Tarrant County Jail Break Is Frustrated

Louisiana PWA Projects May Be Cancelled

Scathing Attack Made On Huey By Secretary Ickes

WASHINGTON, (AP)—In a scathing attack on Senator Huey Long, Secretary Ickes Tuesday threatened to cancel all public works projects in Louisiana if legislation is passed to give the state authority over all local projects.

"PWA funds haven't been used to set up a political machine anywhere and won't be used that way in Louisiana," Ickes said.

"They certainly won't be used to build up Long's political machine," Ickes referred to the Louisiana legislature, considering a measure to give that state authority over expenditure of federal funds by localities.

Oil Regulation Necessary—Ickes

Remains Of An Early Inhabitant

Ages before man ever dreamed of an advance on this section of the world, prehistoric monsters roamed this part of Texas. Mule testimony that one mired in quicksand east of where Coahoma now stands is found in the picture of huge bones being unearthed by G. L. Graham. Buried four feet underground in quicksand, the bones are comparatively well preserved. The hand is seen pointing to what appears to be a tooth in a jaw bone. The round object just above the hand is probably a tusk. The piece, lying on the ground, is a portion of the larger bone, and alone weighs approximately 60 pounds.

New Agency To Aid Regulation In This State

Interior Department Division Of Investigation Is Withdrawn

WASHINGTON, (AP)—The interior department's division of investigation, headed by Louis Glavis, was ordered Tuesday by Secretary Ickes to end its activities in the East Texas oil field.

Ickes said a new investigative force—the federal petroleum supervisory agency—would aid in regulating interstate shipments from the huge Texas field.

Ickes expressed belief federal regulation of the oil industry was necessary.

Laughs at Operations

Margibeth Carter (above) of Galveston, Tex., 27 months old, has undergone 25 operations in her brief lifetime, yet she weighs 39 pounds and recently won a baby health contest. Associated Press Photo.

-NEWS- BRIEFS

FORMER BIG SPRING GIRL TO MOVE TO HOUSTON

Mrs. Don Wallace spent the week-end in Big Spring visiting her mother, Mrs. L. E. Eddy. She returned Tuesday morning. Mr. and Mrs. Wallace are moving to Houston this week to reside there for several months, the result of a transfer by the Magnolia Oil Co. with whom Mr. Wallace is connected.

H. B. FELL TO ADDRESS INDEPENDENT OPERATORS

Hon. H. B. Fell, executive president of the Independent Petroleum Association, with headquarters in Tulsa, will arrive in Big Spring Wednesday morning. He will address independent operators following a luncheon at the Crawford hotel Wednesday noon on important matters pertaining to the oil industry. All independent operators are urged to attend the luncheon. A 75c charge per plate will be made.

TO ATTEND STATE OPTOMETRIC MEET

Dr. and Mrs. Amos R. Wood are leaving late Tuesday afternoon for Dallas, where Dr. Wood will attend the state optometric convention to be held in that city beginning Wednesday and continuing throughout the week.

COUNTY CLERK WARREN UNDERGOES OPERATION

County Clerk R. L. Warren was resting well Tuesday following an appendectomy Monday morning. He was stricken Sunday riding about the pasture of his place near Vincent. Shortly before noon Monday he was operated upon at Big Spring hospital. His condition was satisfactory, according to physicians.

OFFICIALS INSPECT HOWARD COUNTY SCHOOLS

Miss Anne Martin, county superintendent, and J. T. H. Buckley, deputy state superintendent of District No. 3, started an inspection tour of Howard county schools Tuesday. Together they will visit a majority of schools in the county by Friday.

REIT BOYD BACK FROM CLEBURNE

Bert Boyd, manager of Burr company store in Big Spring, returned Monday night from Cleburne, where he spent the week-end visiting relatives and friends.

Faces Charge Of Car Theft

Because Sheriff Jess Slaughter had a habit of eyeing strangers, Arthur Jason faces charges of car theft, and his companion is on call by the law.

Slaughter noticed two youths walk by as he was talking on East Second street. One got off the curb and looked into a car belonging to Ray Ogden. He motioned to his companion, and they got in and backed the car out.

The sheriff became suspicious and investigated. Arthur told Slaughter the car belonged to Ogden (information gained from a letter in the car) and that he was driving it for him. Slaughter was dubious.

So was Arthur Tuesday, for he had been unable to post bond.

Arthur Jason Fails To Post Bond, Now In County Jail

Because Sheriff Jess Slaughter had a habit of eyeing strangers, Arthur Jason faces charges of car theft, and his companion is on call by the law.

Slaughter noticed two youths walk by as he was talking on East Second street. One got off the curb and looked into a car belonging to Ray Ogden. He motioned to his companion, and they got in and backed the car out.

The sheriff became suspicious and investigated. Arthur told Slaughter the car belonged to Ogden (information gained from a letter in the car) and that he was driving it for him. Slaughter was dubious.

So was Arthur Tuesday, for he had been unable to post bond.

J. B. Collins Is Renamed Head Of Trustees

WASHINGTON, (AP)—Extension of the NRA with modifications limiting its operation to interstate commerce was recommended to congress Tuesday by the United States Chamber of Commerce.

Massive Rocks Break Loose At Niagara Falls

NIAGARA FALLS, Ont.—Massive rocks tore loose from a once famous honeymooners' site along the Niagara cliff Monday and crashed into the gorge, 500 feet below.

The rocks, weighing several tons, shattered trees and shrubbery on the slide down the cliff, forming a new path to the river.

The rift, closed several years ago by government engineers was virtually demolished.

1 Prisoner Slain; Two Wounded In Clash With Guards

FORT WORTH, (AP)—Melvin Bowes was killed and two other prisoners wounded when Guard Charles B. Miller used a pistol to frustrate an attempted escape of eight prisoners in the Tarrant county jail Tuesday.

Clarence Billingsley, jockey, charged with theft and burglary; James Lawrence Kirk, charged with robbery, were wounded.

Bowes, fugitive from a Florida prison and with a long criminal record in various other states was held here for store robbery.

The prisoners sawed bars of two cells, manipulated the combination of a master lock box to liberate sixteen prisoners in the cell block.

Eight prisoners refused to leave their cells. Miller and E. M. James, another guard, were making their rounds when Bowes, Billingsley and Kirk sprang from their cell and attacked them.

Bowes, wielding an iron bar, battered James over the head. Billingsley jumped on Miller's back. Miller shot Billingsley and killed Bowes and shot Kirk in the hip.

Billingsley, Stine Weathered and Arthur Brown, trusty, and serving a life term as an habitual criminal, gained entry into the cell block corridor by sawing bars to their cells. Brown knew the combination of the master lock, which was manipulated with aid of a mirror on a stick and piece of rope, looped over a knob, unlocking the cells on their tier.

\$7,661 Saved Big Spring In Fire Premiums

Big Spring individuals and firms saved \$7,661 this year in fire insurance premiums because of a low fire record established in 1934.

In 1934 premiums paid by Big Spring people and concerns amounted to \$72,663 while fire losses totaled only \$12,361. This entitles the city to an additional 9 per cent credit for a good fire record and ran the total credit to 12 per cent, according to Eugene Saunders, Austin, fire prevention chief.

City Fire Marshal E. B. Bethel pointed to the saving as an incentive to guard against fires. Small, but damaging fires in the past few weeks have threatened to endanger Big Spring's chances of maintaining its good fire record.

Saunders expressed the hope "that your city may continue with a low fire record, during this year and receive an additional 3 per cent credit next year."

Tri-Powers Submit New Resolutions

GENEVA, (AP)—France, Britain and Italy Tuesday submitted to the extraordinary council session of the league of nations a draft of resolutions condemning "any unilateral repudiation of international obligations" such as Germany's repudiation of armaments clauses of the Versailles treaty.

Pierre Laval, French foreign minister, although faced with opposition to the resolution by several nations, notably Poland and Denmark, received strong support of spokesmen both from Britain and Italy when he presented it to the council.

The council received the resolution and after brief debate, adjourned until Wednesday.

League Council Receives Draft Condemning Feudation Of Treaty

GENEVA, (AP)—France, Britain and Italy Tuesday submitted to the extraordinary council session of the league of nations a draft of resolutions condemning "any unilateral repudiation of international obligations" such as Germany's repudiation of armaments clauses of the Versailles treaty.

Pierre Laval, French foreign minister, although faced with opposition to the resolution by several nations, notably Poland and Denmark, received strong support of spokesmen both from Britain and Italy when he presented it to the council.

The council received the resolution and after brief debate, adjourned until Wednesday.

Senators Passes Bus And Truck Regulation Bill

WASHINGTON, (AP)—The senate Tuesday passed the Wheeler-Eastman bill providing for regulation of motor buses and trucks by the interstate commerce commission.

The bill now goes to the house. The bill would require common carriers by motor to obtain certificates of public convenience, and would regulate rates.

Garden Club Members To Meet Tuesday

Garden club members were to convene in a meeting Tuesday afternoon to perfect that organization's plans for participating in the yard and garden contest, sponsored jointly by the club and the Chamber of Commerce civic and beautification committee.

Following the club's meeting, an intensive campaign to obtain entries in the contest will be made. That many citizens are intending to beautify and maintain present plant growth on their places is evidenced by the fact that more than 300 have signed for the city's special irrigation rate during the summer months.

