MOORE about... EASTLAND

by Virgil E. Moore

Jimmy Horn, four-year-old son of Mr. and Mrs. James Horn, came up with a new saying the other day that will probably catch on. Jimmy was driving back from Abilene with his parents and wasn't getting to do much talking. Mrs. Horn was busy reading jokes to her husband out of a new joke book he had just purchased.

Finally Jimmy looked up at his mother and said, "Mother, lock your mouth so I can talk to my Daddy!"

Miss Marjorie Van Hoose, Texas Electric clerk, has a camellia plant which you will want to see. We counted 11 blooms on the plant, and Miss Van Hoose tells us one beautiful bloom just dropped off this week. The plant itself is something to see, and we are looking forward to seeing it in full bloom. It's in the TESCO lobby.

Mrs. John L. Sims has, or we should say had, the champion egg layer of all time. One of Mrs. Sims' hens laid an egg which measured eight inches long. The hen also laid another egg which was just a bit smaller. Burial services were held for the hen shortly after the second egg was laid.

Jeanie Pittman, daughter of Mr. and Mrs. J. D. Pittman of Eastland, was honored as "Miss Jaycee of the Month" in Atlanta, Ga. in March. Miss Pittman's picture ran in the "Spirit," Atlanta Jaycee prize-winning publication. The picture covered a full page. Jeanie is employed in Atlanta by an attorney.

Clyde Young Jr., son of Mr. and Mrs. Clyde Young Sr. of Eastland, had a great year at Tarleton State College in track. Young won just about every event in the book and represented the college in the national junior college meet in Kansas.

The loss of Jon Tate to Clyde comes as no surprise to us. We have wondered each year if Eastland would be able to keep Jon another year. He has done an excellent job for Eastland, both in the classroom and as head basketball coach and assistant football coach. His friends here number in the hundreds and we are going to miss the Tate.

We didn't think we would live to hear "My Country 'Tis of Thee" sung so well by members of the Eastland Lions and Rotary clubs as it was Monday. Hearing a Russian visitor promised to make us all real-ly much we really do love my country.

As you tell your friends—Eastland is a smart Russian. We got up to ask one question and would have asked more if we hadn't been sat down so hard by his reply. With him with a mike and us without a typewriter handy it just wasn't fair competition.

Three Lone Star Gas employees, Jack Mace, Bill Hatten and Jimmy Horn, got called on for some of that action beyond the call of duty Tuesday.

Mrs. Vadire Phelps, who lives just back of the post office near the Lone Star office, came running over there and asked if they would mind "killing a little snake" for her.

The three volunteered. It turned out the snake was in Mrs. Phelps' sewing machine. The three lifted up the machine and carried it out in the yard. Opening the machine drawer, one of the volunteers reached in to pull out the "little snake." By the time he got through pulling he had himself a chicken snake which measured more than five feet long.

Prisoner Seeks Freedom After 29 Years In Pen

By VIRGIL E. MOORE

For the past 29 years Raymond Mathers has been known simply as Number 67138.

That's Mathers' number at Huntsville State Prison, where he has been an inmate since March 4, 1930. Mathers drew a 99 year sentence in 88th District Court in Eastland for "attempted rape."

Since that time he has worked night and day for just one thing—his freedom.

Mathers' case is a strange one. Court records show that he was tried before Judge Elzo Bean in the old 88th District Court, which has now been abolished. County attorney was Joe Jones and the appointed defense lawyers were T. J. Cunningham and M. McCullough Sr.

When given the 99 year sentence the then young man became a problem prisoner at Eastland County Jail, records reveal. His conviction was never appealed by his attorneys, however.

Strangest thing of all, perhaps, is the fact that when State agents came to Eastland to pick up prisoners they refused to take Mathers back with them. Not just once, but several times the agents took all other convicted prisoners, but would not take Mathers. Judge Turner M. Collie of the 91st District Court, says he can't recall for sure why the agents wouldn't take Mathers, but he believes it may have been that the agents thought Mathers was not of sound mind.

At any rate Mathers stayed in the County Jail for several weeks until finally, County Attorney Jones got a bench warrant ordering sheriff Virge Foster to take the prisoner to Huntsville.

Today Mathers has actually served 29 years in prison, and he has 49 years and nine months of time to his credit.

Apparently without a friend outside Huntsville, Mathers picked the district judge of Eastland County as the man to write to. Several years ago he began a series of exchanges with then 31st District Court Judge George L. Davenport.

