## That reminds me...

Hot weather is on us again even though during the day clouds keep hanging around like as if it was gonna rain. Thank goodness the nights are still cool and pleasant. That makes sleeping fine.

The usual every two year special sheets in the interests of certain state candidates are flooding the mails, and there is plenty of venom in all of them against the opponents specified. Texans are getting good and fed up on this kind of propaganda. Seems funny that only at election time a candidate is a so-called "reprobate." Most any other time there is lots of good in them. As the old saying "you can fool some people some of the time but you can't fool all the people all the time."

George H. Hipp, formerly manager of the J. C. Penney Store is now located at the George Harper Tire and Battery Company selling Star tires and other things for autoists. George made many friends in this entire section in his former contacts since coming to Eastland Saturday afternoon at 1:45, promises to be the big attraction of the day. He has drawn tremendous crowds wherever he has performed and the pictures of the crowds back up his claims. It is all free to the people of the community.

The "Iron Man" will demonstrate superhuman strength feats on the main streets of Eastland Saturday afternoon at 1:45, promises to be the big attraction of the day. He has drawn tremendous crowds wherever he has performed and the pictures of the crowds back up his claims. It is all free to the people of the community.

Officers of Eastland Knights of Pythias elected June 9 were installed Tuesday night at Castle hall.

Officers installed were: Glenn Graham, chancellor commander; J. L. Dorsey, vice chancellor; J. E. Lucas, prelate; L. D. Black, master of exchequer; D. A. Collins, inner guard; D. C. Hughes, outer guard; Tom Lovelace, master of work, and Jack Hilburn, master of stew. All officers are for six months except the check.

## Blanton Feted At Barbecue As Politics Ousted

ALBANY, July 8.—Congressman Thomas L. Blanton came back to the homefolks Tuesday afternoon—the folks with whom he grew into young manhood and from whom he obtained the first public office that was to prove a stepping stone to the hall of congress—to receive a generous welcome and expression of appreciation.

The occasion was a barbecue, gift of close friends of Shackelford and Stephens counties, with Blanton the honor guest and nearly 2,500 friends from the two counties on hand to partake of the food and to greet him. The scene was beautiful Lake De La Fosse three miles off the highway and midway between Albany and Breckenridge.

J. D. Sandefer, Jr., Breckenridge oil man, and one of the originators of the plan, presided. He extolled Blanton's congressional record of the past two years and then presented Andrew Howley of Albany, co-director of arrangements for the barbecue.

"This one thing I want to tell Tom Blanton's friends in Stephens, Shackelford and all the other counties: He will be further rewarded and honored when he returns to congress for his next term. His seniority will bring to him the chairmanship of the powerful military appropriations sub-committee, one of the highest committee positions attainable in congress..."

Blanton's response was brief. He appeared much thinner than two years ago when he launched the campaign for reelection to the present congress—perhaps due largely to the rigors of the long congressional sessions which are reputed to have been far more trying even than the wartime sessions. Lines in his face appeared deeper and his temples are white.

"This is one of the happiest occasions of my life," Blanton said. "It has been more than worth my while just to serve such people as gathered here from Stephens and Shackelford counties. As long as we have such people as I see here this country need never have any fear of disloyalty."

**DIVORCE GRANTED**  
Divorce to Gertrude Arent and R. Arent was granted recently 88th district court.

## COTTON PRICE SOARS AFTER CROP REPORT

WASHINGTON, July 8.—The department of agriculture crop report board announced today that 30,600,000 acres were cultivated in cotton on July 1. This was 109.8 per cent of the land in cotton cultivation the same date last year.

Total cotton acreage July 1, 1935, amounted to 27,888,000 acres, the board said, with average abandonment for the 10-year period from 1926 to 1935 at 2.3 per cent.

The Texas cotton acreage on July 1, 1936, was 12,280,000, compared with 10,964,000 on July 1, 1935. This year's crop is 112 per cent of last year's.

NEW YORK, July 8.—Cotton futures roared upward \$2 a bale here today on publication of government acreage estimates. July futures hit 13 cents, a new high for more than a year.

NEW ORLEANS, July 8.—Cotton prices shot up \$1.25 a bale when trading was resumed after the government acreage report.

## Absentee Voting Begins In County

Absentee ballots had been delivered or mailed to six voters at the county clerk's office Tuesday.

The voters were: John Lewis Gragg, 24, teacher; R. J. Gallo-way, 27, teacher; Thomas H. Stanton Jr., 28, timekeeper; Cal May, 70, salesman; and Claud O'Neal.

Ballots are issued to voters by the county clerk after he receives an application, either by mail or personally. Fifteen cents is charged by the office for the mailing of ballots to the election judge in which the voter ballots.

Disability to vote July 25, either because of illness or absence from the county constitutes one of the requirements to cast absentee ballots.

Expiration for the absentee voting period is midnight, Wednesday, July 22.

## Gorman Physician Has Little Credence In Langtry Tales

Dr. E. W. Kimble of Gorman doesn't take too much credence in the tales surrounding the conducting of court at Langtry by Judge Roy Bean, "Law West of the Pecos."

Dr. Kimble, pioneer Eastland countyman, worked on a railroad in 1887 and 1888 which came within two miles of Langtry, but heard little then of the man whose decisions have interested many.

The Gorman physician revealed his opinion in the sheriff's office after one of the officials handed him one of the latest books on Bean.

Dr. Kimble said Bean's notoriety in '88 was not greater than that of any other "saloon keeper."

## H. C. Ogden Buried At Merriman Tues.

Funeral services for Hershe Coates Ogden, Fort Worth, who died at the Blackwell sanitarium in Gorman Monday afternoon at 2:15 o'clock, were conducted at Merriman Tuesday afternoon at 3 o'clock by Rev. K. C. Edmonds of Ranger. Interment was in the Merriman cemetery.

