McCarthy Offers To Open Secret Files To Pentagon

Wants To Prove He Has Red Data

WASHINGTON, June 3 - Sen. Joseph R. McCarthy offered to let the Pentagon have a look at his secret files Thursday to prove he has information on 133 Communists working in defense plants.

The Wisconsin Republican invited the Defense Department to send a representative to go over the data with him...

CIA Becomes Next Target

WASHINGTON, June 3 - Sen. Joseph R. McCarthy's powers to investigate among the executive departments seems now to be just around the corner.

He has broken with the Republican Eisenhower administration...

Under such circumstances the senator announced Wednesday that his investigating subcommittee was looking into what he believes to be a serious Communist infiltration of the Central Intelligence Agency...

Probation authorities said they found the boy in a downtown hotel room Wednesday and that he was too ill to stand unaided.

A show-down on McCarthy's powers to investigate would come if he forced the issue of his right to investigate the CIA.

Three Locations Mentioned For New Air Force Academy

WASHINGTON, June 3 - The new Air Force Academy - a West Point of the air - will be located near Alton, Ill., Colorado Springs, Colo., or Lake Geneva, Wis.

These three sites were recommended Thursday by a special commission.

Air Force Secretary Harold E. Talbott will make the final decision on the location of the \$126 million academy, long the goal of the Air Force.

Under the law, he must choose from among the commission's choices. The commission itself was not able to reach a unanimous recommendation which would have been binding without further action.

Final Choice 'Within Month' Talbott said he would make the final choice 'within a month.'

Talbott said he will make a personal inspection of each of the three proposed sites. He said his selection 'will be made only after a thorough examination of land acquisition, construction engineering and many other problems incident to building the academy.'

The site selection commission, which included Charles A. Lindbergh, reserve brigadier general, traveled more than 18,000 miles by air to inspect proposed sites in many states.

Named Fair Study Talbott said, 'I wish to express the appreciation of the Air Force and the nation for the thorough, tireless and scrupulously fair study conducted by the commission in reaching its recommendations.'

The members of the commission BULLETIN GRAZ, Austria, June 3 - Two unidentified fighter planes described as "old-type" Soviet-built MIG jets, attacked a Belgian Sabena airline freight plane over the Austrian-Yugoslav border Thursday, killing one crew member and injuring two others.

The high command spokesman said there was very little action in the Red River delta, rice bowl of the world and next major target of the Red conquerors of Dien Bien Phu.

Facts Forum Keeps Tax-Free Status

WASHINGTON, June 3 - The Internal Revenue Service, after a new check, has ruled that the controversial radio-television program "Facts Forum" still is entitled to its tax-free status as an educational organization, it was learned Thursday.

"Facts Forum" is financed by Texas multimillionaire H. L. Hunt, a supporter of Sen. Joseph R. McCarthy (R-Wis.).

A special House committee investigating tax-free foundations is looking into operations of "Facts Forum" which includes a television program of the same name, the "reporters roundup" on CBS radio, and two other shows - "State of the Nation" and "Answers for Americans."

Rep. Wayne L. Hays (D-Okl.), a committee member, has charged that "Facts Forum" is a "preparanda machine" being used to defeat people like Hays for reelection to Congress.

The Internal Revenue Service made a check on the organization recently. Committee associate counsel Arnold T. Koch said Thursday the service ruled that "Facts Forum" still is entitled to tax exemption.

Rebel Battalions Kill 500 French

BULLETIN HANOI, June 3 - Three Communist battalions wiped out about 500 French Union troops Wednesday in an ambush in south central Viet Nam, the French high command announced Thursday.

HANOI, June 3 - Communist troops seized a military watchtower only 19 miles from Saigon Wednesday during a series of explosions at an ammunition dump in one of the capital's suburbs, the French high command announced Thursday.

The post fell while Saigon troops were bringing the explosions under control. French authorities said the work of Communist saboteurs.

At the same time a number of small advance posts outside the Viet Nam's capital reported enemy sniping in their areas.

Sniping chiefly has a nuisance value and is used by the Communists to keep the civilian population on edge.

The fighting in Indo-China shifted suddenly from the northern area of Viet Nam to the central section of the state.

French troops killed or wounded an estimated 500 rebels on the Annam coast halfway between Hanoi and Saigon. The ground troops received strong support from French planes and artillery.

Fighting also was reported to be severe near the Annam coast port of Song Cau, about 250 miles north-east of Saigon, and Red units were under attack farther down the coast.

The high command spokesman said there was very little action in the Red River delta, rice bowl of the world and next major target of the Red conquerors of Dien Bien Phu.

The issue of whether the United States will pledge serious retaliation against any Russian or Red Chinese intervention is being thrashed out in Washington, Paris, Saigon and Geneva.

Tornado Hits Town Near Paris

PARIS, Tex., June 3 - A tornado smashed through a rural community near here Wednesday night injuring 10 persons, eight of them members of the same family.

It was the second night in a row that this area has been visited by tornadoes. Two vicious twisters hooped-scoped through the state Tuesday night, killing one and injuring 14.

Most critically injured by Wednesday night's twister was Loretta Cooper, 14. She and seven other members of her family were hospitalized.

Dr. Don Lewis of the Lamar General Hospital said she suffered severe head injuries and multiple fractures, including a possible broken back.

He said she was picked up by the tornado and hurled 200 yards through the air before being deposited in a field.

The girl's mother, Mrs. Leola Cooper, also was hospitalized with serious cuts about the head and body.

Phone Companies Under Attack

MIDLAND, Tex., June 3 - A Democratic candidate for lieutenant governor attacked the telephone companies of Texas for failing to "abide by their own charter" in evaluating customer rates.

The candidate, C. T. Johnson, voiced the attack Wednesday in a campaign speech at the 20th annual championship rodeo exhibition.

Robert Young Wins Control Of NY Central

NEW YORK, June 3 - Robert R. Young won another round in his fight for control of the New York Central Railroad when the line agreed in Supreme Court Thursday to drop its suit over 800,000 disputed shares of stock.

Wednesday, in Albany, N. Y., the election inspectors counting the votes cast at last week's annual meeting unanimously rejected a challenge by the Central's management against the 800,000 shares.

The stock in question is owned by Sid W. Richardson and Clint W. Murchison, wealthy Texans who supported Young's efforts to oust the road's present management.

The two oil millionaires bought the stock in February from the Chesapeake & Ohio Railway for \$20 million dollars. The stock had been held in a voting trust by the Chase National Bank pursuant to an Interstate Commerce Commission order.

The Central refused to transfer the stock on the grounds the sale violated the ICC trust agreement. Along with one of its directors, Harold S. Vanderbilt, the Central brought suit to prevent the Chase bank from surrendering proxies for the 800,000 shares.

Dixie Revolt Against Housing Bill Seems To Be Evaporating

WASHINGTON, June 3 - The Senate called up the administration's housing bill Thursday and a Dixie revolt against the public housing provision appeared to be evaporating.

The House - passed housing bill contained no provision for public housing. The Senate Banking committee, however, proposed a return to the \$10,000 unit program first adopted in 1949. The President recommended 35,000 units for each of the next four years.

Sen. Burnett R. Maybank (D-S.C.), long a public housing champion, touched off the controversy by announcing he would wage a floor fight to eliminate all public housing from the bill because of a recent Supreme Court decision banning segregation in a California public housing project.

Army Plane Is Missing LUBBOCK, June 3 - A search was launched Wednesday by the Civil Air Patrol for a plane missing on a routine night training flight out of Reese Air Force Base.

Col. George A. Brewer, commanding officer of the Texas wing of the CAP said the plane was an Army T-28 trainer, single engine aircraft.

It was occupied only by the pilot. Brewer said the plane left Reese about midnight with four hours and 45 minutes of gas aboard.

The pilot last was heard from by radio when he was about 30 miles north of Lubbock near Abernathy at 1:39 a.m. He didn't report any trouble at that time, Brewer said.

Negroes Refused Admittance

TEXARKANA, June 3 - More than a dozen Negroes have been refused admission to Texarkana College and been refused on grounds that state-supported institutions made no plans to admit them during the 1954-55 term, it was learned Thursday.

Dean W. P. Akin said between 12 and 14 Negroes, all graduates of Dunbar and Washington high schools in Texarkana, appeared at his office Wednesday seeking college admission.

Texas Lacks Demo Quota

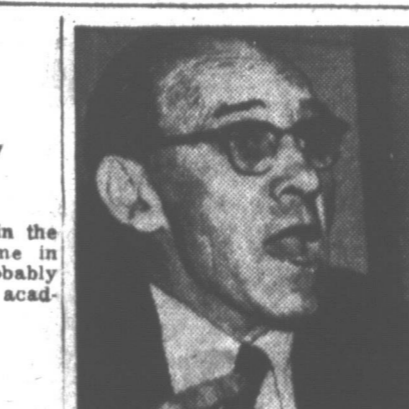

WASHINGTON, June 3 - It's up to the Texas State Democratic committee whether their state has its full quota of two members on the Democratic national committee before the 1956 national convention.

Actual "election" as members of the national committee comes in the closing hours of the national convention, it normally is the formality of ratifying those previously designated. That was true in the case of Morrow and Mrs. Weinstock at the close of the 1952 national convention.

Under party rules, any vacancy on the national committee can be filled by the state organization - the state committee or a state convention.

French Troop Moves Hinge On U.S. Pledge

GENEVA, June 3 - France was reported Thursday to be pinning future troop movements to Indo-China on getting a written pledge of American aerial retaliation against any Russian or Red Chinese air forces.

Informed sources said the French want a formal promise, in writing, because they consider numerous statements on U.S. intentions too confusing to be accepted verbally.

The sources said specifically that the U.S. attitude would affect the decision on how many reinforcements France would dispatch to Indo-China from posts in other countries.

The gaps left by the troop movements could be filled from the new pool of 80,000 men whose induction has been hastened.

France's position was made known at the nine-nation Indo-China conference sought a way out of the deadlock over composition of a "neutral" team that would police cease-fire arrangements.

The issue of whether the United States will pledge serious retaliation against any Russian or Red Chinese intervention is being thrashed out in Washington, Paris, Saigon and Geneva.

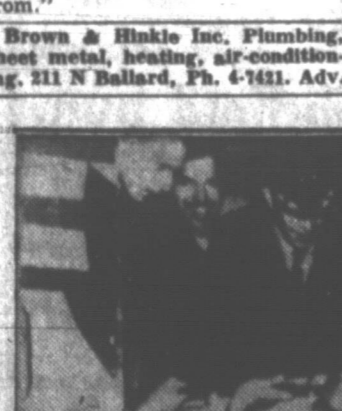

Severed Hand Found In Car

HOUSTON, June 3 - Mrs. Auretee Middleton parked her automobile, went into a grocery store with her two sons, returned a half hour later and found a human hand neatly boxed, lying on the back seat of the car.

