

Deficit Plan Is Advocated By Senterfitt

AUSTIN (AP)—Speaker Reuben Senterfitt took the floor of the House today to propose deficit financing if needed, no new taxes would be necessary now to raise salaries of teachers and state employees.

The deficit financing would also provide funds for buildings recommended as emergency needs by Gov. Allan Shivers.

The Senate by voice vote approved a bill giving state workers a \$120 yearly raise, then joined the House in adjourning until 10:30 a. m. tomorrow.

The speaker's unusual action in leaving his post as presiding officer to enter debate on the special session's most burning issue once more spotlighted his disagreements with Gov. Shivers.

Shivers has proposed new taxes to pay for salary increases and new buildings. His program thus far has had fairly smooth sledding during the opening days of the 30-day session.

Many members jumped to their feet and applauded when Senterfitt finished his speech.

Senterfitt and Shivers are potentially rival candidates for governor. Senterfitt opposed calling the special session to begin with, saying he thought the teachers pay and financing issues should be held over until the regular session next year.

Shivers called the special session to work on a compromise teachers pay and school financing plan, after the last regular session failed to finance more money for teachers.

Both the teachers pay and the building expenditures proposed by Shivers have breezed through the Senate and now await House action.

Senterfitt told the House that "economic conditions do not justify a permanent taxing program at this time. There is no time for a tax increase."

Senterfitt suggested that money for teachers' and state workers' pay, and for buildings at the deal school, Eastham Prison Farm, Southwestern Medical and the Houston dental schools all be written into one bill to be enacted "at the earliest possible time."

"We have a 12 million dollar surplus now, and oil allowances have been increased again which will provide additional revenue," Senterfitt said.

TRAFFIC CASE BRINGS THANKS

WATERVILLE, N. Y. (AP)—At his arraignment on a charge of speeding, Richard C. Wolff of New York City turned to Deputy Sheriff Arthur Pugh and said:

"I want to thank you. You may have saved my life and perhaps the lives of others. I had been to a sports show in Syracuse and was driving back home to attend another. I guess I just was not thinking. But thanks for arresting me. I guess I'm lucky you did."

Peace Justice Basil Crandall fined Wolff \$16.

Minor Repairs Recommended For County Jail

The "grouching" of space between bars and ceiling beams of the new Howard County jail will serve to anchor barred wall sections and make the structure secure, county officials concluded Tuesday following conferences with the jail's builders and the construction superintendent of the Texas State Prison System.

Judge R. H. Weaver reported that A. G. McKain recommended the grouting after an inspection of the jail. The same work had been recommended last week by the vice president of Southern Steel Company, Lloyd J. White, when he inspected the jail following escape of five prisoners.

White and Harold Dreeke, another Southern Steel vice president, inspected the jail again Tuesday, along with McKain who had been summoned by Judge Weaver. Southern Steel Company designed and constructed the jail.

McKain refused to make any comment to a Herald reporter concerning condition of the structure. He said he came here with the understanding that he wouldn't become involved in any local controversy.

McKain added, however, that the Southern Steel Company has a reputation beyond reproach, and that he would be satisfied to let the firm start construction of prison facilities "tomorrow."

McKain, White, Dreeke and Olen Puckett and Bill French all were questioned by the Howard County Grand Jury, which also is investigating the escape of five prisoners. The grand jury is still in session and has made no report. Puckett and French were architect-engineers for the new courthouse, in which the jail is located.

The grouting operation recommended by the jail builders would mean the application of concrete or similar material in the narrow space between the tops of bar sections and the ceiling beams. The steel sections lack up to an inch reaching the beams in some spots.

White said grouting of the space and the welding of an additional steel bar around the top of the sections for the new courthouse, in which the jail is located.

Contracts For Freeway Might Be Let In May

Acquisition of freeway right-of-way from Big Spring to the Martin County line should be completed by April 1, County Judge R. H. Weaver announced this morning.

If the right-of-way can be secured by that date, contracts for the Highway 80 freeway construction can be let in May, Clarence Rea, resident highway engineer, told the county commissioners court Tuesday.

The officials pledged "every effort" to secure the right-of-way, although for a time it had appeared that the extra land could not be acquired until late in April.

Rea also told the commissioners court Tuesday that contract will be let April 13-14 for the construction of the Fourth Street segment of Highway 80 through Big Spring.

Judge Weaver reported this morning that condemnation proceedings have been filed against the Permanent Free School Fund of Texas for one mile of west Highway 80 right-of-way. He said the county attorney has three other condemnation suits ready for filing in case trades cannot be negotiated with property owners.

Seven property owners already have signed deeds transferring right-of-way to the county, Weaver said. The commissioners court has made trades with three others and expect deeds to be signed in the next day or two.

If condemnation suits have been filed by Friday against land held by the commissioners are unable to purchase, title can be acquired in time for transfer to the State Highway Department by April 1, Weaver said.

If trades cannot be negotiated with the three against whom condemnation papers have been prepared, the condemnation suits are to be filed Friday.

Right-of-way has been purchased already from H. H. Wilkinson, Mrs. Thelma Franklin, Guitar Trust Estate, Claudia Mitchell, Mrs. S. M. Johnson, John Quinn, and G. T. Hall, Weaver said.

Rea said plans for the freeway construction west of Abilene will be completed and contract for the work will be let by the Highway Department at the mid-May contracting session if right-of-way is secured by April 1.

He reported that the Fourth Street job has been scheduled for letting when the State Highway Commission meets April 13-14.

"It looks like we'll receive a large number of bids on the Fourth Street work," Rea said. "We've already had two 'lookers' and ordinarily contractors don't inspect sites until nearer the time when contract is to be let."

Dr. Deats Is Candidate For HCJC Trustee

Dr. C. W. Deats, veteran Big Spring dentist and former city commissioner, has filed as a candidate for the Howard County Junior College Board of Trustees.

Dr. Deats was the last candidate to file prior to the filing deadline last night. His entry into the race brought to six the number of persons offering their services for the three places on the board.

The other candidates are J. A. Jolly, Dick Clifton, Charles M. Adams, Edgar Phillips and Ralph White. Adams and Phillips are asking for re-election. The other board member whose term ends this year, Leroy Echols, did not file for re-election.

Dr. Deats served on the Big Spring city commission from Sept. 9, 1947, through April 1, 1950. He has been active in civic and veterans affairs for many years and is a member of the Lions Club, the Veterans of Foreign Wars and the American Legion.

He served as commander of both the VFW and Legion posts in Big Spring and was Department of Texas surgeon for the VFW prior to World War II.

Dr. Deats said he would work for a broader athletic program at HCJC. He also favors organization of a college band and, eventually, the construction of dormitories.

"We have wonderful possibilities out there, and I believe those programs will pay for themselves through increased enrollment," he said.

Absentee votes may be cast in the junior college trustee election through Tuesday, March 30. The absentee voting place is the county clerk's office.

The election will be held Saturday, April 3.

The election will be held Saturday, April 3.

Mahon Asks Money For Water Study

WASHINGTON (AP)—Rep. George Mahon (D-Tex.) of Lubbock wants Congress to put up \$4 million dollars for a study of whether water can be diverted from the Missouri River basin to the Texas Panhandle and High Plains.

Mahon introduced the measure yesterday.

He didn't say just how such a job could be done but declared he had long heard such a project mentioned and figured it might be feasible.

Under Mahon's bill, it would be up to the Reclamation Bureau to determine what site would be best suited for tapping the Missouri or one of its tributaries.

The idea is one of the most novel to be advanced in Congress to tackle the Missouri Valley flood problem and needs of Texas areas for more water. It brought varied reaction from Congress.

Mahon said he realized chances were not too good for approval before summer adjournment, but that he would press for favorable action by Congress this session anyway.

He said, "It's no easy thing to get over a proposal as big as this. You have to nurse it along, doing ground work for a long time."

Sen. Mansfield (D-Mont.) commented, "Off hand, it seems to have possibilities and might be worth investigating."

House Interior Committee Chairman Miller (R-N.H.) said Texans who would benefit from the diversion might first build a water conservation project long proposed in their own area.

He referred to a proposed 90-million-dollar Canadian River dam and aqueduct to serve Amarillo, Lubbock, Pampa, Borger, Brownfield, Plainview, Levelland, Lamesa, Slaton, O'Donnell and Tahoka.

A plan whereby water users of the project would repay the government most of the costs has been authorized by Congress.

Pair Charged In Lamesa Death

WEATHERFORD, Tex. (AP)—A Weatherford man and woman were arrested here yesterday and have been charged with murder in the death of Don Burkett, Lamesa feed store owner.

Burkett was found dead in his home last Oct. 12. Dr. J. V. McKay, who performed an autopsy, said Burkett died of loss of blood and shock. He had apparently been beaten.

Charged yesterday by Lamesa Justice of the Peace D. M. Campbell were Orville W. Massee, 27, and Barbara Jane Thomas, 20.

Weatherford Constable Bill Bledsoe handled the investigation. Lamesa Sheriff Roy King was called in on the case and took the pair to Lamesa to be charged.

King said they both signed statements. He said they would be arraigned today.

