but it soon became so popular that larger quarters had to be found and with the assistance of Col. G. D. Jackson, commandant of the Pearl Harbor Marine barracks, the class was shifted to the mess hall which is set aside each evening for Lt. Gard and his students.

"We are particularly hard pressed for textbooks," Gard said, "and would certainly appreciate any material that folks on the mainland might have available that we could use. Japanese-American dictionaries are particularly in demand."

Hubby Sues for Alimony
RAVENNA, O. (UP) — Almost two years ago his wife left him, so now Norman A. Thompson of Mantua, O., is suing for alimony. In asking for "support and maintenance," he states that he suffered a paralytic stroke and is unable to work.

Young Flyer Greet Old Salt

The Chilean four-masted frigate Latoro, an unusual sight in these days of streamlined warfare, is greeted by a Navy blimp as the old-timer arrives at San Francisco. She will be fitted with Diesel engines for service in the Chilean navy.

EASTLAND COUNTY HOME DEMONSTRATION COUNCIL MEETS AT COURTHOUSE

The Eastland County Home Demonstration Council met Wednesday, May 27, in the county court room at Eastland with the chairman, Mrs. T. E. Robertson of Flatwood, presiding. Eight clubs were represented.

Mrs. Shaeffer of Word Club, Expansion chairman, asked each club to have a cooker testing clinic, and to try to get new members for their clubs.

Mrs. Thad Henderson of Morton Valley, was appointed council reporter to fill the unexpired term of Mrs. Cyrus Justice who has moved away.

Mrs. Nix of Morton Valley discussed "Canning Clinics" and explained when and where these clinics would be held.

Flatwood and Mangum will meet in the Flatwood school lunchroom June 4, for their canning clinic. Alameda, Cross Roads, Okra and Center Point will meet at Alameda, June 11. Morton Valley and Colony will meet at Morton Valley school lunchroom, June 16. Lone Cedar, Olden, Union Staff and Merriman will meet at Lone Cedar June 17. Cisco, Cottonwood, Bluff Branch, Dothan, Lake Cisco, Word, Lutheran, Reich and Friendship will meet in Cisco June 7.

The following communities do not have a date set for their clinic but these places were suggested. Sabanno, Hudnut Grove and Cook at Pioneer. Crocker, Cross Roads, Tabernacle and Long Branch at Rising Star. New Hope

Sacrifice

Mickey Owen of Brooklyn club sends Dixie Walker to second with neat sacrifice bunt as Dodgers shut out Giants, 6-0, before 49,308 persons at Polo Grounds. Catcher Harry Danning starts after ball. Umpire is Lee Fallanfart.

PROCEEDINGS IN COURT OF CIVIL APPEALS

The following proceedings were had in the Court of Civil Appeals Eleventh Supreme Judicial District Reversed and Rendered:

2270 F. Tom Young, et al, vs R. N. Grisham, Eastland.

Motion submitted: 2342, C. A. Churchill, et al vs. A. S. Mauzey, District Judge, re-ator's motion to make application for temporary injunction.

Motions overruled: 2340, C. A. Churchill, et al vs. A. S. Mauzey, District Judge, re-ator's motion for permission to file application for mandamus.

2342, C. A. Churchill, et al vs. A. S. Mauzey, District Judge, re-ator's motion to make application for temporary injunction.

Eastland Boy To Graduate From State University

AUSTIN, Tex., May 29 (Sp)

From the mechanical engineering shops of the University of Texas to the war factories of the nation will be the route of 52 June graduates next week.

The 52 students who will receive the degree of bachelor of science in mechanical engineering already know where they are to begin work as soon as their classes are finished. Not only has this entire class been already placed, but Professor H. E. Degler, chairman of the department of mechanical engineering, declares that there are jobs for ten times as many graduates as he has.

