

The Big Spring Herald

BY T. E. JORDAN

\$1.00 A YEAR IN COUNTY
\$2.50 YEAR OUTSIDE COUNTY

Entered as second class matter at Postoffice, Big Spring, Texas, under Act of Congress, May 3, 1879.

Big Spring Friday March 2 1928

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this paper, will be gladly corrected upon its being brought to attention of the editor.

"STATE PRESS" UNDER SUSPICION

We knew there was something wrong with State Press, but did not carry sufficient weight with the U. S. Senate to have an investigation instituted. Wonder if S. P. has been harboring Pink Boll worms on his person. Listen to him howl now that he has been found out.

How Come
"State Press will be expected at Big Spring July 13-14," writes Letha Watson of Sweetwater, secretary of the West Texas Press Association. "I thought it advisable to notify you at this time," Mr. Watson explains. Yes, but why didn't you go on, Mr. Secretary? Is S. P. to understand that he is not expected in West Texas before July 13, or that West Texas will remain a closed season against him except for the two open dates mentioned? West Texas is right big, and right much self-sufficient, but when did it get big enough or sufficient a plenty to tell the author of this protest when or where to get off. State Press was in Big Spring so long ago there really was a spring there at the time, and in Sweetwater when they had to haul their aqua sweeta in tanks, and he has been going out and coming out at intervals ever since. But if there has been any kind of quarantine laid against him he wants to know it now, in order that he may take adequate measures to ignore, nullify or test it out at the cannon's mouth.

HORNED FROGS IN CORNER STONES

Since Eastland pulled that sleight of hand miracle in extracting a live horned frog from a corner stone of the court house where "Horney" had reposed for 21 years, the greatest argument since "Einstein's Theories" started scientists on the rampage is now in progress. "It can't be did says one; 'Your another," says the Eastlander.

Anyway, placing horned frogs in corner stones is going to become popular, and the argument is due to be settled about 1960.

The editor of the Herald in order to reach an earlier solution, has placed a horned frog in a sealed fruit jar in the editorial sanctum santorum where those interested may view his frogship from day to-day, while listening to the pro and con arguments of scientist. We shall continue this experiment for 21 years if necessary providing the Society of Prevention of Cruelty to Reptiles, which presented the battle of the century between the rattlesnake and Macknake. All Horned frog supporters are cordially invited to call at the Herald office each day and make scientific observation of the heroic little animal as reptile, a martyr to science.

DID YOU EVER STOP TO THINK?

By Edson R. Waite
Shawnee, Oklahoma
R. H. Dunlap, advertising director of the Miami (Florida) Daily News, says:

That "Today's NEWS Today" is the insistent demand of twentieth century moderns which must be satisfied. News papers, disseminating local, state, national and international information are veritable sources of information, education and entertainment.

Newspapers are a necessity—necessary to the general reading public; and the manufacturer and vendor of merchandise if they would be successful.

Newspapers have come, thru metallic mesh, to have a conspicuous place in the minds of the reading public.

We all cannot think alike, and there may be a few folks who never make a mistake, but we have never met them. A smart man may sometimes learn a thing or two from a fool.

Had we gone to the trouble and expense of establishing some permanent grade lines in our city we might have been better off. Some property owners are finding the sewer mains are higher than the grade line when they get ready to erect costly buildings.

Property can be priced so high that it becomes a poor investment, unless the buyer can afford to erect a skyscraper. The ordinary business establishment cannot pay an exorbitant rent, and prosper and when high rents cause your buildings to become vacant, you have a White Elephant on your hands.

A local man went to Big Spring yesterday and made one comment that strikes home "Big Spring is building a number of three, four, and five room homes not shacks, but not all filled up that working men can rent and buy. Midland ought to do the same thing."—Midland Telegram.

We ought to start fighting flies and mosquitoes a little earlier this year, and a general cleanup would tend to prevent the breeding of these followers of filth. There is no reason for our city being pestered with mosquitoes. Oil on stagnant waters and in cess pools and cisterns would prevent same.

If Big Spring can just keep moving forward at the rate we have been going the past year, our future is assured. Men who have followed the oil game for years are picking this city as the one to make a permanent and substantial growth.

There is only one method of preventing incompetents from driving automobiles and endangering the lives of others on our streets and highways. Make every driver secure a license and make the penalty for reckless driving while intoxicated so heavy that auto owners won't take a chance.

When citizens in their zeal to boost a town make misstatements concerning a rival town, they are playing with a boomerang. Real business men and investors have many channels through which reliable information can be secured, and you may be sure they secure this information before making investments.

If the Pink boll worm was a gentleman he would certainly back up into Old Mexico. He must realize by this time that he is not welcome in West Texas. We wonder what will happen when the boll weevil and the pink boll worm begin to encroach on each other's territories.

In diverting flood waters in the South side of the city to the Westward so as to prevent this water from flowing through the business section of our city, a good work is being done. If a similar plan could be worked out so that some of the flood waters coming down Johnson Street could be diverted to Birdwell lake it would also help.

"The meanest habit in the world," that is how Edgar A. Guest classifies "gossip." And we agree with him fully. Nothing can tear down a person's reputation or besmirch one's character quicker and more satisfactorily than gossip. Sharp tongues have had a long run, and the practice will never be stopped. The greatest lawgiver of all times handed down a decision in the matter fourteen hundred and ninety one years before the birth of Christ, using his language: "Thou shalt not go up and down as a talebearer among thy people." In his article which appeared in a recent issue of the American Magazine, Mr. Guest says: "A gossip is a public menace and richly deserves to be muzzled for a biting, dishonest, human tongue can do more harm than the snapping jaws of a dog! A gossip can ruin your reputation, start a run on a bank, break up a church, make neighbors hate one another, shatter the happiness of a town. And no man is immune to the serpent-like flashing of a gossip's tongue. But what can we do about these unbridled tongues that cause so much trouble? Just this: First of all, we can control our own tongues; and next, we can refuse to keep company with any person who indulges in harmful gossip. Give the scandal-spreader a cold shoulder. He'll starve to death on that diet."

Governor Dan is awful anxious to save East and Central Texas from the awful pink boll worm, but he don't give a darn if the boll weevil takes West Texas. Why don't we hear something of a non-cotton zone to protect West Texas against the boll weevil which destroys more cotton than the pink boll worm ever can.

Better begin to cultivate a smile and learn how to shake hands so we can make the delegates to the West Texas Druggists' Association which meets in Big Spring March 13 and 14, feel welcome. A live bunch of fellows will be our guests on that date.

If the Pink Boll worm crossed the great open spaces, where there was no cotton planted; and with government bugologists on guard, how can they expect to stop this pest by creating a narrow strip or non cotton zone in our section of West Texas?

Home folks cannot yet picture Big Spring becoming a city of 20,000 to 25,000 population and that is one reason why long headed business men from other cities are getting foothold in our city, they want in on the ground floor.

You would imagine that some property owners had a gold mine on their lots for the price they ask for same. Looks like they are afraid someone else might make a dime on the property. Buying and selling, rather than holding, adds to realty values.

It's a mighty good idea to let the candidates be the ones to get all wrought up over the various issues. The rank and file will be paying the freight and paying the taxes no matter which party gets to hold the warm seats at the pie counter.

The Pink Boll worm has even lumbered back off of the front page in West Texas. Most of us have never seen one of the varmints nor would recognize him if we met him face to face—and we regret that we have ever heard of the pest.

Big Spring folks visiting other cities have been informed that a gasoline war is due for Big Spring. One of the big oil companies which has no wholesale station here is rumored as planning the fight in order to get a foothold in Big Spring.

At least one good cow for every farm should be the slogan for every county agent or chamber of commerce.

DEKOST COUNTY CANNING VALUE REPORTED

The annual report recently completed of home demonstration work during 1927 in Coleman county reveals that \$22,027.88 worth of foodstuffs was preserved through the efforts of the demonstration agent, Gertrude Brent.

Nearly equaling the saving made possible through canning, dresses, undergarments and hats made saved \$23,002. Eight girls clubs have a total membership of 135 and 15 women's clubs have a total membership of 228. During the year 7,124 persons attended demonstrations and 280 homes adopted the food preservation suggestions of the agent. A total of 19,187 chickens was reported to the agent, 5,170 turkeys and 52,784 dozen eggs. In the dairy division 46,235 pounds of butter was reported to Miss Brent with 229 pounds of cheese and 5,841 pounds of cream sold.

900 MILES ROAD TO BE TOPPED

Austin, Feb. 23.—Three-fourths of a 1,200 mile hard surfacing road "maintenance" program for the remainder of the fiscal year was approved Thursday by the state highway commission, W. R. Ely, Abilene member, said.

Examinations of plans for the remaining 300 miles of work was not completed.

No information as to what counties will benefit or as to the approximate cost could be obtained, but it probably will total millions.

Maintenance engineer Leo Ehlinger, following a rule announced Thursday that only State Highway Engineer G. B. Gilchrist can give out any information declined to discuss the matter. Mr. Gilchrist was out of town.

The commission's action means that 900 miles of roads will be asphalted between now and September 1 in one of the most ambitious projects ever attempted in Texas.—The Fort Worth Star Telegram.

Here's hoping the 100 mile section of State Highway No. 1 in Howard, Martin, Midland and Pecos County is included in this program.

Jed Rix of Lubbock who was a visitor here the first of the week, gave it, as his opinion that Big Spring was due for a wonderful growth. He said there was not a single reason why Big Spring should not become a city of 25,000 population within a few years.

We can soon boast of a gasoline alley in Big Spring.

MORE LIQUOR DESTROYED

Acting upon orders of District Judge Fritz R. Smith, Sheriff Frank House destroyed forty-six quarts of bootleg liquor, last Saturday afternoon.

This was booze which had been captured and was held until the same could be used as evidence and the cases disposed of. It would have been required a robust constitution to have with stood some of the stuff which was destroyed.

KILLS ANOTHER 500 POUND HOG

F. Heckler says he is going to have plenty of meat to eat this year even if the Pink Bollworm does eat all the cotton. A 500 lb. hog was killed at Mr. Heckler's farm, 13 miles North of town, Monday morning. This makes 7 big hogs he has killed this winter, all weighing around 500 lbs.

In addition to having plenty of pork stored away, Mr. Heckler has lard enough to last a year, and will have several hundred pounds of pure lard for sale.

Oklahoma Oil Town Rises Over One Well

Roxana, Oklahoma, Feb. 27.—Roxana, newest oil town in Oklahoma, is built on only one oil well.

It is less than nine months old but it has a postoffice and more than 50 buildings. It came into being because the Roxana Petroleum corporation discovered oil and gas at a depth of almost 6,000 feet.

A swimming pool properly managed and kept sanitary is a drawing card for any city and it would prove doubly attractive in our section during the warm summer days. Here's hoping some enterprising citizen puts the proposition over.

It's just a little bit difficult to determine just which direction the business district is going to take, permanently. During the present growth it is due to expand in several different directions.

It sometimes takes our folks a long time to get started attaining a given objective but they manage to muddle through in time to save the situation. The office building proposition is not entirely hopeless.

Fire is becoming a little too numerous in our city. Three fire alarms within an eight hour period last Saturday night. We would have had a puzzle to solve had the three alarms been sent in a few minutes apart.

NOTES FROM SALEM
 Rev. E. E. Mason of Coahoma filled his regular appointment the fourth Sunday owing to so much sickness and disagreeable weather not so many were present.

Mrs. E. E. Mason's B. Y. P. U class put on a play for the interest of the Conquest Campaign Sunday night, after which Rev. Mason gave a very interesting talk. A goodly number from Coahoma were out for the night services.

Rev. D. H. Heard, pastor of the First Baptist church of Big Spring, will speak at Salem the first Sunday afternoon at 3:30 in the interest of the Conquest Campaign. Everyone is invited to come and hear him.

Mr. Leonard Hull and others of our community went to Sweetwater Saturday to hear the pink boll worm situation discussed.

Wednesday February 29th is the day set to paint our church. There will be dinner on the ground.

Mr. and Mrs. W. H. Robinson have been sick the past week with very little improvement at this writing.

Mr. and Mrs. A. J. Wilson visited the sick at Mr. J. I. Davis' Sunday afternoon.

Mr. and Mrs. Ed Hull of Fairview were visiting with her father and mother and other relatives Sunday.

Misses Omega and Mattye Buchanan were pleasant afternoon callers with Mrs. W. C. Rogers and Mrs. W. F. Cox Sunday.

Mrs. S. L. Newsom and children and Rev. E. E. Mason were Sunday dinner guests with Mr. and Mrs. Ed Conway.

Mr. W. M. Walker's family are recovering from tonsillitis and vaccinations.

Mrs. Sam Buchanan, Jr., has had tonsillitis but is reported as being well again.

Mr. and Mrs. Ford Coats of near Centerpoint were visiting his father and mother, W. N. Coats Saturday.

Mr. W. C. Rogers received a message Monday morning stating the death of his sister's son, Roy Mason, and was to be buried at Fargo, Texas, at four o'clock February 27. His death was due to heart trouble.

Mrs. Elmer Lay and Mrs. Bernard Lay attended the Missionary meeting at Coahoma Monday afternoon.

Mr. Jim Robinson has recently had new lights installed in his home.

SOASH NEWS
 Health at this writing is slowly improving.

The farmers are taking advantage of the light rain which has recently fallen.

The party at Alene Lou's Friday night was enjoyed by every one present.

Miss Roberta Adams spent Saturday night and Sunday with Miss Gladys Palmers.

We are glad to report that Mr Hodge's family have gotten over the smallpox and are able to join us in school, Sunday school etc.

Mrs. Wilbite the Intermediate Sunday School teacher, entertained her class Saturday evening from five to seven o'clock. Then they went to the party at Mr. and Mrs. Bob Mahans. They reported a splendid time.

Mr. and Mrs. Homer Palmer and Mrs. Palmers, Mr. Martin spent the week end with Mr. and Mrs. G. T. Palmer.

Some of the young people of this community went kodaking Sunday.

Alvis Quinn spent Saturday night with Red Wood.

John Palmer spent Saturday night with Virgil Low.

The young people of this community took supper at Mr. and Mrs. Joe Low's Sunday night.—Reporter.

TO VOTE ON \$485,822 BOND ISSUE
 The City of Sweetwater will vote on a \$485,822 bond issue on March 29. Of this amount \$183,335 will be to pay off legally issued and outstanding warrants and notes of city. A \$225,000 issue for construction and improvement of waterworks system; and \$25,000 for Sewer System Improvements.

We might just as well make up our minds to make the most of a bad situation, as far as the pink bollworm is concerned. We must cooperate with the government and state in order to get rid of the pest at the earliest possible date. Sterilization of cotton seed, and other regulatory methods.

BIG WRESTLING MATCH AT MILLER'S RINK TONITE
 Summer is here, so says Clyde Miller, the local wrestling promoter, and in opening the summer wrestling season, I have selected two of the toughest bone benders that have ever entered the Southwest for my next wrestling show at the skating rink Friday night, March 2nd. I am pitting Louie Sandovia, the Walloping Wop of Youngstown, Ohio, against that young sensational wrestler of Fort Worth, Texas, Bob Roy, the pride of the Y. M. C. A. in a finish match the best two falls out of three.

Louie Sandovia enters the Southwest with a record that few boys have, he has met and defeated some of the leading welter weights in this country, and is a real tough contender for any one in the bone bending profession. He specializes on no certain holds, he uses them all to a good advantage over his opponents, he is quick fast and knows and uses every angle in the wrestling game, and while he features the clean and scientific style of wrestling he is able to hold his own in a rough and tumble match with any opponent and while engaged in one of these rough matches in an Eastern city, he floored his opponent with a knock out punch that some of the leading boxers

would like to have. Since he has entered this section of the country he has pasted the rough boys right and left with his terrible knockout wallops. He is as tough as they make them a good clean and clever grappler, willing to meet all comers.

Bob Roy, the Fort Worth sensational grappler is just 20 years of age, a nephew of Judge Roy of the above city, and one of the toughest welter weights that the South has produced. Bob states that the hardest match that he ever engaged in was to secure the consent of his parents to enter the padded mat game. It was not until he had met and defeated an amateur in Fort Worth and Dallas and several professionals that he was given the permission to wrestle. Bob is a tough nut to crack in the wrestling game and is fast battling his way to the top of the ladder.

