

Bodies of Hanged British Soldiers Blasted to Bits

Booby Trap Placed On Dangling Body

JERUSALEM—P—The bodies of two young British sergeants kidnaped as hostages by Irgun Zvai Leumi were found hanging today from two eucalyptus trees and were blasted to bits by a booby trap when British soldiers started to cut them down.

Jewish settlement police found the bodies in a forest preserve near Natanya just 24 hours after Irgun, extremist Jewish underground organization, announced it had executed the Britons in reprisal for the hanging of three Irgunists convicted in a prison delivery.

The area was cordoned off and dogs were turned loose in an attempt to pick up the trail of the killers.

In Jerusalem, top Palestine government officials met to map a rigid campaign against underground violence. One official said plans under consideration included a demand upon the Jewish Agency to cooperate actively in stamping out underground attacks.

Writer Witnesses Booby Trap Blast Of Two Sergeants

(Editor's note: Carter L. Davidson, chief of the AP Bureau in Palestine, gives an eyewitness account here of the booby trap explosion which destroyed the bodies of two British sergeants near Natanya today, Davidson and AP Photographer James Pringle were knocked down by the explosion.)

By CARTER L. DAVIDSON
NATANYA, Palestine.—P—The blackened and bloodstained bodies of two young British sergeants were found hanging from eucalyptus trees in a forest preserve about four miles south of this seacoast resort today.

When British soldiers started to cut down the bodies, a booby trap exploded, blasting the bodies of Sgt. Clifford Martin and Mervyn Peice to bits and scattered the pieces for hundreds of yards.

The booby trap, which had been concealed behind the bodies, wounded one grenadier guard and killed two death throes and sprayed the area with a blanket of dirt and debris.

The scene of the hangings, which Irgun Leumi, "communiqué" said were carried out in military execution by the Jewish resistance to the enemies of our homeland, is an isolated eucalyptus grove in the heart of one of several government forestry reserves in the hills of Sharon, scene of many battles of Biblical times.

Pinned to the bodies were Hebrew-language inscriptions telling of the "arrest" of two men and their trial, conviction and execution in the name of the Jewish struggle for a homeland.

A stench of death permeated the whole area in the forest. The faces of the two young British soldiers, their deaths were caused by strangulation by crudely-fashioned nooses.

The blast of the booby trap recalled a warning of Irgun, the extremist Jewish underground organization, to newsmen in telephone calls yesterday not to go near the bodies.

President Truman Signs Flood Bill

WASHINGTON.—P—President Truman signed today a \$502,123,812 appropriations bill for flood control, navigation and other military activities of the War Department.

One of the latest measures approved by the 80th Congress before the July 26 recess, it carries \$298,324,825 for flood control construction and maintenance, plus \$118,718,700 for navigation improvements and maintenance during the year ending next June 30.

Other items are \$30,576,000 for the Panama Canal, \$64,190,387 for material expenses, \$1,800,000 for the Alaska communications system, and \$500,000 for alteration of bridges over navigable waters under the jurisdiction of the Army Engineers.

While the total is \$502,123,812, the bill also provides for \$237,000,000 to begin a 10-year program to control floods, develop hydroelectric power and otherwise utilize the country's water resources.

The bill carries funds to continue or start water projects in most of the country's river basins. Some involve hydroelectric development as well as flood control, navigation and related works.

July Weather 'Normal' Most Areas—Not Here

July weather for the nation was approximately normal on both coasts, but for the country's mid-section it began with a chill and ended with a much needed heat wave.

At three to four day odd snap in mid-July broke records for low temperatures in several sections and resulted in many total July readings averaging considerably below normal.

In contrast, a blast of hot air enveloped most of the nation near the end of the month and kept campers as well as temperatures simmering.

Texas temperatures for the month were nearly normal except in the Panhandle and North Texas, where hot, wet weather early in the month started mauling. Other sections, however, reported instances of readings above 110.

Jaycee Dunkin' Party Set Tomorrow

A bit of warning to local citizens, issued by the Pampa Junior Chamber of Commerce, was handed to the News this morning. It went something like this:

"For those who get up before 7:30 in the morning, and for those who will be getting out of their houses tomorrow, or any day throughout Top of Texas and Western Week had better be rigged in Western duds, because tomorrow morning at 7:30 the Jaycee dunkin' party begins."

"Throughout the nine days of the Western Week that begins tomorrow, a dunkin' pond will be available for those who do not abide by Mayor C. A. Huff's proclamation making August 1-9 Top of Texas and Western Week. A traveling jail has been procured by the Jaycees to hold the guilty ones until the time they can be brought before "Prisoner" Judge Clifford Brady."

Festivities will begin tomorrow night with the first showing of "Korn's-A-Krackin'" at 8 o'clock at the Senior High School Auditorium. The Mutual Broadcasting System's featured Saturday night show will present two performances Saturday that will be climaxed by a broadcast direct from the stage of the auditorium, that will be heard throughout the nation through the facilities of over 400 Mutual stations.

Immediately following each evening's performances of "Korn-A-Krackin'" the Jaycees will sponsor a street dance that will be held on West Kingsmill Street, between the City Hall and the Court House. Music for the Friday night dance will be furnished by the Basin Street Boys. This five piece musical aggregation will come to Pampa direct from downtown. Through the cooperation of the Terrace Grill, the Blue Bonnet Inn, Sie's Old Barn and the Belvedere Club, four of the city's outstanding modern and Western bands have been obtained for the Saturday night dance. These bands are Pinky Powell and His Orchestra, the Lone Star Boys, Bill Ridgeway and

Greece Considering Bringing Charges Against Red Satellites

LAKE SUCCESS.—P—The Greek government was reported by informed sources today to be considering the possibility of bringing charges against Russia's Balkan satellites under the most drastic provisions of the United Nations Charter.

The Greek delegation to the United Nations would not discuss this morning ended in the capture of an Oklahoma man who was earlier reported attempting a criminal assault on a local mother of two children.

The young woman telephoned Kyle shortly after 1 a. m. that the man had broken into her cabin in the New Town Courts, pulled her out of bed and attempted to assault her. She related that he had twisted her arm and forced her into a chair, at the same time threatening her.

Kyle, looking around the scene of the attempted attack later, found a long piece of wire lying beside the small porch. This crude piece is believed to have been used by the man to unlatch the screen door. It was said that the man had used the wire to do the job, Kyle said. For an hour and a half the sheriff searched the surrounding area through bushes, fields and along the railroad tracks. Finally he traced his quarry to a local hotel room where he found the man in bed about 2 a. m. and awake.

The woman told Kyle that he had forced her into a chair and then threatened her life if she would bend to his will. She broke loose and went to a nearby phone where she put in the call. When she returned her attacker was gone—so was a small radio she had in the parlor.

The assailant denied all of the charges to Kyle even after he was identified by the woman. He was interviewed over a radio station KFDN on the R. Virgil Mott program this afternoon at 5, it was announced today.

Lee, who will compete in the national finals at Akron, Ohio, August 17, will answer questions pertaining to the time he spent in building his car, and to things he learned in making the car, which was the winner over 29 others in the race here July 20.

Champ McKinney is the son of Mr. and Mrs. S. B. McKinney, 1224 North Russell St.

(Four pages of Coronet magazine, for August, are devoted to description of the All-American Soap Box Derby, relates how the national race at Akron is run. It also discusses the origin of the Derby, at Dayton, Ohio, in 1933. The magazine is now on the newsstands.)

Derby Champion To Be on Radio

City Soap Box Derby Champion of 1947, Lee McKinney, will be interviewed over radio station KFDN on the R. Virgil Mott program this afternoon at 5, it was announced today.

Lee, who will compete in the national finals at Akron, Ohio, August 17, will answer questions pertaining to the time he spent in building his car, and to things he learned in making the car, which was the winner over 29 others in the race here July 20.

Champ McKinney is the son of Mr. and Mrs. S. B. McKinney, 1224 North Russell St.

(Four pages of Coronet magazine, for August, are devoted to description of the All-American Soap Box Derby, relates how the national race at Akron is run. It also discusses the origin of the Derby, at Dayton, Ohio, in 1933. The magazine is now on the newsstands.)

Rooms Still Needed For Rodeo Visitors

Rooms for guests of this year's rodeo are not being offered in sufficient quantities to take care of the demand for rooms that is anticipated to come from the influx of visitors expected for the third annual Top of Texas Rodeo and Horse Show, members of the Business and Professional Women's Club in charge of the housing program announced this morning.

Club officials urged those local citizens that will have rooms available during the four-day rodeo to call the Chamber of Commerce office, phone 383, to list their openings.

The rooms are not to be donated, the officials stated. A fair rental price should be charged, they concluded.

Ohio GOPsters Support Taft

COLUMBUS, O.—P—The Ohio Republican State Committee today unanimously pledged its support to Sen. Robert A. Taft (R-Ohio) for the Republican Presidential nomination in 1948.

Taft in a statement to reporters thanked the committee for its compliment and said he would make a definite reply early in October after he has had an opportunity to sound out public sentiment in the country on his chances.

The committee called upon Rep. Clarence J. Brown, national committeeman, and Mrs. Katharine Kennedy Brown, national committeewoman, to "take all steps necessary and helpful to bring to the attention of the Republicans of other states, Senator Taft's unusual qualifications and availability for the presidency."

This is the third time Ohio Republicans have endorsed Taft for the Presidential nomination. The first time was in 1936 when he had a contest in the primary with the late Sen. Borah of Idaho. The second time was in 1940.

Before the State Central Committee meeting, Taft told reporters he wanted to be certain "there's a good chance to win" before he decided definitely to run for the 1948 nomination.

During the news conference, Taft termed the Congress session just closed "a great success" and said Republicans should take all possible advantage of its record by speaking out on it to the people.

Taft will speak on the accomplishments of the Republican-controlled Congress at a rally tonight and will discuss that record on a speaking trip in the West in September. He was expected to give his decision on whether he will run at the conclusion of that trip.

Senator Taft had the right of way today from his junior colleague, Sen. John W. Bricker, 1944 vice-presidential nominee, to seek the Republican nomination.

Bricker officially stepped out of Taft's path on the eve of a mammoth Ohio GOP rally that state political observers were certain would launch a Taft-for-President campaign on a "favorite son" basis.

The man who campaigned with New York Governor Thomas E. Dewey against the late Franklin D. Roosevelt and Harry S. Truman three years ago, stated definitely he was not running for anything in 1948.

Top of Texas Rodeo Queen to Be Chosen On Program Tomorrow

Queen of the Top of Texas Rodeo and Horse Show, will be selected tomorrow from Hollywood over the Mutual Broadcasting System's program, "Queen for a Day."

"Queen for a Day" is the Mutual Broadcasting System's most popular week-day show. It is a half hour program filled with laughs, puns and prizes, emceed by Jack Bailey. And from each broadcast some lucky lady is chosen to reign over the Mutual domain.

In this instance, the queen will spend 24 forgettable hours when all her dreams come true in Hollywood. She will then be flown to Pampa to lead the parade that will officially open the second largest amateur rodeo in the U. S.

The Queen will reign over the Top of Texas Rodeo and Horse Show throughout the celebration, August 6-9.

Ken Bennett Returns As Resident Here

Ken Bennett, who recently accepted a position with a Tyler, Texas, radio station, has returned to make his residence here at Pampa. He is being associated with the Pampa Daily News, and will work both in advertising and editorial departments.

Bennett, who served with the Army in France and Germany, was formerly associated with the Holles organization, having worked with Radio Station KFDN prior to and following his service with the armed forces.

He and his wife are residing at the Adams Hotel for the time being. They are seeking an apartment or a furnished house, it was said.

Judge Dooley Will Take Oath of Office

Judge Joe B. Dooley, of Amarillo, will take the oath of office as federal judge of the Northern District of Texas in ceremonies at the Federal District Court at Amarillo at 11 a. m. Saturday, it was learned today from a lawyer friend of his here.

Judge Dooley was the center of a protracted controversy during the hearing at Washington relative to his nomination to that post. His appointment was opposed by Texas' junior senator, W. Lee O'Daniel, on the ground that he was "personally objectionable" to the Senator.

Publicity Man Will Testify Tomorrow

WASHINGTON.—P—Howard Hughes and his globe-trotting publicity man, John Meyer, will take the stand side by side tomorrow in the Senatorial investigation of Hughes' wartime contracts.

Senator Ferguson (R-Mich.) announced today that arrangements have been made for the joint appearance of the Hollywood millionaire and the man who said he spent lavish sums to entertain government officials in Hughes' behalf.

Ferguson's announcement was made after a session in which the Senate War Investigating Committee heard testimony that to military leaders turned down a mass flying boat program in July, 1942, yet contracts for three boats were made later with Hughes and Henry J. Kaiser.

Undersecretary of State Robert A. Lovett testified that the joint (Army-Navy) Chiefs of Staff declared in July of that year that the diversion of materials to such a program would be "inadmissible" because everything was needed for fighting planes.

Kaiser had urged a program to build 500 huge cargo planes. The former defensive plant corporation officials who were assigned to the Hughes cargo plane project in California followed Lovett on the stand.

High points of their testimony: 1. J. H. Roper, who was principal engineer for DPC, said Hughes contract "was the only project where there was any departure" from regular DPC procedure. He said the agency had "no responsibility" for design or whether "the materials were proper" or for the cost.

2. M. Robert Edwards, former DPC supervising engineer, said he went to the Hughes plant in 1943 after he had been there only a few days knew that the three flying boats could not be built for the contract of \$18,000,000.

(The contract was later cut to one ship and the committee has received testimony that some \$20,000,000 has been spent on it.) Hughes' appearance was arranged by Ferguson after the Michigan Senator was assured by Thomas Slick, attorney for Hughes, that Meyer would be available for testimony tomorrow.