Last year 473 persons signed similar contracts the first time they were offered. This year, with a still cheaper rate, many more are expected to take advantage of the rate before the deadline Saturday.

The Weather

Big Spring and vicinity—Cloudy tonight and Wednesday. Warmer tonight.

West Texas—Cloudy tonight, warmer in the east portion. Wednesday mostly cloudy, colder in the Panhandle.

East Texas—Mostly cloudy and unsettled tonight and Wednesday. Warmer in the west and north portions tonight.

New Mexico—Generally fair tonight and Wednesday. Not much change in temperature.

Bones Of Monster Being Unearthed East Of Coahoma

COAHOMA—Recent discovery near here of the bones of some prehistoric monster has again aroused the interest of those who are interested in ages before man learned to record the time in which he lived.

Latest uncovering of these long buried bones was made when a hole was dug for the sinking of a "dead man" to hold a guy wire for the rig of the Ellis-Wooten oil well, 2 miles east of here.

G. L. "Buck" Graham became interested in the digging of this hole when he noticed that what at first appeared to be a chalky clod of dirt was in actuality a bit of bone. He began digging a second hole to the east of the first one and to date has succeeded in uncovering what appears to be the jaw bone of some huge animal.

A third large bone, not yet fully uncovered, is still in the bottom of the hole. It appears to be the large end of a tusk, giving rise to the theory that the beast was a mastodon or some beast with similar tusks.

Several smaller bones have been removed and have the appearance of being ribs. No trace of a skull has been found, but Graham said he believed that the greater amount of bones had not yet been reached.

The bones lie about four feet underground. The floor of the hole is in quicksand and it is possible that the beast, in attempting to get a drink, became mired in quicksand and thus met his death.

These bones are not the first to be discovered in this county. Sometime in the year 1922 a workman running a Fresno in the old gravel pit east of Big Spring unearthed what proved to be the petrified

FILE BRIEF FOR RURAL COMMUNITY

Chamber Of Commerce Prepares Data Forwarded To Austin For Action

Brief on an application for a rural community in this section was forwarded to Austin for action Monday.

The brief was prepared by the Chamber of Commerce.

It proposes the acquisition of 3,840 acres of land to be used by 60 families now on relief rolls. The tract would be divided to give approximately 60 acres to each family for improvement and cultivation to the end the family could become self supporting.

City Water Mains Undergo Cleaning

If your water appeared to be a bit cloudy Monday afternoon, it was because city water mains were undergoing their spring house cleaning. The city flushed out all of its mains Monday, ridding them of rust and debris.

Building Permit To Miss Gertrude McIntyre

To Miss Gertrude McIntyre to add one room and install some new flooring at 903 Scurry street, estimated cost \$700.

FHA Program Gains Impetus Here Tuesday

Applicant For Ten Thousand Dollar Job Wants To Be First

The Better Housing program was gaining momentum in Big Spring Tuesday.

At least eight inquiries as to repairs and construction possible under the FHA program were received here noon at the FHA office in the chamber of commerce. One of the inquiries was an avowed applicant who wanted to be No. 1 with a \$10,000 application for a new home. Others definitely said they were intending to make repairs and renovations.

A. C. Kyle, FHA representative in this section of the state, said that by "Wednesday morning we will be making a house to house canvass. We are appealing to courtesy of home owners and housewives to show every consideration to the canvassers. There is nothing mandatory about work being done."

The survey is being made to ascertain work possible in the city. Kyle, who will be here this week assisting Mrs. Eck Lovelace, local FHA representative, furnished information for prospects for success of the program in this city.

"I am highly desirous of seeing Big Spring show the greatest percentage gain of any city in the state within the next 60 days," he said of repair and construction work. "This city has an excellent opportunity of doing just that."

Fresh from launching campaigns in other West Texas cities, Kyle said he was all the more enthused over Big Spring prospects.

About six persons will begin the work of canvassing every tenant and home owner in the city relative to having repairs and improvements made. They will make calls at each house and fill out forms. As Kyle mentioned, furnishing information for the forms involves one in no way whatsoever.

Two sections of the housing act provide for almost any type of work. First section takes care of loans for repairs, improvements, renovations. The second section makes provision for new construction and refinancing.

Loans are made through local banks at a low interest rate. Approved loans are guaranteed by the federal government.

Any information as to the Better Housing program may be obtained by calling at the chamber of commerce office.

Kyle will remain here most of the week and will return next week for additional work.

Expect Pool Work Order In Few Days

PWA Bonds For Swimming Pool Enroute Here, Spence Notified

Assurance that it will not be many more days before a work order is issued for construction of the municipal swimming pool and bath house was received here Tuesday morning.

City Manager E. V. Spence was notified in a telephone conversation with authorities that PWA bonds for the project were being shipped here today with instructions attached.

Spence said they would promptly be signed and returned to the federal reserve bank in Dallas for payment.

When notice of payment is given, a work order will be released and ten days from that date construction will begin.

The project probably will require less than 90 working days for completion.

N. L. Peters, Longview, former Big Spring architect, was here Tuesday for a brief visit.

He was enroute west on business and planned to return here in a few days.

His arrival was coincident with reception of word from authorities that PWA bonds for the municipal natatorium and bath house were being sent here.

Peters' company is architect of the project.

J. B. Collins Is Renamed Head Of Trustees

Jones Made Vice-President And Notestine Elected Secretary

J. B. Collins was re-elected president of the Big Spring Independent school district board of trustees Tuesday evening in the first meeting of the board following the election of April 6.

S. F. Jones was named vice-president, Edmund Notestine, secretary, and Mrs. Pete Sellers, clerk.

Collins, Dr. M. H. Bennett and H. R. Few, incumbents who were returned to office in the recent election, were qualified as trustees by the board. They will serve terms of three years.

Routine business formed other items of interest in the meeting.

Huey Threatens Impeachment Of Louis Justices

BATON ROUGE, (AP)—Senator Long Tuesday threatened impeachment of three justices of the Louisiana supreme court and intimated action might be taken at this special session of the legislature.

He referred to Justices Charles A. N'Neil, Wynne G. Roger, and Fred M. Odum.

"Something has got to be done with crooked jurisprudence in this state," Long said.

"Why you've got three judges on the supreme court who decide one thing one day and something else the next day."

News Behind The News THE NATIONAL Whirligig

Written by a group of the best informed newspapermen of Washington and New York. Opinions expressed are those of the writers and should not be interpreted as reflecting the editorial policy of this newspaper.

Neat

An inconspicuous bill is now pending before Congress which may get a new face in the United States Senate and at the same time straighten out a political jam by the New Deal in last November's Congressional election.

The state involved is New Mexico. The principals are U. S. Senator Bronson Cutting, Progressive Republican; U. S. Senator Carl A. Hatch, Democrat, and former Representative Dennis Chavez, also a Democrat. The pending bill would create additional federal district judgeships in several states—one of them New Mexico.

It is in the wood that if all goes well Senator Hatch will resign to sit on the federal bench, and that Dennis Chavez will be appointed to fill out Hatch's unexpired term in the upper house.

Healing

There recently came a recommendation by the Judiciary Conference, which is headed by Chief Justice Hughes of the U. S. Supreme Court, that New York and California each needed two additional federal district judges if overburdened dockets were ever to be cleared.

When a bill to this effect finally was reported favorably out of the Senate Judiciary Committee it included, in addition to the New York and California judgeships, new bench seats in New Mexico, Kansas, Oregon, Kentucky and South Dakota.

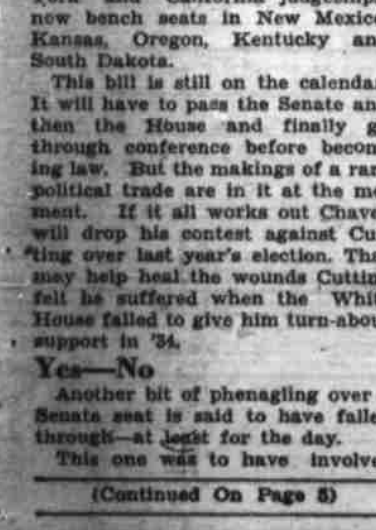

This bill is still on the calendar. It will have to pass the Senate and then the House and finally go through conference before becoming law. But the makings of a rare political trade are in it at the moment. If it all works out Chavez will drop his contest against Cutting over last year's election. That may help heal the wounds Cutting fell is suffered when the White House failed to give him turn-about support in '34.

Yes—No

Another bit of phlegm over a Senate seat is said to have fallen through at last for the day.

This one was to have involved

"GAG" DIDN'T SLOW UP DEBATE IN TEXAS SENATE

Gag rule for senators seemed preferable to the dust storm that darkened the Texas senate chamber, but these gags didn't slow up debate.

Dr. Will Beck of Bowie county, member of the senate, has received 39 signatures' standard operating-even masks, and senators and senate officials and employees were them during the stifling dust storm.

In the picture, left to right, Senator John Hornsby of Austin, Sen. Will Beck of DeKalb; Sen. O. P. Vez, Zeno of Tingo; Sen. Ben G. Good of Wichita Falls; Sen. Frank Rasmussen.

Fort Worth; Sen. Will M. Martin of Hillboro, and Sgt. at Arms A. W. Holt and a page.

Seated: Mary Rogeby, senate journal clerk; Boss Pierce, assistant secretary of the senate and N. Eavens Courtney, secretary of the finance committee.