Promoter Miller states that he has arranged a series of boxing and wrestling preliminaries between the local boys to precede the main event, and he assures the local fans one of the best programs that has ever been staged in this section of the country.

The opening gong will sound promptly at 8:30 p. m. and Clyde says that he is making special arrangements to accommodate the ladies.

OBSERVE HEALTH RULES
 "He spent his health to gain his wealth. And then by might and main He turned around and spent his wealth To get his health again." The increase in nervous disorders, disease of the breathing, digestive and circulatory system which are noted so-conspicuously today, are largely the result of the intensive lives we lead. We speed up all phases of life; eating, traveling, working, playing, until thinking would seem a "lost art." If this function of the mind could be so-called. It is difficult to evade and avoid this destructive vortex; but—beware in time, check up, rest, play, travel, obey ordinary health rules.

GARDEN CITY HONOR ROLL FOR FEBRUARY
 Modena Hubbard, J. B. Ratliff, Jr., Allie B. Cook, Mary Humble, Katherine Neal, Mamie Roberts, Edith Carrie Myrl Bryans, Natalie Parker, Pierce Humble, Roberta Ratliff, James Archie Neal.

Frank Gary returned Sunday night from an extensive buying trip in the New York and Chicago markets, where he selected spring and summer apparel, for the store of F. F. Gary and Son. Frank knows where to get what his patrons want and he endeavors to suit the taste of everyone.

Chicken and stock remedies of all kinds Cunningham & Phillips.

Russell Pistole is here this week from Las Vegas, Nevada, visiting relatives friends. Russell says that things look good in Big Spring and he may decide to locate here again. His many friends in this city hope that he will decide to make Big Spring his home again.

TWO DOLLAR GOLF STECKS. GOOD ENOUGH FOR YOU ... CUNNINGHAM & PHILIPS

Some of the experts here Monday said this bollworm business ought to encourage diversification, but they could not figure out any method whereby a tenant farmer could change from a cotton farmer into a diversifier, with plenty of financial backing.

MANY TOPICS FOR CONSIDERATION

(Continued from page one)

for all discussion followed in which it was suggested that the distribution of circulars be forbidden in the business district or in automobiles along the streets. The careless manner in which paper and other refuse are gathered up was also criticized. Tom Ashley, Willard Sullivan and others took part in the discussion.

City Manager Montan stated that the practice of many business men of sweeping all the rubbish from their stores into the streets caused most of this mess. He said the streets were neat and clean from 6 to 8 a. m. but just as soon as the brooms got busy in the stores, rubbish began to appear on the streets. He said some business men had been warned, and were going to be called before the mayor if they refused to heed.

B. Reagan suggested a clean-up brigade to visit various vacant lots in the city to burn trash, weeds, etc. He said this plan had proved successful at other points. He pointed to the Big benefits which had followed the clean up campaign in Jones Valley Addition. Much property had changed hands at good prices since the clean-up had made Jones Valley show a 100 per cent improvement in appearance.

George McDaniel of the Abilene Reporter was the only visitor present and when given the opportunity to sing or dance, he chose to make an after dinner talk. George did himself proud, and convinced his audience that he was both orator and poet. He explained the successful method Abilene had adopted in keeping loose paper off the streets. A city ordinance prohibits passing circulars on the streets or placing them in automobiles. They must be placed in the business houses and behind the screens in the doors of residences. Covered receptacles must be kept in the rear of business houses for placing paper and other rubbish.

Mr. McDaniel made the announcement that city delivery of the daily Abilene Reporter would be inaugurated in Big Spring soon. Printed about 2 a. m. the paper will be delivered at Big Spring homes by 6 or 7 a. m., so if you read the latest news while you are at breakfast Fox Stripling stated he had been requested by Geo. Wilcox to announce that a business manager was going to be employed for the benefit of the business men of Big Spring. This was to return kindness of the business men in advocating the employment of a County Agent to help the farmers. Mr. Stripling stated George expected to attend a meeting soon so he could give further particulars of his plan.

J. B. Pickle said he knew one business man who needed someone to help him manage his business and he would welcome the appointment of the business manager.

Tom Ashley reported that he was unable to have C. C. Kilway Superintendent of the Rio Grande Division of the T. & P. Railway present at this meeting due to Mr. Kilway being extremely busy just at present but he has the assurance that Mr. Kilway is going to become a member of the Luncheon club.

The following program committees were announced: for next week W. V. Montan, J. P. Keeney and Robt. Piner. For March 14, F. J. Keating, Fox Stripling and T. S. Currie.

BUS COMPANIES BATTLE OVER FRANCHISES

Austin, Feb. 27.—A fight over applications of three motor bus companies for permits to operate from Dallas to Los Angeles, developed before the state Railroad Commission hearing Monday, when counsel for five companies operating within the state entered protests designed to protest interstate business.

State Senator Lloyd Price, representing the South Texas coaches, urged the theory that that state commission in the present absence of federal regulation of motor bus traffic can exercise over interstate bus lines the essential powers conferred upon the commission for supervision of interstate traffic. The commission can bar from interstate traffic any equipment deemed unfavorable for interstate traffic, Senator Price argued.

Protesting for the West Texas Coaches and the Texas Motor Coaches, Inc., Robert Hanger of

HIGH SPRING ADVERTISED IN OIL & GAS JOURNAL

A big double page advertisement appears in the West Texas Edition of the Oil and Gas Journal, published at Tulsa, Okla., telling of good points of Big Spring. An article telling of the Chalk oil field and a map of this area also appears in this issue. The following "Ten Reasons" are given in the ad why Big Spring should be the logical headquarters of West Texas development.

1. Big Spring is the largest center of activity.

2. Big Spring has all city conveniences, including natural gas and electricity for domestic and industrial purposes.

3. Big Spring has an abundance of water that tests 99.53 pure. (Its cool and refreshing, no unpleasant after effects.)

4. Big Spring has highest ranking public school of any West Texas city near oil field.

5. Big Spring is building for the oil people who are here and who are coming, providing more homes more paving more schools more water, more and better hotels.

6. Big Spring has 24 hour service over Western Union and Postal Telegraph companies.

7. Big Spring has 6 passenger trains each 24 hours and at present an average of 38 freight trains, making transportation rapid and convenient.

8. Big Spring is substantially supported by oil, agriculture, livestock, railroad pay roll and an immense tourist trade.

9. Big Spring has one new 7-story hotel, fire proof, with another modern hotel under construction—added to these are several smaller hotels.

10. Transportation facilities. Big Spring is on one trunk line railroad and a division point. The service of the road is excellent and the service out of this particular town is extraordinary. Two national highways of first importance cross at Big Spring. One: The Bankhead Highway is paved for miles east and west; two: The North and South highway—Glacier to Gulf Motorway, which links Amarillo and San Angelo and is the direct route between these two oil centers.

Other interesting data is given in the advertisement.

James McIntyre writing for the Oil and Gas Journal states that based on the history of the oil industry West Texas is in for half century of oil activity. He says there are more than 50,000-000 acres of land in West Texas that is potential oil territory—and so far only 12,000 acres is producing oil.

RING LARDNER SAYS:

Wives is people that always want to go home when you don't and vice versa. Wives is people that ain't never satisfied as they are always too fat or too thin. Wives is people that asks you what time the 12:55 train leaves for New York.

Wives is people that sets on the right hand of the front seat of their husband's motor and when he turns down a street to the left they tell him he should have kept straight ahead.

They are people that never have anything fit to wear.

They are people that think when the telephone rings its against the law not to answer it—EX.

Alarm clocks, we stand behind them. Cunningham & Phillips.

The turning in of a false alarm caused the fire department to make a run out on Runnels St., Monday morning.

Worth, argued a similar theory. His and Senator Price's general line of arguments were adopted by W. D. Benson, Lubbock in behalf of the George Page Bus line between Big Spring and Focos, and by R. B. Rawlins, El Paso, representing the Pickwick Stage.

The applications for interstate permits narrowed down to three when notice of withdrawal was read for the Red Star Lines and the Interstate Motor Carriers, Inc.

Application of the Yellowway, Inc. Lines was the first of the three remaining to be considered. G. A. Patterson, Kansas City vice president testified that his concern, a Colorado corporation, proposed to run two 16-passenger buses and one 19-passenger bus, but that it does not intend to do interstate business.

Other applications on the docket by the High Bell Transit Company and California Stage Lines.

DEEDS AND OIL LEASES RECORDED

Mr. and Mrs. G. B. Walters sold to C. D. Miller a portion of block no. 1 in the Hathcock addition.

Mr. and Mrs. J. Y. Robb sold to the Big Spring Amusement Company a corporation, lots 4 in block No. 12 and lot 13 in block 29 in Big Spring.

L. S. McDowell sold to Clyde E. Thomas lots 7 and 8 in block 19 in McDowell Heights Addition.

Sarah E. Deats sold to W. D. Deats, Bertha Deats, Ethel M. Whitaker and Martha L. Moody, a one-half interest in the West 50 feet of lots 5 and 6 in block 64 in Big Spring.

Mr. and Mrs. T. D. Ford sold to I. J. Runyan lot 2 in block 2 in Saunders addition in Coahoma.

Mr. and Mrs. H. C. Runyan sold to T. D. Ford lot 2 in block 2 in Saunders addition in the town of Coahoma.

Mr. and Mrs. L. S. McDowell sold to James Little lots 5 and 6 in block 20 in McDowell Heights Addition.

Mr. and Mrs. R. L. Gearhart leased to the Marland Oil Co. the South half of section 35, block 25, H. and T. C. survey.

W. T. Roberts leased to the Marland Oil Company the North-east quarter of section 17, block 31, township 1 South.

T. H. Pyle and C. F. Greenwood assigned to Empire Gas and Fuel Co. a lease on South-west quarter of section 29, block 22, township 1 North.

A LOT OF THE REST OF US DO, TOO

Mr. X was a prominent member of the B. P. O. E. At the breakfast table the other morning he was relating to his wife an incident that occurred at the lodge the previous night. The president of the order offered a silk hat to the brother who could truthfully say that during his married life he had never kissed any woman but his own wife. "And would you believe it Mary?—not a one stood up."

"George" his wife said, "why didn't you stand up?"

"Well," he replied, "I was going to, but I know I look like hell in a silk hat." Ex.

W. F. Soash was down from Lubbock Wednesday on business. Mr. Soash says that it is evident that Big Spring continues to take on a substantial growth.

REPORT OF WORK OF AMERICAN RESCUE WORKERS

During the month of February the American Rescue workers served 65 free meals, gave 17 nights free lodging, gave 41 pieces of clothing and 13 pairs of shoes to needy people; got a poor family \$7.00 worth of groceries; gave \$2.00 in cash to transient people and helped two boys to secure employment. Have made nine visits to sick people taking some of them cigarettes, oranges and lemons and other sick nicks that sick people like to receive.

We have received \$115.00 in cash besides several donations of groceries and clothing.

Our expenses have been \$135, showing a \$20.00 indebtedness. This is a very slim report for the American Rescue Workers, but we have been able to make this report in spite of the fact that three members of the family have had the measles and one having pneumonia.

We wish to thank our many friends for their support in the work and as the amount of charity work that we are able to do depends on the amount of support that we get we wish to solicit your aid in the future in this great work. American Rescue Workers, Incorporated. Lieut. and Mrs. E. O. Dodson, officers in charge.

TO WHOM IT MAY CONCERN:

Notice is hereby given that I will under no circumstances be responsible for obligations made by Mrs. Bessie King or any members of her household unless written permission is first obtained from the undersigned.

(Signed) W. R. King. 24-3t.

Turkey and dressing, gravy, mashed potatoes, creamed peas, cranberries, celery, hot rolls, pie and coffee. You can get this nice dinner Saturday in the new Lester Fisher building for only fifty cents. The P. T. A.'s are serving it.

Mr. and Mrs. T. H. Johnson left Wednesday morning for an auto trip to San Antonio, Corpus Christi and McAllen. They expect to spend a month in South Texas.

Quite a few investors from other points are making our town in increasing numbers and many of the more picking up valuable properties in Big Spring

NAT SHICK TO ENTER AUTOMOBILE FIELD

Nat Shick has tendered his resignation as assistant cashier of the First National Bank of Big Spring effective March 15th to engage in the automobile game.

Mr. Shick has been in the employ of the First National Bank the past twelve years and held a position with the West Texas National Bank for approximately five years.

He has always been a valued employe, a faithful and efficient worker holding the esteem of his employers and his fellow workmen. He has ever been courteous and accommodating and many patrons of the First National Bank will regret to have him leave the post he has filled so ably and well these many years.

Mr. Shick has wanted to engage in some other line of business for some years, and he decided the automobile business was the most promising.

He will be identified with the sales force of the Allen & Webb Motor Co. of this city, Buick dealers. When he assumes his new duties Mr. Shick will be pleased to have his many friends call at the home of the Buick in Big Spring where they will ever find a cordial welcome and be treated with every courtesy.

In securing the services of Mr. Shick the Allen & Webb Motor Co. are indeed fortunate for they could not have found a more dependable business man in Texas nor one that will strive more faithfully to render full and fair treatment to the firm which employs him, and the army of

TUESDAY, MARCH SIXTH

IN THE CATHERINE HAT SHOP STAND

You are cordially invited to come and view the Newest Spring Hats, assembled here for your critical inspection and approval.

NEW BUICK AUTO AGENCY

The Allen and Webb Motor Co. are now the authorized Buick automobile distributors in Big Spring and have their salesroom and service station in the old opera house building on Main street, just East and across the building from the court house.

This firm succeeds the Culp Motor Company. Mr. Culp has been made Cadillac and La Salle distributor for Big Spring and surrounding territory.

The opera house building is being improved, painted and made an attractive sales room, and conveniently arranged service station.

One carload of latest model Buick has been received and another carload is expected to reach here Saturday, including two closed and one open model.

The Allen and Webb Motor Company is composed of H. B. Allen of Sweetwater, for many years distributor for the Dodge Brothers automobile in a large number of counties in this section of West Texas. Mr. Allen is one of the best known and most successful auto dealers in the South.

J. L. Webb of Sweetwater is also an experienced automobile man and has been in the automobile business since 1917. For the past five years he has been selling Dodge Brothers automobiles in this territory.

With such experienced and substantial citizens at the helm it is a foregone conclusion that the Buick automobile is going to be in good hands in this territory and this firm will enjoy a mighty fine patronage.

Archie Kemp, expert mechanic, who has been in the Buick factory the past seven years will be in charge of the repair and service department.

Nat Shick is to resign his position as assistant cashier of the First National Bank of this city to join the sales force of the Buick agency here.

"THE HIGHWAY COOTER"
Some ways and means of riding our highways of an army of men and women hoboes is now the big question.

Auto owners say it is impossible to drive on the highways without being flagged down every mile or so by folks wanting a free ride.

It is dangerous to refuse some of the hard characters as they will hurl rocks through the windshield or windows. Many robberies and car thefts are due to this floating population on our highways.

We want your chickens, eggs, and butter.—The White House.

REV. F. H. STEDMAN TO RESIGN APRIL FIRST

It will be with deep regret that many friends in Big Spring and Colorado will receive the announcement that we are to lose Rev. F. H. Stedman and family from our midst.

Rev. Stedman has tendered his resignation of St. Mary's Episcopal Church in Big Spring, effective April 1, to accept the rectorship of St. James Church at Taylor, Texas.

Not only will the members of his congregation regret his going, but the many other friends he has made in our city will miss his friendly counsel and progressive spirit.

Rev. Stedman has been one of our leaders for civic improvement ever since he has been a resident of Big Spring, August 1, 1925. He has ever been a valued member of Luncheon Club, Rotary or other organizations which had for their object the betterment of his home town or the state or nation. He was one of our strongest boosters for good schools. In public gatherings he was always ready with wholesome advice—and when it came time to bear his part of the work he was ready and willing to carry on.

Mrs. Stedman was also a worthy leader in civic and religious activities in our city and it is going to be difficult to fill her place in the hearts of our people. The organization of the Federation of Church Women in Big Spring will ever be a reminder of the great worth of Mr. and Mrs. Stedman's influence for good in our community.

We are losing some fine citizens when Rev. Stedman and family depart, and the citizenship of Taylor, Texas, are fortunate in securing them. The best wishes of a host of friends will accompany them to their new home. We wish to put them on notice that the latchstring of Big Spring will ever hang on the outside and a hearty welcome will always await them in our city.

