

Uranium Test Negative

Engineer Reports No Trace Show in Samples

where this low grade uranium is found will be marked down and counted as a future reserve.

"Because a sample is picked up off the earth's surface it does not necessarily mean that it could be dead by laying in the open. For example, in the old mines of your area, where samples have been picked up that were brought to the surface in this century, if any uranium was present at the time that they were brought to the surface it would still show. Uranium will be good even if it is left on the top surface for a lifetime. The quality will depreciate but the uranium will still be present."

The famous uranium engineer explained, "The Atomic Energy Commission works hand in hand with this Bureau and will disperse a representative to any area where a sample is found that shows any trace of uranium. It is a program where not a clue is overlooked."

In Amarillo, Dr. Siebel stated,

"There is a little bit of everything in Texas now. All we need is some commercial uranium."

Engineer Knickerbocker mentioned, "Uranium is a heavy, white, radioactive, metallic element and is used in U-235, which can sustain efficient chain reaction and is for this reason used in the atomic bomb."

"Because of the high value placed on it by the United States Government Atomic Energy Commission, thousands of people are looking for uranium every day. People have invested large sums in geiger counters and other expensive equipment, and when they walk across an area that contains a metal that will throw off a radioactive wave, they at once become excited and go into a tail spin and scream uranium!"

Last Rites For Mrs. W. Coffey Held Monday

were held Monday afternoon for Mrs. W. O. Coffey at the Flatwood Methodist Church with Elder C. L. Casey of the Cisco Primitive Baptist Church officiating.

Mrs. Coffey died in Anson Saturday. Burial was in Flatwood Cemetery.

Mrs. Coffey was born Sept. 12, 1895 in the New Hope community near Gorman. She moved to Arkansas with her parents when she was three months old and moved back to Texas at the age of eight. She lived in the Staff community until she married W. O. Coffey, at the age of 17. They lived in the Flatwood community until 1942 when they moved to Lamesa. They lived there until January of this year when they moved to Anson.

Survivors include her husband; four daughters, Mrs. Leslie Whitely of Gorman, Mrs. Dorothy Elymore of Big Spring, Mrs. Ramey Nails of Midland and Mrs. David Bailey of Guthrie; two sons, Weldon H. of Fort Worth and James Burl of Lamesa; her mother, Mrs. Ann Crosby of Olden; three sisters, Mrs. J. R. Davis of Eastland, Mrs. Ruby Ash of Ranger and Mrs. Travis Reese of Olden; and two brothers, Allen Crosby of Eastland and O. B. Crosby of Monahans.

Hardin-Simmons Chapel Choir To Sing Here

APILENE (Sp.)—The Chapel Choir of Hardin-Simmons University will present concerts in Albany, Freckenridge, Mineral Wells and Eastland, Monday and Tuesday, May 3-4. Jack Dean, assistant dean of the School of Music has announced.

The 50 voice choir is directed by Dr. Euell Porter, chairman of the H-SU voice department and professor of voice and church music.

The H-SU singers will sing in Albany High School Monday morning, Breckenridge High School Monday afternoon, Monday night they will provide music for the Palo Pinto Baptist Associationally rally in the First Baptist Church of Mineral Wells.

Tuesday morning the choral group will present a second concert in Mineral Wells as they sing in the high school auditorium. A final concert will be presented Tuesday afternoon in Eastland High School before the group returns to the campus.

The Chapel Choir is one of several touring groups from the H-SU School of Music which represent the University in out-of-town performances. Other musical groups which frequently appear in surrounding towns include the A Cappella Choir, the Cowboy Band and the Symphonic Band.

Music by the choir consists of both sacred and secular selections. A variety of music literature is studied by the H-SU musicians, ranging from Bach motets and chorals to "Stormy Weather" and Negro spirituals.

Dr. Porter is a graduate of Hardin-Simmons and has studied at Texas A&M and the Westminster Choir College of Princeton, N. J. The Westminster influence is evident in his choral presentations.

Prince Miava broke in in quick style last night at the Sportarena, giving substitute Henry Lenz a beating he won't soon forget. Miava needed just two falls and less than five minutes to wrap up the bout.

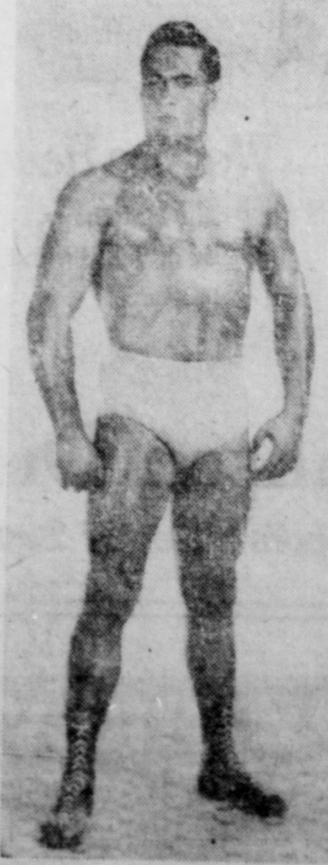

In the other two events, Kathleen Wimbley and Cowboy Carlson walked away with wins.