"You've got three judges on the supreme court who decide one thing one day and something else the next day."

ICEMEN AND ANGELS WIN BY ONE-SIDED SCORES

FORD TEAM SHUT OUT BY FLEW'S

Mellinger's Club Scores Easy 26 To 4 Win Monday

By HANK HART
 Monday evening's softball games brought forth two more teams as real contenders for the Mundy crown when Mellinger's Angels went wild to score a 26-4 victory over Southern Ice in the first game and the Flewelen Station Operators shut out the Ford Motor company, 13-0, in the second.

Both the Angels and the Flewelen boys were never forced to put on the pressure, the Hartmen counting in every inning while the Operators sewed up the game in the first inning with a six run outburst. Graves was on the mound for the Angels and set the Icemen down with three hits. Mellinger's twirler did not have his mates loosened up late in the game and allowed the Frigidmen to score.

Roger Franklin and Otis Cordill led the Angel attack, Franklin hitting four times in five attempts. Cordill went in for extra bases and came through with a home run and a double.

Townsend, Jack Wilson, and Hart contributed triples while Leon Wilson snapped out of his batting slump to collect three bingles. Redding, Angel outfielder, reached first in each of his four attempts.

The Icemen tallied thrice in the fourth and once in the fifth. Malone twirled an excellent game for the Station Operators, striking out six of the enemy. The Johnsonmen collected only four hits, no two of which came in the same inning.

Woodrow Coots, Tarrasas and Meadows were the Flewelen leaders with two hits apiece. Following the six run outburst in the first the Stationmen settled down until the fourth when they counted five times.

Two runs on two hits and a fielder's choice in the sixth frame ended the scoring for the night.

SPORT SLANTS

by Pap

One by one the problems which started Manager Joe McCarthy in the face before the training season began seem to have been solved until now the Yankees' leader feels fairly well satisfied that his baseball machine will go places in the current pennant race. McCarthy apparently is convinced that George Selkirk is the right man for the right field post vacated by Babe Ruth. The sophomore outfielder has the pith, speed, defensive skill and, what is most important to the Yankees' scheme of things this year—enthusiasm.

Selkirk should be more effective this year for he has loosened up considerably at the plate. The muscular fielder was quite a wrestler a few years ago and as a result his muscles were not as free and pliable as a ball player's should be for complete efficiency. To "Doe" Painter, Yankees' trainer, must go the credit for "loosening up" the youngster.

Red Rolfe is McCarthy's hope for plugging the gap at third base. The hot corner has been a headache to "Marce Joe" ever since he took up the Yankees' reins. It has never been covered to his complete satisfaction.

Many Have Tried
 The Yankees' manager has experimented with Ben Chapman, Joe Sewell, Tony Lazzeri, Frank Crosetti, Jack Salsgaver, Myril Hoag and now Rolfe.

Rolfe played 26 games at third during the 1924 championship season and was stationed there in the preliminary games in the south this spring. He has improved considerably and promises to fill the position as it has not been filled since the days of Jumping Joe Dugan.

Red is not the fielding wizard that Dugan was—nor is he likely to develop to the point where he can be classed with Joe as a third baseman, but he is a steady fielder and a good hitter to boot.

Dixie Walker's arm seems to have completely recovered. Walker was used in most of the spring training games only because McCarthy was anxious to see what he could do. As soon as the Yankees' boss saw that Combs was his old self, he set about testing Walker thoroughly.

Bill Healy to Slick
 Then, too, there is Jesse Hill, the speed-boy who flashed such brilliant form at bat and in the field with Newark last season. Up for the third time, he appears to be ready for a regular outfield job.

With the veteran Combs on the job the outfield will not be slowed down to any noticeable degree for the Colonel has staged a remarkable comeback after the serious injury sustained in St. Louis last summer. McCarthy has had a warm spot in his heart for Combs since their Louisville days.

That the Yankees will miss the color and drawing power of Babe Ruth no one will deny but McCarthy is following the only sane course in trying to build a winner of fast, ambitious youngsters.

The crowds may not pour out as they did in the Babe's hey-day but the Yankees will draw their share of supporters if McCarthy can produce a pennant winner. After all, the main reason Colonel Jake Ruppert hired McCarthy to manage the Yankees was to put a winner on the ball field, wasn't it?

McEuin, Bromberg Wrestle Tonight

The powerfully built Count Von Bromberg, who returns to the Big Spring Athletic Club tonight on the main card with the rougher than the West Coast, will have plenty of reasons for acting mean.

McEuin, who delights in jerking the Counts' goat, beat him into submission at Athens last week. The bout here tonight is just what Bromberg wants. Had he been given his choice of opposition it would no doubt have been McEuin.

Clean Gr Rough
 The Count can wrestle just as clean as any of the boys, or just as rough, for that matter. Tiger Billy is speedy for his size but spends much of the time fighting. He has a touch of wildness at times.

It will be a finish match, the best two out of three falls. Ernie Arthur, the Canadian middleweight, although easily a man over, will show on the semi-final with the jiu jitsu expert from Dallas, Dutch Tennant.

Doesn't Look Part
 Bromberg doesn't look the part and will be a few pounds lighter than his Canadian opponent, but what he lacks in looks and weight he will make up with the jiu jitsu tricks.

Arthur says jiu jitsu is tricky and you never know what to expect next. Tennant lost last week to McEuin. He referred to the Tiger as the meanest wrestler he had ever met up with.

McEuin is 27 years old, and has been a member of a municipal golf club since taking up the game. His headquarters are in New Albany, Ind., now, where he works for a manufacturing concern, but he expects to again be a member of the Indianapolis team.

The Coffin course is said to be in the finest condition it has been in since it was rebuilt several years ago. It is one of the most difficult courses in Indiana.

Hoosier, Public Links Champion Eager For Drill

INDIANAPOLIS (AP)—Dave Mitchell, the tall, curly-haired fellow from Indianapolis who won the national public links golf championship last summer, says he needs a lot of practice or he will be out of luck in defending his title in the 1935 tournament here beginning July 29. The champion has played only nine holes since last October, but says he believes his work will be such that he will be able to put in a lot of time on the links before tournament time.

"I need the practice," he said, "for I want to win again. If I don't get lots of practice I will be out of luck."

The tough Coffin course, over which the championship matches will be played, is pretty much home for Mitchell, who holds the amateur record for one round there with a 66. Par is 37-35-72. The professional record is 65. It was at Coffin where Mitchell hit his first golf ball back in 1922.

Three Times In Tourney
 Mitchell has been a member of the Indianapolis team in the national public links tournament three times. In 1931 he was the medalist at St. Paul, but was beaten in the first round by Charles Ferrara of San Francisco, who went on to win the championship.

In 1933 Mitchell won his first round match and then lost to Robert Miller, the Florida star, who was the defending champion. Last summer Dave finally tossed fine golf consistently enough to win the title at Pittsburgh.

Mitchell is 27 years old, and has been a member of a municipal golf club since taking up the game. His headquarters are in New Albany, Ind., now, where he works for a manufacturing concern, but he expects to again be a member of the Indianapolis team.

The Coffin course is said to be in the finest condition it has been in since it was rebuilt several years ago. It is one of the most difficult courses in Indiana.

McEuin is 27 years old, and has been a member of a municipal golf club since taking up the game. His headquarters are in New Albany, Ind., now, where he works for a manufacturing concern, but he expects to again be a member of the Indianapolis team.

SWEATSHOP PAY IS NO BOON TO A FAMILY ON RELIEF

You'd think that the man who had a job in time of depression would go around patting himself on the back and rendering daily thanks to his lucky stars.

That's true, in most cases. But some job-holders lately have been developing a weakness for feeling sorry for themselves.

They take an attitude something like this: that because the job of supporting the unemployed falls on the government, and ultimately on the taxpayer, the man who has a job and pays taxes is very much to be pitied, since he is enabling others to live in idleness.

A young New Jersey accountant the other day sounded off at some length on this subject. He happened to know an unemployed family that was in dire circumstances—nine children, a squallid shack for a home, and relief payments of \$6.25 a week as its sole income.

He tried to help a young man in this family get a job, and put an advertisement in a rural paper, stating that a 29-year-old American who could drive a car and knew how to take care of horses would take any job for his keep and \$10 a month.

The accountant got 300 answers to that letter. Prospective employers all over New England and the central Atlantic region seemed to figure that a \$10-a-month wage scale represented a bargain. So when his young friend had accepted one of the offers, the accountant took the letters to relief agencies to see if other unemployed people didn't want jobs.

There he got a shock. The job went begging. None of the jobs men rose to the bait. And the accountant complained bitterly:

"As long as the government is going to take it out on those who

G. A. SANDEFER, Manager Abilene, Texas

SOME OF THE BOYS WHO played a little softball last year but failed to make the grade this season are thinking about organizing a team of their own and calling it the "Left Outs."

SPEEDY MOFFETT AND George Brown are still drilling their schoolboy gridmen—about thirty in number. Considerable work has been given on plays, and Moffett reports that the Notre Dame shift will be used almost exclusively next fall.

MOFFETT FIGURES ON A better all-around team this year. He believes that the secondary will be stronger and more versatile than last fall, and is optimistic when it comes to the line.