The publicity man already has testified behind closed doors that he spent large sums to entertain his clients.

144 Girl Scouts Attend Camp of Panhandle Area

One hundred forty-four girls, representing eighteen communities of the Panhandle Girl Scout Area, have enjoyed two weeks of camping at Camp Ki-O-Wah, the Boy Scout Camp site for the Adobe Walls Council. This is the second year the Area has sponsored a camp for the Girl Scouts.

Ten girls remained for the second week, along with the sixty new ones who arrived last Sunday. Twenty-four leaders made up the Staff which included Misses Marie Stepha, Ann McNamara, and Atha Belle Stewart of Pampa.

During the two-week stay the girls had many visitors among whom were Hugo Olsen, Boy Scout executive for the Adobe Walls Council, of Pampa; Carl Snow, chairman of the Camp Committee of the Panhandle Girl Scout Area; of Borger; and Misses Patricia Douglas, community adviser on the National Girl Scout Staff; the Canadian Chamber of Commerce took ice cream and cookies to the girls each Friday and several parents made visits.

Badge activities were used as the basis for the camp program which included swimming and canoeing in Lake Marvin, camp crafts, nature study, hiking, nature lore, folk dancing, singing, campfires, color ceremonies, dramatics, stargazing, photography, cook-outs, and parties.

Attending from Canadian were Mary Kay, Barbara and Janet; Raymond, Pampano were Lou Ann Brooks, Donna Conley, Jan Dickey, Janell Ewing, Marilyn Fitzgerald, Patricia Fay Franklin, Betty Osborne, Billie Mae Osborn, Elizabeth Ann Parland, Wynne Prewitt, Betty Jo Tooley, Llwlynn Young, Carol Lee McCune, Adelaide Skelly Rochelle Smith, and Adelaide Williams.

Sun Oil Lists Price Increases

PHILADELPHIA.—P—Sun Oil Company today announced price increases in several products and said the action was taken to "protect the fuel oil supply of its customers against the added competition of those who might be tempted to convert from coal to oil on the basis of sheer economies."

The petroleum industry cannot handle at this time any sharply increased demand for fuel oils, the company said.

Increases effective immediately were 21 cents per barrel on heavy fuel oil delivered on the Atlantic seaboard, and three-tenths to one-half cent per gallon for furnace oils, kerosene and industrial distillates in New Jersey and Maryland.

In each increase, Sun cited the recent boosts in coal prices as "creating an unbalanced price situation so favorable to oil as to encourage sharply increased demand."

55 FINE ASSESSED
One man was assessed a fine of \$5 for operating a motor vehicle without an operator's license this morning, after a Corporation Court by Judge Clifford Brady.

Rep. Sam Rayburn Is En Route to Texas

WASHINGTON.—P—Sam Rayburn was on his way to Texas today in the shiny black sedan fellow Democrats in Congress gave him this year.

The House minority leader said he probably would reach Texas Saturday. He had no vacation plans, he said, except to rest and relax at his farm and ranch near Bonham.

See NEW DELAVAL MAGNETIC MILLER now on display Lavinia Hardware.

DUTCH LEADER—Lt. Gen. S. H. Spoor, above, commands Dutch forces fighting against Indonesians in the Netherlands. He declared Dutch offensive against natives is a "limited" action for police purposes only.

Rodeo Boosters to Advertise Shows On Two-Day Trip

Plans have been completed for the two-day booster trip that will advertise this year's Top of Texas Rodeo and Horse Show, August 6-9 announced P. B. Wright, chairman of the arrangements committee, this morning.

Wright urged everyone that is planning to make one of the two trips to meet in front of the Lark Theatre at 7:30 in the morning to receive advertising material for their cars and to be able to participate in the broadcasts that will originate from in front of the theatre, each morning at 7:45. The caravan will leave Pampa, each morning, immediately following the broadcast.

Jay Wiley, and his western band; Irma Francis, western song stylist; Ken Bennett, accordionist; the Top of Texas Four, a barbershop quartet; and the Top of Texas square dancers will be the entertainers that will accompany the caravan.

The entertainers will ride in a chartered bus. However, Wright stated, if there is sufficient demand for a second bus by people who do not wish to take their own automobile's a second bus will be chartered. Those desiring to make reservations on this bus are asked to call the Chamber of Commerce office by 5 o'clock this afternoon.

Borger, Saltwater, Spearman, Peyton, Canadian, and Mimi will be visited by the trippers tomorrow. They will eat lunch in Peyton.

White Deer, Panhandle, Amarillo, Claude, Clarmond, Groom, McLean, Shamrock, Wheeler, and Mobeetie will be visited Saturday. They will eat lunch in Claude the second day of the trip.

Rotarians Interview Local Derby Winner

Rotarians yesterday were told how it feels to be a local Soap Box Derby winner when Scout Executive Hugo Olsen interviewed Lee McKinney on the subject.

McKinney was presented as a part of the club's youth program.

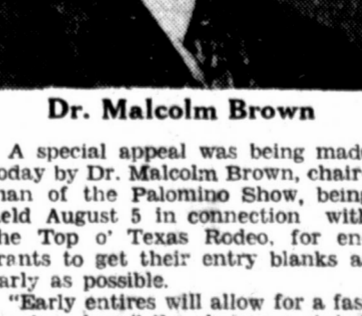

Preliminary talks on the coming Top of Texas Rodeo were given by the Rev. Douglas Carver and Quentin Williams, president of the club, had charge of the business meeting.

Palomino Show First Event of Celebration

A special appeal was being made today by Dr. Malcolm Brown, chairman of the Palomino Show, being held August 5 in connection with the Top of Texas Rodeo, for entrants to get their entry blanks as early as possible.

"Early entries will allow for a fast moving show," the chairman stated, "and that is what every participant and witness of the event will be looking for."

Judging will begin promptly at 1 p. m. Tuesday. Stalls will be open on Monday. Entries in this show need not necessarily be registered palominos, Brown stated. An entry blank for this event will be found elsewhere in this issue.

Dr. Malcolm Brown

DEWITT MACKENZIE

Britain's drastic decision to reduce its global military commitments, in a further effort to overcome the economic crisis gripping the country, is a potent reminder that the United States is the last of the great Democratic powers still capable of fully manning a war-machine—and that this can be a mighty lone voice.

This reduction of military commitments was one of the concessions Prime Minister Attlee promised the Labor members of Parliament, meeting in secret caucus yesterday in order to get the rank of labor to meet the demand for workers. This he got over one of the high hurdles.

But that wasn't his only promise. It is said that he will call on Britain's coal miners to work an extra hour daily in order to get the production which is so badly needed to stimulate badly lagging industry. Lack of coal is the crux of the economic crisis. It is suggested that

Convicted Doctor Begins His Term

HUNTSVILLE.—P—Dr. W. R. Newton, Cameron physician, began a two-year term in Huntsville State Penitentiary today for the 1942 assault on the late Dr. Roy Hunt of Littlefield.

The penitentiary holds no horrors for me," Newton said in a letter to Gov. Beauford Jester the day before he began his term.

He came to the prison alone last night, less than six hours before his special 30-day reprieve expired.

Dr. Newton has steadfastly maintained he was innocent.

In his letter to Jester, he said: "I'm reporting to the prison to pay a debt I do not owe."

The State claimed Dr. Newton assaulted Dr. Hunt on May 21, 1942. Seventeen months after the attack, Dr. Hunt and his wife were found slain in the bedroom of their Littlefield home.

Ex-convict Jean Thomas was convicted three times in their deaths and is at Liberty under \$5,000 bond. The State Court of Criminal Appeals set aside the conviction each time.

Pampan Purchases War Surplus Stock

E. M. Keller, Box 700, Pampa, was one of the successful buyers of camp buildings at War Assets Administration's first venture in disposing of surplus Texas real property through informal bidding this week at the Dalhart Army Air Field. Mr. Keller won building awards with bids totaling \$745. More than 100 buyers participated in the sale, bringing a cash recovery to the government of \$33,250.50 for approximately 90 of the field's buildings.

Booby Trap

(Continued From Page 1)

Natanya's moor, Oved Ben Ami, who had received information from the moderate underground group, Hagan, that the bodies were in the area, was on the scene when the blast occurred.

The tight-lipped and obviously fearing his resort city once again would come under military rule, he declared: "This is the most brutal crime they had done yet. All we've built, and prayed for now lies in the dust."

Military personnel in the Natanya area, hearing the circumstances in which the bodies were found, hastened to bases.

"There will be some searches," one military source said, "and the populace may be inconvenienced a bit, but no military control is planned, at least for the present."

Plane Probe

(Continued From Page 1)

many persons, including Elliott Roosevelt, son of the late president, and Secretary of Interior Krug.

Krug has denied being present at some of the parties where Meyer listed him as a guest in expense vouchers obtained by the committee from Hughes' files. The younger Roosevelt has made no statement on the case.

At the time the joint chiefs of staff objected to a big cargo plane construction program. The members were Admiral William D. Leahy, Chief of Staff to President Roosevelt; Gen. George C. Marshall, Army Chief of Staff; Admiral Ernest J. King, chief of Naval operations; Gen. Henry H. Arnold, Commanding General, Army Air Forces, and Brig. Gen. William J. Donovan, Director of the Office of Strategic Services.

Lovett gave the Committee documents setting forth their views. He read into the record a letter which Robert P. Patterson, then Undersecretary of War, wrote five years ago yesterday summarizing the position of the Joint Chiefs of Staff.

Lovett at the time was assistant secretary of war for air.

Patterson wrote the memorandum to Donald M. Nelson, then chairman of the War Production Board, which later that year gave Henry J. Kaiser, West Coast shipbuilder, and Howard Hughes, aeronautical engineer and film producer, and \$18,000,000 contract to construct three flying boats.

French Cabinet Faced With Jewish Problem

PARIS.—(P)—The French cabinet weighed today a National Assembly Resolution urging it to press Britain for a speedy and humane solution to the vexing problem posed by 4-500 Jewish refugees who are staging a sitdown on three British transports anchored off France's Mediterranean coast.

The resolution was adopted late yesterday by unanimous vote of the Assembly, which also congratulated the French government for not attempting to impose a course of action upon the Jews.

Dispatches from Port-De-Bouc on France's Southern Coast reported meanwhile signs of growing restlessness among the shipbound Jews, who have refused to disembark in protest against being shipped back to France after a fruitless attempt to crash the gates of Palestine.

The discomforts of life aboard the crowded ships, which left Palestine almost three weeks ago, were increased by extremely hot weather and by a shortage of rations.

Workers Refuse To Unload Nitrate

NEW YORK.—(P)—Refusal of Brooklyn longshoremen to load a ship carrying ammonium nitrate, the fertilizer that was carried by ships that exploded in the Brest, France, and Texas City disasters, raised the possibility today that ships with ammonium nitrate aboard may be barred from the port of New York.

Eighty longshoremen, who were to put general cargo aboard the SS Molda, walked off yesterday. They demanded they be given double or "ammunition" pay, that special safety precautions be taken, and that the ship be moved to the harbor zone for dangerous ships.

Fire Commissioner Frank J. Quispe said that unless ships loaded with ammonium nitrate can be "completely controlled" he might "go so far as to bar from the port of New York vessels laden with this highly explosive commodity."

Joseph P. Ryan, president of the AFL International Longshoremen's Association, said that "we're more concerned about the proper precautions than about the pay."

"We don't want a repetition of Texas City in the port of New York," Ryan said.

Hugh McSkimming Dies In Local Hospital

Funeral arrangements are pending by Duenkel-Carmichael for Hugh H. McSkimming, who died at 11:23 this morning in a local hospital.

Born February 16, 1865, in Oberlin, Ohio, he had resided in Pampa since 1935. He was a music teacher with studios in the Presbyterian Church of which he was an active member.

Survivors are two sisters, Mrs. C. G. Dood, Pampa; Mrs. L. R. Waltermar, Inglewood, Calif.; and two brothers, F. P. Cedar Rapids, Iowa; and J. R., of Pampa.

Britain

(Continued From Page 1)

the miners get time and a half pay for this overtime. He was a music teacher with studios in the Presbyterian Church of which he was an active member.

Advocates of this plan say it would increase the coal output some 300,000 tons a week, to swell the present production of about 3,700,000 tons. The government's target for the year is 200,000,000 tons.

The vote of confidence means that the question of Attlee resigning the prime ministership doesn't arise, at least pending developments. There had been a demand in some quarters that he give way to other leadership, and Foreign Minister Ernest Bevin was mentioned as possible successor.

However, a high government source says that Attlee may make changes in his cabinet soon. In this connection the political correspondent of the London Daily Mail said yesterday, prior to the caucus, that the only concession the prime minister was prepared to make would be the formation of a sort of emergency battle squad of five senior ministers to tackle the economic problems. The big five would be Attlee himself, Foreign Minister Bevin, Chancellor of the Exchequer Dalton, Deputy Prime Minister Morrison and President of the Board of Trade Sir Stafford Cripps.

About 900 pounds of cottonseed are produced in every 500-pound bale of cotton.

The United States now has 110,500 miles of trolley coach, street car and bus routes, a two percent increase over 1944.

Klecan Goes to Hollywood

The 1946 champion of the All-American Soap Box Derby, Gilbert Klecan, of San Diego, received a movie offer after he won the race. He is shown here during the filming of the movie, "Magic Town," made by Robert Riskin Productions at RKO Studios in Hollywood. Gilbert, at left, is with James Stewart (center), star of the picture, and William A. Wellman, director.

Jaycees

(Continued From Page 1)

His Orchestra, and Josh O'Neal and His Gentlemen of Swing. They will play for half-hour intervals throughout the Saturday night dance.