Veins of the hand, which had been preserved in formaldehyde, were painted red and yellow to indicate their course. "It obviously had been used in a laboratory," said Police Detective C. K. Waycott, "but there is nothing to show how old it is or where it came from."

Gas Appeal Gets Mention

The drawn-out case of the City of Pampa and the Texas Railroad Commission vs. Empire Southern Gas Company came up in Amarillo, but it was only on the discussion level.

City Mgr. Fred Brook and City Director of Public Works, James Cowden Wednesday attended a regional meeting of city officials, sponsored by the Texas League of Municipalities.

And one of the many items discussed was Pampa's current gas appeal case, which is scheduled to come up again July 12 in 126th District Court, Austin. Representatives of other cities - some 13-14 were represented - wanted to know the current status of it.

Brook said late this morning. Other matters discussed, Brook continued, were prospective legislation in Austin, traffic, phonerate cases and swimming pools.

Cool Air Hangs On

Cooler temperatures borne by the wind from a cold front in the north central states brought Pampa a somewhat chilly night and their second straight day of mild weather today.

Temperature recorded at Radio Station KPDM at 10 a.m. today was 57 degrees. The low mark early this morning was a snappy 45 degrees following a reading of 41 degrees at midnight.

Tuesday's high mark of 75 was cooler than the high for several preceding days and was accompanied on the cool wind by a haze of dust that hung over the vicinity all day. A small dust storm blowing over this section of the Panhandle early Wednesday morning is believed to have been the result of the cold front moving into Texas.

The forecast for today and tonight for the area is generally fair with possibly scattered thundershowers Friday.

Churchman Hits 'Split'

ST. LOUIS, June 3 - A Swedish Baptist leader asked Thursday whether "a big Baptist country" like the United States can afford a "certain amount" of split and tension.

The leader, Joel Sorenson of Stockholm, did not answer his own question, but added that the Baptist cause in some countries "is disgraced and crippled by a lack of sense of belonging together in a national and world community."

Sorenson, who is youth secretary of the Baptist World Alliance, told the Southern Baptist Convention that "we cannot afford tension and splits."

Noting a worldwide growth from 6,200,000 members in 1905 to 20,250,000 today, Sorenson said it is "an amazing fact" that in spite of wars, national and human tensions and "diversities in our fellowship," that the Baptist world community "eagerly sticks together."

Benson Starts Dairy Month

CHICAGO, June 3 - Secretary of Agriculture Ezra T. Benson told dairy farmers Thursday that they can pull themselves out of their economic hole through intensive research and public relations.

Benson kicked off the dairy industry's "June Dairy Month" in a luncheon speech before representatives of farm organizations.

He told dairy farmers they have an "unequalled opportunity" to advance their industry and take themselves off government subsidies.

But, he said, they must approach problems of research and distribution with great determination.

"It is a matter of regret that the distribution system in the dairy industry has not kept pace with the production advances," he said.

Lefors School Boundaries Given Approval
The way was clear today for the approval of Atty. Gen. John Ben Sheppard on the \$200,000 school bond issue, voted May 8 by Lefors residents.

County school board members Wednesday afternoon formally approved the definition of boundaries of the Lefors school district, a prerequisite to Sheppard's approval, according to County school Supt. B. R. Nuckolls.

That was the main purpose of the specially-called school board meeting, Nuckolls reported late this morning, Tuesday, a month to the day after the Lefors vote, is the earliest date that Sheppard can approve the measure.

Clifford Allison, McLean was selected as a fill-in appointee in place of J. B. Hembree, who is now in Honey Grove, Nuckolls said. Appointment is till such time as Hembree returns.

A total of 106 student transfers was okayed by board members, the superintendent continued. Of that total, 22 will go from Alanreed to McLean, 21 from Grandview to Pampa and Groom, 47 from Hopkins to Pampa and Lefors and 12 from Pampa to Lefors.

Routine items passed by the board were Nuckolls' travel expenses and bus route changes. The latter is done about three times a year.

Student Transfers Completed

Student transfers from the discontinued Alameda High school placed the total number of transfers in the county at 106. County Schools Supt. B. R. Nuckols has announced.

Nuckols stated that the number of transfers to other schools would have been about average if it had not been for the 22 students who would have ordinarily attended Alameda High school next year transferring to McLean.

He pointed out that the remainder of the transfers were from schools from which students usually come to Pampa for high school.

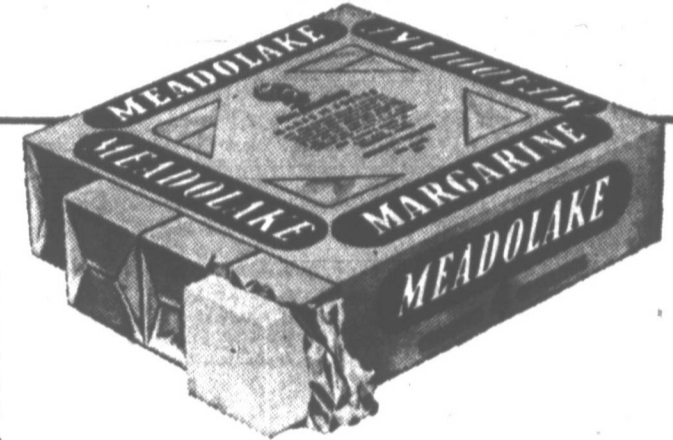

Tuesday was the last day for signing transfers, the superintendent said.

MEDICAL ALLY—The African greater honeyguide may aid medical researchers in cracking the wax armor of the tubercle bacillus which makes the white plague germ immune to most chemical treatments. The honeyguide is one of two living creatures that can digest wax. Some of the birds, arranged for by Dr. Herbert Friedmann, curator of birds at the Smithsonian Institution, will be flown in from Africa. Researchers at the Army Medical Center in Washington, D. C., will study the birds to determine what makes this digestion possible.

Hearings Get Hypnosis Offer

MIAMI, June 3—UP—A psychologist offered Wednesday to bring the Army-McCarthy hearings to an effective close "in a few minutes" by questioning principals in the dispute under hypnosis.

Ralph Blater, known in this country and in Europe for his practice and teaching of hypnosis, offered his services in a telegram to six of the top figures involved.

The telegram was addressed to Sen. Joseph McCarthy, subcommittee counsel Ray Jenkins, Army counsel Joseph N. Welch, and Sen. Stuart Symington, John L. McClelland and Ralph Flinders.

The telegram said: "Respectfully offer my services to help and hearings quickly and effectively. If parties concerned will submit to being hypnotized by me, an confident I can elicit all true facts in a very few minutes."

Blater said his offer was "serious and sincere," and was in response to McCarthy's proposal Tuesday that everyone involved in the fiery dispute be given a lie detector test.

"It's a shame to prolong the hearings any longer when the whole thing could be finished in a few minutes," he said. "I would have offered my services sooner but I felt it might be considered disrespectful."

He said he would hypnotize anyone the investigating committee wanted and command the subject to answer truthfully any questions asked by council Jenkins or any committee members.

JOHNSON IN HOLLYWOOD
By ERKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD — (NEA) — Exclusively Yours: There's a custody showdown pending between Dan Dailley and his recently remarried ex, Liv Dan, devoted to his six-year-old son, is being polite about it, but he'll stand pat on his demands for three months a year with the boy now that Liv is settling down in Kansas.

Marilyn Monroe and Clark Gable, in "The Lady and the Tramp," is on the planning boards at Fox. That's boxoffice magic on any size screen.

Mariene Dietrich's due any day to discuss the lead in "Billie & Jack," a movie she's been offered, including the lead with Burt Lancaster in "Vera Cruz."

George Raft shelved his nightclub act and told the two dolls who were going to hoof with him to find other jobs.

Steve Cochran, who doesn't want to play another heavy, nixed a menace role opposite Ava Gardner in MGM's "Love Me or Leave Me." How David Schine will take it, I wouldn't be knowing, but Piper Laurie is having her own love trial with Kirk Douglas.

An old British movie, "Secret People," now making the TV rounds, has Audrey Hepburn and Simone Silva playing bit roles. Silva's the doll who peeled while Bob Mitchell reeled. Joan Bennett will star in Walter Wanger's "Mother, Sir." The reconciled Wangers will film the comedy in Japan. All about an American wife married to an officer stationed in Nippon.

There's a buzz that Yolande Donlan, the U.S. chorine who became a movie star in London, will do a June Haver. Friends expected her to enter a convent months ago.

Bette Davis was asked to play the role that Mercedes McCambridge eventually drew with Joan Crawford in "Johnny Guitar." What Bette said about the idea can't be printed.

Hollywood censors lowered the boom on Eva Gabor's cleavage in "Captain Kidd and the Slave Girl." All close-ups of Eva's mustard-plaster region are being scissored out of the footage.

The Max Gullford with his Hornburg in the political ring, as a candidate for the California state senate, is the husband of actress Ann Gwynne.

Imogene Coca has a date in Dallas, Tex., Aug. 23 to star in "Wonderful Town" at the state fair. She'll play the Rosalind Russell role. The Elaine Stewart-Dr. Ben Platt linkage doesn't add to more than a few points above zero. Her real heart is a top movie executive.

Fred Allen's autobiography, "From Year to Year," hits the bookshelves in November.

Hollywood's gulping over the claim of Bennie Berger, an independent theater chain owner from Minneapolis, that 90 per cent of U.S. film theaters would go

broke if they didn't sell popcorn and candy.

Betty Hutton and Charles O'Curran are considering a reconciliation. Milton Berle is a candidate for the Nathan Detroit role in the movie version of "Guys and Dolls." Edward G. Robinson, Jr., just bowed in as a Los Angeles radio disk jockey.

Latest taffling entry from Hollywood — "Nobel Prize — Benefit of Mankind." The films will trace achievements of Nobel Prize winners. Leslie Caron's balking at more "Lili" type roles. She wants to live it up as a siren.

The Ritz Brothers are rehearsing a new act for a cross-country tour. More money than in TV, they say.

Jackie Gleason canceled his Hollywood summer vacation plans. He checks into a hospital for surgery after his June 28th show.

Olivia de Havilland's long-promised movie return will be in "That Lady," a about to be filmed in Spain. The story has a 15th century Spanish court background.

Donald O'Connor will star in U.I.'s musical, "Spring Song," originally announced for Tony Curtis. Curtis will make up his mind about more tuncelms after the release of "Three Gobs in Paris."

Paramount's going WAY back to find story material for the screen. First a remake of the old movie hit, "The Covered Wagon," and then a film version of the 1924 Broadway sensation, Eugene O'Neill's "Desire Under the Elms."

Woman Runs New England's Largest Department Store

EDITOR'S NOTE: This is another of several profiles of successful women endorsed for United Press as representative of the tops in their field by the National Business and Professional Women's Clubs.

