'Black Legion' Defies Respect of Nation

The news from Michigan about the "Black Legion" reads like a very bad dream; and the most dream-like thing about it is the fact that moronic hoodlums who dedicate their organization to violence and murder should insist that they are furthering "100 per cent Americanism."

Reports that the group has 135,000 members in Michigan and has been responsible for two or three dozen deaths seem too fantastic to be taken seriously. Indeed, the whole business is too fantastic to be worth talking about if it were not for this one fact—

The times are so unsettled, and the future is so cloudy, that no American who loves his country can afford to remain silent when a group which seeks to enforce its will by blackjack and revolver appears on the horizon.

These precious strongarm men from Detroit apparently had no guiding principles other than a general devotion to the policy of interfering in their neighbors' lives—a sort of glorified officiousness which is nothing but the spirit of the small town busy-body turned cancerous.

That they have been able to enlist a large number of people in their organization merely indicates that there are more fools in the land than we ordinarily suppose.

But in any group of this kind there are the seeds of great trouble. The seeds may never sprout, but they are there; and the time to make sure that they land on stony ground is now, before some unexpected current in American life provides more fertile soil for them.

There was a time, remember, when Mussolini's Fascists looked no more important or influential than this so-called "Black Legion" now appears. There was a time when Hitler and his plug-uglies cut no more of a figure in German life than these gentlemen of the black robes now cut in American life.

In Italy and in Germany, certain powerful interests discovered that they could use an unprincipled band of terrorists who would stop at nothing. They made the discovery before the rest of their fellow citizens could rally the nation's inherent decency, and what happened thereafter is a matter of bloody record.

There does not seem to be any danger that this Michigan gang will have a similar apotheosis. But the time to speak out against organized mob violence is now, when it first sticks up its head; now, when all decent people instinctively feel a revulsion against it.

We need to remember that no group which uses the whip and gun can possibly be "100 per cent American"; that no organization such as this one in Michigan can possibly play a useful role in our United States; that no patriot can tolerate in his country a gang of sluggers and torturers.

THIS CURIOUS WORLD By William Ferguson

THE FIRST GAME LAW RECORDED IN THE UNITED STATES CALLED FOR A CLOSED SEASON ON DEER, IN MASSACHUSETTS, IN 1634.

ONE OF THE TWO MOONS CIRCLING THE PLANET MARS IS SO CLOSE TO THE PLANET'S SURFACE THAT IT WOULD BE INVISIBLE TO AN OBSERVER STANDING AT EITHER OF THE PLANET'S POLES.

LEECHES, BEFORE SUCKING THE BLOOD OF HUMANS, INJECT A SMALL AMOUNT OF HIRUDIN INTO THE WOUND TO PREVENT COAGULATION.

WILD LIFE was so plentiful in the United States in the early days that no one even dreamed that laws would be necessary to protect it. The year 1739 saw the first game warden in this country. Most of the colonies had adopted some form of game laws by the time of the Revolution, and the first federal game law was passed in 1776.

RANGER MAKES CLEAN SWEEP AT SOFTBALL

Ranger made a clean sweep of the three games played at the opening of the Ranger Municipal softball field Monday night, the Ranger girls team defeating the Burrettes of Eastland in the opener by a score of 10 to 9, the Ranger All-Stars defeating the Eastland All-Stars by a score of 8 to 6 and the Killingsworth Cox team defeating Caddo by a score of 9 to 8.

Between the first and second games Dr. Harry A. Logsdon, mayor of Ranger, thanked those who had cooperated in making the field possible and dedicated it, giving it the name of the Ranger Municipal Softball Field, which was the name selected by the committee in control.

All three games played at the opening of the field were excellent exhibitions of softball, with fast, snappy plays being made by each of the six competing teams. Weatherly, first baseman of the Eastland All-Stars, rapped out the first home run in the new park, his hit carrying well over the right field fence. No one on base when he hit for the circuit.