Monday night, the Jaycees will sponsor a Fun Night that will be held in the City Park, beginning at 7 o'clock. A community sing, audience-participation contests, and an outdoor movie will be among the features of the evening's entertainment.

Wednesday, August 6, following the parade that will officially open the second largest amateur rodeo in the U. S., the Jaycees will sponsor a John Snider barbecue, to be held in the City Park.

The rodeo queen, that is to be selected from Hollywood on tomorrow's broadcast of "Queen for a Day," the Mutual Broadcasting System's featured week-day show, and flown to Pampa for the rodeo will be guest of honor at the show.

Local Tire Firm Has New Owners

The local firm of Gunn Brothers Tire Company, 501 W. Foster, has been purchased by H. K. Kendrick and L. E. Yocham, formerly of Amarillo. It was announced here yesterday.

The firm has been operated by Charlie Gunn for the past several months, while Rhea Gunn has been operating the Gunn Brothers firm at Borger.

Kendrick, who will operate the station now, has been an employee of the Gunn Brothers firm at Amarillo many years.

Kendrick is not a stranger to Pampa, however, having lived here for a year while working for the Phillips Petroleum Company.

Kendrick has announced "that the firm will continue to carry the same nationally recognized products they have always found at the Gunn Brothers station."

Texas Today

By JACK RUTLEDGE

Associated Press Staff

Maybe the old gray mare ain't what she used to be. But the old iron horse—well, that's something else.

Railroads still have their glamor, their appeal. Many of the younger generation prefer airplanes, but you'd be surprised how many youngsters belong to that rabid clique known as model railroaders.

The Dallas Railway Historical and Model Society is an example. It includes men, women and children. It made a special trip in a special car to the Katy Shops in Waco recently, spending the day climbing over locomotives, cabooses, and other odds and ends of railway equipment.

The Katy provided the car and gave them the run of the shops. The fans asked a lot of technical questions, took pictures, tooted whistles, pulled levers, and practically took over the place.

They discovered, to their apparent joy, that the Katy has big trains just like theirs.

They admit that their friends kid them about playing with toy trains, but they don't care. They build elaborate equipment, operate it by electricity, spend hours a day running their system. One man even spends his vacation riding on obscure branch lines.

This fall they plan to put on a special exhibit at the state fair.

The trip to Waco is the second they have taken. A highlight was climbing in the cab of a locomotive and making it lurch back and forth with bells ringing and whistles blowing. Superintendent J. B. Reese exercised a lot of will power.

The workers even dismantled a passenger engine for them. It had to be repaired, anyway. Later, the model railroaders looked over almost 100 freight cars damaged in the Texas City disaster; inspected a junk yard that was packed with old rusting locomotives; climbed through a caboose.

Someone on the tour—probably Jack Maguire, of the St. Louis office—told this story:

An elderly woman got on the train at San Antonio, told the conductor she was slightly deaf and couldn't hear the conductor call towns. So, would he please let her know when they got to Austin?

Sure, said the conductor, but in the rush and toil he forgot. The train was about two miles out of Austin when he saw the woman, remembered her request.

He pulled the emergency brake and ordered the engineer to back into Austin. Wiping his forehead, he walked up to the woman and tapped her shoulder.

"This, madam," he said, "is Aus-

"Thank you so much," smiled the nice old lady. "The doctor told me to be sure and take my next pill here."

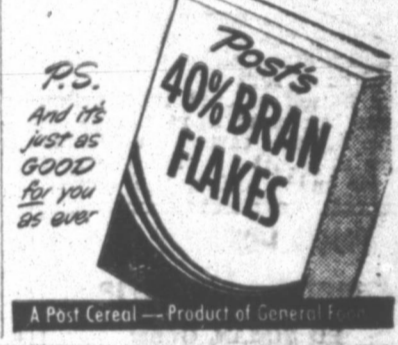

ALL WE WANTED WAS

to make the world's most delicious BRAN flakes...

but now people are saying the NEW Post's Bran Flakes is the most delicious CEREAL they ever ate!

44 ways

To get "Something for Nothing"

The railroads have received 44 "rules" demands from the leaders of the operating unions: . . . representing engineers, firemen, conductors, trainmen and switchmen. They say they are seeking only changes in working conditions—not a wage increase.

More Money For Less Work
But what kind of rules are being asked for? Twenty-eight of them would compel railroads to pay more money for the same, or less work; 7 would require additional and unnecessary men to do the same work; the rest would bring about changes in operating practices at increased cost.

For Instance:
The Union leaders demand additional train and engine crews on Diesel-powered trains—one full crew for every power unit in the locomotive. A freight train hauled by a 4-unit Diesel would have to carry 4 engineers, 4 firemen, 4 conductors, and at least 8 brakemen, or a total of 20 men instead of 5.

"Made Work"—Sheer Waste
The Union leaders demand that full-length freight trains be cut to about half their length, even though such trains are most efficient for low-cost service to you. This rule would call for twice as many locomotives, would double the number of trains, and make accidents more likely.

Additional equipment, yards, and other facilities required to take care of these short trains would cost hundreds of millions. What the Union leaders really want is to make more jobs.

The Union leaders demand that when a crew in one class of service perform incidental service of another class, they will be paid not less than a day's pay for each class, even though all service

is performed as a part of the same day's work. The crew would get at least two days' pay for one day's work.

The Union leaders demand that the present basic day for passenger con-

ductors and trainmen be reduced from 150 to 100 miles, which would have the effect of increasing their pay 50%. Such a run often takes only two or three hours!

You Can't Afford This Waste
Demands like these are against the interests of the whole American people, who depend on railroad service for nearly everything they eat, wear and use.

These rules would cost a BILLION DOLLARS annually—a gigantic waste which neither the railroads nor the country can afford.

Railroad workers are good citizens and good employees, with pride in their calling. Their record during the war was outstanding. We do not believe they fully understand the "featherbed" rules which the Union leaders are demanding. We do not believe they understand the harmful results which these rules would have to the railroad industry, to the millions of men and women dependent on railroads for their livelihood, and to the shipping and consuming public.

The great strength of America is in production—an honest day's work for an honest day's pay.

For only through greater production can we hope to stop the steady upward surge of living costs.

Surely, if ever there was a time in our history when we needed to work, not waste, this is it.

'Miss Lizzie' Gets Our Vote for One of America's Unusual Women

BALTIMORE—(AP)—"Miss Lizzie," now in her eightieth year, is one of America's unusual women.

A blue-blooded socialist from the social register, Elizabeth Gilman is Maryland's grand old lady of dissent—a follower of political lost causes who has won her city's heart by long integrity and warm charity.

Of her someone once remarked: "Baltimore is entitled to one Liberal."

"Miss Lizzie" also has been called a reformer and a "hound of heaven extraordinary." She has been six times voted down in tries for public office on the socialist ticket—she's run for sheriff, mayor, governor and senator—but many critics of her politics believe she would easily win any poll to pick Baltimore's outstanding woman.

She is loved—her politics aside—for the selfless way in which she has fought for people in trouble, and the vigor with which she carried out her lifelong slogan: "If you see a thing that's right, do it."

Partly deaf now and a semi-invalid, she must rest at last with her goal still uncompleted: "To Christianize the social order."

The daughter of Daniel Coit Gilman, first president of the Johns Hopkins University, she learned unorthodoxy from her father, a "mugwump" in both politics and education.

"I first began to 'wump' in 1916," she said.

She left her own fashionable home to organize food kitchens during the war, and coal mine strikes and on occasion marched on the picket line herself carrying a placard.

A small and sprightly woman with great energy, she threw herself into socialist campaigns for slum clearance, public ownership of utilities, labor gains and old age insurance. Two years ago, cheerfully foreseeing defeat in her second campaign for governor, she said: "Franklin Roosevelt stole a good deal of our thunder, but all of us in the United States should be grateful for that."

Her activities cost her some old friendships, but she kept her sense of humor and insisted that it was fun to be a "radical."

She herself enjoyed change. She became interested in psychology in middle life and earned a university degree at 54. At 62, when she first ran for public office, she studied

Pampa Boy Takes Part In Parade in Tokyo

WITH THE EIGHTH ARMY IN Japan (Delivered)—Corporal Royce L. Ayers, 19-year-old paratrooper, son of Mr. and Mrs. Ivy Ayers of Box 155, Pampa, was one of the participants in the annual Independence Day Parade held in Tokyo, Japan. This company, "A," was chosen on a competitive basis to represent the 511th Parachute Infantry Regiment in the Parade. This parade marks the first time since the cessation of hostilities in the Pacific, that General Douglas MacArthur has personally reviewed the troops of his command. Along with many visiting dignitaries, including a number of representatives from foreign countries, General MacArthur watched 15,000 troops, representative of the majority of the units stationed in Japan, pass in review before the reviewing stand located on the Imperial Palace Grounds. The troops then paraded for 2.2 miles through the main streets of Tokyo, climaxing the celebration of one of the most significant holidays in American history.

Hale County Hospital Gets Its 1st Patient

HALE CENTER—(AP)—Hale County's \$100,000 co-operative hospital, built from funds advanced by 750 family members, received its first patient this week.

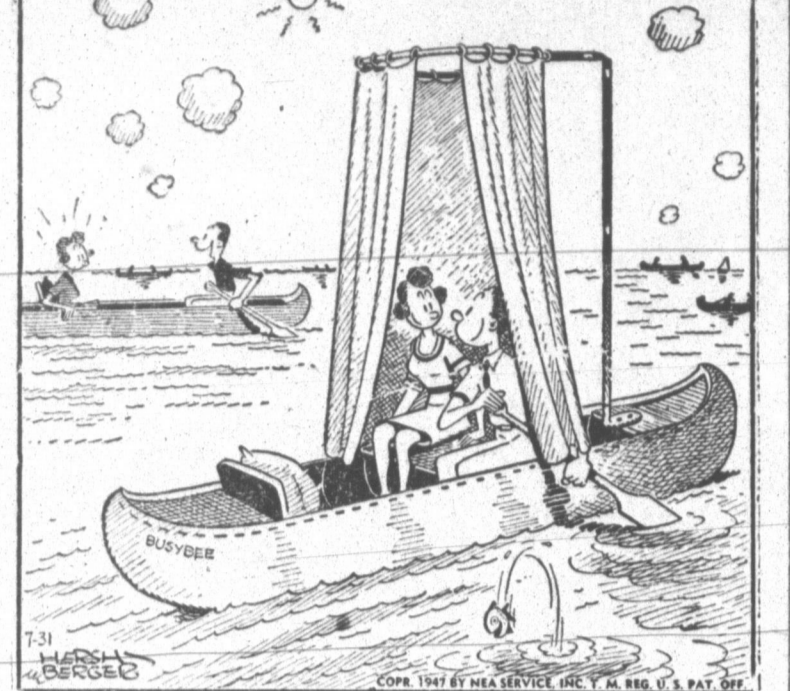

G. T. Minchew, 48, who lives three miles northwest of here, was admitted for surgery.

The hospital now has a staff of 15 persons and 20 patient rooms.

Passengers and Crew Of Fishing Boat Safe

GALVESTON—(AP)—Twelve passengers and three crew members of a fishing boat were safe today after the vessel was adrift at sea because of engine failure.

The engine quit when the boat was 70 miles at sea from Sabine, but the crew rigged a mast and sail that put them in the shipping lanes 15 miles away.

They were spotted by a merchant vessel, which radioed the Galveston Coast Guard Station.

The engine was repaired at sea and the boat returned under its own power.

The passengers were employees of the Magnolia Petroleum Co. of Beaumont.

Pampa Man Is Taking Naval Training Cruise

Clyde T. Cummings, chief metallurgist, son of Mrs. Fay Cummings of 609 East Campbell Ave., Pampa, is participating in a Naval reserve training cruise in European waters aboard the battleship USS New Jersey in conjunction with the summer training cruise of midshipmen from the U. S. Naval Academy, Annapolis, Md.

The cruise began June 23 at Rosyth, Scotland, and includes Copenhagen, Denmark; Oslo, Norway; Goteborg, Sweden; and the English ports of London, Portsmouth, Weymouth, Plymouth, Greenwich and Woolwich, as ports of call.

In addition to the reservists, there are aboard 2,100 midshipmen from the Naval Academy and 200 members of the Naval Reserve Officers Training Corps from various colleges and universities.

Besides the New Jersey, training is taking place aboard the battleship USS Wisconsin, the aircraft carriers USS Randolph and Kearsarge, and the destroyers USS Cose, Striberg, Meredith, O'Hare, Hugh Purvis and Beatty.

Local Youth Is On NTSC Honor List

DENTON—William Gray, son of Mr. and Mrs. John R. Gray of 211 N. Nelson, Pampa, is among 441 upperclassmen named this week to the dean's honor list for the summer semester at North Texas State College.

The dean's list is composed of the names of all upperclassmen who attended the college the previous semester and were accredited with at least 12 semester hours with an average grade of "B" and no grade lower than "C."

Inclusion on the list permits students to miss classes without suffering grade point penalties and to have access to the stacks in the NTSC library.

Some western red cedar trees are 18 feet in diameter and 200 feet high.

Rep. Eaton Appointed Committee Chairman

WASHINGTON—(AP)—Speaker Martin has appointed Rep. Eaton (R-N.J.) chairman of a special House Committee created to study world conditions and this country's ability to aid foreign nations.

Eaton is chairman of the House Foreign Affairs Committee.

Martin announced that the committee will sail Aug. 27 and spend five weeks in Europe and the Far East.

Other committee members include Representatives Nixon (R-Cal.), Mahon (D-Tex.) and Monroney (D-Okla.).

Companies Move to Raise Steel Prices

NEW YORK—(AP)—Two more large companies joined the parade toward higher steel prices yesterday as directors of the nation's largest producer, The United States Steel Corp., met to review the second quarter earnings and possibly take action on prices.