King said the statements, signed for County Attorney James Catton, described an argument involving Burkett, Mrs. Thomas and Massee. The statements said the three had met in a tavern outside Midland. They all left the tavern in a car and after driving for some distance Burkett was thrown from the car.

Burkett made his way back to Midland, recovered his pickup truck and drove home to Lamesa. He died sometime during the night.

Burkett, a 44-year-old bachelor, was being visited by his mother, who was ill in a Midland hospital.

Both Massee and Mrs. Thomas, a divorcee, said in their statements they didn't know Burkett had died until sometime later when they read about it in the papers. They said they didn't know he was badly injured.

The taxpayers' suit filed yesterday charged it has long been a practice in the county to appoint school employees who were related to members of the county's school trustees. The eight plaintiffs, through two attorneys, argued this was illegal.

A temporary injunction against Adams was asked. It would bar him from making more payments to such employees. The suit also charged that certain trustees entered into contracts for services and supplies to be furnished the school districts and received payment from county school funds.

Wage Changes Suggested For City's New Budget

Only a few changes were suggested by city commissioners last night in the proposed 1954 Big Spring budget presented by City Manager H. W. Whitney. The suggested changes concern salaries.

The budget, as outlined by Whitney, lists estimated expenditures during the 1954 fiscal year at \$1,191,196.25. An upward adjustment of salaries, now under study, could change this figure.

Commissioners did not approve the proposed budget Tuesday evening. A special session was called for 3 p. m. Thursday, at which time Whitney will report on the cost of effecting a longevity pay scale for city employees.

A public hearing for the budget will also be set in the Thursday session.

Whitney estimated that \$1,311,566 will be available for appropriation during the 1954 fiscal year. This includes the estimated cash balances at the beginning of the fiscal year, \$239,500, and the estimated revenues, \$1,072,066.

With anticipated expenditures at \$1,191,196.25 and total for appropriation set at \$1,311,566, Whitney pegs balances at the end of the fiscal year at \$120,369.75.

Last year, the city started with a balance of \$242,873, with revenues pegged at \$976,498. Estimated expenditures for the fiscal year ending March 31 this year were \$1,120,437.

The total sum budgeted for salaries is \$520,555, representing an average monthly payroll of \$43,380. Although Whitney's proposed budget did not provide for any general salary increase, it did call for several individual salary adjustments.

Bloodhounds Flush Out Escaped Felons From Prison Farm

HOUSTON (AP)—Bloodhounds today flushed two escaped convicts from underbrush at Barker dam near Addicks.

Eight of the 10 escapes from the Harlem prison farm had been captured yesterday, four hours after they overpowered a mounted guard.

The last two convicts caught were Fernando O. Otero, 20, of El Paso County and Eliseo G. Sepulveda, 23, of Harris County.

Otero was serving eight years for assault with intent to robbery. Sepulveda was up for eight years for burglary.

Prison guards Kenneth Bolton and P. K. Goree caught the last of the escapees.

Otero and Sepulveda were unarmed. Two of the convicts caught yesterday had weapons, a shotgun and a pistol.

Parr Convicted On Gun Charges

ALICE (AP)—New battles loomed today in the seething South Texas empire of George Parr after the political leader's conviction on a pistol-carrying charge.

Parr was convicted of the misdemeanor charge yesterday in the court of Judge Wash Storm Jr. He paid a \$150 fine plus \$10 on court costs, total of which had not been tabulated.

Meanwhile, at Harlingen, Dist. Judge Arthur Klein said two Texas Rangers charged with assault to murder Parr would be tried "probably some time in April."

Klein said state and defense attorneys would agree on a date or, in the event they disagreed, he would set the day. The trial will be in Brownsville on a venue charge.

Three Fields Log Completions; Howard Discovery Flowing Oil

Completions were listed today in the Oceanic Field of Borden County, the Moore Field of Howard County, and the Spraberry Trend Area of Glasscock County. Continuing oil flow is reported at Maguire No. 1 Chandler, Canyon reef discovery in Northeast Howard.

A new wildcat location — Lomax No. 1 Collins — was spotted in North Howard. Also staked was a new venture in the Oceanic Field, Texas Crude No. 1-35 Mildred Jones.

Seaboard No. 1-A Zant is the Oceanic completion, and it recorded a 24-hour flowing potential of 330 barrels of oil. A. K. Turner No. 2-B Hewitt pumped 348 barrels of oil on Moore Field potential. Hanley No. 3-B Cox, the Glasscock completion, made 241 barrels of oil on 24-hour flow.

Borden

Seaboard of Delaware No. 1-A H. N. Zant, north edge to the Oceanic Field, has been finished for a 330-barrel flowing potential. Production is from open hole through a 12-64th inch choke. Gravity of oil is 41.7 degrees, and the gas-oil ratio was tabulated at 997.1. Tubing pressure was 625 pounds on potential test, and the casing had a packer. Total depth is 9,192 feet, and the 5/8-inch casing is bottomed at 8,148 feet. Top of pay is 8,185. The open hole was acidized with 1,000 gallons. Elevation is 2,633 feet. The new producer is about a half mile north of Vealmoor, location being 2,308.9 from south and 330 from west lines, 19-32-3n, T&P survey.

Howard

A. K. Turner No. 2-B Hewitt, 303 from south and 890 from east lines, north half, 25-34-1s, T&P survey, pumped 348 barrels of oil in 24 hours on final test. There was no water. Gravity of oil is 30 degrees. Depth total is 3,197 feet. Top of pay is 3,158 feet, where 5/8-inch casing is bottomed. The open hole zone was treated with 4,000 gallons of fracture gel. Pete Lomax of Midland spotted his No. 1 Claude Collins as a wildcat about a mile east of the Vealmoor Field. It will be drilled to 8,000 feet by rotary, starting at once. Location is on a 40 acre lease, drillsite being 680 from south and 2,309.4 from east lines, 36-32-3n, T&P survey. It is four miles east of the Vealmoor community.

Glasscock

Hanley No. 3-B Charles J. Cox, 880 from east and 990 from north lines, south half, 44-36-4s, T&P survey, has been completed in the Spraberry Trend area for a 24-hour flowing potential of 241.24 barrels of oil and no water. Gravity of oil is 39.1 degrees, and the gas-oil ratio is 1,017.1. Tubing pressure measured 275 pounds, and there was no water on casing. Total depth is 7,760 feet, and the 5/8-inch casing is set at 7,753 feet. Top of pay is 6,826 feet. Production is through several sets of perforations between 6,972 and 7,713 feet. Perforations were acidized with 250 gallons and treated with 10,500 gallons of fracture gel.

Excise Bill To Come Up

WASHINGTON (AP)—The Senate takes up today a bill to slash excise taxes by almost a billion dollars yearly, with the administration facing a fight to prevent further cuts in revenue.

Both Sen. Millikin (R-Colo.), floor manager for the measure, and Majority Leader Knowland (R-Calif.) predicted the bill would go through without any substantial change.

But, unlike the House, the Senate considers tax legislation under procedure that permits amendments to be offered freely.

Thus industries which would get no tax relief in the House measure as presented to the House by its Ways and Means Committee will have their first new opportunity to seek cuts in the Senate.

The major administration challenge appears to come from three amendments sponsored by Sen. Douglas (D-Ill.) which would cut the automobile excise tax from 10 to 7 per cent; eliminate the 10 per cent levy on a wide range of household appliances including refrigerators, stoves, freezers, ironers, dryers, dish washers and toasters; and cut the tax on television and radio sets and phonographs from 10 to 5 per cent.

Colombia and Peru Settle Squabble Over Asylum Issue

CARACAS, Venezuela (AP)—Delegates to the 10th Inter-American Conference pushed ahead with new vigor today after settlement of the bitter dispute between Colombia and Peru over the granting of asylum to Peruvian opposition leader Victor Raul Haya de la Torre.

The case had heavy overtones regarding the whole principle of political asylum, which is of paramount importance to Latin Americans.

Colombian Foreign Minister Evaristo Sourdís made the oblique announcement yesterday—without once mentioning Haya's name—that his country and Peru had reached a settlement on what to do about the man who has been a political refugee in the Colombian Embassy in Lima since 1948.

Neither Sourdís nor Peruvian officials gave any details of the agreement, but authoritative unofficial sources said Haya would be permitted to leave Lima for exile, probably going to Uruguay, which has no common border with Peru.

County Inks Pact On Elevator Upkeep

County commissioners signed an elevator maintenance contract with the Otis Elevator Company this morning.

The firm which installed two elevators in the new courthouse will maintain the facilities, furnishing all parts, for \$120.50 per month, according to the contract. G. O. LaGrange, Midland, Otis Maintenance representative, was in Big Spring to negotiate the contract.

Viola Robinson, county tax assessor, also conferred with commissioners. She asked that insurance coverage be increased on money in the county tax office, as protection against theft or robbery.

Daily receipts at the office range from \$700 to more than \$18,000, she said. Officials decided to check on the amount of insurance already provided and then determine if the coverage should be increased.

Fines, Jail Terms Levied Against Two

Two persons were fined and sentenced to jail terms in County Court Tuesday.