Is Candidate

Carl Hardin, Stephenville, former State Senator, opened his campaign before a homecoming crowd of 5000 people Saturday. It was the largest public gathering in Erath county in several years.

STEPHENVILLE, Texas, June 9.—In response to an invitation from his friends and neighbors of 30 years standing, Senator Carl C. Hardin opened his campaign for the office of railroad commissioner in Stephenville Saturday morning at 11 o'clock. There were 5,000 people in the audience to hear him, most of them coming from all parts of Erath county, but there were others from adjoining counties. He spoke for 45 minutes and following that a citizens' committee served a barbecue lunch to one of the largest public gatherings here in years.

Senator Hardin has been in public service for the past 12 years, two years in the legislature and eight years in the senate, and since the day he graduated from John Tarleton college has been active in business and civic circles. He has the reputation in his home city of rendering more aid and assistance to the people than any other individual citizen.

During his last term in the senate Hardin introduced and successfully passed the homestead tax exemption, relieving homesteads from taxation up to and including \$3,000,000.

Changes he proposes in the operation of the Texas Railroad commission in the event of his election were discussed freely in the opening address, among them being a policy of attending to the duties every day in the year. He likewise urged that the major companies be gauged by the yardstick that measures the small independent operator. He also favors a vigorous and uninterrupted program of development in every county in Texas where oil possibilities exist, rather than curtailing such development. As a whole Senator Hardin emphasized the point that he would at all times aid in administering the duties of the railroad commission in a fair and constructive manner.

A citizens committee organized in Stephenville the past week contains the names of more than 50 Erath county people who propose to carry the campaign of Carl C. Hardin into every county in Texas, and in every way possible to recommend him for earnest consideration at the hands of the voters.

Frigidaire Sales And Service Force Invited To Texas

DALLAS, June 9.—More than 35,000 members of Frigidaire manufacturing sales and service organization in the United States and Canada have been invited to visit the Texas Centennial celebrations in Dallas, Fort Worth, San Antonio, Houston, and Austin by P. M. Bratten, the Texas manager for the Frigidaire corporation.

Mr. Bratten made the arrangements for the extension of the invitations today when Frank R. Pierce, official from headquarters in Dayton, Ohio, arrived here to inspect the Hall of Science exhibit sponsored by his company in the General Motors building.

"The Frigidaire organization of workers, salesmen, servicemen and their wives and children number in excess of 125,000 persons," Mr. Bratten said. "Mr. Pierce was so impressed with the splendid appearance of the Centennial and the plans for the correlated activities in other Texas cities that he readily agreed to convey our invitation to these men and women. It will be extended in the name of the Texas Frigidaire group consisting of several thousand persons."

The GLAMOROUS ADVENTURE by Jean Seiwright

BEGIN HERE TODAY GAIL EVERETT, ambitious to become a designer, comes to New York and—due to stroke of luck—is hired by MADAME LIZETTE, proprietor of an exclusive shop. Madame proves temperamental and difficult to work for.

DEREK HARGREAVES, young artist, is interested in Gail and offers her friendly advice. Frequently she sees DICK SEARLES, whose sister, ROSEMARY, was her roommate at school.

Meanwhile, in Arizona, MARK CHAPMAN, long a wanderer, returns to find his old home in the hands of the Travers Mining Co. Mark suspects the deal is crooked. He does not know the whereabouts of his niece, Gail, the rightful owner of the property. REX HALL, Madame Lizette's son, is representing the Travers company.

Mark tells his friend, old JED HOSKIEP, what he knows about the Travers company and writes a letter to GILES HARDING, New York lawyer.

NOW GO ON WITH THE STORY CHAPTER XVIII "HELLO, old thing!" Rosemary Searles exclaimed as she rushed toward Gail, coming out of the employees' entrance of Madame Lizette's shop at 5 o'clock. "I'm frightfully sorry I got you into such a jam!"