By ROBERT LANE
HARTFORD, Conn. — UP — She is a small, thin woman, hardly five feet tall, conservatively but elegantly dressed.

She frequently can be found behind the counter at the big G. Fox and Co. department store, one of New England's largest.

But she is no ordinary clerk. She is Mrs. Beatrice Fox Auerbach, president of the firm, and one of the nation's few women to head a general merchandise emporium.

She is anything but an armchair executive. She regularly visits each of the store's 11 floors, and often fills in as a clerk if she sees a customer waiting.

Has Penthouse Office
When she is not browsing, she is seated in her penthouse office, surrounded by secretaries and assistants, keeping the company out front in the business of merchandising.

Most of New England knows the store, but few are familiar with the woman behind this enterprise.

Mrs. Auerbach cares little for personal mention. A call to her office must clear through a couple of secretaries before it gets to her, if it ever does.

But she is keenly aware of the advantages of publicity. When her store celebrated its 110th anniversary a few years ago, she had all the delivery trucks painted silver.

The store was founded by her father, who died in 1938. It was a prosperous and growing business from the start. Mrs. Auerbach took over after her father's death.

Helps College Students
A woman of energy, Mrs. Auerbach gives freely of her time and money to charitable and educational institutions. A fund bearing her name provides financial help for students entering college.

Not long ago, she was awarded an honorary degree by Wesleyan University in Middletown, Conn. At the time, the university president said:

"In the professional world, fate challenged you to play a man's game. You have won it in a way to capture both the respect and envy of the so-called practical sex."

16 City Blocks To Be Topped

Sixteen Pampa street blocks will be topped by Cooper and Woodruff, Amarillo, the concern awarded the contract by the Pampa City Commission.

The Amarillo outfit bid a unit price of 24 cents per square yard, totaling \$5,195.99, for the two-course asphalt surface treatment.

To be topped are the 1000-block of South Christy; 300-block of North Warren; 500, 600, and 700-blocks of North Magnolia; 600-block, Bradley Drive; 400-block, West Harvester; 1100-block North Somerville; 100- and 200-blocks, West 21st; 100- and 200-blocks, East 21st; 1000-block, North Duncan; 600- and 700-blocks, North Dwight; and the area around Duncan and Almeda park.

Oilers Outhit Hubbers But Drop WT-NM Tilt By 9-8 Score

Pioneers Regain Lead In WT-NM

By UNITED PRESS
Clovis regained the West Texas-New Mexico League lead Wednesday night by beating Albuquerque, 3 to 2, while second-place Amarillo lost to Borger, 6 to 1.

In other games, Lubbock broke a five-game losing streak by edging Pampa, 9 to 8, and Plainview tallied seven runs in the seventh inning to nip Abilene, 8 to 7.

Pampa got 19 hits off two Lubbock pitchers, while the Hubbers got but 11 off Jake Henson, who went the distance. Reliever Harry Radebaugh was the winner. Clovis bunched four hits in the eighth inning to push across the tying and winning runs as Red Dial beat George Socha in a pitchers' battle. Dial held the Dukes to five hits while the Pioneers got nine off Socha.

Dave Anderson, fire-ball pitcher, optioned to Borger from Montgomery of the Class A South Atlantic League, pitched a four-hitter against Amarillo.

Scores by innings:

Albuquerque	001 010 000-2 5 2
Clovis	001 000 02x-3 9 1

OCEANPORT, N.J., June 3-UP—Native Dancer was nominated Thursday for the \$50,000 mile-and-a-quarter Monmouth handicap at Monmouth Park, July 24, underlining owner Al Vanderbilt's hope of returning the famed horse to racing this season. Native Dancer is recuperating at Belmont Park from a soreness in his right foreleg.

4 Past Champs To Enter City Tourney

Four past winners of the Pampa Men's City Golf Tournament will be building for the 1954 tourney title which gets underway Sunday. The past winners back will be Grover Austin Jr., C. F. McGinnis, Max Hickey and Henry Rose. Grover Austin Jr. has captured five city titles that began in 1933. Grover won his first title in 1935 and since has won in 1936-46-50. McGinnis has won three city titles. His championship years were 1940-43-45.

Hickey and Rose have won one title apiece. Hickey won in 1932 and Rose in 1933.

Grover Austin is tied with his brother, Johnny, who is now the Pampa Country Club pro, for most city championships. Johnny's five titles came in 1937-38-41-42-47.

Qualifying for the 1954 tournament is now in progress. Qualifying scores may be turned in anytime between now and 7 p.m. Saturday.

Those seeking medalist honors must qualify on Saturday. The Calcutta luncheon will be held Saturday night. First round of match play will be held Sunday.

Entry fee for the tournament is \$5.

GROVER AUSTIN, JR., to seek 6th city golf title

Sooner Ag 9 Gains College World Series

AUSTIN, June 3-UP—The Oklahoma Aggies, a qualifier for the college world series at Omaha, Neb., in 1948 and 1949, became the fourth team to gain a berth in the 1954 tournament Wednesday by beating Texas, 16 to 12, in the third and deciding game for the Region 8 title.

The Aggies thus joined Michigan State, Big Ten champion, Missouri, the Big Seven champion, and Oregon, the Pacific Coast representative, in the double-elimination tournament starting June 10. The remaining four clubs that will play in the tournament will be decided this week end.

The Aggies edged Texas, 7 to 6, in the first game Monday, the Longhorns came back with a 6 to 3 win Tuesday and the Cowpokes sewed it up by outslugging the Steers in the rubber game.

The Aggies counted two runs in the second inning, then went on to tally four in the third and five runs each in the seventh and ninth innings. SHU, the Oklahomaans had to overcome a late surge by Texas, which scored 11 runs in the last three innings.

Phil Fineg, Max Bunyard, Bob Andrew and Jerry Patrick supplied the main power for the Aggies' attack, with Fineg topping off the batting exhibition with a bases-loaded home run in the ninth inning, after Andrew poked a three-run homer in the seventh.

Everett D. Barnes, associate athletic director of Colgate University and chairman of the NCAA baseball committee, today announced pairings for the first round games. Here is the lineup for contests next Thursday:

District 4 vs. District 1	7 vs. 8
6 vs. 3 and 5 vs. 2	

Sweden Netters Lead U.S.

STOCKHOLM, Sweden, June 3-UP—Sweden took a 2 to 0 lead over the United States Wednesday in the opening matches of an international tennis tournament when Sven Davidson defeated Art Larsen of San Leandro, Calif., 7-5, 6-4, and Lennart Bergelin beat Hal Burrows of Charlottesville, Va., 6-1, 6-2.

Little LEAGUERS

Kid Baseball Loops Enter 2nd Round; Farm Leagues To Open Season Saturday

Second round of play in the Pampa Pony and Little Leagues will be unreeled today with one game in each of the three leagues on lay.

Today's schedule sends First National Bank against the Pill Rollers in the Pony League; Your Laundry against C. M. Jeffries in the Western Little League; and Tom Rose against Cabot in the Eastern Little League.

It will be the second game for each of the six teams seeing action today.

The other six teams will play their second games tomorrow. Friday's schedule is Elmer's Super Market vs. Kist Beverage in the Pony; Utility Oil vs. Spokesman in the Western Little League; and Hoffman Oil vs. Sportsman Store in the Eastern Little League.

Winners of first round games were First National Bank and Pill Rollers in the Pony League; Cabot and Tom Rose Ford in the Eastern Little League; and Utility Oil and Spokesman in the Western Little League.

First round games in the Farm League will be played Saturday. Five games are on tap Saturday; two each in the Eastern and Western Little Leagues and one in the Pony League.

Felder Hurt; Woolbright On Hot Hit Spree

LUBBOCK, June 3—The Pampa Oilers outhit the Lubbock Hubbers, 19-11, here Wednesday night but the home-standing Hubbers matched the WT-NM hit by scoring a run in the ninth inning to win 9-8.

Every Oiler getting into the lineup got at least one hit. Dub Woolbright, currently on one of the wildest hitting sprees in history of the West Texas-New Mexico League, got four for five to share hitting honors for the Oilers with Manager Doug Lewis who also got four for five.

Woolbright now has collected 14 hits in his last 16 official appearances for an .875 average. The Oiler second sacker thus raised his season average 185 points—from .289 before the spree started to .441 which he now owns.

Ben Felder, Oiler shortstop, was injured in the first inning of the night's game when hit on the head by a throw ball by catcher Earl Hochstatter on an attempted pick-off play at third base.

Felder left under his own power and his injury was not believed to be serious.

Injury Costly

The injury, however, may have cost the Oilers the ball game. His replacement, Gene Harwood, booted a roundball in the second inning that led to five unearned runs for the Hubbers. Lubbock scored six runs in the second to take a 6-1 lead.

The Oilers tied the score at 6-6 in the third with a five-run rally. A two-run double by Dick Hairton and a two-run homer by Don Tierney featured the big Oiler third. It was Tierney's second homer in as many nights and his eighth of the season.

Ben Felder, Oiler shortstop who was injured in Wednesday night's game with Lubbock, was hospitalized following the game, according to Manager Doug Lewis.

The attending physician reported that the injury probably wasn't serious but ordered Felder hospitalized for a 24-hour observation.

Lewis, in a telephone conversation with the Pampa News this morning, said Felder is definitely out of tonight's game.

Pampa went ahead in the fourth with two runs, 8-6, both runs scoring on first baseman Bud Reagan's error. Reagan mishandled a hard smash off the bat of Hairton with the bases loaded and Woolbright, hampered with the bases empty for the sixth-inning run and then came back in the ninth to single in the winning margin.

Jake Henson went all the way for the Oilers and suffered his fourth defeat against three wins. Don Radebaugh, who retired starter Mit Ardrey in the third, got credit for the win.

Indians Clip Yanks On Smith's Homer

By CARL LUNDQUIST
United Press Sports Writer

The Indians took a "happy warrior" named Al Smith Thursday and the Yankees had an unhappy manager named Casey Stengel.

Smith was happy, not because Cleveland triumphed over the Yankees, but because he had been the "happy warrior" who ran for president in 1928, but because he was working for the Cleveland Indians.

Stengel was unhappy because his Yankees had just lost the kind of a game they had won almost invariably during his six-year regime as manager of the world champions.

Cleveland had just defeated the Yankees, 8 to 7 in 10 innings on the margin of Smith's second homer of the year, in the top half of the inning. It was the third straight triumph in Yankee Stadium for the Indians this year and their fourth in six meetings with the champs.

Nine Hitless Innings

Smith, Cleveland's rookie left fielder, was elated not only because he hit the game-winning homer but because he had been ticketed for the Cleveland farm club at Indianapolis. Now he is sure to stay, despite the fact the Indians are carrying seven outfielders.