The Carlson-Graham match was the crowd pleaser. Carlson needed the help of Referee Bill Stedum to handle the rugged Graham, and won the match on two straight disqualifications. Stedum not only disqualified Graham, he helped give him the working over.

Kathleen Wimbley proved too much for Babe Wingo in the opening bout. The two Negro girls put on a good show for the near full house before Wimbley won the fall on a body press.

On next Monday night's card, Promoter Henry Pullman has matched Cyclone Anaya against Frank Murdock in the main event. Bill Stedum against Christ Tolos in the semi-final bout and Enrique Guzman against Ale Leilani in the opening event.

Lou Plummer, recovering from an illness, will referee the bout.

Cyclone Anaya

EDITORIAL

The Uranium story has got a point whereby a complete analysis must be made so that the people of this area will have a view of this precious mineral.

First let's ask ourselves, Who wants uranium? We all know the answer it is The United States Government. What do they want with uranium? It will be used by the Atomic Energy Commission which is a commission of our government and not a private enterprise. Who mines uranium? It is mined by your government. Who tests uranium? It is tested by the United States Government Bureau of Mines and reported to the Atomic Energy Commission. Would a person need to have test made in private laboratories and use core drilling machines or large earth moving equipment to get the government interested? The Government will test the samples free, they are the only ones in this country that is interested in uranium. If uranium is found present in the samples the government will send a man to you and at that time the government will pay for any earth moving or other necessities in getting samples from the inner-earth. Should a person get excited about uranium? No, because the chances for finding uranium is very rare, in fact, there is no commercial uranium in the state that is known now. If there is uranium on a person's land, would he get rich? It would be a lot better to have several good oil wells. The government sets the price for uranium and it is not on a competitive market.

Should any public service organization mindfully employ the minds of the people that they will be rich any minute when it causes workers to leave the fields where crops need planting, farmers to go around looking for rocks when peanuts need to be in the ground after a good rain and housewives climbing over a mountain when they should be at home cooking dinner? Should a home spend money that is needed, due to the times, that we have now to pay for investigations or any mineral professor to examine samples when the government will do it free? Should people be brought to a point where they have far-fetched dreams of getting rich, then dumped on their face? The answer to all is NO.

A lot of you old timers remember the gold rush days and the oil booms. That was definitely different. At that time and at this time gold and oil are competitive on the market and a product of free marketing and enterprise where uranium is used only by the United States Government and although you do have uranium the government will mine it only when it gets ready. The Atomic Energy Commission has a record of uranium deposits the world over and many, many mines have not been tapped because of the cost and

EASTLAND BAND WINS FIRST DIVISION RATING, 7TH TIME

Eastland High School students competed with more than 1,400 students from 19 high schools in the Region II Interscholastic League Band Music Festival in Stephenville Friday and Saturday at Tarleton State College.

A total of 320 students participated in solo and ensemble events, including woodwind, brass, piano, percussion and baton twirling.

Contestants vied with professional standards. Ratings began in Division I. The Mason, Santa Anna, and Throckmorton bands received special sweepstakes awards for Division I ratings in marching, concert and sight reading.

Eastland won Division I rating in concert. This makes the seventh consecutive year that the band has won first division. This is the first year that the band has won trophies for marching both in the fall and the spring.

Dr. Don Morton and William Hill of Tarleton served as contest directors. Judges were Ed Cannon of Conroe, Oakley Pittman of SMU, Woody Woodward of Decatur, D. O. Wiley of Texas Tech and G. Gilligan of Kermit.

Rating in band concert:

Division I—Throckmorton, Mason, Santa Anna, Ranger, Eastland and Coleman.

Division II—Rotan, Crowell, San Saba and Stephenville.

Division III—Cisco, Moran, Albany, De Leon and Hico.

Division IV—Baird.

Ratings in other divisions:

Clarinet Trio—Division I, Richard Jones, Helen Taylor and Jane Ann Jernigan.

Clarinet Solo—Division I, Helen Taylor; Division II, Helen Ruth Flowers.

Saxophone Solo—Division I, Janis Little.

French Horn Solo—Division II, Carl True.

Tuba Solo—Division I, James Blackmon.

Violin Solo—Division I, Janis Little.

Piano Solos—Division I, Helen Taylor; Division I, George Ann Bennett.

Born In May?

Emerald Is Love Stone, Spell Snapper

(Editor's Note: This is the first in a series of articles, which will appear each month. It concerns only those of you who were born in May. Your birth-month will be featured.)

The emerald, birthstone for May, has always been considered a love stone, closely identified with Venus and particularly propitious for women, bringing them happiness in love and comfort in domestic affairs, according to the Jewelry Industry Council.

Entitled to wear the emerald as a lucky birthstone are popular leaders in the entertainment world: Irving Berlin, Benny Goodman, Ezio Pinza, Sir Laurence Olivier, Cornelia Otis Skinner. In the field of sports, Joe Louis and Sam Snead claim May as their month. Henri Bonnet, former French ambassador to the United States, and Bishop Fulton J. Sheen, Catholic theologian and educator, are on the May list, which also includes Florence Nightingale, Ralph Waldo Emerson and Walt Whitman.

