"COVERING EASTLAND COUNTY"

VOLUME TWENTY-SEVEN

EASTLAND, TEXAS, TUESDAY, FEBRUARY 26, 1957

No. 128

## Moore... ABOUT Eastland

By VIRGIL E. MOORE

Some discussion of what kind of mover should be purchased for use on the courthouse lawn came up Monday morning in commissioners court here. Finally County Judge John Hart came up with the suggestion that the Court just get eight head of sheep and put two on each side of the courthouse lawn. Sheriff J. B. Williams, who was sitting there at the time, quickly had a better idea than that, however. "Just let me stake my horse out there," he said.

Judge M. S. Lutz caught us by the arm in the courthouse Monday morning and scolded us about our joke about the farmer and the sheep. He suggested that our joke wasn't funny and wasn't very fair to farmers. Judge Long is something of a cattleman himself, and we think he took the joke a little personal.

Honest Injun Judge, we thought that with the rains all the farmers around this country were in a joking mood again. Everyone knows old Moore about is a friend of the farmer. Heck, we didn't vote the Benson ticket.

But just to get the record straight, may we admit that we made up that little tale. J. M. Cooper and Wayne Hudson were more surprised to hear about it than anyone else was.

And to get the farmers back on our side, here's one on the city slickers. Seems that one of the city boys (one like Judge Allen Danbey says never has seen the sun set on anything but a sidewalk) went out to see his country cousin for the first time. He was amazed the first morning when his cousin shook him out of bed before the sun even came up. Told they were going to go milk the cows, the city slicker asked, "What's the matter with these cows that they can't be milked when the sun is up?"

"They're bashful," his cousin confided.

It seems that our neighbor to the west, Abilene, is determined to keep the 42nd District Court there as it is. Of the 63 lawyers polled in that city, 45, opposed making the court a full time one by dropping two other counties which now share the court. One of those counties, Callahan, would be added to the 91st District Court under a bill introduced by Rep. Paul Brashear of Eastland County.

We regret the action of the Abilene attorneys, for Rep. Truett Lattimer of Abilene has said he would take their recommendation and oppose Brashear's bill. The vote by the attorneys does show where their hearts are. At present the 42nd District Court has an overload of cases. It would appear that backlogs are not viewed by attorneys with much alarm.

## Ray Williams Named Assistant Veterans Officer

Commissioner R. L. (Bob) Carter of Rising Star, who has been ill since Christmas, took his place for the first time Monday when the Eastland County commissioners court met.

Carter's first vote was one which broke a two-two court deadlock. Following a motion by Commissioner J. E. McCannies of Cisco, Carter voted with McCannies to name Ray Williams of Ranger as assistant veterans service officer in Ranger. J. B. (Tip) Arthur, Ranger and Eastland commissioner, and B. M. Bennett of Gorman voted against the motion.

While Carter was ill and absent from court meetings, County Judge John Hart had voted with McCannies to make a two-two deadlock when Arthur made a motion to give the job to A. H. Powell. Powell had been appointed by the court last year to fill out an unexpired term of office.

## WITH 10 TO 2 VOTE

# Murder Trial Ends As Jury Deadlocks

A weary jury in 91st District Court in Eastland Saturday afternoon reported they were helplessly deadlocked on a decision in the George Crawford murder with malice trial and were dismissed at 2:25 p.m.

Judge Turner Collier dismissed the jury and declared a mistrial after the jury had deliberated some 14 hours without agreement. Crawford faced a possible death penalty in the case which lasted six days. He is charged with the murder of his wife, Lilly Pearl, last Sept. 19.

It is generally believed that the jury was split 10 to 2, the majority voting to find Crawford guilty of murder without malice and give him a five year sentence. The two who refused to go along with the majority decision held out for conviction on a murder with malice charge. It is generally believed the two first voted in favor of a 99 year sentence, and never got below 25 years.

Crawford has been held without bond since the time of the shooting. Defense Attorney Earl Conner Jr. said Saturday that he did not know if he would seek to have him freed on bond yet or not.

Despite the long wait for a verdict there was still a large crowd in the courtroom when the final ruling was made. Crawford seemed to be nervous as Jury Foreman George Hollyfield of Gorman rose to report to the Court. The jury had just finished hearing portions of the testimony re-read to them and it appeared they had at last agreed on a verdict. Crawford seemed relieved when Hollyfield said the jury was still "hopelessly deadlocked" and urged the Court to dismiss them.

District Attorney Joe Nuesse said he would attempt to bring Crawford to trial again as soon as possible.

## Weight Problem Confronts Many Exes of E.H.S.

How to regain that school girl figure? That's the problem a lot of ex-students of Eastland High School who plan to attend the EHS homecoming here June 7-8-9 are facing.

At least that's what a letter from Jane (Rotramel) Miller of Dallas would indicate.

Ira Mae Coleman, class agent for 1929, received the following letter from her recently: "My sister, Irene Rotramel, is now Mrs. J. H. Nottingham. They own the Hollywood Cafe in Longview. My brother, Carl Rotramel, owns Builder's Supply Co. of Gladewater.

"My husband, Edgar, and I played bridge with some favorite Eastland High ex-students last Saturday night—Carl and Joyce Foster. I didn't play my best game. (Continued on Page 2)

## Oddfellows Here Help Organize Lodge In Cisco

Eastland Oddfellows have helped organize a lodge in Cisco. The lodge there was organized last Thursday and will be instituted Wednesday night. Ramson Amos, deputy of the Grand Lodge, will be presiding. The Cisco lodge was organized in four days.

The new lodge will meet in the WOW Hall. L. G. Crawford Jr., Eastland Lodge noble grand, has assisted in organizing the new lodge. The local lodge will help in referring degrees.

## Thursday Is Fred's Last Day On His Route After 28 Years

Eastland honored Fred Davenport Sunday on the occasion of his retirement from the Post Office here after 36 years service as a rural mail carrier.

Extra honor came to Fred when the Abilene Reporter-News felt the occasion justified a front page news story and a three column picture.

Here is the story written by Leo Lambert, Reporter-News reporter. "Folks along Rural Route One will miss Fred. You see, he won't be delivering their mail but a few more days.

"Thirty-six years is a long time delivering mail to the same mail boxes and seeing the same familiar, friendly faces. But Fred, as his patrons call him, is retiring.

"More than 125 of his friends, including postal officials from as far away as Fort Worth, turned out here Sunday afternoon to honor William Fred Davenport and his wife.

"The 70-year-old rural carrier is quitting the business Thursday after 36 years of mail delivery on Rural Route One and a total of 38 years of postal service—all in Eastland.

The white-haired, mild-mannered Fred is known throughout this area, having lived here since Nov. 1, 1896. He moved from McGregor, near Waco, and married an Eastland girl, the former Mary Johnson.

