paintings:

VISITS DALLAS SOCIAL Mrs. I. E. Talley, Jr. and dau-

ghter, Louan, of Tulsa, Okla. left Tuesday to visit in Dallas after visiting with her husand's father, Irvin Talley and Mrs. Talley in CALENDAR Olden

nation of just what is in the proposed ice Company franchise which is now before the City Commission for approval. The complete franchise is printed in adjoining columns of the paper, but in simple language it means only one thing: THE CITY GRANTS ITS CONSENT TO THE USE OF ITS STREETS AND ALLEYS BY THE COMPANY FOR THE PURPOSE OF CONSTRUCTING, MAINTAINING AND OPERATING ITS LINES.

All the rest of the franchise contains RESTRICTIONS on the Company. These restrictions are:

- 1. Lines must be built so they won't interfere with traffic.
- 2. The Company's property and operations are subject to regulation by the City.
- 3. The Company is held responsible for any act of neglect.
- 4. The Company must pay the City for the use of its streets and alleys.
- 5. Any other Company may be granted the same rights and privileges.

This is it in a nutshell. It is simple, fair and reasonable. We sincerely regret the attempts that are being made to make it appear otherwise.

Why is the Company asking the consent of the City of Eastland to stay here for 50 years?

Well, frankly we like it here. Our employees like Eastland, and many of them have lived here a long time. But there are also sound business reasons why we need the consent of the City to stay here for a long period of time.

If you were going to build a house on land you did not own, how long a lease would you want on the land? As long as possible, of course. A 99 year lease is not uncommon for such purposes. The Company is in much the same position. In order to serve all of the people throughout the City, the Company must build many of its lines and facilities on land that it does not own—the streets and alleys of the City of Eastland. Fifty years is therefore a fair and reasonable length of time considering the large investment the Company has in its poles and lines located in City streets. In addition it has a large investment in power plant and other facilities dedicated to serve the people of Eastland. Most other Cities and towns served by the Company have also considered this a fair and reasonable length of time and have granted the Company 50 year franchises. There are a few cases where shorter term franchises have been granted because of limitations in the charters of some towns.

TEXAS ELECTRIC SERVICE COMPANY F. N. SAYRE, District Manager

Section 2. Poles or towers shall be so erected unreasonably interfere with traffic over street

Section 3. Company's property and openation City shall be subject to such regulation by the City reasonably necessary for the protection of the gen

Section 4. Company shall hold the City has all expense or liability for any act or neglect of pany hereunder.

Section 5. In consideration of the grant of an and franchise by the City and as full payment for lege of using and occupying the streets, alleys, him ments, parks and other public places within the lieu of any and all occupation taxes, easem franchise t a x e s (whether levied as an s special or other character of tax), and in lieu of s inspection fees or charges, street taxes, street or a and of all other taxes, charges, levies, fees and whatsoever kind and character which the City or hereafter be authorized or empowered by as a collect, excepting only the usual general or speals taxes which the City is authorized to levy and imreal and personal property, the Company (Ten Service Company and its assigns) shall pay to be Eastland, Texas, annually and on or before Marel year during the term hereof, beginning March 14 amount equivalent to two (2) per cent of the grou received by the Company, its successors and assigns preceding year from sales of electricity within the limits of said City, exclusive of sales to federal, municipal customers and exclusive of sales to all customers. customers. On or before the 15th day of March d a report shall be filed with the City by the Compan-its gross revenues as aforesaid for the preceding year, and the payment made hereunder shall be b said report.

Section 6. Nothing herein contained shall ever construed to confer upon the Company exclusive privileges of any nature whatsoever.