It was one of the weirdest games the Yankees ever lost. They scored seven runs on six hits in the first inning, then were not hit for a regulation nine-inning by five pitchers with lefty Hal Newhouser getting credit for his second win by blanking them the last three innings. Larry Doby hit a terrific three-run homer in third, Cleveland added three more in the fourth and tied it at 7 to 7 in the

Orioles Top Athletics

In other American League games the Orioles blasted out with a rare 14-hit evening and topped the Athletics 9 to 1 on Joe Coleman's six-hitter and Washington topped Detroit 7 to 3 as rookie Dean Stone also tossed a six-hit triumph.

The Brooklyn Dodgers beat the Milwaukee Braves, 7 to 6, at Milwaukee in a wild night game called at the end of five innings because of rain. The Braves scored five runs in the fourth to go ahead, 6 to 2, chiefly on Eddie Mathews' grand-slam homer, but the Dodgers came back with five in the top of the fifth to regain the lead. The victory put the Dodgers in first place by one game.

The Philadelphia Phillies, 7 to 0 on a six-hitter by lefty Curt Simmons, who achieved his fifth victory, Willie Jones and Earl Torgeson each drove in a pair of runs. The Giants were rained out at St. Louis after a half inning in which they led 2 to 0 and the Pirates were washed out at Chicago.

Wednesday's star—Al Smith, the "happy warrior" of the Indians who hit a homer in the 10th for an 8 to 7 victory over the Yankees.

Bronchos Beaten In Schoolboy Tourney

AUSTIN, June 3.—UP—Two schoolboy teams from Dallas and one each from Longview and Austin met Thursday night at Ditch Field in the semifinals of the sixth annual state schoolboy baseball tournament.

Dallas Adamson will play Austin Travis in the first game at 7 p.m., and Highland Park meets Longview at 9 p.m. Thursday night's winners will play for the championship at 9 p.m. Friday, and the losers will play for third place in a preceding game at 7 p.m. Friday.

All four won opening games Wednesday and Wednesday night but Adamson's 1 to 0 victory over Odessa was something of an upset.

Adamson pitcher Clifford Jones stopped the Bronco on only one hit as he bested Carl Schlemeyer in a pitchers' battle.

Travis Over Texas City Austin Travis defeated Texas City, 5 to 2; Longview blanked Corpus Christi Ray 2 to 0, on the one hit pitching of George Myers; and Don Presley hurled Highland Park to a 4 to 1 victory over El Paso Austin. Wednesday's losers were eliminated in this "sudden-death" tournament.

The only hit off Jones, who fanned six Odessa batters, was by Gary Hinda. Schlemeyer allowed but two hits, striking out seven.

Adamson scored the only run in the sixth inning when James Samford singled to drive in Leo Burkhalter. The tight pitching of Jones and Schlemeyer set a new interscholastic league tournament record for the fewest aggregate number of hits by two clubs—three.

The previous low of four was set by Marshall and Denison in 1949, the tourney's first year.

Held to Two Hits Austin Travis was held to only two hits by Texas City's Raymond Dupuy and Curtis Buchanan, who relieved Dupuy in the fourth inning. But eight walks and three errors ruined Texas City.

Catcher Charles Allen's second-inning triple was the only hit Corpus Christi Ray managed off Longview's Myers. The Lobos from East Texas got five hits off two Corpus Christi hurlers and scored both their runs in the second inning. Presley also gave up just one hit and it came with two out in

the seventh and last inning. But El Paso Austin had scored an unearned run in the third inning on a walk, a wild pitch and an error. El Paso catcher Reggie Postford was the batter who spoiled Presley's no-hitter.

SMU Gets Schlemeyer

DALLAS, June 3.—UP—Southern Methodist University picked up two of the state's prize athletic plums Wednesday with the signing of letters of intent by Odessa's Carl Schlemeyer and Brownwood's Ray Masters.

Schlemeyer, as noted as a baseball pitcher as for his quarterbacking and passing in gridiron together, signed at Austin after being bested by Dallas Adamson in the state baseball tournament despite a two-hit mound chor. He was an all-state player last year as Odessa went to the Class AAAA football finals.

Masters, an all-around athlete, was all-state in football, starred in track as a shot putter, sprinter and hurdler and was twice all-district in basketball.

Both were among the most sought after athletes in the state. SMU also signed Bob Burgess, a star quarterback at North Dallas last season.

Auto Record Topped

INDIANAPOLIS, June 3.—UP—Tony Bettenhausen, who drove the Novi Special which was bumped from the 500-mile speedway race on Memorial Day, Wednesday was timed in an unofficial record speed of 141.8 miles per hour for one lap at the Indianapolis speedway. He was timed by the car's crew in a test run by stop watch and not the official electronic device used by AAA officials. The unofficial speed beat Jack McGrath's qualifying record by three-tenths of a mile an hour.

Kid Softball Meeting Set

A meeting of all managers, ministers of churches and say boys and girls interested in playing in the Church Softball league sponsored by the Kiwanis club, will be held at 7:30 p.m. Thursday in the county court room. It was announced by Kiwanis President J. B. Maguire, Jr.

Plans for operation of the league will be discussed and the season's schedule will be drawn up. League play will begin Monday, he said.

Robinson Apologizes For Throwing Bat Into Stands

MILWAUKEE, June 3.—UP—Brooklyn outfielder Jackie Robinson, whose wildly tossed bat came into the stands and struck an usher in the head, said Thursday he was "extreme sorry."

"I was mad when I went up to the plate," Robinson said after Brooklyn's 7 to 6 victory over Milwaukee Wednesday night. "When I threw the bat underhanded toward the dugout, I held it a second too long and it went too high and bounced into the stands."

"I went over and apologized to the guy and he wasn't mad, although another guy was," he said. "I didn't mean to throw the bat into the stands. Hell, I'd be crazy to do that."

Robinson flung his bat when he walked toward the dugout after being

ing thrown out in the fifth inning of a wild game which saw the Brooklyn bench cleared.

Plate umpire Lee Ballanfant gave Robinson the thumb when he continued to argue about a call which resulted in Ballanfant's clearing the Dodger bench. All of the players were allowed to return for relief use except Robinson.

The dispute arose when Braves shortstop Johnny Logan was at bat in the fourth inning. He was given a walk, loading the bases, but the Dodgers contended he had a three-balls-two-strikes count.

H-Bomb Dwarfed By Stellar Blast
PASADENA, Calif., June 2 — UP — An explosion in outer space, which shattered a star with such cataclysmic force as to make the H-bomb seem like a firecracker in comparison, it has been disclosed by scientists.

The California Institute of Technology said discovery of the gigantic stellar explosion, which occurred 20 million years ago, was made by Paul Wild, 28-year-old Swiss astrophysics research assistant.

The light from the explosion only recently reached the earth and Wild detected it on photographic film taken with the 18-inch telescope at the Mt. Palomar Observatory south of here.

The star explosion produced a supernova—an exceptionally bright body—which now is a vast, swirling galaxy of smaller stars known as NGC 5688.

The colossal explosion occurred before our primitive human ancestors had appeared on the earth and while the mastodons that dominated the world were still relatively small.

TV Plans New Look In Shows

By ALINE MOSSBY HOLLYWOOD, June 3—Television next fall will have a "new look" including supercolossal "Spectaculars" which will be the most costly and lavish on video to date.

The idea, explained NBC program chief Sam Fuller Thursday, is to get away from the radio format of the same shows week after week.

Thus NBC will stage three "Spectaculars" a month — each one a different 1-2 hour show starting the biggest names of show business, and each with a budget soaring to \$250,000.

Betty Hutton will put on a mini-program Sept. 12.

Tyrone Power will be presented in a dramatic program, a condensed Broadway drama, as another "Spectacular."

"We wanted to put on something exciting that people would want to tune in on," said Fuller.

Max Liebman, the former "Show of Shows" mastermind, will produce the Saturday and Sunday "Spectaculars" which will be feature-type shows.

The Saturday program will take the place of one "Colgate Comedy Hour" per month.

Famed Broadway producer Leonard Hayward plans to telecast some of his Broadway shows as the Monday night "Spectaculars."

"Each show will cost more than it took to stage 'South Pacific' in New York," said Fuller. "They'll all be in color because we expect 100,000 color sets in homes by then."

We hope to have our new color studios here finished by the first of the year.

Radio's Gildersleeve, Fibber McGee and Molly and Baby Snooks also will be transferred to television this fall, NBC further plans.

"The Wide, Wide World," which will telecast such events as the spouting of Old Faithful geyser in Yellowstone National Park; "On the Farm," showing city slickers how cows are milked; and "Medicine," a medical version of "Dragnet" based on county hospital cases in Los Angeles.

Rotary Plans Program On Life Saving

A program on "Life Saving" will be given at next week's luncheon meeting of the Pampa Rotary club, according to Paul Crossman, program chairman for the month of June.

Sid Patterson, representative of the Dempster-Dumpster company, presented a film at Wednesday's meeting in the Palm Room of City Hall.

The film showed the operation of the trash collection units similar to those purchased by the City of Pampa.

Patterson was introduced by Joe Cree, chairman of the Chamber of Commerce Fire Prevention committee.

Guests included Bill Gates, Oklahoma City; Claud Harrison and Bill Hayes, both of Amarillo; Dave Moore, Jack Roberts, Kinzie Davis, Lester Wiles Jr., and Bob Brummal, all of Borger; Rufus Jordan and Bill Waters, both of Pampa; President E. S. Williams presided.

Lefors Cubs Win Badges

LEFORS — (Special) — Dens 1 and 3 of Boy Scout Pack 19 gave their regular monthly program in the Lefors High School auditorium recently.

The theme of the program was "Mississippi Showboat." Den 1, led by Mrs. Howard Archer, portrayed the race between the Natchez and the Robert E. Lee with miniature boats pushed across the stage.

The second part of the program was a skit given by Den 3, led by Mrs. C. J. Trusty, on board a make-believe boat. The name Cotton Blossom was written across it with crepe paper cotton blossoms.

The boys played "St. Louis Blues" and "Old Man River" with self-made instruments, accompanied by Miss Linda Brown.

Gifts of record plates and pencil pads were given to group mothers.

After the program, C. J. Trusty presented wolf badges to Bobby Call, Ken Walser and Kenneth Minner. Also a lion badge was given to Larry Ables and a bear badge to Johnny Warner.

INTERIOR — This is the interior of the Gunn Brothers Stamp Redemption Center, in the Hughes Building, which will have its Grand Opening Friday and Saturday. Nineteen Pampa merchants are participating in the Gunn Brothers stamp program.

Slassen Sees No Outward Sign Of Friendship From Russians

DENVER, June 3—UP—Foreign Operations Director Harold E. Slassen said Wednesday that the Soviet Union has shown no readiness to co-operate with the free world in capitalizing on a golden opportunity to better mankind's condition.