Twenty-three out of the class will take jobs with aircraft companies, while several others will go into the army or navy at special tasks requiring engineering skill. Among the graduates is Cleo Hubert Key, of Eastland, who will be employed by the Sperry Gyroscope Company, Brooklyn, N. Y.

Children Watch As Father Kills Wife

AMARILLO, May 29 — While their four children watched, A. M. Henderson, 54, fired a shotgun blast into the back of his wife, then shot himself through the heart, police said today.

The wife is expected to live. Henderson died immediately.

Confusion Over Lindsay
LINDSAY, Okla. (UP) — An army private from here was assigned to Camp Barkeley, Texas. When he filled out his papers, officers wondered if he was trying to be funny. He was John Lindsay, from Lindsay, Okla., where he lived at the Lindsay Hotel on Lindsay St.

Inter-City Travel In Texas Drops But First Four Months Of Year Showed An Increase In Travel

AUSTIN (UP) — Inter-city travel in Texas is declining, but for the first four months of 1942, automobiles were driven more in this state than they were for the corresponding period a year ago.

Automatic counters stationed on 28 principal highways of the state by the highway department's planning survey indicate that fewer automobiles are riding the open roads. Compared with corresponding weeks of 1941, inter-city travel was about normal in January but began early in February a downward trend.

Up to May 10, the counters showed that 9.1 per cent fewer automobiles are making trips between cities. This is despite substantial increases in some military and war work areas. Around Brownwood, for instance, the traffic count is much higher.

In West Texas and non-military districts, the decline in highway travel has been most noticeable. Hardest hit by tire and automobile rationing is the San Antonio-Laredo route that ordinarily carries thousands of American tourists and dollars to Mexico. The Laredo-San Antonio traffic is just a fraction of its normal volume.

On the other hand, figures of the state comptroller show that

Heads WAAC Officers' School

Col. Don C. Faith will need it for his is the job of commanding the women of America. He heads first Women's Army Auxiliary Corps officers' school being established at Ft. Des Moines, Ia.

250,000 MEN IN DRAFT ARE ILLITERATES

WASHINGTON, D. C., May 29

—Approximately 250,000 physically fit men—enough to man 15 United States Army divisions—have been rejected for Army service in selective service drafts, because of illiteracy, John Studebaker, director of the United States Office of education, disclosed today.

Studebaker made the disclosure shortly after President Roosevelt told the press conference that a startling number of Americans lacked the necessary literacy, education or mentality for service in the American Navy.

Many of these men, it was pointed out, have good minds, but have not had the opportunity to learn to read or write. A good part of the number could be taught enough to make useful soldiers, if given the proper educational opportunities while serving with the armed forces.

Driver Driver Is Amused CAMP ROBERTS, Cal. (UP) —

Pvt. James R. Driver, who has been chaffing in the army for 19 months now, doesn't mind being ribbed about his name.

"What really tickles me is when I'm Driver Driver for Mess officer Lieut. Dick Kitchen."

UNITED NATIONS STRIKES AT SPEARHEADS OF THE AXIS IN THREE SECTIONS

YANKEE DOODLE IS 300 YEARS OLD

ALBANY, N. Y. (UP) — Fort Crallo, "birthplace of Yankee Doodle," is three centuries old this year.

Here in the quaint two-story brick building a British army surgeon, Ricard Schuckburgh, wrote the rallying song for America's armies in the Revolution.

According to legend, Schuckburgh was sitting on the wall of the well in the rear of the house in 1758, during the French and Indian wars when he wrote the song. It is said that he was inspired to put the words together by the sight of an approaching group of ragged American recruits. Later the words were set to the music of an old English air.

Subsequently the place was the headquarters of the revolutionary army of General Philip Schuyler and at times housed Washington, Hamilton and LaFayette.

Originally the structure was built in 1642 to protect the residents of a Dutch manor of nearly one million acres, now split into five counties. Its walls were 20 inches thick and pierced with embrasures for firing muskets.