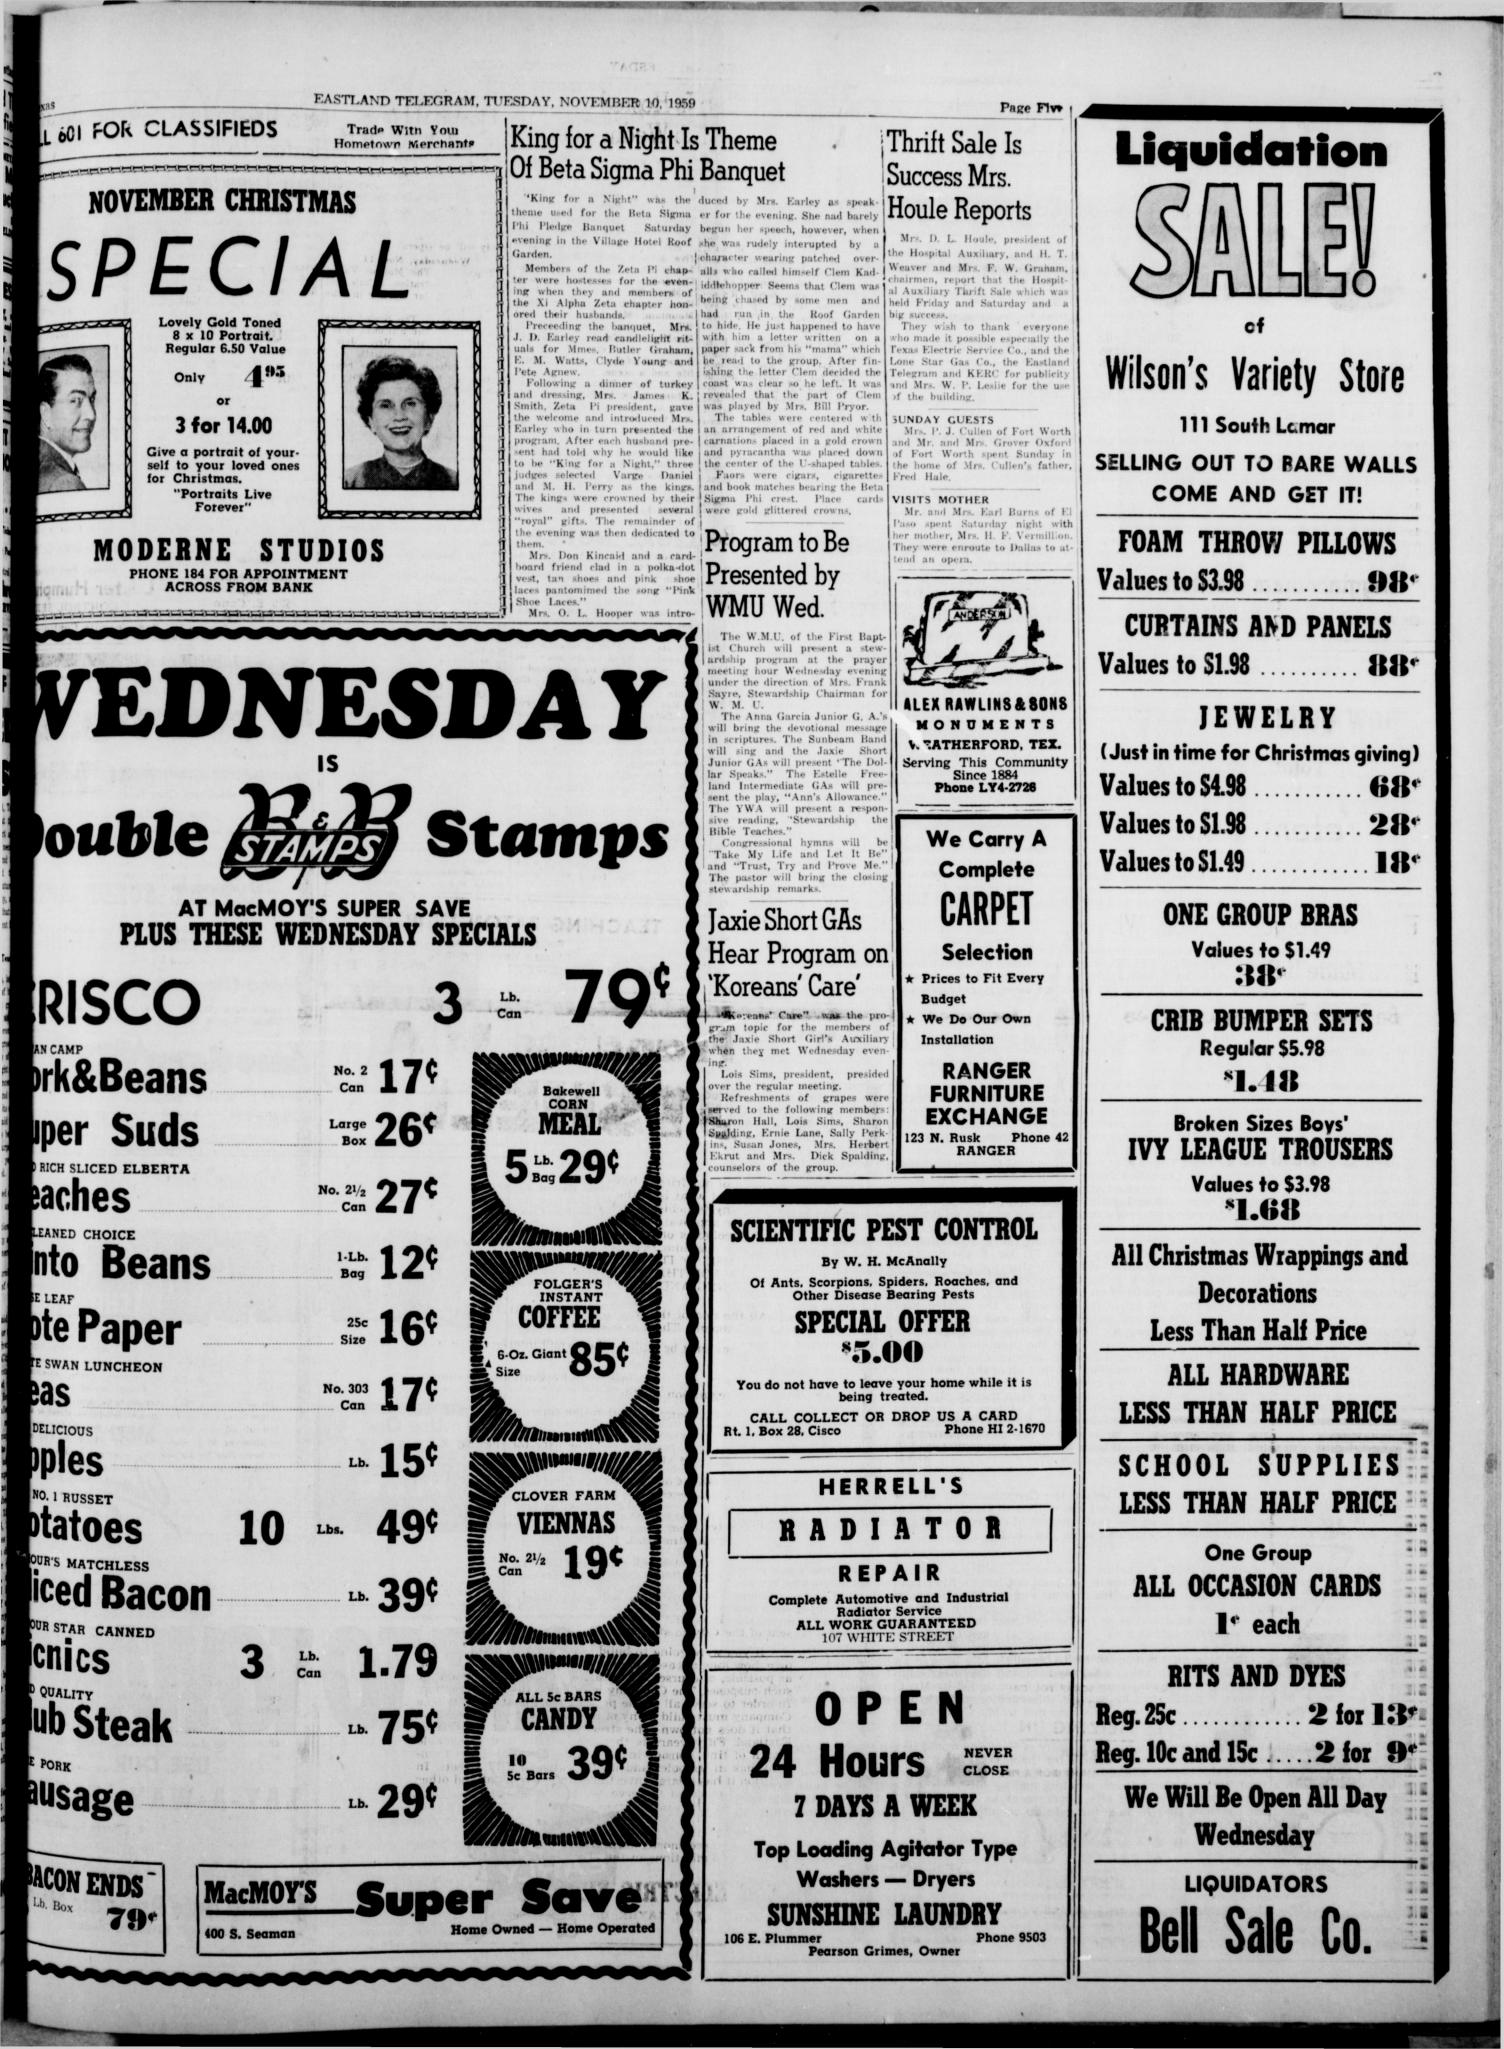

Section 7. This ordinance shall be cumulative dition to the other permits and franchises granted ances owned, held or claimed by the City prothat all ordinances or parts of ordinances that on with are hereby repealed.

Section 8. This ordinance shall not become ell til the Company has accepted the same ceptance shall be given to the City by the Com 30 days after final passage hereof.

ADOPTED AND APPROVED this the , A. D., 1959.

TEXAS ELECTRIC SERVI

COMPANY

EASTLAND TEL

TO THE CITIZENS OF EASTLAND:

I appreciate, as I am certain the other members of the City Commission do, the interest being shown by our citizens with respect to the proposed Texas Electric franchise. Interest in any of our city affairs by our citizens is appreciated by the Commission.

I do not intend to engage in a running debate with Mr. Cornelius or anyone else or to discuss here the merits or demerits of the proposed franchise, but Mr. Cornelius has seen fit to make certain inaccurate statements and certain insinuations which I feel reflect on me and other members of the Commission, and I propose to set the record straight, here and now.

In his letter of October 26 sent to certain people in Eastland, Mr. Cornelius stated, "I was deeply shocked, hurt and discouraged to learn that our City Commission had granted a brand new fifty year franchise to Texas Electric Service Company without discussing the matter with our businessmen or citizenship." As a matter of fact, the City Commission has NOT granted such franchise. The matter of the granting of such franchise will come up for vote at the NEXT Commission meeting on November 16. If the Commission had wanted to take sudden, stealthy action, it could have introduced the franchise for first reading at its September meeting and voted on its passage the next day-the Charter only requires that franchise ordinances be passed on a different day from the first reading; or, the Commission could have acted on the application at the October meeting. Instead, the Commission is allowing three full hearings in three separate months, open to the press and to the public, before acting on this application. No one can fairly construe this as an attempt by your Commission to put something over on an unsuspecting public.

