## JAP LANDINGS ON ALEUTIANS ARE SHROUDED

WASHINGTON, D. C., June 18—Secretary of War Henry L. Stimson said today that all reports on the landing of Japanese troops in the Aleutian Islands indicated that the invading forces were small. Stimson told the press conference today that he was unable to say, however, whether the invaders had brought up reinforcements at their small land hold on Attu, westernmost of the Aleutian group, or at Kiska Harbor, which some Japanese ships have entered. He reported that heavy prevailing fogs in the area had prevented American airplanes from getting an accurate check on enemy operations in the area, and had hindered to some extent efforts to wipe out the force, though several casualties to fleet units were reported. Stimson said, however, that as a result of American victories in the Pacific, chiefly in the Coral Sea and at Midway Island, the threat of a Japanese attack against the western coast of the United States had been greatly reduced.

## OPA AREA CLINIC 8:00 O'CLOCK FRIDAY NIGHT AT COUNTY COURTHOUSE

The Office of Price Administration has organized teams of specialists, each consisting of at least one man in the price division and one man in the legal division, to work with chamber of commerce and retail merchants associations to bring information to them concerning the new price regulations which became effective May 18. One of these teams will be present at a meeting arranged by the Eastland Chamber of Commerce in collaboration with the Business and Distributive division of the State Board of Vocational Education for Friday night in the county court room in the County court house at Eastland to which the merchants of Eastland and surrounding counties have been given a corial and urgent invitation as this is possibly the only meeting of the kind that will be held in this area. These meetings are very important as they furnish the business man an opportunity to obtain first-hand information on the new price ceilings and the regulations governing the same. M. A. Browning, state supervisor of the State Board of Vocational Education, has advised H.

## Decisive Round In Libya?

This is the scene in the north African desert as British and axis forces clash in what may be the deciding engagement. The map shows the Mediterranean Sea to the north, with Libya and Egypt to the south. Key locations include Tobruk, Benghazi, and the Suez Canal. The map also shows the positions of British and Axis forces, with arrows indicating their movements.

## AXIS PUSH BRITISH OUT OF TWO KEY POINTS IN LIBYAN DESERT SECTOR

Axis armed forces have pushed the British Eighth Army back toward Egypt in hard fighting on the Tobruk Desert sector, but on the Russian end of the enemy's giant Middle Eastern pincers the Red Army struck back with mounting fury. The important strong points of El Adem and Sidi Rezegh on the Tobruk Front were abandoned by the British and were immediately seized by Axis troops. The Red Army reported that it had broken up a German artillery, infantry and tank attack in an attempt to cross an important river, on the Kharkov Front, killing another 1,500 enemy troops. It was not revealed at which river front the fighting occurred, but it was assumed by military strategists that it was the Donets River. Stiff fighting still prevailed on the Russian Front, both in the Kharkov and Sevastopol Areas, where the German attacks, in an attempt to reach the Caucasus oil fields, were repulsed by the Russians in heavy fighting with enemy casualties running high. In the Sevastopol battle, the Russians said that they had stood off new German attacks, including some blows by enemy tanks, apparently landed by boat behind the Soviet lines. On the other fighting fronts the reports showed:

**China—** Japan appeared to be making a final big-scale assault on the 60-mile section of the Nanchang-Hanchow Railroad, still defended by the Chinese. Severe fighting has occurred in this section over the past few days.

## Steel Company Is Absolved Of Priority Charge

PITTSBURGH, Pa., June 18—The Jones & Laughlin Steel Corporation in Federal Court here was completely cleared by the United States Government of any implication of lack of patriotism in handling priorities and joined with the Government in consenting to an order stating that fact and directing the company to continue to comply with priority regulations. The Corporation stood on its answer filed on June 11th denying that it had "violated regulations, orders or directions" of the War Production Board and this was admitted in the decree. Federal Judge F. P. Schoonmaker, in signing the decree said, "This is a very happy disposition of the case, in view of the emergency in which this country finds itself at the present time and I am glad to sign this order as the parties have agreed upon." Counsel for the steel company pointed out that the time required for a trial would be better spent by both sides in prosecution of the war effort and stated "With the tremendous united efforts the war requires from every one of us, the Jones & Laughlin Steel Corporation is unwilling to engage further in any controversy with the Government priorities. Jones & Laughlin is and has been energetically conducting its operations in complete accord with the regulations, orders and directions of the War Production Board. All employees of the company are proud of their record accomplishment in furnishing essential goods to our country and the United States and the United Nations."