Now it is furnished with priceless Dutch antiques and is in the charge of the state.

Bristling With Guns Is Correct Cliche

SACRAMENTO, Cal. (UP) — E. B. Prosser of Spring Valley, Minn., is almost a one-man armory.

He wrote Gov. Culbert Olson that he intended to take a job as a guard in San Diego and that he would like a permit to bring his 13 guns into the state.

If he found he would not need them all, Prosser said he was willing to donate the extra ones to the state, understanding that there was a shortage of weapons in California.

Prosser said his personal arms included three high-powered rifles, one .22 caliber rifle, two shotguns and seven automatic pistols and revolvers.

Zipper Made Before April To Be Made Available For Use

DALLAS (Sp) — Permission to use zippers that were fabricated prior to April in a long list of garments and articles has been granted by the War Production Board in an amendment today to the original zipper order, the Dallas region WPB priorities field service, was advised.

Items included in the list for which the WPB order originally banned zipper use after June 1, are sports jackets, overshoes, corsets, luggage, pocketbooks, furniture slip covers and swim suits.

Supplies of zipper, steel and zinc for manufacture of slide fasteners used in the designated items were cut off April 1, under WPB order L-68.

The amendment permitting continued use of zippers in the manufacture of garments and articles named by WPB's original zipper order will result in conservation of materials, since some of these items already had been cut for zipper closures and would be useless without such closures.

Reconditioning and sale of used slide fasteners also is permitted under the amendment announced today, but only existing parts may be used. This provision is expected to result in salvaging of slide fasteners from worn-out or discarded clothing and other articles.

Use of iron and steel in the manufacture of zippers, and many other articles, is prohibited after Aug. 3 by WPB order M-126.

The Chaparral bird, known also as the Roadrunner and Paisano, is a Texas favorite and was adopted as the official bird of the Centennial Exposition of 1936.

Brazilian Fliers Sink Submarine, Damage Another so Badly Crew Is Forced to Surrender; Finnish Ship Supplying Subs is Reported Captured.

SEVENTEEN OF NYA YOUTHS GET NEW JOBS

Seventeen youths from the Ranger NYA Resident Center have been transferred to other War Work Centers in the past week. Nine youths were transferred to Corpus Christi where they will work in the Naval Base as NYA trainees. They are Kenneth Marsh, Lee Sloan, Jr., and George Arnold, of Eastland County; Dayton Cunningham, Comanche County; David Webb, Charles Stewart, and Hugh Bird, from Tarrant County; Robert Penton and Leonard Struet of Palo Pinto County.

The other eight youths were sent to South Houston War Work Center where they will train for employment in the Houston ship yards. These eight youth and their home counties are: George Dusey, William Keeney, Jr., of Tarrant County; Guy T. Morris, Claude Minter, Doyle W. Vaughn of Eastland County; W. P. Greeg of Young County; and Joe A. Deigade of Palo Pinto County.

Reports from the other sectors showed the following developments:

Brazil — Attacks on submarines by Brazilian fliers sink one enemy craft, damaged another so severely that the crew was forced to disembark and is taken prisoner. A Finnish ship believed to be supplying the submarines was reported to have been captured.

Czech Hostages Seized By Nazis Heydrich Is Dead

LONDON, Eng., May 29 — German authorities in Czechoslovakia were reported tonight to have seized 200 prominent Czechs, including several government officials, as hostages, who will be shot unless the would-be assassins of Reinhard Heydrich are captured.

Berne, Switzerland, May 29 — It was reported, without German confirmation, here today that Reinhard Heydrich, who was shot three times with high powered rifles at Prague, Czechoslovakia, had died yesterday as a result of his wounds.

The attack upon Heydrich was made Wednesday by Czech patriots.