Among the legends and superstitions that have attached themselves to this beautiful green stone is a belief that conjurers and magicians could not weave a spell about anyone who wore an emerald. Gold and emerald jewelry has been found in the mounds of Tuscany, Herculaneum and Pompeii—cities which lay in ruins hundreds of years before America was discovered. The most important source of emeralds today, however, is South America.

With its rich color and depth, the emerald makes a handsome ring stone for men and women, and is particularly suited to delicate earrings, bracelets, brooches and clips.

Student Finds Jim Liles 'Wonderful'

(Editor's Note: Following is the essay that won second place honors in the Civic League and Garden Club's contest. Mrs. Joseph M. Perkins and daughter, Dorothy, judged the essays.)

By ALLENE GRIFFIN

On a sunny afternoon I decided I would visit a wonderful old couple that are very young at heart. Everyone who knows them will say the same. While we were talking, we ventured off into a discussion about happenings eighty-one years ago. The rain had just fallen on the flowers which were blooming and on the green trees. The weather was just right for living back in the old days. The name of the couple is Jim and Mary Liles.

He started off by telling me about the sunny autumn day when the leaves were changing colors, and the last petals of the roses were falling. Lucius and Jane Liles were very proud on September 9, 1872, in Arkansas when their eleventh child was born. It was a bouncing baby boy. They gave him the name Jim Liles, and each relative was very proud of him. Jim, his mother and father, and ten sisters and brothers lived in Arkansas for one year. They later moved to Bell County where they had many hardships and still enjoyed many happy experiences. Jim sat there with his hands folded in his lap and looked out into space as he told me of the day when his mother, his sister and he were visiting. It started raining before they got home; it did not lack much being a cloud burst. They were riding a mule that day and had to cross the river before it rose too high for them to cross. They enjoyed the ride but feared they might not make it. He told me he remembered his mother saying that the mule wanted a drink but she would not let him drink because he would want to lie down and roll in the river. They made the journey safely back home but

King's was around seventeen years he was noticing a small, lovely girl that had long blonde wavy hair that was only twelve years of age. He had known her all of her life. They saw each other many times a week at some of the quilting or candy parties that were held. Several years later he changed Mary Armstrong's name to Mrs. Jim Liles. It was on a cold winter day of December 1, 1892. He was twenty years old and she lacked nine days being fifteen. They lived with his family one year and later built a log house of their own. They went to dances and Jim played the violin. One afternoon they rode their horses to a dance ten miles from their home. Jim carried their oldest son in one arm and was holding the violin in the other. Mary was riding a side saddle and holding their other child. They danced all night and came back the next morning.

The families who helped Jim Liles settle this community called Pleasant Valley, were the Ballards, Thurmans, and his wife's mother and father, the Armstrongs.

The families would all get together and help any new settler that came in build his log house

King Appliance Opens Store Here

King Appliance Co. opened for business Monday, becoming the newest business concern on the square in Eastland.

The new business opened on the southeast corner of the square, in the building formerly occupied by Anderson's Specialty Shop. The building has been completely redecorated.

King's will carry a complete stock of Servel gas and electric home freezers, refrigerators and room coolers. Roper ranges, General Steel Kitchens and Hotpoint Appliances will also be stocked. Butane and propane service will be available.

L. E. (Shorty) Treadwell is manager of the store.

William Jay Is Promoted To Corporal

FORT LAWTON, Wash. (Sp.)—William F. Jay, 23, son of Mr. and Mrs. T. L. Jay, Gorman, was recently promoted to corporal while serving with the Army's 20th Anti-Aircraft Artillery Battalion at Fort Lawton, Wash.

Corporal Jay is a radar operator in the battalion's Battery C, part of the air-ground defense for Fort Lawton and the Seattle-Tacoma-Fuget Sound area.

A 1952 graduate of Howard Payne College, he entered the Army in December of that year and completed basic training at Camp Roberts, Calif.

Moore... ABOUT Eastland

By VIRGIL E. MOORE

Shortest summer in Eastland's history, wasn't it?

A&P is a new manager. He is J. D. Nelson, a native of Dublin. Nelson replaces Fred Parsons. He comes to Eastland from the Cisco store, but still calls Dublin home.

By the way girls, Nelson is single and good looking.

Pat Linkenhoger and Mrs. Winnett Maynard celebrate their birthdays today. And this is Mr. and Mrs. Jesse Cavanaugh's anniversary. Wednesday, Randy Scott will be eating his birthday cake.

Quote of the Day—"Who is the happiest of men? He who values the merits of others, and in their pleasure takes joy, even though 'twere his own."—Goethe.

We went to Fort Worth to the zoo over the week end and haven't quite recovered yet. We will try to write more Moore About Thursday.

Shirley Freeman Wins Charles Crawford Award

The Charles Crawford Chapter of Daughters of American Revolution presented an award to Shirley Freeman of Eastland High School.

The Charles Crawford Chapter of Daughters of American Revolution presented their Good Citizenship award to three senior girls from Cisco, Eastland and Ranger over Eastland's radio station KERC, Sunday, at 3 p.m.