"Oh, don't worry about that." "Well, that woman has no right to talk to you like that. You're no slave. I think it's horrible that you have to work for such a creature, and before that I thought you were lucky! But, come on—hop in the car. I'll take you to your clubhouse."

"You don't need to do that, Rosemary." "I know, but I'm staying in town with the Langs for a few days—you know Betts is getting married—so I can't invite you to dinner. Some friends of Betts are giving her a dinner tonight. How about meeting me for lunch tomorrow?"

"I'd love to, though I only have an hour." "Well, we can make it in an hour all right. And say, Gail, I wish you could let Madame Lizette know that I was going to order a dress for Betts' wedding this afternoon but now she's lost that order and a lot more because I'll never recommend her to any of my friends."

"I can't say I'm sorry." "Have you seen any of the girls since you came to New York?" "Only Lucille!" "Lucille? Where did you meet her?" asked Rosemary eagerly.

"At Mrs. Morton's who's so interested in art!" "Yes, Derek Hargreaves introduced us." "Oh, an old friend, I suppose." The car stopped. "Is this where you live?" queried Rosemary. "Yes, it's not a bad place in-

side. You must come and see me sometime. Thanks ever so much for the lift." "That's nothing! Be seeing you tomorrow at noon." With a goodbye wave Rosemary was on her way again.

STORM AREAS MOVE AT AN AVERAGE SPEED OF 35 MILES AN HOUR, IN WINTER, AND 25 MILES AN HOUR, IN SUMMER.

STORM areas do not travel across country at any uniform rate, but the average speed is approximately that given above. These areas of high and low pressure are more energetic and move at a more rapid rate in cold air. They travel faster across the northern states than they do in the south.

Spinning Craft Of Past Lives

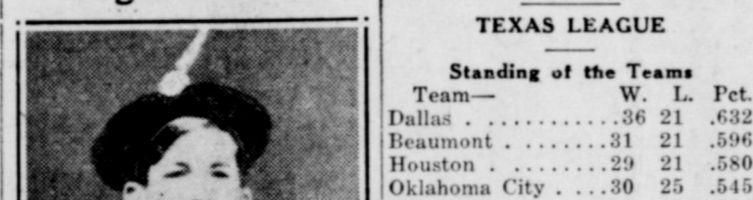

By United Press WEST PLAINS, Mo. — What the well dressed woman wore a hundred years ago, and how she carried, spun and wove it herself, before fashioning it to the styles of that day, will be Missouri's contribution to the Texas Centennial Celebration.

Unmindful of the speed of today, Mrs. Cinderella Kinnaird, 82-year-old descendant of colonial ancestry, fosters the art of spinning and weaving, handed down to her from Revolutionary generations. At the Dallas pageant the West Plains woman will display her craft.

Designed after the exact manufacturing pattern of Betsy Ross, she is the great-granddaughter of Edmund Pendleton, colonial statesman from Virginia, who as a friend of George Washington was seated at the First Continental Congress. Her father was related to Jeff Davis.

Historic Wheel Owned Mrs. Kinnaird's collection of spinning wheels is her greatest joy today, and modestly she points to a small flax wheel and says her "mother's great-grandfather purchased that from Martha Washington's personal property." Paradoxically, this energetic little woman, nursing her vanishing craft, is as modern and up-to-date as many of her age—except for her love of carding, spinning and weaving.

A Boy King Nears Regal Stature

Noticeably taller than when his father's assassination put him on the throne, and prematurely serious due to the responsibility of his position, 12-year-old King Peter of Yugoslavia is pictured as members of the Household Cavalry saw him at his first military review in Belgrade. He wears the uniform of the gymnastic association.

At the rate they're bagging their quarry, G-men eventually may be reduced to the expedient of throwing back every third public enemy.

BASEBALL PWA Activities Led By Schools

By United Press WASHINGTON. — Harold L. Ickes' Public Works Administration used \$175,734,691 adding nearly 30,000 classrooms to accommodate more than 1,000,000 students to the nation's public school facilities, PWA statistics showed today.