GOOD FIELD PREDICTED FOR GOLF TOURNAMENT IN RANGER ON WEEK-END

Qualifying rounds for the 11th annual Ranger Country Club Invitation Golf Tournament got underway this morning, with 41 registered before 10 o'clock this morning, indicating a field of 80 to 90 players. At noon Friday a good number from Eastland had already qualified.

Half of this number had turned in qualifying scores prior to the qualifying day, which does not make them eligible for medalist prize.

Lowest qualifying score turned in by Thursday night was 75, shot by W. P. Russell of Breckenridge.

Most of early qualifiers were from Eastland, while Breckenridge had a good number turn in scores, while players were present Friday, shooting practice rounds in preparation for their qualifying rounds.

Other entries have been received and were practicing this morning, including some from Brownwood, Odessa, Abilene and a number of other nearby towns. Few Ranger golfers had qualified at noon.

A. N. Larson, president of the club, predicted that this would be one of the best tournaments the club has ever held, as the expected 80 to 90 participants will not overcrowd the nine-hole

Armed forces of the United Nations struck damaging blows at the Axis offensive spearheads on the Libyan Desert, and Chinese battlefields today and reportedly opened a new thrust against the enemy in the North Ukraine sector of the Russian front.

A Chinese communique said that Chinese troops had struck suddenly into the outskirts of the important military base at Ichang, one of the deepest points of penetration the enemy has yet reached.

In Chekiang, the Chinese still held Kinhuwa and had thrown back repeated Japanese attacks on nearby Lanchi.

In the South, the Japanese moved reinforcements into the Salween river front of Yunnan Province, adjacent to Burma, but failed to dislodge the Chinese defenders who have dug in there.

On the Libyan front severe mechanized fighting continued in the desert south of Tobruk, with British tanks and airplanes striking hard at Axis columns in the Acroma area.

Reports from the other sectors showed the following developments:

Brazil — Attacks on submarines by Brazilian fliers sink one enemy craft, damaged another so severely that the crew was forced to disembark and is taken prisoner. A Finnish ship believed to be supplying the submarines was reported to have been captured.

Norway — The Gestapo burns and sacks a Norwegian village near Bergen, Norway, in reprisal for the killing of a German police official.

France — The Royal Air Force has renewed daylight raids on Nazi targets along the European coast-line. Two German planes and one British plane were reported to have been shot down.

Australia — Allied planes down or damage 11 enemy craft in raids on the Japanese at Rabaul and Lae and in fighting enemy craft over Port Moresby.

THE WEATHER
West Texas — Little temperature change tonight. Fresh gusty winds today, occasionally strong in north portion.

Texas popular designation, "Lone Star State," is derived from the single star on the Texas flag.

The driving contest will be staged this afternoon, at the end of qualifying play, with the barbecue and caletta pool following immediately after.

The barbecue will be held on the club grounds, near Lake Haganam, with the caletta pool being held in the clubhouse.

Early scores turned in included: F. D. Ford, Breckenridge, 87; Buster Walker, Breckenridge, 80; Bill Messersmith, Fort Worth, 80; Carl Hoera, Fort Worth, 77; Rip Galloway, Eastland, 102; B. E. Garner, 114; John D. Harvey, Eastland, 96; Glen Thornton, Eastland, 92; Olney Black, Eastland, 79; Pete Gillespie, Eastland, 91; T. C. Williams, Eastland, 90; Gene Yonker, 83; A. N. Larson, 95; W. L. Downtain, 95; Sam Gamble, Eastland, 92; J. A. Bates, Breckenridge, 79; W. P. Russell, Breckenridge, 75; W. W. Wood, Breckenridge, 88; John Curtis, 86; Flake Turner, 96.

It was said of the Texas Rangers that they "combined the fighting qualities of three races: they could ride like Mexicans, trail like Indians, shoot like Tennesseans and fight like the devil."

Democracy Makes Good

In the supreme test of total war, democracy is proving it can produce the goods.