## Hunters Warned Of Difference In Kind Of Eagles

AUSTIN (UP)—State game wardens are quite insistent that people know the distinction between golden eagles and the American, or bald, eagle. The American, or bald, eagle is protected by law. The golden eagle is not protected and is in fact an outlaw so far as the game wardens are concerned. They kill as many golden eagles as they can. They even hunt them in airplanes. State Game Warden Ray Williams said the golden eagle is one of the smartest birds in the sky. They always are on the look-out for food, recognize man as their worst enemy and have the keenest eyesight of any bird. When they locate a fawn deer or antelope, they fold their wings and dive on it so fast that they make a noise like air being forced through a pipe, Williams relates. Extent of their depredations is shown by discovery in one nest of remains of 25 antelope fawns. Since that time, April, 1930, Williams alone has killed 1,338 eagles. He's killed them with poison, trapped them, and shot them from horseback, automobiles, and airplanes. Every time an eagle is killed in the lambing season, Williams calculates it saves the lives of 10 to 30 lambs, so he has no qualms about his warfare on the golden eagle. The fierce-looking golden eagle is not the only predator. The ordinary house cat is looked upon by Executive Secretary Will J. Tucker of the Game Department as the worst predator on birds. "The tame little pussy cat slumbering on the doorstep in the sun looks innocent enough," Tucker said. "But let a cardinal, a wren, a cedar waxwing, a male redwing blackbird, a mourning dove, quail, or any other bird get within reach of its claws and there's one less bird." Tame cats are bad enough, Tucker thinks. When they stray away from homes where they are fed, they live almost exclusively on birds.

## Booklet Upon Plant Efficiency Being Offered

DALLAS, June 18—A booklet on plant efficiency has been published by the Division of Information, War Production Board, and is now available for distribution, on request. The booklet is called "Plant Efficiency—Ideas and Suggestions on Increasing Efficiency in Smaller Plants." It is in simple terms and is designed primarily for smaller war plants or for plants which are just getting into war production and which might be able to increase production by a study of efficiency procedures. Chapters in the booklet deal with "Good Lighting—Better Work"; "Cutting Down Accidents"; "Adapting Old Machines to New Jobs"; "Maintenance and Repair"; "Longer Life for Cutting Tools"; "Production Lines Gear for War"; "Meeting Government Standards"; "Training Workers Quickly"; "Swing Shifts"; "Keeping Track of Orders, Production, and Materials"; "Plant Protection"; "Pooling Facilities"; "Getting Into War Work." Copies may be obtained from the offices of the Division of Information, OEM, in Dallas, Houston, New Orleans, or Oklahoma City.

## WTCC Organizes Committees For Public Affairs

ABILENE—The West Texas Chamber of Commerce this week is organizing its 150 Public Affairs committees to again work for passage of the Humphrey bill for reducing state governmental costs by modernizing and streamlining the state's administrative machinery. A news letter signed by President J. Thos. Davis and J. D. Hamlin, chairman of the WTCC's public expenditure committee, has gone out asking for renewals of endorsements given by more than 100 organizations to the program inaugurated in 1940 and carried to the 47th legislature. The campaign will be pointed at passage by the 48th legislature of the fiscal control bill by Rep. Joe Humphrey, of Abilene, embodying the WTCC plan. The bill was offered at the last session and passed the house by a large vote but died in the senate. It set up machinery for centralizing financial control and management in the governor, a governor's cabinet and the legislature. It created a department of finance and control with budget, purchasing and personnel divisions. It vested pre-auditing functions in the controller and gave the legislature control over post-auditing. Rep. Humphrey said he will introduce his bill on the first day of the session opening next January. He asserted that "there is no better time than during the war period to modernize our state administrative organization for more efficiency and economy." WTCC officials said the Public Affairs committees will at once start contacting their own legislators, laying the program before them and soliciting support for Humphrey's bill.

## Sock Savers

British girls wear garters as a substitute for stockings, no longer available. Film starlet Susan Peters wears them to save hosiery.

## Back From Bataan

With the horrors of the final days of Bataan and Corregidor behind her, Lt. Juanita Redmond, U. S. Army nurse, is in San Francisco—shopping.

## Labor Piracy Is Serious Problem Jaycees Are Told

DALLAS, June 18—Labor piracy—the hiring of skilled craftsmen from their present jobs by other manufacturers—is one of the most serious problems facing the nations factories and plants. Brig. Gen. F. J. McSherry, of the War Production Board's manpower division, told the 23rd annual convention of the United States Junior Chamber of Commerce here today.