In the same letter, Mr. Cornelius stated that by granting the franchise "the present commission has closed the door, in the face of all future commissions and citizens, for matters, including rates, that may come up in the next fifty years. There is just not a thing they will be able to do." That statement also is not true. If the franchise is granted, Texas Electric Service Company's operations and rates in Eastland will continue to be subject to the regulation of the City; in fact, the City could not, if it wanted to, give up its power to regulate rates. Mr. Cornelius apparently knew these facts on September 27 when his unsigned ad in the Eastland Telegram stated in part, "the granting of the franchise does not involve rate issues." Also, if the franchise is granted, the City, during the next 50 years, can itself go into competition with Texas Electric and/or can grant similar franchises to others.

In the same letter and on cards sent out by him and in last Saturday's circular and ad, Mr. Cornelius intimates that he sees no reason why the matter of the franchise should not be submitted to a vote of the people. He knows why. He and 15 other persons petitioned the Commission for an election at the October meeting. These people were represented by W. D. R.Owen, an Eastland attorney, who plainly told the Commission that if the petition met the requirements of law, the Commission had to call an election, and that if it did not meet the requirements of law, the Commission should ignore the petition. Judge Owen subsequently advised the Commission that the petition did not meet the requirements of law and asked that we not consider the petition further. I have checked the law on the matter and am in agreement with Judge Owen. Even if the Commission wanted to pass the buck by calling an election, it CANNOT do so in the absence of the required petition. Mr. Cornelius was present when Judge Owen made his statement at the Commission meeting, and I presume he was advised by Judge Owen, as we were, that we could not call an election under the petition presented. The law clearly and expressly sets forth the only way by which we are allowed to call an election on this matter. If Mr. Cornelius really wants an election he knows what has to be done before we can call one: present to the Commission the petition required by law. When Mr. Cornelius asks, "Would it be unfair or undemocratic to bring the issue to a vote of the people?", he should full well realize the completely unfair implication he is making. In his ads, cards, letters and circulars, he has clearly attempted to leave the erroneous impression that the Commission has the power and right to call an election on the franchise without further ado, although he has carefully refrained from a definite statement to that effect. The truth of the matter is that the Commission cannot legally call an election on this matter unless and until it has been presented with the petition required by law

In the letter mailed out by Mr. Cornelius regarding the Texas Electric franchise in Monahans and in his circular and ad of this past Saturday, he has placed the names of Commissioners near the bottom of the printed matter. Several persons have indicated that they thought this meant that such Commissioners signed same-which they did not do. If this was an effort cleverly calculated to mislead the people, it will not succeed.

In connection with his letter regarding the Monahans franchise, it should in all fairness be stated that Texas Electric is operating there under a 50 year franchise granted by Monahans in 1929.