"The Davenports were honored Sunday afternoon in the First Methodist Church. Marene Johnson, postmaster here, presided. "Besides Fred's patrons, there were postal officials from Fort Worth, Cisco, Breckenridge, De-

CONVENTION SPEAKERS—Dr. J. L. Burford, left, and Dr. Gaston Foote, right, are to be two of many speakers at the 16th annual convention of the Oilbelt District 7 State Teachers Association in Vernon March 8-9. A number of local teachers and school administrators are expected to attend the conference.

## Eastland County Teachers Expected To Attend TSTA Meeting In Vernon

Approximately 2000 teachers and administrators from Eastland County and 22 other West Central Texas counties are expected to gather in Vernon March 8-9 for the 16th annual convention of Oilbelt District 7, Texas State Teachers Association, a local spokesman said Tuesday.

Visiting educators are in for a busy time at the two-day convention, according to President J. W. Hamilton, superintendent of Seymour Public Schools. When the teachers are not attending one of the three general sessions, they will have an opportunity to attend numerous sectional meetings, breakfasts, luncheons, and specialized clinics.

Officers serving with Hamilton and making plans for the meeting are R. Milton Hix of Abilene, past president; Louise Lee Holder of Vernon, vice-president; H. A. Hefner of Graham, secretary; Johnnie Mae Long of Wichita Falls, treasurer; and Frank Elter of Abilene, membership chairman.

Counties in the district other than Eastland County are Archer, Baylor, Callahan, Clay, Fisher, Foard, Hardeman, Haskell, Jack, Jones, Knox, Montague, Nolan, Seely.

Snackford, Stevens, Stonewall, Taylor, Throckmorton, Wichita, Wilbarger and Young.

Dr. J. L. Burford, superintendent of schools, Mount Vernon, Illinois, and immediate past president of the National Educators

Installation Loans Custom Made For Each Customer EASTLAND NATIONAL BANK Member F.D.I.C.

## Leon, Gorman, Ranger and Olden there.

"Homer J. Dennis of Ft. Worth, district operations manager, presented Mr. and Mrs. Bennett, presented her postman with a cake. Mrs. Davenport also received a cake cover and her husband a 'peace pipe' and an engraved wrist watch from co-workers at the post office.

"Davenport, along with three other Eastland postal workers, received safe driving awards at the program. Davenport's award was for seven years without an accident. Others receiving five year and two year awards were C. M. Murphy, rural carrier; Marcus O'Dell, clerk; and W. Curtis Young sub-clerk-carrier.

"Farmers along the rural route gave Davenport a huge skillet full of fresh eggs in memory of the many gifts they exchanged during his long service.

"Entertainment for the program was provided by Mr. and Mrs. Al Lotspeich. He is minister of music at the church and dean of music at Ranger Junior College. She is church organist.

"Davenport, who lives at 201 South Ostrom St. here, was born in 1887 in McGregor. He taught school 10 years prior to entering the postal service here. He taught in Eastland County schools. He worked in the office here two years before going on the route.

"Mr. and Mrs. Davenport have four children. They are Fred Jr., of Wyandotte, Mich., Tom of West Englewood, N. J., Mrs. K. K. McElroy of Corpus Christi and Joe of Denton. They have eight grandchildren.

"Bennett recalled how Davenport brought us good news and bad news during World War II and did what he could to spread

the word along the route concerning six service men from that particular route.

"Patricia Bennett, daughter of Mr. and Mrs. Bennett, presented her postman with a cake. Mrs. Davenport also received a cake cover and her husband a 'peace pipe' and an engraved wrist watch from co-workers at the post office.

"Davenport, along with three other Eastland postal workers, received safe driving awards at the program. Davenport's award was for seven years without an accident. Others receiving five year and two year awards were C. M. Murphy, rural carrier; Marcus O'Dell, clerk; and W. Curtis Young sub-clerk-carrier.

"Farmers along the rural route gave Davenport a huge skillet full of fresh eggs in memory of the many gifts they exchanged during his long service.

# County Is Green After Good Rain

## Farm Conditions In Area Best In Years

"Agriculture conditions in Eastland County are better today than they have been in more than five years," a leading farmer said this week.

His statement was brought about by the fact that during the first 56 days of the year it has rained 17 times. Actually the rainfall hasn't been much as rain used to go—raining all the way from a trace to 67, but around here that's rain these days. The total moisture for the year in Eastland is 2.38. Two inches of that amount has fallen so far this month.

Actually the county has just about as much rain in the same length of time last year, but as one farmer put it, "We haven't let a drop of this year's rain get away from us."

Moisture in 1957 has all been the slow falling kind, and the hungry soil soaked it up as fast as it came down. The latest moisture here fell Sunday when 1.3 was reported. That was the tenth rainy day during the first 25 days of the year.

(Continued on Page 2)

## Eastland's Ten Percent Good Fire Rate Kept

Eastland will keep a good fire rating of 10 percent during the coming year, Fire Chief Billy Jack Johnson revealed today.

Johnson said the good fire rating will be kept since the local loss ratio remained in the 38 to 45 percent of premiums ratio. Premiums paid here in the year were \$37,929. The total insured loss was \$16,151.

The rating gives fire insurance purchasers here a savings of 10 percent. Ranger and Cisco are the only two penalized 10 percent because of heavy losses in the past five years, so their rates are actually 20 percent above the Eastland rate.

## Fourteen County Youths Share In Kincaid Program

Fourteen Eastland County youths will share in the 1957 Kincaid 4-H Club turkey program this year, County Agent J. M. Cooper has revealed.

A total of 2000 Thompson big breasted white turkey eggs were equally divided among the winners who wrote essays on "Why Turkey Growing Is Important in Eastland County."

Winners have been asked to get their brooder houses in good shape and get their feed on hand.

C. L. Boase, assistant county agent, will be at the Kincaid Feed and Hatchery store Friday to help distribute the poult.

Winners in the contest were Louise and Jerry Yancey, children of J. M. Yancey of Route 1, Ranger; Kathryn Caraway, daughter of J. C. Caraway of Route 2, Gorman; Gene Zander, son of C. L. Snider of Route 1, Gorman; Roland Ziehr, son of Frank Ziehr, Route 2, Cisco; Larry Duncin, son of Obie Duncin, Route 1, Eastland; Loresta Love, daughter of John Love, Route 1, Ranger; Roger and Ray Woodall, sons of Norman Woodall, Route 1, DeLeon; Jerry and Larry Anderson, sons of J. B. Anderson, Route 3, Gorman; Kurt Clark, son of Gordon Clark, Route 2, Eastland; Joel Ray Graham, son of J. D. Graham, Star Route, Cisco; and Jimmy Hart, son of James A. Hart, Gorman.

Six of the winners participated in the Kincaid program in 1956.