At one time, after investigating the case, Judge Davenport recommended the prisoner's release. When Judge Davenport retired Judge Collie began receiving correspondences from the prisoner.

This week Judge Collie, County Attorney Earl Conner Jr. and Sheriff J. E. Williams received letters from the pardon board asking an opinion on a possible release for Mathers. Judge Collie already has returned his form and has recommended the prisoner's release.

Why? The Judge says he has seldom heard of any prisoner serving such a long sentence on a conviction of "not more than 99 years and not less than five." He also feels the fact that the case was never appealed should have something to do with it.

The Judge explained, however, that the pardon board would not release Mathers unless someone offered him a job. Judge Collie (Continued On Page Three)

VERY FOND OF CHICKEN—A love feast only, so far, is the attitude of "Bobo," the cat, for "Snowball." Bobo brought Snowball into the home of the Fred Tobias family, of Los Angeles, Calif., when she was an injured chick. One year of extraordinary friendship was unmarred up through the time this picture was taken.

1100 Tractor Fatalities Are Recorded In U. S.

COLLEGE STATION — Ignorance and carelessness in using farm machinery are sure ways to make the headlines. Records show that more than 1,100 fatalities in the United States each year are caused by tractor accidents. Extension Agricultural Engineer Willie L. Ulich offers suggestions for preventing such accidents.

A child's safety is a parent's responsibility, he says. Teach children the importance of safety and point out dangers involved in the use of machinery. Emphasize that operating a tractor is a job for a mature person.

Tractors are involved in 35 percent of all farm accidents making it the Number One farm killer. Forty percent of all tractor accidents are fatal to the operator.

Chances of an upset, points out the engineer, increase four times when speed is doubled. If possible, lock brake pedals together when driving on the open highway. Use brakes cautiously and keep them evenly adjusted.

Other safety suggestions by Ulich are: throttle down before making turns, do not carry extra riders on either the tractor or on trailed implements, and avoid climbing steep banks with the tractor since overturns are one of the chief causes of tractor accidents.

Be careful where you work. Often ditches, rocks and stumps are hidden by tall grass or brush and the tractor may overturn with little warning.

Texas Produces 17 Percent of Nation's Lambs

COLLEGE STATION — Texas is a prolific producer, but a poor consumer, of lamb and mutton. The 5.2 million sheep and lambs on Texas farms and ranches in January 1957 constituted 17 percent of the 31 million in the U. S. and were almost twice that of California, the next largest producer.

However, only about 1.6 percent of the U. S. consumption of lamb and mutton is consumed in Texas, which ranks thirty-second among the states in consumption per person. The average Texan consumes less than one-third as much lamb and mutton as the average consumer in the U. S. The consumption per person in Texas was 1.4 pounds compared with 4.5 pounds for the nation in 1954.

Many reasons for our lack of lamb and mutton consumption are given in a bulletin released by the Texas Agricultural Experiment Station entitled, "Consumer Attitudes and Handling Practices of Retailers for Lamb, Mutton and Goat". The bulletin was written by Randall Stelly, assistant professor in the Department of Agricultural Economics and Sociology, Texas A & M College.

Only 53 percent of the 116 fresh meat retailers interviewed in San Antonio had handled lamb, mutton or goat anytime during the 12 months previous to the date of the interview, said Stelly. Of the 966

San Antonio housewives interviewed, thirty-five percent reported using lamb an average of once every 12 days and 16 percent of the 1,721 Waco housewives interviewed used lamb an average of once every 24 days during the 12 months before the interview.

Now Is The Time To Cull Low Producing Cows

COLLEGE STATION — There is no time like the present for culling unprofitable dairy cows. The low-producing dairy cow is usually in better condition for sale than any other cow in the herd, says A. M. Meekma, extension dairy husbandman. This is because most of the feed she consumes goes to her back and not in the milk pail, and this type cow is bringing good prices on the market he adds.

This is the season of the year when milk production is highest,

says Meekma, and the cull cow is only a burden to the herd. The little milk she produces is always at a loss. If she is culled, the better cows can use the feed she formerly ate to increase their production, says the specialist.

High per-cow production is the key to success in the dairy business. This means more milk per acre, more milk per dollar invested, and more milk per man hour. Here's an example of what the specialist means — if the production goal for the year is 350,000 pounds of milk, it's better to produce it with 35 cows averaging 10,000 pounds of milk each than 80 cows producing 4,370 pounds, the average for all Texas dairy cows.