Johnny C. Harrison was fined \$150 and assessed a three-day jail term on charges of driving while intoxicated. Eloy Mendosa Hernandez pleaded guilty in theft charges and was fined \$100 and sentenced to five days in jail.

Mineral Wells Cut Okayed For Pioneer

WASHINGTON (AP)—Pioneer Air Lines has been authorized to reduce its service at Mineral Wells and Breckenridge, Tex., to one round trip daily at each point.

The Civil Aeronautics Board approved the airline's request yesterday.

House Is Damaged By Fire Tuesday

A wall was damaged and a studio couch and chair were destroyed in a fire at 108 Airbase road about 11 p.m. Tuesday. Firemen said the house is owned by J. B. Hollis.

The blaze started while occupants of the house were in a movie. Cause was listed by firemen as a cigarette dropped on the couch.

Walking Requires Fuel

Supreme Court Justice William O. Douglas (right) and his 22 hiking companions Tuesday were well along on their project of walking 184 miles along the route of the Chesapeake and Ohio Canal in Maryland and Washington. The justice is shown with Tony Smith, a conservation leader, as they sit down near Fort Frederick, Md. Douglas is hoping the hike will convince his companions it would spoil the natural beauty of the area to construct a highway along the canal. (AP Wirephoto).

School Bands Draw Applause At Concert

Around 500 people turned out Tuesday evening to hear three school bands presented in annual spring concert under difficult circumstances.

They went away pleased with results. Their applause showed they concurred with Dr. D. O. Wiley, Lubbock, director of the Texas Tech band and dean of West Texas conductors, that "if they do as well this weekend, you needn't worry about these youngsters."

Dr. Wiley was clinician for the special session of study during the past weekend and was guest conductor Tuesday evening. Both the junior and senior bands will go to district contests this weekend, the juniors to Odessa on Friday, the seniors to Midland on Saturday.

Making their first and probably only public appearance of the year, members of the elementary band played two marches capably under the baton of Frankie Marstrand. Earl Ray, associated with Adair Music in Lubbock, directed the junior high band and two numbers for the senior unit. He had stepped in after the bands were left without a director several weeks ago when Clyde Rowe was hospitalized with a heart attack.

These band members have come a long way in the past two weeks. Ray commented upon their efforts to make up lost time. "They will give a creditable performance."

The junior band, tackling a couple of weighty overtures, did well considering experience and depth of instrumentation. In their new red and white uniforms, the young members made a striking appearance. On marches they showed added confidence and ability.

Despite the handicap of losing its director right in the home stretch, the senior band demonstrated extraordinary ability for a school group. All in all, the quality of performance was as good as the band has done—if not better. Reeds and woodwinds developed a silken tone; trumpets were precise with proper articulation; percussions were sharp; brasses were surer and smoother. Baritone and basses set a new standard of excellence for the band. Although the overtures flirted with the symphonic in musical patterns, the young musicians performed admirably.—JP

Contractors Okay State Board Plan For Making Award

A resolution against criticism of the state board of control for award of the Big Spring State Hospital contract was adopted unanimously by the West Texas Chapter of Associated General Contractors in Abilene Tuesday evening.

The board had awarded the contract to Eitz-Kitchens Company of Austin as low bidder under an alternate proposal. William B. Warren, San Angelo, had submitted the straight low bid. Sen. Wayne Wagonseller, Bowie, sharply criticized the board of control for making the award to the Austin firm.

In its resolution, the chapter held that it had no "cause to criticize or protest the contract awarding procedures..." and that no member had "directly or indirectly protested or questioned the choice of alternates or method of awarding the contract."

Among officers installed was J. D. Jones, Big Spring, a director of the chapter.

Speakers included C. E. Fulgham, Lubbock, chairman of the Texas State Industrial Commission, who said that labor had opposed all the way the work of the commission to investigate Communists in labor unions in Texas. Around 70 contractors participated in the annual meeting.

Clothing, Pistol Are Turned Over To Police Here

A .38 revolver and a pair of colored khaki trousers were turned over to police Tuesday afternoon by T. G. Adams, who said the items were left in his hotel room during his absence.

Adams is an employee of the Tri-Service Drilling Company. He told police he knew nothing of the gun or trousers, and that he had no idea why they were left in his room.

Theft of a ton chain hoist was reported to police by Merrill Creighton. Officers were told the chain is valued at between \$30 and \$40, and that theft occurred last Wednesday or Thursday at 401 East 1st.

The possibility that a man was shot here early Tuesday morning was also reported to police yesterday. Johnny Hernandez, 510 NW 3rd, said he saw a prowler about 12:30 a.m. A short time later he heard what sounded like a gun blast and saw the same man running as if he was injured.

A check of the hospitals today revealed that no one had been treated for a gun shot wound. Police believe Hernandez heard a car backfire.

MARKETS

WALL STREET—The stock market moved sharply lower today with only a few firm spots in evidence at the opening.

The leading index, the Dow Jones Industrial Average, closed at 164.34, down 1.17 from 165.51. The S&P 500 index closed at 44.71, down .37 from 45.08.

Several of the averages opened higher including the Industrial Average on 150 shares up 1/4 and United Aircraft up 1/2, but Douglas Aircraft closed off 1/4.

New Finance Firm To Open Thursday

A new business, Chevron Finance Company, will open its doors in Big Spring Thursday.

The new firm is located at 107 W. 4th Street. It will specialize in "consolidation loans" and offer such services as auto, personal and furniture loans, said Frank O. Franklin, manager.

Here for the opening will be J. A. Deter, district supervisor for the firm which also has offices in Lubbock, San Angelo, Wichita Falls, Odessa and El Paso.

Mr. and Mrs. Franklin have moved to Big Spring from Lubbock to operate the business. They now reside at 1309 Scurry.

Franklin said all area residents are "invited to come by and get acquainted" Thursday or in the future.

Chevron Finance Company occupies quarters in a remodeled section of the Fashion Cleaners building, just south of the courthouse. The staff, in addition to Franklin, now includes Barbara Duncan, secretary-cashier. The manager said the staff probably will be increased to five persons. All workers will be employed locally.

Four Prisoners Are Sent To Huntsville

Four Howard County jail prisoners were sent to the state penitentiary at Huntsville when the prison "wagon" stopped in Big Spring this morning.

The four were Coleman Lawhon, E. O. Grant, Daniel Marquez and W. A. Smith, Sheriff Jess Slaughter reported.

Lawhon, convicted of burglary in several area counties, was brought to Big Spring from Huntsville early in March to testify in the murder trial of Randall Hendrix.

Smith was sentenced to two years in the prison on conviction of forgery. Grant drew three years in the penitentiary on conviction of a worthless check charge. Marquez was convicted of burglary and sentenced to six years imprisonment.

Two Collisions Are Reported To Police

Two minor automobile collisions were reported to police here Tuesday. Investigating officers said there apparently were no injuries.

Glady M. Collier Clinton, 3206 West 1st, and Frank Spencer, Vaughn's Village, were operators of autos in collision in the 300 block of Bell about 10:30 a.m.

Drivers involved in an accident at 3rd and Main about 9:20 p.m. were Mary Haptonstall and Jan Garland Tally, 1201 Pennsylvania.

Clark Execution Stay Is Refused By Pardons Panel

AUSTIN (AP)—The State Pardons Board today refused to interfere in the scheduled execution shortly after midnight tonight of Charles D. Clark of San Angelo.

The board said it had considered the case and had no recommendation.

Clark was convicted in the fatal shooting of his wife, Mrs. Laverne Clark, at her San Angelo home March 25, 1952, the day of the couple's divorce.

Clark's lawyers had contended he was temporarily insane at the time of the killing because of his domestic trouble.

The conviction was upheld by the Court of Criminal Appeals and the U.S. Supreme Court refused to review it.

Numerous appeals were taken to the pardons board seeking clemency on grounds that Clark did not receive a fair trial. Arguments included failure of Clark's attorneys to ask for a change of venue and their failure to employ local counsel in the case.

Perfect Driving Record Is Saved

ST. LOUIS (AP)—When police trailed Thomas Morrow to his home and arrested him on a charge of driving 45 miles an hour in a 30-mile-an-hour zone, he protested they had the wrong man.

Morrow, a truck driver, pleaded the same thing before City Judge Robert G. Dowd yesterday. To support his statement he showed the judge six safe driving records and a perfect driving record.

Judge Dowd was impressed. "I don't want to ruin your record," he said. "Because of your record I resolve the doubt in your favor. Not guilty."

New School Finance Plan Would Hike County Quota

AUSTIN — Oil-producing counties will pay more, some others will pay less into the state school coffers under the new school finance plan worked out in the compromise teacher pay bill passed this week by the Texas Senate.

For example: Snyder now is assessed \$323,655 under the law which requires local districts to pay \$45 million of Minimum Foundation costs. If the local districts of the state are put on a percentage basis, the "80-20 ratio," Snyder will be asked for \$74,727 more. The \$100-per-professional-unit rebate will mean Snyder will get credit for \$12,500 off this \$74,727.

Abilene's situation is different, however, because its economic index, percentage ability to pay, is less. Abilene now is assessed \$169,205 for its share of the minimum foundation. Under the new plan Abilene would have to pay \$25,538 more. But it would get an allowance of \$35,050 under the \$100 rebate plan. So, actually, Abilene will be paying less into the foundation than it now does.