Youngstown Sheet and Tube Co. raised prices \$5 to \$8 a ton on a long list of steel products.

Inland Steel Co. announced prices would go up tomorrow an average of "slight" under \$5.75 a ton.

From where I sit... by Joe Marsh

Jane Cupper's "Daring" Bathing Suit

The Cuppers showed me some as funny twenty years from now, in what we call our "Modern" clothes. Only thing that won't change in the picture is that melow, wholesome glass of beer.

From where I sit, tolerance that lets us wear sensible, decent clothes—to give us sun and air and freedom—will keep that wholesome glass of beer a part of the American tradition.

We laughed a lot at these costumes... but come to think of it,

Joe Marsh

Dental Decay Is Usually Checked By Care of Teeth
AUSTIN—The fact that dental decay may occur in the mouth of the average person, despite proper home care given the teeth, does not lessen the importance of brushing the teeth and massaging the gums daily, nor does it minimize the need for a cleaning and inspection of the teeth twice a year by the family dentist. Dr. Geo. W. Cox, State Health Officer, says that the lack of these measures gives added power to germs that attack the enamel of the teeth and gum tissues.
"If, despite the practice of proper oral hygiene, decay is suspected or teeth are injured in any way, the thoughtful person will seek the dentist's office promptly for the necessary corrective work," Dr. Cox said. "It is surprising, though, even in these days of comparatively painless dentistry, that so many persons neglect to have their dental defects corrected, because they foolishly fear the discomfort they might experience in the dentist's chair," said the State Health Officer. "There are others who having lost a tooth or several teeth make no effort to obtain replacements. Apparently they believe they can get along without them. Reduced masticating power, the annoyance and sometimes actual discomfort of chewing hard substances on the exposed gums, and crooked teeth are some of the possible consequences of gaps in the teeth."
Dr. Cox advised those who are interested in experiencing the best dental and bodily health possible, to give daily attention to their mouth and visit the dentist twice each year, and promptly seek the dentist's services should decay or other suspicious conditions arise between the periodic visits.
"In short," Dr. Cox declared, "successful mouth hygiene means not only intelligent personal daily application of prophylaxis but complete and timely cooperation with the family dentist as well."

Many Texans Are Now Visiting State Parks
AUSTIN—(P)—A peak monthly attendance of 1,000,000 before summer's end was seen as a distinct possibility yesterday for Texas State parks.
June attendance figures, compiled by the State Parks Board Monday, showed a grand total of 694,175 this year, compared with 169,750 the same month a year ago.
Parks in easy driving distance of big centers of population were getting a big play. Possum Kingdom led in net profits, with Tyler, 36th Division, Daingerfield, Meridian and Cleburne next.
Top park from the standpoint of daily visitors was MacKenzie, at Lubbock, with 477,667 in June.

Tips for Teens

By ELINOR WILLIAMS
When Girl invites Boy to a dance, who pays? That's the good-manners matter in today's letter from a high schooler.

"I would appreciate it very much if you would settle an argument I'm having now at home. My girl friend has invited me to her prom, and it's my contention that I should buy her a corsage and pay for the evening's entertainment. My mother, on the other hand, says that the girl's parents should pay. I have never taken a girl out under those conditions and feel a bit cheap at the prospect of doing it. Please let me know what you think the right thing should be."

When Girl invites Boy to a dance given by her club, class or school, she tells him about the affair at least two weeks in advance—usually more—giving him all the "when" and "where" details, adding, "It would be fun if you can go." If he says yes, Girl buys the tickets and arranges exchange of dances; he's

her guest.

But Boy is also her escort, so he provides transportation whether it's the family car, space in a friend's car, or bus fares, and calls for her at her home, bringing or sending a corsage if corsages are in order (some schools and colleges have banned them as an unnecessary too-burdensome expense for "teen pocketbooks").

Girl is a smooth dancer, so she's ready, greets him at the door and invites him in while she dons her wrap. This gives her a chance to introduce him to Mother and Dad. To prevent embarrassment, however, she doesn't linger long enough for his small talk to wear thin or for awkward pauses in the polite chit-chat.

Boy helps her with her coat, opens the door for her. On the way to the dance Girl gives him the tickets to carry in his pocket and present at the door, as she knows that men always take charge of tickets, no matter who provides them.

Skellytown Girls Are Slumber Party Guests

SKELLYTOWN, (Special)—Mrs. J. L. Burba was hostess to the Blanche Graves Girls' Auxiliary of Skellytown First Baptist Church at a slumber party Friday night.

The night was spent singing, playing games, and roasting wieners.

A breakfast of waffles and strawberries concluded the party for Billie Meadows, Joyce McCoy, Roberta Sparks, Billy Adams, Linda Burba, Barbara Huffines, and their sponsor, Mrs. Rolla Sparks.

The G. A.'s met in regular session Monday afternoon at the Church.

The storybook flight to Japan on which the girls embarked recently has been so successful the girls decided to make a forced landing on the return trip. This will put the girls in church Monday afternoon, August 4, to study South America.

Carlyn Russell Is Given Slumber Party

SHAMROCK, (Special)—Carlyn Russell, Georgetown, was complimented with a slumber party by Mayne's Derr, Friday evening.

The girls arrived early and enjoyed an outdoor meal on the back lawn of the Derr home, after which games were played until bedtime.

Those attending were the honor guest, Carlyn Russell, Gayle Patterson, Frances Bechtel, and Veta Bruce Allison.

Panhandle Rebekahs Meet Here Thursday

The Panhandle Rebekah Circle met with the local Rebekah Lodge at their regular session Thursday evening in the IOOF Hall. Bobbie Brummett, noble grand, presided over the business session.

Due to the officer's banquet scheduled for tonight, lodge will convene at 7:45 p.m. All members are urged to be present.

Ella Noland, circle president, presided over the circle session. Mrs. Sarah Carter, Borger, past president, was presented a lovely gift. Borger presented the degree work in the absence of the Amarillo Lodge.

Present for the meeting were Borger 24, Skellytown 11, San Jacinto 7, Pampa 46.

Miss Kitchens Holds Informal Gathering

Miss Murriel Kitchens entertained Wednesday evening with an informal party honoring her sister, Mrs. Joe Lockner, Pittsburg, Calif., and Mrs. Truman Cooper, recent bride.

Corsages were presented to the honoree and refreshments were served to the following: Mrs. Tommie Stone, Mrs. Ross Cornelius, Mrs. Margaret Dial, Mrs. Roy Chisum, Mrs. Thomas Kitchens, Mrs. A. B. Kitchens, Miss Maurine Jones, Miss Florence Merriman, Mrs. Bea Clark, Miss Eloise Lane, and the honoree.

Miss Betty Brown Named Honoree at Kitchen Shower Tuesday Afternoon

Teachers and officers of the Primary Sunday School Department of the Central Baptist Church named Miss Betty Brown honoree when they entertained with a kitchen shower Tuesday afternoon at 2:30 o'clock in the home of Mrs. L. J. Zachry, 524 N. Sumner. Miss Brown's marriage to Byron Buck has been scheduled for August 21.

The receiving rooms were decorated with Miss Brown's chosen colors, blue and white. Bouquets of delphinium combined with fern were placed at vantage points in the living room and the delicate handmade lace cloth on the tea table was centered with a beautiful arrangement of these flowers. White tapers in crystal holders completed the appointments.

Miss Brown wore a shoulder corsage of white and blue split carnations, a gift of Mrs. Zachry.

Miss Jacquelyn Wilson created a musical background by playing several piano selections appropriate for the occasion.

An amusing game "To Make Clear" was played and Mrs. L. B. Scruggs gave a clever reading, "For Betty's Sake."

Mrs. Wilson Hatcher was seated at the crystal punch service. The dainty refreshment plate featured white cake-squares with "Betty and Byron" inscribed in blue icing and blue minis.

Attending or sending gifts were Mesdames W. H. Puller, Herman Whalley, Emma Mosley, E. C. Matheny, Elmer Cates, Hugh T. Gringer, Dan Glaxner, J. D. Holmes, C. Hogan, Niver, Calvin Whately, Paul Crossman, D. R. Henry, W. T. Green, John Schoofield, Jack Morris, Robert Hatcher, Miss Wilson and Mr. Hatcher.

Methodist Women Are Guests of Mrs. Price

PANHANDLE, (Special)—Mrs. Don Price was hostess on Monday afternoon to members of the Wesley Bible Class of the Methodist Church for their monthly business and social meeting.

Mrs. J. L. Armstrong led the devotion on "Christianity, the Religion of the Open Hand" with Scripture taken from the 15th Chapter of Deuteronomy.

Mrs. F. J. Holleroff, president, was in charge of a short business session and Mrs. J. E. Weatherly was in charge of games during the social hour.

Refreshments were served to Mrs. Horace Booher, Grapevine, a guest, and to Mesdames Hollcroft, Weatherly, Armstrong, W. E. Darr, O. Yon, Rachel Vance, Clara Cornelius, W. E. Fisher, and Miss Martha Metcalf.

For this pattern, send 25 cents, in COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett (Pampa News) 1155 Ave. Americas, New York 19, N. Y.

Ready now—the new Summer FASHION, 52 pages of style, color, fashion news for every woman who sews. Send twenty-five cents for your copy today!

Texas Tech to Install Seismographic Station

LUBBOCK—A seismograph station capable of recording earthquakes and seismic disturbances all over the world is to be established at Texas Technological College, Dr. Leroy T. Patton, head of the geology department, has announced.

The new station will be the only one in operation between St. Louis, Mo., and Tucson, Ariz. One of the most modern and complete seismographic stations, it will be equipped with long period and short-period instruments and is being designed so that instruments may be observed at any time without disturbing their operations.

The college will cooperate with the United States Coastal and Geodetic survey and will send reports of all seismic disturbances to them. The survey will send an expert to inspect and test college equipment at the time of installation.

It is fallacious to believe that the people need only to look to Washington for bigger gratuities and subsidies and that the government can maintain itself.

—Sen. Henry C. Dworshak (R) of Idaho.

McLee Women Hear Mission Program On Old Minister Relief

MCLEAN, (Special)—The Women's Missionary Society of the Baptist Church of McLean met in the Church parlor Tuesday evening at 8 o'clock for a program on "Old Ministers Relief." Mrs. R. L. Appaling was program leader.

An offering to help care for the old and needy ministers and widows of ministers of Texas, was taken before the Society was dismissed.

Chitter Chat Meets In Cartwright Home

Secret pal girls were exchanged when the Chitter Chat Club met in the home of Mrs. George V. Cartwright, 2000 Alcock. The meeting was opened by singing the club songs then closed with the club prayer.

Attending were Mesdames W. L. Harrison, J. C. Payne, J. R. Grundy, J. L. Harrison, Howard Archer, Glenn Waggoner, Gene Boyd and C. W. Crocker; Miss Dorothy Barritt and three guests, Mrs. Milla Walker, Amarillo; Mrs. Gell Harrison, Ft. Worth; and Mrs. Tinsley, Guymon, Okla.

McBee Home Scene of Lawn Supper Tuesday

Mrs. and Mrs. Horace McBee entertained relatives with a lawn supper Tuesday evening at their home, 406 N. Somerville.

Present for the supper were Mr. and Mrs. W. W. Daugherty, Dumas; Mrs. Kenneth Kurtz and children, Jean and Martha, Houston; Mrs. E. E. Smith and daughter, Carolyn, Amarillo; Mrs. Joe Barnhart, Levelland; Mrs. Louella Park, Kilgore; and Mrs. H. F. Barnhart, Pampa.

WE, THE WOMEN

Men Should Get a Gander at New Fashions First

By RUTH MILLETT
NEA Staff Writer

A New York hat designer has created a special board of judges to pass on the headgear he designs for women to wear. The board is made up of husbands. If they hoot at a hat, it isn't manufactured—and a lot of other husbands are directly benefited.

Now there's a real step forward in feminine fashions. Had a board of judges made up of husbands viewed all the fashions of the past

AIR POWER IS PEACE POWER!

HELP BUILD AMERICA'S AIR POWER ON AIR FORCE DAY, AUGUST 1st

No one today questions the fact that the whole future of the United States may rest in the very clouds over your head. The security of this country demands strong, well-trained, well-equipped Air Forces, superior to any in the world.

And the new, reorganized Air Forces give thousands of eligible young men an opportunity to take an active part in building America's Air Power on the ground as well as in the sky.

You may, for example, enlist in the Air Forces for three years. If you have a specialty which will qualify you, you may also be able to enlist in a grade at higher pay.

If you have had Air Forces experience, you may join the Air Reserve and continue your military aviation training outside of business hours.

Or you may join the Air National Guard and perhaps become eligible for advanced technical training at special Air National Guard schools.

Think it over. If there are Air Force Day exhibits in your locality, be sure to visit them on August 1st. If no demonstrations are to be held nearby, get a copy of the new Air Forces pamphlet, "Know Your Air Forces," at your U. S. Army Recruiting Station.

NOW—THE WORLD'S GREATEST OPPORTUNITY FOR A CAREER IN AVIATION

Today the Army Air Forces offer high school graduates an unprecedented opportunity to get the finest aviation schooling on earth—and select your school or course before you enlist.

The AAF Career Plan is unlike anything ever offered before. It permits selected high school graduates to apply and qualify for AAF specialized courses of their own choice. Simply go to your U. S. Army Recruiting Station, explain the kind of aviation training you want and you will receive an application blank and a complete list of available courses.

When you are selected to attend the course of your choice, you enlist in the Army Air Forces for 3, 4 or 5 years. After your basic training period you are guaranteed the education you have selected to make you a specialist in the type of work you have chosen.