## Huge Meteor Seen In The Northwest

LUBBOCK, June 18—Authorities concluded today that a large meteor fell last night between here and Abilene—but they could not find it. Dozens of reports came in of a dazzling streak of fire across the sky in the Buffalo Lakes region southeast of Lubbock. Several local people reported today that they had seen what some called a falling star, others believed to be a meteor and some thought might have been a signal rocket of some kind fired into the air. It is possible that people saw the same meteor reported in the Abilene-Lubbock area.

## Driver's License Will Be Issued At Eastland

A. Z. Howell of the Texas Highway Department, who is located at the City Hall in Eastland as examiner of automobile drivers' license applicants, advises that examinations will be held and license issued only on Mondays and Saturdays until noon. Heretofore examinations were held and license issued on Mondays, Wednesdays and Saturdays.

## Medical Branch Of University Will Speed Up Program

GALVESTON, Texas, June 18—When the University of Texas Medical Branch here admits 100 freshmen June 22, it will be feeling effects of its speed-up program which produced its first war-time graduation class two months ahead of schedule, in March. Meanwhile, faculty committees have selected March 22, 1943, as the date for admittance of the first class of next year. Whether there will be another admittance before Jan. 1, 1944, has not as yet been decided. Application for the March 22 class may now be made.

## Lee Phillips, 49, Buried At Cisco Monday, June 15

CISCO, June 18—Funeral services were conducted from a local funeral home at 5:00 o'clock Monday afternoon for Lee Phillips, 49, who died Sunday night in a hospital at Ranger following a short illness. Rev. C. S. Moad, pastor of the Church of God, officiated. Interment was in a local cemetery. There were no local survivors. The decedent was born in Cisco May 9, 1893, and in 1915 was married to Miss Floyd Mallon. Three children were born to this union. Phillips was for a number of years employed by the West Texas Produce Company of Cisco and more recently was employed by a Borger Produce company. 2nd Half State And County Taxes Is Due June 30 If you have taken advantage of the "Half Payment" plan in meeting your state and county taxes and have not paid the last installment you are reminded that Tuesday, June 30 is the last date this installment may be paid without penalty.

## Plaque Is Given To J. Watt Page

Brig. Gen. J. Watt Page, adjutant general of Texas, and also the state's Selective Service officer, has received a bronze plaque from national headquarters of the Disabled Veterans of World War I. The plaque was Admiral Stephen Decatur's famous words upon it: "Our country, in her intercourse with foreign nations, may she ever be right; but, right or wrong, our country." Wartime demand for nitrate has occasioned the opening in Chile of an important plant which has been idle for twelve years, says the Department of Commerce. The geographical center of Texas is a point 20 miles northeast of Brady in McCulloch County. Colonel John R. B. Banister, Deputy State Director, who will preside over the meetings; Colonel Dwight Horton, Lt. Commander James P. Crowder and Major Guiton Morgan, of the Occupational Deferment Section; and Lt. Colonel D. Burns, Chief of the Classification Division.

## REGISTRATION FOR BONDS TO BE SATURDAY

The Eastland County Committee for the sale of war bonds, in trying to estimate the amount of war bonds the citizens of this county will buy during the remainder of 1942, has set next Saturday, June 20, for Bond Registration Day. Everyone in Eastland County is urged to register, regardless of business or occupation stating the amount of bonds they intend to and are reasonably sure they can buy this year. Even if they have already signed a pledge card they are urged to register. Whether you buy each month from a salary or in a lump sum in the fall when your livestock is sold, or your crop harvested, makes no difference. You are still urged to register in order that the committee may know approximately what they can depend upon. It is great to be an American and it is the patriotic duty of every citizen to help win the war and we are sure that everyone will cooperate by registering and asking your neighbors if they have registered.

## England—

The Royal Air Force attacks the German submarine base at St. Nazaire, on the French West Coast, and raided targets in France and Belgium.

## Australia—

Allied airplanes shoot down two Japanese out of 18 bombers which attacked Port Moresby in the newest Japanese raid. No damage or casualties were reported in the communique announcing the latest raid on Port Moresby.

## Egypt—

British headquarters in Cairo reported that Allied convoys in the Mediterranean, despite considerable loss, probably saved Malta by delivering urgently needed supplies. The convoy operation was termed a "mild success."

## THE WEATHER

WEST TEXAS—Little temperature change tonight. Fresh winds this afternoon.