Second largest PWA activity was spending \$83,306,390 for 512 hospital projects, including buildings that will care for 40,000 additional patients.

The bulk of PWA school loans and grants went for new high schools and elementary institutions. Facilities for general studies included auditoriums, gymnasiums, cafeterias, libraries and laboratories.

California led all other states in the number of school projects, 474 new ones and 503 repair jobs. The California program was necessary to construct earthquake-proof buildings, or repair those damaged by quakes.

To date, PWA has built or repaired 109 hospitals, and provided new equipment. Institutions were financed in almost every state, and in Alaska and the Virgin Islands.

Daily Vacation Bible School Picnic Party The Daily Vacation Bible School in progress in Baptist Church since last week had an enrollment of 215 students Tuesday, so the general director, Mrs. Fred C. Eastham, announced.

The average daily attendance since opening of school is 170. Friday afternoon the school was entertained with a picnic outing from 5 to 7 at City Park, with 100 children attending.

Each child carried a small basket lunch and the Baptist Church, sponsor, provided iced lemonade and ice cream for the supper.

A merry time was had playing games, under direction of those who are teaching in the school, assisted by the pastor, Rev. Fred C. Eastham.

Other personnel of grownups present were Mmes. Fred C. Eastham, R. L. Young, Johnny Hart, Lee Bishop, R. A. Lerner, Lanier, R. L. Slaughter; Mr. and Mrs. Wood, Mr. and Mrs. E. E. Layton, and Miss Mabel Hart.

Informal Dinner Mr. and Mrs. L. J. Lambert had as their guests Sunday afternoon and for dinner at 7 p. m., Mr. and Mrs. Guy Hudspeth and daughter, Miss Elizabeth, of Iraan, and Mr. and Mrs. Barney Tyson and small son, Perry, of Breckenridge.

The table had places for eight to whom a two-course dinner was served.

Mrs. W. P. Leslie Brings Booster Class Lesson The Booster Class of Methodist Church Sunday School had its Sunday morning session opened by M. H. Kelly, second vice president.

Song service was led by Mrs. Edward Everett, with Miss Opal Morris at the piano.

Ed F. Willman closed this period with prayer. In business, a round table discussion of prospective new managers was held and the Wilda Drago violin ensemble program at the church that night announced.

New members welcomed were Mrs. Tucker and Mrs. E. K. Smith. The lesson for the day, "The Father's Will," was brought by Mrs. W. P. Leslie, substituting for absent teacher, Judge Leslie.

The topic from Luke 22, was chosen in "Let us arise and be going."

Mrs. Leslie brought out that you can't keep space and accomplish by sitting still, mentally or otherwise.

Children's Day at Presbyterian Church The Presbyterian Church held a large auditorium attendance for the Sunday morning observance of Children's Day, put on under direction of the teachers of Sunday School, and general chairmanship of Mrs. James.

The program was given as presented in the Telegram and proved of great interest to the audience and the many visitors.

A beautiful feature was the baptism of a tiny babe, Margaret Ann McCullough, by the child's grandfather, Rev. Charles W. Estes, pastor of the church.

The parents, Mr. and Mrs. J. L. McCullough of Conroe, stood at the altar with the babe, who was on her very best behavior.

B. T. U. Officers At the meeting of the Baptist Training Union Sunday night in the church, Terrell Coleman was elected general director; Mrs. Robinson, elected primary leader; and Mrs. J. D. Blankenship, general secretary.

The B. T. U. meets each Sunday evening for general assembly of all the junior organizations.

Mr. and Mrs. L. A. Hightower attended the graduation exercises of their son, Bill Hightower from the Rice Institute at Houston.

Bill received his degree in chemical engineering. Mr. and Mrs. Hightower were accompanied by their son Dan, and their son Bill returned with them Sunday.

Goes to Kansas Clifford Wilson, son of Mr. and Mrs. Oscar Wilson of this city, left Monday for Pratt, Kansas, where he will be associated with the utilities company as bookkeeper and cashier.