San Angelo is in the same boat with Abilene. Its present assessment is \$125,658. It would be called on for \$17,614 more, but it would get an allowance of \$28,700 under the new \$100 rebate provision.

General ability to pay in Gay Hill, Elbow, Vealmoor, Coahoma and Forsan districts in Howard County create this situation: The county as a whole will be assessed more under the new financial arrangement, but the biggest town, Big Spring, will be assessed less.

Howard County as a whole is now assessed \$213,100. It would have an added assessment of \$30,277 and would get back \$23,175 under the \$100 per unit. Big Spring now is assessed \$85,160. It would be assessed \$12,304 more but would get an allowance of \$17,700.

The economic index, plus the \$100 allowance, makes the difference.

These West Texas counties will end up with greater net assessments, more money going into the foundation, under the new plan: Andrews (about \$50,000 more); Borden, Coke, Crane, Culbertson, Dawson, Ector, Fisher, Gaines, Garza, Glasscock, Haskell, Howard, Hudspeth, Irion, Jeff Davis, Jones, Kent, King, Martin, Mason, Midland, Pecos, Presidio, Reagan, Reeves, Schleicher, Scurry, Shackelford, Stephens, Stonewall, Throckmorton, Upton, Ward and Winkler. "This doesn't mean all districts in these counties will pay more. In

Officers Named By Elks Lodge

The Big Spring Elks Lodge elected new officers and made plans for installation ceremonies at its meeting Tuesday night.

The new officers will be installed April 13, and a dance honoring them will be held on April 17.

Elected Tuesday night were Joe Clark, exalted ruler; Oliver Coffey, esteemed leading knight; Bert Korn, esteemed loyal knight; Commodore Ryan Jr., esteemed lecturing knight; R. L. Heith, secretary; Bart Wilkinson, treasurer; R. H. Snyder, tiler; W. C. Ragsdale, trustee for five-year term; Glen Galbreath, alternate representative to the Grand Lodge.

The lodge also voted to contribute \$10 to the Texas Heart Association.

Mrs. Patterson Dies At Loraine

COLORADO CITY — Mrs. H. E. Patterson 58, of Loraine, died suddenly at her home Tuesday morning. Mrs. Patterson was born Jan. 1, 1896 in Burlington County and had lived in Loraine for 28 years.

Funeral services will be held at the First Baptist Church in Loraine, with the time to be set. The Rev. Leonard Hartley, pastor, will officiate. Burial will be in the Loraine Cemetery under the direction of Kiker and Son.

Mrs. Patterson is survived by her husband, two sons, E. T. Patterson of Winters, and Sgt. M. E. Patterson, USAF Lake Charles, La.; three daughters, Mrs. Lucille Cunningham, Wichita Falls, Mrs. J. A. Geiger of Loraine and Mrs. Rudy Clarkston, of Los Angeles; three stepdaughters, Mrs. S. T. Reese, Snyder; and Mrs. Arlie Kidd and Mrs. Jack Tillison of Loraine. Twelve grandchildren and nine great-grandchildren also survive.

'Mama Patrols' At Schools Discussed

City commissioners Tuesday night discussed the possibility of forming "mama patrols" at schools here to keep children out of the streets.

An unusual number of reports have been made recently that students fail to heed traffic during recess hours and noon periods. A number of pranks, such as youngsters throwing balloons filled with water at cars, has also been reported.

Some type of action should be taken, commissioners agreed, to restore order among the schoolers. The "mama patrols" would consist of women who wear police uniforms, their duty being to watch the children and control traffic hazards.

The possibility was simply discussed, with no formal action taken. The system has worked in other cities, it was pointed out.

Major Cone To Be Guest At SA Meet

Maj. Carl Cone, second in command of Salvation Army work in Texas, will be a guest of honor when the annual Salvation Army advisory meeting is held here Friday.

The dinner affair at the Twins Cafe is set for 7:30 p.m. With Maj. Cone will be Capt. Harold Robins, the division youth director. Both Maj. Cone and Capt. Robins will be here for a semi-annual property and program audit.

Reports on the past year's work will be presented at the meeting and new officers, headed by G. H. Hayward as chairman of the advisory board, will be installed.

Marines Land Again On Iwo Jima

The Third U. S. Marine Division lands on the black sand beaches of Iwo Jima, in the largest amphibious training exercise since World War II. This general view shows advancing Marines shielded by armored amphibious tractors as additional landing craft approach in background. The area chosen for the landing is the southwest edge of the island across the way from the volcanic beach where Marines stormed ashore Feb. 19, 1945, to launch one of the most vicious close quarter battles in history. White Sounds Like Candidate In Navarro Talk

CORSICANA (AP)—John C. White, sounding more and more like a candidate for higher office, took a whack at the Eisenhower administration and plugged for state water control in a speech here. The State Agriculture Commissioner spoke last night to about 200 members of the Navarro County Democratic Women's Organization.

White has been mentioned often and prominently as a possible loyal Democrat for governor. In Austin yesterday, State Rep. John Kimbrough — the Jarrin' Jaw'n' of all-America fame at Texas A&M College—said he was considering running for White's agriculture commissioner seat. Kimbrough, serving his first state House term, said, "looks like I ought to go back to farming, ranching and the oil business where I know what's going on." White said the Eisenhower administration's tax program is a political payoff and charged the Republicans with being "the same old party, still catering to the rich and soaking the poor, pouring money into special interests."

Russian Chiefs Add To Party's Governing Body

NEW YORK (AP)—There is clear evidence the "collective" leadership of the Soviet Union—the Communist high command—has recently opened its exclusive circle to new membership.

This has been done without any public announcement. At least one new man has been added to the list of top-level men the Soviet press calls "the leaders of the Communist party and the Soviet government."

Of particular interest is the fact that he is one of the leading figures in the machine of Nikita Khrushchev, the secretary general of the Communist party's Central Committee, whose star has been rising continually. The man added to the inner circle is Alexei I. Kirichenko, a Ukrainian and the boss of that rich agricultural Soviet republic. His formal title is "first secretary of the Central Committee of the Communist party of the Ukraine."

Kirichenko was the No. 2 man in Kiev, the Ukraine's capital, until L. G. Melnikov was fired last June. Then Kirichenko took over Melnikov's job.

For just a month now Kirichenko has been uniformly listed among the leaders of the U.S.S.R. whose names are published in heavy black-faced type when they appear in public. As late as the beginning of February he was not on the list.

But it looks very much as if he may have been made a full member and also that the head of the Soviet trade unions, N. M. Shvernik, and the boss of the Kazakhstan Communist party, P. K. Ponomarenko, may have been promoted from candidate members to full members.

These changes would bring the Presidium up to 12 members, the same number that made up Stalin's Politburo.

The general set-up of the present Presidium was organized in March 1953 after Stalin's death. Ten full members and four candidate members made it up.

The full members were G. M. Malenkov, V. M. Molotov, L. P. Beria, Khrushchev, K. E. Voroshilov, L. M. Kaganovich, N. A. Bulganin, A. I. Mikoyan, M. Z. Saburov and M. G. Perukhin. The candidates were Shvernik, Ponomarenko, Melnikov and M. Bagirov.

Three of these men came to grief. Beria was shot as a traitor. Melnikov was fired and later made ambassador to Romania. Bagirov was purged in the Beria aftermath.

King's (?) English Differs From Brand Spoken In U. S.

By ED CREAUGH
WASHINGTON (AP)—With the tourist season hard upon us, it's time for those who are going abroad to get out their phrase books and try for a smattering of whatever foreign language they're likely to require. For Americans, that includes the English language. The King's English, that is, not the English we all speak.

You doubt English is a foreign tongue? All right, then, what does "prang" mean? Use "housey-housey" in a sentence. Tell us what an "erk" is and own up—no cribbing, now—whether you'd like some "Tottenham pudding" for dinner.

These are English words, honest, though most of them are slang. You can find them—and a lot more you may need if you're London-bound—in a recently published book, "A Dictionary of New Words in English," by Paul C. Berg (Crowell, \$2.95).

Berg, an Englishman, got together some thousands of the words which have come into common use since the 1930s. This shows how the world has changed in 20 years. Back in those innocent days "atom bomb" wasn't even in the dictionary.

Neither, for that matter, was "prang"—which turns out to be Royal Air Force slang for a successful bombing raid, or schoolboy slang for any feat, such as setting the headmaster's toupee on fire. A really spectacular feat—setting the headmaster himself on fire, say—would be a "wizard prang."

In modern Britain, as it filters into Berg's dictionary, a girl won't smack your face if you propose to play "housey-housey." She may not jump for joy, either, though, since "housey-housey" is a simple card game along the lines of lotto. Much of the 20th-century English

Berg has collected comes from World War II, which seems to have done to the language what the Allies did to Hitler. An "erk," for instance, is an Air Force recruit. A "foo" is "a critical spirit, believed by service men to be an invisible onlooker of all their doings."

And "Tottenham pudding"? Best turn it down, old boy, if someone suggests it for dessert. He's "having you on," as some Englishmen say. It's nothing but pig food.