Get a list of all the schools and courses open to you under the AAF Aviation Career Plan at your nearest U. S. Army Recruiting Station.

Corpus Christi Naval Base Operations Will Continue Indefinitely

WASHINGTON—(AP)—Senator Connally (D-Texas) said top Navy officials assured him yesterday that the Corpus Christi Naval Air Base will continue operations at least for several months, until its future is determined.

There have been reports that the base soon would be abandoned, except for a small plane assembly and repair unit.

Acting Secretary of Navy John L. Sullivan, Assistant Secretary of Navy for Air John Nicholas Brown, and Vice Admiral D. B. Duncan, deputy chief of Naval Operations for Air, discussed Corpus Christi with Connally in his office today.

Duncan had returned yesterday from an inspection of the big Naval air training center. His inspection followed a personal plea Connally made last week to President Truman that the Naval installation not be abandoned.

Connally issued this statement after the conference:

"I have just had a very pleasant and satisfactory conference with high-ranking Naval officials. . . .

"As a result of the conference, it is my conviction that the Naval Air Station at Corpus Christi is going to be maintained until such time as consolidations and adjustments which may in the future be effected under the Navy-Army-Air Forces unification act, take place.

"The Naval Air Station at Corpus Christi is one of the finest in the world. It has a magnificent record and is high in the esteem of Naval officers who are acquainted with its facilities and performances."

Connally said that he expected such "consolidations and adjustments" could not be made earlier than sometime next year. He added that the Naval officers assured him that in no event would any final action be taken before he returns in September from a trip to Rio de Janeiro to attend an Inter-American Conference.

Close Race Being Run In Lone Star League

(By The Associated Press)

No closer baseball race could be asked than that now being staged in the Lone Star League—that is, among the first five clubs.

Just six games separate first and fifth place.

The three leaders all held the pace last night with Longview beating Jacksonville 2-0, Marshall downing Tyler 9-6 and Lufkin licking Henderson 13-6. Frank Martin won his twelfth victory of the season for Longview, limiting Jacksonville to three hits.

Only 15 percentage points separate Lufkin and Longview and there's only one between Lufkin and second-place Marshall.

Last-place Bryan clipped Kilgore 6-1 in the other game played for the night.

Top Teams Increase Longhorn Loop Lead

Both leaders won in the Longhorn League last night and Big Spring maintained its three game advantage over Midland. The Big Spring Broncs trimmed Odessa 5-3 last night while Midland trounced Sweetwater 12-9.

Last-place Verron took Ballinger into camp 11-3 in the other game of the night.

There were plenty of arguments in Big Spring's win with catcher Al Zigelman of Odessa being thumbed out of the game for protesting a decision, the game being halted in the ninth until the fans quit throwing foul balls back from the stands and police escorting the umpires from the field after the contest was over.

Early in the 17th century tea was transported to Japan with the result that a whole new industry developed.

Pair of Beauties

A beauty hooked a beauty when Mrs. Francis W. Dudley, wife of a Coast Guard officer, landed this 94 1/2-pounder at Venice Inlet, Fla. The big one was entered in Sarasota County's International Tarpon Tournament.

Services Set Tomorrow For C. F. Jones, 55

Funeral services will be held at 4 p. m. tomorrow for Coleman Franklin (Deacon) Jones, 55, who died yesterday afternoon in a local hospital.

He was warehouse superintendent with the Phillips Oil Co., and had lived at the Pampa Phillips Camp for the past 13 years. Prior to coming to Pampa he worked with the company in Phillips, Texas, for eight years. He was a member of the First Christian Church and the Masonic Lodge.

Services will be held in the First Christian Church with the Rev. Douglas Carver, pastor of the First Baptist Church, officiating and graveside Masonic rites will be read in Fairview Cemetery.

Survivors are his wife, parents, Mr. and Mrs. John L. Jones, Fairland, Okla.; two sons, J. Elsworth, Sanford; Daris, Pampa; one daughter, Mrs. Zirta Marindale, Pampa; one brother, Sam A. Jones, Fairland, Okla.; and one sister, Mrs. Louie Brock, Okla.

Active pallbearers will be Belton Chappell, Walter Beets, Ray Franklin, John Dewey, W. E. Reno, all of the Phillips Camp, and Ray Beard of Borger.

Honorary pallbearers are Cecil Hext, W. B. Barton, Paul Humphries, Claude Jefferies, Murry Body, Vernon Hobbs, Vern Savage, A. Davis, L. B. Miller, L. W. Smith, A. W. Paris, Paul Simpson, Ernest Traywick, George Howe, Ralph Irwin, Ralph Odell, Al Jennings, R. L. Jones, and Walt Delamater.

The body lies in state at the Clegg Funeral Home.

When Its Flying Disc Time Again in Idaho—

BOISE—(AP)—It's flying disc time again in Idaho and the United Air Lines pilot who spotted the latest one says "they ought to be kept off the civil airways."

Army and Navy spokesmen have denied knowledge of the discs.

while coming in to Boise for a landing reported spotting a disc-like object "going like hell" at about 9,000 feet, told the Boise Statesman.

"It is real it must be some sort of military experiment and if that is the case they ought to arrange to keep the objects off the civil airways."

Pampa News, Thursday, July 31, 1947. PAGE 7

The bones of the oldest Mexican yet discovered, Tepepan fossil man, were found in February, 1947.

The earth's rotation at the equator produces a motion of approximately 1000 miles an hour.

Indonesians wear butterfly-like strange ear rings and flowers in their hair.

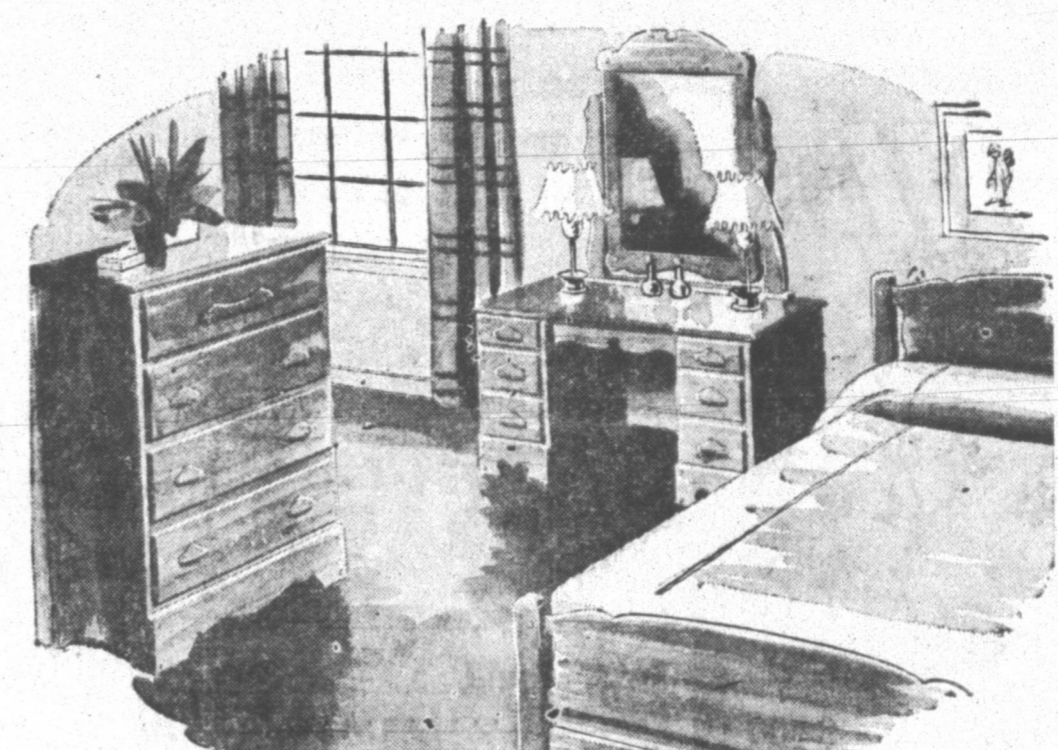

The Rocky Mountain states contain about one-fourth of all the big game in the United States.

Leaves From a Correspondent's Life Note Book

By HAL BOYLE

BALTIMORE—(AP)—The short man with gray hair and blue eyes leaned back in his chair and puffed on a cigar stub. He wore his 66 years as lightly as the flat straw boater cocked on his head.

"Ask me anything you want," he said, "but I write better than I talk."

He spoke slowly with a delayed gravely punch reminiscent of the late W. C. Fields.

"What about the possibility of war?"

"War is inevitable. The idea of in-

ing and I never missed a meal. And besides being the most comfortable country, the United States is also the most comic. You can laugh yourself to death here every day. There's always something to entertain you—even at a lynching."

The blue eyes of the gray-haired man lit with the glee of a child caught pulling a cat's tail—pulling it not enough to hurt it, but hard enough to make it howl.

"You don't believe in democracy?"

"No, I also disapprove of cancer but I am not therefore bound to invent a worse disease or a cure. The whole concept of democracy is based on the idea that even the meanest man has in him a reservoir of wisdom. I have seen no evidence of it."

The man then went on to volunteer these observations:

"The most timorous people in the world are Capitalists.

"The most patriotic States at present is afraid of Russia.

"I never was a Liberal. A Liberal is a man who is willing to believe anything—twice."

"You want to know what has been the most fun in my life? Work—yes, work—without question? I have practiced a trade I enjoyed so much that, if I had been a rich man, I would have been glad to do it for nothing."

"I believe a young reporter has more fun than any other man on earth—if he's good."

The function of good journalism is to ascertain and tell the truth about any public matter. I mean the actual truth. There is an enormous discrepancy between what is officially said and what actually happens.

"If never as an editor let any man run me—above or below."

Then the man suddenly said, "well, I must be going now. I'm busy with proofs of the second supplement to my book on the American language. It will probably be the last. I am getting old."

So saying, Henry Louis Mencken, Baltimore's sage and incurable optimist, stepped out into the sunny

Texas Today

By JACK KUTLEDGE
AP Staff Writer

The odds are ten to one if someone mentioned New Braunfels today you'd say yes, that's where a doctor is being tried for the murder of four people.

The residents of New Braunfels wish you wouldn't.

After all, they have other and sounder claims to fame. For example, this town (pop. 10,000, current estimate) is over 100 years old. It was founded in 1845 by colonists from Braunfels, Germany—a solid group of citizens whose descendants today are numbered among the city's leaders.

German names are everywhere. Many of the best German characteristics abound. For example, one official said the cardinal sin was "I am getting old."

So saying, Henry Louis Mencken, Baltimore's sage and incurable optimist, stepped out into the sunny

not paying your debts.

"You can drink or not, no one cares," he said. "Almost everyone, however, likes his beer. You can belong to any religion. You can do a lot of things and no one pays any attention. But if you don't pay your bills by the tenth of the month—well, you're a ba-a-a-ad man!"

New Braunfels is a resort center. Tourists flock to the beautiful place, surrounded by rolling hills, decorated by clean, gushing streams, shaded by large and friendly trees, both summer and winter. Fishing is excellent, and hunting is tops.

Between 1,200 and 1,800 deer are killed nearby each year. Ranchers make almost as much money from their hunting permits as they do from beef.

There are dude ranches, too, and a beautiful swimming pool at Landa Park.

The solid element, however, is proudest of the city's industrial reputation. It is the home of the New Braunfels textile mills, which

hires between 800 and 900; the Dillinger Rolling Mills, hiring about 300; the Sertex Materials Company, another 500; a U. S. Gypsum plant; two hosiery mills; the Pioneer Worsted Company.

Products range from gingham, to flour, to road building materials, to women's hosiery. The wool loom plant is the only one of its kind below the Mason-Dixon line.

However, the two things that appealed to me most were (1) the tin roofs and (2) the Comal River.

Every roof in town is fire-resistant because of an old city ordinance passed about 90 years ago which makes it mandatory for every building, from courthouse to out-house, to have a fireproof roof.

In the early days tin was about the only reasonable roofing. So most of the buildings have tin roofs. Recently, however, asbestos and other materials have gained in popularity.

The Comal River is the only river anywhere, natives claim, that has both its origin and its mouth with-

in one city limits. The Comal, a lush, full-sized river three miles long, has its origin in gushing springs that produce about 200 million gallons of water a day. Good, clear, water.

It empties into the Guadalupe River, also in New Braunfels city limits, before it gets a chance to go places, however.

New Braunfels is—well, go see for yourself.

Baylor University Seeks Radio Permit

WASHINGTON—(AP)—Baylor University has asked the communications commission for permission to build a radio station at Houston to operate on the wave length and power now assigned to Station KW-BU at Corpus Christi.

Baylor, whose medical school is located at Houston, recently applied for permission to become the sole owner of KWBU. The University now owns 50 percent of the station.

Plan to Promote World Peace Is Lions Discussion

SAN FRANCISCO—(AP)—The Lions International convention today worked on a plan to promote world peace through pipelines from town halls to Washington and Lake Success.

In dozen forums yesterday the convention of more than 16,000 delegates amplified the theme that solution of world problems must spring from the masses of citizens rather than their diplomats.

After the forums the plan was proposed to be submitted before the convention, for an international committee to channel community attitudes to Washington and headquarters of the United Nations.

Operations of the United Nations were revived at one sectional meeting, after which W. R. Stewart of Mesa, Ariz., told the group:

"Let's see what we ourselves can do to bring about world peace... in the Lions we have persons of many nationalities. In my own club we have all religions represented. With them we must work to achieve international unity."

In one forum devoted to the problems of parents the movie industry was criticized by various speakers for failing to produce more pictures suitable for children.