TOMMY RYAN GIVES TALK TO STUDENTS

Tommy Ryan, ex-middleweight boxer, oldest active athlete and a pugilist against cigarettes and other modern evils, appeared at the city schools in Big Spring, Tuesday of this week, giving interesting talks and impressive exhibitions of his skill and strength. Mr. Ryan is 79 years of age, yet he is still active and seemingly in perfect health. He left the ring at the age of 48, and up to that time he was declared the oldest active champion in the world.

His talk was impressive and it carried a message home. He is opposed to smoking, drinking, swearing and the childish dissipation that tempt the youth of today. It is his purpose to work with the school children of the nation and encourage them to live clean lives and to take care of their bodies and to develop their minds.

Mr. Ryan exhibited his skill as a boxer, using a punching bag and he operated it with his eyes, his elbows and head, just as forcefully as with his fists. He displayed his style of boxing and also Gene Tunney's and Benny Leonard's styles in the ring. A hair raising exhibition for the students was given when he cut a potato with a sword, the potato being placed on the jugular vein of one of the students, namely, Jake Good.

Mr. Ryan has a wager that no man that smokes cigarettes has the strength to lift a weight 205 pounds, off of the floor with his hands. This he is able to do with one hand, and also muscle it over his head. A \$25.00 guarantee is open to the cigarette smoker who is able to repeat Mr. Ryan's skill.

His demonstration was thoroughly enjoyed and was a treat for those attending.

OFFICE BLDG. INFORMATION

We have one good spot at least in Big Spring. He is offering a site 150x100 feet on the Broadway of America in the city of Big Spring, absolutely free to anyone erecting a 13 story office building on this site. Read H. C. Read's offer in his ad.

Alvin Johnson, who recently started a poultry farm, is almost persuaded to dispose of his poultry and start a hopped frog farm. He notes in the daily papers that folks in the North are anxious to purchase replicas of the famous Eastland sleeper.

Seed potatoes and onion sets at the White House.

LOVING CUPS ARRIVE; ON DISPLAY AT WILKE'S

The loving cups ordered for the County Interscholastic championships arrived this week and are now on display in the Wilke Jewelry Shop on East Second St. Everyone is invited to come in and inspect the handsome array. Following is a list of the donors of the cups:

- Boys debating cup—Clyde Fox Druggist.
- Girls debating cup—H. L. Rix Furniture dealer.
- All Around Athletic cup—G. L. Wilke, Jeweler and Optician.
- Mile Relay cup—Uncle Walt Smith, Grocery.
- Boys' Playground Ball—Cornellison Bros., Cleaners and Dryers.

Alfred Collins was able to be down town Tuesday afternoon. His friends are glad to see that he is on the road to recovery, and hope that he will soon be back on the job.

Herald want ads got results.

Gasoline and Kerosene Prices Being Marked Up

Bettered conditions in the oil situation are indicated by widespread tank wagon gasoline and kerosene prices or adjustments, which though local, are bringing localities where distress conditions have prevailed back in line.

Magnolia Petroleum Company advanced gasoline in Dallas four cents, and gasoline in Arkansas and Oklahoma 1 cent per gallon.

Standard oil company of Indiana has advanced gasoline 2 cents at Detroit.

Continental Oil Company advanced kerosene at Denver two cents.

Atlantic Refining Company has advanced gasoline at New Haven two cents and at Hartford 3 cents.

Getting down to work, and spending less time on politics and the dispensing of hot air—will be a good rule for all of us to adopt.

A JUNIOR BASEBALL TEAM

We hope the Big Spring American Legion Post arranges to enter a team in the National Amateur Baseball Championship contest. The big leagues have donated \$50,000 to sponsor this great contest. It will be great if we can secure a rattling good team.

There is more danger of Big Spring growing too fast than there is of not growing steadily. A sure but steady growth is the kind we choose.

Miss Doris Mason, after a several weeks' visit in this city with her aunt and uncle, Mr. and Mrs. J. D. Biles, left Tuesday morning for her home in Corsicana.

OIL NEWS FROM OTHER W. TEX. FIELDS

Reeves County Oil Well
The Wheat well, which was shot again to make a producer, is now reported to have settled to a steady production of 45 barrels, with the Smith Separator installed and running the oil to the tanks across the river at Arno, which is a depot on the P. R. R. line. Lockhart & Company have their loadings racks at this point, which is about three miles from the Allen and Wheat wells.
World Oil Company's Biggs No. 1 in block 112, Reeves county near the old Sulphur Mine, is reported to have picked up the top of the Delaware Sand at 2,546 feet this week, though samples have not been received here yet.
No show of oil, or gas has been reported with this find, and information is being temporarily withheld according to reports. The depth is considered about right for the Delaware according to comparison with other tests in the county.

Oil Price Increase

Cheers Operators
Upward adjustment of light oil prices in the Midcontinent, and an even larger revision in prices of crude in the Texas Panhandle constituted the big event for oil men the past week. Though it was accomplished by a downward revision in prices of heavier crude in the districts affected by the raise and though the increase was small, it had a distinctly heartening effect.
For one thing the benefit accrued to producers who in the main had borne the brunt of the depression in oil prices.
For another, it was the first recognition on the part of the oil purchasers that the bottom of the depression had been passed, and that there was some improvement in the general situation, at least insofar as light and "sweet" crude oil was concerned. —Ft. Worth Star Telegram.

Winkler County Oil News

Sulphur water encroached farther northward in Winkler co. and there was a fresh outbreak of surface water that was not general on the east side however and new wells drilling in, it appeared, would maintain the increase in production of the Hendricks pool, which the week before set another peak of 418-180 barrels average daily yield.
This gain of 10,575 barrels over the preceding week and 4,190 barrels more daily in Pecos county contributed most to the increase of 10,799 barrels daily for West Texas, the average daily total being 299,855 barrels. Pecos County this week completed three wells through Wednesday.
The first attempt at drilling with a rotary in the Trans-Pecos proved a failure, but the Osage Oil Company skidded the rig and started a new hole Tuesday on the Half ranch in Western Crockett County.

Big Tank Farm

In Winkler County
Humble Oil and Refining Co. is embarking on a large storage program in Winkler county, according to unconfirmed reports heard here.
It is understood that the company has ordered the erection of more than two score 55,000-barrel tanks immediately, providing for more than 2,000,000 barrels of storage.
The move is seen as a counter to the large storage program of the Rozans, Mid-continent subsidiary of the Royal Dutch-Shell group, and a movement not only to take care of a production congestion situation in Winkler County, but to insure future employment of the Humble's tremendous pipe line investment.

Runnels Well on Pump

In Runnels county, center of interest the week before, Vacuum and others placed their No. 2 R. M. McMillan on the pump, Thursday morning, after a 24-hour swabbing test showed that underreaming 5 5-8 inch casing four feet to 2,512, within two feet of the top of the pure pay sand, had failed to shut off water. It averaged 15 barrels per hour the first 12 hours on the pump. During this 24 hours the well swabbed and flowed 254 barrels of oil with 40 barrels of water. The percentage of water, however, has been averaging only about three per cent. Its source still had not been determined, the operators holding to

TRICK DOG SHOWS STUNTS ON VISIT HERE

A dog with almost human intelligence, one that understands human speech, was a visitor in the city Monday, while enroute with his master, R. L. Edwards, to Hollywood and stardom in the movies. The dog obeyed Edwards commands for a crowd that congregated around the Standard office Monday morning exhibiting a knowledge of the English language that would be a credit to many persons.

Mr. Edwards values the animal at \$25,000 he says. The animal has been a feature attraction in theatres throughout a great part of the south, and is engaged in various cities enroute to the coast.
Walking serenely along with an open parasol over his head, Jasper appears rather high hat but \$25,000 value rather gives him cause for being a little that way. The dog has been trained by Edwards from puppyhood. That he has done real well with the canine is revealed in the alacrity with which the show dog responds to orders.

Tests recently made in Jacksonville, Fla., by the International News cameraman showed that Jasper could act a part as well if not better, than a good many dogs which are now being featured in pictures. Until the fame of the dog grew so greatly that he was voluntarily sought out by cameramen, Edwards had no idea of going to California, but the fact that many judges of dogs urged him to enter the field caused him to sell out his business and hasten westward.

It is said that the dog has the most comprehensive knowledge of the English language of any canine in the United States. His repertoire of tricks is seemingly endless, and the number of objects that he can identify by hearing the names called is so large that it has never been counted. In his native state of South Carolina, Jasper is widely known as an enthusiastic base ball, football and basketball fan. Edwards says the dog learned to moan and whimper when his favorite college team lost and would rise on his legs and bark with glee when his favorites won out. His high order of intelligence permits him to sense the spirit of joy or depression in a crowd.

His bag of tricks demonstrated here, included carrying a parasol, identifying various objects at the command of his master, jumping various objects, sitting standing, playing dead, and obeying with alacrity any orders that were given.

The dog will be seen at the R and R Lyric theatre, Friday and Saturday, March 2 and 3. Special matinee for the children at 10:00 o'clock Saturday morning.

the belief that the water is coming in below the pipe and above the top of the pay, rather than with the pay.

Magnolia's Foster No. 5
Drilling at 900 Ft. Magnolia Petroleum Company's Foster No. 5 section 17, block 29, T. 4nd P. in thelatan sector is drilling at 900 Feet and making good time.

This company's Harry Hyman No. 1 in section 65, block 29, Howard county, is drilling at 895 feet in red beds. These are the only drilling wells Magnolia has in these fields at this time.

River Bed Well at Luling Swopt Away
San Antonio, Feb. 25.—High water in the San Marcos River has carried out the derrick of the Golden West Oil Company's No. 1 river bed well in the Luling field and at last accounts the derrick on the Magnolia's No. 1 river bed was swing ing dangerously and might go out.

Yates Field Extension
San Angelo, Feb. 25.—Assurance of a half mile western extension of the shallow, heavy producing field in Eastern Pecos County through Phillip Petroleum Company's No. 1 M. A. Smith, ranked of chief importance this week in the Permian Basin of West Texas.

GRAFTING SKIN

It is agreeable to turn from what great governments are planning and doing to perfect the art of wholesale murder to those simpler, but more wholesome acts by which ordinary folks try to help instead of hurt each other.

Leslie Landrum, an 11-year-old boy of Elston, Mo. was terribly burned a few days ago when his father dropped a can of burning oil. More than 150 square inches of skin were destroyed on his legs and waist.

The only hope of saving his life lay in grafted skin which had to be supplied in small pieces by healthy people.

About 4,000 pieces were required, and the physicians in charge made a general appeal.

Thirty eight of the boy's schoolmates answered this appeal, and that, too without any misapprehension as to the pain the removal of their skin involved.

Among others, two little girls gave fifty pieces each.

Such things restore one's faith in the inherent good of the race —Ft. Worth Press.

A ROAD EXPERIMENT WORTH TRYING

The Commissioners Court would be justified in carrying out a little experimental road repair on the Big Spring-Gall highway. An application of crude oil on this highway might prove just the right thing and save a costly repair bill. It might not—but if so the cost would not be out of reason.

Oil will tend to collect drifting sand, to a certain extent, and save any further damage to this road to the small particles being carried off by the high winds.

Now, while oil is cheap, would be the best time in the world to test out this experiment, which has proven profitable in other localities.

HONESTY THE GREATEST VIRTUE

A banker who has come in contact with all kinds of folks and knows the failings of human nature says the basic virtue on which all other virtues stand is honesty. This cannot be too strongly emphasized, and in current preaching it is not emphasized enough. There is much preaching against a glass of

wine and against card playing and Sunday movies, and the lure of women. These may or may not be sins, but when they are, dishonesty is the root of them. If a man is honest, he cannot be an unfaithful husband. If he is honest he cannot be a shirking partner. If he is honest he cannot be a snob nor cheat, nor a hypocrite. Train up boys to be honest and the rest of the virtues will take care of themselves.

The owner of trucks was looking for a driver. He stated his truck had been used the past four years. Found stationery lar sizes, both Cunningham & Phillips. Herald want ad.

Big Spring LAUNDRY CO.

J. S. McCRIGHT ASKS FOR RE-ELECTION

We are authorized to announce J. S. McCright as a candidate for re-election to the office of County Commissioner of Precinct 2, of Howard County. He announces subject to the action of the Democratic Primary July 28 and his name appears in the announcement column of the Herald.

Mr. McCright needs no introduction or recommendations as he is one of our dependable citizens and his record during the ten years he has served as Commissioner of Precinct 2 will show he has served us faithfully and well. Mr. McCright has no promises to make, other than if elected he will continue to perform the duties of the office fairly and impartially and to the very best of his ability. He will very much appreciate the good will and support of all his old time friends, and also of the new citizens who reside in his precinct.

You are requested to remember Mr. McCright's candidacy when preparing your ballot for Commissioner 2 of Howard county in the July primary.

NOTICE IN PROBATE THE STATE OF TEXAS.

The Meriwether Oil Co.

is now rigging up and will spud in February 29

Friends you have been reading about it. We have laid the cards on the table.

Do you realize this is McDowell No. 7? Did you ever stop to think what caused all these wells to be drilled and what it costs to drill them, and do you know they are an asset to Meriwether Oil Co. There is not a doubt in my mind that there is a big pool where we are going to drill and the structure is as near defined as it is possible to be.

We are undertaking to and are going to do what many have said to be the impossible To make a real speedy success we need your moral and financial support and we have several reasons to expect it.

- 1 We have a clean little company and economically managed.
- 2 We have every reason to believe we will get a big well and make you a lot of money on your investment.
- 3 If you are a banker, merchant, farmer, ranchman or in business of any description from a peanut stanp on up or a workman of any description you will profit many fold when this pool is uncorked. And friends we are going to do this thing. Just look around and see what oil has done for Big Spring. More oil will do more for your city and country and keep this in mind. The Meriwether Oil Company is going over the top.

Read this over again and get in touch with either of the following men, they will take care of you and furnish you with any other necessary information:

Mr. W. J. Wooster, 507 Main Street; Mr. Balenforent, Fox Stripling's office room 1, West Texas National Bank Building; Mr. Bob Taylor, Crawford Hotel; Mr. V. H. Flewellan, Phone 433 W.; Mr. F. E. Dano Phone 483; Chas. Nelson, Phone 9003 F 2.

PINK BOLL WORM COMMISSION HERE
(Continued from page 1)

what do you advocate Judge, a non-cotton zone, regulation or nothing?"

Then, turning to the crowd, he apostrophized "you sneering fellows who insult us when we come here to help you, you who know nothing about the pink boll worm and want to be left alone."

Chairman Farris rose. "You who say let us alone—and that's you Judge Davenport—are saying something that is mighty bad I warn you that states east of the Mississippi are only waiting to hear you say that. They are only waiting a good opportunity to quarantine against Texas for they are jealous of Texas and its big cotton crops. They want your crop to fail," he said.

C. T. Watson of Big Spring shouldered his way forward and asked to be heard.

"I want to assure this commission," he said "that a few pertinent remarks made in jest do not represent the sentiment of the people of Howard county." The statement was greeted with applause "Naturally," he continued, "I would like to say in my heart, let us alone but I know I cannot say that any more than the fellow walking abroad with a contagious disease could say, 'let me alone.'"

Watson is heard
"Gentlemen of the commission while we know that if our cotton is taken from us, the results will be more serious than we are willing to consider at this time; at the same time we recognize this problem. We know that if this commission does not do something to head off the pink bollworm, some other commission will. We realize that if that Sweetwater meeting Saturday had gone Bolshevik and served notice on the world to let us alone, there would be ten quarantines in force against us today.

"We know something must be done, and we are interested in doing what will hurt us least and on a program worked out with the balance of Texas. Let's rightly ask them to help us bear the expense."

Watson then offered his recommendation of zoning the 3 affected points of the county. They are the farms of H. F. Taylor, Jim Mott and Ray Wilcox. After the recommendation had been adopted by the crowd, Wilcox, standing in the audience, hurriedly penciled a note and passed it up to Watson. It read:

"As owner of one of these infested farms, I will be willing to call my place a non cotton zone and ask for no remuneration."

A roaring chorus of applause greeted Wilcox's offer and there were shouts of "That's right," and "We'll help the others make a living."

Watson qualified his recommendation with a warning that it was contingent on speedy remuneration of victims.
"I believe," said he, "that the proposal for a non-cotton zone would be met 100 per cent if we could be sure of prompt and adequate remuneration, but we are all afraid it will come too late to save our farms like the rope thrown to the drowning man after he has gone down for the last time."