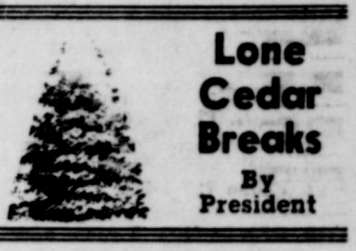

## Texas U. Exes In County Set Meeting Monday

Ex-students of the University of Texas in the Oil Belt area of Eastland and adjoining counties will meet on Monday, March 4, at 7:30 p.m. in the Ranger Junior College Cafeteria.

Invitations have gone out to Eastland, Cisco, Breckenridge, Strawn, Gorman, Rising Star, and adjoining communities and it is expected that approximately 200 Texas exes together with their families and friends, will be in attendance.

Since before the turn of the century, former students of the University throughout the world have gathered on or about March 2 for a renewal of former campus friendships, and to get first hand news from the campus. During the coming weekend, groups of ex-students in Canada, Mexico, Central and South America, Japan,

(Continued on Page 2)

## Lone Cedar Breaks By President

What's The Cost? How many times do you hear this expression every day?

Its only natural that you, as a prospective member of the Lone Cedar Country Club, would also ask this same question.

Well, let's look at it this way: Have you considered building a cabin on Lake Leon? Or, any other lake? Our estimate is that if you have considered it, your cost ranged all the way from at least \$500 to \$5000, depending upon what you intended putting into the cabin, of course.

Well, lend an ear, cousin... here's the way to save some precious money, and have a better set up, too.

The initial cost of joining the Lone Cedar Country Club is only \$150. That's all, just \$150.

After that, you receive a monthly bill for dues, and club services. Monthly dues will be somewhere in the vicinity of \$6 per month. At least, that is what is presently contemplated.

A quick check with the pencil and paper will show that at this rate, you could pay for a total 833 months, or about 70 years, before expending the amount in dues that it would cost to build a \$5,000 cabin.

By the way... ask the man who has built a cabin.

## Not Much Fishing

Rains over the weekend knocked a hole into fishing activities as lake camps reported fishermen few and far between as compared to the drier area that tried to get on the lake a week ago. All fishing was rained out Sunday morning, and by afternoon fishermen had all gone somewhere else, it was noted.

# Quarterly Breakfast Is Planned by Local C-C

Eastland Chamber of Commerce directors have announced plans to hold a membership breakfast quarterly.

The announcement came following a recent meeting of the Board of Directors. In January a "test meeting" was held and it met with great success. The next meeting will be held in April.

At the recent meeting, held in the White Elephant cafe, Jim Wyatt, a former Eastland resident who is with the Industrial Development Department of Texas Electric Service Co. in Fort Worth, spoke to members. He said that prospects for future development of Eastland—industrial-wise—are great. He pointed out a few things that have happened here since he left Eastland 10 years ago.

Saying that it is easier for one who has been gone and then returned to see improvements than it is for folks who have been here all the time, Wyatt pointed out Highway 80, a four lane divided highway which crosses the entire county now makes access to the city easier than ever before. He told of the growth of Hollywood-Maxwell company here and of Horton's Ceramics. He declared that the haydite plant here has doubled its capacity since he left and pointed to the growth of the Cornelius printing firm. Lake Leon, "one of Texas' finest restaurants (White Elephant) and excellent railroad service are years, he told his listeners.

Wyatt also pointed out the advantage of the city's location. He declared that the Dallas - Fort Worth area to the east and the Abilene area to the west "give Eastland a potential marketing place" which many a city would envy.

## Take Up For Your Preacher' Rotarians Told

"Take up for your preacher," Dr. Harold Basden, pastor of the Gaston Avenue Baptist Church in Dallas, urged Eastland Rotarians Monday when he spoke to the club at their regular noonday luncheon held in the White Elephant restaurant.

Dr. Basden, who is conducting the Spring revival at the First Baptist Church, here was introduced by Rev. Harvey Kimbler, pastor of the local church. He told Rotarians that too often churchmen criticized their preacher when they should be taking up for him.

He said a preacher's most important task is preaching. Saying he considered preaching a divine calling, he tried to impress upon Rotarians the vast amount of study which must precede a sermon. For every half hour of preaching he does, the speaker emphasized, he studies some 10 hours.

"In all likelihood your preacher has more education than anyone else in your town," Dr. Basden said. He explained that the average preacher goes to college eight years, and that to get a doctorate degree it takes nine years.

Pastoral ministry, which the speaker described as "serving the people" was ranked as the second most important duty of a minister and administrative work was listed third.

## Grazing Acreage In Reserve Now Is Permissible

Regulations have been changed to permit grazing of acreage signed up in 1957 in the conservation reserve, Emmett Powell, office manager of the County Agricultural Stabilization and Conservation said today.

"This regulation permits grazing until April 15, or until the beginning of establishment of cover crop whichever is earlier, and applies only to the land which has been placed in five year contract. It does not apply to cotton or wheat acreage reserve contracts in 1957 nor to conservation reserve contracts beginning in 1956," Powell stated.

### Moore About-

(Continued from Page 1)  
after all, they admit the thing was fiction.

—Vem—  
Boy, did we like that article we read in the Reader's Digest. The story tells how "wives can help husbands stay alive." Now we are for things like that.

The writer suggests that wives help their husbands relax. "Make him happy to be a good father and husband," it says. "If he seems more happy at work than at home, find out why and try to do something about it. If your husband is growing away from you, broaden your interests and match his strides. Encourage swimming . . . golf in moderations . . . but don't expect a tired man to shovel snow."

Ladies, that is good advice. We are for it 100 percent, and starting right now, at this very moment, we are going to start helping our wife help us to live longer.

### Farm Conditions-

(Continued from Page 1)  
days of this month.

Although no actual tests have been made, farmers in the area in the main report deep penetrations of the moisture. Cool days and a lack of hot winds have aided almost as much as the moisture itself, one Eastland County farmer pointed out.

### Weight-

(Continued from Page 1)  
however, as I was trying to look at a 1926 copy of Hi-Life while I played.

"I started dieting as soon as I heard about the homecoming, but at the rate I am losing weight four months is not long enough to get the job done.

"Not only am I excited about the Homecoming, but all of my friends are offering suggestions about what I should wear and how I can look younger. But, after all, with three grandchildren I think I should be forgiven if I look a little bit matronly. As a matter of fact I look a lot that way.

"It is wonderful of you to do the job you are doing. We appreciate it."

### Utilities Expanding

The nation's utilities will spend an average of \$19 million every working day this year for expansion of plant and facilities, reports Electrical World, McGraw-Hill publication. The figure was set in the 1957 utility budget.