The decedent was born in Eastland county March 19, 1909, and for some time had resided at Fort Worth, where he was engaged as a teamster. He is survived by his widow, Mrs. Catherine Ogden, of Fort Worth.

Radio Has Put Crimp in Party Oratory

It is impossible to look back at the political conventions without reflecting on the tremendous change which the radio has wrought in American politics.

Time was when a convention was a place for leather-lunged orators and rapid-fire debate. A day's sessions ran from dawn to dusk and the delegates figuratively stripped to the waist, had at one another with whatever weapons were handy.

But the moment someone slipped a microphone into the convention hall, the picture changed.

First of all, the old-style orator was hopelessly crippled. What price, now, the booming voice, the impassioned gestures, the hoarse crescendo, the restless pacing of the platform?

The microphone wants a voice that is soft and well modulated, it has no use for gestures, and it absolutely bars lunging and pacing. The old-style convention orator compares with the radio variety as a grand opera singer compares with a crooner.

Nor is that all. The orator nowadays can never forget that the delegates in front of him are not a thousandth part of his audience. He cannot talk directly to them; he must pick every word and every inflection with his great invisible audience in mind.

To try to stampee his convention with a Cross of Gold speech would be worse than useless. It is the audience outside the hall that he wants, and it is eternally beyond the reach of a stampee.

And that leads us to another point. Uncensored debate becomes an almost impossible luxury when the radio is turned on.

Suppose that some outspoken party man sincerely differs with the program of the party leaders and desires to take the floor to fight it; a Bill Borah at Cleveland, for instance, or a Carter Glass at Philadelphia.

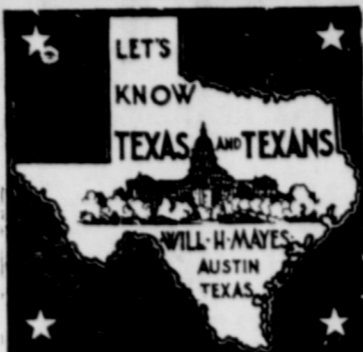

What happens? The entire nation hears his speech. He immediately presents the appearance of one who is seeking to destroy party harmony; indeed, to a certain extent he actually does destroy it.

What he could have done with perfect propriety in the old, pre-microphone days, has become an almost unthinkable breath of party loyalty. So, unless he is prepared to bolt, he keeps quiet.

These are more than surface changes. They go to the heart of our political organization. They mean that we no longer can get the results that we used to get out of our traditional party machinery.

For a convention that cannot be swayed by the passionate arguments of a great leader, and that cannot indulge in anything resembling honest debate, is not a deliberative body in any real sense of the world.

The radio has given our two great parties an exceedingly knotty problem to solve. Solve it they must, if democratic government is to function properly.

Professor Figures Out Why Most of Job Hunters Fail

AUSTIN, Tex.—Why the school and college graduate has a hard quest for a job no longer puzzles Dr. A. H. Edgerton. He has studied the topic and knows.

Called to the University of Texas for research to assist the Texas Committee on revision of school and college curriculums, he has made his investigations and returned to the University of Wisconsin where he is director of vocational guidance.

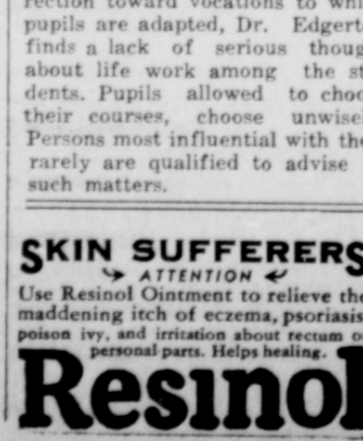

Next year's successful job-hunter is pictured by Dr. Edgerton. He will be versatile, courteous rather than ruthlessly aggressive. He will not have a one-track mind. He will be prepared for, and able to do well, two or three kinds of work.

Lack of intelligent guidance is blamed for most job-hunting difficulties. Lack of proper school director, he believes, is proven by 27,000 annual failures in American high schools. Before the depression, his statistics show that 40 per cent of adult workers and 50 per cent of juvenile workers wanted to change the work in which they were engaged.

Beside lack of proper school direction toward vocations to which pupils are adapted, Dr. Edgerton finds a lack of serious thought about life work among the students. Pupils allowed to choose their courses, choose unwisely. Persons most influential with them rarely are qualified to advise on such matters.

"Longest Rule" In Softball Explained

By JOE HUGHES

Today's rule, which deals with the obstruction of the fielder, concludes the longest rule in the official rule book. There are 19 sections to this rule, but in the order of their importance.

Section 6 of Rule 27: "The base-runner is out if he fails to avoid a fielder attempting to field a batted ball in the manner described in this rule, or in any way obstructs a fielder in attempting to field a batted ball, or intentionally interferes with a thrown ball; provided that if two or more fielders attempt to field a batted ball, and the base-runner comes in contact with one or more of them, the umpire shall determine which fielder is entitled to the benefit of this rule, and shall not decide the base-runner out for coming in contact with a fielder other than the one the umpire determines to be entitled to field such batted ball. If a fair hit ball goes through an infielder and hits

a runner immediately back of him the umpire must not declare the runner out for being hit by a batted ball. In making such decision the umpire must not declare the ball passed through the infield and that no other infielder had the chance to make a play on the ball. If, in the judgment of the umpire, the runner deliberately and intentionally kicks such a hit ball, or which the infielder has missed play, then the runner must be called out for interference."

Tomorrow: Rule 24—"When the batsman becomes a base-runner."