Luggage Customers Have Other Interests

SAN FRANCISCO (AP)—Curious because successive customers entered a Market Street luggage store, carefully examined a display of wallets and left without purchasing anything, police moved in yesterday.

Missing Panther Scare Was False, Officers Declare

LOS ANGELES (AP)—The man who reported a black panther misting from his animal show has been charged with making a false report.

The black panther scare had hundreds of residents in the Los Angeles area in a dither week before last. The beast supposedly escaped from his cage shortly after Wayne Roberts' show started for Phoenix, Ariz.

"The whole story was a hoax," Police Chief William H. Parker said yesterday. "We were pretty certain of that from the first, but it has taken a lot of checking to substantiate it."

Scores of frightened citizens reported they had seen the black panther. Chief Parker says Roberts concocted the whole story and kept it going so he could get a job as publicity man with a carnival.

Termite Man Sails From Home In Blast

MONTGOMERY, Ala. (AP)—A termite exterminator was fired through a coal chute like a human cannonball yesterday when a boiler exploded.

Ray Jordan, 41, landed 40 feet away just shy of a concrete driveway, picked himself up and started running. He was hospitalized with burns, but his condition was reported to be good.

Fire Chief R. L. Lamplery said the blast was believed to have been caused by an anti-termite solution coming in contact with a pilot light in the boiler. Flames destroyed the one-story frame residence.

THE GRUB LINE

With Franklin Reynolds

Likely the last man now living who was employed at the Big Spring station of the Texas and Pacific Railway the July night in 1908 when the California Express, pulled by Engine 109, was robbed a few miles west of Stanton, in Mustang Draw, by 51-year-old Henry H. Haynes who lives at 1601 Lancaster.

HENRY H. HAYNES

Mr. Haynes remembers the night well. It was a mighty pretty night, he says, and he recalls that he never heard a locomotive whistle sound more perfectly than did the whistle on "Old 109" when Engineer Jim Holmes pulled the cord when he was ready to leave Big Spring. Mr. Haynes says it must have been the evening's general atmospheric condition, because the memory of those whistle blasts lingers very impressively with him after these almost 56 years.

And Mr. Haynes brings a new and most interesting feature into the history of the train robbery, because he reveals that one of the four robbers was a woman who was expecting to be a mother in about four months. He comes nearer giving a complete story of the robbery than has been available yet.

At that time the T&P passenger depot was situated just north of the west end of the present freight warehouse, and John Birdwell was running a hotel where the T&P passenger station now stands. Mr. Haynes is pretty sure the train was on time that night, too. It was due in at 8 p.m. from Fort Worth and due out 20 minutes later.

Mr. Haynes worked the train that night. The train crew was changed here and either the baggage car or the express was cut out, and the baggage man was dropped from the train with one man taking charge of both baggage and express for the run on into El Paso. This particular night it was the baggage car that was cut out for the reason that

the express car was heavily loaded with watermelons from Weatherford in the front end, and was stacked to the ceiling at the other end with crates of chickens, also from Weatherford. The safe of the Pacific Express Company was situated about the middle of the car.

Mr. Haynes doesn't remember the name of the brakeman, but Jim Holmes was the engineer who mounted the cab here, and Wes Moreland climbed aboard as combination baggage-and-express messenger. The conductor was Cap Farnham.

"I didn't hear anything about the robbery until the next morning," Mr. Haynes says, "when the wrecked express car was brought back here. The blast that blew open the safe certainly squashed watermelons and killed chickens. There were chicken feathers all over everything and mashed water mel-

ons all over the floor of the car. The roof had also been blown off one end of it."

He also remembers there were pieces of currency, torn up by the blast, stuck in various places around the top of the car. Mr. Haynes says \$30,000 was either destroyed by the blast or carried off by the bandits.

He talked with all the crew members about it the next day. As the train was ready to pull out of Stanton one of the robbers climbed up in the cab and made Holmes pull the train a few miles out of Stanton where it was stopped. The bandit then had them uncouple the engine, tender and express car from the rest of the train and drive on about a mile up the track to where there was a fire burning. Holmes told Haynes he saw four horses there. The conductor was left with the passengers back down the track, but Messenger Moreland and the brakeman were carried along to the scene of the robbery, where one charge of dynamite blew the safe open in Mustang Draw.

After the robbery the bandits took time out to cut open one of the watermelons and eat it. Holmes indicated he would also like a bite or two of watermelon but was refused. The four robbers, one of them a woman dressed as a man, then mounted the horses with their loot and rode 90 miles to San Angelo without stopping. There the party split up with two of the men going to Oklahoma Territory where they got in some trouble and were shot and killed, or shot and arrested. Mr. Haynes doesn't remember just which. But at least one of them didn't die immediately for he revealed the fact that the other two outlaws were a man and a woman, and that they were in Kansas City.

As Mr. Haynes remembers, the

woman's baby was born, according to word that drifted back down this way, but just what also happened to them, he doesn't recall. But until the two men were shot in Oklahoma about four months after the train robbery, and made the revelation, nobody knew one of the bandits was a woman.

He says he can't imagine how a Big Spring newspaper of the time got a story next day that when the bandits passed through Garden City on their way south, two of them were on horses, one on a bicycle and one on foot.

"You couldn't hardly ride a bicycle on Big Spring streets in those days," he comments, "much less out across the prairie. That's ridiculous. They all had horses and they rode those horses all the way to San Angelo with mighty little rest."

Wes Moreland was a sick but a conscientious man, Mr. Haynes says, and the shock of the robbery was more than he could stand. His health became rapidly worse and he died not long afterward. Jim Baggett was Howard County sher-

iff at the time and Mr. Haynes remembers the posse that was made up here to take the trail of the outlaws. A. T. Snoddy was T&P agent in Big Spring, and L. V. Read was the cashier. There was no telephone communication, and only limited telegraph facilities up and down the rail lines.

Mr. Haynes, who was born in Mississippi, was brought to Texas when he was two weeks old. He came to Big Spring in 1895 and his first job here was a week's work in the MacIntyre Drug Store so Dr. MacIntyre could take a vacation. Then he started working with the railroad at 15 cents an hour. He was cashier in John Birdwell's railroad eating house and hotel when Miss Lida Haley of Abilene became Mrs. Henry H. Haynes only a few weeks before the train robbery.

Mr. Haynes opened the station of the Roscoe, Snyder and Pacific Railway at Hermeleigh in 1908, and the station at Fluvanna in 1909. He was with the R&P for 34 years before returning to Big Spring in retirement.

And now Mr. and Mrs. Haynes

are mighty proud of their nine children, five boys and four girls, all of whom are happily married themselves and with good jobs. Looking back on it now, Mrs. Haynes wonders "how in the world we ever managed to raise that family on the pay in those days,

but they were good children and they helped, and we're mighty proud of them." They also well remember the flood of 1902 when no trains could get into Big Spring for 10 days. "Some day we might have another rain like that," says Mr. Haynes.

Playing For Keeps

OKLAHOMA CITY (AP)—A 10-year-old boy, wearing two toy guns and a sheriff's badge, was joined by police in his game of cops and robbers yesterday. But found they were playing for keeps.

Officers C. W. Pierce and C. B. Mead said the lad confessed being the ringleader on nine burglaries reported over the weekend. Two playmates were implicated, one 10, the other 8. They, too, confessed, police said.

The burglaries netted \$28 in cash, a quantity of candy and cookies, and several toys, including the two guns and sheriff's badge.

SAN FRANCISCO (AP)—Pvt. Robert A. Arrellano was hauled into Municipal Court yesterday for shooting blanks at a clump of bushes. Seems there was a speed see hiding behind the foliage.

Patrolman T. A. Smith told the court he might have been killed. Seems Arrellano had a live shell

Adoption Of Six News? New Papa Doesn't Think So

MINSTER, Ohio (AP)—When Ben Martin and his wife brought six youngsters home to live with them in this western Ohio town of 1,500 persons, Martin didn't think it would cause much excitement.

Even now that word of the multiple adoption has been in newspapers throughout the country, the 37-year-old tool and dye maker can't understand why people are so interested.

"We didn't have any children of our own and couldn't have any," he explained, "so we adopted them."

He referred to Elizabeth, 5; Bernard, 4; Brenda, 2; David, 6; Diana, 8; and John, 8, whom he and his wife adopted last Saturday in Mercer County. The children's mother is dead, he said, but noted the court wouldn't let him say any more about their background.

Tex-Harvey Plan Okayed By State

AUSTIN (AP)—A new experimental project designed to squeeze additional oil from rock in the Tex-Harvey (Floyd Sand) area of the Spraberry Trend in West Texas has been approved by the Railroad Commission.

The order applies to designated wells in Midland and Glasscock counties. Commission engineers explained it is similar to an Atlantic Refining Co. secondary recovery project previously approved in the Spraberry.

Called "water imbibition" the experiment entails forcing of relatively small amounts of salt water into oil producing formations considered capable of absorbing it. The theory is that rock absorbs the water which in turn forces out the oil held there.

The commission order noted that conventional secondary recovery methods for oil would not work in the area involved.