Talking for Homes
Seconding Watson's proposal Sam Little turned to Chairman Farris saying: "Mister we're talking for our homes now savvy" Little added "There may be a million worms in Howard county by now, but its too late to find out this year. The thing is let the men on whose place worms has already been found not plant cotton this year and let the legislature reimburse them, and do it promptly. Is that the sentiment of this crowd? All in favor hold up your hands and hats if you want to."

All hands went up, apparently.
McDonald, much mollified, interposed: "Now you are talking sense. Some of you men seem to think that we are already out here to put a non cotton zone on you, and gentlemen I don't know that we will recommend going even as far as you have expressed yourselves ready to go."
"Don't be too hasty in voting to inconvenience yourselves. Think it over and put your proposition in writing."

Some one called out, "Mr. McDonald what will regulated growing cost set?"
Consider the Cost
"Well," answered McDonald,

"sterilization, the biggest item of expense, under regulated growing costs the ginner from 17 to 67 cents a bale in the west I don't think anybody would be hurt in having to pay say 25c a bale for sterilization. I don't know what provision would be made as to the lint, but I understand an agreement is being made through out the United States that this lint, if it is vacuum fumigated can be shipped anywhere at a charge from \$1 to \$2.50 a bale. That's all the expense there would be."

Watson asked "Would the seed be allowed to go into the open market after sterilization?"

"I think that is being arranged," McDonald replied. "If some one in your community should build a sterilizer, would all you farmers in the territory near the non-zoned farms be willing to bring your seed there and run it through the plant as a precaution?"

Answers of "yes."
"Then that is all there would be to it," said McDonald. "Is there anything in that to get you all excited?"

The last speaker of the day was Joe Merritt, member of the legislature from Snyder. He warned that "Uncle Sam can do anything with you that he wants to just as he drafted you boys in the war, whether you think he can or not. He can see that you are quarantined." Merritt promised as a legislator, to support any measure for remuneration of growers in non-zones, but only if those who may be quarantined and put in their bills make them reasonable and true.

The following were appointed on the committee to draft resolutions or suggestions for the guidance of the pink bollworm commission:

Sam Little, R. N. Adams Thad Hale, M. H. O'Daniel, J. A. Bishop, Eli Satterwhite, B. Redgan, Fred Keating, T. S. Currie, R. L. Price and J. F. Wolcott.

Following is the resolution submitted by C. T. Watson, secretary of the Big Spring C. of C.:

"Thus far, three farms on Howard county are found to have been infested. We recommend that a non-cotton zone be declared for this year around those farms, the zone to be bounded by the nearest highways or other natural boundaries. That if there must be regulation of cotton growing in the area contiguous to these farms, such area be kept as small as possible consistent with safe precaution with remuneration for all farmers who may suffer financial losses in the carrying out of this policy. That the commission recommend to congress and the legislature of Texas that adequate and speedy appropriation be made to make possible such remuneration.

At a luncheon Monday night attended by the members of the pink boll worm commission the commissioners court of Howard County, delegates from the various school districts in the county and business men the question was gone into at length and the following resolution adopted:

Resolved: That if the non-cotton zone on farms infested was not, in their opinion, the most practical thing to do, then we would accept, willingly, a sterilization requirement for the county if the government would pay the cost of sterilization and permit our seed to go on open market as our cotton does.

The following attended the banquet Monday night at the Coffee Shop at the Crawford Hotel:

F. S. Puckett, Federal Horticulture Board of San Antonio; Victor H. Schoffelmayer, Dallas News; R. R. Ripport, Extension Entomologist, College Station, Texas; W. D. Farris, chairman of pink boll worm commission, Ennis; Geo. D. Terrell, Commissioner of Agriculture; E. E. McDonald, State Entomologist; W. K. Hawley, banker; W. W. Parter of Lubbock; E. C. Enochs, Lubbock; R. O. Von Reeder, Snyder; O. C. Bayes, T. E. Satterwhite, J. N. Labe, D. W. Christian, J. O. Rosser, A. D. Franklin, J. T. Dillard, L. H. Thomas, G. W. Davis, B. M. Whitaker, W. B. Sneed, W. W. Inkman, H. L. Rix, J. F. Wolcott, R. W. Adams, A. J. Stallings, B. B. Free, C. C. Tate, J. W. Anderson, T. J. McKinney, J. A. Bishop, J. T. Joiner, E. E. Barbee, H. R. Debenport, Geo. White, G. W. Keel, F. E. Keating, J. S. McCright, H. T. Hale, G. W. McGregor, Sam Little, E.

O. Ellington, J. F. Hamby, L. T. Coulson, B. P. Rheden, W. L. Williams, P. C. Leatherwood, P. F. Cantrell, A. M. Fisher, N. H. Montgomery, Jr., T. S. Currie, B. Reagan, R. L. Price, C. B. Whitley, R. S. Shoemaker, J. D. Castle, Shine Phillips, Max Bentley of Abilene representing the Abilene Reporter.

The pink boll commission held a meeting at Midland Tuesday, another at Marfa and will tour the infested region in the extreme western portion of the state before returning to Lamesa where the final meeting will be held on March 15th. No decision will be made until after that date.

"SELECT A LOCATION THAT WILL BE A HOME"

Go out to Odessa and SEE; they have something to see. Come back to Big Spring and SMELL; they have something to smell. Check up on their unadulterated air and GALL that's all. Then come to Big Spring to LIVE; we have the best water in all the West; and our pure invigorating air is not contaminated with Farm smell."

Present population nine thousand, will be twenty-five thousand within five years.

We are offering you SIXTY splendid lots in "Beautiful Fairview Heights" buy where you will have no regrets. Fairview Heights is almost in the center both the Primary and High School buildings. None of these lots are on the top of a hill, where seemingly it would be impossible to have the South breeze; they are out in the "sticks," where your wife in taking her children to school, would make some 5,250 feet each trip, this four times each day for each week, and for forty weeks each year. She would make some 4,011,500 feet each school term. Buy where you will be satisfied, regardless of your "yard" for business can please you in any portion of the City. For a lumber yard 150 feet or 140 by 190 feet on East Second Street; on West Second Street a location in the city for a restaurant; see 50 foot frontage by 140 feet, one of the Phone Office on Rannels Street, fine for any business. Will "dangle" on the West Highway for a 13 story office building; you do not have to be a small space adjoining a bank or postoffice these days, as almost every car, and you can be reached, just so you are on the Highway. (Watch the way grow). If you desire trackage, can suit you on East First Street, on 2nd Street, any size block, and adjoining the Marland Oil Company on the 3rd Street suit you with a full block 300 by 300 feet, or half-block or any size frontage on the lee plant.

Can you use a tract of 400 acres only one-half mile from City limits on the Refinery or Tank farm, or drilling for oil; when you want a larger tract, 800 acres per day, then drill on this 400 acres.

Special 140 foot frontage on East Second Street 150 foot, opposite Lumber office; fine for an especially fine lumber office. Doubly special, as half of same laying within the city limits on the East, the other half on the four blocks from the Passenger depot; this will make the finest addition of Big Spring.

Terms if you want them—

LARSON LLOYD AND MISS IMOGENE PRICE MARRIED
The secret marriage of Larson Lloyd and Miss Imogene Price was announced the latter part of last week. This young couple was quietly married in Midland, Texas, on September 3, 1927 by Rev. Geo. F. Brown, pastor of the Midland Baptist church. It was their plan to keep the marriage a secret until the close of this school year, the bride being a member of this year's graduating class, but the secret leaked out, and it was announced by their parents last Friday. Both are well and favorably known by everyone in this city, where they have grown up. They are popular members of the younger social set, have attended the Big Spring schools, and are favorites among their friends. Mrs. Lloyd is the sweet and attractive daughter of Mr. and Mrs. Dee Price. Besides being a member of the Rainbow Girls, she belongs to the I. K. K. A. H. High School organization of girls, and bridge club. Mr. Lloyd, the son of Mr. and Mrs. R. E. Lloyd, is now in the employ of the West Texas National Bank. Until recently he was a valued employee of the Gulf Refining Company. He is a dependable and energetic young man, and can be recommended because of his many fine traits of young manhood. The many friends of the happy young couple extend to them best wishes for a full measure of prosperity.

LORIN McDOWELL AND MRS. RUTH EDWARDS WED
The wedding ceremony which united in marriage Lorin McDowell and Mrs. Ruth Edwards was performed at Garden City, Texas, Tuesday evening February 28th. Mr. McDowell, the son of Mr. and Mrs. E. S. McDowell is well known in Big Spring. He is a prosperous Howard county rancher, being associated in business with his father. Mrs. McDowell, until her marriage, was operator at the Crawford Hotel Beauty shop. She has a wide circle of friends who extend to her best wishes for happiness. The Herald joins a host of friends in wishing for them a full measure of happiness and prosperity.

L. R. SCHULTZ AND MISS ETTA HOWE MARRY
Lee Rose Schultz and Miss Etta Howe stole a march on their friends last Wednesday when they were quietly married. The ceremony was performed at the home of Rev. and Mrs. B. B. Walters, at 9:30 o'clock, Wednesday evening, February 22nd. The bride is the attractive daughter of Mr. and Mrs. John Rowe, and she has a wide circle of friends in this community who wish her every success and happiness. Mr. Schultz is the son of Mr. and Mrs. C. J. Schultz, and he is held in esteem by all who know him. At present he is chef at the Beard Cafe. Congratulations and best wishes are extended the happy couple by their many friends in this community.

MISS GUSIE PARRISH AND D. C. BIDDISON WED
Miss Gusie Parrish, daughter of Mr. and Mrs. J. T. Parrish, and D. C. Biddison of Ft. Worth were united in marriage at Odessa, Texas, January 29th. They are at home to their friends in Big Spring. Mrs. Biddison is an attractive and accomplished young lady, and has grown to young womanhood in Big Spring. She is a graduate of the Big Spring High School, where she was a popular student. Her many friends wish her every success and happiness in married life. Mr. Biddison is a commendable young man. At present he is in the employ of the Gulf Refining Company. Congratulations and best wishes are extended this happy young couple.

W. H. CAUTHRON OF RANKIN SPENT THE WEEK END IN THIS CITY VISITING MR. AND MRS. J. D. BILES
Herald want ads got recalled.

MARGUERITE EZZELL AND W. A. HENDRIX WED
Friends in this city will read with interest the account of the marriage of Miss Marguerite Ezzell and W. A. Hendrix who were united in marriage in Edinburg, Texas, on Sunday February 12th. The bride is the attractive daughter of Mrs. Mary Ezzell of this city. For the past year she has been making her home in Edinburg, where she has been in the employ of the Central Electric Company. Prior to this Mrs. Hendrix had worked for the Texas Electric Service Company at Lamesa and Big Spring. She is a Big Spring girl, held in high esteem by all who know her, and her many friends here wish her every success and happiness. Mr. Hendrix is a promising young business man, engaged in the grocery business in Edinburg. He comes to us highly recommended. They will make their home in Edinburg. Congratulations and best wishes are extended them for a full measure of happiness and prosperity.

WORK ON COMMUNITY CLUBHOUSE STARTED
Actual work on the Community Clubhouse on the Courthouse Square has been started. The ground has been laid off, and Carter Bros. contractors are making all plans to begin immediate construction on the building. Everyone is rejoicing to know that we are soon to have a community center and feel proud that they had a part in making this dream a reality. The plans and specifications of the building are on display in the C. & P. Drug store, No. 1, and everyone interested in seeing them is invited to call and inspect them, while they are on display. The Elks Lodge has donated their furniture to the City Federation women for the clubhouse. This donation has helped wonderfully. It is deeply appreciated and thanks will be publicly expressed at some future time. The regular meeting of the Federation will be held in the Rest room of the court house Tuesday afternoon at 3 o'clock. At this time a check will be made, and all \$10.00 women who have not paid will be listed. Each one will be asked to send in her money immediately, as construction work is started and the money is needed. All of the members are urged to be present at this meeting.

BAKER MILLINERY SHOP TO OPEN MARCH 6TH
The Baker Millinery shop will have its opening Tuesday March 6th, and at this time a beautiful array of spring and summer millinery will be on display. All of the women and young ladies are extended a most cordial invitation to pay a visit to the shop on the opening day and inspect it. Mrs. T. E. Baker will be proprietor of the new millinery establishment and she is experienced in this work. She hopes to make many new friends and work up a long list of patrons, with the attractive head wear that she will always have in stock. The Baker Millinery shop will be located in the space formerly occupied by the Catherine Hat Shop. Mrs. J. L. Milner is moving her shop to its new location in the Douglass Hotel and it will be known as, Catherine, The Ladies Shop. Besides having a full line of millinery, Mrs. Milner will also sell lingerie, ready to wear, shoes, hose and everything for millady, with the exception of coats. The opening of Catherine The Ladies Shop, is being held on Tuesday, March 6th, in its new location in the Douglass hotel. The formal opening will be held at the same time the Hotel opening is held.

MISSIONARY SOCIETY WILL MEET MONDAY
The Woman's Missionary Society of the First Methodist church will hold their regular business meeting in the parlors of the church, Monday afternoon at three o'clock. All the members and friends are cordially invited and urged to be present.

FOUNTAIN PENS WITH A GUARANTEE
Cunningham & Phillips.

"FORTUNATE CALAMITY" AT CENTERPOINT TONITE
"A Fortunate Calamity," a 3-act comedy will be presented at the Baptist church at Centerpoint, tonight, beginning at 8 o'clock. This play was to have been given two weeks ago but had to be postponed. It is all the better now, since the players have had plenty of good practice, and they can better fill the parts they are enacting. The play is given as benefit of the Centerpoint school and is being directed by Mrs. D. F. Mims. Local talent makes up the personnel of this presentation and it is said to be one of the best plays obtainable. Rastus and Diana, the two darlings, are said to be worth the price of admission. They will keep you laughing all of the time. There will be music before the play and during the intermission. Everyone is invited to come out and attend this entertainment. You are sure to enjoy it, and at the same time you will be helping the school. Everybody come.

SPECIAL MUSIC AT FIRST BAPTIST CHURCH
There will be special music at the First Baptist church both Sunday morning and Sunday evening, March 4, Sunday morning Mrs. R. H. McNew and Miss Ruby Bell will sing a duet, Herbert Keaton will give the number, "I've Done My Work." Sunday evening, Mrs. Roy Green will sing, "Lead Thou My Soul." There will also be a sacred number sung by a double quartette composed of Mrs. Fred Hopkins, Misses Maurine Weatherly, Mary Higgin and Ruby Bell and Roy Cornelison, C. T. Hollibaugh, Buell Cardwell and G. T. McNew.

BIG DISTRICT MEETING AT COLORADO
The Big Spring Band accompanied a big delegation of Big Spring folks to the district meeting of the West Texas Chamber of Commerce at Colorado, Wednesday. A big attendance with delegations from many towns in the district caused this to be one of the best regional meetings yet held. Snyder with a delegation 100 strong won the next regional meeting. The Pink Boll Worm and Highway hobbos came in for much attention. C. T. Watson as chairman of the resolution committee sponsored adequate compensation for West Texas cotton growers if the Pink Boll Worm Commission recommends either a non-cotton zone or a strictly regulated zone.

ST. MARY'S AUX. WILL MEET MONDAY AFTERNOON
The Women's Auxiliary of St. Mary's Episcopal church will hold their regular study meeting at the Parish House, Monday afternoon at 3 o'clock. The lesson will be taken from the book "A Church Awake." All of the members are urged to be present.

OLD TIMER VISITS HERE
N. P. Kirby of Dallas was visiting in Big Spring Wednesday. Mr. Kirby was a former resident of Big Spring, having been engaged in the blacksmith business on the lot where the Wolcott Garage is now located. The Herald at that time was published next door to his shop. This is his first visit to Big Spring since he left here 23 years ago, and he was agreeably surprised to find such a wonderful growth. He stated that we had just begun to grow and looked for greater development in the next year or two than in the past 20. Mr. Kirby owns land in this county and was here in the interest of same.

SOUTHSIDE MARKET LOCATED IN SMITH GROCERY
The Southside Market is the name of the new concern that has opened for business with the Smith Grocery on Rannels St., near the High School. J. C. Campbell and Felton Smith are proprietors of this new meat market, and they invite the general public to come in and give their market their approval. They will keep on hand a fresh supply of tender meats and other market products at all times, and can assure prompt and courteous service. You are invited to give this market a trial.