The goal of dairy farmers in Texas should be to raise the state

average to at least 8,000 pounds of milk per cow, says Meekma. To make a high per-cow production average, some system of record keeping is necessary. Texas dairymen, points out Meekma, have three such programs available to them through their county agents — DHIA, owner sampler and weigh a-day-a-month.

Good breeding, strict culling, and efficient management will help Texas dairymen reach the goal of 8,000 pounds of milk per cow per year, says Meekma.

Prisoner—

(Continued from Page One)

doesn't know if someone has or not.

How does Mathers feel about his years in prison? Reading through the thick file of letters in Judge Collie's office this reporter noted that he continually referred to the conviction as his "so-called case."

"At one point he described his sentence—he has spent far more than half his life behind bars—as "years of living in hell."

The pardon board, and the pardon board alone will decide the issue however. It's up to them to say if Prisoner No. 67138 will become Mr. Raymond Mathers again or not!

Wild Turkey Are Expected To Be Plentiful

AUSTIN — Wild turkey will be plentiful this year, according to E. A. Walker, director of wildlife.

Kaye Massey, Gwenda Raye Massey, Joe Russell, Eddie Don Sargent, Judith Downs, Daye Carol Sherman.

Betty Sheemaker, Shirley Jene Smith, Claudia Faye Stuard, George Tibbs, Margaret Iris Trout, Charlotte Elaine Waldrep, Carol Ann Walter, Sandra Jean Wheeler, Pat White, James Richard Whittington, Joe Wilson and Johnny Lee Yancey.

restoration, Texas Game and Fish Commission. "Last year was one of the most favorable years since the drought for increases in the wild turkey populations," said Walker, "and many young birds were raised and added to the bands now roaming the Texas brushlands."

Old roosts, which appeared abandoned and forgotten, are being reactivated. During past fall and winter, wild turkey have been observed roosting in a number of old roosts that had not been used before the drought.

Following the winter roosting in late February and March, wild turkeys go through what is known as a spring shuffle, according to Walker. The winter flocks break up and begin to disperse over wide areas in preparation for breeding and nesting. The usual procedure is for each old gobbler to collect a harem of females and move into nesting area. "This location frequently is as far as 12 to 20 miles from the wintering grounds," said the director.

During the shuffle, it is unusual for single hens to be lost for a period of time. "However," added Walker, "the calling of a gobbling of the wild gobbler which is always heard at this time of year, attracts the hens and they are usually successful in mating with a mature gobbler."

Choice of Flowers Among Ranger College Students
Not as much diversity in taste is found among Ranger College teachers and students in flower preferences as in book and television program preferences. The yard and cut flowers of Charles Bonney, Barbara Mauldin, "Jug" Reynolds, Jerry Bean, and Miss Waldine Kribbs. Wanda Payne, Barbara Rodgers, Patsy Jackson, Ann Mangum, Sherry Baker, Wilma Edwards, Bill Holladay, Charles Hutto and Mrs. Don Elliott prefer the rose as a yard flower but carnation as a house flower.

Travis Horn, Walton Fowler, Linda McPheeters, "Pudge" Richardson, Coach Puryear, Coach Slaughter, Marjorie Theberge, and Joyce Beal prefer roses as yard flowers; but Travis and Coach Puryear like mums for cut flowers, Linda, Walton, Mrs. Theberge, and "Pudge" like orchids. Coach Slaughter likes iris, a n d Joyce likes gardenias.
James McElroy, Dawell Criswell, Paula Angus, Mrs. Ashton, Mrs. Morris, and Mr. Lotspeich like the rose as a cut flower; but f o r yard flowers James likes gladioli, Dawell likes honeysuckle, Mr. Lotspeich prefers iris, Paula likes lilacs, Mrs. Ashton likes gardenias, and Mrs. Morris likes marigolds.
Mrs. Hamrick likes Japonica as yard flowers and gardenias as cut flowers. David Willingham likes petunias for both yard and cut flowers. Forrest Hall likes hibiscus for the yard and iris for cut flowers. Wayne Cromer and Ronnie McPherson like orchids as cut flowers, but in the yard Wayne likes tulips and Ronnie likes poppies. Both Freddie Tucker and Mr. Allsup like carnations as cut flowers. Mr. Allsup likes gardenias in the yard and Freddie Tucker likes morning glories.

Chevy pickup pulls through "bottomless" pastures to keep stock fed!

At the Hall Bros. Dairy Farm, Montgomery, Ala., they say this 4-wheel drive Chevy will go anywhere to keep stock fed—even through hub-deep muck that makes it a fight all the way. And yet after a full year of it—no mechanical trouble of any kind!