Mr. Wilson has made his home in Eastland for several years, and was formerly with the old Texas State Bank.

Mr. Robey Opens Class Meeting The Martha Dorcas Class of the Methodist Church Sunday School had its business session opened by the class teacher Mrs. C. C. Robey, in the absence of the president, Mrs. C. W. Hoffmann.

Mrs. E. C. Satterwhite offered the prayer and the scripture lesson was read in unison.

Umpire Explains Hurler's Wind-Up Editor's Note: In this, the third article of a series on soft ball rules Joe Hughes, umpire, explains the pitcher's wind-up.

Many questions have been asked regarding a pitcher's wind-up in soft ball. Until this year the rules would permit a pitcher to wind up at his own choosing. This year provisions are as follows:

Rule 8—Pitching Rule. Section (d) A wind-up may consist of not more than one upward in front and over, or one downward and backward swing of the pitching arm.

Section (e) The ball shall be delivered on the first forward swing of the pitching arm.

Section (f) In the forward swing of the arm, the hand shall be below the hip and the ball not more than six (6) inches from the body (leg). A snap and jerky release of the ball at the hip is prohibited.

Section (h) At no time during the progress of the game shall the pitcher be allowed to use tape, or other substance, upon the pitching hand or fingers; nor shall any foreign substance be applied to the ball, provided that, under the supervision and control of the umpire, powdered resin may be used to dry the hands.

It should be noted that some pitchers make a forward motion with both hands on the ball, but it must be remembered that "the pitch shall begin when one hand is taken off the ball."

The rules on the wind-up can best be understood by actually going through the motions as you read the rule.

Three Million Dollars Spent on Texas Projects

SAN ANTONIO.—Sponsors and the federal government expended \$3,404,635 on 766 projects first reported completed from the 20 Works Progress Administration districts, State Administrator H. P. Drought disclosed today. At the same time he estimated that more than 1,500 projects have been finished and he expected to receive completion reports on the remainder shortly.

Federal expenditures of \$2,253,396 on these completed projects were closely followed by contributions by sponsors of \$1,151,239.

"Counties, cities, independent school districts and state departments, actively sponsoring these projects, have displayed an eagerness to assist in our work," said Drought. "Their large financial participation indicates a gratifying faith in the integrity of this program."

The state administrator said more than 3,000 projects have been operated throughout Texas in providing employment for 120,000 persons, former occupants of the state's relief rolls which now are large dissipated.

"It is significant," Drought continued, "that \$1,145,073 of the WPA expenditure on these completed projects went to workers in the form of semi-monthly security wage pay checks. This is the gratifying figure of the analysis. Our job has been that of keeping this stream of small but all-important checks moving steadily into thousands of homes in order that destitute Texans might be able to provide for themselves and for their families."

"Stimulation of trade by the purchase of materials and equipment and the construction of permanent, worthwhile public improvements are essential by-products of this region, but we have not lost sight of the fact that the giving of employment to persons formerly on relief rolls is our fundamental objective."

Next largest WPA expenditure on these completed projects, \$307,794, was for equipment used by workmen. About one-third of this equipment cost was in the form of wages to truck operators, many of whom came from Texas relief rolls, it was pointed out.

Materials were procured at a cost of \$301,536.

Non-relief workers, including project superintendents, field workers, and other supervisory personnel, received \$183,667, the analysis discloses.

Travel and other incidental project expenses amounted to \$15,324.

Never how low in price... but always How Good. There are two ways to build a motor car. It can be built to sell at a certain price—and the quality brought within that predetermined range. Or, it can be built as finely as possible, letting the price fall where it may. La Salle is built to this latter formula. It is built as finely as Cadillac knows how—and priced as low as the quality will permit. That is what makes La Salle so unique—for no car built to a price formula could possibly compete with La Salle. MUIRHEAD MOTOR CO. East Main St. Eastland Phone 692. La Salle \$1175.