MR. AND MRS. J. Y. ROBB AND BABY DAUGHTER LEFT TUESDAY NIGHT TO VISIT RELATIVES AND FRIENDS IN DALLAS. Mr. Robb will also approve the plans and specifications for his new \$200,000 theatre that is to be erected at the corner of Main and 4th streets. It is thought that work on same will be started by March 15th. Big Spring is growing so rapidly that Yull says he must have more room to take care of the crowds, for the Lyric and Queen theatres are inadequate to accommodate everybody. Work on the new theatre will be rushed so that it can be used at as early a date as possible.

MISS VERBENA BARNES WITHDRAWS FROM RACE
To my friends and supporters: After due deliberation I am withdrawing my name from the race for County Superintendent. I appreciate greatly the interest and endorsement of all who have encouraged me to enter the field but think it best to leave politics entirely alone. I wish to thank everyone who has pledged me their support and to assure them I feel most highly honored by their many kind expressions of esteem. But I am definitely withdrawing. Sincerely, Verbena Barnes.

WEST TEXAS RAILROADS WANT HIGHER RATES
Kansas City, Mo., Feb. 28—Rate experts representing the Texas and Pacific and other railroads operating in West Texas, made an appeal before Interstate Commerce Commission examiners here Tuesday for special higher rates on livestock shipped from Texas in event rates are readjusted as proposed. The railroad representatives declared the sparsely settled conditions of West Texas and the lack of return shipments on the cars sent out with West Texas cattle make higher rates necessary to meet expenses.

W. J. GRIFFITH RECEIVES PAINFUL INJURIES
W. J. Griffith an employee of the Lockhauser Pipe Line Construction Co., received painful injuries Tuesday afternoon when he was run over by a truck. Mr. Griffith was pushing at the back of a heavily loaded truck that was unable to make the hill and in some way he slipped and fell. The truck backed over him causing the fracture of several ribs, and other painful injuries. Mr. Griffith was rushed to this city for treatment. An X-ray has been made but the extent of his injuries have not been ascertained. He is reported to be resting fairly well. W. H. Ryan of El Paso was in the city Thursday.

REGULATION, NOT CONFISCATION
West Texas want on record at the pink bollworm meeting in Sweetwater Saturday as being favorable to "regulation without confiscation." In brief, they let it be known that they are favorably disposed to consider and act upon any reasonable measure of regulation, but are unalterably opposed to having a non-cotton zone declared to their own financial and economic hurt without any corresponding benefit in the battle against the encroachment of the worms. A non-cotton zone would mean absolute prohibition of planting in the affected area. That means the cotton farmers of the counties known to be infested would have their farms closed to productive effort, with no provision for compensation. In addition it would mean the shutting down of scores of new gin plants in that region. It would strike an all but fatal blow at the agricultural activities of thousands of loyal Texans. A much more sensible plan is that suggested by Governor Moody, in an interview given this paper following the meeting. It was that regulation be resorted to as a substitute for the non-cotton zone plan. The growers themselves, as we understand, favor this. They do not want to needlessly endanger the cotton growing industry of their state and of the South, but are willing to meet the authorities half way in preventing the spread of the pest through proper regulation.

CONFISCATION
A non-cotton zone in the seven counties known to be infested would not only work a hardship on the farmers but it would seriously affect the business interests of those counties. Strict regulation that would protect the rest of the state against the insect and at the same time leave the affected areas free to produce cotton under proper conditions would achieve the same result without causing disaster to the farmers and to their friends, bankers and merchants. No amount of financial assistance could compensate the farmers for the outright loss of their means of livelihood even if such assistance were available—which it isn't. Economic ruin to thousands of families would be unavoidable. It would bring on acute suffering and dental huge losses. It would almost depopulate the rural sections of the counties involved. Let us hope that the governor's suggestion of regulation without declaring a non-cotton zone will be adopted. It means the difference between financial ruin on the one hand, and a fighting chance on the other. Let's give them the fighting chance.—Abilene News.

WEST TEXAS RAILROADS WANT HIGHER RATES
Kansas City, Mo., Feb. 28—Rate experts representing the Texas and Pacific and other railroads operating in West Texas, made an appeal before Interstate Commerce Commission examiners here Tuesday for special higher rates on livestock shipped from Texas in event rates are readjusted as proposed. The railroad representatives declared the sparsely settled conditions of West Texas and the lack of return shipments on the cars sent out with West Texas cattle make higher rates necessary to meet expenses.

W. J. GRIFFITH RECEIVES PAINFUL INJURIES
W. J. Griffith an employee of the Lockhauser Pipe Line Construction Co., received painful injuries Tuesday afternoon when he was run over by a truck. Mr. Griffith was pushing at the back of a heavily loaded truck that was unable to make the hill and in some way he slipped and fell. The truck backed over him causing the fracture of several ribs, and other painful injuries. Mr. Griffith was rushed to this city for treatment. An X-ray has been made but the extent of his injuries have not been ascertained. He is reported to be resting fairly well. W. H. Ryan of El Paso was in the city Thursday.

THE PINK BOLL WORM
O. Little pink boll worm to some your are blest, But to the West Texas farmer you are a pest. On account of you we cannot raise cotton, And have all kinds of bug men over our fields a trotton— They find a little worm and shout with glee, Like a little school boy swinging in a willow tree. Oh, we have bug men who are paid by the state, They come and look around and point to us our fate. And tell us the way to send "pink" to his death Is by fumigating everything, even our breath. We might outdo the little worm in three years, By quitting cotton and raising steers. Or maybe we could raise chickens, but what's the use, When we can raise the dickens. To people who are worrying and feeling blue, Stop that at once, for the sun always shines through. Don't get angry and over fret, for even maize is a fairly good bet. We are all here and must meet our fate, And maybe we can get help from our state. If not, I guess for some there will be tears, All on account of trying to satisfy fears. The men in the East are sitting alright While we in the West are putting in a fight. By Paul Bishop, Route 1, Big Spring, Texas.

R. C. DEAN TAKEN TO HOSPITAL AT MARSHALL
R. C. Dean, who received a fractured leg in a fall from a train near Lorraine, last Friday night, was taken to the T. and P. hospital at Marshall, Texas, for treatment Sunday night. Reports from the hospital state that he is getting along nicely. Mr. Dean was on duty as an engineer when he fell the victim of the accident. His train was waiting in Lorraine for another train to pull out, as we understand it, and he left his engine room to go and talk to the engineer on the other train. As the other train was ready to pull out, he stepped from the cab just as it started to move and went off of a 25-foot embankment. His leg was fractured in the fall. Mr. Dean had to pull himself up this embankment, dragging his injured leg. After he reached the tracks, he tried to attract the attention of some of the members of his crew. Finally he began to strike matches and burned up his orders, all of the paper he had on his person, and this signal brought him help. He was brought into Big Spring on the passenger train and given treatment before he was taken to the hospital at Marshall.

MR. J. R. HALE, INTERMEDIATE TEACHER AT THE MOORE SCHOOL, AND THE PUPILS OF THE 6TH GRADE, NAMEDLY VERDIE HAYWORTH, IOLA GOODMAN, MARIAN NEWTON, CECIL PHILLIPS, RUBY ANDERSON AND ALICE BURETT, VISITED THE HERALD OFFICE THURSDAY AFTERNOON TO SEE HOW THE PAPER IS PRINTED.

MR. AND MRS. W. F. CUSHING VISITED THEIR DAUGHTER MISS CONSTANCE CUSHING WHO IS ATTENDING SUL ROSS STATE TEACHERS COLLEGE AT ALPINE, THE PAST WEEK END. Mr. Cushing was also a business visitor at Perlinga Creek and other points in the Border Country while in that section. L. A. Eubanks arrived this week to again become manager of the Retail Merchants Association in this city. Mr. Eubanks formerly served in this capacity in this city, leaving here about a year ago to take up this work in Midland and Odessa. E. T. Cobb this week sold two cars of registered Hereford cattle to Queen and Donaldson of Mollaga, New Mexico. This fine bunch of cattle was shipped so that point this week. It brought a fancy price. J. T. Johnson, a student of S. M. U., alias, Texas, is visiting relatives and friends in the city.

OIL INDUSTRY

ENTERS NEW ERA

The American oil industry is now engaged in a co-operative effort to solve its own problems and to further improve all methods of operation.

Technical research problems are being studied under careful guidance and control.

Committees are actively at work in an effort to find means for more intelligent and economical development of oil lands and in a study of possible legislation which would afford greater freedom in cooperative control of production and distribution.

The entire industry stands pledged to cooperation with the Federal Oil Conservation Board in furtherance of the most practical national oil policy.

The American oil industry developed under private control by American initiative, energy and capital has shown unprecedented growth. The products of petroleum make possible the use of machinery in industries and in agriculture, while rapid and economical transportation of passengers and freight by oil driven engines on land, on water and in the air is an outstanding economic achievement of this century.

The oil business is entering a new era. Conditions and practices under which it has been operating are undergoing a change similar to the passing of the old bonanza days of mining for metal; new conditions call for new methods of operation.

FORMER CITY TRAFFIC

COP IS ARRESTED

An ex-city traffic officer Luther Winters, and Lyman Sams, mechanic, have been allowed bonds of \$750 each in Judge Ford's peace court here in connection with the seizure Tuesday near Elmdale of 24 gallons of liquor by members of the sheriff's and city police department. The liquor was held in four cases.

Winters and Sams were arrested on the highway. Both waived examining trials. Winters is said to have had an officers commission at the time of his arrest.—Abilene Reporter.

It is reported that Winters was formerly employed by the Commissioners Court of Howard County to serve as traffic cop at Big Spring.

SHEEP RAISING PROFITABLE

That sheep raising is becoming an increasingly popular industry in West Texas is certain. And the despised sheep have put many a livestock raiser on his feet when the slump in the price of cattle came after the war.

We have in mind one cattleman who got hit and was in debt from \$50,000 to \$75,000. Ten years ago he leased a 15,000 acre ranch in an adjoining county for which he paid \$5250 lease per year. That was ten years ago. He has paid during the ten years \$52500 pasturage bill, has paid all expenses, paid off all his indebtedness and he has sheep and cattle now in which he has clear equity of \$50,000.

He has stayed on the job and the lowly sheep have made it possible for him to get out of the hole, and put him on Easy Street.

BALANCING FARM AND FACTORY

According to President Preston of the American Bankers' Association, the future of our country rests upon establishing industrial centers in the rural regions.

Stop multiplying factories in densely populated cities and take them nearer to the producers and give the farmers a better home market, he says.

In addition he argued better employment for surplus labor, elevating the standards of living, increasing public revenues, reducing taxes and providing better schools.

He showed that there was no serious farm troubles in states where industries and agriculture are brought into closer contact.

Twelve years ago Kingsport, Tenn., had 1900 population. A big Kodak factory and a large cement plant were located there and a now has 17,000 population. One of a thousand instances of the effect of farms and factories supplementing each other.

Have the same confidence in your dentist as you have in your doctor. Cunningham & Phillips.

IT'S A GOING CONCERN

When the Four-Square rural community plan was first offered by Farm and Ranch a little more than a year ago, it was frankly an experiment. The principles involved were known to be sound, but its reception by the rural public and its actual working in practice were questions that could only be answered by experience. Today there is no longer any such question, for the Four Square plan has been eagerly accepted wherever it has been explained, and scores of rural communities have already felt the benefits of harnessing their own abilities and resources in a well rounded effort for community betterment.

"Never before, since the great agrarian movement of the '80's, have farm people been so ready to tackle their own problems, so willing to come together, to read to think, and to intelligently discuss ways and means to bring to rural life the high standards to which it is entitled." This is the considered verdict of one of our editors, who has been contacting with farm people in these community meetings, and who has seen the Four-Square plan in its actual workings.

While the plan was in its experimental stages, Farm and Ranch had little to say editorially, preferring that the people to be served have a full opportunity to evaluate the plan in practice, rather than that it should unduly pre-argued

through these columns, and thereby, perhaps lead to hopes and expectations which could not be realized. For after all its success or failure depends upon the people of any given community—not upon the plan itself. It was intended to be and is, only an effort to correlate the activities of all agencies trying to serve rural people, first with each other and finally with the powers and ambitions inherent in or to be developed in the people of the communities.

The co-operating agencies—the State universities and colleges, and the State boards of health—we have had all along. Each in its own way and in its own field was giving the best service possible to the people of the States. The people themselves did not, and do not yet, fully appreciate these services or even in many cases know what services are being offered, and this through no fault of the institutions themselves. Furthermore, the people have not been in a position to receive and utilize the various services offered because they could not be reached and served as individuals.

The Four-Square plan is an attempt to meet this situation. It is founded upon the assumption that State institutions exist for the people, and not for their own glorification. The institution, gladly, we may say proudly, accept this dictum. Where they have been each acting without reference to the other, they willingly join in a correlated pro-

gram which assigns to each its own function, and through which each strengthens the hands of the other. The Four-Square plan is the first effort to thus link together all the rural activities of all those institutions.

The mental and moral strength of rural people is as great now as when it swayed the policies of the Nation, but it has lain dormant, smothered by individualism and lack of contact between minds. The community club, as proposed in the Four-Square plan, is the vehicle through which the individual abilities may be brought to bear on the community as a whole. It is also the vehicle through which the community mind may be expressed and through which the services of outside agencies may be reached and brought to the community most effectively.

Bringing together all these forces is the objective of the Four Square plan, and this is the only unique feature that it proposes. In the conviction that whatever inspires and benefits

rural people will eventually result in higher social, political and economic standards of the States and the Nation. Farm and Ranch is committed to the program which it tentatively offered first in the fall of 1926. Three men, imbued with the spirit of service and a sympathetic understanding of rural life devote all or part of their time to explaining the plan in those counties where the local leadership shows a willingness to team together in an unselfish effort for the general good. As long as farm people show themselves willing to work together for their own ends—and beyond the four simple requirements named in the plan itself, they must determine for themselves

what their needs are—so long will these men be at the service of the farm people in Farm and Ranch territory, without money and, without price.

The Four-Square plan is a going concern. It is showing the way to self help in scores of communities all over Texas, and will be introduced—by request—into Arkansas and Oklahoma, by the time this is in print.

CHEVROLET

Smoother and more Powerful!

Performance that is thrilling thousands of new owners every day

Smoother—more powerful—more comfortable and more distinctively styled... the new Chevrolet is sweeping to heights of success the like of which no new car ever enjoyed before! In every city and town, Chevrolet sales are surpassing even last year's record which made Chevrolet the world's largest builder of automobiles.

If you have not yet driven the new Chevrolet you cannot imagine what thrilling performance can be provided in a low-priced automobile.

At every speed up to the wide open throttle, there is a quietness and smoothness of operation never before experienced in a car of this type. And combined with this thrilling smoothness are remarkable new qualities of acceleration and a new reserve of power that is a constant delight to the driver. In addition there is provided an order of riding comfort previously considered exclusive to cars costing hundreds of dollars more.

The wheelbase has been increased to 107"—resulting in amazing new balance and roadability. The marvelous new Fisher bodies are longer, lower and roomier—and built of combined hardwood and steel, the type of construction used in the world's finest motor cars.

The body is cradled on semi-elliptic shock absorber springs—84% as long as the wheelbase. The worm and gear steering mechanism—fitted with ball bearings even at the front axle knuckles—provides finger tip steering and a surety of control that greatly enhance the satisfaction of Chevrolet ownership. And non-locking four-wheel brakes are a positive safety measure.

No matter what car you may be driving—no matter what automobile of this type you have owned in the past. Come in today! We have a demonstrator waiting for you—and the proof is in the driving.

MYSTERY, MIRTH SHARH HONORS IN 'THE GORILLA'

Combining the last word in chills with the last laugh in merriment, the picturization of Ralph Spence's famous mystery-comedy, "The Gorilla," is coming to town next Monday. It will be shown at the R & R Lyric Theatre, Monday and Tuesday, March 5 and 6.

This is the show that rocked Broadway for a year. In its film form it has been changed somewhat, it is reported by First National Pictures, in order to offer a new mystery tangle to those who may have seen the stage presentation. That a great many have seen it is due to the fact that during the last two years 8 stage companies toured this country and Great Britain, scoring a sensational success everywhere.

Weird and novel settings and exceptional lighting effects are said to make the screen version of the "The Gorilla" even more spooky than it was on the stage.