### Fumigate Garden Soil to Control Root Knot Disease

COLLEGE STATION — Root knot disease can be controlled in garden soils by fumigation. Extension Plant Pathologist Dr. Harlan E. Smith says the fumigant should be applied from 10 days to 2 weeks before planting and soil moisture should be adequate for germinating seed. More moisture is required in sandy soils.

Before fumigating, remove from the area to be treated all plant trash and infested roots. Prepare a good seed bed as if for planting.

### Eastland Co.-

(Continued from Page 1)  
Vernon will preside.

Fourteen luncheons will be held Friday, Hamilton reported. Luncheon meetings scheduled are administrators, art, business education, elementary teachers, English, health and physical education, homemaking, industrial arts and vocational trades, library, mathematics, music, Texas Council for exceptional children, personnel and guidance, and vocational agriculture.

Sectional meetings will begin Friday at 2 p.m. Sections to meet include audio-visual, geography, safety educational, school nurses, science, social science, speech and dramatics, and exceptional children.

Three Friday dinner meetings are scheduled at 5:30. These include the Classroom Teachers Association dinner, the Elementary Principals and Supervisors dinner, and the Secondary Principals dinner.

A reception for visiting teachers, sponsored by the Vernon Classroom Teachers Association, will be held immediately after the second general session.

The only luncheon meeting scheduled Saturday is the Science Luncheon, with Bill McBroom, geologist for Waggoner Estate, as speaker.

Convention speakers for the sectional meetings include Dr. Ernest Tiemann, University of Texas; Miss Flo Cullin, state coordinator, Denton; Miss Allene Baughn, Carrigan Elementary School, Wichita Falls, Miss Mary K. Roberts, Crockett Elementary School, Wichita Falls; Mrs. Ethel Parker, Wichita Falls; Dr. J. E. Penry, director, Communicable Disease Division, State Health Department.

Also, Dr. Jennie Louise Hindman, chairman of the Department of Speech and Drama, Midwestern University; Mrs. Martha Moore, director of Cerebral Palsy Center, Wichita Falls; Mrs. Franke, principal, School of Listening Eyes, Wichita Falls; and Mrs. Oeva Gunn, special education classroom teacher, San Jacinto School, Wichita Falls.

Various musical groups from Vernon will furnish entertainment at the general sessions, breakfasts, luncheons, and other meetings.

Use hoe or plow to open furrows 6 to 8 inches deep and 12 inches apart. Apply the fumigant from a fruit jar. Two holes should be punched in the jar lid, one to let in air and the other for distributing the fumigant. Make the open furrow and dribbling the fumigant into the bottom of the furrow. Smith advises covering the furrow immediately to prevent loss of the fumigant gases.

He says a pint of the material should cover about 150 feet of row space. It is a good idea, he adds, to test first with water in the jar to determine how fast to walk in order to make the proper distribution. He says Garden Dowfume,

### Texas-

(Continued from Page 1)  
India, and the far-flung reaches of Asia and Africa, not to mention all of continental Europe, will get together and re-live their former campus days on the "40 acres."

According to R. H. Peacock of Ranger, arrangements chairman for the program, plans have been made to have as guest speaker, a prominent member of the faculty from Austin. Reservations may be made not later than Monday noon by contacting Mrs. Price Ashton of the Ranger Junior College. Tickets for Eastland Exes may be procured either at the Telegram office or from Jack Frost.

D-D, Soilfume 60-40, Iscobrome 40 and Bromofume 40 are all effective as garden fumigants. Severe injury may result if the fumigant application is made closer than two feet to growing plant roots. Keep the material out of the eyes and mouth and should it be accidentally spilled on the hands or clothing, remove it immediately with soap and water or kerosene, cautions Smith.

Since such warm weather crops as tomatoes, peas, cucumbers and okra are more susceptible to root knot damage, the specialist suggests fumigating the rows where they will be planted. Finally, he adds, don't mix treated and untreated soil and use disease-free transplants.

**THE LAST WORD**

The Tenth Amendment says that all powers not given to the United States government shall belong to the states or to the people. In any showdown, one court—the Supreme Court—says whether the federal or the state governments (or nobody) can do certain things. Hence the case of the sturdy Captain Gideon Olmstead, the first man who tested this court power. And what a time he had!

In 1778 the British ship Active captured Captain Olmstead's fishing boat upon the open sea and took his three-man crew aboard to help sail a war cargo to New York. But Olmstead and his three men drove the British below deck. While Olmstead headed for New Jersey his men kept up a battle with the crew below. After two days the American brig Convention dove to and took over and its

captain, Thomas Houston, claimed the Active as a prize since there was still fighting going on. Olmstead protested, but the brig brought in the prize to Philadelphia.

Under the Articles of Confederation states like Pennsylvania had set up admiralty courts to decide claims arising at sea. The Philadelphia court gave Olmstead only one-fourth the prize.

So Olmstead appealed to the committee of the Continental Congress named to review all cases of capture at sea. It decided for Captain Olmstead. The Pennsylvania court at once denied the committee's right to upset its jury's verdict.

Meanwhile, he had given up the Articles of Confederation and adopted the Constitution which lodged admiralty powers in the federal government.

For thirty-one hard-fought years the case shuttled between state and federal courts. Everybody got into the act—the governor, the legislature, Congress, and even President Madison.

In 1809 the U. S. Supreme Court upheld a lower court which had decided that the Committee of Congress was right. This was a victory for Olmstead.

In this showdown Pennsylvania called out her troops. Rebellion

**New Cars Allow More Useful Garage Space**

The average 1957 car may actually provide more useful garage space than in earlier years, rather than less, as has been claimed by some individuals, according to George W. Walker, vice president

and director of styling for Ford Motor Company. "Many people seem to have lost sight of the fact that a garage is designed principally to house an automobile," Mr. Walker said. "Instead, they have made their a haven for all sorts of odds and ends. It may well be that they need only move their youngsters' bicycles or the ladder or firewood they have piled against the back wall in order to accommodate the largest of the 1957 models."

As a matter of fact, he added, the lowness of the modern American automobile makes it possible in many instances to install ceiling racks in the garage for off-season storage of such lightweight items as hoses, screens and sleds. This same lowness, he said, has helped create an illusion of both added length and width.

Concerning the length of the average car, the Ford Motor Co. styling head pointed out that the average 1957 models in the low and high-price ranges are only four or five inches longer than their 1948 counterparts, while current medium-price cars are in some cases even shorter than they were in 1948.

Except for those garages attached to small homes built in the 1920's, he said, the minimum interior length has long been 20 feet, and this provides for a 6-inch leeway in front and a full foot in the rear of a car 18 feet 6 inches in length.