The girls who received these honors were Miss Anita Strobel of Cisco, Miss Shirley Freeman of Eastland, and Miss Patsy Perrin of Ranger. Mrs. Nancy McCrea of Cisco is regent of this organization and will present and pin these medals on the girls.

The teachers and students in voting on the girls use patriotism, personality, scholarship, honesty, and helpfulness to other students as the basis for selection.

Ag Workers To Hear Expert

County Agricultural Workers will meet tonight in the County Courthouse District court room to hear John R. Wood, regional game warden with the State Fish and Game Commission.

The meeting will begin at 7:30 p.m.

Conrad Miller, George I. Lane, Will Brown Begin Army Basic

Two Eastland and one Carbon man have recently began eight weeks of basic training in the Anti-aircraft Artillery Replacement Training Center at Fort Bliss, Texas.

The three are Pvt. Conrad D. Miller, Route 2, Eastland, son of Mrs. Cecil K. Miller; Pvt. George I. Lane, Jr. son of Mr. and Mrs. George Lane, 860 Mose, Eastland and Pvt. Will D. Brown, whose wife, Mrs. Wunelle L. Brown, lives in Carbon.

The first eight weeks of basic training are spent on fundamental infantry subjects like army drill, rifle, machine gun, and bazooka marksmanship, and familiarization with army technical subjects. This first phase of training is climaxed with a one week maneuver in the field.

Upon completion of the first eight week cycle, he will either be assigned for further training at Fort Bliss in the techniques of anti-aircraft artillery or he will be transferred to another training center for schooling in some other army skill.

Should they remain at Fort Bliss their second eight weeks will see them learn the uses of various electronic equipment employed by the AAA-RTC. They will also be ex-

"You gotta give her credit! She sure tries hard to lose weight!"

EDITORIAL—

(Continued from Page One)

the uranium is not needed now. The uranium at this time is part of a tool of war. It has not been developed as a tool of peace and turned over to independent industries yet.

Uranium does not create a boom! It creates a boom of prospectors for the high reward for its find, but it does not cause thousands of workers to move into a town with picks and shovels.

We are people that have been through and living in towns that were built by booms. We are people that have a brain. We are people that know and weigh a story before a decision. The United States Government tested samples and said there was no uranium in them. If you have any rocks you want checked, send them in, it won't cost you a dime. As for your chances, I believe you spend your time planting the crops after this wonderful rain you will be financially better-off.

The uranium story is not a story that The Eastland Telegram wants to encourage and stir the people up over. If it had any basis and the government test showed anything it would be a good story, but did you ever consider the worth of the rain last week? It was worth more money than all of the uranium that will be found in this country a million fold and the rain is spread out to each of us in proportion, so make use of it while the sun shines and when the crops are all laid by, if you want a good hobby, start gathering rocks and mail them to the Bureau of Mines, it won't cost you a penny for the test.

Letter From Olden

Rain, Ambulance, Banquet, Picnic Are Biggest News Around Olden

Dear Readers:

Another week has passed and here I am again with the happenings of the week.

Mrs. J. C. Simmes celebrated her 72nd birthday last Saturday evening in her home. Those who gathered in to wish her a happy birthday and presented her with gifts and enjoyed a birthday dinner were: Mr. and Mrs. A. D. Campbell, Bro. and Mrs. Clarence Brock and Arzel, Mrs. Pete Holt and Mr. and Mrs. Dick Yielding.

The Junior - Senior Banquet, which was held in the dining room at King's Cafe in Ranger, was a beautiful one. The Stork Club theme was carried out throughout the evening. The girls in their evening dresses resembled butterflies floating through the air and the boys were handsome in their suits and new bow ties. Many said it was the most beautiful banquet they had ever attended.

Turning to the more serious side of life, the people of Olden really had a scare last Tuesday evening when a lady looked out and saw an ambulance coming through Olden. Telephones begin to ring and cars began to buzz by. Soon the ambulance stopped in front of a house and a young couple got out and entered the home of the girl's mother for a visit. The moral of the story was, Peggy and Don, who reside in Brownwood where he works in an undertakers parlor, were homesick and had no car so they drove the ambulance home.

Mr. and Mrs. E. E. Sharp, Mrs. Gladys Yielding and Mr. and Mrs. Glen Ferguson were in Crane Saturday and Sunday attending the funeral of a niece, Mrs. Opal Aaron. She was the former Opal Jones.

Mrs. Bob Lester enjoyed having her baby sister and family, the Ed Freemans of Graham, visit her last week.

And Mr. and Mrs. Gene Rouch and children of Holliday visited his mother here Sunday.

Then, Supt. and Mrs. Tommy Thompson and Mike were also visiting in Olden over the week-end.

Mrs. Bill Roberts and baby of Fort Worth visited her parents, Mr. and Mrs. John Sapulver over the week-end.

Mrs. A. D. Campbell and Mrs. Dick Yielding were shopping in Fort Worth Saturday. Miss Arzel Brock accompanied them home. Miss Brock will be employed in the Magnolia office in Ft. Worth May 3. Mrs. Willie Brockman spent from Friday through Sunday with her daughters, Mrs. Hershel Phillips and Mr. Phillips of Hamlin.