In his circular and ad of last Saturday, Mr. Cornelius has seen fit to refer specifically to me and my past connection with Texas Electric. Apparently, some dark implication is sought to be attached thereto. I had attempted to explain fully my position at the October Commission meeting at which he was present, but I shall be happy to do so again. When the matter was first presented at the September meeting, I was in the position of having had both Mr. Cornelius and Texas Electric as clients; it was then evident that the franchise question would be a fight between Mr. Cornelius and Texas Electric. At that time, I was receiving a nominal legal retainer from Texas Electric and, so that the record might be complete, I was not receiving any remuneration from Mr. Cornelius. None of these facts, so far as I was able to determine, disqualified me under the law or under our charter from voting on the introduction of the franchise ordinance; in fact, I know of no Commissioner legally disqualified to vote on the matter, I did feel, however, that it was not proper morally for me to vote on a matter where anyone might believe that any private interest of mine could possibly serve to influence my public duty. I therefore declined to vote for the reasons stated, and without my vote the Commission voted to permit the introduction and reading of the ordinance. Following the September meeting and on September 27, Mr. Cornelius ran an ad in the Eastland Telegram in which he referred to my voluntary disqualification and stated, "It seems that matters of this kind should be handled by a full Commission with five, yes or no, votes." I heartily agreed, and agree, with that statement. Having accepted a position on the Commission, it was and is my duty to stand up and be counted, even though my vote may not affect the outcome of the matter. So that I could do my duty and avoid any possible conflict of private and public interest, and even though I was legally not then disqualified. I forthwith resigned as attorney for Texas Electric and gave up my retainer and the life insurance policy on which Texas Electric had partly paid the premiums. This effectively severed all personal, private connection which I had with Texas Electric Service Company. At the October meeting, I advised all present that I agreed with Mr. Cornelius' ad that all of the members of the Commission should publicly take their stand, that I had given up my connection with Texas Electric Service Company, and that I would vote on the franchise ordinance in November, even though my vote might not affect the outcome of the proposed ordinance. Mr. Cornelius heard that full statement, and was given the opportunity to comment on it, which he declined to do. If he now wishes to imply that my voting on November 16 can be influenced by having been in the past on the payroll of one of the parties to the public squabble now going on, I can only state that I consider myself both legally and morally qualified - and obligated - to vote on the matter-just as he requested on September 27.

the Northwest One-fourth (1/4) of Section 56, B. B. B. & C. R. R. Company Survey, Abstract No. 30, containing 20 acres, claimed by defendants Rodolfo Cruz and the unknown heirs of Rodolfo Cruz, deceased.

When this matter does come up for vote before the Commission, it will be the duty of each and every Commissioner to consider first and foremost the welfare of Eastland and all of its citizens and then to vote for what he honestly believes to be the best interest of our community as a whole. I shall do just that, and every Commissioner should be expected to do just that.

I have no personal quarrel with Mr. Cornelius. His business ability is obvious; he has done some very fine things for this town and citizens of this town; he could not have a finer family; his businesses are an asset to Eastland, And Mr. Cornelius, whatever his reasons and motives, has as much right to his opinion on the proposed franchise as I do or as anyone else does. He does not, however, have the right to seek deliberately to mislead the people in Eastland as to the facts without being called to account for his misstatements, improper innuendo, and false intimations. I fully realized when I agreed to run for the Commission that being a Commissioner was a thankless job, wholly without compensation, and I accepted the job with my eyes wide open. But this does not mean that I must sit idly by and smile when I see the facts and the actions of the Commission distorted and falsely attacked day after day. I can at least state the true facts, and any past and any future statements, signed or unsigned by Mr. Cornelius, can be measured by these facts. Every man, regardless of his wealth, influence or status in the community, is eventually responsible to the truth; this applies to you and to me and to Mr. Cornelius.

If Mr. Cornelius has any valid reason why the welfare of Eastland would be adversely affected by telling Texas Electric that it may remain in business here for the next 50 years (subject to full city regulation and open to competition from the city or others to whom the city grants like permission), then I sincerely hope that he will attend the next Commission meeting and so advise us. We will all be most happy to hear from him. If he merely wants to use our city government as a cat's-paw in his long-standing feud with Texas Electric, then I believe that he is seeking to do something which is improper-something to which the City should not be a party.

Tract 2: The Northwest One-Fourth (1/4) of the Southwest One-Fourth (1/4) of said section 56, B. B. B. & C. R. R. Company Survey, Abstract No. 30, containing 40 acres, claimed by defend-ants, C. D. Robb and the unknown heirs of C. D. Robb, deceased, and damages, plaintiffs seek judgment on their title and under the ten and twenty-five year statutes of limitations.

as is more fully shown by Plain-tiff's Petition on file in this suit. If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs. Issued and given under my hand and the seal of said court at Eastland, Texas, this the 2nd day of November A. D. 1959. (SEAL)

Attest: Roy L. Lane Clerk, 91st District Court of Eastland County, Texas. By Nelda Rutherford, Deputy.