MANY HIGH SCHOOL COACHES don't go in for the Notre Dame shift, Moffett explained, but he believes it's because they don't know how to stop it. About thirty boys are reporting for practice here, which is pretty good for Big Spring. However, we notice where sixty reported for spring training at Brownwood. Officials here have only enough equipment to outfit about half that number. The boys make away with nearly everything.

THE OPENER WITH ABILENE next fall should be a good drawing card. Dewey Mayhew, the Abilene earner, says all he can hear is how good Big Spring is going to be. Anything Mayhew says goes in one ear and out the other. He exaggerates so much he doesn't know when he's telling the truth.

IF THE ANGLO BOBCATS GO anywhere next fall they'll have to build an offense. The Cats were almost without an attack last year. One of the local coaches tells us he believes the best offense is a good defense, and that about one day out of the week is enough time for teaching defensive tactics.

HENNING HAS A RATHER weak team at Sweetwater the past season and is reported to have lost nearly everything, but he's a smart coach. If Hennig only had Harry Taylor's material!

THEY SAY DEWEY MAYHEW is scouring the country for players. We understand he has good reason for wanting to put a winner on the field. He may bring a team of small, fast players here, but coaches say the locals will probably be able to handle that kind better than a powerhouse team.

BRISTOW HAS NOT BEEN aiding in spring training work. He's not on the payroll this semester, but will be during the fall months.

REBODDING THE FOOTBALL field will be a blessing to the players. The turf looked good from the grandstand but had no cushion underneath. Sweetwater has an excellent field.

EVEN IF THE STEERS FAIL to make much of a record they'll be a classy looking lot. They're to be decked out in gold colored satin duds.

CITY MANAGER E. V. SPENCE reports the theft of two sprinklers from the softball diamond Sunday afternoon.

ONE OF THE GRAPPLERS Ernie Arthur had to defeat to win the middleweight championship of Canada was Pet Brown of Texas. The Canadian Athletic Commission awarded Arthur a beautiful belt.

ARTHUR IS RATED AMONG the top-notchers, along with Matsura, Otis Clingman and others. Recently he wrestled in Mexico, but didn't take to the place because of the mean fans. His first bout in Mexico was with Charlie Heard. He spoke highly of the San Antonio speedster, who is scheduled to return here shortly.

WE HAVE RECEIVED MANY inquiries as to the whereabouts of Gene La Belle. We would like to know yourself, as would Promoter Herman Fuhrer. When La Belle heard that Arthur was coming to town he left for parts unknown. La Belle and the middleweight champ have had difficulties. If Fuhrer is able to get the two together in the ring an exciting time is promised.

Mrs. J. A. Boykin and Mrs. D. M. Logan spent Sunday night and Monday in Midland visiting Mrs. P.

pay taxes and support the vast bureaucratic machine of the demagogue, the unemployed won't work; they'll continue eating their heads off."

Such honest indignation is very touching, until you stop to examine the boon which these unemployed men rejected. For a wage rate of \$10 a month, even with keep, is a sweatshop wage, under any circumstances. Is it really surprising that American workers should reject it? Would we gain anything by lightening our relief load at the price of a wage scale like that? What happens to the American standard of living at \$10 a month? The accountant reports that these offers came from high-grade outfits—Long Island estates, summer camps, shooting lodges, schools, and the like. And if we suppose lucky folk who are able to pay taxes would stop pitying ourselves, we might agree that these would-be employers rate just as much criticism for offering \$10-a-month jobs as do the jobless men for turning them down.

CLUBS

ONE GIRL IN FOUR MOODS

"Little Girl Blue" in Navy sailor with airy, baby achieved through blue eyeshadow and mascara applied to make lashes sweep upward. Rouge in a blue, rosy red geranium tints applied in a long patch near nose to effect the rounded which this hat gives the Red lipstick is concen-

trated in the center of the lips and blended lightly at the corners of the mouth to give the effect of piquancy. The demure dimple is a touch of rouge.

2. "The Sophisticate" in forward-movement hat and complexion built up to roll. Makeup is in dull red that gives the

smart, healthy effect demanded by simple tailored frocks this season. Rouge is applied high under the eyes and away from the nose. Lipstick is slightly heavier on the upper lip. To point the eyes and give them that languorous look, blue-green translucent eyeshadow is applied in a long line close to the lashes, and brought out beyond

the corner of the eyes. 3. "Picturesque" in cartwheel hat and romantic make-up ensemble. An eyelash grower and darkener is used on eyelashes instead of mascara to give the illusion of long lashes and an effect of dreaminess rather than worldliness. An eye tissue oil on eyelids gives a soft,

delicate lustre. A sun-kissed red-raspberry tone of rouge and lipstick is applied to follow the natural color outline of cheeks. And the picture is flushed in a fragile, opalescent shade of powder. 4. "Exotic" in the Chinese influenced mushroom variety of the sailor. Special attention

Peggy Juhree Holt Hostess For Party

Peggy Juhree Holt was hostess to a group of her little friends Monday afternoon at the home of her parents, Mr. and Mrs. G. H. Holt, for a farewell party before moving to her new home in Hobbs, N. M. The Holts plan to leave this week. Assisting Mrs. Holt with the party was Mrs. H. C. Jenkins. Easter games carried out the pink and white color scheme after which refreshments were served to the following: Sara Woodward, Louise Ann Bennett, Lula Jean Billington, Mary Frances Phillips, Warren Clem Atkins, Betty Joe Jenkins, Norma Jean Davidson, Bobby Sisson, Bert Summers and Jerry Mancill.

ornaments for guest high

Guests other than Mrs. Moore were Mrs. Jack Hodges, J. and Miss Lucille Rix. Members assisting were Misses Merrill, E. Jones Runyan, Veda Robinson, Dorothy Bunch, and the hostess, Miss Emma Louise Freeman. Will be the next hostess.

"FELT MISERABLE MOST OF THE TIME"

Then Kellogg's ALL-BRAN Checked Her Constipation

Read Mrs. Marsden's letter: "I have been a subject of constipation for the last 11 years. I felt miserable and irritable most of the time. My husband is a manager of a chain store. He said 'Why don't you try Kellogg's ALL-BRAN'."

"ALL-BRAN helped me right away. I have taken it now for the past 5 months, and I am as vigorous as a clock. My health is fine, and I am full of pep."—Mrs. Charles Marsden, 681 Merrick St., Detroit, Mich.

"Constipation due to insufficient 'bulk' in meals.

ALL-BRAN provides gentle "bulk" to aid regular habits. It also supplies vitamin B and iron.

The "bulk" of ALL-BRAN is more effective than the "bulk" in fruits and vegetables, as it does not break down within the body. Two tablespoonfuls daily are usually sufficient. If not corrected this way, see your doctor.

Isn't this food much pleasanter and safer than risking patent medicines? Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

Report Of Jubilee Is Given WMS

Methodist Circles Hold Union Session At Church

Members of the First Methodist church met at the church Monday afternoon to hear reports from the jubilee held at Childress week. Members of the Wesley Memorial church, W. M. S. were present at a meeting and gave their reports. Mrs. Fox Stripling repeated the jubilee report she gave at the jubilee. She also told the members of the pioneer dinner that she had for charter members of missionary societies that organized in Childress 25 years ago. She announced that \$700 was raised throughout the conference. She divided into stipends for various missionary projects, such as scholarships for mission schools, fees for social service workers, applied to hospitals. These were given the names of present conference officers, one being called the Jane Wiley fund. Reports were made by Mrs. John Baker, delegate from the Wesley Memorial W. M. S. on new plans for social service workers at the Sunday school. Mrs. Bickley, an officer of the conference, gave a summary of the jubilee work and Mrs. C. C.

Education Is Theme Of W. M. S.

Presbyterian Auxiliary Has Big Turn Out For Program

A program dealing with Christian education was given at the meeting of the Woman's Auxiliary of the First Presbyterian church Monday afternoon. The women studied the relation of the home to Christian colleges. Mrs. J. A. Smith was program leader. After Mrs. Berrick opened the meeting with the devotional, Mrs. Lee Porter, Craig and Foshee gave talks on the subject. Mrs. McDowell told an interesting story of a home she had visited in Wyoming. The members planned for a birthday party to be given for the Auxiliary on the second Monday in May. The Dorcas circle members with Mrs. R. L. Carpenter as leader will have charge of the program. Attending this session were: Mrs. Leon Moffett, E. L. Barrick, J. A. Smith, R. C. Strain, H. W. Taylor, Sam Baker, John C. Thorne, L. E. McDowell, T. S. Currie, J. T. Allison, A. A. Porter, Lee Porter, W. C. Barnett, L. T. Leslie, Mitchell, Craig, Ellen Gould, H. G. Foshee, Tom Donnelly, George Lee, W. T. Bell, Raymond Dungan, Hank McDaniel, C. W. Cunningham, Frank Knaus, Allen Hodges, R. T. Piner, H. C. Stipp, W. F. Cushing, Bill Edwards, Robert Kountz. Next Monday there will be a business meeting of the members. PRAYER MEETINGS Mrs. J. A. Myers will be hostess Wednesday for prayer meeting service for those living in the neighborhood of her home at 709 Main street.

Juniors Given Easter Egg Hunt At Church

The members of the junior department of the First Presbyterian Sunday school were given an Easter egg hunt at the church Monday afternoon.