**CHRYSLER WINS FOURTH CONSECUTIVE CHAMPIONSHIP**

A Chrysler 300-C driven by Robert "Red" Byron. The 300-C traveled 138,996 mph on the south run of W. Palm Beach, Florida, streaks past the finish and 129,560 mph on the north run for an average flag at Daytona Beach to win Chrysler's fourth consecutive NASCAR National Speed Trial Championship and the coveted McCall Trophy for the fastest flying mile set by any car in any class. Detroit housewife and mother of three children.

for insurance or otherwise. In addition to making errors in the deductions claimed on their tax returns, taxpayers make the following errors:

- (1) Husband and/or wife fail to sign a joint return. Both must sign.
- (2) Failing to attach a Form W-2.
- (3) Failing to add and subtract right.
- (4) Failing to enclose their check with the return.
- (5) Claiming they have paid four quarters on estimated tax when they have only paid three quarters and are filing the tax return instead of paying the fourth quarter on the estimated tax.

Be careful in the preparation of your tax return. In the next article, we will discuss errors in claiming child care expenses.

**INCOME TAX AIDS**

One of a Series of 12 Articles Prepared by The Internal Revenue Service

This is the seventh in a series of 12 articles prepared by the Internal Revenue Service to assist taxpayers in avoiding tax errors. Thousands of taxpayers submit tax returns containing questionable items which must be audited by the Internal Revenue Service. Thousands of tax returns claiming a tax refund are selected for "Pre-Refund Audits" each year. The Internal Revenue Service is required

by law to audit the returns containing questionable items before they make the tax refund. In some cases this delays the tax refunds until after an audit made in September just before the September 30th deadline.

Careful preparation of your tax return after a careful study of the tax instructions will help you to prepare your return correct.

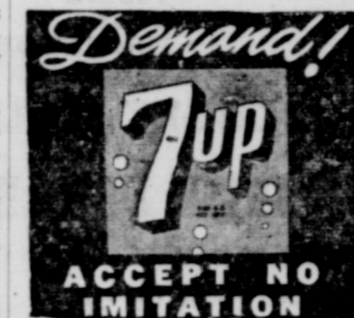

Today we are presenting the five most common reasons for Internal Revenue Service having to adjust the deductions claimed for MEDICAL EXPENSES:

- (1) Expenses for medicines and drugs are includible as medical expense only to the extent they exceed one percent of adjusted gross income. Medical expenses paid by and for the taxpayer, taxpayer's spouse, and dependents and for which they are not compensated for by insurance or otherwise are deductible but the deduction is limited to the amount that exceeds 3 per cent of adjusted gross income.
- (2) Premiums on hospitalization insurance and health and accident insurance providing for hospitalization is deductible only as a part of the medical expense deduction.
- (3) Premiums on health and accident insurance providing for reimbursement for loss of earnings

are not medical expenses and are not deductible as such.

(4) Deductions for medical expenses are limited strictly to expenses incurred "primarily for the prevention or alleviation of a physical or mental defect or illness."

(5) The total medical expense for the year must be reduced by the amount of any reimbursement

*When you give your heart to a boy—*

**You're in for some trouble**—when your heart belongs to a boy. Boys don't like soap. Boys scuff up their shoes. Boys make too much noise when they're home—and when they go off to school, leave a house that is far too still. You're in for a world of happiness, too—when your heart belongs to a boy. The kind of happiness that crases tears, shuts out loneliness, rubs away all kinds of aches and pains. Small wonder mothers love their little boys so very, very much.

One of these days your boy will be starting off to school in his shiny new shoes and fresh clean shirt. And he'll start learning all the things he needs to know to make him the kind of man you want him to grow up to be. One of the most important lessons for your son to learn is the meaning of thrift and the value of a regular savings program. And that's what the U. S. Treasury's School Savings Program will teach him. By the purchase of 10¢ and 25¢ Savings

Stamps in their schools, children are investing in U. S. Savings Bonds on the installment plan. And, as you know, Savings Bonds are one of the best investments that any of us can make. Is your child's school participating in this important program? Why not speak to your principal, school superintendent or P.T.A. group about it? Encourage your child to buy Savings Stamps regularly. Start the U. S. School Savings Program in your town today!

U. S. SAVINGS STAMPS POINT THE WAY YOU WANT YOUR CHILD TO GROW!

### Thursday Afternoon Club Enjoys 'A Melting Pot Luncheon' Thursday

The Thursday Afternoon Club enjoyed a special meeting Thursday when they were entertained in the home of Mr. and Mrs. C. V. Hoffman with a covered dish luncheon.

The house was attractively decorated with cut flowers and each table carried out the flower motif in colors and place cards. The program subject for the day

was "A Melting Pot Luncheon" and Mrs. Ben Hamner presided as leader. As roll call for the meeting, each member cleverly told of her mixed ancestry. Spiced with Mrs. Hamner's timely comments, this proved an entertaining part of the program. Several members then told of the contributions of various other nationalities to our American civilization, which is in truth a result of the great melting pot of democracy.

In the business meeting, presided over by Mrs. Frank Sparks, reports from officers and committees were read and adopted. A parliamentary drill was presented by Mrs. A. L. Murrell, club parliamentarian.

The president appointed Mrs. Frank Lovett and Mrs. Cyrus Frost to represent the club in a meeting to make plans for a Texas Mobile Health unit to be brought to Eastland for free chest x-rays for the people of the county.

The president announced plans for the local club's attendance at the Sixth District Convention to be held in Abilene on March 13, 14 and 15. Mrs. Harold White and Mrs. W. S. Poe, two new members, were welcomed into the club.

Other members present at the luncheon were Mmes. Frank Castleberry, Fred Davenport, W. P. Leslie, Joseph Perkins, B. W. Patterson, Cyrus Frost, Sr., Grady Pipkin, Earl Conner, Sr., Iral Inzer, Robert Perkins, Clyde Young, R. E. Sikes, Turner Collie, D. L. Houle, Tom Wilson.

M. A. Treadwell, Hubert Jones, A. L. Murrell, Ben Hamner, W. A. Martin, Frank Crowell, Frank Lovett, E. R. Townsen, James Horton, Frank Sayre, Frank Sparks, Milburn Long and C. W. Hoffman.

#### HEARS VIENNA BOYS

Mrs. A. F. Taylor went to Brownwood Tuesday night to hear a concert by the Vienna Choir Boys. The boys, from the Konvikt School, range in ages between 9 to fourteen and have appeared in nearly every country on the globe.

### Fashion Wears Spring Cape

Capotes wrap a portion of the fashion picture for springtime. Full cape, left, and cape shape, right, are typical examples of the style.

DESIGNERS are readying capes and cape shapes for milady to wear this spring. At left, three-piece wool ensemble in navy and red is inspired by the traditional maiador's costume. Slim-skirted sheath is topped by a brief, fitted bolero jacket in red and full-length cape of the same material completes the costume. At right, a beige Italian silk linen costume features a short-cut cape. It top: a belted sheath with square neckline and hip-pegged skirt.