That Chevy pickup may not win any beauty awards (till it's cleaned up). But it's sure walking off with the top prize for dependability. And that's standard Chevrolet procedure. Put a Chevy truck to work and it keeps

on working until you say quit. Not before. We aren't claiming that every Chevrolet truck is turning out to be a miracle-worker and averaging 100,000 miles before a valve job. (Even though some are going 150,000!) You're sure to find, however, that you can't buy more truck dependability at any price. And that's borne out by the fact that more truck owners put their faith, and their payloads, in Chevrolets than in any other make. Take your load and schedule figures to your Chevrolet dealer. He'll specify the best way to handle both and save in the bargain.

No job's too tough for a Chevrolet truck!

Now's the time—see your local authorized Chevrolet dealer for a real truck buy!

TEXAS' LARGEST SELLING LOAF!

Mrs. Ninnie Baird, Bakery Founder To Celebrate 90th Birthday Saturday

On Saturday, May 23rd, in Fort Worth, a birthday is being celebrated — the 90th birthday of Mrs. Ninnie L. Baird, whose life proves once again that America rewards the old-fashioned virtues of courage, determination and devotion.

Not that this unassuming woman consider herself remarkable. She is much more likely to talk about her four sons and three daughters, her 23 grandchildren, 43 great grandchildren and two great-great-grandchildren than about the fact that the baking business she started in her home kitchen has grown to be the largest independently owned baking business in the nation.

Her neighbors had always praised the bread she baked. So in 1908 Mrs. Baird, using her own wood-burning range, started making bread to sell. Her children helped her, the two oldest boys delivering the still-warm loaves in baskets to their customers. More people wanted the loaf they were calling Mrs. Baird's Bread, so a large range was bought. Later a little bakery was built in the back yard of the Baird home, and a horse-drawn wagon was bought to make deliveries. As the sons grew to manhood it became obvious that the demand for the kind of bread Mrs. Baird baked called for volume baking facilities.

First one large bakery was built, then others, until today there are five great modern bakeries turning out Mrs. Baird's Bread and cakes in key Texas cities. Every step of their operations is personally supervised by Mrs. Baird's sons and their sons, all trained in Mrs. Baird's own tradition: To bake an even better loaf tomorrow than the one baked today.

As chairman of the board of Mrs. Baird's Bakeries, Mrs. Ninnie Baird still keeps a watchful eye on the product that has made her name a household word across the broad expanse of Texas. She will take time out today to receive a scroll signed by 1,500 admiring employees to mark her 90th birthday, while Texas and the nation applaud this woman who built her baking skill and her motherly determination into a great business enterprise.

Mrs. R. B. Draly has returned from visiting her son and daughter-in-law, Mr. and Mrs. Earl Draly in Austin.

Young Musicians Are Presented In Piano Recital

Mrs. A. F. Taylor presented Lela Lee, age eight and Marilyn Fagan, age seven, in a 30 minute program of piano solos and duets Sunday at 2:30 p.m. in the First Methodist Church in Eastland.

An audience of approximately 100 heard the girls play, from memory, both modern and classical music.

Mrs. Jack Lee and Mrs. Lewis Fagan, mothers of Lela and Marilyn, received guests.

The church was decorated with pink florist flowers and ferns.

Mrs. Taylor welcomed the guests and at the close introduced the parents of the musicians and thanked Lela and Marilyn for their program.

This is another place Plymouth proves its...

BIG DIFFERENCE

IN ECONOMY

Plymouth, traditional economy champ, again won its class in the Mobilgas Economy Run... won for the third straight year! In this recognized competitive test for economy, a Plymouth V-8 averaged 21.15 miles per gallon. Plymouth's proven high gas mileage, initial low purchase price, low maintenance cost and good resale value all add up to the Big Difference in economy!

PLYMOUTH DELIVERS BIG DIFFERENCE IN PERFORMANCE

But you don't have to sacrifice performance to enjoy Plymouth's top economy. The Fury V-800 engine that powered the Plymouth to its Mobilgas victory is the biggest standard V-8 in Plymouth's field. Its 230 horsepower packs plenty of power.

BIG DIFFERENCE IN QUALITY

We sincerely believe that the '59 Plymouth is the finest car Plymouth has ever built. Check every inch of this car. See the difference great engineering makes.

TAKE A "TWO-MILE TRY-OUT" NOW!