Mr. and Mrs. Tommy Alford were dinner guests in the O. H. Dick home Friday evening of last week. And Mr. and Mrs. Joe Lawrence spent Sunday in the home of relatives in Abilene.

The Seventh and Eighth grades drove to the Cisco Lake Tuesday evening for their class party with their sponsor. They enjoyed a skating party and a picnic. They were chased home by the storm and all went to the storm cellar. Afterwards they went to the gym for their picnic lunch.

The Truman Bryand family was honored with a going away party in the Tommy Alford home last Saturday evening, and was presented with a silver covered butter dish as a love gift from the community.

Mr. and Mrs. Dick Yielding received word last week from their daughter, Mrs. Gravel Nabors, of Fort Smith, Ark., that they would be home in the next two weeks for

NEWS FROM STAFF

By Mrs. M. O. Hazard

STAFF—Mrs. Gene Williamson of Olden was visiting with Mrs. Allen Crosby and Mrs. Griffin Hart last Thursday afternoon.

Mr. and Mrs. Maurice Hazard of Eastland were guests Friday evening of their parents, Mr. and Mrs. K. A. Parker, and Mr. and Mrs. M. O. Hazard.

Staff's groceryman, J. W. Mounce, was transacting business in Ranger Saturday.

Mr. and Mrs. J. C. Foreman and sons of Olden were the guests of her parents, Mr. and Mrs. Allen Crosby, Thursday evening.

Mr. and Mrs. Wayne White visited with relatives at Meridian Sunday.

Mr. and Mrs. M. O. Hazard were business visitors in Eastland Saturday.

Mrs. Sam Hart and daughters of Cisco were guests in the home of Mrs. Hart's son, Griffin, and

family Sunday.

Mr. and Mrs. T. E. Pope visited recently in Cross Plains with the John and Lee Bishos.

The J. C. Foreman family of Olden was visiting with Mrs. Foreman's parents, the Allen Crosbys, Sunday afternoon.

Snow Frost of Eastland was visiting Sunday with his son-in-law and daughter, Mr. and Mrs. Griffin Hart.

The Maurice Hazard family of Eastland were out to visit with the M. O. Hazards and R. A. Parkers Sunday afternoon.

Mr. and Mrs. Raymond Rodgers of Anson visited recently with her brother, Mr. and Mrs. T. E. Pope.

Dear Mom & Dad
 Down at the Majestic Theater I saw a sign about a show that is coming. I sure want to see it. So please don't make any plans for Thursday night and take me to see Rob Roy this a picture that you have been reading the story of in the Sunday Funnies. And will be just real good, and there is a cartoon with the show that's 35 min long its called Pecos Bill and Roy Rogers and Trigger are in it too. So please don't forget and let go early so we can see it all and get a good seat.

Your son
 Jerry.

Telegram School Reporter

Hasn't it been wonderful all the publicity our Eastland Telegram has given the Band Posters' Birthday Calendar? Next year when we go out to sell the calendars, folks will have their money in their hand waiting for us to list their family. We feel the calendar is a great help to our town. If all churches, clubs and organizations will list their meetings, as well as residents listing their birthdays, it will draw the town closer. Thanks to our local paper for helping us put the idea across this year and adding over \$500 to our much-needed band fund. Many folks speak about Mr. Moore's column carrying the birthday listings.

Well some of us had to much circus. We were sick and had to miss some school—thus we do not have perfect attendance now—sure sorry too.

All pre-school children—who will be six before Sept. 1—are invited to attend West Ward School Tuesday afternoon. This is the same afternoon of PTA, therefore, their mothers are cordially invited to stay for PTA. I understand Miss Thornton and Mrs. Smith will keep them while their mothers are at the PTA meeting.

Mrs. J. C. Inzer will install the new officers of PTA and Mrs. M. A. Treadwell will tell what PTA has done this year. Hostesses will be the executive committee. This is the last meeting of the year.

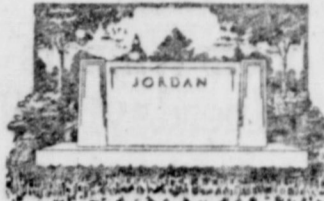

We all enjoyed a very fine program up at high school this week.

A farewell party will be given for the fifth graders May 17th, at 7 p.m. at the city park. We will have fifth grade graduation Wednesday, May 26th in our school at 8.

CONTOURING IS IMPORTANT

The long, curved sweep of a contour is the mark of a land owner who is bent on conserving his soil. Top soil is priceless. It is usually only a few inches thick. It takes nature from 300 to a thousand years just to build one inch of topsoil. Yet, one heavy rain can remove as much as an inch of soil from an unprotected field overnight. Sometimes the whole layer of topsoil on a freshly plowed field can be washed away. The remaining soil is more easily eroded after the upper layers are gone. Running water is nice for the home—but it's bad for the land.

Just as contours are good ways to check erosion, a checking account is a good way to check waste of money. Start your checking account today.