"Aw," replied the soldier. "I knew which chambers were loaded. Besides, how did I know he was there? What was he hiding for?"

Smith admitted he was hiding. Seems he was watching for traffic violators.

Arrellano drew a 30-day suspended sentence.

Boat's Name Seen Cause For Burning

TAMPA, Fla. (AP)—Did the name Joseph Stalin on a sponge boat make some Tarpon Springs citizens see red—red enough to burn up the boat?

That's the question Federal Judge William J. Barker has under advisement after hearing arguments in a civil suit yesterday.

The boat, owned by Nick G. Arfaras, was destroyed by fire at a Tarpon Springs boatyard the night of June 1, 1951.

Arfaras was paid \$8,000 for his loss by the Detroit Fire and Insurance Co., which is now suing to recover that sum from Sarris Bros., Inc., operator of the boatyard.

The insurance company alleged that negligence by boatyard employees caused the loss.

Attorneys for the boatyard operator said residents at Tarpon Springs resented a boat named Joseph Stalin while this country was fighting Communists in Korea, and that Arfaras had been warned to change the name or keep a night watchman at the yard.

They said Arfaras, now dead, was not a lover of Stalin, but insisted on keeping the name which the boat had when he bought it.

Deaf Man Is Given Sentence For Life

HUNTINGTON, W. Va. (AP)—Harold L. Hunter, convicted last month of arson, appeared in Common Pleas Court yesterday for sentencing.

Two words were typed on a sheet of paper and held up before the totally deaf defendant. They read: "Life imprisonment."

The life sentence was mandatory. The 43-year-old man had been convicted previously three times, in 1921, 1923 and 1928.

Man Locked In Cell Found Hanging Dead

CUMBERLAND, Md. (AP)—A 31-year-old man, locked up after he called police and threatened to "shoot a couple of people," was found dead, hanging in his cell at the Allegany County Jail last night.

Dr. H. V. Deming, deputy county medical examiner, said Jacob Russell Shearer of Bowling Green, Md., had fashioned a noose with his jacket.

CITIES SERVICE

NEW 5-D PREMIUM

The only Gasolene with these five features!

- ANTI-CARBON
- ANTI-RUST
- EXTRA-HIGH OCTANE
- ANTI-STALLING
- UPPER-CYLINDER LUBRICANT

For the first time... all the country's top premium features in one great gasolene, plus the exclusive Cities Service anti-carbon feature!

READ NOW AND WHY the five important features of Cities Service New 5-D Premium can provide the longest full-powered engine life in automotive history! ... a cleaner engine than ever before! **HOW AND WHY** they give more power, more mileage, more downright motoring pleasure than ever before!

ANTI-CARBON ... the first gasolene to reduce harmful carbon inside your car's engine! New 5-D actually introduces more oxygen into your car's combustion chamber ... added oxygen that provides more complete burning of every drop of gasolene. Less waste matter. **Less carbon!** More complete engine power!

EXTRA-HIGH OCTANE ... New 5-D's Extra-High Octane will help eliminate knock in the newer high compression engines as well as in older cars.

It will mean a smoother, quieter engine, AND, an engine that is more powerful, far more economical to operate. Not just "high test," not just "premium," but Extra-High Octane! ... That's 5-D.

ANTI-RUST ... In actual tests, New 5-D Premium was proved to protect the entire fuel system against rust ... eliminates rust that forms in gas tanks and fouls fuel lines and delicate carburetor mechanisms. You have a better running car, a better protected engine.

ANTI-STALLING ... New 5-D Premium eliminates annoying stalling caused when ice forms on carburetor throttle valve, jamming it shut and cutting off the fuel supply. With New 5-D Premium, THAT KING CANNOT HAPPEN.

UPPER-CYLINDER LUBRICANT ... unlike old-fashioned lubricants, the New 5-D Upper-Cylinder Lubricant contains an anti-oxidant that prevents the lubricant from oxidizing (carbon) on vital engine parts. New 5-D lubricates vital engine parts as it powers your car!

Best-Seller Review Set For Thursday

"Cress Delahanty", by Jessamyn West, is the book chosen by Mrs. Charlotte Sullivan for her review Thursday afternoon at 3 p.m. when she is presented by the Thursday Review Club in another of their series of reviews.

The meeting place has been changed from the auditorium of Howard County Junior College to the music room of the college. This is a smaller room adjacent to the main auditorium.

The book is a light-hearted story of the growing up of a young girl on a ranch. Her problems and her ways of meeting them make interesting reading or listening—especially to grown-ups who have been along that very way.

Admission will be by season ticket or individual tickets may be bought at the door for 60 cents.

Mrs. Wilson Is Guest At Shower

STANTON — Mrs. J. A. Wilson attended a miscellaneous shower for Ardelle Onweller in the home of Mrs. O. H. Jones of Midland recently.

Miss Onweller is the fiancée of Mrs. Wilson's grandson, James C. Wilson, also of Midland.

Mr. and Mrs. Henry Wallace and Glen Edward spent the weekend in Lamesa with her parents, Mr. and Mrs. R. N. Lancaster.

Mrs. Truitt Holder and Donna were in Oden for the weekend to visit Mrs. Holder's sister, Mrs. Bernard O'Brian.

Recent visitors in the home of Mr. and Mrs. Gordon Stone were Pvt. and Mrs. Gayford Campbell of Ft. Bliss and Frank Norman of Lubbock, a student at Texas Tech.

Mr. and Mrs. J. A. Wilson were called to Gorman last weekend because of the serious illness of Mr. Wilson's brother-in-law, T. L. Erase. While away, the Wilsons visited in Stephenville with their son and family, Mr. and Mrs. J. A. Wilson Jr., of Dublin.

Miss Petty is a third quarter senior voice and music education major at Baylor University. Byron Cox, also a Baylor student, was sent to SMU to compete on the show.

My Dreams Would Be A Picnic For Freud

By ANNE LEFEVER. What is it that psychiatrists say about dreams? That they are suppressed desires? That they are an insight into one's personality?

If this is true, I must be one of the most eager of all eager beavers! Since starting to work on THE HERALD, hardly a night has gone by without my laboring all night (it seems) on some phase of my work.

First, it was in proof-reading—and I was hunting through all the stacks of copy for some misspelled word—I didn't even know what the word was. Morning came, and it was time to go to work before I ever learned what I was trying to find. Rather frustrating, to say the least!

Composing heads for the articles I write is a nightmare even in the daytime, but to spend a night at it is horrible. In trying to make the heads fit the space and the subject matter, I always seem to come out with one more letter in each line than I am permitted to use. One night, in particular, I couldn't make any of the leads and heads fit any of the articles.

Another thing that disturbs my dreams is making up the page. The length and importance of all selections must be considered in placing them on the page, and there are do's and don'ts about where to put certain art and stories.

The last job I have done at night is to hunt the whole time for a space to put a long article on some Home Demonstration work. I have read of people who solve involved mathematical problems in their dreams, but it doesn't seem to turn out that way for me. I always wake up with the problem still a problem!

HD Club Has Study On Accessories

STANTON — Mrs. J. T. Mims was hostess when the Valley View Home Demonstration Club met for a regular session. Mrs. Mildred Eiland, county HD agent, presented a program on "Correct Accessories for the Basic Dress."

The next meeting will be March 25 with Mrs. Jack Hopper. Refreshments were served to nine members.

The Methodist Junior Choir, led by Mrs. O. B. Bryan sang Tuesday afternoon, at the home of Mrs. Mike Anderson. Ten boys and girls participated. Mrs. R. Newsman, leader, was unable to attend.

The City Council of Beta Sigma Phi met Thursday night at the Stanton Walgreen Drug with each of the three chapters represented. Mary Prudie Brown reported on finances in regard to the area district meet to be held at Stanton next fall.

It was decided that the social committees of each chapter would meet April 13 to plan the Founder's Day banquet to be held April 29.

Rebekahs Honor District Deputy

Mrs. Irene Gross received honors as the new district deputy for the incoming at a meeting of Rebekah Lodge 284 Tuesday evening.

A report from the Grand Lodge held in San Antonio March 14-15-16 was heard. Delegates from the lodge attending were: Mr. and Mrs. Earl Wilson, Mrs. Bonnie Phillips, Mrs. Alma Crenshaw, Mrs. Rosalee Gilliland, Mrs. Lucille Petty, Mrs. Audrey Cain, Mrs. Lucille Thomas and Mrs. Judy Keener.

Grand Lodge will be held next year at Corpus Christi.

A charter was draped in honor of the late N. Brenner.

Team practice was held for the 27 members attending.

Southwestern Delegations Ask Federal Aid As Rains Skip By

By The Associated Press
Southwestern farm leaders and office holders, including some Texas, petitioned for federal aid Wednesday as major rains skipped Texas another day.

In Washington, J. J. Berg of Amarillo told separate sessions of the Senate and House Agriculture Committees that the area near his section had not been as hard hit as other states "but it may be soon."

Against Weather Bureau forecasts calling for scattered showers and thunderstorms, only such widely scattered places as Dallas, Waco, College Station, Houston, Childress and Beaumont received moisture. Nowhere was it deemed

enough. There was not enough to measure.