## Billy's Boy Wears Bars

Lieut. John Mitchell, son of the late Maj. Gen. William (Billy) Mitchell pins gold bars on classmate Robert Benish as they are graduated at Armored Force Officer School, Fort Knox, Ky.

## Nebraska Sarcasm

One need not be an unswerving follower of Senator George Norris' economic philosophy to sympathize with that honest belligerently straightforward old war horse as he sat in the United States Senate the other day and listened to the "debate" on gasoline rationing.

On the merits of nation-wide rationing there is room for legitimate disagreement, unless one accepts the thesis that our rubber situation is so serious that we must ration gasoline to control the waste of tires.

Even then, Senator Kilgore of West Virginia made a pertinent point that the proposed system for rationing fuel to save tires permits every motorist to do about 60 miles a week of non-essential driving.

Unfortunately the "debate" wandered from such matters to what many consider an unseemly display of vituperative demagogism directed against the men—notably Leon Henderson—who are trying to handle a very difficult situation with a minimum of errors.

To Senator Norris, as to many outside of Congress, the air of the Gentleman's Club grew unbearable. Briefly, caustically and effectively he said:

"It is obvious to an onlooker who listens to the statements of grave and reverend senators that not only is unanimity necessary, but it is achieved in the Senate. The Senate knows how to handle the rubber situation; and the co-ordinators, or whatever they may be called, who are in charge of the rubber situation, are all wrong.

"It is quite evident from the discussion which has been going on for the past hour and a half, and the statements of senators who know more about the rubber situation than do any of the co-ordinators, that there ought to be no regulation of gasoline which would affect the use of rubber or interfere with it in any way.

"We can handle the situation. That has been demonstrated in the past hour and a half. It was further demonstrated by the great speech made this afternoon by the senator from Florida (Mr. Andrews) in which he called attention to the steel and iron in sight in the Senate Chamber. He called attention to 80 tons of iron, 85 or 90 tons of steel, and the great quantity of other metals. He called attention to something that made chills run up and down my spine, when he said that if the facts should become generally known we might all be arrested for hoarding steel right here in the Senate.

"That demonstrates that we know how to regulate rubber and gasoline and that we ought to do it. It has been demonstrated that 96 senators can do a much better job than can one person who wants to be a tyrant, dictator, or something else and set the pace for the whole country.

"It seems to me that we have had a demonstration of how to settle the whole thing; and I do not see why we should not proceed to settle it."

Nor do we.

## Back To The Back Yard

## The Payoff

BY HARRY GRAYSON  
NEA Service, Sports Editor

ME has gone, but Paul may return to the majors, which is another way of saying that the big show may not have seen the last of the incredible hicks who pitched the St. Louis Cardinals to the world championship in 1934.

From a broadcasting booth atop Sportsman's Park, Dizzy Dean can only talk of the glorious and garrulous days of "Me and Paul" and the Gas House Gang.

But Paul is on his way back. Texas Leaguers, who knew Paul when he declared that he looks as good as when he went up the first time. Texas League umpires, who saw Paul when he had it all, say he is as swift as he ever was. When an old head pitcher like Rollie Naylor testifies to that effect, there must be something to it.

DAUL, whom National Leaguers considered faster than Dizzy when both were in full stride, has won six out of seven for Houston, to which Red Bird farm he returned when the Giants gave up on him in mid-May of last year.

Paul's arm trouble could be traced to his sympathy strike when Of Dix held out on the Cardinals. He retired late for no reason at all, got off on the wrong foot, and something snapped. He was sent back to the Texas League and when he bobbed up with the Giants he was overweight, appeared unable to get in condition.

Paul was dubbed Daffy only because Jerome Herman was Dizzy. It was a misnomer. He is a quiet and orderly chap, the very antithesis of his more spectacular and spouting brother.

## Eccentric Is Dead But Neighbors Are Still In A Dither

HORNERSVILLE, Mo., (UP)—Dr. Floyd Kinsolving, aged Missouri jack-of-all trades and eccentric is dead, but his very eccentricism has kept his neighbors in a dither and his estate isn't any nearer settlement than it was when he died May 5.

Called wealthy by the town-folks, Dr. Kinsolving, who practiced law, medicine, surveying, herpetology, teaching, and farming among other things, borrowed money to plant his crops last year.

When he died there was little evidence of wealth around his rambling 18-room farm home, but a country banker reported the deceased farmer had purchased \$50,000 worth of war bonds in January and they were no where to be found.

