

Moore... ABOUT Eastland By VIRGIL E. MOORE

"Thank you Lord for bringing us through this game in victory"

Speaking was one of Eastland's men of tomorrow following the Eastland-Dublin game Friday night. The scene was the Maverick dressing room following the Mav's amazing 6-0 upset of the District 7-A champions.

The dressing room was full of smiles, tears and questions, but all ceased when the boy climbed on a bench nearby and expressed his thanks to his Maker.

"... And I hope that Dublin will beat Albany," the youth continued.

It was something to behold. Something that we believe any critic of high school football should behold. For there were some boys who learned something Friday night. The prayer revealed their thoughts more than any other single thing. Not a single boy was willing to take credit for the win—the team did it.

Their feeling was expressed again by Charles Cook, who with his family is moving away from Eastland in the near future, when he said, "Thanks gang, for the fine going away present."

Their dismal 8-2 season record was forgotten, and well it should be, after the win over over-confident Dublin. And the cry went up—"Just wait 'til next year."

Today's Birthdays: George Harris, and Robert Lawson.

S-Sgt. Grady Hoyle is giving out some free advice these days. Monday morning the red-headed recruiting sergeant went out to his car to warm it up and failed to open the garage doors. He began to feel groggy a little later and started for the door. He just had opened the door when he passed out.

His advice: Those things they tell you about carbon monoxide gas is true. It really does get to you in a hurry.

You know, we have been doing a little thinking. If Dallas and Fort Worth really want to solve that airport fuss they have going, we have a suggestion.

Eastland has a fine location for a "greater Dallas-Fort Worth airport." Now before you leave us, let us try to get across our point. It is common knowledge that it takes you longer to get to Carter Field from Dallas or Fort Worth by car than it does to get to the field from New York by jet plane. Now we would solve all that. They could locate the field here and then pick the passengers up by helicopter.

Now you might argue that they could do the same thing at Carter Field. But remember, there's just too much fussing at that little old landing field to fool with it. And besides that, they haven't got Old Rip there. We would suggest that they move the horned head out to the field and allow the plane passengers an opportunity to see him.

There is one slight danger involved. If the airport was located here, without doubt, both Dallas and Fort Worth would be trying to move their city limits out to take it in before long.

Well, it's just a suggestion!

We missed out on this, but from what we have heard about it, it was better than the real thing.

"We're talking about the performance the wives of the Quarterback Minstrel performers gave at the "Success Party" following the final performance. The wives were forced to play the parts that their husbands had in the show!"

We made a little blunder in our deer story the other day. We said the season ended Dec. 31. Now, in most parts of Texas it does, but not in Eastland County. Here the season lasts just 15 days, ending Nov. 30 at sundown.

Here's a tip for those over-60 (miles, not age) drivers. That radar unit the highway patrol has is not on a regular patrol car. Just a plain, little old unmarked auto that they sit beside the highway. Now up a little farther there is a highway patrol car, however.

Just thought we would let you know.

See you Thursday.

Rotarians Told America Must Not Lose Japan

"If we lose Japan we are lost in the Orient," John Perryman, a member of the Navy Air Advisory Commission and head of Lone Star Gas Company's Abilene sales and promotion department, told Eastland Rotarians Monday at their regular weekly luncheon meeting held at the Connelley Hotel Roof Garden.

"We have to keep Japan's seaports and airfields off the door to the Far East is closed, the Navy veteran of World War II and the Korean conflict told the group.

Perryman, who has just returned from a Washington meeting of the Navy Air Advisory Commission, termed the decision to fight in Korea a face-saving act. "Had we not gone into Korea we would have seen the downfall of the United Nations," he asserted. "Had we backed out of Korea we would have lost all possibilities of defending China."

What is Communism?
Answering his own question, "What is communism?" Perryman said, "I don't know what it is, but I despise it. It changes as the wind changes. You can get any kind of promise out of a communist."

But he admitted, while denying he was a pessimist, that the Reds are gaining strength. Since World War II, he said, Russia has taken over 600 million people, and 15 individual nations.

And he blamed part of this on Americans. He said, "The Yankee dollar and Yankee mouth is the most treacherous thing we have displayed overseas. In almost every country I've visited, the people feel a little belligerent against we Americans."

The Lone Star official said he had helped the Reds by not understanding the people of the Far East and by giving off an air of superiority.

"I think they (Russia) are growing much too rapidly," he said, "They have stepped in where we have failed."

In conclusion the speaker told Rotarians that Americans must "... rededicate ourselves to our country and our God."

Perryman was introduced by Hubert Westfall, program chairman.

Electricity Studied By Olden Ag Class

OLDEN (TNS) — There's a lot more to agriculture than just planting and harvesting. And a group of Olden boys are finding it out in their new Vocational agriculture class here.

Recently electricity — which now plays a big part on almost every farm — has been the chief study of the group. Gilbert Copeland, the new ag instructor, with the assistance of Don Hart, Texas Electric agriculture representative, has been teaching the group how to make electricity "work for you." Safety is stressed along with proper methods.

Copeland has two full classes of boys taking the course this year and has a brand new vocational agriculture building to work in.

From all indications, the course has been fully accepted at the Olden school.