HOW ABOUT A BASEBALL TEAM

The baseball season will be here and it is thus we were planning for a baseball team to represent our city.

Big Spring is presented with an opportunity to provide some good clean sport during the Spring and Summer. We can maintain a good team for around \$2000 to \$4000 for the entire season of around five months. Other cities in West Texas are expecting to pay three times this amount to pay salaries for the players on their teams.

Surely we can donate as much for an entire season as other places give up for one month's play.

If we want a good team here it is time we began on our plans April is the month for the great national game to get started and if we are to have a team able to hold its own with fast teams of other West Texas points we should be looking out for a few more players.

One of the first necessary steps is for fans to hold a preliminary meeting and decide whether or not we are going to have a team. The next step is to begin raising funds to encourage baseball players to come to

Oil Royalties Over \$8,000,000

Texas University oil royalties since the beginning brought \$8,343,000 to the institution's permanent fund and interest derived in turn from that source had totaled \$530,000 for the available fund. J. T. Robison state land commissioner, said Saturday.

FIFTEEN YEARS FOR H. W. HAYNIE

H. W. Haynie, on trial here this week in connection with the fatal shooting of John Lane at Stanton March 28, 1926, was found guilty of murder by the jury yesterday, and was given a fifteen year penitentiary sentence. Lockhart and Garrard defense attorneys and District Attorney Roy Biggs, was assisted in the prosecution by Denale Zimmerman of Tulla and R. C. Joiner of Plainview.—Midland Reporter.

Gas stove burns are relieved with Unguentine Cunningham & Phillips.

BEHIND RUSSIA'S

LATEST CRISIS

People must eat. And also they must be able to connect with a certain minimum of goods—things to wear and use in the every day job of existing. Up against a brick wall of these simple but heavy facts, Soviet Russia today faces one of the most serious domestic crises of her history.

There are bread lines in the towns and goods lines in the country. Insufficient foodstuffs are finding their way to the cities and insufficient manufactured products are finding their way to the farms. Eternal queues wind away from the doors of the foodshops of Moscow and other Russian cities while in the country the peasants are stubbornly holding on to their products because the village merchants are out of goods. Hauling their wheat, rye and other cereals back home, they are turning their surplus grain into potent samogen, native moonshine, rather than sell it for cash which will not buy the things they need.

So requisitions are under way according to the latest cables. Soldiers are seizing grain stocks. At best, however, this will afford but temporary relief. Eventually it will hurt more than it will help, as Russia should know from experience. Being very human, Russians simply will not break their backs raising surplus food products if this surplus is to be taken from them without adequate return. Farmers need plows, medicines, needles, thread, frying pans, cloth for clothes, tools and what not and it is to buy these things that the Russian peasant produces a surplus. If he is not to get these things and his surplus is taken from him anyhow, next year there'll be no surplus and the city folks can jolly well starve.

That is about the situation in Russia today. Russia is facing fundamentals, the primitive and

near primitive requirements of the human race. The most beautiful promises in the world mean little to a man with an empty stomach and not much more to a man with a naked back. Their wants are too immediate.

Very laudably Moscow is today looking forward to the ideal of a three hour day, but the country workers—the peasants, forming 80 per cent of the population—can hardly be expected to cheer justly for this as they seek in vain for necessities in the towns. Already the town workers are guaranteed unbroken rest periods of 42 hours a week, two weeks vacation a year, unemployment doles, low rents and other privileges while the farmers like farmers everywhere are at it from sunup to sundown week in and week out, pretty much around the calendar. Why they ask, should they now have to go without the things they need, yet hand to the city worker more food?

A few years ago Russia faced a somewhat similar situation. Moscow tried to tell the peasants what to do with their surplus. Millions went hungry and many actually starved. Trouble again lies ahead unless Moscow can find a way to speed up her industries and so strike a better balance between the city and the farm.—Fort Worth Post.

MITCHELL CO. WOMAN TO SPEAK ON HOME PRODUCTS

Mrs. J. Lee Jones, president of the Mitchell county Home Products Association has been asked to speak on the plan of operation of the association at the second school of cooperative marketing at the A. & M. College March 1, according to Miss Abbie Sevier home demonstration agent.

The Home Products Association was organized about a year ago by Mrs. Jones and the home demonstration agent and total sales will run approximately

POULTRY RAISING INDUSTRY IN HOWARD CO.

The farmer on the South Plains who formerly said he had no time to feed chickens or 'peddle eggs' today is paying his grocery bill and some other living expenses with eggs and chickens according to J. B. Pickle, Big Spring merchant who buys \$50,000 worth of farm products each year.

The raising of poultry in the Big Spring territory has been gaining in popularity and profit during the past two years and many farmers have improved their credit standing with both the banks and the merchants. The farmer who brings into Big Spring each week a crate or smaller quantity of eggs finds a ready market that is paying at present a price of 25 cents per dozen, which is the lowest level to which they have gone since last summer.

The oil field demand for eggs and the rapid increase in the population of Big Spring due to the development program taking place offers the farmer a remunerative market for his produce.

Rev. Claude Wingo, pastor of the First Christian church saw an opportunity for a commercial hatchery to make money in the Big Spring area and has installed a modern poultry plant with a mammoth Buckeye incubator with which he is doing custom hatching for the farmers of Howard county and adjacent coun-

ties. Brooder houses and equipment have been installed and several thousand birds will be kept on this farm, according to the Rev. Mr. Wingo.

Grain sorghums an excellent poultry feed, grown abundantly in the Big Spring area and are supplemented during the winter months with pie melons. Thousands of these melons grow along the fence and turn rows in the fields. They are hauled up in the fall and covered with bundle sorghum to protect from freezing. The melons are splendid substitutes for both poultry and stock food.

ties. Brooder houses and equipment have been installed and several thousand birds will be kept on this farm, according to the Rev. Mr. Wingo.

The melons are splendid substitutes for both poultry and stock food.

BUY PROPERTY ON HIGHWAY

Stone and Johnson, realtors, last week purchased of Mrs. M. Gilly a lot on East Third st., consideration \$6500, and thus another residence will be shunted off this thoroughfare to make way for another business building on this the "Broadway of America."

It won't be long until substantial business buildings will line both sides of this busy street, out as far as Camp Coleman.

The members of this firm sold to a Mr. Murphy of Big Lake, eight lots in block 18 in Jones Valley addition for a consideration of \$1600. Mr. Murphy contemplates building rent houses on this property in the near future.

We are indeed glad to hear this for we certainly need more rent houses and apartments if Big Spring expects to keep on growing and prospering.

What Is Cash Like When It's "Cold"?

A DELCO-LIGHT magazine ad says a man in Minnesota "Pocketed an extra \$900 in cold cash in a single year from 250 hens after he lit his hen house with Delco-Light." Hot or cold, it's a nice bit of extra cash. Hot or cold, it's what we're all after, and if I sell you a Delco-Light you'll get yours in increased egg production, reduced labor costs and all the rest of the things the ads tell about. It's one of those propositions where each of us gets the best of the bargain, if you know what I mean.

IMPROVED UNIFORM INTERNATIONAL
SUNDAY SCHOOL
LESSON

By Rev. F. B. Fitzwater, D. D.
 Dean, Moody Bible Institute of Chicago
 (St. Paul, Western Newspaper Union.)

Lesson for March 4
JESUS AND THE TWELVE

LESSON TOPIC—Mark 3:13-19; 6:7-13.
GOLDEN TEXT—Go ye into all the world and preach the gospel unto every creature.
PRIMARY TOPIC—Jesus Chooses Twelve Helpers.
JUNIOR TOPIC—The Twelve Apostles and Their Work.
INTERMEDIATE AND SENIOR TOPIC—Jesus' Call to Service.
YOUNG PEOPLE AND ADULT TOPIC—The Training of the Twelve.

1. The Twelve Ordained (Mark 3:13-19).
 Jesus, knowing that His earthly career would be cut short, made provision for the carrying forward of His work after He was gone by calling and ordaining the twelve. Before doing this He spent a whole night in prayer (Luke 6:12). The burden of His prayer is indicated by what He immediately did. From among His disciples He chose twelve, whom He ordained for a twofold purpose.

1. "That they might be with Him" (v. 14).
 Fellowship with the Lord is not only the highest privilege of a disciple but the indispensable qualification for witnessing for Him. Personal association with Jesus Christ—the interaction of personalities—the impact of His personality upon ours is the essential preparation for Christian service.

2. "That he might send them forth to preach" (v. 14, 15).
 To proclaim the good news of salvation to the lost world was the supreme mission of the disciples. Their credential for this mission was the endowment of the power of the Spirit—"To heal sickness and to cast out devils" (v. 15). Concerning those who were to be Christ's messengers observe:

(1) That twelve were ordained (v. 14). This was the beginning of the process by which the true God was to make known His grace to the whole world, therefore He sends forth the number of men corresponding to that purpose. The number twelve is the product of the heavenly three and the earthly four, indicating the purpose of the true God to reveal Himself to the four quarters of the world.

(2) Their characteristics. (a) Men of average ability. They were not from schools and colleges, yet men of mental capacity and efficiency. This has been the history of the Christian church. Not many noble, not many wise after the flesh are called (I Cor. 1:26). (b) Middle ranks of society. They were not chosen from among the rich, neither from among paupers. The most efficient workers are those who are able to sympathize with the common people. (c) Diverse temperamental gifts. They were so grouped as to have impulse and leadership—reflection and questioning went together, and among them were found men of practical business ability.

11. The Twelve Sent Forth (Mark 6:7-13).
 Two urgent considerations pressed upon Him—the increasing number of eager hearers and the fact that His career would soon end.

1. They were sent forth in pairs (v. 7).
 Two reasons may be assigned for this: (1) A cheering and comforting companionship for the workers.

(2) Confirmation of testimony. In the mouth of two or three witnesses every word shall be established. People would more likely believe that which was verified by two.

2. Supernatural authentication of their mission (v. 7). He gave them power over unclean spirits. He endowed them with power to work miracles, in order to demonstrate their divine commission.

3. Their maintenance (vv. 8, 9).
 They were to depend wholly for their support upon the Lord who sent them. Having received the message and the power gratuitously they were to give them out in the same way (Matt. 10:9). The laborer is worthy of his hire, but he should depend upon the Lord to move His people to supply his needs.

4. Contentment with hospitality (v. 10).
 According to Matt. 10:11, inquiry was to be made upon entering a city as to a reputable place to stay. Upon being directed to such a place the missionary was to be content.

5. The responsibilities of the hearers (v. 11).
 Judgment was to be pronounced against those who rejected their message. Their doom would be more hopeless than that of Sodom and Gomorrah.

6. Their message and work (v. 12, 13).
 They went out and preached that men should repent. Matthew adds, "The Kingdom of Heaven is at hand" (Matt. 10:7). This means that the Kingdom promised to Israel was at hand, that the Messiah was present and ready to set up His kingdom. In confirmation of this message they cast out many devils, healed with all manner of diseases, and healed them.

U. S. CIVIL SERVICE EXAMINATIONS TO BE HELD
 The United States Civil Service Commission, at the request of Postmaster General, announces a competitive examination for postmaster in this city. This examination is held under the President's order of May 10, 1921, and not under the civil service act and rules.

Competitors will not be required to report for examination at any place, but will be rated upon their education and training, business experience and fitness.

Apply to the secretary of the board of civil service examiners at the post office in this city or to the United States Civil Service Commission, Washington D. C. for application form, containing definite information in regard to the examination.

Applications must be properly executed, and filed with the Civil Service Commission, prior to the hour of closing business on the date specified on the form.

An open competitive examination for Clerk-Carrier is also announced for the post office in Big Spring, to be held under the rules of the U. S. Civil Service Commission. Receipt for applications will close March 7. Applications for this examination must be made on the prescribed form which with necessary instructions may be obtained from the Commission's local representative at the post office or from the Secretary of U. S. Civil Service Board.

Whatever it is in California that attracts people to the labor inconveniences and expenses of automobile trips across the continent, may not be known, but whatever it is, it is making business good in Colorado and other towns along the Bankhead highway. The tourists are in continuous stream of travel, in going and coming, and they scatter lots of good Eastern money along the highway. The little boy in Florida answered the question of what the Florida people lived on by saying they lived on catfish in summer and tourists in winter. Its a tourist diet both winter and summer here.—Colorado Record.

Impressive Six-Cylinder Performance at Its Most Impressive Price

PERFORMANCE—That's the outstanding factor in the sensational success of the New Series Pontiac Six! And real six-cylinder performance, too!

The power and high-speed endurance of the largest engine used in any six of its price class. The smoothness and flexibility assured by the GMR cylinder head—that famous General Motors Research development available on no other low-priced six.

The reliability, economy and safety resulting from numerous other great new advancements in design—the cross-flow radiator with thermostat control, improved manifold and carburetor with accelerating pump, "down draft" crankcase ventilation, fuel pump with gasoline filter and four-wheel brakes.

See this lowest priced General Motors Six at any of the dealers listed below. Drive it. Compare it with any other car at or near its price—and you will know why everyone says it is the biggest, most beautiful, most modern six ever offered at \$745!

2-Door Sedan . . . \$745	Phaeton . . . \$775
Coupe . . . \$745	Sport Cabriolet \$795
Sport Roadster \$745	4-Door Sedan . . \$825
Sport Landau Sedan . . \$875	

Oakland All-American Six, \$1045 to \$1265. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the General Motors Time Payment Plan.

Desperate Cases and Remedies

By DUFORD JENNE

"N. O. my dear, you won't do anything like that!" Margery said, smiling tenderly into the flushed face above her.

"But I am going to marry you though—"

"Stanley, boy, I am just as determined to have you, but it is better if when we are married we leave no unhappiness behind us. I know just how your mother feels about your marrying the daughter of an ordinary factory worker, and she has a right to feel that I am somewhat crude and—"

He swung her from her feet and kissed her. "No more of that. Mother is obstinate as a—"

Margery freed herself. "Don't you be the same. Listen, my dear, let's think over, when if we fail, we'll—we'll just do it."

He smiled with relief. "All right then, honey, but you'll have to do the thinking. But I'll give you just two weeks—and then I'm going to grab you and run away with you—family or no family."

The plan that had popped into Margery's head while they were talking over the situation looked a bit desperate, but as she told herself, "Desperate cases call for desperate remedies." She talked the plan over with her father. He laughed and then looked serious.

"Little girl, your second name, as I've told you, is Mischief, but go ahead. I have faith in you. If it doesn't work nothing will be lost," he agreed.

From that moment Margery worked with speed. Stanley had said in passing that his mother's companion, Miss Knapp, was getting through; so Margery hastened to see her. The older woman looked agast, then her eyes twinkled.

"I'll help you. The old lady is a fearful aristocrat. I had enough of her, and I doubt your luck; but anyway, I'll recommend you for my position," Miss Knapp agreed.

So it came about that Margery, late that week, walked into the fine Landon mansion and was interviewed and hired. She then planned to tell Stanley what she had done, but found that he had left a hurried word for her that he had been rushed South by his firm on an emergency trip.

Margery's sense of humor came readily to her aid those first days of her service as "companion" to Mrs. Landon. The old lady was exacting, but Margery met the issue without evasion. She let the thought that she was deceiving Mrs. Landon disturb her only now and then.

She liked to read herself, so her duty of reading to Mrs. Landon for two hours each day was not a task. She liked to play with nice dishes, and she found herself, instead of the cook, preparing pet dishes that Mrs. Landon liked. She anticipated her employer's needs as much as she could, and that she was successful was indicated by Mrs. Landon's brief statement, one afternoon:

"Miss Elder, you are proving very satisfactory, and I should like to make your engagement permanent."

Margery smiled outwardly, although she said "Thanks be" inwardly. "I am glad to have it permanent," she answered demurely.

She wrote to Stanley, in care of his firm, and she was sure he knew what was going on; but on that fatal afternoon she discovered otherwise.

She came from the back of the house and stepped into the library where he was talking to his mother. He glanced up and saw her and his eyes opened with astonishment.

Margery, back of Mrs. Landon, put her finger on her lips and she saw that he had "tumbled."

"Later, he cornered her in the kitchen. "You witch, this was your game. Gosh! it's a good one," he chuckled. "Mother was praising you just as you came in. But when she finds out— Oh, golly!" he grinned. "It'll be worth it just to have you around here."