That started a search for his fortune. Before it ended nearly \$250,000 in cash and negotiable papers had been discovered—and even now many neighbors maintain that not all papers or cash has been found. They believe there is more in the old home among the litter of old cars, trailers, farm machinery and bottles which the late doctor saved.

Searchers discovered cash in odd corners of the home. The largest cache of more than \$60,000 was in a tin box hidden away in a niche cut in concrete under the back porch. A large can on a

## Agricultural Department Extension Service Geared Up to Go on Gigantic Educational Job

BY PETER EDSON  
NEA Service Washington Correspondent

BEGINNING about mid-June, phenomena strange for even these unusual war times will be observable all over the United States. In half a million rural neighborhoods, groups of from 10 to 15 farm families will sit down to have explained to them, by one of their number, just what the President's seven-point program is all about, and what every family can do to contribute its share to this anti-inflation program.

The meetings will be only the first of a series of similar sessions to explain other war objectives—organization for rural fire fighting, sugar rationing, and various phases of the salvage campaigns like how to save grease to relieve the shortage in fats and oils.

This vast program of neighborhood meetings marks the creation of a human chain of information which is intended to reach the most remote communities of the country. Organization of this vast neighborhood education scheme has been proceeding quietly since the middle of February, under the general direction of the Extension Service of the Department of Agriculture. By June 1, some 600,000 neighborhood leaders had been trained to assume responsibility for this educational work, each neighborhood leader to carry out the program in a group of from 10 to 15 farm families in his vicinity. Eventually there are to be a million of these neighborhood leaders, all serving on a volunteer basis.

Each county agent was given the task of organizing his county. There being some six million farm families, this means that the average county has about 2000 farms. These farms might be divided, say, into 15 communities or 130 neighborhoods. The job of the county agent was to select community chairmen, one man and one woman, to supervise the education program to each community in the county.

With gas and rubber shortages, it was necessary to break down the organization neighborhoods. The community chairmen were therefore given the job of lecturing and training a neighborhood leader for every eight to 10 families. The 90,000 community chairmen, in other words, were passing the word along to the million neighborhood leaders, and the million volunteers were passing the word on to the six million farm families with their 30 million population.

## PROGRAM FOR JULY 4TH CELEBRATION TO HAVE INTERESTING FEATURES

At a meeting of Eastland business men at the Chamber of Commerce Wednesday afternoon further discussion of plans for the coming Fourth of July celebration here were discussed and it was definitely decided that the fireworks display, which has been a feature of this occasion for some years, would be held.

The fireworks, which will depict the bombing of Tokyo, attack on Pearl Harbor, an other war scenes, will be on Sunday night, July 5th and immediately following the bathing revue.

Saturday night the usual street dance will be featured.

Mayor Hoffmann stated that he had a letter from Washington stating that Washington had no objections to the using of fireworks since the materials used in them

were not the kind as are used in defense work.

Other features of the program which is incomplete, will be a military revue Saturday afternoon, all-day picnic at the City Park Sunday and military band concert Sunday afternoon.

A number of other towns in section have been invited to entrants to the bathing contest and many of them have advised of their intention to do so.

There will also be the usual musical program, speaking, etc., the details of which are yet to be arranged.

The \$150 dollars to be awarded in the bathing beauty contests will be paid in war bonds and stamps.

## Society, Club and Church Notes

### REVIEW OF YEAR TOLD AT CLUB LAST MEETING

At the closing meeting of the present Club year held the second Wednesday in this month, the Civic League and Garden Club gave a review of the year's work done by the club.

The club opened the year with a fall luncheon at which Mrs. T. G. Rogers of Decatur was presented in a talk on dahlias. She illustrated her talk with colored slides of dahlias from her garden of 3000 plants.

The Fall Flower Show, held in connection with the Eastland County Fair, attracted much favorable comment and great interest. The show was arranged by a committee headed by Mrs. James Horton.

In December, the fourth annual Folk Festival, a charity event sponsored by the Club to help the needy in Eastland each Christmas season, was held. Mrs. Elmo Cook was chairman of the committee.

and a net sum of \$160 was made. Mrs. T. E. Richardson was general chairman of the Christmas Cheer Fund and had charge of distributing food, clothing to the needy families.

Many outstanding programs were presented during the year. Mrs. H. O. Tatum of Mineral Wells was presented in a talk on "Land-seaping."

Annual Spring Clean-Up Campaign was again sponsored by the club and was under the supervision of Mrs. Frank Castleberry. Promotion of beautification of the grounds around the high school and junior high school was done by the club and Mrs. Clyde Grisson directed this project.