U.S. Senator Robert Kerr of Oklahoma, pointing to dust storms recently in Oklahoma, Kansas, New Mexico, Kansas and Texas said the damage "has developed far beyond what most people are remotely aware of."

Some areas, Kerr said, are in as deplorable condition now as during the dust-bowl years.

"Unless definite and positive action is taken," he added, "the situation can become catastrophic over a vast area."

Meanwhile, Ross Risley, assistant secretary of agriculture drew cheers in San Antonio from delegates to the Texas and Southwest-

ern Cattle Raisers Assn. Risley promised the cattlemen quick government action on any drought problems that might arise.

Berg and Floyd S. Elliott, secretary-treasurer of the United Livestock Growers Assn. of Dalhart, along with other farm leaders and congressmen set a conference Wednesday with Agriculture Undersecretary True Morse.

A spokesman of the group said they had been unable to get an appointment with Agriculture Secy. Ezra Tamm Benson.

In Corsicana, state Agriculture Commissioner John C. White warned that unless Texas' water situation was improved the state would lose twice as much industry as it gained.

White spoke up for state action in combatting drought conditions and outlined a five-point program.

New Ways Of Finding Cancers Told In Boston

By FRANK CAREY
AP Science Writer
BOSTON (U)—Boston scientists have devised methods of detecting and diagnosing in a relatively early stage three of the commonest killers—cancers of the brain, breast and uterine cervix, the tip of the womb.

The results of this research were disclosed today to a group of science writers touring leading research centers under the guidance of the American Cancer Society.

A Tufts Medical School scientist, Dr. William H. Fishman, has found a simple, cheap and rapid way of detecting not only well-established cancers of the uterine cervix in post-menopausal women but also cancers of microscopic size and even precancerous conditions.

While his method missed a little less than 20 per cent of proven cancers, it brought to light many cancerous and precancerous con-

ditions which might have been missed by conventional methods, he said.

Dr. William H. Sweet, neurosurgeon, and Dr. Gordon L. Brownell, physicist, of the Harvard University School of Medicine and Massachusetts General Hospital, reported that they could not only diagnose but even pinpoint brain tumors without opening the skull.

They do this by injecting the patient with radioactive arsenic, which concentrates in brain tumors and can be traced with twin scintillation counters an hour or a day later. A scintillation counter detects radiation.

Dr. Ira T. Nathanson and associates of the same institutions have found they can predict with high accuracy whether a lump in the breast is benign or cancerous.

They do this by injecting the patient with radioactive potassium, which concentrates in cancer and, as a rule, goes in very small quantity to benign tumors.

Deer Killed In Motel Lobby

Jay Thompson, left, displays the .22 calibre pistol he used to kill this 150-pound buck deer in the lobby of a motel near Weidon, N. C. The deer jumped through the front door into the lobby full of guests. Thompson, aroused from sleep, brought the deer down with two shots. Carl Thompson, Jr., of Roanoke Rapids, N. Rotarians Here Report On Progress In Community

County Judge R. H. Weaver and Mayor G. W. Dabney reviewed past activities and took a look at the future for Howard County and Big Spring Tuesday.

The two officials were speakers at the Rotary Club luncheon. The mayor even predicted rain for this year as he advised Rotarians not to "sell Big Spring short."

Expansion plans of such concerns as S&W, Woolworth and Hemphill-Wells Company in Big Spring, all made during the extended drought, are indicative of the faith that businessmen have in Big Spring's future, the mayor declared.

Judge Weaver told of the road projects county officials now have under way, including the acquisition of right-of-way for the Highway 80 freeway; paved roads from Chalk to Highway 80, Vincent toward Lake J. B. Thomas, Highway 87 to the Martin County line, through Knott; and the farm road from Elbow west toward Lomax.

He explained the need for the

City Contracts Are Let For Lubricants

Although city commissioners spent most of the Tuesday evening session discussing the 1954-55 budget, they also accepted bids for lube oils and greases and selected an auditor and depository banks for the coming fiscal year.

Discussion was also held concerning the dedication of a street joining 3rd and 4th between Brown and Presidio streets, paving, and topping of park tennis courts.

Commissioners ordered that contracts be given low bidders for seven different lubricating products which will be furnished the city on a 12-month basis.

Low bids were submitted by: Cosden for standard engine lubricating oil at 47.5 cents per gallon, Humble for extra heavy duty oil at 58 cents per gallon, Continental for all purpose hypoid grease at 8 cents per pound, Cosden for pale paraffin hydraulic oil at 27 cents per gallon; Cosden at 11.25 cents per gallon for multi-purpose grease, and Phillips for kerosene \$11 at 11.50 cents per gallon and for diesel oil at 11 cents per gallon.

This is the first time that bids have been accepted on lubricants, and commissioners found that the paying price on a year-round basis is considerable smaller than the price paid in the past.

Grover Cunningham was selected to audit the city books for the second year in a row. Depository banks selected to handle city

Nine Men Fined For Army Thefts

ALBANY, N.Y. (U)—Nine men have been fined a total of \$1,100 in connection with "share-the-wealth" thefts of \$7,000 worth of government property from Army depots at Schenectady and nearby Voorheesville.

The nine, who pleaded guilty in federal court yesterday to charges of stealing tools and clothing from the depots, were among 28 civilian employees arrested by the FBI last November.

Federal authorities said the men had taken the goods from the Army storehouses and set them aside. Then, authorities said, the men would tell friends where the loot was, and the friends would pick it up.

'Bama Audit Finds Deficit

CLEO, Ala. (U)—The fear which began gnawing at citizens here three weeks ago when banker Roy-all Reynolds disappeared became an awful truth yesterday—an audit showed a \$75,000 deficit at the Merchants Exchange.

An official who helped audit books of the little unchartered money exchange declined use of his name but said the check revealed at least that much money is missing.

He added, however, that the \$75,000 figure does not include personal property which Reynolds has promised to throw in to help make up any deficit.

Reynolds, who was president of the defunct exchange, said he would dispose of his home, car and government bonds in an effort to pay off depositors. There was no estimate of the value of his personal holdings.

Reynolds, released from jail temporarily to help with the audit, was put back in his cell after the check was completed. He is charged in three warrants with embezzling funds of the exchange while president.

Depositors have filed unofficial claims for about \$167,000, but less than \$87,000 of exchange money is available.

Appreciation For Response Voiced

Appreciation for public response to appeals for special aid were voiced here today by Lt. Robert Hall of the Salvation Army.

Twice in recent weeks the Salvation Army has issued appeals for clothing and home furnishings to replace those destroyed in fire. In both cases the response was most generous and the immediate needs of the families were met.

Demonstrates Modern Kitchen

Mrs. Jewel Bowen is on duty daily from 1 p.m. to 5 p.m. to demonstrate the modern kitchen and laundry equipment at the Texas Electric Service Co. office, located at 4th and Runnels. She can answer questions about operations of all types of kitchen and laundry appliances and demonstrate their various uses.

Cyclo-matic Frigidaire On Display Here

The glamorous new Cyclo-matic Frigidaire, the easiest-to-use Food Freezer-Refrigerator ever made, has been made available locally by the Cook Appliance Company, located at 212 East Third Street. The new Frigidaire offers a brand-new concept in food keeping. Every single feature—in the Food Freezer, in the Refrigerator and in the new Pantry-Door—is designed to provide a safe and special place for all foods, so that everything is handy and right at the user's fingertips.

The kitchen-size food-freezer keeps temperatures down in the zero zone and thereby retains frozen foods for months. There is no simpler automatic defrosting than, the Cyclo-matic way. It's free of clocks, counters, timers and heaters, yet it gets rid of frost in the refrigerator before it collects.

Frigidaire's new color scheme—they come in Sherwood Green and Stratford Yellow as well as conventional white—turn dreary kitchens into dream kitchens.

Cook's Appliance Company handles a wide range of appliances, including Frigidaire electric ranges, television sets, iron-free automatic washers and dryers. The Frigidaire Filtra-matic clothes dryer needs no plumbing, no ductwork and can be installed anywhere in the house. It does not throw off objectionable "dryer

Ready For Delivery

A shipment of new Frigidaire appliances is unloaded from railroad cars and transferred to the Cook Appliance Co., 212 East Third Street in Big Spring. Frigidaire equipment is always on display at Cook's.

Expert Advice On Insurance At Pond Firm

The advice of two experts in the insurance business is available without obligation to residents of the Big Spring area at Joe Pond Insurance Company, 111 E. 2nd Street.

Joe Pond, owner, and Cleo Curington, his associate in the insurance business, invite citizens of this area to confer with them on their insurance problems. There is no charge for the counseling and rating services provided by the company.

Both Pond and Miss Curington have had extensive training and experience in the insurance field. Their firm and the companies it represents provide every type of coverage including fire and casualty insurance.

Pond has been in the insurance underwriting field for more than 20 years, having started out in his hometown of Colorado City, and moving to Big Spring in 1937. He has been in business here since that time. He has represented the Frank-

Electric Kitchen, Laundry Demonstrated At TESCO

Electric kitchen and laundry installed in the Texas Electric Service Company office is open to the public. It was designed to show Big Spring homemakers the newest electrical equipment and to demonstrate the use of modern electric appliances. Mrs. Jewel Bowen is demonstrator on duty in the kitchen each week day from 1 p.m. to 5 p.m. and on Saturday from 8 a.m. until noon.