Interest in Academy Awards Is Year-Round Matter in Hollywood

By BOB THOMAS

HOLLYWOOD—(AP)—Interest in the Academy awards is a year-round matter out here and it's about time to start making the summer book on the contenders. The half-way mark shows the British entry far in the lead with the Americans starting slowly.

Please note in the listing that entertainment value is not a factor. Academy Award pictures are chosen primarily for their prestige quality. Thus, although U. S. studios may have provided entertainment in its first six months' product, it has shown practically nothing of Oscar Calibre.

The British, on the other hand, have moved into solid contention

Discussion Called For by Sen. Taft

WASHINGTON—(AP)—Senator Taft of Ohio called today for a "frank discussion" by his fellow Republicans of domestic and foreign issues.

The Ohio Senator, scheduled to receive his state's "favorite son" endorsement for the GOP presidential nomination at Columbus Thursday, said he plans to bear down during his western trip in September on issues likely to arise before the next session of Congress.

"I plan to talk about the issues before the country," including the Marshall plan for economic aid for Europe, Taft told a reporter.

"Before Congress meets again (in January), I think all of these matters should be freely discussed throughout the country, particularly by Republicans."

Although they declined to link it in any way to any other potential presidential candidate, his statement was interpreted immediately as a challenge to Gov. Thomas E. Dewey of New York to speak out.

On his own western trip Dewey remained silent on major political developments.

Friends said Taft hopes to emphasize on a tour of California, Nevada, Oregon, Washington, Idaho and possibly Wyoming that he is willing to state his stand on every domestic and international issue of importance.

Teacher Retirement System Proves Good

AUSTIN—(AP)—State Auditor C. H. Cavness today reported the teacher retirement system of Texas is being efficiently maintained and has an excellent set of records.

At the same time, he quoted an actuary's report of Aug. 31, 1946, indicating that funds in the prior service annuity reserve fund, membership annuity reserve fund, and state membership accumulation fund were insufficient to meet the full demands allowed by law.

The actuary's report to the retirement system's board of trustees noted that the accumulation fund is building through monthly payments made by the state so that "it will accumulate a sufficient sum to meet all present and prospective liabilities of this fund within a limited number of years."

"Total deficiency in the membership annuity reserve fund as of Aug. 31, 1946, was \$25,312, which was less than 2 percent of the liability of the fund. The actuary said this was "not considered an unsatisfactory situation."

"Although the deficiency in the prior service annuity reserve fund was \$308,403.463 as of Aug. 31, 1946, the primary reason for this deficiency is the fact that the total state contributions to this fund to date have not been as great as the required prior service annuity reserves for persons heretofore retired," the actuary explained, adding:

"Continued payment by the state of certain monthly payments into this fund will accumulate a sufficient sum in this fund in the very near future to meet all present and prospective liabilities of the fund."

In Hollywood

By ERSKINE JOHNSON

NEA Staff Correspondent
(Johnson on KPBN Monday thru Friday, 2 P. M.)

HOLLYWOOD—Hollywood has the gold bug. Bob Hope is about to do a comedy western titled, "The Paleface." He wanted a feminine star to play opposite him in the role of Calamity Jane. He asked Ginger Rogers, or her agents, if Ginger would do Calamity Jane and Ginger said yes.

She said yes, that, in certain conditions.

In the first place, she wanted a flat fee of \$325,000 to appear in the picture. Then she also wanted a percentage of the profits on the sale of the picture up to a certain amount.

It wouldn't take much percentage of a good sale for La Rogers to be on the receiving end of nearly half a million dollars for the one picture, which is mighty good pay for three to four months work.

After being revived, Bob Hope said, "No thanks" and cast Jane Russell in the role at a far less salary.

BOOM IN SALARIES

This one case is enough to show you why you don't see some of your favorite stars on the screen today. A lot of actors are out of work because salaries are completely out of hand.

Before the war, a top star took an average of 70 to 90 thousand dollars to appear in a picture. Now these same stars will not go on the set for less than \$100,000 to \$200,000, as their salary for "the one picture," and then some of them want a percentage of the profits, too.

There is a reason for most everything, and here's the reason for this situation:

Let's look at it from your own position. One of you ladies wants a new coat. So you go downtown to buy it. One or maybe two stores in your town have high price tags. Their label means you have paid a high figure for your coat.

If you don't have that label perched behind your neck when some other member of your bridge club admires the coat, then you feel left out, disgraced, cheap. You must have that label. So you pay half the store's overhead to get it.

Out here in Hollywood a star's salary is the label.

But the laugh in the story is that the more they get, the less they keep.

AXED WHEN TAXED

Uncle Sam steps in and removes almost all of these big incomes, leaving just about enough out of a half-million-dollars take to "pay the gardener to water the plants."

The agents push the prices up, too. They have a reason. They get 10 percent of the star's income and they get to keep more of it than the star.

But if the star drops the price to 25 or 30 thousand dollars for a picture, and actually gets to keep most of it, he or she will be in a spot. Everybody will say they are slipping, that they "command" a high fee anymore and that their careers are finished.

They have to keep the label and the label gets more expensive all the time. Hollywood continues to amaze me.

Galveston Dry Dock Workers Back on Job

GALVESTON—(AP)—Fourteen-hundred day shift workers were to return to their jobs at the Todd-Galveston Dry Dock today, but they may face picket lines.

The Galveston Metal Trades Council ended its 33-day-old strike with the company yesterday by ratifying a compromised management-union contract agreement.

But machinists and shipyard carpenters, who dissented in the ratification, said they would establish picket lines.

"The strike is over as far as the Metal Trades Council is concerned," W. G. O'Neal, acting president of the Council and strike director, said.

He said the striking Todd employees were instructed to report for work at 8 a.m.

The new contract was for two years. It calls for a 12 cents hourly pay boost across the board, union security, differential and premium pay increases and includes a "no strike" clause.

Lions Choose Vernon Girl as Cotton Queen

SAN FRANCISCO—(AP)—Hilda Cannon of Vernon, Texas, last night was chosen 1947 International Cotton Queen at the Lion's Cotton States Jubilee in the Civic Auditorium.

Miss Cannon charmed her way past ten other contestants for the title, all sponsored by Lions Clubs in the cotton belt. The event is sponsored by the National Cotton Council and the Cotton Textile Institute.

Brooks Chalk Up 12th Straight With Overtime Win Over Cards

Splashes Gather For National AAU Tyler Swim Meet

By The Associated Press
 (By The Associated Press)
 Lanky Evel Blackwell's sensational 16-game winning streak is at an end today, but another string—the 12th straight success of the Brooklyn Dodgers—has the baseball world buzzing.

The National League leading Brooklyn won their 12th straight in St. Louis in a thrilling game as played in many a season. Few of the 31,700 fans will forget it.

The name, which lasted through 10 innings and 3 1/2 hours, had all the thrills and pathos of a world series encounter.

The Dodgers opened up a 10-0 lead against Harry Brecheen and Red Munger in the first four innings.

The Cards, aided by Whitey Kurrowski's three-run homer, caused a mild stir by scoring four times in the sixth to knock Ralph Branca from the hill. So things remained until the last of the ninth.

Then Chuck Diering, Stan Musial, Ed in Slaughter and Ron Northey slammed successive singles to bring in three tallies. Kurrowski walked, Marty Marion singled and pinch hitter Del Wilber also singled to drive in three more runs and dead-end the game at 10-10.

The Dodgers roared back in the top of the 10th. With one out Gene Hermanski doubled and after Bruce Edwards had made the second out, Pee Wee Reese came through with a grand slam single between third and short to send Hermanski home with the payoff run.

The triumph increased the Dodgers' first place margin over the Cardinals to nine full games, and St. Louis now is in third place, one percentage point behind the New York Giants.

Blackwell's string was broken by the Giants, who defeated the Reds 5-1 in a 10-inning daylight tussle in Cincinnati. It was the side-arm slinger's first defeat since May 4. His overall record now stands at 3-3.

The New York Yankees stretched their American League lead to 1 1/2 games over the runner-up Red Sox of Boston by defeating the Detroit Tigers 8-5 at the Yankee Stadium while the Red Sox bowed to the Cleveland Indians 13-7 in a night game at Boston.

The St. Louis Browns pushed over an unpaired run in the 11th to eke out a 2-1 win over the Senators in a night game in Washington.

The Chicago White Sox downed the Athletics 3-2 in a night game in Philadelphia.

Pittsburgh and Boston divided a double header, the Pirates winning the opener 5-3 and the Braves coming back to take the nightcap 4-5.

After taking it on the chin 13 times in 14 meetings with the Chicago Cubs, the Philadelphia Phils broke loose with an 11-run attack against three Bruin hurlers to win 9-2 in Chicago.

His team mates collected ten hits off Gene Hatten.

Purr Food's Keel beat Texas Elf's Gray in the other tilt.

Lewis Hardware - 040 020 0 4 - 9 2
 Sportsman Shop - 201 103 7-10-2
 Texas Elf - 200 100 7-10-2
 Purr Food - 271 716 x-24

Wild registration of motor vehicles in 1946 was 44,930,000.

Sportsman Shop Beats Lewis Hardware 7-6

The Sportsman Shop edged Lewis Hardware 7-6 last night in the final League Softball play, while the Purr Food walked Texas Elf 24-10.

Claude Heskell hurled the Sportsman Shop to their win over Lewis Hardware as he gave up only nine hits.

Albuquerque Dukes' O'Boyle Hurls Twin Win Over Oilers

The Albuquerque Dukes pounced on two Oiler pitchers for 21 hits as they took a twin bill off the locals 5-2 and 11-4 at Oiler Park last night. It was the second successive night that these two clubs have played twin bills. The Oilers won both games Tuesday night.

The Dukes' big righthanded hurler, O'Boyle, stole top honors in last night's show when he pulled the old iron man stunt and pitched both of the games.

While winning both sessions, O'Boyle chalked up quite an enviable record for himself. In fourteen innings he allowed 15 scattered hits that were good only for six runs. He struck out nine Oiler batters and displayed excellent control when he did not give up a single base on balls all evening.

George Payte, who pitched the first game for the Oilers, allowed eight hits that were good for five runs. Two of his hits were home runs and came with one man aboard. Jim Carithers gave up 13 hits. Two of his hits also were home runs with one man on.

The Oilers final two runs came in the final inning. Oley got a single and Riley lofted one over the left field barrier for the final two tallies.

O'Boyle pitched for seven official trips up, he got a pair of doubles and three singles.

In the opener, the Oilers drew first blood with two runs when Oley doubled and first sacker Bob Bailey tripled to let Oley home in the first inning. Bailey came home when left fielder Ray Bauer grounded out shortstop to first, to put the Oilers ahead.

The Dukes tied it up in second inning when shortstop De La Garza got a sacrifice single and Halter hit a grand slam single to the left centerfield wall. They then went ahead to score one run in the fourth inning off a pair of successive doubles by rightfielder Gentzkow and De La Garza.

In the fifth inning, the Dukes picked up another pair of runs when centerfielder Joffe singled and second baseman Dixon collected a two-run home run to put the Dukes out front 5-2.

The nightcap crowd saw the Oilers start off with a two run lead in the first game, through a single by Oley and a pair of doubles by center fielder Jack Riley and catcher one over the left centerfield wall. They then went ahead to score one run in the fourth inning off a pair of successive doubles by rightfielder Gentzkow and De La Garza.

Fort Worth Cats Creeping Up on Houston's Buffs; Win Again 9-2

By The Associated Press

The Fort Worth Cats panted on the necks of Houston's Buffs today as the rift between the top two teams and the rest of the Texas League widened like a barn door.

The speeding Cats licked Houston 9-2 last night in the deciding tilt of the series and advanced within a game and nine percentage points of the league-leading Buffs.

Dallas slipped 11 games back of the Panthers by losing to cellar-dwelling San Antonio 5-1 and Shreveport finally halted its back-pedalling, downing Oklahoma City 3-0 to snap a losing streak that had extended through nine games.

In the other game of the night Tulsa fell to the Beaumont Exporters 6-2 in a game cut to eight innings to allow Beaumont to catch a train.

The clubs change stands tonight with Fort Worth at Dallas, Tulsa at Oklahoma City, Beaumont at Shreveport and Houston at San Antonio.

Monty Bassall batted in five runs with his three triples as Fort Worth took Houston into camp and a crowd of 8,910-making 23,185 for the three-game series—roared approval. Charlie Samaklis gave Houston only six hits in winning his fourteenth victory of the season.

San Antonio used home runs to subdue the Dallas Rebels. Chet Wiczorek clouted one in the sixth and Charlie Grant smashed another in the eighth to bring four of the Mission runs. Marlin Stuart pitched his eighth victory of the year.

Ralph Hammer gave Oklahoma City only two hits as Shreveport got back on the winning track. Jim Kirby's single with the bases loaded brought two Shreveport runs in the fifth. The other sport tally was unearned.

Beaumont spiked home plate five times in the fifth inning to whip Tulsa, using four hits and Lee A. Thony's two-run error. Harry Grubb gave the Oilers only eight hits.

Residents of American cities of more than 100,000 population own 113 motor vehicles for every mile of streets in those cities.

CLEANING THE CUFF
 The Phillies have signed three of last spring's Villanova baseball team for various farm clubs—Guy Lombardo's mechanic is proud of saving his boss a half pound in the weight of his gold cup speedboat, Miss Tempo, by removing a fancy chromium gearshift lever and replacing it with an aluminum tube.

COACHING SCHOOL
 EL PASO—(AP)—The annual coaching school opening here Aug. 4 will include an employment agency.
 W. R. (Bill) Carmichael, executive secretary of the Texas High School Coaches Association, said that some of the 1,000 coaches expected to attend the week-long school would probably be looking for jobs.