Slassen told 1,000 delegates to the annual convention of the General Federation of Women's Clubs that, on the contrary, Red ideology presents a "maximum" threat to the greatest opportunity for general progress the world has ever known.

Free nations must cooperate, not only to curb an ideology which imperils the individual dignity of man, but also to create a moving force for a better world, as the energies of all nations are directed toward the improvement of conditions under which all of mankind must live and work.

Without pinpointing his target, Slassen advised the representatives of 11 million women in the United States and 33 other countries that "the compulsive itch to make headlines is the occupational disease of little men."

The GFWC was to elect new officers and vote on what probably will be the only controversial resolution of the convention — a proposal that the United States strike down some trade barriers. The resolution calls for a parallel government aid program for businesses and individuals who would be hurt by a lowering of trade restrictions.

Round-World Tour Planned By Yoshida

By CHARLES M. McCANN United Press Foreign Analyst Japanese Premier Shigeru Yoshida's big secret is out at last.

He is leaving for the United States Friday on the first stage of a tour that will take him around the world.

Arrangements were made well in advance for his reception in Washington, Ottawa, London, Paris, Bonn, Rome, Karachi, New Delhi, Bangkok and Singapore.

But it was not until Thursday that Yoshida announced officially in parliament that he will make the tour.

Some Criticize Tour The principal reason Yoshida held up the announcement is that the opposition Socialists, and most of the Japanese newspapers, have criticized him severely for planning the tour.

They complain that the Japanese political situation is in turmoil. They point to rising unemployment. They demand that something be done about the long-standing economic and political highly placed politicians have been accused of taking bribes from shipbuilders.

But the opposition and the newspapers also are suspicious of Yoshida's strong pro-Americanism. They fear he may commit Japan to even closer co-operation with the United States.

May Ask U.S. for Loan Despite the criticism, Mr. One Man's went on making his plans, at the same time blandly denying to enraged opposition questioners in parliament that he had any definite plans for a tour.

Privately, Yoshida had said that he wants to strengthen the friendship between Japan and other countries, to thank the United States for the aid it has given Japan and to visit the many old friends he made during his long career as a diplomat.

It is reported, also privately, that Yoshida may ask a \$50-million loan of the United States.

WD Reading Program

WHITE DEER — (Special) — The summer reading program is scheduled to begin Monday, according to Mrs. W. L. Foster, of the White Deer Branch Library.

Readers are reminded that the library hours are from 2-5 p.m., and the library will be closed all day on Tuesdays.

The supply of reading matter is very adequate this year, with better selections than were available last summer. At the end of the summer reading program, special attention will be given to those students who have read the required number of books during the two months of the program. The number of books is governed by the grade in school of the reader.

Cotton Gains, Rayon Falts

CORPUS CHRISTI, Tex., June 3—UP—Cotton gains in its share of the broad woven goods market in 1953 while its principal competitor, rayon, lost, the American Cotton Congress was told Thursday.

Burris C. Jackson, Hillsboro, Tex., general chairman of the Cotton Textile Committee of Texas, said in a speech prepared for delivery before the 15th annual meeting, quality and promotion are the reasons for cotton's gains.

Cotton men were here for the three-day meeting from 18 states.

Jackson said cotton's per capita consumption is rising in apparel and household uses, which account for more than 70 per cent of cotton's total markets.

"All of us know that cotton is the most versatile fiber known to man," Jackson said. "We are familiar also with many of the improvements that have been made in recent years."

Jackson said people all over the world need cotton, that per capita consumption, outside the United States is about five pounds as compared with 28 pounds in this country.

215 Scouts Encamped At Ki-O-Wah

A total of 215 Boy Scouts from the Adobe Walls Council today was in the midst of the first week at Camp Ki-o-wah, the council camp northeast of Canadian.

They are among the 888 Boy Scouts who have been registered for the camp during one of its five weeks, according to Phil Pegues, Santa Fe District Scout executive.

Break-down for the other four weeks is 204, for the second week; 183, for the third; 196, for the fourth; and 89, for the fifth.

That means 63 of the 71 Boy Scout units in the council have been registered for the camp, easily the highest total in council history, Pegues explained. Single Scouts can not register by themselves; it must be done as a unit.

Figuring that, on an average, there are six Scouters per week plus two additional men for each of the 63 units, Pegues pointed out, there will probably be a grand total of 1,100 persons attending camp this summer in one capacity or another.

Killed in Collision
HENRIETTA, Tex., June 3.—UP—Mrs. V. W. Scott was killed instantly Monday when her automobile collided with a jeep on U.S. 82, eight-and-a-half miles east of Henrietta, Tex. Her baby was seriously hurt. C. L. Williams of Ringgold, Tex., driver of the jeep, and his wife, suffered minor injuries.

ALERT—Recent air action off the China coast has stirred speculation that the Reds may be planning to attack island bases held by Nationalist forces. Tachen, in the north, and Quoy, in the south, are both important to the Nationalists in their defense of Formosa. To prepare for any Red attack, Chiang has ordered all non-combatants evacuated from both islands.

CRIME AND PUNISHMENT—Convicted of being a beardless foreign "subversive," Sen. Estes Kefauver, of Tennessee, is placed in a stockade by a bearded native of Topeka, Kan. Beards were the order of the day for Topeka's centennial celebration. He spent five minutes in the stockade for his "crime" before he purchased his pardon by buying a \$9 centennial sponsor button.

See Little Chance Of Action On Water And Power Bills

WASHINGTON (NEA)—While the White House itself is tied in a knot over such simple things as selection of a new chairman for the Tennessee Valley Authority, although many people of that area seem to think Gordon Clapp, who resigned, is still the best man available.

Secretary of the Interior Douglas McKay has made repeated statements that the federal government under the Republican administration will continue to develop multipurpose dams on the main watersheds.

He has endorsed such projects as John Day Dam on the Columbia, Glendo Dam in the Missouri basin and new power production units for other partially completed projects. But there have been no recommendations for new dam starts going to Congress.

Major effort of the Administration has been to encourage state and local public organizations and private power companies to develop hydroelectric sites. Applications to build a dozen such projects have been filed in the past year. On some of these the Administration proposes federal loans.

This record of the Eisenhower water resources development came under concentrated attack at the recent Democratic National Committee powwow in Washington.

In an all-morning session presided over by former Secretary of Interior Oscar Chapman, Democratic congressmen from every section of the country blasted their opponents for lack of a program.

Sen. Mike Monroney of Oklahoma, who reviewed the record on flood control and reclamation cutbacks, Rep. Richard Bolling of Kansas City, speaking on the subject of how power policy had been reversed, expressed himself as "flabbergasted by willingness of the Administration to embrace a policy of complete selfishness."

This task force, under retired Adm. Ben Morell, now head of Jones & Laughlin Steel Co. of Pittsburgh, just recently began hearings in San Francisco. It plans a series of such hearings across the country and won't be ready to report until next year.

The Administration's power policy is further tied up in the Hells Canyon case now nearing its first anniversary before the Federal Power Commission. There won't be an examiner's initial report on that before next year.

If Indo-China Falls, Will Malaya Be Next?

By FRED SPARKS
NEA Staff Correspondent

WASHINGTON (NEA)—How will French setbacks in Indo-China affect the war in Malaya?

For eight years the British have been fighting Communists north of Singapore in jungles that provide rubber for half the cars in the U.S.

The High Commissioner, Sir Gerald Templer, fears Communist successes in Indo-China might turn Malaya into a major battlefield. This fits President Eisenhower's warning that if Indo-China collapsed the rest of Free Asia would go down like a row of dominoes.

Gen. Templer was to leave Malaya in June, but Her Majesty's Government, studying the Oriental timetable of trouble, might extend his tour.

The Communists have been content so far to keep the trouble small-time. There are only 5000 active guerrillas. No one doubts that, with Chinese aid, enough citizens with ancient hates against the British can be found to graduate the insurrection into the big time.

The guerrillas have already cost England one billion dollars building plantations into stockades and guarding transport. The Royal Express from Singapore to Kuala Lumpur posts this sign: "In case of firing from the roadside... passengers are requested to lie on the floor." Countless acres of rubber trees have been slashed by hoodlums.

Radio Peking continually talks of a Red flag flying over the Cricket Club, next to Singapore's famed Raffles Hotel, one of the few remaining monuments of yesterday's Empire. There is foot traffic from

China across the wilds of Thailand into unguarded border strips of Malaya.

Recently, with Thai permission, British officers and Malay soldiers completed an exhausting 122-day patrol in Thailand's aborigine country to destroy Red food dumps. Cutting their way through jungle vines with parangs, they averaged but 12,000 yards a day.

The aborigines, who don't know Malenkov from McCarthy, house Communists. When well dressed they wear a G-string, and in this B-bomb age they use blow-guns with poison darts.

If Indo-China should become a Red state, joint defense of Thailand and Malaya would be logical. Manhunting the guerrillas are a 20,000 British expeditionary force (including draftees), 70,000 police and 10,000 native troopers.

The expeditionary force has Sikhs from India who never cut their hair or beards, braiding same into head knots under turbans. Also Dyaks from Borneo, descendants of headhunters, who serve as jungle trackers.

To further prove how closely knit are Asia's troubles, the Malaya Communist GHQ is now believed to be on a Communist dominated section of Sumatra, in Indonesia. From there and Red China itself, ocean-going junks can put men and weapons on lonesome beaches of the Malayan peninsula.

Templer has gained ground in the last three years by combining anti-Red salesmanship with brass knuckles.

American-donated helicopters skim the tree-tops near outlaw camps broadcasting liberal surrender terms through loud-speakers. And piked parachutists jump into the brush to spray special chemicals that kill rice and tapioca fields feeding rebel units.

This correspondent visited plantations where there is a Tommy-gun on every tea table. In one plantation in Perak a barefoot boy, wearing a sarong and black fess, served steam from ironed glasses on the terrace while revolving searchlights illuminated well-manicured lawns.