We were slow about deciding what we wanted to do. That was because we decided for ourselves instead of permitting some Hitler, Mussolini or Stalin to tell us what we thought.

We were slow in getting under way because, being democrats, we do not like to fight; had not thought much about the matter, and at first set our sights too low.

But once circumstances, aided by Japanese teachery, awakened us to the sordid facts of international life, we started doing such a job as no other nation could even approach.

A million dollars is pin money today. We talk of government expenditures in terms of billions even in peace times. We appropriate for war at the rate of 40 or 50 billion dollars a year. Perhaps, then, the fact that we now are paying out about \$132,000,000 a day to finance this war isn't as impressive as it should be.

Let's not think of it as so much money. Let's visualize it in terms of ships and tanks, planes and guns, powder and bullets, jeeps and scout cars and khaki-colored trucks — war paraphernalia we weren't trying to manufacture three years ago and are making today.

We started in 1939 with an industry devoted exclusively to civilian needs. Insignificantly, here and there, we made a few tons of powder, a few thousand rifles, a few hundred fighting planes. For many of the things required by a modern soldier we did not even possess blueprints.

Before we could even begin producing war goods in bulk we had to build and convert the necessary plant, produce the plans, train workers and supervisors.

In less than three years we have so completely reorganized our industrial setup that in 1942 we will make almost as great a value of war goods as we produced, in 1932 and 1933, of commodities to service the entire American nation!

While we are finding fault with Washington for its confusion and failures of leadership, with capital and labor and farmers for their selfishness and shortsightedness, let's not forget the positive side of the balance sheet.

We have multiplied our plane production 24 times, so that with Henry Ford's new plant operating we, alone, will be making more aircraft than all the axis nations combined. We are building this year as many cargo ships as the total we possessed Jan. 1 1941. We are turning out tanks, at last, as fast as we can use them.

We can, however, and we should, realize that Hitler was screwy when he thought the American democracy wouldn't be able to bury personal, partisan, racial and class antagonisms enough to produce the goods.

The Shoes Are On A Couple Of Other Feet No.

The Payoff

BY HARRY GRAYSON
NEA Service Sports Editor

NEW YORK.—David Kui Kong Young, the Chinese Hawaiian, wants to come to the states and fight Lou Salica for the bantamweight championship and Pearl Harbor Relief.

Up to his ears in heavyweight plans, Mike Jacobs hasn't time for this one, so it is a grand opportunity for some other promoter to lend a hand to a fine cause and again popularize the little fellows.

David Young took a 10-round decision from Salica in Honolulu just before the attack on Pearl Harbor to become the No. 1 challenger.

Islanders contend the sturdy southpaw China boy requires only the opportunity to be champion.

All Young asks is transportation and expenses for himself and his trainer-manager.

Both work at hard labor on defense jobs. They were doing their bit in this way before Dec. 7.

The case and cause of David Young merit attention.

BEING a member of the old school which insists that the challenger come and get the title—that the champion must be beaten—I do not too violently disagree with the debatable decision that saved Sammy Angott's lightweight leadership at the Garden the other night.

Allie Stolz dropped Angott like a broken airplane for a count of nine in the third round; the cleaner punches and finished best. Referee Frank Fialam was outvoted by the judges.

The most amusing thing about the decision, however, was Harry Balogh's bellowing, before it was announced, that two rounds had been taken from Stolz for low punches.

That required explanation.

Sammy Angott uses everything but a baseball bat. No holds are barred when he goes to the wire.

Across the Nation Ship Builders Are Singing Rousing Song of Victory as More Records Fall

BY PETER EDSON
NEA Service Washington Correspondent

We'll build and sail 'em—We'll never fail 'em!
The Victory Fleet will be complete we know.
On every ocean, we'll be in motion,
The Victory Fleet will soon defeat the foe.
We'll have a bridge of ships beyond compare.
We'll soon be able to walk from here to over there.
The world is cheering! The skies are clearing!
With the Victory Fleet—Let's go.