Jr. Baseball Division Champions Will Square Off in Finals Aug. 1

AUSTIN—(AP)—Lubbock, Adamson (Dallas), Bryan and Austin, division champions in the American Legion Junior Baseball program, will fight it out here for the state title.

Bryan won the third division championship yesterday by defeating Stephenville two games, 11-7, and 10-8. Stephenville has protested the second game claiming that Norman Francis, Bryan first baseman, should have been called out when he was hit by a batted ball while standing on first base. He later scored. A committee will decide upon the protest.

Austin won the fourth division title by beating Saint Thomas of Houston 4-2 in an 11 inning game.

The state championship will be decided in August 1-5.

All games will be played at Ditch Field in the afternoon or evenings.

The schedule is:
 Aug. 1—3:30—(1) Lubbock vs. Adamson, followed by (W) Bryan vs. Austin.
 Aug. 2—8:20—(3) Loser of game 1 vs. loser game 2.
 Aug. 3—4:30—(4) Winner game 1 vs. winner game 2.
 Aug. 4—2:30—(5) Winner of game 3 vs. loser game 4.
 Aug. 5—7:00—(6) Winner of game 4 vs. winner 5.

If necessary a seventh game will be played immediately after game 6 to decide the state winner. It will be played by the contestants of game 6.

DEATH of a DOLL
By Hilda Lawrence
Distributed by NEA SERVICE, INC.

THE STORY: Mark int-views Miss Brady at Hope House. She tells him of meeting Ruth in a street, carrying a suitcase, and suspecting her of theft. She also says Ruth's behavior during her stay at Hope House was decidedly peculiar. She is determined to let things stand as they are.

XIX
FOR a long time the elderly maid, Agnes, knelt on the bare floor of the second floor parlor looking at what she held in her hand. The black-fringed, empty eyes looked back, the rosebud mouth curled in a crooked smile, the bright wool hair was covered with dust and cobwebs. Now what in the world, she asked herself. Now what in the living world—
She reached again into the corner where she had found the mask and drew forth the dress. It was wadded in a ball, and she shook it out, muttering, "Supposed to be turned in with the others to be stored away proper in case of future need, although I doubt if anybody'd want to put one on again." She unbraided the late wearer. "Not even folded, not even wrapped up, pushed back in the corner like it wasn't meant to be four—" She smoothed the mask and folded it, and began on the dress. Sleeves turned in, doubled over at the waist, hem—
She carried the dress over to the light. There was a spot on the hem—at least, there had been a spot once. Now there was a blistered, brownish stain that somebody had tried to wash out. Like coffee. Agnes was enraged. "Rank carelessness," she fumed. "Prancing around with a cup of coffee, acting up, no respect to the Board that's kind enough to give parties at no additional cost." She paused. "But they didn't have coffee, they had punch; and sure's you're born that's coffee. Must have been one of those that keeps food in her room, attracting mice." She took the mask and dress to

"Oh, no, Miss Brady. April and I never did that. It's just that I've got a headache and nobody on our floor has any aspirin. I thought you might be awake and—"
"Certainly. There's headache stuff in the bathroom, all sorts. Go in and help yourself."
"I'll get it," Miss Small said. "Sit down, Lillian. We're very glad we can help." She left the room quietly.
"Coffee?" Miss Brady asked. "Although you probably shouldn't have it."
"I guess not," Lillian agreed. She dropped over the back of a chair. "We had some up in our room. Just Dot and the two of us." Something in her voice sharpened Miss Brady's scrutiny. "You look as if you had things on your mind, Lillian."
Lillian raised sleepy, candid eyes. "Oh, no, Miss Brady. I don't feel well, that's all. And April—you know it's queer rooming with a girl like April. I know I wanted to do it, and I still do, but it makes me, well, nervous."
Miss Small returned with aspirin. "I understand," she said. "I've been wondering if it wasn't a bad idea in the first place. I've even been wondering if we ought to close that room up, temporarily. Although I don't know what we'd do for additional space. But no matter what we do, Lillian, you must try not to think of what happened. It was a dreadful thing, but you must try to think of it impersonally."
"That's it," Miss Brady agreed. "It isn't as if we'd really known the poor wretch. I suppose that sounds heartless, doesn't it?"
"No, Miss Brady."
"Well, take your aspirin and get along. Good night."
After she had gone, Miss Small absent-mindedly heated the coffee. "I don't think Lillian had a headache. She's disappointing me again. She's gone back to that queer, secret manner. I'm ashamed of myself, I really am, but I keep thinking that Lillian may have known Ruth before; you know, known her somewhere else. Lillian was in the lobby when Ruth came, and Ruth was frightened, I told you that—"

(To Be Continued)

STRANGE FOODS
Among the delicacies served at the czar's dinner table in old Russia were herring cheeks, salmon lips, calves' ears, pigeons' tongues, and bulls' eyes.
Liberia and Haiti are the only two Negro republics in the world.

Texas Master Masons Will Hold Meeting
CRANE—(A)—Hundreds of Texas Master Masons are expected here Saturday for the Crane Masonic Lodge's annual El Fresco meeting in the hills southeast of the city. Fourteen West Texas lodges will be hosts to the Rev. R. Bruce Brannon of Commerce, grand master of the Grand Lodge of Texas, and other state officers. Last year 1200 members from 140

lodge of the United States, Hawaii, Bermuda and Canada attended the meeting.
Bagpipe Band Will Perform This Trip
SAN FRANCISCO—(A)—The All-Girl Highlander Bagpipe Band of the University failed to appear at the Golden Gate Exposition in 1939 after James C. Petrillo, AFL Musicians union head, ruled standby musicians would be required. Today the 48-girl band is playing

here for the Lions International Convention, with no professionals standing by.
Band Director William L. Adamson explained those are not musical instruments the girls are playing; that history books call them "instruments of war."
NO PATENTS
Benjamin Franklin never asked for, nor received, a patent for any of his inventions or discoveries, although he is ranked as the greatest inventive genius of his age.

Chamber of Commerce To Make Field Trip

SHAMROCK — (Special) — The Chamber of Commerce is anxious to get a large group of local men to make a field trip to Reydon, Okla., on Tuesday, August 12, to see the results of re-sodding blown and washed land to grass.

Directors of the Chamber of Commerce believe that a re-sodding program on an extensive scale would be worth thousands of dollars to Wheeler County.

Persons interested in making the trip to Reydon are asked to contact Hubert Tindall.

Carson Co. Harvest Nears Completion

PANHANDLE — (Special) — The record-making wheat harvest in Carson County is 95 percent completed according to reports compiled by the County Agents office. Some farmers in the eastern part of the county have been delayed by a two inch rain which fell Sunday night.

Harvest has been greatly handicapped on account of the shortage of box cars.

Some yields as high as 52 bushels have been reported on small tracts and several farmers averaged more than 40 bushels with 25 bushels about the average throughout the area. Hailed out sections of the county however brought the overall average much lower.

Combines have been leaving the county all week, and except for plowhands, labor is plentiful.

The largest sunspot groups ever observed appeared in January, 1946.

Erosion War Begins After 5-Year Lapse

CHICAGO — (P) — America's greatest natural resource—her fertile soil—has been wasting away rapidly, but the war against erosion once again is well under way after suffering a five-year lapse in many areas.

It is estimated more than 1,000,000,000 acres of the nation's 1,700,000,000 acres of crops, grass, and timber already show erosion damage. The main causes of erosion have been water, wind, and man himself through plowing, cutting of timber, over-cropping and over-grazing.

Of the resulting scarred land throughout the nation, Clinton P. Anderson, Secretary of Agriculture, estimated 282,000,000 acres have been ruined or almost hopelessly damaged. He adds there are "only 400,000,000 acres of good cropland remaining," and estimated the annual cost of erosion at about \$4-100,000,000.

But since World War II, an Associated Press survey shows, land owners and government soil conservationists have stepped up a strident fight to plug the vast leakage of wealth. The War Department, too, has joined up.

As for the water erosion, phase, campaigns are built around a pincer movement of flood control dams and channel deepening on the main streams and a water-holding operation in the development of entire watersheds on the tributaries.

The first combined operation to get under way in the watershed of the Little Sioux River in North-western Iowa, initial land work started last spring, and the first structures have been completed.

R. H. Musser, head of the eight-state regional U. S. Soil Conservation Service office at Milwaukee, Wis., reports farmers in the watershed set up a voluntary 15-year program to stop their farms from riding downstream into the Gulf of Mexico.

He estimates the farmers will profit \$2.05 to \$2.52 an acre annually for every \$1 invested, and the public will recover \$1.14 to \$1.82 for each \$1 its government puts in through the saving of topsoil and the elimination of flood damage to crops and buildings.

During recent floods in Illinois, Iowa, and Missouri, enough topsoil washed away to cover 325,000 acres to a six-inch depth and the damage cost was estimated at \$500,000,000, including \$283,000,000 for soil loss and \$188,000,000 for crop loss, U. S. Soil Conservation officials said.

Students Learning To Make Ice Cream

LUBBOCK — Dairy manufacturers students at Texas Technological College are learning to make ice cream with the most modern equipment in the industry, according to Prof. K. M. Renner, department head.

The department has recently put into use a new creamery package continuous freezer with a capacity of 40 to 80 gallons per hour and a new low pressure homogenizer to make ice cream mix at the rate of 200 gallons per hour. A batch freezer and a high pressure homogenizer had been in use for some time.

Mexican Star Charged In Copyright Case

MEICO CITY — (P) — Mario Moreno "Cantinflas," Mexico's leading film and stage comedian was named defendant in an action filed with federal court yesterday alleging infringement of copyright in connection with the 1943 movie "Un Dia con El Diablo" ("A Day with the Devil").

The action was filed by Puebla playwright Ernesto Vasquez Lopez. The court has instructed Cantinflas to appear for a preliminary declaration.

First Report on Investigation Of Foot, Mouth Disease Is Made

By Congressman Worley

In Old Mexico, it's called "Aftosa." In the United States, it's called "Foot and Mouth" disease. But no matter what it's called, it still remains one of the most dangerous diseases to which cattle or any other cloven-hoofed animal can be exposed. The United States has had several outbreaks in its history which have done millions of dollars in damage. The disease is now raging in certain areas of our neighboring republic to the south and Congress has been extremely concerned with devising ways and means to help the Mexicans eradicate it and thereby remove the dangers to our own herds of cattle, hogs, sheep and goats.

Since the only known and positive effective way to combat the spread of this disease is immediate slaughter and burial in quick lime of infected or exposed cattle, the spread of Foot and Mouth disease to the United States could conceivably have these results—the immense loss of slaughtered cattle; expenses necessary to carry out such a program; curtailment in rail and truck transport of livestock; the closing down of packing plants throughout the country; and a consequent reduced market for feed by farmers in the Middle West; a crippling blow to the dairy, butter and cheese industries; and higher prices for meat and related products.

These things could come to pass if the foot and mouth disease gains any headway in this country. Congress, being fully alive to these dangers, recently sent a subcommittee to Old Mexico to make a firsthand investigation and report. The Congress desired an eye-witness report from its own members before additional monies were made available to continue the fight. The subcommittee made a report of its findings and for the information of the people in my district, I submit the first portion in today's column. Additional reports will follow.

Local 4-H Leaders in Texas Get Training In Farm Tractor Care

Twenty-one selected volunteer local 4-H Club leaders in Texas have received special training at state clinics in the 1947 National 4-H Tractor Maintenance Program, according to records of the National Committee of Boys and Girls Club Work. This is the first year that Texas has taken part in the program, which is supervised by the State Agricultural College Extension Service.

Studies at the clinic include carburetion, ignition, cooling systems, lubrication, valve adjustment and other essentials for efficient tractor operation. Upon completion of course, the local leaders instruct club members and may assist in training other leaders in the proper care and maintenance of farm tractors.

Superior records of club boys taking part in the 1947 program will be considered for merit awards provided by Stanolind Oil and Gas Co. County winners will receive sterling silver medals of honor. The number of medals to be awarded will be determined by the state club office.

The state champion selected from the county winners will be awarded a trip to the Chicago 4-H Club Congress. Funds are also provided for the selected local 4-H leaders to attend the state clinics.

Specific Agriculture Program Is Advocated For Missouri Basin

FORT COLLINS, Colo. — (P) — A field representative for the U. S. Department of Agriculture, G. E. Young of Lincoln, Neb., believes that engineering features of the Missouri Basin development program have far outstripped agricultural benefits.

Speaking at the opening session yesterday of the Great Plains Council, composed of representatives of federal and western states agriculture agencies, Young declared the greatest need was for a more specific agriculture program in the project which stresses power and navigation features as well as flood control and irrigation.

In another address, C. F. Brannon, assistant Secretary of Agriculture, declared that with the western frontier gone, the utilization and conservation of western lands was of prime importance to the entire nation.

He said every effort should be made to include irrigation, flood control, power, and where possible, navigation features, in all water programs.

Among states represented at the meeting, which ends tomorrow, are Colorado, Wyoming, Nebraska, Kansas, New Mexico, North and South Dakota, Oklahoma and Texas.

Conservation Tour Is In Greenville Area

DENISON — (P) — A soil conservation tour moved on to Greenville yesterday after visiting industrial agricultural points of interest in the Denison area and holding a meeting last night which attracted more than 400 farmers, merchants and business men.

The meeting, held at Munson Stadium, climaxed the first day of the five-day tour sponsored jointly by the Second National Bank of Houston and the Missouri-Kansas-Texas Railroad. The tour will visit Greenville, Waxahachie, Taylor and Smithville during the next four days.

One of the highlights of the day's activities was a visit to a 480-acre farm, to observe soil conservation as practiced by John and Keith Durham. The farm was pronounced by agricultural experts in the touring party as one of the finest examples of soil conservation in Northern Texas.