Eastlanders Get Christmas Seals Monday

Eastlanders received their Christmas seals from the Texas Tuberculosis Association in Monday's mail. And in Austin, Mrs. Frances Rains mused, "There is a proud ghost standing beside me," as the letters were delivered to Texans across the state.

Mrs. Rains is the Christmas Seal Sale director. She placed in the mails over 100,000 envelopes carrying the 1954 seals to Texas homes.

She referred to the ghost of Einar Holboell, Danish post office worker who originated the penny Christmas Seal in 1904 to build a hospital for children ill of tuberculosis.

"I know just how Holboell felt when he had his great idea," Mrs. Rains said. "He saw those piles of holiday greetings and gifts pouring in and out of the post office and he wished that each one could mean just one penny toward saving the life of a child doomed by tuberculosis."

Einar Holboell saw his wish come true. This year's double Christmas Seal pictures gay, healthy children. ... a tribute to the Danish post clerk on the fiftieth anniversary of his great gift to mankind.

"For 50 years those little Seals have waged their fight against TB," Mrs. Rains said, "and every year they win new ground." She watched the mail truck pull away. "One year," she said firmly, "we will see Christmas come to all our children without the blight" (Continued On Page Two)

Rev. Oglesby urged all Eastlanders to attend the traditional services. He said members of all churches are expected to attend.

The service will begin with the hymn, "Come Ye Thankful People, Come." Scripture reading by J. C. Carothers will follow and then A. J. Blevins Jr. will lead prayer.

Special music will be offered by the Music Club and then an offer-

Eastland Deer Hunters Report Successful Hunts

Deer hunters in the Eastland area have been doing okay for themselves so far, a spot check revealed Tuesday.

At least nine deer have been killed, and many more hunters have probably got their bucks that have not yet been added to the tally sheet.

Probably the most successful hunter in Eastland today is Charles Freyschlag Jr. Freyschlag bagged two bucks the first day to end his hunting season in a hurry.

Others who have reported kills include Richard and Leon Bourland, Elbert Richardson, Ray Hatten, Pete Tindell, S. S. Faircloth and Bill Kendrick.

Richardson's 10 pointer, which weighed 112 pounds, was the best individual kill reported.

CHAMPION MUDSLOGGER—Not even a sea of mud stops the Army's light tank, the Walker Bulldog. Here the 26-ton warhorse churns its way through one of the many obstacles on a test course at Cleveland, Ohio. On dry land, this powerful combat vehicle has a speed in excess of 40 miles per hour. It is manned by a crew of four and packs its Sunday punch in a 76-millimeter cannon.

GRIP ON TRADITION—Showing that he's got the stuff to carry on a tradition as a sixth-generation circus performer is 11-month-old Rickie Atterbury, perhaps the world's youngest juggler and wire performer. Bob Atterbury keeps a watchful eye on his smiling son, who seems quite at home on the tightrope of the Grand Pier in Atlantic City, N. J.

MAVERICKS**

Friday night completed our football season. The B team completed their season with a moral victory even though they lost the game. Abilene beat us 32-13. The game was played there. Big David Willoughby starred with his drives through

that line like a bulldozer. He tackled like a maniac and played like his life depended on it. Donald Lee and all the rest of the B. teamers played one of their best games of the year.

The A team also played the best game of their careers. Benny Cates made the touchdown from the two yard line. Harvey Lewis did some mighty smart thinking in those last 30 seconds of play. The all school party comes off tonight. The Seniors are going to play host and give a big party for the entire school tonight. We want everybody there.

The Co-Eds are giving a big Thanksgiving dance Friday night. This is one of the big events of the year. Everyone always looks forward to this time of the year. For some reason, everyone is in good spirits during this period. We all love this time of the year. There is only one group at school who are not in good spirits. The Seniors look awful down in the dumps. Could it be that they are covering MacBeth. Maybe they are being overworked.

Not normally considered a noisy bird, the ostrich, on occasion, can emit an ear-aching roar. At a distance it is said to sound much like a lion's roar.

There is no Such Thing—

... as a "bargain" in insurance. Along with every other commodity you get what you pay for and no more. John Ruskin once said "there is hardly anything in the world that some man cannot make a little worse and sell a little cheaper and the people who consider price only are this man's lawful prey." Ruskin was right. Whatever you buy, buy the best. If it's insurance you can't go wrong by buying from a local agent who is as near to you as your telephone when you need him.

Thanksgiving Day Services Set By Christian Science

Christian Scientists, not only in the United States but in many parts of the world, hold special church services on Thanksgiving Day each year. The service is devoted entirely to the theme of gratitude and thanksgiving to God. The specially prepared Lesson-Sermon is entitled "Thanksgiving," and is made up of selected passages from the Bible and from "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

The Golden Text of the Lesson to be read this Thanksgiving is from Psalms (50:14): "Offer unto God thanksgiving; and pay thy vows unto the most High."

The following will be included among the passages to be read from the Christian Science textbook: "Are we really grateful for the good already received? Then we shall avail ourselves of the blessings we have, and thus be fitted to receive more" (page 3).

A portion of the service is set aside for audible expressions from the congregation of gratitude, including testimonies of healing, guidance and protection through prayer.