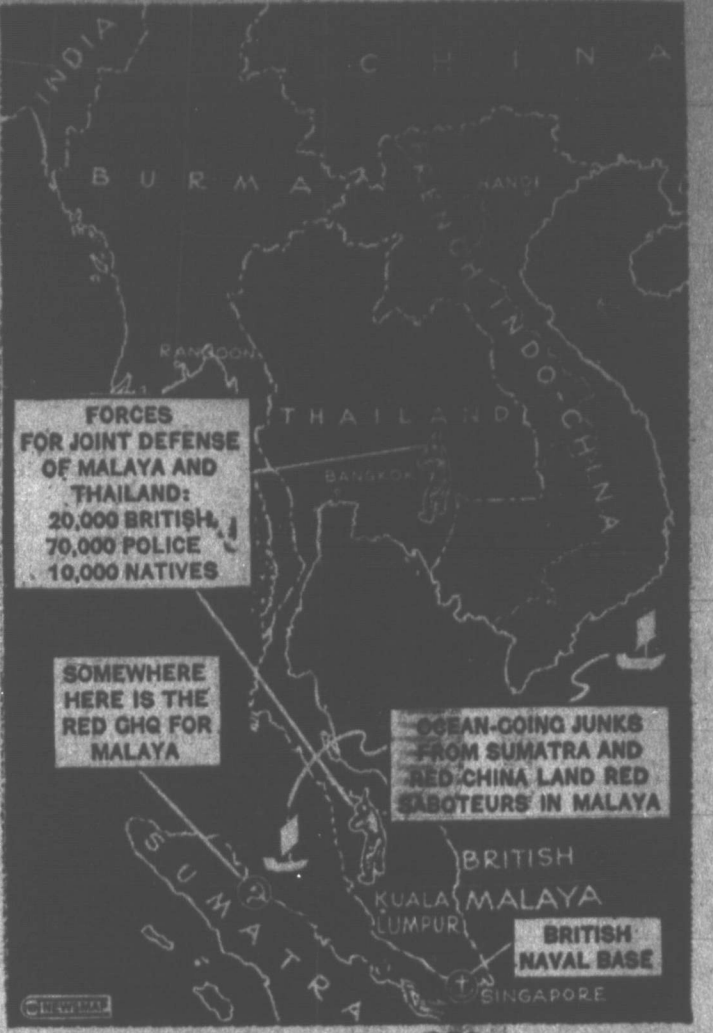

A watch tower with two guards stood 80 yards away. The day before the planter's young assistant and four native workers were ambushed and killed while inspecting the rubber trees.

Even the great Singapore naval base, a vital part of any Allied defense of Asia, must be guarded against saboteurs. Warships are docked 15 miles inland up a muddy puddle of a river called the Straits of Johore.

Equatorial thickets on both sides provide ideal cover for spies and snipers. The navy base is a seaport in the jungle. Nature has indeed been good to Oriental communism, which softens up the for eventual conquest by internal terrorism.

BRITISH FORCES IN MALAYA include Dyaks (left) from Lano as jungle trackers, plus regular British Tommies (right).

IN MALAYA'S THICK JUNGLES, tracking Red guerrillas is an exhausting job. Day's patrol may make only 1,200 yards.

Ochiltree Unit Of SA Formed

PERRYTON (Special)—A unit committee of the Salvation Army was organized for Ochiltree county recently. Officers were named to administer the Army affairs in this area.

Elected chairman was J. D. Maberry. Mrs. Ann Suitor was elected secretary and Gale Rogers was elected treasurer. Tom Davis, Roland Shearer, Mrs. Ida Garrett, and Judge Howard Slaughter are committee members.

The Salvation Army committee will conduct a fund drive sometime in June, and the funds raised will be used locally. The money will be used for buying food, medicine, and other necessities for persons unable to buy them, and it will also aid transients passing through Perryton. An immediate project will be "the" section of two boys from Perryton to attend the Salvation Army summer camp near Irving, Texas.

The Pampa Daily News

One of Texas' Five Most Consistent Newspapers

We believe that one truth is always consistent with another truth. We endeavor to be consistent with truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we, at any time, be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

Published daily except Saturday by The Pampa News, Atchison at Somerville, Pampa, Texas. Phone 4-1444, all departments. Entered as second class matter under the act of March 3, 1879.

SUBSCRIPTION RATES

By CARRIER in Pampa, 50c per week. Paid in advance (at office) \$2.50 per 2 months, \$7.50 per six months, \$15.00 per year. By mail \$7.50 per year in retail trading zone, \$12.00 per year outside retail trading zone. Price for single copy, 5 cents. No mail orders accepted in localities served by carrier.

Business Picture

Figures on births and deaths in the business population show that the man who can build a better mousetrap has to avoid a good many other kinds of traps if he is to fight his way to the top, expand, and stay there. They explain why, in this country, though most new businesses are started by individuals, most of the business is done by established firms.

Mortality rates among newly started firms in the business population look like mortality rates in the human population before wonder drugs came along. Department of Commerce figures show that on the basis of post-war experience, 1944-51, there was just a 50-50 chance that a new firm would last two years under the same management. There was only about one chance in three that it would be in business at the end of four years. But if it survived its infancy, its life expectancy picked up: At age five, its chances of celebrating its sixth birthday were seven out of eight. Of the 4,014,000 firms operating at the end of 1951, 1,326,000 dated their beginnings from earlier years than 1944.

The number of firms responds very sensitively to business conditions, a Congressional Quarterly analysis shows. It dropped from 25 businesses per 1,000 persons in the population in 1929 to 22 in 1933. It reached 25 again in 1940, but dropped under wartime restrictions to 21.5 in 1943.

Then as soon as the war was over, new firms sprang up in great numbers in response to pent-up demand, with contract construction, wholesale trade and manufacturing the big leaders. The mild recession of 1949 was reflected in a slowing up of the growth rate by approximately half. In the first half of 1953, the growth rate was higher than 1949, but below other recent years.

Responsiveness to new demand, and mortality when demand slackens, show even more vividly on a regional basis. The newly developed purchasing power of the Southeast has been a consistent post-war inducement to the formation of new businesses since the war, and until very recently, entry into business has not been offset by a high rate of discontinuances, as has been the case in the other very rapidly growing region, the Far West.

Discontinuances, of course, by no means always mean failures — the owner of a business may retire, sell out to advantage, decide he can make more money as a wage-earner or salaried employee in another firm. Only about half of all liquidations are made to avoid or to cut a loss. This year new business incorporations and failures are running high. Records compiled by Dun & Bradstreet show 28,590 new businesses and 2,894 failures, for the first three months of 1954 as against 27,070 incorporations and 2,077 failures, for the same period in 1953. Through May 6, failures this year number 4,129, compared with 3,031 for the same period in 1953 and 2,934 in 1952.

This March, there were 1,102 failures as compared with 739 in March, 1953. By regions, they were located as follows:

	March 1954	March 1953
New England	63	57
Middle Atlantic	386	264
East North Central	165	96
West North Central	39	22
South Atlantic	116	44
East South Central	15	23
West South Central	40	32
Mountain	19	23
Pacific	259	178

Classified according to their liabilities, these firms failed with obligations:

Under \$5,000	114	118
\$5,000 - \$25,000	558	371
\$25,000 - \$100,000	296	185
\$100,000 - \$1,000,000	102	62
\$1,000,000 and Over	2	3

But if the figures indicate that life can be tough among firms of fairly small size, it does not follow that competition is not a factor among the giants at the top. A study of big enterprise in the competitive system, by the Brookings Institution, compares membership in the top largest corporations in 1909, 1929, 1935 and 1948.

Of the 100 firms on the list in 1909, 47 had lost their place to other firms 10 years later. Between 1919 and 1929, 16 more of the original list fell out, and 14 of those appearing for the first time in 1919. Three of the 1909 list made a comeback. By 1935, 17 of the 1929 list lost out, to be replaced by 11 new ones and six comebacks from previous years. The 1948 story showed still further change: 22 corporations on the previous list were missing, replaced by 20 new names and two comebacks. From these figures, Brookings concludes that "the top is a slippery place."

Closing Argument

Our boys are at it again — our boys in Congress that is — who are arguing over when school will be out on Capitol Hill. Majority Leader William F. Knowland still thinks they can close shop by July 31st. Minority Leader Lyndon B. Johnson says it will be August 15th — at the earliest.

We sort of hope Senator Johnson is right. We suspect that the sooner they knock off the more it will cost us — in appropriations that are rushed through. But then, we don't have to go out and get elected this fall.

The Nation's Press

JUSTIFYING ROBBERY
(Christian Economics.)
By W. J. BROWN
Former Secretary of the Civil Service Clerical Association, England

Even those men and women who come to reject the Christian teaching cannot wholly deliver themselves from its influence. It permeated their education in childhood; it has largely shaped the moral standards of the age; it permeates the national life in a hundred ways. It may, indeed, be that today we are living morally on our capital, and that we are failing to replenish it. But the moral capital on which we live is Christian capital. And one of the Christian commands is — "Thou shalt not steal!"

Now as Dean Inge once wrote — "Politics is the art of stealing the property of one's political opponents and distributing it amongst one's political supporters." This is specifically true of socialist politics. These involve (a) the keeping of taxation at confiscatory or "stealing" levels to provide the benefits of the welfare state, and (b) the actual stealing of the property of the minority by means of nationalization.

In order to carry through a program of theft it is necessary to condition the people into accepting, and even demanding, acts which the conscience of unconditioned people would know to be wrong. From a thousand platforms all over Britain every Sunday night the process of conditioning goes on.

In order to justify the processes of robbery, it was necessary to discredit property and property-owners. So the better-off were depicted as "the idle rich," "the privileged classes," and "even other hate-laden names. So far has this propaganda been carried that we have reached a state where, if you make a profit, you are plainly a "profiteer," while if you don't, it only shows you how inefficient private enterprise is anyway! The attack has gone far beyond an attack on inherited wealth. And indeed there is no special need to attack that, for death duties rapidly break up any considerable inherited wealth.

The attack is on wealth, on profits, as such. They are represented as being inherently immoral. Wealth is depicted as being the cause of the poverty of the poor. This fact colors our whole political life. It makes it politically impossible to effect any substantial reductions in taxation levels. It makes it difficult to effect any reduction in the waste and extravagance of the Welfare State. There has been made morally respectable, and even praise-worthy, the death duties and bridges deteriorate and buildings decay, since machinery wears out and plants continually need renovation or replacement, the setting aside of part of the wealth currently produced is necessary to the continued functioning of our, or any, social system. The necessity is the same whether the form of society be capitalist, communist, socialist, or a mixture of all three. The seed corn must be subtracted from this year's consumption; there is to be no harvest next year.

Relatively to the industrial system of certain other countries, which compete with us in the world's markets, our system is, in fact running down. The Americans, the Germans and the Japanese are all investing in industry a greater proportion of their national wealth production than we are. For every one horse-power the British workman has behind him, the American has two-and-a-half.

Generally speaking the nationalized industries show no profit. If they are to be kept up-to-date the money must come either out of general taxation or out of increased charges. Either or both add to the burden on the private sector of industry and make it more difficult for us to compete in the markets of the world. The penal levels of taxation discourage saving, restrain enterprise, and weaken incentives to produce. We are spending on the maintenance of our machinery of today what should be set aside for meeting the still greater needs of the morrow.

But the propaganda of fifty years has the making of profits a moral wrong. Not until this "climate of opinion" is radically changed will there be any hope of recovery and real prosperity for Britain.

PERSPECTIVE ON AGE
(The Wall Street Journal)
The New York special sessions court decided recently that it doesn't matter how old a lady is. The case had to do with three different auto license applications signed by a lady car-owner. One application listed the lady's year of birth as 1914, another as 1915 and the third as 1918. So the lady was hauled in on a charge that she had falsified her age.