The Civic League and Garden Club assisted in the organization of a similar club among the negroes. This club is called the Larkspur Garden Club and is now active among the colored folk of Eastland.

In connection with the war work, the club presented each lecture as he left for the armed service. A box of cookies, candy and cigarettes.

The Civic League has a membership of 130 and the president of the club is Mrs. Jack Ammer.

### TAYLOR STUDIO RECITAL HELD MONDAY AND TUESDAY

A large attentive audience was present the two nights of the Taylor Studio recital Monday and Tuesday. Mrs. A. F. Taylor, councilor and director of the Studio presented her students of piano and expression in the annual spring recital at the Methodist Church the evening of Monday and Tuesday.

A background of an arrangement of the six flags which Texas has been under, with a center arrangement of an electrically lighted "V" and tall baskets of gladoli in red and white was effectively used for the recital. Candlabra with tall white tapers were used.

## The Town That War Built

In a Canadian Munitions City of 450 buildings and 6,000 workers, a fleet of taxis driven by smart driverettes is operated to save time for busy war workers. A reclaimed swamp nine miles square, once the bottom of a Laurentian mountain lake, is the site of the largest explosives plant established in Canada since the beginning of the war. Still in process of construction, the project is now equipped with 30 miles of tracks on its own railroad, a fleet of 30 trucks, living quarters, dining halls, a post office and hotel, all operating 24 hours a day.

The need for crop cultivation in Switzerland has necessitated a reduction in livestock, according to the Department of Commerce.

Featured on the program were the double piano numbers which with two pianos and two players. This is a new feature on recitals and was well received.

## Bowie Cavalry Unit To Be Here Sunday

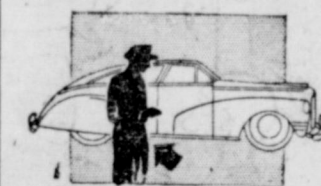

Artist from the 113th Cavalry of Camp Bowie will present the show Sunday afternoon on the Regiments on Parade at the Connellee Theatre. These shows are sponsored by the Legion Hill Service Club who receive a percentage of the proceeds to use in maintaining the Service Club for all visiting service men.

Last Sunday at 2:30, the show was presented by the 142nd Field Artillery Orchestra with an hour and half musical show that was greatly enjoyed. Presented on the program were vocal selections, dance numbers by the members of the orchestra. A feature on the program was a dance number by Connie Canaris, ballet.

The show will begin at 4 o'clock Sunday afternoon and the regular admission prices will be in effect.

Recruiting of laborers in occupied and other neighboring countries has been placed on an organized basis by the German government, the Department of Commerce says.

## Scouts To Pick Scrap Rubber And Paper Monday

Local Boy Scout officials have set Monday, June 22, as the day on which Scout troop No. 103 will collect scrap rubber and paper. The entire city will be covered at that time by the scouts and everyone desiring to do so are asked to place such scrap rubber and paper as they may have to give, on their front porches or at the front gate where the scouts may get same with as little bother to the donors as possible.

Such scrap rubber or papers as the Scouts collect will be sold by them and the proceeds turned in to their scout organization.

Any form of scrapped rubber, old newspapers and magazines and carton paper is desired. The paper collected will be shipped immediately to some government defense project and put to use.

**Every Dog Has His Day"** 

This has been said of many faithful dogs that have shown loyalty, consideration, courage and unflinching love to his master . . . only after he is dead.

In many respects your newspaper is similar to the life of a dog—It must always be on the watch—show unflinching courage and consideration—be ready at all times to face its master, the reading world, fair and square showing no malice or partiality.

A newspaper has no "day" because it doesn't die . . . it must keep serving from day to day without end.

**IT'S THE EASTLAND TELEGRAM**

  
One Ad Will Point Their Feet TO YOUR DOOR!

The more people see your ad, the bigger the results will be. That's the reason why advertisers who have used The Daily Telegram once come back again and again. Their ad goes into Eastland homes. There it is accepted, for The Telepham is a newspaper that is BELIEVED in. As an evening paper it is read longer and by more members of the family . . . and that's the reason why you get such thorough coverage of this market when you advertise in The Daily Telegram.

Everyone Reads the Telegram

# EASTLAND TELEGRAM

**It Won't Happen Here . . .**  
. . . That was what we all thought, but it did. Texas has had more hail and wind this year than the dopsters ever dreamed of, so look out for a sizeable increase in storm rates.  
We recommend one of our term contracts to avoid the extra cost. It saves you money and is easy to pay for.