### Scalerunners Hear Story of Vienna Choir

A musical program was presented Wednesday at 3:15 p.m. at the Scalerunners Junior Music Club meeting in the home of Mr. and Mrs. J. H. Lee, 1707 West Commerce with their daughter, Lela, as hostess.

"Texas, Our Texas" was sung by the group accompanied by Patricia Ann Liles at the piano. The club collect was repeated by all

present.

Following a short business session presided over by the president, Jeannie Wright, Terry Treadwell played "Garden in Spring Time" and sang "I Would Be True" accompanied by his mother, Mrs. Y. A. Treadwell.

Other musical numbers included "Mr. and Mrs. Wren" by Karen Green, "Little Concert Waltz" by Denna Kay Ford, "The Scooter" by Lela Lee and "Dancing" by Jeannie Wright.

Mrs. A. F. Taylor, teacher and counselor, gave the history of the Vienna Choir Boys whom she heard in concert at Brownwood February 19.

"To A Wild Rose" by MacDowell, was played by Patricia Ann Liles and Marilyn Huckabay played "Nodding Ferns on the River Banks". "Wood Nymphs Harp" was presented by Janice Dendy, "Menuet" by Bach by Marsha Treadwell and "Climbing" by Mary Ann Manning.

Riddles were told during the social hour while members enjoyed refreshments of Dr. Peppers and cookies, served by the hostesses. Attending were Sarah Earnest, Lila Lane Middleton, Susan Coleman, Carolyn Keg, Marcia

### Gorman Gatherings

By Mrs. R. E. Boucher

Mrs. C. H. McCroan of Dallas is visiting in the home of her sister, Mrs. J. N. Ellison this week.

Mrs. M. A. Pennington and Mauveren were home over the week end.

Mr. and Mrs. Paul Jones and family of Houston are the guests in the home of his mother, Mrs. Mae Jones.

Jackie Don Wheeler of North Texas State College in Denton was home over the week end.

Petty, Kianne Petty, Georgia Bess Faircloth, Deborah Earnest, Patricia Ann Liles, Donna Kay Ford, Mary Ann Manning, Karen Green, Jeannie Wright, Terry Treadwell, Marsha Treadwell, Marilyn Huckabay, Janice Dendy, Mrs. Taylor, Mrs. Treadwell and the hostesses.

Mr. and Mrs. Ben Nix and daughter were guests in the home of Mr. and Mrs. Marvin Nix over the week end.

Mrs. Preston Lightfoot of Sweetwater visited in the home of her parents, Mr. and Mrs. T. G. Gray.

Mr. and Mrs. R. C. Boswell spent Sunday with Mr. and Mrs. Wylie Yeager in DeLeon.

Mr. and Mrs. Lon McDonald were visiting in Bangs this past week. Mrs. McDonald's sister is critically ill there.

## You'll save hours of ironing time with an ELECTRIC Clothes Dryer

Many things come out of your dryer so fluffy-smooth, they need only folding before you put them away

For others, you just set the controls for damp dry, just right for easier ironing. No sprinkling needed

Gentle electric clothes drying shortens ironing time because electrically-dried clothes have fewer wrinkles and no clothespin "ears" to iron out. Many fabrics such as towels, corduroys and knit goods come from your Electric Dryer so wrinkle-free they require no ironing at all. And, of course, you free yourself from monotonous clothesline drudgery when you dry clothes electrically. Your time-saving, work-saving Electric Dryer is economical, too, because it protects clothes while it dries them.

See Your Electric Appliance Dealer!

IT'S LIKE TWO ENGINES IN ONE!

# Announcing OLDSMOBILE'S NEW

# J

# ROCKET!

SUPER 88 HOLIDAY COUPE

It's the most exciting engine development since the first Rocket was launched!

Engineers have dreamed for years of an engine that combined exceptional horsepower and torque potential with outstanding fuel economy in normal operation.

And today, Olds has it in the new J-2 Rocket. You'll find it's like two engines under the hood!

In your day-to-day driving, you enjoy the smooth, alert action of the Rocket—with

the fuel economy of dual-jet carburetion and a 10-to-1 compression ratio. But to meet the exceptional driving situation, just open the accelerator beyond the 3/4 point and two additional carburetors automatically jet into action. There's an instant boost in torque and power. You'll appreciate the immediate response as another Olds contribution to your pleasure and safety at the wheel!

**TRIPLE-ACTION RESERVE POWER!** Simply push the accelerator beyond the 3/4 mark and you "call out the reserves"! The J-2 Rocket then operates on three dual carburetors! J-2 is available now at a modest extra cost. Try it!

\*277 h.p. Rocket 1-400 Engine standard on all models. J-2 Rocket Engine, with 300 h.p., and special Rocket Engine, with up to 312 h.p., optional at extra cost.

### Patsy Rosser, Gene Ready Exchange Vows

Miss Patsy Rosser, daughter of Mrs. Mae Rosser of Eastland be-

came the bride of Gene Ready, son of Mr. and Mrs. Lane Ready of Ranger, February 16 in a double ring ceremony read in the chapel of the First Methodist Church of Clovis, New Mexico. The couple was attended by Mr. and Mrs. R. M. Merriman, aunt and uncle of the groom. The bride wore a navy suit with matching accessories.

### Mr. and Mrs. Ready will make their home in Clovis where Mr. Ready is employed by the South-west Investment Co.

### Pattersons Feted At Open House While Visiting

Mr. and Mrs. Thomas Patterson, newlyweds, of Kansas City, Mo., who have been visiting with his parents, Mr. and Mrs. Guy Patterson returned to their home Saturday. While here they were honored with open house at the Patterson's new home in Hillcrest, Monday evening of last week. About seventy five friends called to wish the young couple happiness and to meet the new Mrs. Patterson who is the former Miss Joyce Perigo daughter of Mr. and Mrs. Glenn Cove of Redfield, Iowa.

Mrs. Jack Cox, the former Miss Barbara Patterson, and her husband of Breckenridge were members of the house party, also Miss Doris Nabers of Ranger Junior College, niece of Mrs. Patterson was a house party member. Others were Mmes. Hubert Toombs, Harold Durhan, W. E. Irashier, Ed Layton, Johnny Hart, D. E. Frazer, Don Parker, Carl Johnson, Misses Gladys Green, Charlotte Vaught and Anne Toombs. Floral arrangements, white and pink, used through out the house were compliments of friends of the host and hostess.

### TALK TO SONS IN WASHINGTON

Mr. and Mrs. Joe Stephen received a call from Washington, D. C. Saturday from their sons, Stan and Rod telling them of their respective assignments. Ensign Stephen and wife will spend the week-end in Eastland enroute to San Diego, California, where Stephen has been assigned to a district legal office. Lt. Rodney Stephen will arrive home March 18th for a few days before leaving for Okinawa, where he will be stationed.