THIS is the chorus of the new "Song of the Victory Fleet," words and music by Leonard Whitcup, which will ring out on National Maritime Day, May 22, and from then on in, to speed the big ship-building program—one of the most impressive of the inspiring phases of this whole gigantic war production effort.

The song is one of those rousing sea chanteys that even a landlubber building lifeboats in Kokomo can limber up his larynx on and get a belt out of bellowing or barbershopping. And when you accompany the tune with full orchestration and sound effects of riveting hammers, clanking anchor chains and the blowing of full-lunged baritone and bass steamship whistles—matey, it does something to your morale.

Morale building is the big idea behind observance of Maritime Day this year and this whole shipping program is something to give your spine a tingle. It isn't just something to celebrate on salt-water, either, with maybe the Great Lakes thrown in for good measure. There will be big celebrations in the 50 shipyards where, on some 300 ways, ocean-going ships are under construction. Thirty-two ships are scheduled to slide down the ways on May 22 in what will be the biggest launching on record. And the three-quarters of a million shipyard workers will have something else to cheer about, for this day will mark the achievement of the Maritime Commission's second goal—the scheduled commissioning of two ships a day.

NOT just the launching of two ships a day, mind you, but the actual putting into service of two ships all ready to carry cargo to Russia, the Red Sea, Australia or wherever.

But all the rejoicing on National Maritime Day won't be observed at sea-level. Back inland, at more than 500 factories in some 32 states, ships are being built. Not completed ships, of course, but completed sub-assemblies. For, thanks to American assembly line production genius, the building of ocean vessels now begins with the making of lifeboats, complete with oars and ready to swing from the davits, at Kokomo, Ind.; the making of steel plate assemblies at Denver, the making of switchboard installations at Plainfield, Conn., the making of turbines at Schenectady, N. Y., and so on.

A full million men are building parts of ships at these inland

Edson

plants—parts so complete they can be timed to arrive just when they're needed, hoisted into the hulls of the shipyard ways, riveted or welded into place and be ready to function.

THESE million workers are just as much entitled to break a bottle of champagne over a boiler or a reciprocating engine, give a cheer and sing the song of the Victory Fleet as their fellow workmen at tidewater.

Perfection of this technique for ship building has done wonders. Originally, it was figured that six months—180 days—would be required to build a Liberty Ship from keel laying to commissioning. But the time was soon cut to 106 days, and as a record of 83 days has been set, marine engineers now figure that the average time will soon be 90 days.

Small wonder then they sing this new Song of the Victory Fleet.

Cooker Clinic Plans Discussed By Staff Club

Plans to hold Cooker Clinics in adjoining communities were discussed recently at the meeting of the Staff Home Demonstration Club. A meeting of this type was held some time ago at which seven cooks were tested, and it is the intention of the club to sponsor other such clinics in the near future in order that pressure canning equipment may be in good order and food preserved to the best of the canner's ability.

The members present: Mmes O. T. Hazard, Ton Lowery, Will White, John M. White and J. N. Jordan voted that the club would not sponsor the work for the Red Cross but that individuals might work for themselves. Mrs. Jennie K. Hines and Miss Noreen Lowry were visitors present at the meeting at the home of Mrs. Opie Lowry, president.

Mrs. John M. White, Council Delegate, will be hostess to the club at the next meeting, June 3rd. Each club member is invited to bring a bouquet of flowers she has arranged and to swap with a friend.

Mrs. Tom Lowry will discuss "Home Made Game" and Mrs. O. T. Hazard, "Easy Refreshments", on the program "Let's Have a Party."

Miss Gladys Martin, Home Demonstration Agent, is scheduled to be present at this meeting June 3rd.

Glass Cook Stoves Seen As A Reult Of Priorities Rule

CHICAGO (UP)—Glass cook stoves may be the next wartime innovation in household equipment, the Illinois Manufacturers Association said today.