Built in 1732, Flour Mill Still Operates

A human interest story of the flour milling industry appeared not long ago in the Evening Sun of Baltimore, Md. An enterprising reporter uncovered an old flour mill at Mason Springs, Md., which had been built in 1732—and is still operating today.

The Diggs Mill has been owned and operated for the past 50 years by E. E. Millard, 81, who has been a flour miller all his life. The mill run which once turned the master cogwheel has failed and an oil burning "bulldozer" type engine does the work today. The wheat lands which once were the reason for the existence of the mill are growing up to bushes and scrub pine, and very little bread is baked in the country residences of people who now make their living in Washington. An electric power line passes within a few feet of the mill, but Millard sees no need for electrical connections.

Soft-wheat flour is his stock in trade. This makes fine biscuits and pastry, said the Sun reporter. The few remaining farmers bring their bushels of wheat to Millard who keeps the bran middlings in return for milling the flour. The sale of these makes a modest living in a two-story house near the mill. As the speeding automobiles whooshed by on the highway which skirts the mill Millard told the reporter he had no high hopes and little sentiment. Reckon it'll last me out," he said.

control, power, and where possible, navigation features, in all water programs.

Among states represented at the meeting, which ends tomorrow, are Colorado, Wyoming, Nebraska, Kansas, New Mexico, North and South Dakota, Oklahoma and Texas.

I can conceive of a situation where the old party becomes so utterly conservative that a new party could start and, in one national election, win so much strength that it could win in the next.

—Henry A. Wallace.

in the number of Russians attached to diplomatic, economic and military missions in the United States... They are not especially enthusiastic about Mr. Truman, but they fear that the defection of Liberals or a third party will insure the election of a "reactionary Republican."...

SEVERED—Russia has three consultants in the U. S., as well as the Embassy at Washington. After long delay, we have succeeded in opening a consular office at Leningrad, in addition to the Embassy at Moscow and a consulate at Vladivostok.

Inasmuch as the Soviet's transactions here are negligible, Washington asked Russia to cut down the size of its purchasing commissions as early as May of 1946. We made the same request of other nations. Moscow reduced its force from 708 to 228, but sixty were shifted to Amtorg.

UNCOOPERATIVE—The fact is that the United States is not now extending hospitality to visitors from Russia or from any of her satellite nations, if they are known to be Communists. It is believed here that the rebuff to the curious Congressmen was retaliation for our sterner policy, which was adopted by President Truman after consulting Secretary Marshall and George Bedell Smith, our Ambassador to Moscow.

Down on the Farm— Strange Things Occur
By the Associated Press
Down on the farm: Mrs. J. F. Sanders of Stephenville planted tomatoes and potatoes close together in her garden, but the result was unexpected.

Down at Rosebud, a jersey cow belonging to the Lierman Dairy gave birth to twin calves. The first calf was born on a Wednesday. The mother later went back to the pasture with the dairy herd.

Pampa News, Thursday, July 31, 1947. Page 13
back, produced 32 bushels of wheat to the acre, and the harvest was a record breaker in the area. Mr. Baggary asks that all you editors who printed that first picture use a new one showing the beautiful wheat crop. You know how you'd feel if it happened to you. And it does—show how Texas can bounce back after a disaster.

Speaking of the weather (and we were dust storms, you know) would you be interested in a snowplow, used but in good condition? The War Assets Administration says it has three. The largest sunspot ever noted had an area of 4,440,000,000 square miles, or more than 22 1/2 times the surface area of the earth.

NO POLIO—THAT'S NEWS!

About a year ago the County Commissioners Court voted to hire a county health officer. This move came at a time when insanitary conditions in practically all communities were reported. It was also at a time when a half dozen children had been stricken with polio and during a year when at least three children died from the disease. Since that time, polio, which is believed to abound in insanitary conditions and to be carried by flies which thrive on filth, has made little headway in this county. Extensive spraying has been done by county and the various city officials, in addition to a much-improved effort for more cleanliness on the part of the individual citizens. Not all credit, of course, goes to the health officer. Wide use of DDT has been advocated successfully. This was not done to sell DDT for the manufacturers, but rather because it has been found to be quite effective in eradication of infested vermin. As we said, this program has been successful. People are learning more and more about how to use this so-called "wonder insecticide."

This is commendable progress in preserving the health of the community. Not only has it been commendable in this county, but it also is reported to have made great strides in all communities throughout the land.

Polio should be conspicuous by its absence, but, needless to say, many persons had not thought about its absence.

We point this out as a matter of news, for it is news—and a much better sort—that there has been no polio cases reported in this county this year.

OUR HERITAGE

If Harry Truman had not been president, we would not have known about the lingering illness and subsequent death of his Missouri mother. His mother was a pioneer woman, and had no heritage that we speak of in terms of history. And Harry is a "country boy" who happened to be in the right place at the right time.

It would have done him no good to be in the "right place at the right time" if he had lived in most of the other countries of the world. The presidency of his country, in such case, would have passed to "blood," and by no democratic process.

We have a heritage, and witness it in this quiet drama of the Mid-West. It is not out of the bounds of reason for a Pampa boy, now growing up and hearing no more than mention of the Missouri woman, one day to be president.

Gracie Reports

By GRACIE ALLEN

Well, I see that a 14-year-old wife in Tennessee presented a baby to her 18-year-old husband. My goodness, if they keep on getting married younger, the time will come when the bride will run in to the wedding ceremony by saying "Da da" instead of "I do."

In some ways I think it's very smart to marry and have children as soon as possible. It would save lots of money if the doctor could come in and treat the mother, the father and the baby for whooping cough and measles at the same time.

But for certain people it's not such a good idea. For instance, if my brother Willy had become a father at the age of 16 it would have been very embarrassing for him. In just a few years his child would have caught up with him in the first grade at school.

You haven't seen free competition and, therefore, you are discouraged. But I still think we are going to get it back one of these days.

—Sen. Robert A. Taft (R) of Ohio.

QUICKIES

By Ken Reynolds

—Sen. Robert A. Taft (R) of Ohio.

Hollywood Probe Seen Sensational

WASHINGTON—(AP)—The investigation of Communism in Hollywood, scheduled by the House Committee on Un-American Activities to begin Sept. 23, got advance billing today as stupendous and colossal.

Almost that is. "It will be sensational," Rep. Nixon (R-Calif.) predicted.

A member of the committee, Nixon told reporters: "We intend to name names and to produce witnesses who will testify they have seen some persons prominent in Hollywood at Communist meetings and who will report what they said."

Just how many first dimension stars will be brought into the hearings is not yet certain. Nixon said he thinks most big name stars who may figure in the inquiry will be listed as tinged with pink rather than as bright red Communists.

The Californian indicated a personal view that the committee might accomplish more by training its fire on Communists in the government, education, labor and other fields.

Nixon said little evidence has been uncovered that Communists ever have been able to get a complete party line picture produced. But there have been instances of small bits of Red propaganda getting into films, he said, and the committee will try to trace how they got there.

Young Deckhand Is Lost at Sea

HOUSTON—(AP)—Nineteen-year-old W. R. Rogers, a deckhand on the tug boat Tom Webb, was lost at sea during the night when he fell from a ladder leading to the deck-house.

The Chatanooga, Okla., youth screamed for help, but went out of sight before the boat, tugging four barges from Baton Rouge, La., to Houston, could turn about.

Unless Russian expansion is stopped Europe is doomed to enslavement and the world will face a new global war.

—Gen. Charles de Gaulle.

Summing Up—No. 3. by Peter Edson

(This is the third of a series of dispatches discussing the accomplishments of the Economic Recovery Administration—ERA)—On half a dozen fronts, efforts are now being made to determine the economic strengths and weaknesses of the United States.

The president has three committees at work on the subject under the Secretary of Interior J. A. Krug, Secretary of Commerce Averell Harriman, and Chairman Edwin G. Moore of the Council of Economic Advisers. He sent to Congress a mid-year economic report, which, coming when Congress was about to adjourn, could get scant attention.

The Joint Congressional Committee on the Economic Report ignored completely the President's first message sent to the capitol under the full employment act. That may set a precedent for ignoring the mid-year report. But this Joint Committee, chaired by Sen. Robert A. Taft, has just concluded a month's hearing of its own on this same subject. It will take no action before the next session of Congress.

Elsewhere in Congress, the House Committee on Agriculture is completing long hearings, preparatory to writing a new farm program next year. And the House Ways and Means Committee has begun hearings on a long-range tax policy which, in final analysis, must be based on the country's economic condition.

Studies Urovide Basic Information

All these studies are tremendously important. For if the United States is to determine where it's going, it must first learn where it is. Nobody really knows the answer to either question today.

It is important to make these determinations for two reasons. First, to find out how much aid the United States can give Europe under the Marshall plan. Second, to find out what the United States wants to do at home for its continued growth and attainment of still higher standards of living.

In the session of Congress just closed, the Republican and conservative Democratic majorities have not had to worry too much about unemployment. Employment has reached an all-time high of over 60 million jobs. In prosperity such as this, few people worry about anything.

This boom has brought with it definite increases in price levels. The squeeze put on wages has been tremendous. While few people may admit it, the United States is actually suffering from a good dose of inflation. This is its first real experience with the disease. But if history is any teacher, spiraling of wages to meet prices and vice versa can end only in economic trouble.

In every U. S. war—Revolution, 1812, Civil, Spanish-American and World Wars One and Two—prices have gone sky high. But after the wars they have always gone down sharply, into a depression. The Republican philosophy today seems to be built on the belief that this time it isn't going to happen. After other wars the country has always gone back to approximately the same standard of living it had before the war began. Now the theory is that the United States is going on to a higher standard of living.

Big Debt A Consideration

There is one good reason for wanting the U. S. to continue for a time on a higher plane of living and price levels. It is based on the fact that the U. S. government debt is now \$257 billion. Ten years ago it was thought that the country would be able to pay off the debt above \$60 billion.

It is purely a theory, but it may be that the only way to manage this debt and pay it off is in inflated dollars. To reduce prices and wages by a third, to bring them back to prewar levels, would have the effect of making the national debt only that much bigger and harder to pay off.

At any rate, only in the last 10 days of the session, prodded by Republican Sen. Raymond E. Blount of Connecticut, did the Congress show any signs of worry about inflation. All it did then was appoint a committee to investigate.

If a recession does come, its timing is important politically. If it comes within the next year, Republican chances for a victory in 1948 will be lessened. If it comes after 1948, the Republican victory may be short-lived.

King Ranch Pays High Price for Yearling

LEXINGTON—(AP)—Keeneland's summer sales of thoroughbred yearlings yesterday continued far off last year's record smashing figures, returning an average of slightly better than \$7,000 compared to more than \$10,000 for the entire sales in 1946.

Highlight of yesterday's sales was the \$37,500 paid by King Ranch of Texas for a half brother to Twilight Tear, leading three-year old winner of 1944. The chestnut colt was by Whirlaway-Lady Lark.

One African snail can eat a whole lettuce at one meal.

Common Ground

By E. C. HOILES

Home Owners Benefit Every Other Worker

Few men who own their own homes and have them paid for really realize that they are not helping themselves, but they are helping every other worker in the land. Not only are they helping every other worker, but every other person in the land. They are doing this because instead of having their home owned by another person and thus reducing the capital that could go into tools, they are supplying this wealth themselves.

Of course it isn't necessary to own a home and have it paid for in order to help every other worker. The owning of an equal equivalent invested in tools would help every other worker.

Now that homes are so costly and due to rent control they are so difficult to rent, a great deal of capital that would be used in productive business is now being converted into owning homes for the workers to live in. Thus this diversion of capital reduces the tools that are available for the workers and every other worker thus can produce less and thus earn less.

Just recently an employer advertised a job and said there was a five room house that went with the job. The job was filled at once.

So every time a worker saves and buys his own home and pays for it, he is a benefit to every other worker in the land. That should be a satisfaction to a home owner besides the joy and happiness he gets out of owning his own home which he can take care of and beautify and enjoy without having to get the consent of some landlord.

Industry Creates Unemployment

One of the late bulletins by the Federal Council of Churches of Christ in America talks about industry creating unemployment. The very thing that creates employment is the cause of creating unemployment. It is not industry, as the Federal Council of Churches of Christ in America would lead the public to believe, which causes unemployment, it is a bad government that is the cause. The bad government is largely due to miseducation of men due to such leaders as the head of the Federal Council of Churches of Christ in America.

Unemployment is due to such laws as minimum wages, progressive taxation, federal reserve laws permitting banks to pyramid credit and leading the people to believe that the government is policing the banks and issuing credit. Unemployment is due to class legislation of one kind or another advocated by the church Federation.

The claim that industry creates unemployment is just as absurd as to claim that the cock crowing in the morning causes the sun to rise. It is no wonder the head of the Federal Council of Churches of Christ in America is so busy submitting an interview for \$1,000. He would be very comfortable, his ego would be punctured, he would lose a lot of his influence that he enjoys in speaking before people.

Only One Reason For Booms and Busts

In the final analysis, there is only one reason for booms and busts and unemployment. That reason is the government attempting to do something that it has no moral right to do, and neglecting to do the things which it has a moral right to do.

The state has no moral right to take from one to give to another. It has no ability to regulate the value of money, or anything else. It is bound to do so because it has no moral right to try to educate the youth of the land. It has no right to do this because it has to use coercion in order to get the money to pay for the teachers. It has no moral right to draft soldiers; it has no moral right to restrict immigration or establish tariffs.

This country has been most prosperous than any other country in the past. It has done this because of the moral acts it is not capable of doing than any other country in the world. The more our government attempts to do these things, the more booms and busts we will have.

The United States must continue making atomic bombs, because we can not afford to deceive ourselves in the present state of the world.

—Sen. Brien McMahon (D) of Connecticut.