### Friends Honor Newly Weds At Party Thursday

A group of friends hosted a bridal shower Thursday evening of last week, honoring Mr. and Mrs. Thomas Patterson in the home of Mr. and Mrs. Hubert Toombs.

Mrs. Toombs greeted guests at the door and presented each to the honoree, and to Mrs. Guy Patterson, mother of the bridegroom and to Mrs. Jack Cox, his sister. About sixty guests called or sent gifts. Other hostesses were Mmes. Johnny Hart, J. H. Rushing, Don Parker and W. E. Erashier.

The refreshment table, laid with a ruffled net cloth over pink linen was centered with pink stock and carnations contained in a bridal arch, complete with miniature bride and groom. Coffee, white cake squares, toasted nuts, lime frosted punch and mints were served by Mmes. Parker and Erashier. Assisting were Misses Ann Toombs and Cora Mendieta.

Mrs. Hart was in charge of the register and Mmes. Harold Durhan, Rushing, and Carl Johnson were in the sun room, where the many beautiful gifts were displayed. The young couple who have been guests here for the past week returned to their home in Kansas City, Mo. Saturday. Patterson, who has just completed his service in the air force will be employed with the Civil Aeronautics Administration. Mrs. Patterson is an employee of the Hallmark Card Company.

### Hospital News

Patients in the Eastland Memorial Hospital are:

- Harvey Lewis, surgical
  - Mrs. Ida Vermillion, medical
  - Mrs. Nora Ballinger, Cisco, medical
  - Mrs. J. T. Green and baby girl born Saturday night
  - Joseph Perkins, surgical

Wednesday, February 27

12 noon — The Civic League and Garden Club will hold its monthly luncheon in the Woman's Club. Hostesses will be Mmes. W. A. Leslie, Fehrman Lund, Tom Wilson and Ben Hamner.

Thursday, February 28

3 p.m. — The Alpha Delphian Club will meet in the home of Mrs. A. F. Taylor for a piano ensemble program.

Monday, March 4

7:30 p.m. — Mrs. E. E. McAlister will present "A Walk in Washington" and Mrs. Wendell Seibert, "Sweden" at the Ladies meeting in the Woman's Club.

Wednesday, March 6

3 p.m. — The Music Study Club will meet in the home of Mrs. A. F. Taylor for a piano ensemble program.

Mr. and Mrs. J. W. (Cap) Smith of Mingo, former residents of Olden, are the parents of a baby boy, Roy Dale, born February 14 in the Ranger General Hospital. The couple are former employees of the King Motor Company and Hollywood Maxwell.

Mr. and Mrs. Dwain Lusk of Lubbock visited in the home of their parents, Mr. and Mrs. Jack Lusk and Mr. and Mrs. Wiley Harbin over the week end.

Know some ex-student of EHS that everyone else may have forgotten? Send his or her name to Terrell Coleman, 115 North Sixth, Waco. Let's have 'em all here June 8-9 for Texas' Biggest Homecoming.

### Broiler Prices Due for Rise

COLLEGE STATION—Texas broiler producers may be in for slightly higher prices than they received during the last quarter of 1956, say Poultry Marketing Specialists F. Z. Beanblossom and Kermit Schlamb. But they warn that prices will be directly affected by several market conditions.

An expanding market can probably absorb any moderate supply increases, they point out, but add that 1957 red meat supplies are likely to be down slightly. Also, improved leadership in the broiler industry is attempting to bring supply and demand into balance during this year, conclude the specialists.

The nation's 1956 live broiler prices dropped 5.8 cents a pound below the 1955 average following a 17.34 percent increase of chicks placed on farms, according to Beanblossom. Rate of placement increase in Texas topped the nation during the first three-quarters of 1956, but fell off more rapidly during the last quarter. Over 8 percent of all broiler chicks placed in the U. S. during 1956 were placed in Texas, he adds.

Schlamb says national efforts to curtail the number of eggs set for broilers by voluntary reduction were successful during the first week of December. Effects of the short-term reduction on broiler prices to producers, however, remain to be seen, says the specialist.

Broilers produced 69 percent of the nation's total chicken supply in 1956—a 27 percent increase over 1950 figures, according to

USDA Outlook material. Cold storage broiler holdings are up from 1955 levels and Outlook figures also state that a lower percent of broilers were sold in frozen form during 1956 than any other class of poultry.

# PONTIAC IS GRAND NATIONAL CHAMP!

Wins NASCAR Grand National Championship Race Against All Cars Regardless of Size, Power or Price—Setting New Track Record in Biggest Stock Car Event of Year Following Clean Sweep of Its Class in Flying Mile and Acceleration Runs.

Here's why it's important to you! You can buy the same model Pontiac right here in town with the same ruggedness, safety and precision-handling that outclassed all the others at Daytona! Remember, this was a strictly production model Chief Pontiac powered by the spectacular 317 h.p. Strato-Streak engine—and introducing Pontiac's revolutionary Tri-Power Carburetion, a great new advance, optional at extra cost on any Pontiac model. This amazing carburetion system literally gives you 2 engines for the price of 1... tame or terrific at a touch of your toe! For normal driving the engine operates on a standard two-jet carburetor (the same type that won the economy tests last year). A little extra pressure automatically cuts in four more carburetor jets for instant response when you need more power. Come on in and drive America's Number One Road Car. You can easily afford it—prices actually start below 30 models of the low-price three!

NOW IT'S OFFICIAL Pontiac is America's Number 1 Road Car!

- NUMBER 1 IN PERFORMANCE!
- NUMBER 1 IN ROADABILITY!
- NUMBER 1 IN HANDLING!
- NUMBER 1 IN SAFETY!

## Status Of Main Bills In Legislature Given

As the Senate and House in the Texas Legislature get down to serious business this week in consideration of the Pool Bill which will be a run-off election in the U. S. Senate race, and as it con-

siders other crucial matters in this important week, here is the status of some of the most outstanding bills under consideration.  
HJ 11—A plan for providing \$200 million for assistance to local government units in construction

of water storage projects, passed by the House Tuesday by a vote of 148-0. Senate committees have cleared companion measures, but minor differences with the House-passed measures will probably be worked out before floor action.