War priorities on iron, steel and other metals have led stove manufacturers to experiment with non-metallic materials, including glass, as substitutes in the production of the 4,000,000 stoves turned out in this country annually, the association said. Glass, terra cotta and cement are among the materials tried.

Doctor Forgets His Patient And Locks Him Up In Office

COLUMBUS, O., (UP)—Patrolman C. D. Miller heard a beating from the inside of a door to a downtown establishment late in the evening.

He forced the door and the imprisoned man, who gave his name as Icolius Raines, 45, Negro, told the officer that he was a patient of a doctor at the establishment.

Congratulations Graduates

As an alumnus of the Eastland schools I appreciate the privileges you have enjoyed and the pride and happiness your parents and friends feel at this graduation period.

Blind Judge Frees Deaf Mute Prisoner

BUTTE, Mont. (UP)—A deaf mute was arranged before blind Justice of the Peace D. F. Shea on a burglary charge. The defendant wrote out his "not guilty" plea, and the town constable read it to the judge. The judge questioned the deaf mute by asking his questions of the bailiff, who wrote out the questions and read the written answers to the jurist. After a sizeable crowd of City Hall employes had gathered to watch the unusual proceeding, the jurist decided the deaf mute was not guilty and released him.

Representative of 106 District: L. H. FLEWELLEN

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or steady passages with smarting and burning sometimes shows there is something wrong with your kidneys bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 50 years. They give happy relief and will help to 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Hope for folks pestered by KIDNEY PAIN

No more getting up at night! Swamp Root quickly relieves bladder pain and backache due to sluggish kidneys—makes restful sleep possible.

Thousands of middle-aged folks say Swamp Root helps them sleep like they did when young. Swamp Root flushes out painful acid sediment from the kidneys, enabling them to do a thorough job before going to bed. So there's no need to get up at night. In addition, Swamp Root quickly relieves bladder pain, backache and that general "misery" that comes from lazy-acting kidneys. You can't miss its wonderful tonic effect. Swamp Root was originally created by a well-known physician, Dr. Kilmer. It combines 16 herbs, roots and balsams—all good ingredients that help you feel better fast. Try this remarkable stomachic and intestinal liquid tonic FREE. Thousands have found relief with only a sample bottle of Swamp Root. Send your name and address to Dr. Kilmer & Company, Inc., Department 600, Stamford, Conn., for a sample bottle free and postpaid. Be sure to follow directions on package. Offer limited. Send today. All druggists sell Dr. Kilmer's Swamp Root. Kilmer & Co., Inc., Dept. 714, Stamford, Conn., for a sample bottle free and postpaid. Be sure to follow directions on package. Offer limited. Send today. All druggists sell Dr. Kilmer's Swamp Root.

the United States to intervene in a situation which threatens to turn this city into a virtual ghost town, according to Melior Pelusqui, port customs' collector. Pelusqui said he and President Camacho had discussed the effect of decisions taken by American shipping lines to curtail drastically their gulf coast service through Vera Cruz. He said the President had given him assurance the Mexican embassy would attempt to find some relief.

Congratulations Graduates

This is a time you should be proud of your accomplishments—we know you are, and well you should be. As for us, we join your other friends in wishing you the best of luck and good fortune.

Basketball Star Legalizes Nickname

PROVIDENCE, R. I. (UP)—Stanley John Modzelewski, 22-year old Rhode Island State sen-

ior and holder of the all-time major college basketball scoring record for four seasons, has legally adopted his nickname of "Stutz" as his surname. The Polish youth, who closed out his basketball career this past

Hank Luisetti's former mark of 1,596 points by more than 100 points, acquired his nickname because, as a boy of poor parents, he admired and polished the swank automobile of a neighbor. He was granted the change in

spring by smashing Stamford South Kingstown probate court after testifying that he had been known by the name of Stutz for the past 15 years.