The hunt followed a series of enjoyable games. Ice cream was served afterwards. Present were: Lavoyce Short, Billie Marie Boutler, Elnora Henry, Patay Mima, Billie Lee Ragan, Billie Beas Shive, Opal Smith, Ruby Rogers, Lorena Brooks, Elvin Rogers, Jack Crenshaw, Alfred Adams, Ollie McDaniel, Robert Carroll Delbridge, Elmo Henry, Billye Jean Mima, Willie Jo Allison, Keith Dobyns, Howardene Finley, Mary Ann Dudley, Robbie Piner, Jack McDaniel, Jerry Hodges Daley Pearl Reed, Willie Lawrence Read and Ralph Sheets. Mrs. Van Gleson will be program leader for the fiftieth anniversary meeting next Monday and will present the history of the local church with many special numbers. Among those announced is a solo by a local woman who sang at the first Auxiliary meeting in 1885. Her name is being kept a secret. Only two women reside in Big Spring today who attended that session and one of them only will be able to attend. Other surprise features are being planned. There will be the usual birthday offering of the members and a free will offering for visitors. Refreshments will be served at the close. This meeting is open to friends of the church who care to attend. The program was devoted to information concerning the Good Friday offering. Mrs. Shine Phillips told of the American bishopric in Palestine and the establishment of a fund for an American chaplain there because of the number of Americans residing and visiting in Palestine, particularly in Jerusalem. The Good Friday offering goes to this fund. The members voted to keep a record book of the activities of the church since its status as a parish. Members attending were: Mrs. Otto Peters, C. A. Bulot, B. O. Jones, V. Van Gleson, George Garrette and Shine Phillips.

Episcopalians To Observe Anniversary

Planning Historical Program And Tea For Next Monday

Plans for observing the golden anniversary of Saint Mary's Episcopal Church and especially of the Women's Auxiliary were made at the Auxiliary meeting Monday afternoon in the parish house. Mrs. Peters presided. Mrs. Van Gleson will be program leader for the fiftieth anniversary meeting next Monday and will present

HUMBLE PRODUCTS are Public Tested

What Does This Mean to You?

Only on the proving ground of public opinion can the true worth of a product be established. So for the past several years it has been Humble policy to ask the Texas public to test Humble products in their own automobiles. The results of these tests have been reported on thousands of check cards which are in our files. These test reports have guided us in building products to fit the public need.

By having our products thus public-tested we are able completely to carry through our policy of providing the right product at the right price with the right kind of service.

You can be sure that any Humble product is not only technically correct but that it has proved itself in actual use in thousands of cars like yours, driven by motorists like you, under the same driving conditions that confront you.

Public approval by public-test makes us confident that you, too, will like Humble products. Find out for yourself by testing for yourself.

GREAT RICHES

by Madeline Hovey Farnham

Chapter 23
RED CARPET

James kissed Jane and told her she was a wonder. He tried then to appear enthusiastic. He agreed that the multitude of gleaming polished oak made a delightful golden glow, though he thought it beautiful.

Later, when Jane had forgiven him and was discussing furniture and color schemes, he even essayed a few tentative suggestions about his preferences.

"I like my den papered in red," he said. "And a rich red carpet would look like a million dollars on the stairs."

"Jane laughed. "This is woman's work," she countered airily. "Don't go bothering your blessed old head worrying about something of which you know nothing."

A day or two later at an evening party in their honor, James overheard Jane laughing contemptuously over his "alleged taste."

"You might feed him red meat through the bars," Sam Fletcher suggested.

"Yes, doubtless it will go with his skin," Jane laughed. Everyone laughed except Leslie Harris, who was seated on a cushion on the floor.

"The loveliest house I've ever been in is the Haskell in Fort Loveworth," Leslie said quickly. "You know Mrs. Haskell was one of the Whitelegs from New York. She made the house over inside and she has a crimson carpet on the stairway. The walls are white and there is an iron balustrade. I thought it was beautiful. And it would be as it's pictured in 'Homes and Gardens.' Mrs. Haskell says crimson is the richest color there is."

"Mrs. Haskell is red headed herself, that may account for it. Well, everyone to his taste. And taste is arguable, is it?" Jane asked.

"Yes," said Leslie flatly. "I think a good many of us might argue that certain things are in a table."

"One's own finer instincts . . . if one has them," Leslie jumped to his feet and made for the piano. "I'll play. Let everyone dance." She broke into that new success, "The Man Who Broke the Bank at Monte Carlo."

James went out to the front porch and smoked a cigar. He had left Jane sitting flushed and disconcerted. James' heart was warmed with a smacking glow of which he knew he ought to be ashamed.

MOTHER STILL FIGHTS FOR GLORIA

Mrs. Gloria Morgan Vanderbilt and her 10-year-old millionaire daughter, Gloria Laura, posed for this exclusive picture after a court decision which held the mother might not have the daughter's custody. Records in Mrs. Vanderbilt's appeal from the ruling are to be filed soon. (Associated Press Photo, copyright by Hal Phylle)

He wakened to find Aunt Sarah in a long white wrapper and curl papers bending over him. "What is wrong with you?" she asked anxiously. "You cried out as if you were in terrible pain."

James found himself still wracked with sobs. "Nothing," he got out. "I've been dreaming a nightmare."

"James, dear, you haven't been yourself for weeks. Aren't you happy? Don't you want to be married?"

"No."

Miss Sarah sat down abruptly on a convenient chair. "Oh, my darling boy, this is horrible . . . horrible," she whispered.

James said nothing. "But don't you . . . aren't you in love with Jane?" Miss Sarah persisted. "I suppose so, I don't know. I'm

too young . . . I'm not ready to be married. Jane's all right, but I don't like her mother, nor those damned twins, always staring at me as if I were some sort of insect they'd like to stick on a pin and see wiggle. If I could take Jane away from the lot of them it wouldn't be so bad . . . but I can't. I can't go through with it. I just can't . . ."

Miss Sarah braced herself to her duty. "It's too late now," she protested in an agony. "You are a Stimson. You cannot . . . cannot go back on your word."

James threw his arm over his eyes, as if . . . as if he could not bear the sight of her.

Miss Sarah choked back a sob. "I haven't . . . haven't been altogether pleased with Jane," she went on humbly. "I have never . . . been able to bring myself to forgive her for forcing you to leave your own

Mary Willis Circle At Mrs. W. B. Buchanan's

Members of the First Baptist W. M. S. met in circles Monday afternoon at the homes of the members. The Mary Willis circle convened in Mrs. W. B. Buchanan's home.

Mrs. Holmes read the devotional from the eighth chapter of Deuteronomy. The remainder of the evening was spent in piecing quilt blocks.

Present were: Meses. C. S. Holmes, Una Covert, E. Bryant, William Fabrenkamp and Joe Copeland.

HERALD WANT-ADS PAY

One insertion: 8c line, 5 line minimum.
 Each successive insertion: 4c line.
 Weekly rate: \$1 for 5 line minimum; 3c per line per issue, over 5 lines.
 Monthly rate: \$1 per line.
 Readers: 10c per line, per issue.
 Card of Thanks: 5c per line.
 Ten point light face type as double rate.
 Capital letter lines double regular price.

CLOSING HOURS

Week days 12 noon
 Saturdays 5 P. M.
 No advertisement accepted on an "until forbid" order.
 A specific number of insertions must be given.
 All want-ads payable in advance or after first insertion.

Telephone 728 or 729

ANNOUNCEMENTS

- Personals**
 - Madame Lavonne—Reader Noted phycologist and numerologist; accurate advice given in business changes and love affairs. No questions asked. 310 S. 12th St. Hotel.
 - MADAME Sue Rogers, palm reader, reveals your future, present, and past; your business, love affairs, and 85% correct. Day or night. Cabin 13 Camp Coleman.
- Business services**
 - SHIRTS finished 9-12c; uniforms 25c. Economy Laundry, Ph. 1231.
 - Typewriters, adding machines, new; used; service, rentals. Eugene Thomas, 312 1/2 Pet. Bldg. Ph. 98.
- Woman's Column**
 - TONSOR Beauty Shop, 120 Main, Phone 125. Special oil perm. \$1.50. \$1.25 up to \$5; shampoo & set 35c; eyelash & brow dye 25c.
- EMPLOYMENT**
 - 15 Empty W'ld—Male 15 AUTO salesman and accountant, bookkeeper, well experienced; wishes connection with local or out of town agency. Write Box 946, Wink, Texas.
- FOR SALE**
 - 18 Household Goods 18 COMPLETE furnishings for 6-room house. Call 990 after 4 p. m.
 - FIVE-foot all-porcelain refrigerator; sell for \$150 cash. Phone 1372-W.
- WANTED TO BUY**
 - 30 For Exchange 30 WANT to trade—\$140 preferred, \$440 common stock oil royalty in reliable Texas corporation paying 18% annual dividend. Will trade part or whole. What have you? Address Box HBY, care Herald.
- FOR RENT**
 - 32 Apartments 32 ALTA VISTA apartments; modern; electric refrigeration; bills paid. Phone 1055.
 - TWO-room apartment; no children. 210 North Gregg St.
 - ONE and 2-room furnished apartment; modern; all bills paid. 409 West 8th St.
 - HALF of duplex; 3 rooms; furnished. Phone 1031 or 1234, or call at 908 Gregg St.
 - DUPLEX apartment; private; all conveniences, at 411 Bell St.
- REAL ESTATE**
 - 46 Houses For Sale 46 FOR SALE OR TRADE—Six-room residence in good condition; close in; will take car or trade; easy terms on balance. See Roy Dawson, 206 West 6th.
 - 47 Lots & Acreage 47 FOR SALE—Twenty four well located lots in Edwards Heights; several on pavement. J. B. Pickle.
 - 48 Farms & Ranches 48 HAVE sold my cattle; will lease two sections of grass land for 1 to 3 years. D. W. Christian.
- AUTOMOTIVE**
 - 53 Used Cars To Sell 53 '34 Model Cord Cabriolet Coupe, burned; bargain. See Dick Ross, 311 Goliad or at Marvin Hull Motor Co.