Zeta Pi's Meet With Mrs. R. M. Sneed, Tuesday

The Zeta Pi Chapter of Beta Sigma Phi met in the home of Mrs. R. M. Sneed April 27 at 7:30 p.m. with Mrs. Jack Germany as co-hostess.

Mrs. Fehrman Lund, newly elected president was in the chair for order of business. A Field Trip, as planned by the years study chairman, was made to the Horton Ceramics and the touring group returned to the Sneed home to complete the business of reports.

Mrs. Sneed and Mrs. Germany served a delightful plate of strawberry short cake and coffee to members present: Mmes. Bill Leslie, H. C. Gage, Truman Brown, Jim Eidson, Jack Horn, Freddie Black, Burl Lee, Luther Wilson, Marene Johnson, Neil Hurt and John Goode.

Music Club Honors Winners Wednesday, 3:30

The Eastland Music Study Club will honor winners of all Junior Music Festivals at 3:30 p.m. in the Woman's Club, Wednesday, May 5. Mrs. W. C. Vickers will be the leader. The hostesses are Mmes. Fannie Belle Taylor, George Bledsoe, F. L. Dragob, Guy Patterson and L. E. Corbell. The pupils will be from the various musical studies.

SOCIETY

Eastland Ladies Attend First District P-TA Meet Held In Brownwood, April 28 and 29

Mrs. James Wright, Mrs. F. N. Sayre, Mrs. O. G. Lenhardt, and Mrs. Victor Edwards of Eastland were among the 337 registered delegates for the 43rd annual two-day conference of the First District, Texas Congress of Parents and Teachers, which was held in Brownwood, Wednesday and Thursday, April 28 and 29.

The First District is composed of 17 counties, six city councils, six county councils, 231 local units with more than 67,055 members. Counties include Bosque, Brown, Callahan, Coleman, Comanche, Eastland, Erath, Hamilton, Hood, Johnson, Mills, Palo Pinto, Parker, Shackelford, Somervell, Stephens and Tarrant.

The theme of the conference was "Concerned Action: Richer Dividends For Every Child" which was discussed by Mrs. Harry J. Rudloff of Fort Worth who was serving the unexpired term of Mrs. W. S. Kemp who had resigned as president after moving from the district.

In the absence of Mrs. Leon Price, Dallas, state president, because of a death in her family, Mrs. Bleeker Morse of Dickinson, vice president of Texas Congress of Parents and Teachers, spoke on the conference theme stating, "We became aware of the need to provide better educational opportunities for children when the organization was created; we passed through a period of blindness when we neglected our schools; and now we are in a period of judgment because our school systems are being attacked—no matter how unjustified."

Mrs. Morse reminded the delegates of three stages of development the parent-teacher organization has passed through since its founding in 1897 when four American cities were considered advanced because they were the four that provided playgrounds for children.

Dr. John McFarland, superintendent of Vernon Public Schools, in his talk Wednesday evening stated, "The American dollar is the powerful little instrument in the world today. How well we educate our youth to use it may determine

the direction of the world." He emphasized, "One of the fundamental jobs of the Parent-Teacher organizations is to teach intelligent, merciful and loving youth of the American dollar. That is the keynote of effective citizenship and education."

He urged members to establish a spirit of wanting to improve society among youths. He said, "We are a fellowship of concern—about the welfare of our children, communities, schools, nations, and the world, and we must pass our concern to some of our boys and girls."

Mrs. E. C. Eaton, Star Route 3, Brownwood, was awarded a life membership in the National Congress of Parents and Teachers by Mrs. Jack Guthrie, general chairman of the national quarters committee. Mrs. Eaton was president of the Earl High School P-TA during 1944-45. She was then elected vice-president of the First District and also served one year as district president filling the unexpired term of Mrs. G. L. Hollon who died in 1950. For the past three years, Mrs. Eaton has served as first vice president of the district.

Mrs. Carl Horn was awarded a state life membership in Texas Congress of Parents and Teachers. One hundred and ninety-four attended the luncheon honoring the members who hold life memberships. Mrs. Joe Teichman, district life membership chairman, assisted by Mrs. R. W. VanHamersveld, was in charge of the luncheon program. Mrs. Jack Wilson's pupils from East Elementary presented a minstrel show.

Mrs. Harry Rudloff of Fort Worth, who was re-elected president, was installed along with other officers just before conclusion of the annual meeting. Mrs. Bleeker Morse, state vice-president, also installed these vice-presidents: Mrs. Leo Pritchard of Weatherford, Mrs. Don Choate of Cisco, Mrs. Raymond Taylor of Albany, Mrs. Roland E. Madely of Stephenville, Mrs. L. G. Crutsinger of Brownwood, and Mrs. Charles Jackson of Cleburne; recording secretary, Mrs. Harris Nichols of Bangs; corresponding secretary, Mrs. O. G. Oliver.

Senior Activities For E. H. School

Eastland High School Seniors have a busy slate for the month of May, and the Telegram is happy to give you their schedule as follows.

Wednesday, May 5 — Junior-Senior Slave Breakfast.