Homemaker's questions about electric appliances get prompt and complete answers, with demonstrations, at the Texas Electric Service Company's office, 4th and Runnels. A complete electric kitchen with laundry is in operation to show local homemakers the newest electrical equipment and to demonstrate how this equipment can be used to best advantage.

Homemakers in the Big Spring area are invited to come by the Texas Electric Service Company office to see the kitchen-laundry. Mrs. Bowen will be glad to demonstrate the appliances or answer any questions in regard to the operation of any electric appliances.

In the kitchen are an electric range, refrigerator, dishwasher, garbage disposer and small appliances found in the home. The laundry is complete with an automatic washer, ironer, electric clothes dryer and electric water heater. Both the kitchen and laundry are arranged for maximum work convenience.

Doctor Urges His Fellows To Think Less Of Money

CLEVELAND (U)—A physician who was once an ordained minister today criticized doctors "who feel that God made them, and everybody else just happened."

Dr. Robert M. Myers of Kansas City, Mo., made the remark in urging doctors to "become more human" in dealing with patients, especially prospective mothers.

Speaking to the American Academy of General Practice, Dr. Myers said: "I have a very definite conviction that the professional doctor interested in his pocketbook instead of the patient, and thinking only of retiring as soon as possible, does far more to further the cause of state or socialized medicine than all the politicians who ever lived."

Fear is the most common complication of pregnancy and the doctor can do much to relieve it, Dr. Myers said.

"See 'Nora Brown' as a complete individual instead of seeing her only as a machine which shall soon give birth to a baby."

Economic fear "is also one of the complications of pregnancy. I feel the patient has the right to know almost exactly to the dollar what the baby is going to cost. I would far rather hear my patients say, 'Is that all you are going to charge me?' instead of, 'My doctor, I can't afford all that'."

Dr. Myers said, "If we have any reason to exist as the American Academy of General Practice, I believe it is primarily to bring the very best medical care at the very lowest possible cost to the most number of patients."

Baltimore Stirred By Unofficial Alert

BALTIMORE (U)—A part of East Baltimore had an unofficial—and brief—air raid alert last night.

Civil defense officials explained that electricians were working in a sewage pumping station where an air raid siren is located. The workers moved a wrong wire and set off the siren.

After white men found the large stone statues on Easter Island, the report was spread that "magical" must have played a part in making them. Without metal tools, how could the natives have carved such statues?
Since then, the facts have become plain enough. Explorers and scientists have gathered facts about the quarries, and have located some of the chisels which were employed.

Negro To Die In Chair For Date Slaying

FLORENCE, S. C. (AP)—A 28-year-old Negro escaped convict was sentenced yesterday to death in the electric chair for the murder of a youth whose body was found in a well with the severed head of his young girl friend.

An all-white jury was out 1 1/2 hours before finding Raymond Carney guilty. At the end of the one-day trial, State Circuit Judge Steve C. Griffith set the execution May 7.

The girl's headless body was found the following day. Two days later, Allen's body was found in a well three miles away. With it was the girl's head, wrapped in a coat.

Officers quoted Carney as saying he grew panicky while attempting to rob the couple as they sat in a parked car and shot them. Police said Carney told them he cut off the girl's head to prevent identification.

Carney was tried only for the Allen slaying. He had pleaded innocent. After the verdict, he said, "I ask only for mercy, that's all." There was no indication whether he would appeal.

Sheriff John Hanna testified Carney made his confession shortly after his capture near Johnsonville Dec. 19 because "he wanted to get right with God."

Navy Ship Showered With Radioactive Ash From Test

By WILLIAM J. WAUGH
PEARL HARBOR—The hydrogen explosion March 1 at Bikini Atoll—described by one congressional observer as so "tremendous that it was out of control"—showered radioactive ash on a U. S. Navy tanker carrying 92 crewmen.

The Navy in a cautiously worded announcement last night disclosed the incident but said "no apparent injury to crewmen exists."

The 14th Naval District here said the 4,200-ton tanker Patapsco had received "a slight and not a dangerous contamination of radioactive fallout."

It did not say how far the vessel, one of the fleet supporting the test task force, was from the scene of the explosion.

Twenty-three Japanese fishermen were burned seriously in a shower of nuclear ashes from the same blast. They said they were 80 miles away and outside the official hazard zone.

In addition, 28 American technicians and 264 Marshall Islands natives more than 100 miles from the flashpoint were exposed to milder radiation.

The Navy said the Patapsco was laid up at Pearl Harbor "for checking and complete decontamination."

"It has been established that no apparent possibility of injury to crewmen exists," the Navy said.

"All members of the crew were removed from the ship and given thorough medical examinations as an extra safety measure. This examination gave no evidence of any harmful effects from the slight exposure."

The United States has 88 cities of more than 100,000 population.

HCJC Preparing To Greet 600 Seniors

Preparations are being made for 600 high school seniors of this immediate area at Howard County Junior College.

The occasion is Senior Day at the institution Friday.

Meanwhile, approximately 50 business firms and individuals had posted prize awards to winners in the beauty and talent contests.

George McAlister, who is in charge of the Senior Day promotion, said that there had been 40 entries in the beauty contest from senior classes of the surrounding area. Another 32 have entered the talent division.

Among the latest to join in the activities is the Howard County Farm Bureau. This unit is posting a semester scholarship to the senior who turns in the best theme on "Why Farmers Should Join the Farm Bureau." The winner also will be given a hat of his (or her) choice by the bureau. Directors of the bureau will judge the themes and will announce the winner at the grand finale of the Senior Day program.

McAlister said that the Webb AFB band would play two concerts, one in front of the auditorium from 9 a.m. to 10 a.m. when visitors are registering, and the other during the noon hour when a barbecue luncheon is being served in the gymnasium.

Col. Fred M. Dean, commanding officer of the Webb AFB, is to head up a panel of judges for the day's events. With him will be Lt. D. L. Napol, Lt. A. C. Peterson, Lt. Paul Baker, and Lt. Jim P. Lancaster. The base newspaper

editor and photographer also will be present.

Following a welcome in the HCJC auditorium at 10 a.m. by Dr. W. A. Hunt, president, the contests will get under way. Finals start at 1:15 p.m. and the day ends at 2:30 p.m.

HCJC is offering scholarships plus loving cups to the top six places in each division. In addition, firms and individuals have contributed toward a prize fund. Included are:

The Record Shop, Little Shop, Swartz, Prager's, Salle Ann Shop, Reeder Agency, Men's Store, Walt's Jewelry, Sears-Roebuck, Lynn's Jewelry, Big Spring Drug, Creighton Tire Company, Mellingers', First National Bank, Jones Construction, Faye's Flowers, Tidwell Chevrolet, Mode O'Day, Fisherman's, R & R Theatres, Dible's, Chancellor Studio, Russell Johnson Barber Shop, Hardesty's Drugs, Gound's Pharmacy, Cosden Petroleum, Leonard Pharmacy, Obie Bristow, Clyde Thomas Sr., W. Service Is Held For Jones Infant

Funeral rites were held at 10 a.m. today for Rebecca Lynn Jones, infant daughter of Mr. and Mrs. Jimmie D. Jones of Snyder. The child was born in a hospital here Monday.

Dr. P. D. O'Brien officiated at the service, which was held in Nalley Chapel. Burial was in Trinity Memorial Park.

Survivors include the parents, a brother, Jimmie Dee Jones; the grandparents, Mr. and Mrs. John Whitaker and Mr. and Mrs. J. D. Jones, all of Big Spring.

Rites Are Conducted

Rites were conducted at 2 p.m. Tuesday at Sacred Heart Church for Eernastion Gonzalez, infant

son of Mr. and Mrs. Ben Gonzalez of Knott. The Rev. B. A. Wagner officiated, and burial was in the Knott Cemetery under direction of Nalley Funeral Home. In addition to the parents, four brothers and three sisters survive.

Fines, Prison Terms Given In Bank Case

HOUSTON (AP)—Heavy fines and a total of 21 years in prison today faced three men convicted in a faked bank holdup here which netted a still unrecovered \$55,731.

Federal Judge T. M. Kennerly yesterday ordered James D. Mitchell, 25, and John G. Navarro, 24, to serve nine years each and pay \$10,000 fines.

Donny N. Allen, 19, former clerk at the Houston National Bank, was sentenced to serve three years in hospital-type federal prison.

Pleas of Mitchell and Navarro for a new trial will be heard tomorrow.

Allen had pleaded guilty to charges of conspiracy and embezzlement. His confession had served as a foundation for the government's case.

Immediately after the money was taken from the downtown Houston bank, Allen told FBI agents a man with a gun had entered the basement vault and escaped.

But 10 hours later he said he turned the money over to Mitchell

in a rest room at the bank. Allen identified Navarro as the driver of the escape automobile. Allen was the government's chief witness. A jury last week convicted Mitchell and Navarro on charges of conspiracy and embezzlement.