(Continued From Page 1)

Senator John H. Overton, Governor O. K. Allen and Lieutenant Governor Jimmy Noe, of Louisiana. As you have guessed by now, a man named Long was pulling the strings.

Laddled out of a nutshell, it was to have run as follows: Overton, he was in ill health. He was to resign from the Senate. Simultaneously O. K. Allen was to have resigned as Governor, and Noe, ascending to the Governorship, would have appointed Allen to fill out Overton's Senate term.

Overton, Allen and Noe all belong to Long politically, lock, stock and barrel. But at the moment Washington life seems to have improved Overton's health. He says he's going to stick around.

Could it be that Noe, the yes-man said yes while Overton, the yes-man, said no?

And what is Long saying?

Reform

Men wise in the ways of relations between the White House and Capitol Hill say that in the final analysis the administration's imperative "must" program will include only four bills—social security, extension of NRA, banking and eradication of utilities holding companies.

Whether they all get through is something for the future, but President Roosevelt still has a whacked house to fall back on whenever the Senate gets obstreperous. There will be concessions as politics is built on trading, but the New Deal expects to see the 74th Congress write the basic principles of these four into law.

Those trying to chart the New Deal's future course will note that three of the four measures contemplate reform of the existing system—indicating that reform is still as important as recovery. There are many who might classify the NRA bill as a reform measure also.

Disagreements

No visible change has been made in the program for enactment of the Rayburn utility holding bill, but significant remarks in Congress corridors indicate that the bill will have some of its teeth drawn.

Statements by Dave Lichtenal, power boss of TVA, have been challenged by the House Military Affairs Committee and he has been given a chance to tell his story over again. He harps on the danger of power shortage in the TVA regions, although work is going ahead on two dams and TVA is holding its hand out for funds with which to build two more.

Analysis by utility experts has shown that TVA's estimates of power costs do not take account of millions spent in building Muscle Shoals, or interest on that investment. Officials of private utility concerns in the South deny that there's a power shortage or any danger of one.

Pressure

Although public utilities regulation is the subject of bitterest controversy within and without the administration these days it didn't disturb the Senate Agriculture Committee. Without hearings or debate the Committee favorably reported the Norris bill which would give TVA power to issue bonds up to \$100,000,000 for the purpose of buying existing private power facilities.

The Norris measure is designed to overcome the Grubb decision which held sale of surplus power by TVA to be unconstitutional. It gives the Valley Authority explicit license to merchandise power.

Lots of concealed pressure is being exerted here and there to keep Uncle Sam from breaking down and taking over the public utilities.

Hollow

Secretary Dern has put a crimp on the bills to take the profit out of war. His spokesman before Congress committees has sounded the warning that victory is quite an important subject in war time and that the government is dependent upon industry to provide the means.

In cloakrooms the Senators say they don't attach much importance to anti-war bills. Nye's committee revelations of profits from munitions are not items of news. Lawmakers ask how the country can be expected to expand its energies tenfold over night if the government is to be denied the right to offer inducements.

The pressure for a law to take the profits out of war, on the theory that it will discourage war mongering, is such that a bill may pass. Cynics say that this doesn't mean anything—that the law would be scrapped at the outbreak of war.

Notes

Speaking of work, this is a

ENGLAND AND ITALY BACK FRANCE

This picture from Stresa, Italy, where a tripartite conference resulted in reported agreement by England and Italy to support France's protest against Germany's violation of the Versailles treaty, shows (left to right) Prime Minister Ramsay MacDonald of England; Dr. Balbo, lord mayor of Stresa; and Premier Pierre-Etienne Flandin and Foreign Minister Pierre Laval of France. The photo was transmitted across the Atlantic by radio. (Associated Press Photo)

Crenshaw To Speak This Evening On 'New Testament Conversion'

The Church of Christ revival meeting continues with unabated interest manifested. A good crowd was present Monday night. Four responded to the invitation for baptism. J. P. Crenshaw of Sweetwater will speak tonight on "New Testament Conversions." Monday night his subject was "The Cities of Refuge." He said in part:

"The cities of refuge in Old Testament times, as God directed the children of Israel to place them and use them, certainly suggest to us Jesus Christ as the only true refuge for sinners. When any man had slain a fellowman accidentally, by his own chance or the avenger of blood rested in his reaching the city of refuge before being overtaken.

When any one today listening to the reading of God's Word becomes conscious of a lost condition, the only hope of salvation rests in fleeing to Christ, obeying His plan of salvation; and thus, being in Him we are safe from the avenger.

These cities were placed by divine direction. Not by chance, not by choice of men, but by divine command. Just so your safety and mine hinges upon exact obedience to the conditions set forth in the New Testament, conditions upon which Jesus has promised to forgive sin.

By order of Jehovah, the roads leading to the cities of refuge were kept in good repair, entirely free from encumbrances of any kind. The way to Christ is really plain. Of all the truths that go to make up the whole truth, nothing is more plain than the plan of salvation.

The doors of the cities of refuge were kept open day and night. There has never been an hour since we reached responsibility that Jesus has not been standing ready to receive us. But the time will come when it will be too late. Jesus may come again, or death may overtake us, or we may reject the invitation, until we harden our hearts to the extent that the story of the cross fails to appeal to us. Let us today, while time and opportunity is ours, hasten to obey the Gospel, enter into Christ—our true refuge, and remain faithful to the end. If we will but come to this decision and action we may spend eternity with Him.

Richard Whitney has done his best to heal the breach in Stock Exchange ranks by publicly announcing his support for his designated successor—Charles R. Gay. But sub-surface sentiment is still remarkably bitter. The faction which supported Whitney is convinced it was the victim of a fast one put over by the big wire boys. A few die-hards are still trying to drum up an independent ticket—although their chances of getting anywhere are slim.

But Mr. Gay will find his new post no bed of roses. Plenty of able men are ready and eager to throw the hooks into him at the slightest sign of a slip.

Service

Two important changes in Stock Exchange setup are certain as Gay takes over. One is internal. The Exchange will establish its own legal department instead of depending on outside counsel. "Whose chief functions seem to be to get us in as wrong as possible with congress."

The other involves sweeping shifts in the personnel of the law and public relations committees which really run the Exchange. This implies a new policy toward the outside world with protection of investors and frank discussion of how the wheels go round heavily featured.

That portion of the public which is interested in the stock market is bound to notice a significant change. Mr. Gay means it when he says: "The Exchange must be alive to the necessity for proving that it provides a valid public service."

War

New York authorities predict that France and Italy will argue themselves blue in the face at Stresa and Geneva without inducing Britain to tie up in any mutual defense pacts. Public opinion in England is violently against entanglements. The informed contend that no government official who agreed to commitments on the continental could hold his job for a week after his countrymen knew what he had done.

Germany will undoubtedly be encouraged by the failure of the other powers to reach an agreement—but informed sources are skeptical of the theory that this will hasten hostilities. Comment runs that every government in Europe—except Russia and possibly Italy—is aware that it faces the danger of internal revolt if it plunges into war. This is a factor for peace that weighs far more heavily than the world knows.

Competition

The new trade treaty with Belgium is subject to review after it has been in operation six months.

Tentative date for the arrival of this party is June first.

In this connection it is pointed out that the removing of bones from an excavation requires much skill. Care must be taken not to break the bones, which are usually very brittle. Shellac should be applied to all exposed surfaces to keep the air from decomposing them.

Some of these bone deposits are of great value, a complete skeleton sometimes being valued as high as \$35,000. Other deposits, however, are commonly found and are worth little or nothing.

Easter Sunrise Service At Six Sunday Morning

An Easter Sunrise service will be held on top of scenic Park next Sunday morning at 6 a. m. This service will be conducted by the Young People of the First Presbyterian church. Everyone desiring to attend is most cordially invited regardless of age or church connection. A well worth while Easter program is being prepared.

Bridal Shower Given
 Mrs. L. W. Willis and Mrs. E. M. Moody were hostesses at a bridal shower given for Mrs. Heribell Moody Thursday evening in the Willis home in the Continental camp. The guests were taken on a treasure hunt which ended in Mrs. H. Moody finding a large box of presents. She was thoroughly shocked as she thought the party was a birthday shower for Klydie Ballard. After examining the presents various games and contests were played. Prizes were raffled goods with the labels torn off. Mrs. Ballard and Mrs. Creelman won them.