Get behind the wheel of a Plymouth and really feel Plymouth's Big Difference. Take your "Try-Out" soon.

To be fully appreciated, must be driven...

BIG DIFFERENCE IN RIDE

Plymouth's famous Torsion-Aire Ride is the most comfortable ride on the road. It acts as a built-in road-leveler—it virtually eliminates roll or sway on turns—front end dive on stops. And it's yours at no extra cost on Plymouth.

BUT YOU DON'T PAY FOR THE DIFFERENCE

The top-selling, low-price cars are all priced about the same but only PLYMOUTH gives you the Big Difference for your money.

TELEPHONE TALK

by W. H. McAnally, Manager

The last of this month the high schools and colleges will be graduating our citizens of tomorrow. We would like to extend our congratulations to those in this area.

To Mr. Wendell Siebert and his fine staff we would like to say "Thanks" for the wonderful job done in helping to prepare our young people to take their place in the world.

While we are extending congratulations, we don't want to overlook the parents. To them a special "Thanks" is in order.

All of us like to give a gift to the graduating boy or girl at this time. A telephone in his or her room is a gift that will be remembered. It gives them the feeling of being responsible. As to the cost, it is only a few pennies a day. If you would like to give a neighbor or relative a graduating gift, we can handle it on the basis of a one year gift.

Think it over—you can say "Thanks" to them by having an extension telephone installed in his or her room. Telephones now come in beautiful colors.

MAKE IT A "HOLIDAY" WEEKEND WITH A LONG DISTANCE CALL

Last year, many of us had a three-day weekend because Decoration Day fell on Friday, and it'll be the same way next year when it comes on Monday. But this year, the calendar threw us a little curve and Decoration Day lands on Saturday. This cuts out the chance of a three-day holiday, which means there's not enough time for an out-of-town trip to see friends or family.

Since a holiday is a family get-together day, several of my friends have told me they still plan to "get together" with a long distance call over the week-end.

"It's the next best thing to visiting in person," one fellow told me, "and we can make quite a few out-of-town calls for the cost of traveling over the weekend."

It makes sense to me, and I hope many of you will perk up your Decoration Day weekend here in Eastland with a long distance call to friends or family.

As you know, rates are lower after 6 P. M. weekdays and all day Sunday. And when you call, call station-to-station. That way, you'll be able to make three calls for about the price of two. That's a real saving!

Call by number. It's twice as fast.

Taylor Students Are Presented In Piano Recital

Student recital of Mrs. A. F. Taylor Piano Studio was complimented with a large audience Saturday evening in the First Methodist Church in Eastland with approximately 30 students playing numbers by Chopin, Mendelssohn, Greig, Davis, Williams, Durand, MacDowell, Mozart and Bach. Duets, duos and quartettes, some on two pianos, were played as well as solos.

Several musicians and other friends attending the program praised the students for their outstanding technique and musical and said that it was the most finished recital Mrs. Taylor had ever presented.

Mrs. Taylor wore an orchid corsage given to her by Miss Sharon McElreath. She presented certificates of perfect attendance to pupils Linda Huckabay, Susan Johnston, Suzanne Butler, Terry Treadwell, Jan Taylor, Jody Cooper, Marsha Treadwell, Lela Lee, Jennie Wright, Marilyn Huckabay, Sherry Jo Butler, Lyette Dorsey, Sharon McElreath, Linda Ann Perry, Karen Green, Sue Underwood, Jan Jolly and Marilyn Fagan.

Susan Johnston and Suzanne Butler were ushers. Linda Huckabay and Phyllis Phillips lighted the white tapers on either side of the altar.

The church was decorated with white tapers in tall candelabra placed on either side of the altar and accented by ferns and floor baskets of pink gladioli in the center of the arrangement. Pink Hydrangea and a pyramid of pink roses in brass container, a gift from the pupils to Mrs. Taylor complimented the arrangement. To complete the arrangement a bouquet of carnations were placed in the vestibule, a gift from Mrs. Harold Durham.

Miss Ellajoy Walker, bride-elect of Bill Holladay, wishes to extend her sincere thanks to the ones who made the bridal shower, May 14, in the home of Mr. and Mrs. D. L. Kinnaird possible.

Thanks go to the hostesses; Mmes. J. L. Owen, Frank Sayre, Louis Corbell, Varge Daniel, W. E. Hallenbeck and Frank Lovett.

A sincere thanks to Miss Patricia Ann Liles who played soft organ music throughout the evening.

A very special thanks to the Donald Kinnairds.