Then began a time of doubt for Margery. She discovered that Mrs. Landon's fear about the girl her son wished to marry rose, after all, from her great love of her son. Actually, beneath her cold, aristocratic exterior was a warm heart.

Margery began to be worried. The truth must come out some time, and the plan she had entered upon began to look a little childish.

The bottom fell out of the plan suddenly. She was going along the upper corridor when Stanley, stepping from his room, caught her, and gathered her, "big and burly," in his arms. She gave him a kiss in return for his, then tried to pull away—and saw Mrs. Landon looking at them down the hall. Stanley saw her at the same time, and Margery felt his arms tighten.

"Gosh, mother saw us. Now for an earthquake!" he whispered to her ear.

His mother approached, and to Margery's astonishment, she was smiling.

"So I am to lose my companion. My dear, forgive me for deceiving you, but Miss Knapp felt she ought to tell me; so I have known from the beginning. I have enjoyed having you here, and I hope you and Stanley will want to stay with me right along," she said a bit wistfully.

Stanley reached out a long arm and drew his mother to him, with the other he encircled Margery's waist. "We accept the invitation—and a kiss all around seals the bargain," he announced with joyful finality.

Paradise Lost

Every man has a little devil around him until he sins and the angel of an accusing conscience drives him from his Eden. And even then there are holy hours, when this angel sleeps, and man comes back, and with the innocent eyes of a child looks into his lost paradise again.—Longfellow.

A number of firms would be opening establishments in Big Spring if they could secure locations. Business houses are not to be had for love or money—unless you decide to do the building.

Business conditions in Big Spring are as fine as at any point in Texas. One of our local merchants commenting on business conditions stated that he is now enjoying a larger volume on Saturday than he used to secure during an entire week. Business is almost 100 per cent better than it was a year or two ago at this season of the year.

The one really dependable remedy for all disorders in the liver, stomach and bowels is Herbine. It acts powerfully on the liver, strengthens digestion, purifies the bowels and restores a fine feeling of energy, vim and cheerfulness. Price 50c. Sold by CUNNINGHAM & PHILIPS

MARCH WEATHER FEATURES

The old adage regarding March, that weather features of first and last days of month will be the opposite of each other is not expected to be true of March 1928. The most pleasant and best crop weather of the month will be expected during the first and last weeks of the month; the most disagreeable as well as the least favorable crop weather period of month will be expected during 12 to 20. Two periods of severe storms will be expected to center on 16 and 20 two storm periods of mild intensity centering on 4 and 25; a period of moderate storms centering on 11. Spring officially arrives at 20 hours and 45 minutes, Greenwich civil time, Mar. 20. From 12 to 23 will be expected to average below normal and balance of month above normal temperatures; temperatures of month will be expected to average a little below normal for the continent as a whole; greatest extremes below normal temperatures will be expected in northeast part of continent, near south and east of Great Lakes. Storms near 16 and 20 will be the equinoctial type, but will not be dangerous in North America; principal features of these storm periods will be cold waves following storm centers. Extremes of month will be great, but changes not so frequent as during preceding months; warm and cool periods will be of longer duration. Precipitation will be about normal for the continent for the month; most precipitation will be expected in eastern half of continent; precipitation on Pacific slope will be above normal; most precipitation will occur during period 16 to 22; precipitation will increase in central and eastern cotton belt this month, decrease in western Great Central valleys and northwest. Month will average less favorable than usual in localities where planting season has arrived, due to bad distribution of moisture and to cool period. During the month evaporation points are expected to gradually change to due South for North America.—Foster.

A fence around the poultry yard about four or five feet high with fine mesh at the bottom and with the bottom buried in the ground three or four inches will provide protection against many animals, including dogs, foxes, and skunks. If rats or weasels bother the chickens any refuse or tall grass where they might hide or breed should be removed.—Er.

DOC WISE

SAM KNOWS THAT YOU CAN ALWAYS GET ON IT - TO GET AHEAD ONE MUST STRUGGLE AGAINST THE CURRENT

THE BY-PRODUCTS OF POULTRY

With the poultry men of America, the only by-products of the fowl that are considered are feathers and manure. On the other hand, poultry men of France attach considerable importance to the blood and offal. The feathers are not only taken care of, but the intestines are boiled and after the fat is skimmed off, are mixed with the mash food.

The combs and kidneys are sold to pastry cooks who use the former for decorating and the latter for the contents of pies.

The head neck and feet which we throw in the garbage can, the French sell to restaurants who use them for flavoring sauces, and sometimes they are boiled down to make chicken jelly.

American poultrymen sell poultry whole, but the French will sell the legs, wings, breast etc., separately. This practice has in recent years started in Pennsylvania, and probably elsewhere. It is claimed to be a very profitable, breasts being purchased for sandwiches; wings, necks and other parts for soups, etc.

The French find the blood of fowls rich in nitrogen, and excellent for stock food. Some of our American poultrymen have found it valuable as a fertilizer. Together with the offal, the blood is frequently mixed with dry soil, and used for vegetable stimulation.—Farm and Ranch

LET US GET TOGETHER AND ACT

George W. Donaghey, of Little Rock, Arkansas, suggests more harmony and concerted action among business men of the South and among farmers in an effort to arrive at an equitable solution of our agricultural problems. He further suggests that Farm and Ranch ask its farmer readers to freely discuss their problems with their banking and business friends.

Farm and Ranch has known Mr. Donaghey as a tireless worker and unwavering friend of the farmer. His suggestions should not be passed by lightly. They are worth the most serious consideration. Farmers have business relations with bankers and other business men. Men shrewd in banking and in commercial life realize more than ever before that all prosperity begins with the production of food and fiber. If for no other than a selfish reason, they are interested in the prosperity of the producer. Therefore the suggestion that all interested parties discuss freely with each other the problems both are concerned with is sound and logical. If we could wipe out all class distinction and remove all unreasonable suspicion, the difficulties which appear almost insurmountable today would quickly disappear.

This call to get together for the purpose of discussing production and marketing problems which concern the producers first, but in the end the consum-

er also, should be heeded. This does not necessarily mean the calling of mass meetings. It means that the business man in town and the farmer who lives a few miles out should accept every opportunity to understand the point of view entertained by the other. As they all have interests in common, this is not an unreasonable suggestion.

NOT SO GOOD

I have a car.
It never breaks down.
It never skids.
It never gets a puncture.
It never gives me bother up steep grades.
It never gets overheated.
It has never got me into a collision or an accident of any kind since I got it.
I wish to goodness I could start it.—The Farmer.

SUNFLOWERS AS POULTRY FEED

Sunflowers thrive on comparatively poor soil, but respond more generously when given seed treatment. After they once get a good start, the need very little care and attention. Sunflower seed are valuable in that they improve the digestion of the fowls. The seed carry a high vegetable oil content, and are economically used during the molting season, adding luster to the plumage. It is doubtful if feeding sunflower will have any effect on the egg yield.—Farm and Ranch.

TRUCK HARD SURFACED ROADS

Illustration of the value of surfaced roads. H. B. Godwick gave it a fair test last week. Leaving home at the morning with a load of porkers, headed for the Fort Worth market, getting there about 3 or 4 miles in the morning sold his on foot, pulling down a something over \$200, but he is only realizing about 33-1-3 of his capital stock—see Why, he says, Dick good roads are not worth anything to me—Why boy? Because you don't use 'em, you don't raise hogs and sheep and goats, and chickens and turkeys and the like, just sleeping on your rights, nearly three fourths of your capital stock lying there dormant, not used. Hell, no wonder a road tax pinches you. But on the other hand, with intensive stock farming why you create a good use for good roads, yes, every once and a while you will want to hike to the market with your turkeys, hogs and chickens and goats and butter and eggs, then you get your money's worth out of good highways. Just wild grass lands will not take care of more than forty head of cattle to the section, but whereas, under intensive stock farming a section of land will take care of a hundred and fifty head, see—Come on boy, and take part in this great industrial development, why wild grass land don't create wealth, but a very little at least, don't build cities, schools and churches, don't dam rivers, establish banks and mercantile corporations and manufacturing concerns, don't build highways and boulevards. Why, in the long ago where now stands Dallas and Fort Worth and Houston and other large cities, it was just wild pasture land like unto yours, boy, but capital genius and the cunning fingers of industry touched it as if by magic and great god of progress, look at the wealth that has been tapped and created and harnessed and put into use. And say, by, that's just what we need out here in grand old Shackelford county, yes, these hills and dales with their sleeping gold mines still untouched, need to be dugged into with the pick of industry and the plow and the shovel of grit and economic gumption, yes, it wants to be turned loose—dam these rivers and creeks and turn flood tides into sluices of gold, stir up this fertile soil with the bull-tongue plow of industry, and Lordy grand old Shackelford county will blossom with the golden grain, wealth will be flung into our laps undreamed of, and then boy, you can hike down these highways with your produce and get your money's worth out of these dreaded cursed road bonds issues as you may want to express it. Yes, under a system like this, you can run five times more cattle on your ranch than

N. G. Hoover Candidate for Commissioner Precinct 2

We are authorized to announce N. G. Hoover as candidate for Commissioner of Precinct 2 of Howard County. He announces subject to the action of the Democratic Primary July 28 and his name appears in the announcement column of the Herald.

Mr. Hoover is known to most of the voters of Precinct 2, is one of our successful farmers who commands the esteem of all who know him. Mr. Hoover is competent and qualified to render the county honest and conscientious service and will do his best to treat one and all in a fair and impartial manner, ever having in mind the best interest of the county.

Mr. Hoover promises if elected to perform all the duties of the office to the very best of his ability and he will appreciate your support and good will.

Remember his candidacy when casting your ballot for Commissioner of Precinct 2 in the July primary.

J. F. ORY CANDIDATE FOR PUBLIC WEAVER

We are authorized to announce J. F. Ory as a candidate for Public Weaver of Precinct 1 of Howard County. He announces subject to the action of the Democratic Primary July 28 and his name appears in the announcement column of the Herald.

Mr. Ory is a long time resident of Howard county and it can be truly said of him that he numbers his friends by his acquaintances.

A hard worker, and ever ready to accommodate friend or foe he is well qualified to render satisfactory service if honored by being elected to this office.

Mr. Ory wants this office will appreciate your good will and support; and if elected he will do his very best to prove to you that he very appreciated your vote and influence.

The voters of Precinct 3 are requested to duly consider Mr. Ory's qualifications and claims for your consideration when you cast a ballot for this office in the July primary.

ROXANA'S PROPOSED TANKS FOR WINKLER OIL

San Angelo, Feb. 23.—Erection by Roxana Petroleum Corporation of mammoth underground concrete storage tanks at Monahans and McCamey, each to hold 1,000,000 barrels, primarily are with a view to handling Winkler county production, Roxana advised the San Angelo Standard in a telegram from St. Louis in response to its inquiry if 2,000,000-barrel reservoirs were to be constructed at McCamey.

"We are emphatically opposed to breaking the proration agreement in Pecos County and now are doing and will continue to do everything in our power to maintain the present reasonable basis of development," said the telegram.

Flood lights have been placed on the 13 acres near Monahans, in Ward County, in order that work may proceed at night upon Roxana's 1,000,000 barrel underground concrete storage reservoir. Ground has not yet been broken for the big tank East of McCamey. Roxana has in operation pipe lines from McCamey to the Yates pool and to the Hendricks pool in Winkler County and now is building a trunk line from Oklahoma to McCamey to carry the oil that will be stored in the new tanks.

Jim Battle, enroute to Bakerfield, California, to join the training camp of the Seattle baseball team, was here the first of the week for a visit with his brother, W. H. Battle, and family. Jim is a real ball player and will have a regular berth with a big league team before a great while.

Carry home some ice cream, it's an ideal food. Cunningham & Phillips.

Herald want ads get results.

you are now running, and have a young fortune on the side—hogs and chickens and turkeys, sheep and goats, butter and eggs O yes, boy, out there in that wild desert place you are walking and riding around over gold mines that need to be worked, yes, opportunities knock at your ranch door, capitalize them then you will need hard-surfaced roads for the transportation of Farm and Ranch products. Albany News.

Drivers who try to live-up to the various rules and regulations governing motor traffic not infrequently find themselves wondering how it is that so many others violate the laws with seeming impunity. It is seldom, indeed that one goes out on the streets without seeing some motorist rip the speed laws wide open—and nothing appears to be done about it. If one be driving at night, he is sure to meet dozens of cars with such glaring headlights as to blind a driver approaching from the opposite direction and how they "get by" with it passes comprehension. It would seem improbable to say the least, that no policeman should see them. Then there is the fellow who drives with only one light. If it isn't dangerous to do these things, why have we laws prohibiting them? It would be difficult to find a driver who would not condemn, vehemently, these practices—in the other fellow—but there certainly are a lot of them who hold themselves

PLAN ICE PLANT FOR BIG SPRING

Immediate construction in Big Spring, Howard county of a modern ice plant of 100 tons daily capacity, costing \$200,000, has been announced by C. P. Couch, vice president and general manager of Southern Ice and Utilities Company. Material and machinery for the work is on its way to Big Spring. Work on the foundations will begin at once. The plant is expected to be in operation by April 15.

This company now has a 60-ton daily capacity plant in Big Spring. Both plants will be operated during the 1928 ice season. The new plant will eventually be enlarged by the construction of a large season storage.

The main building of the new plant will be of red brick with white stone trimming and will add to the appearance of the city, especially to passengers going through on trains. The manufacturing unit will be of steel construction. The whole plant will occupy a lot 120 feet by 300 feet, located immediately east of the present plant. A retail and loading dock will be on the west side, facing the side street, so that patrons driving up will not have to drive across any railroad tracks.

The new plant will be entirely electric driven. One double and one single motor driven compressor will be installed, together with a third smaller compressor to further refrigeration for the storage rooms. Six small cold storage rooms for meats and one large room for produce will be included in the design of the plant.

The existing block alongside the present plant will be rebuilt and enlarged to care for a greater number of refrigerator cars. It will be equipped with chain conveyors and the ice will be carried to the dock by inclined

chain chutes.

Other recent additions to the properties of Southern Ice and Utilities Company include a new ice plant of brick construction, erected in Midland during the last year. A plant in Odessa built last year, is now in process of being expanded in capacity.

Founded at Deason forty two years ago by C. W. Dawley, the present head of the business, Southern Ice and Utilities Company has grown consistently until now it operates forty ice manufacturing plants in thirty six towns and cities and has sixteen ice cream manufacturing and distributing plants, two creameries, and serves ten major railroads and refrigerator transit companies with ice for the refrigeration of perishables. The company operates in the States of Texas, Oklahoma, Arkansas, and Louisiana. It is incorporated under the laws of Texas and is operated by Texas, Oklahoma and Arkansas men, many of whom have been with the company as long as thirty-three years.—Dallas News.

Big Spring Subjected to 3 Per Cent for Bad Fire Record

Because of Big Spring's bad fire records the past three years our city has been subjected to a charge of 3 per cent, effective March 1, 1925. Statements showing that the loss ratio of Big Spring for the years 1925, 1926 and 1927 is .696, which were filed, checked and approved by the State Fire Insurance Department. Under the provisions for charge for bad fire record in cities and towns, this subjects Big Spring to a charge of 3 per cent which local merchants are to add to the Final Premium on all policies written on or after March 1, 1925 to February 28, 1929, only and covering property located within the corporate limits of Big Spring.

REDUCED RATES TO FAT STOCK SHOW IN FT WORTH

Fort Worth, Texas, Feb. 29.—Reduced round-trip railroad rates on all lines, good agricultural and livestock exhibits and the fact that the best Rodeo talent available has been obtained promises to bring a crowd to the Southwestern Exposition and Fat Stock show March 16 to 17 which will establish a new record. This is the belief of Van Zandt Jarvis member of Fort Worth's city council and president of the exposition.

"I understand that recent rains have been beneficial to crop conditions and ranges," said Jarvis, "and this will be an inducement for persons to come to Fort Worth for a few holidays of fun and at the same time see the nation's best agricultural and livestock exhibits displayed. Many livestock breeders will be here to make purchases at the big auctions in the sales pavilion, in order to improve the stock they already have."

Jo Jolly, Montana cowboy clown, has been engaged to appear at the Rodeos, matinee and night, of exposition week. Jolly comes here well recommended as a fun maker. He, too, is a good Rodeo performer, something that is essential to the successful clowning of a Rodeo. He will attempt to ride any steer that the show has purchased.