Refreshments of sandwiches, pickles, cake and ice tea were served to Mmes. A. L. Grant, D. W. Roberson, D. E. England, Ohio Caldwell, Avin Ruffin, J. D. Gilmore, R. H. Jones, W. T. Creelman, Glenn Smith, J. J. Moore, C. A. Ballard, L. H. Muncell, Read and Miss Glydie Ballard. Those sending presents were Mmes. E. P. Feller, H. H. Hilliard, J. E. Sullivan, O. N. Green, Sammy Barton, L. C. Aiston, A. R. Rude and Laura Mae and Irene Willis, Oneta, Francis, Estell and Virgie Moody.

Scouts Camp Out
 The Bob White patrol of Troop 1 went to Chalk's four section Friday night on another camping trip. They returned Saturday morning soon after breakfast. Those going were: Jodie and Tom Dist-

Breadline Idea Does Not Appeal To Stanton Youth So He Starts Bread Shop

STANTON—Many youths who graduated from high school in May are still grumbling about the depression and trying to find something to do. If it were not for their parents help they might even be on the relief rolls.

But Robert Kay Rogers liked not the idea of depending on relief rolls. Nor did he fancy being in a bread line. So apparently taking a cue from what he did not like, he started selling what most people do like, namely, bread and rolls.

Stepping out of high school in May Robert spent only a month in finding something to do. In June he started what is still the only bakery in Martin county.

Bakery products are obtained from Big Spring bakeries and delivered to merchants and customers in Stanton and nearby towns.

According to his mother Robert's bakery has shown a steady increase since its start.

Birth Announcement

Mr. and Mrs. Earl Ladd returned from Oklahoma Friday evening where they have been visiting her parents.

Chalk Honor Roll

- First grade: Peggy Jo Hargrove, Frances Nell, Freda Nell Oglesby, Patricia Knight, Bill Jr. Phillips, Glenn Eugene Smith.
- Second grade: Lucia Ann Hurley, Frances Moody, Laura Mae Willis, Harley Grant.
- Third grade: Dan Oglesby, Buddy Spain.
- Fourth grade: None.
- Fifth grade: Robert Odum Jr., Adelaide Hargrove, Eugene Stephan.
- Sixth grade: Melba Dean Holt, Jane Hurley, Mollie Smith.
- Seventh grade: Shirley Caudle.

Girl Scouts

The Chalk Girl Scouts studied trail signs at their meeting Wednesday evening. They built first in the valley near the school house. Those attending were: Berlyene Cramer, Bessie Marie Galt, Adelaide Hargrove, Geneva Galt, Molly Smith, Shirley Caudle, Inogene Kennedy, Melba Dean Holt and Miss Collins.

Mrs. Marvin Roundtree of Ross City has been visiting her father who has been quite ill.

Representatives of Three Towns Here On Road Matters

H. C. Davis, Eastland, R. V. Galoway, Ranger and T. E. Spencer, Cisco, conferred here briefly Tuesday afternoon with local business men on highway No. 1 matters.

Reminding that the rerouted highway No. 1 (U. S. 80) cut off 14 miles between Weatherford and Ranger, they told of plans to erect a sign near Weatherford and one near Abilene advocating travel of the shorter route.

Because of expense entailed in erection and maintenance of the signs, they were soliciting aid of towns west, since these towns will benefit by the traffic, they said.

Chamber of Commerce directors will consider the proposal Friday evening in their regular meeting.

DO YOU HATE TO MEET PEOPLE?

SOME of us are so bashful that whenever a new face appears before us we mentally duck away! Maybe it isn't shyness so much as simply not realizing how very interesting new acquaintances can be.

Some people are shy about new foods too. One family we know has had pork and beans every Saturday night for ten years, and they see no reason for changing!

How much more interesting life—and dinner!—would be for that family with a new kind of meat, a vegetable prepared some other way, a new style in dessert. New foods—new faces—brighten our days and help make living an exciting game.

Look through the advertisements in this newspaper today for new IDEAS IN FOODS. They're here, in abundance . . . recipes, tried and tested . . . favorite platters of favorite people . . . exotic dishes from exotic lands.

The advertisements bring you up-to-the-minute news of many things. Read them regularly. Form the habit of getting the most out of life—and the most for your money.

THE WORLD SOUGHT HER SECRET! Would she choose the man she loved against the world?

TODAY and TOMORROW
—By WALTER LIPPMANN—
What Can Congress Do To Reduce The Chances of War?

The underlying question presented by the agitation about war profits is whether the United States should now pass laws that at the declaration of war there shall be an automatic conscription of persons and property and a complete military dictatorship. The traditional American policy has been to have the Congress which declares the war and the succeeding Congress which continues it decide what drafts on the life and property of the nation are required and are justified. It has been assumed that while the powers of the President were very great, they should remain subject to the control of Congress. That control consisted in the power of Congress to grant or to refuse man power and funds.

This democratic control of the conduct of war would be swept away under the program which Senator Nye and Representative McSwain are sponsoring. Both bills provide that once war is declared the President can commandeer at the price he fixes the total resources of the American people and both imply, though they do not appear specifically to say so, that he may conscript an unlimited army. They also, though they do not specifically say so, vest him with powers over all business which could, in any practical difficulty whatever, be used to establish complete control of the printing press, the radio and other means of discussion.

Maybe that is the kind of war machine we ought to have. But we should not set it up unintentionally, as an accidental consequence of a desire to deal with profiteers, or under the delusion that it is anything but what it is: a proposal to create an omnipotent war machine. My own view is that once the people take a good look at this thing they will recoil from it—as the House already has from conscription—saying that they are not going to suspend representative government and have a war dictatorship all signed, sealed and ready for instant delivery in order to have the satisfaction of feeling that at some date in the unknown character, certain men will not make excessive profits.

This legislation ought to be rejected because it destroys representative government once war is declared. The American national defense, owing to our fortunate geographical position, is based on the theory that the two oceans, an adequate navy and a small professional army, are sufficient protection as a first line of defense, and that behind that shield the nation can take the time to organize as big an army as Congress and the President think necessary in the circumstances of a particular war. The Britons, who are far closer to any potential aggressor than we are, have not thought it necessary to set up in advance a complete militarism. Were our position like that of France or Germany, we too should probably have to prepare for total and absolute mobilization at the moment war breaks out. But why should we, in our much safer position, suddenly and thoughtlessly and irresponsibly now put laws on the statute books which mean that the moment Congress declares war, Congress dies and can revive only by consent of the President or by mustering two-thirds of both houses to override him? Does Congress really wish to abdicate in advance? Does it really wish to sign away now its control over life and property? Does it really wish to say that the representatives of the people during a war shall have no right to say how much of the life and property of the people is to be commandeered? If that is what Congress means, it should pass these bills. If it does not mean that, it should stop, look and listen before it goes any further.

As nearly as I can make out what happened was that the authors of these bills became so blind-

Two Wells In Howard Co. Completed

Two oil wells in Howard county were completed last week as five others continued testing.

The larger of the completed producers, Sinclair-Prairie No. 13 Dodge, pumped 150 barrels daily at 2,806 feet. It topped pay at 2,576 feet and was shot with 300 quarts from 2,578 to 2,785 feet. Location is 2,310 feet from the north line and 330 feet from the east line of section 11, block 30, township 1 south, T. & P. Ry. Co. survey.

Sinclair-Prairie No. 15 Dodge, in the northwest quarter of section 11, block 30, bottomed at 2,846 feet, continued cleaning out following a 300-quart shot from 2,628 to 2,833 feet. Sinclair-Prairie No. 1-B Denman, in section 10, block 30 bottomed at 3,845 feet, swabbing 100 to 130 barrels daily as it continued cleaning out, following a shot. No. 2-B Denman was rigging up a machine.

Six-Year-Old Well Completed
General-Old Oil company No. 2 T-P Land Trust, approximately 600 feet from the north line and 245 feet from the west line of section 2, block 32, township 2 south, T. & P. Ry. Co. survey, swabbed 30 barrels of oil daily upon completion at 2,440 feet. It topped pay at 2,364 feet and acidized twice, the first time at 2,433 feet, the second time at 2,440. Cranfill & Reynolds drilled the test in 1925 to 1,438 feet, where it had remained shut down until a few weeks ago when General-Crud began deepening.

Hersbach Petroleum company No. 3-B Davis, in section 2, block 30, township 1 south, T. & P. Ry. Co. survey, swabbed 100 barrels of oil daily in cleaning out to within 12 feet of the bottom, which is 2,792 feet. It has been shot twice. Herschbach No. 2-A Davis, 2,310 feet from the north line and 1,650 feet from the east line of section 2, block 30, was underreaming 8 1/4-inch casing, bottomed at 1,510 feet in redrock.

Shasta Oil company No. 1 Dodge, in section 2, block 30, drilled to 2,505 feet in lime, and cemented 6 5/8-inch casing at 2,300 feet. The California company No. 3 Dodge, in the southwest quarter of section 1, block 30, had drilled to 1,655 feet in lime. Bond No. 2 Rhoan, in the southwest quarter of section 4, block 30, had reached 2,460 feet in lime.

Dorn-Hall Swedging
Stacy B. Dorn and Dr. G. T. Hall's No. 1 Read, one mile northwest extension of the Dodge-Denman pool, continued swedging 6 5/8-inch casing damaged by a shot the week before. It swabbed and flowed 185 barrels of oil in five hours on April 7, 230 barrels in 12 hours on April 9. The well is bottomed at 2,799 feet. It is 330 feet out of the southeast corner of section 45, block 30, township 1 south, T. & P. Ry. Co. survey. Iron Mountain No. 5 Read (formerly reported No. 6 Read), east offset to the Dorn-Hall well and 330 feet out of the southwest corner of section 46, block 30, had drilled to 576 feet.