Friday, May 7 — E.H.S. Band concert for the public, in the auditorium.

Wednesday, May 19 — Methodist Breakfast for Seniors, 8:00 a.m. at church.

Saturday, May 22 — Senior play day at Glen Rose.

During week of 24-25 — Ice cream supper for Seniors. Swimming party for Seniors.

Sunday, May 30 — Baccalaureate.

Monday, May 31 — Graduation.

Baptist Young People Enjoy Picnic Supper At Lake Cisco

The Young People of the First Baptist Church met at the church at 6:45 p.m. April 30 to be guests of the Officers and teachers for an outing at Lake Cisco.

Forty eager young people arrived on time and the caravan of picnic-ers were on their way.

Arriving at the lake the hosts donned their "Chef Caps" and formed an assembly line to serve the baskets of tasty food which included ice cream and cake for the finish.

The evening of roller skating and miniature golf was an exciting one and those teachers and officers responsible for the fun were: Mmes. I. C. Inzer, Fern Greene, Robt. Perkins, Ada Altom, Misses Helen Lucas and Geraldine Garard, Edgar Altom, Roland Koch and Evan Mitchell.

Mr. and Mrs. Fred Hale be in Houston about ten visiting their son, Leon Hale is editor of the Humble Family.

Mrs. W. M. Warren is in Eastland after having visited sisters, Mrs. Audell Swaffo Pampa and Mrs. John Spet Ponca City, Okla.

SOCIAL AND SECURE—The Hills triplets, above, have all their paper work in order, and are ready to crawl up the ladder of movie fame. Daughters of Mr. and Mrs. Gerald L. Hills, of Fullerton, Calif., the identical trio have just been issued their Social Security cards. From left: Colleen, Carla and Candice—or maybe it's the other way around. No one's quite sure.

COLOR HARMONY—The plaid's the thing in this cotton bedroom grouping. The eye-catching plaid ensemble by Cannon Mills creates an atmosphere of warmth and livability in this room. An extra double spread provides material for the chair slipcover and headboard covering. Tufted cotton bedloom carpeting adds color and comfort.

One Thing After Another—

... can and does happen in the insurance business. Changes come often and are necessary, for they are the very essence of progress and improvement. Rates, for example, are constantly changing because conditions upon which they are based are one thing today, another tomorrow. The so-called Deductible applicable to some coverages serves to keep rates in balance and lower. The \$50.00 Deductible on windstorm and hail is an excellent buy if bought on time. But act now.

EARL BENDER & COMPANY
Eastland (Insurance since 1924) Texas

Eastland (Insurance since 1924) Texas

No. 1 in "Go" in looks in ride in resale value in SALES

Ford's new 130-h.p. Y-block V-8 is the most modern in the automobile industry... the only V-8 in the low-price field! And Ford's 115-h.p. L-block Six is the industry's newest Six. Both of these engines give you the smoothest, savigest performance you've ever experienced.

You'll see more Fords parked in front of the finest homes and country clubs than any other car in its field. One reason is that many people who have owned the costliest cars realize that Ford offers the same beauty, quality and distinction—and for a far more practical price.

Ford is unsurpassed in riding comfort or ease of handling. A big reason is Ford's new Ball-Joint Front Suspension... which allows more total up and down front wheel travel for a smoother ride... keeps front wheels in line longer... so handling stays easy longer.

Surveys show Ford cars return more of their original cost when they are sold than any competitive make. So a Ford car costs you less to own.

Over the latest seven-month period covered by available figures, Ford has been the nation's best seller. That's because Ford has proved that it offers the most... in engineering advancements—in trend-setting styling—in value! Ford is America's best seller because it's America's best buy!

HANDY HOME HINTS

Something New For Chocolate Pudding

The next time your family clamors for chocolate pudding, try it with a colorful and tasty topper of whipped cream, tinted pink and lightly flavored with peppermint extract. The kids can add a few chocolate sprinkles for fun if they wish.

Loosening Glasses

If water glasses accidentally stick together, the Gas Appliance Manufacturers Association suggests that, rather than try to force them apart, put the outer glass in hot water and fill the inner glass with cold water. This will loosen the glasses and avoid breakage.

Coconut Cubes

Cake and bread leftovers can be made into something delicious. It's coconut cubes. Cut leftover cake and bread into 1 1/2-inch cubes. Roll in 1/2 cup maple-blended syrup, being sure to coat all sides. Then roll in 1/2 cup shredded coconut. You can tint the coconut if you desire. Place on greased baking sheet and bake in oven of your automatic gas range (375 degrees F) from eight to ten minutes. Remove at once from baking sheet. Makes about 18 coconut cubes. Serve with tea, or as a dessert accompaniment.

An Easy Dessert

Cake crumbs can be useful. For instance, combine one cup of cake crumbs with 1/4 cup chopped almonds, pecans or peanuts. Spread on a cookie sheet and toast for 10 minutes in a moderate oven of your gas range. Roll scoops of ice cream in the crumbs, and serve with fudge sauce.