The Boys Who Made Good

They Chug Right Along... Roads Of Australia Cluttered With Ancient US Automobiles

BY HENRY McLEMORE
SYDNEY, AUSTRALIA — If Jack Benny ever needs a replacement for his old Maxwell, then Australia is the place for him to come.

Patriots who make a study of the ways to fight Communism have reason to feel pretty discouraged. When our government decides to take up this work, those who have thrown their hearts and their minds into this cause never get any of the jobs. W. Bradley Connors, who was top policy man for the United States Information Agency (with an annual budget of hundreds million dollars) admitted, under oath, that he was NOT an authority on the Communist movement, that he had read NONE of the works of Marx, Lenin, Engels, or Stalin, and that he had NEVER studied the history of the Communist movement. Now I ask you! Why was he given the job?

The Doctor Says

By EDWIN J. JORDAN, M. D.

No one who has not gone through the harrowing experience of polio in a child of their own can fully realize the mental anguish which is involved. Nevertheless, the blind fear which afflicts so many parents should be avoided as it is utterly useless.

Another bright side to the picture is that only half of those in whom the diagnosis can be made suffer any permanent paralysis, and even in many of those who do, the paralysis is of a minor nature, and recovery can go a long way. What then can be done to prevent it? Gamma globulin and vaccination have been discussed in another column. Polio is now known to be caused by a virus, of which there are three principal varieties or strains.

Fair Enough... Pegler Should Have Kept His Trap Shut About O'Rourke Gal

By WESTBROOK PEGLER (Copyright, 1954, King Features Syndicate, Inc.)
NEW YORK — The next time E. V. Durling wants to learn some quaint and trivial item of nostalgic nonsense he can spit on his hands and make his mistakes. He made a big one this morning when he ran a column, recently published in the New York Times, which had tripped the light fantastic on the sidewalks of New York and I up to him and says there certainly was and she the wife of Diamond Dan O'Rourke, who ran the saloon at Pearl and Park Row which still bears his name in gold block letters and that, moreover, I personally, danced with Mrs. O'Rourke at a racket at Tammany Hall about 1920, as so help me I did.

The American Way

By Willis E. Stone
TIME FOR ACTION
In 1952, when it appeared that there was an opportunity for change and candidates spoke convincingly of a return to basic constitutional principles, the greatest vote in history was recorded.

The change our people expected has not materialized. It is true that American has scored a few minor victories, such as the sale of the federally owned barge lines, but it is equally true that some of the wildest and most reckless socialist schemes have made tremendous advances.

These grim truths are forcing more and more people to the unpleasant realization that we can not depend on politicians and bureaucrats to diminish their power or deprive themselves of the enormous salaries. If the evil practices of socialism and communism are to be outlawed, and the traditional concept of Americanism re-established, we must do the job ourselves.

This year we have a powerful weapon which is perfectly adapted to the task. It is the "Proposed 23rd Amendment," supported by the resolutions of more than 6,000 organizations, approved by the Illinois Legislature, and now pending in Congress as H. J. Res. 123. It provides that:

The Government of the United States shall not engage in any business, professional, commercial, financial or industrial enterprise except as specified in the Constitution.

This proposal offers us the best chance we ever had to find out whom our candidates stand in the cold war between Americanism and socialism.

Everyone of us should take a very active part in the campaign this year. Each of us, either as individuals, or through our organizations, can require each candidate for state or federal offices to disclose his position on this basic question of public policy.

BID FOR A SMILE

A man walked into a pool parlor and said: "Man — I will give a dollar to the latest man who..."

The hag fish, a primitive set-shaped marine animal, is said to have the ability to secrete slime in such degree that a couple put in a bucketful of water are capable of gelatinizing all the water with their mucous-like secretion.

TV STAGE RADIO RECORDS PEOPLE

The worm has you-know-what. Robert Q. Lewis, the perennial replacement will be pinch-hit for when he takes off for Europe in June. And not one, but two pinch-hitters. Clifton Fadiman will take over the MC's chair on 'The Name's the Same' (ABC-TV) and Jack Paar will set in on Lewis' afternoon show on CBS-TV.

Even saying "thank you" if you do it often enough causes wear and tear on the larynx. Carol Haney, the sudden star of 'The Pajama Game,' lost her voice, partly from the strain of all the excitement and partly from saying thanks to all the people who told her how wonderful she was. Producer George Abbott whisked her away for a few days' complete rest, and she canceled the dozens of interviews that were scheduled for her, including ours. She missed no shows, but kept silent off stage.

Come back, little vocal chords. Peter Arnell is now equipped to deliver a lecture entitled 'What People Hide in Their Affairs,' and 'Wonder Why?' The research for this opus is conducted daily through the mail he gets as producer of 'I'll Buy That' (CBS-TV), a panel show built around identifying odd objects listeners send in.

Alan (Col. Humphrey Flack) Mowbray says the Russians have a TV program called the 'U.S. Steal Hour.'

Ah, June! The month of weddings will have its effect on television, too. Two more husband-and-wife shows will hit the airwaves. Mike Wallace and Buff Cobb and Peter Lind Hayes and Mary Healy are the couple of couples who'll start on CBS-Radio the Wallace for 15 minutes, the Hayes for 20.

FOR A GIANT - This king-size ring probably fitted the legendary Paul Bunyan well, but it looks like more of a millstone around the neck of Millie McKirdy, of St. Paul, Minn. The ring is part of the Bunyan exhibit at the University of Minnesota.

There's Claustrophobia On Pennsylvania Ave.

By DOUGLAS LARSEN NEA Staff Correspondent WASHINGTON - (NEA) - Mr. President Eisenhower and his staff suffer from claustrophobia, there's good reason for it.

This malady as an occupational hazard at 1600 Pennsylvania Avenue is revealed by a new Administration economy program. General Services Administration, Uncle Sam's housekeeping agency, is out to save on federal office space by reducing each employee to an average of 100 square feet of working space. The present average is 112 square feet.

However, White House architects estimate the employees in both the east and west office wings of the mansion actually have less room than that minimum goal.

The 100 square feet goal is for clerks and messengers. When the President's working space is compared to the sumptuous, spacious suites and banks of rooms occupied by most cabinet members and their staffs, Ike and his aides would seem to be working in a telephone booth.

Out of the 240 persons on the White House payroll, only 150 can have desks in offices on the east and west office wings of the department building.

The big cause of the crowding in the executive offices is the people swarming there on business, in addition to those actually at desks.

ONE SMALL SAMPLE of crowded conditions in the White House offices is the press room, shown here on a normal working day.

Scores of Congressmen, government officials, politicians, visiting dignitaries, diplomats, and newsmen clutter up the place every minute of the working day.

A report of the commission which supervised the recent renovation of the main White House took this special note of the situation: 'The direct office facilities of the Chief Executive are not only insufficient but the whole arrangement of scattered offices and personnel is inconsistent with efficient and well coordinated management. Space for important uses such as conference rooms, filing of confidential and important letters and documents, cabinet meetings, press conferences, and the like, is entirely inadequate.'

Any visitor to the White House offices can see this first-hand. A secretary in one of the outer offices has to hang a sign on the back of her chair which says, 'This seat is occupied.'

Otherwise some one of the milling crowd would take it the moment she stood up. File cabinets along one main corridor of the West Wing force persons to turn sideways when they pass. An additional teletype machine which was needed recently had to be installed in a lavatory.

The Cabinet meets exactly 20 feet from the desk of Press Secretary Jim Hagerty. The office of

Appointment Secretary Thomas E. Stephens is like Grand Central Station, filled with persons waiting to see Ike. It's not a private office at all, but a waiting room.

Ike's private secretary, Mrs. Ann Whitman, works in a corridor. The assistant to every cabinet member has a large adjoining office to that of his boss. Not so Assistant to the President Sherman Adams. He's stuck off in one corner of the West Wing and has to walk through a corridor and another office to get to the President.

If it's raining, a group picture with the President in it can't be taken. There's not enough room inside. They've got to be taken out

on the lawn. The President can't even get together with more than about 50 persons in a White House office.

Even the brand new TV room under the mansion itself is so small only a very limited number can be present when the President makes a talk.

When some assistant from the East Wing is summoned to the President's office in a hurry, like Jack Martin who works on legislative matters, he has to hope a little less than a city block to get there.

No such space limitations bother members of the Cabinet. Defense Secretary Charles Wilson has a private dining room in the Pentagon adjoining his office, which is

just about the size of the President's Secretary of Interior Douglas McKay has huge radio studios and an auditorium at his disposal, plus lavish offices.

While House aides maintain an official silence on the obvious need for more room. They don't want to ask for more money than is absolutely essential. And they realize from previous attempts by President Truman to get more office space that it's virtually hopeless.

The West Wing was built in 1902 under considerable protest from many persons who charged that it marred the beauty of the man-East Wing built soon after Pearl Harbor.

All attempts since then to add more office space on the White House grounds have been quickly stopped by the U.S. Fine Arts Commission, which has authority to approve or disapprove all changes to the White House and grounds.

The pat answer from Commission members: There's plenty of room in the old State Department building.

WEST AND EAST WINGS of the White House (from left to right) are almost a city block apart. Despite overcrowding, U. S. Fine Arts Commission won't allow building of more office space.

Two Posts Contested In Ochiltree

PERRYTON, (Special) - Ochiltree county voters have only two contested offices for voting on in the Democratic Primary to be held July 24 so far in the filing of the offices. The only two contested offices are for sheriff, tax assessor, and collector and county commissioner, Precinct No. 1. The county judge office had two candidates until last week when Hood Willis withdrew.

Candidates for office are: county treasurer - Mrs. Lillian Warren; sheriff, tax assessor and collector - Ray Phagan, incumbent; and Wayne Gyger; county judge - H. R. Slaughter; county-district clerk - Mrs. Sue Hagan; county commissioner, Precinct No. 1 - Ivan Day, incumbent, and Allen Wagner; county commissioner, Precinct No. 2 - Herman Hargrove; county commissioner, Precinct No. 3 - John King; county commissioner, Precinct No. 4 - George Yates; and county attorney - Jack M. Allen. All of the candidates who are the only ones who have filed for that office are the ones who are presently holding the office.

Hall Blamed Benzadrine For Downfall

WASHINGTON, June 3 - UP - The Food and Drug Administration obtained a secret "death cell" statement from Carl Austin Hall that he used benzadrine to stimulate himself during a Food and Drug six-year-old Bobby Greenlease last year. It was disclosed Wednesday.

Hall and Mrs. Bonnie Heady were expected last December for the \$600,000 Kansas City, Mo., kidnapping.

George P. Larrick, deputy food and drug commissioner, told of the Hall drug "confession" in secret testimony March 24 before a House appropriations subcommittee. The testimony was made public Wednesday.