Unique reveals who is running it and shows who is paying for it. The only kind of propaganda which is really objectionable to American freedom of speech is masked propaganda from concealed sources and by devious methods. Suppression is impracticable and undesirable, but exposure to the light of day is very important when the war fever is raging and nations, desiring to subvert our neutrality, will stop at nothing to gain their ends if they think they can get away with it.

No one must suppose that any of these measures provides more than a small additional protection against the danger of war. The real protection is to be found only in a foreign policy that deals with the real issues of war and peace and is strong enough to prevail.

in redbeds. It spudded April 8. W. E. Production company No. 1 Read, in section 46, block 30, had reached 2,275 feet in lime. H. P. Blagel, trustee, No. 1 Foster, in section 45, block 29, township 1 north, T. & P. Ry. Co. survey, was running 6 5/8-inch casing at 2,240 feet in lime. Clay Bros. and Hugh White No. 1 Read, in section 41, block 30, township 1 North, T. & P. Ry. Co. survey, had drilled to 1,325 feet in redrock. The California company No. 21 Foster, in the southwest quarter of section 4, block 29, township 1 south, T. & P. Ry. Co. survey, was fishing for a bailer at 794 feet in redrock. Continental No. 12-A Settles, in the northwest quarter of section 124 block 29, W. & N. W. Ry. Co. survey recovered tools and resumed cleaning out and swabbing. It was shot March 13 with 600 quarts from 2,250 to 2,335 feet, the total depth.

West Texas Drugmen To Meet Aug. 21-22

SAN ANGELO—Members of the board of directors of the West Texas Pharmaceutical association selected Aug. 21 and 22 as the dates for the annual fall meeting of the unit. The session will be held here and officers will be chosen at that time.

Dates were set at a luncheon meeting of the directors held in the Hotel Cactus Sunday noon. Frank Myers, president of Abilene, presided. Esker E. Smith, San Angelo, is secretary of the association. Directors attending the meeting included Myers, Smith, C. A. Fitch, Abilene; Joe Brown, Sweetwater; W. J. Bryant, Lamesa, and H. L. Phillips, Rotan.

3 Important Completions Abilene Area

Several Wildcat Tests In Jones County Also Attract Oil Men

ABILENE—Three important completions in the Abilene area the latter part of the week held top interest here among operators, as the several wildcats in Jones county continued drilling without reaching pay.

The Condor Petroleum company No. 4 Henry Saylor, a 630 foot east offset to the No. 2 Saylor, about eight miles north of Abilene, tapped the top of the Cook pay Friday and 125 feet of oil filled in the sixth inch casing. The test is the eighth well in the immediate vicinity to find commercial production in the Cook sand. Six inch pipe will be set and cemented at the top of the pay before the well will be opened. Location is 660 feet from the north line, and 1,595 feet from the west line of section 3, block 20, T. & P. railway survey, Jones county.

In Western Shackelford county the Reliance Oil and Royalty corporation and Jones & Stamey No. 3 G. R. Davis, about 15 miles west of Albany, had drilled through 15 feet of Bluff Creek pay sand after topping it at 1,598 feet, and filled up 800 feet of oil in the hole. Operators were still drilling into the sand, as the slight gas pressure rose. It is estimated to be as good as the No. 2 Davis, a southeast offset, which was completed for 130 barrels, and farther indicated the presence of another smaller Bluff Creek pool. Location is 230 feet from the north and west lines of the north 40 acres of the east 160 acres of section 4, T. & N. O. survey.

The south offset to the No. 2 Davis, the Marlang and Callahan No. 1 Davis in the northwest corner of the west 40 acres of the 160 acre block in the same section, has spudded in, but engine trouble halted the test at 70 feet.

Directly south of these two, the Lichter and Jones & Stamey No. 1 Davis, located near the center of the north line of the northwest quarter of section 5, block 13, T. & P. railway survey, is on a fishing job at a depth of 1,410 feet.

East of Lueders in the Bluff Creek pool area, the Hoffman-Page company No. 2-A Buie-Morris, on the J. P. Morris ranch in section 200, block 1, E. T. railway survey, has been completed as a good producer from the Bluff Creek pay at a total depth of 1,901 feet, having penetrated eight feet of the sand.

In the Albany townsite area west of Albany, Weona Oil company, operated by P. S. Kendrick of Abilene, has shot the No. 4 McCasland with nitroglycerin in sand from 741 to 750 feet in an effort to increase production more than the initial of four barrels. The test is an offset to the Texas central No. 1 Anna Echeart which obtains production

Capitan Finishes Glasscock Well

Capitan Oil Co's No. 1 Gillen in Glasscock county southwest of the Coffee producing area, has been completed at 2,291 feet, pumping 27 barrels of oil the second hour, including 11 per cent basic sediment and water. This gave the well a "daily" potential of 577 barrels. Pay was topped at 2,283 feet.

Location is 2,310 feet from the south line and .990 feet from the east line of section 21, block 33, township 2 south, T. & P. Ry. Co. survey. Capitan dug cellar for No. 2 Gillen, 2,310 feet from the south line and 1,650 feet from the east line of section 21.

Luce & Pickens No. 2 Sam Turner, 1,650 feet from the north line and 2,310 feet from the east line of section 18, block 33, township 2 south, T. & P. Ry. Co. survey, had drilled last mid-week to 1,470 feet in anhydrite.

Shell Petroleum Corp. No. 3 Coffee pumped 27 barrels of oil hourly containing 19 per cent basic sediment and water, and continued test at 2,153 feet. It is 1,335 feet from the south line and 2,310 feet from the east line of section 15, block 33, township 2 south, T. & P. Ry. Co. survey.

from the Tannehill. The No. 1 and the No. 2 Echeart, which produces from the Bluff Creek at 817 feet, are pumping an average of 48 barrels per day.

The Shappell Oil company No. 1 E. A. Stephenson, being drilled by Andy Urban of Abilene, ran six-inch pipe to a depth of 2,000 feet to test a show of oil from the lower Tannehill earlier in the week, but failed to obtain production. It was drilling at 2,150 feet, having missed the Cook entirely this week-end. Location is two miles southwest of Hedges, in section 7, block 16, T. & P. railway survey, Jones county.

The Fondren Production company No. 1 Sam R. Cox Jr., northeast of Abilene about 12 miles, was drilling at 2,280 feet after running six-inch casing. Location is in section 74, block 14, T. & P. railway survey.

In Callahan county eight miles north of Baird, the Drew Beams and Humble Oil & Refining company No. 1 J. J. Dyer, erroneously termed an Ordovician test, drilled past the King pay horizon this week without obtaining production, and is at a depth of 1,240 feet. It may be drilled no deeper. Location is in section 22, E. T. railway survey.

Location has been made for a new test in Stonewall county north of the Fisher county producing area, for the Barnsall Oil company No. 1 Mrs. Sam C. Young, 330 feet from the northeast corner of section 26, Austin-Williams survey.

Reports are that Barnsall made this location from seismicographic tests done on the block of 5,000 acres about a year ago. Others interested in the test and having acreage around it are the Mid-Kansas Petroleum company, the Simms Oil company, Cranfill-Reynolds, the Shell company, and the Humble Oil & Refining company.

The test will probably be drilled to the 3,000 foot horizon from which the northeastern Fisher county field is producing.

DOG BURIED LIVES

QUANAH (UP)—Dog buried for five hours in a gravel pit here is still alive when two men finally dug him out.

He had been buried under six feet of gravel.

Mrs. Jack E. Trainer is visiting friends and relatives at 204 West Fifth street. Mrs. Trainer has just returned from a visit with her sister in New York City. She plans to leave in a few days via American Airlines to join her husband in San Francisco, California, and will be accompanied by her brother-in-law.

Mr. and Mrs. Fred Trainer and children of Baton Rouge, Louisiana, visited with Mrs. Rena Trainer and family. Mr. and Mrs. Trainer left Sunday for Douglas, Arizona, to visit with Mrs. Trainer's sister. They plan to pass through here again in the near future.

RUPTURE
SHIELD EXPERT HERE
H. M. SHEVNER, widely known expert of Chicago, will personally be at the Settles Hotel, Big Spring, Texas, Tuesday & Wednesday only, April 16 & 17, from 9 a. m. to 5 p. m.

Mr. Shevner says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but increase the circulation, strengthens the weakened parts thereby closes the opening in ten days on the average case, regard less of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medicinal treatments. Mr. Shevner will be glad to demonstrate without charge or fit if desired.

Add: 6538 N. TALMAN AVE., Chicago.

For 15 years assistant to F. S. Seeley, famous rupture expert of Chicago.—adv.

WEDNESDAY MORNING SPECIAL
9 a. m. to 12 noon Only

50 ONLY

Easter Dresses & Suits

Net Suits and Dresses—Eyelet Suits—Silk Suits—Silk Linen Suits—Navy Sheer Suits

Regularly \$12.95 and \$14.95

Save from \$3 to \$5 on your Easter suit or dress! Special for three hours only. Charming new styles of delightful fabrics. All the authentic pastel shades and beautiful patterns. Each of the 50 were carefully selected for their charm, beauty and value from our regular stock! Hurry down early!