Ice-Circle Crown

A frozen "ice-circle" crown for punch bowls is made by arranging the circles (or cubes) in an aluminum mold, barely covered with ice water to which a little food coloring has been added, a n d freezing in the top of your gas refrigerator. The resulting crown, floated in the bowl, gives an artistic touch and makes it easy to ladle the punch into glasses.

Banana Shortcake

Here's a snowy version of banana shortcake: split a pound cake into two layers. Place whipped

a shot and his heart started beating regularly again. Mary, his wife was praying all of this time, because she had faith in God.

I have known this couple for sixteen years which is all of my life. They have been very wonderful and a big inspiration to me. They come to church once in a while but stay at home most of the time because Mary is not well and has been very ill. I have always called them Grandma and Grandpa Liles. They are now eighty-one years and seventy-six years of age respectively. They have been married sixty-two years and are still young at heart.

Bullock Cemetery Working Friday

It was announced today that the Bullock Cemetery working will be held on Friday, May 7. All interested persons are asked to come and bring along their tools and lunch.

Scott's Secrets

Since winter has come again, I offer for your meal for lunch or supper, a very appetizing and economical Mexican recipe: Heat one can of hominy thoroughly; either make your own chili or heat your favorite kind; in a casserole, put in a layer of drained hominy, a

layer of chili until you have as much as you need. Over this mixture, put chopped onion; add either grated cheese or small pieces of cheese. Heat in the oven until the mixture begins to bubble. With this use a tossed salad or a salad made by having a slice of avocado and a slice of grapefruit until you have the amount you need.

MAY IS SAFETY MONTH . . . CHECK YOUR CAR—CHECK ACCIDENTS

NATURAL gas reserves in the United States continued to expand in 1953 despite a record withdrawal of 9.2 trillion cubic feet. At the end of the year 11.7 trillion cubic feet had been added to proved recoverable reserves, bringing the total to 211.4 trillion cubic feet. Increased exploration activities accounted for new discoveries last year of 7.1 trillion cubic feet compared with only 5.4 trillion of reserves in new fields brought in during 1952. Extended drilling in existing fields added another 13.4 trillion cubic feet to the nation's fuel reservoir.

E. H. Junior-Senior Slave Breakfast

The Eastland High School Junior-Senior Slave Breakfast will be the annual starter for the Senior 1954 activities. This is an annual affair where the Seniors invite Junior Slaves who build fires, cook and serve masters. Masters furnish all food, but it is the duty of the slaves to prepare it and clean up afterward. It will be 6 o'clock in the morning at the city park.

Church Ladies Elect Officers For 1954-1955

The Christian Women's Fellowship of the First Christian Church elected officers for 1954-55 at their regular meeting in the annex of the church. Mrs. J. E. Freese, chairman of the nominating committee, presented the following names which were elected unanimously: president, Mrs. Lon Horn; first vice-president, Mrs. Homer Williams; second vice president, Mrs. C. M. Kelley; secretary, Mrs. E. K. Henderson; treasurer, Mrs. J. W. Watson; World Call secretary, Mrs. H. L. Sheppard.

Mrs. Winnie Wynne, president, presided over the business session. Mrs. Curtis Young played "Living for Jesus" which the group sang in unison for the opening song. Mrs. Young then read the minutes. The members of the Mary Circle will serve the young people refreshments on Sunday evening during the month of May. Mrs. Wynne reminded the group of the State Convention which will be held in Fort Worth, May 8 and 9, and of the dedication of the religious building during the week end at TCU.

Mrs. Carl Garrett announced that the church realized \$126 from the luncheon which was served to the managers of the Chamber of Commerce in this district. Mrs. Young read a letter of thanks from H. B. Tanner, manager of the Eastland Chamber of Commerce, for the fine food and excellent service.

Mrs. L. E. Huckabay presented the devotional on talents as discussed by Gaston Foote. She pointed out, "Every man counts for something. Every person on earth is a hero or heroine to some one. Every man's talent is different. Men are created equal in that every one needs equal opportunities." She also mentioned that if people fail to use their talents they lose the ability in the field whether it be spiritual, mental, physical, or intellectual. She said, "You must either use or lose your talents."

Mrs. Jane Day brought the lesson on "New Frontiers of Faith." She said, "The way to destiny is hard. God does not lead his children around hardships. He leads them through the hardships."

Mrs. T. A. Bendy brought the prayer for the love offering from the Mary, Ruth and Martha Circles. The refreshments of cookies and punch were served by the Martha Circle. Those present were Meses. Peterson, Gilbreath, Wingate, Day, Cooper, Williams, Horn, Bendy, McNatt, Malone, Ferrell, Freese, Henderson, Watson, Garrett, Scott, Hanna, Huckabay, Wynne and Young.

"BEATS A NEW BROOM . . . For a clean kitchen"

We asked a great many women who cook electrically just why they preferred to use an electric range. Practically all of them gave about the same answer: "Because it's so clean." They reported that they had to spend less time keeping their kitchens spotless. Walls and

ceiling stayed bright and shining for long periods of time. They had to paint or redecorate their kitchens only because they wanted to change the color scheme — not because of dingy walls. Ask your electric appliance dealer to tell you about the many other desirable features of cooking electrically.