The agency, in other material on the Greenlease case prepared for the subcommittee, stated that Hall admitted to a Food and Drug official that "he believed he would not have committed the crime if he had not been under the influence of the drug."

Benzadrine is a drug, sold only on a doctor's prescription, and used in cases of depressive neurosis, certain respiratory troubles and in other cases where a stimulant is needed. A Food and Drug spokesman said it also is used by criminals to "nurse them" and make them "very alert and sharp."

Larrick cited the case to illustrate the need for a nationwide crackdown on the illegal sale of barbiturates, benzadrine, sulfonamides, sex hormones and other similar drugs.

Hall, in his death cell statement, told how he bought benzadrine without a prescription in Omaha, St. Louis and Kansas City.

DUNNO WHY I SHOULD WASTE MY TIME TALKIN' TO A BIRD, AN' A MYTHOLOGICAL BEAST AT THAT. WHO EVER HEARD OF A JAY-HAWK RAISED BY INDIANS?

I GOT THE FEATHERS TO PROVE IT.

THING I LIKED 'BOUT THE SWAMP UP 'TOWN WAS THE ABSENCE OF JAWBREAKERS.

WE HAD A PLAGUE OF ALLIGATORS 'ROUND TOPEKA ONCE.

PLAGUE? HAWP! PROBABLY TWO SALL-MANDERS AN' A HOPPY TOAD...

WAWP... MILLIONS OF ALLIGATORS, ONLY OLD PAT DEVLIN PIPED 'EM OUT.

WITH A TONGUE LIKE THE PIPED PIPER?

HAWP... ALLIGATORS BE TONGUE DEAR SO PAT PIPED 'EM OUT THRU THE NATURAL GAS PIPE LINE... FOLKS IN OMAHA THOT THEY WAS ELEPHANTS, PUT BUCKLES ON 'EM AN' STARTED THE TRUNK INDUSTRY.

The Jackson Twins

HERE COMES JILL AND JANE. JANE!

EVERYBODY IN THE PLACE IS WATCHING 'EM.

DON'T BE SILLY! WHEELS ARE LAMB BEING LED TO THE SLAUGHTER!

YUH HARMLESS LIKE AN ANGEL'S MILKSHAKE!

LATER I'VE JUST GOT TO DANCE WITH HIM, BUT JILL KEEPS STEERING HIM AWAY FROM ME.

I'LL HAVE TO SWITCH IF I GET A CHANCE!

WE CAN'T FIND THE CROWNS FOR THE RING AND QUEEN, PEGGY.

JILL JACKSON WAS WORKING ON THEM IN THE ART ROOM YESTERDAY. I'LL SEND 'ER UP AFTER THEM?

SINCE YOU AND I HAVE BEEN THROUGH SO MANY ADVENTURES TOGETHER, WE'D BETTER HAVE LUNCH AND REMINISCENCE.

MRS. OLSON! MRS. LEYTON OLSON.

I AM MRS. OLSON.

MAMA, THE NURSE WANTED YOU TO KNOW THAT SHE HAS TAKEN YOUR SON TO THE CHILDREN'S MOVIE ON THE NEZZANING.

OH, DEAR, I HAVEN'T ANY CHANGE—MR. NETHERLAND COULD YOU—

WHY, WHERE IS MR. NETHERLAND?

IF YOU'LL EXCUSE ME, MAMA, THAT WORD MRS. OLSON CAUSES SUDDEN MYSTERIOUS DISAPPEARANCES AROUND THIS HOTEL...

Blondie

BUMSTEAL! YOU'RE FIRED!

OKAY—IF YOU FEEL THAT WAY ABOUT IT I'LL CLEAN OUT MY DESK AND GO!

WOW! LOOK AT THE PROCESSION COMING DOWN THE STREET!

Little Doc

WELL, ONLY FOR A MOMENT, KIDS. MR. PATANEY IS TRYING DESPERATELY TO MEET A DEADLINE WITH HIS STRIP "GIDDY MEWADLE!"

NEVER HEARD OF IT!

DADDY, IF YOU DREAM ONE OF YOUR CHARACTERS FOR 'EM—

LENNIE SEE YOU DREAM BUGS BUNNY!

YEAH, AN' ALLEY OOP!

NOW LOOK—IT'S CAN DO TO DRAW IN OWN CHARACTERS!

FATS WARD CAN DRAW ANYTHING WITHOUT ALL THAT PENCIL SCRIBBLIN' FIRST!

WOT OTHER OTHER DO YOU DRAW, MISTER?

PLEASE...YOU MUST GO NOW! YOURS GETTING DADDY UPSET!

Jazz Cayway

JUST CHECKING, SWENEY. WHAT SORT OF PERSON IS HERMAN PINKIE?

AW, HE'S A SOREHEAD SIR. ALWAYS GRIPING. NOTHING SUITS HIM. DOESN'T LIKE THE NAVY OR ANYTHING ABOUT IT.

WHAT FOREIGN LANGUAGE DOES HE SPEAK?

NONE THAT I KNOW OP. BUT I'VE HAD MY EYE ON THAT GUY A LONG TIME. I DON'T TRUST 'IM, SIR.

KNOW WHY HE WAS CALLED UPON TO REPAIR AN OFFICER'S RADIO YESTERDAY?

YESTERDAY? WHY, THAT BUM—HE WAS SUPPOSED TO BE SICK YESTERDAY. BESIDES, HE'S A RECK. HE DOESN'T KNOW A RADIO FROM A WHEELBARROW.

Wash Tubbs

ROD! DORY!

CORA AND THE PROFESSOR HAVE JUST PUT PUG ON A BUS!

SHE SHOULD BE IN BY THE TIME WE GET DOWNTOWN!

AT THIS VERY MINUTE SOMEONE ELSE IS LEAVING FOR THE BUS STATION, TOO!

Nomination To War Ace

PIERRE, S. D., June 3—UP—Joe Foss, World War II ace who shot down 28 enemy planes, will probably be the next governor of South Dakota.

The former Marine won the Republican nomination for governor by a landslide Tuesday over two opponents. In South Dakota a GOP nomination almost always means election in the fall.

Returns from 1,000 of the state's 1,982 precincts gave Foss 52,181 votes, more than twice the 23,736 won by his nearest competitor, Lt. Gov. Rex Terry, Attorney Harold O. Lind trailed with 20,106.

The victory culminated a long political battle for the 39-year-old rancher, who won the Congressional Medal of Honor for his war exploits.

Foss tried for the gubernatorial nomination in 1950, losing by only a handful of votes to the present governor, Sigurd Anderson.

He promised he will not be tied to "any special interest" and will "let the chips fall where they may" if he wins the November election.

His opponent then will be Ed C. Martin, a 62-year-old rancher-farmer who won an upset over banker E. F. McKellits in the Democratic primary.

Cadet Sgt. Herbert E. Williams, 23, 1423 Washita, Canadian, is among first classmen (seniors) at the United States Military Academy, West Point, N. Y., who will be graduated June 3. Upon graduation he will receive a bachelor of science degree and will be commissioned a second lieutenant in artillery. While at West Point, Cadet Williams has been active in the Chess club. Before entering the academy, Cadet Williams was graduated from Canadian High school and attended West Texas State college. He was appointed to West Point by Rep. Walter Rogers.

Oppressed People Risk Necks To Joke About Red Masters

By HARMAN W. NICHOLS WASHINGTON, June 3—UP—At a risk of getting their necks in a noose, some of the oppressed behind the iron curtain tell wry jokes on their Red masters. Here are some scraps of humor by the folks who wish they could get a breath of free air:

A Polish Jew asked his rabbi: "Really, is it possible to build socialism in a country?" "Yes," the rabbi answered, "but you have to live in another one."

A manager of a food shop in Budapest got so weary of telling his customers he didn't have what they wanted that he trained his parrot to say: "So sorry, we don't have any—we'll have some soon."

The idea worked until a customer walked in and gave the parrot a greeting "azabadas." That means freedom. The parrot said: "We don't have any—we'll have some, soon."

"We will," the officer said, "pack 20 atom bombs in 20 leather suitcases and pass them all over America."

The peasant nodded and sniffed. The Russian officer got his dander up and asked if the peasant didn't believe the Russians had 20 A-bombs.

"Sure," he said, "but where are they going to find 20 leather suitcases?"

A Red agent in disguise was trying to find out what the people really thought of the Red regime. Finally he came upon a laborer who had nothing but praise for the power at the head.

"People can say what they like about our leaders," the poor peasant said. "But I love to work for the Communists."

Said the Red agent: "Fine, and what do you do for a living?"

"Grave-digger," the laborer answered.

The Red-humor rumor has it that a traveler visiting the head of a Red satellite country looked around the office and finally said in amazement, "what kind of telephone is that on your desk? There is a receiver, but no speaker."

"Direct line to Moscow," was the reply.

Elections for councils held throughout Czechoslovakia gave rise to a joke among anti-Communist workers. It seems that one voter was led to the polls and handed an envelope, which was to be deposited in the ballot box. The voter opened the envelope.

"Hey, stop that," said the supervisor.

"Well," said the worker, "I just

wanted to know who I am voting for."

"Stupid fool," said the supervisor, "don't you know that the ballot is secret?"

Kidnaper Gets Death

SAN FRANCISCO, June 3—UP—Kidnaper Harold Jackson was sentenced to death Wednesday and co-defendant Joseph Lear received life imprisonment for the abduction of realtor Leonard Moskowitz.

Superior Judge Twain Michelsen, prior to passing sentence, rejected a defense plea for a new trial. Jackson and Lear were found guilty under California's Little Lindbergh act of abducting Moskowitz and holding him for \$300,000 ransom.

The jury verdict carried the automatic death sentence for both men. However, Judge Michelsen ruled that the jury's ruling was not mandatory and reduced Lear's sentence. Lear maintained he was an unwilling participant in the abduction.

Great Britain In Film Biz

LONDON, June 3—UP—The government found itself in the movie business Wednesday with a stable full of stars including Moira Shearer, Sir Ralph Richardson and Claire Bloom.

The government-owned National film Finance Corporation forced Tuesday on an \$8.4 million loan to British Lion Films, the nation's third largest movie company.

David Kingsley, head of the finance corporation, said Tuesday night "a very substantial part" of the money "will be irrecoverable."

Indications were that the government would form a production company and put itself into the movie business directly for the first time.

The Film Finance corporation was formed by the labor government in 1948 to keep the struggling movie industry on its feet.

The firm turned out such critical and popular successes as "The Third Man," "Tales of Hoffman" and "Breaking Through the Sound Barrier." But it also turned out a number of expensive and profitless films.

The seemingly heavy, unwieldy bill of the hornbill bird is actually quite light. The outer walls are thin but strong and the insides are a network of delicate, bony fibers.