After a tour of three states for more than two weeks, representatives of the show found sufficient long horn steers for the bulldogging contests. Also a rather long trip was necessary before the Brahma steers were found for the steer riding contests.

Tennis requirements... Cunningham & Phillips.

BIG WATER SUPPLY AT 600 FEET

Drillers who worked on the Marland Oil company's test well on the Connally ranch 4 miles south of Big Spring on the Quinn ranch Southwest of this city and on the two tests on the Guitlar ranch West of here, assert that an inexhaustible supply of water is to be had if the citizens of Big Spring desire to develop same.

On the Connally ranch a supply of fine water was found at 90 feet; another big supply of good water at 345 feet and the next big supply at 600 feet. This water is found in a stratum of gravel from 10 to 12 feet thick. The water found at 600 feet rises to within 75 to 100 feet of the top of the well. The 600 ft water is found at practically the same depth at all the wells mentioned and also in the Texon well on the J. B. Harding farm.

In the second test drilled on the Guitlar ranch the water at the 600 foot depth was the only water found up to that point. Drillers say they were unable to estimate the amount of water these wells would produce as they had no means of making a test. They were unable to lower the water found in the 600 ft sand by a baller test.

These men say Big Spring need never fear a water shortage with this source of supply available.

It would not be a bad idea for our city to have this matter more thoroughly investigated and tested.

PASSENGER PLANE TO BEGIN SERVICE APRIL 1

Daily airplane passenger service in modern ships to West Texas points is scheduled to start April 1, said President Gary E. Prebenson of the American Air Transport Saturday.

The new concern will have its headquarters in the Adolphus hotel, space having been leased for offices. Flying from Love field ten planes will make daily double trips to Wichita Falls, Amarillo, Plainview, Lubbock, Midland, San Angelo, Brownwood, Coleman, Fort Worth and return to Dallas, it was announced. A fare of 10c a mile will be

charged. Six of the planes are reported to be five passenger enclosed cabin jobs and four of them in an industrial type. Several local men are said to be interested in the company.—Dallas, Tex.

Here's hoping Big Spring provides an airport so the planes can include our city on its regular schedule.

Reduced PRICES
\$845
Now buys a Nash

ON FEBRUARY 1, Nash announced reduced prices. Now, you can buy a full 5-passenger Nash Six Sedan for only \$845 f. o. b. factory. Prices on other models are accordingly low.

Throughout the length and breadth of the motor car industry, you'll find no value to compare with Nash!

For Nash is the car with exterior and interior style and beauty which made it the center of interest at every Motor Show of the year. Nash is with the Nash 7-bearing motor for smoothness and greater power. And, Nash is the car with the bar-truss frame, for extra strength—2-way, 4-wheel brakes, for safety—alloy steel springs, shock absorbers, front and rear, for riding comfort—and a heavy transmission, for super-duty.

When you buy your new car, you buy the Nash that buys a full 5-passenger Sedan! It is on the

"DUNLOP CITY" is 3 times as big as WASHINGTON, D.C.

DUNLOP CITY
Throughout the world the productive Dunlop properties cover so vast an area that—if combined into one place—they would form a "Dunlop City" of over 100,000 acres.

WITH all its vast area, Washington, D.C., occupies but 39,680 acres. Preference for Dunlop Tires has caused Dunlop to grow so that now, including the greatest of all Dunlop plants at Buffalo, N.Y., Dunlop occupies a productive area of over 100,000 acres. Over 22,000,000 Dunlop Tires are now running. The service that they give is both the cause and result of Dunlop's magnitude. Tallyrand said, "There is one person wiser than Anybody, and that is Everybody." Practically everybody agrees that Dunlop Tires are best. Put them on your car and prove it to yourself.

ORIGIN OF DODD WEEVIL
 By J. J. Taylor
 It happened a great great while ago
 In the cactus wilds of Mexico!
 A Tumble-Bug sat down to rest
 By the shifting rim of a Doodle-
 bug's nest.
 In swallow tall coat of Paris-
 green,
 A handsomer bug was never seen
 The Doodle-bug, too, was queen-
 ly and fair;
 Her bosom had never known a
 care,
 But her heart throbs thrummed
 like a fly in a jug
 As she gazed on the courtly
 Tumble bug.
 So shaking the dust from her
 royal head,
 She approached her guest and
 blushing said:
 "Thy leap year, stranger!" Then
 he arose
 And pointedly asked: "Do you
 propose?"
 Invitations soon went round
 To all the bugs that could be
 found;
 And the crowd that gathered
 was not the least
 That ever attended a marriage
 feast;
 While the pomp and the glare
 and the great renown
 Were never surpassed in Doodle
 bug town.
 At the midnight hour the knot
 was tied
 By the Bed-Bug parson, who
 kissed the bride,
 While the guests, departing,
 sang, one and all
 That beautiful anthem "After
 the Ball."
 The honeymoon passed like a
 summer dream,
 And all went well with husband
 and wife
 As they settled down to practi-
 cal life.
 "Yankees Doodle," his wife's
 best song,
 Mr. Tumble-Bug heard the
 whole day long,
 And her ladyship laughed till
 her eyes were red
 When he rolled his dough and
 stood on his head!
 He loved his wife as a brave
 knight should,
 Draw all the water brought in
 the wood;
 He wiped the dishes; he swept
 the hall,
 And pushed her to town on a
 rubber tired ball.
 But yet their joys were incom-
 plete.
 "Th' their lives were blessed with
 an infant sweet,
 An only son! The race begins.
 Next they noticed a pair of twins
 Triplets, quadruplets, a quintet,
 next!
 The family doctor became per-
 plexed,
 And asked the father about the
 fee:
 "I've plenty of dough; you work
 says he.
 So he stood at his post both
 night and day,
 For doctors, like ministers work
 —for pay;
 And the mill ground on in the
 old man's home
 "Til the house was packed from
 cellar to dome
 With millions and millions of
 mischievous things.
 With Doodle bug bodies and
 Tumble bug wings,
 Whose green food instincts op-
 ened a fight
 On the "outstincts" of the Tum-
 ble-bug diet!
 They left the home and the land
 of their birth,
 And sent their agents all over
 the earth,
 They waxed in wisdom; attend-
 ed the fairs,
 And joined the fight 'twixt the
 Bulls and the Bears
 They taught the people that The-
 odore Price
 is a poor "Price" for cotton or
 anything else.
 Hence, this bug's not the worst
 thing, bless your soul,
 That hampers the Texas cotton-
 boll.
 —The Plain Texas.

MEN BECOME GODS
 Science hasn't disproved God
 and creation but on the other
 hand, it is making gods of men.
 A few days ago we read of the
 experiment that permitted men
 to see with the human eye the
 forms of others 3,000 miles
 across the Atlantic.
 Today we read of an appara-
 tus that may produce the beta
 and gamma rays of radium hav-
 ing powerful effect on solids,
 gases and living cells.
 These things open other vast
 possibilities to the scientist. The
 earth is likely only in the begin-
 ning of a development which it
 is given to few to foresee. The
 next twenty years will be the
 most interesting through which
 the world has passed because of
 these things.—San Angelo Stan-
 dard.

Bluebonnet Electric Company,
 Everything Electrical. 23tf.

A Dallas lecturer criticizes the
 prevailing manner of dying and
 suggests a better way.
 Death, he says, is sleep. We
 wake up and find the body gone
 That's all there is to it.
 Death, and the manner of
 death is interesting, but not so
 very important.
 Millions have died already and
 millions more will die.
 What matters is living and
 how to live.
 Once one learns that, death
 holds little terror or scant inter-
 est. It is easier to contemplate
 the manner of our living.—Uncle
 Panther in Fort Worth Post.
 We need not worry about
 plans for death. That is all pro-
 vided for. It would be well to
 so live that death could come most
 any time and find us ready for
 the adventure.
 Dorothy Gray Tollet articles
 Cunningham & Phillips.

GET OUT AND STAY OUT
 In a long and forceful article
 in a recent issue of his Tri-City
 Times, of Winter Haven, Florida,
 Publisher James A. Metcalf
 urges that the government
 should get out of the field of
 operations of printers and stay
 out. "The principal beneficiaries
 of the printed stamped envelope
 monopoly," says Mr. Metcalf,
 "are the big catalogue houses,
 which use stamped envelopes by
 the hundreds and thousands. But
 the United States Government is
 under no obligation to them, nor
 to the smaller users of stamped
 envelopes, to save them money."
 In a letter addressed to Sena-
 tor Fletcher of Florida, Mr. Met-
 calf pertinently observes:
 "The printers and publishers
 of the country are basing their
 opposition to this evil, not solely
 upon the basis of their materi-
 al interests (which however, are
 entitled to full consideration) but
 equally upon the principles
 involved. We agree most heartily
 with the statement of Mr. Lewis
 E. Pierson, President of the
 Chamber of Commerce of the United
 States: 'It is important to
 preserve American business, but
 it is far more important to pre-
 serve American government. If
 Government finds it can enter
 such business without restric-
 tions, how long before it extends
 its operations to all business?
 And when the Government has
 wormed its way into the whole
 spread of American trade, the
 heart will be gone from Ameri-
 can business, and American gov-
 ernment, as our forefathers built
 it, will have vanished from the
 earth.'"
 Your dentist will keep you
 from wearing false teeth if you
 will see him often enough . . .
 Cunningham & Phillips.
 Herald want ads get results.

MORAL ASPECT OF WAGE SYSTEM
 After all is said and done, the
 desire to make money is one of
 the most wholesome things in
 human nature.
 There is still a school of poli-
 ticians who seek to enact laws
 penalizing profits on large opera-
 tions of money-making in big
 business.
 Congress and state legislature
 seem impelled to probe and han-
 dicap several forms of the great
 electrical industry.
 How could we have electricity
 in our home, or use it to carry on
 business or industries, unless
 somebody could make money at
 the business, and could pay the
 people good wages and develop
 expert service? Under local, fed-
 eral and state regulations, pri-
 vate capital is providing satis-
 factory electric service giving the
 people high wages and earning
 good dividends for millions of
 individual investors.
 Our Country once had a sys-
 tem of slavery where human be-
 ings were compelled to work
 without wages, merely to live.
 Now a decent wage system beau-

Paid in small cans for any
 purpose . . . Cunningham &
 Phillips.

 DIRECTORY**

**PERFORMANCE
 as different as the car itself**

Were greater beauty their only advantage, the
 new engineering principles of Dodge Brothers
 Victory Six would still be revolutionary.

Were greater safety The Victory's only ad-
 vantage, it would still command the gratitude
 of a life-loving world.

Were greater economy its paramount feature,
 the fact would still remain that The Victory
 has made possible 21 miles per gallon at 25
 miles per hour FOR A SIX.

But these are incidental to the basic Victory
 achievement. You must DRIVE the car to
 know about that!

You must take a corner faster than you ought,
 a cobble pavement faster than you thought, be-
 fore The Victory secret begins to reveal itself.

And you must unleash the full, sustained speed
 of the car before the idea takes full hold!

Victory design is unlike that of any other vehicle
 in the world—and Victory performance is equally
 radical and remarkable.

To examine the one and experience the other
 will prove an event that we urge you not to
 postpone.

BUILDING PERMITS \$23,725 THIS WEEK

The following building permits have been issued by the City Secretary the past week. The permits total \$23,725.

Harry Lees, a brick veneer 50 x 44 feet in Cole and Strayhorn addition. Estimated cost \$5,000.
F. H. Strong a frame and stucco residence in the 700 block, between Main and Scurry streets estimated cost \$4,000.

B. E. Howell a frame residence 40x42 in Fairview heights estimated cost \$2700.

T. H. Hall a five room frame residence in College Heights addition, estimated cost \$3,000.

C. V. McGee a 20x36 frame residence in Fairview Heights Addition, estimated cost \$3000.

Edens and Payne a five room residence in McDowell Heights Addition, estimated cost \$3,000

D. E. Cook a building 50x70 feet on Gollad St., for planing mill, estimated cost \$2500.

W. W. Fisher repair on residence at 503 Lancaster St., estimated cost \$525.

R. E. Gay, moving residence from Third street to Cole and Strayhorn Addition, estimated cost \$200.

D. E. Cook the building 14x 24, for cleaning and pressing plant north of Crawford Hotel, \$550.

Tom Worrall moving house from block 18 to block 49 estimated cost \$300.

Some of our folks had watering of the mouth Thursday when a guy approached them and wanted to know if they were interested in fine California wine. He was making a house to house canvas in the business section and possibly he may have landed quite a few suckers.

DR. ORA E. ESTES JOHNSON
CHIROPRACTOR
Elliot Bldg. Rannels St.
—2411.

Mrs. W. W. Rix and daughter Miss Alice Ann, after spending the week and in this city with relatives and friends, returned to their home in Lubbock Monday

AT WORK ON "HOME BEAUTIFUL"

The foundation for the "Home Beautiful" has been completed, and construction work is being started by Carter Bros., builders and contractors, who have the contract. This home is being financed, built and will be equipped and furnished by home people. A formal opening will be held upon its completion and the house will be placed on the market.

A list of those interested in its building was given last week. Others who have been secured to contribute to its beauty and completeness are:

Blue Bonnet Electric Company who will do the wiring and install the electrical fixtures in the home.

D. C. Lambert of Abilene who will do the painting and interior decorating for the "Home Beautiful." Mr. Lambert formerly of Abilene, is moving to Big Spring to make his home.

NEW GRANITE HOME TO BE BUILT IN EDWARDS HEIGHTS

J. C. Powell of Abilene has awarded the contract to Carter Bros., builders and contractors, for the erection of a six room house of granite in the Edwards Heights addition. Work on same was started Thursday. Estimated cost is given as \$10,000.

This will be something new in Big Spring as it is the first granite house to be erected in our city.

BABY DAUGHTER DIES

Funeral services for Velma Lois, nine months old daughter of Mr. and Mrs. M. A. Gilbert of the Knott community, were held Tuesday afternoon at the Knott tabernacle, and the remains were laid to rest in the Knott cemetery. The Rix-Griffith mortuary prepared the body and were in charge of the funeral services. Deepest sympathy is extended to the bereaved relatives at the death of their loved one.

Phone 260.
A new shipment of new draperies has just arrived.—Rix's.

CHAIN GANG DOING GOOD WORK

From ten to twelve men are now regular members of the "Chain gang" and they are doing some good work on the road of the oil field, southeast of Big Spring.

Fewer loafers are to be noted in town, and fewer thefts are being perpetrated since vags and suspicious characters have been giving Big Spring a wide berth due to the inauguration of the chain gang. Many of the crooks

have had the news down the line and are going miles out of their way to pass up our city.

A week or so before the Chain gang was started eight automobiles were stolen in this city. During the past two weeks only one automobile has been stolen. This is a pretty good sign that operating in our county.

Mr. and Mrs. W. W. Hatcher of Colorado visited relatives and friends in this city this week.

BOGGS DOES NOT SEEK RE-ELECTION FOR REP.

San Angelo, Texas, February 25, 1933

Editor Herald:
After mature deliberation I have decided not to seek re-election as Representative of the 31st district.

It has been a real pleasure to serve this district and I have never seen such loyalty and such cooperation as has been given me. I have served you honorably,

faithfully and am so glad that you have permitted me to serve for your friendship.
Yours very truly,

Elmo Wasson

THE MAN'S STORE
MR. JACK REITER IN CHARGE OF MEASURING AND WOOLENS

Some reasons why we can and do sell New Stylish Goods Cheap....

1. Cheap Rent
A good deal cheaper than up on the street, and we save you the difference. Of course you have to walk down a few steps to make this saving but unless you have oodles of money you can afford to walk a few steps down for 10 cents to \$1.00 a step. Amount saved depends on amount you buy.

2. Spot Cash
No salary for a book-keeper or a collector, no losses of bad accounts. Credit stores have to charge more to make up these losses, salaries and rent. If you buy on credit you have to pay it. Pay cash and save this difference.

3. Quick Sales
We prefer to sell a large volume of goods and do it quickly at a small profit, rather than just to sell a few goods at a long profit. Our policy is to sell out quickly and get in new goods. Something new coming in every few days.

New... Silk Hose
Beautiful quality, silk chiffon, silk to the top, and service hose, list price top.
\$1.39 pair
3 Pairs for \$4.00
New Spring Styles
The finer qualities of hose, also especially priced at \$1.85, \$2.35, \$2.85