HB 148—SB 8—the water district directors' residence act—passed House, to be heard at 2:00 p.m. Tuesday, by the Senate Committee on Water & Conservation.  
HB 151—SB 11—the certified mail act—same report as for HB 148—SB 8, above.  
HB 147—SB 9—prohibiting negotiated contracts by water districts—reported favorably by committees in both House and Senate.  
HB 150—SB 14—allowing water districts to adopt descriptive names—reported favorably by committees in both houses.  
HB 144—SB 10—authorizing investigations by the State Board of Water Engineers of water districts' construction in progress—reported favorably by committees in both houses.  
HB 149—SB 6—the waste disposal by injection act—reported favorably by Senate committee, still in Conservation and Reclamation Committee in House.  
HB 190—SB 4—the stream pollution control board act—Hearing set at 2:00 p.m. Tuesday by Senate Water & Conservation Committee, still in committee in House.  
HB 152—SB 7—the act creating a water development board—Hearing set at 2:00 p.m. Tuesday by Senate Water & Conservation Committee, still in committee in House.  
SB 12—well log information act—Hearing set at 2:00 p.m. Tuesday by Senate Water & Conservation Committee.  
SJR 1—the proposed constitutional amendment authorizing issuance by the State of \$100 million in bonds to finance purchase of conservation storage in federally-built water reservoirs—is still in the Senate Constitutional Amendments Committee.  
SB 2—the enablement act accompanying SJR 1 is set for hearing at 2:00 p.m. Tuesday by the Senate Water & Conservation Committee.  
Still in committees in both houses are: HB 153—SB 13—the granting or refusing petitions act; HB 146—SB 15—contest of creation and trial de novo act; HB 154—SB 16—exclusion hearing appeals act; HB 138—SB 17—emergency appropriation for TWRC staff; HB 155—SB 23—recharge as an appropriative purpose act.  
The feed control bill—to meet modern conditions and feed form-

ulations—in a bill supported by all interested parties—has passed both houses and is now awaiting signature by the Governor.  
The egg-grading bill has passed the House and is out of the Senate committee and may be up for Senate vote again the coming week. The WTCC has supported this measure—you are urged to write to your Senator in support of this bill—needed to provide protection for Texas producers of eggs.  
House Bill 433, a substitute for HB 5, to provide for improvements needed in Workmen's Compensation, may come up for a hearing this coming week.  
The House passed on Feb. 20 and sent to the Senate a bill to double tuition rates at state colleges and universities. The measure provides that increased revenue may be used for increases in teachers' salaries but does not specifically allocate the money.  
The constitutional amendment to allow state expenditures for advertising the state has passed second reading in the Senate. Motion to suspend rules in order to pass it failed and the bill is due for third reading on the coming Tuesday.

**Insecticides  
Are Dangerous;  
Handle Carefully**

COLLEGE STATION—Failure to observe manufacturer's directions when handling highly toxic insecticides and miticides is risky business, warn Extension Entomologists C. F. Garner and F. M. Fuller. Certain solvents used in preparing insecticide solutions or emulsions, they add, are inflammable and most of them poisonous to humans.  
The specialists say insecticide injury to man is most common through oral and respiratory intake or by skin absorption. Continued exposure even to lower insecticide concentrations, with no regard to safety measures, can result in an accumulation of chemicals in the body and may cause eventual tissue or organic injury.  
Many phosphorous compounds, such as parathion, methyl parathion, EPN, TEPP, demeton, Dazinon, Phosdrin, Thimet and Guthion, are extremely poisonous and must be handled with care at all times, assert the specialists. They add that phosphorous insecticides are much more poisonous to warm-blooded animals than most other chemicals used for insect control.  
Since phosphorous insecticides tend to reduce the cholinesterase enzyme, entomologists advise regular handlers of such chemicals to have cholinesterase tests at 10-day intervals while working with the material. Your local doctor can tell you about these tests.  
It's a good idea to bathe and change clothing immediately following a highly toxic job and not enter a field for two or three days after it has been treated, the specialists point out. Always wear gloves and freshly laundered protective clothing during handling, and stop working if a toxic insecticide is spilled on skin or clothing for a thorough bath and a change of clothes, they advise.  
Other pointers to remember include the use of approved respirators; protection of all persons and livestock from drifts, sprays, or dusts; and the storage of sprays and dusts away from children, irresponsible people, and all forms of food and feed.

**Beef and Eggs  
Top Plentiful  
Food Supplies**

Beef and eggs top the U. S. Department of Agriculture's plentiful foods list for March. These two popular and nutritious food items got the top spot after the regular monthly check on food stocks in local trade areas revealed that supplies of both were much heavier than usual for this season.  
In addition to beef, good supplies of lamb and hens as well as frozen fillets of perch and halibut are also available.

The only vegetable on the March list are potatoes, canned sweet corn and pinto beans.

Rice, peanuts, peanut butter, dried prunes, milk and other dairy products round out the plentiful list for this area.

**Thermometers Refined**

There is no job too big or too small for today's thermometers, reports Product Engineering, McGraw-Hill publication. The instrument has been so refined that it is now possible to record the temperature of an ant, of the sun's surface and of a candle flame more than a mile away.

**INGROWN NAIL  
HURTING YOU?**  
Immediate Relief!  
A few drops of OUTGRO® bring blessed relief from tormenting pain of ingrown nail. OUTGRO® softens the skin underneath the nail, allows the nail to be cut and thus prevents further pain and discomfort. OUTGRO® is available at all drug counters.

# FORD IS AMERICA'S WINNINGEST CAR!

For 1957, Ford's off to a flying start on the NASCAR Short Track, Convertible and Grand National Race Circuit—with more points than all other cars combined!

And now—just in from Daytona—seven more Ford firsts!

- A 300-hp 1957 Ford V-8 out-accelerated all other low-priced cars in the standing mile competition.
- A 1957 Ford Sunliner outclassed all other low-priced cars in the 160-mile National Convertible Championship Race.
- A modified Ford Thunderbird, running in the Experimental Class, out-accelerated every other car in NASCAR history.
- A modified Thunderbird topped every American Sports Car, finished first in its class and placed second to Europe's fastest sports car at the National Amateur Sports Car Race.
- A standard production Thunderbird took first place in the flying mile—outperforming all sports cars made in America.
- A modified Thunderbird won the flying mile in the fastest time made by any car at Daytona this year.
- And a Ford Thunderbird topped the field in acceleration from a standing start in Modified Sports Car Class B.

It was Ford Thunderbird power that set a new stock car record at Indianapolis, too... and powered the '57 Ford to 458 world endurance records at Bonneville, Utah.

PROVE TO YOURSELF WHY FORD GOES FIRST AT THE MEETS AND ON THE STREETS

### Manhattan Under Cement

To get a non-statistical idea of the size of the new highway building program, some comparisons were worked out by the McGraw-Hill Department of Economics.  
Just the aggregates that will go into base course construction, they estimate, would form 500 conical piles, each the size of the largest pyramid, Cheops. With the paving material needed, it would be possible to bury all Manhattan under a 17 foot layer of concrete and asphalt.

Make plans to welcome back Eastland's ex-students now. June 8-9—date for the first annual all-school homecoming—is just around the corner. Do your part to make this Texas' Biggest Homecoming.
